Re: FOIA No. FY23-100,
Response Letter

VIA EMAIL

Andrew Bateman
Deputy Executive Director
South Carolina Office of Regulatory Staff
1401 Main Street, Suite 900
Columbia, SC 29201
abateman@ors.sg.gov

Dear Mr. Bateman:

This is a response to your correspondence dated June 18, 2023, in which you requested information pursuant to the Freedom of Information Act (FOIA) and the Federal Energy Regulatory Commission's (Commission) FOIA regulations.¹ You have requested the following:

“Any and all documentation and correspondence related to [EPA’s proposed rule published in Federal Register, Volume 88, No. 99] consultation between the EPA and the Federal Energy Regulatory Commission.”²

A search of the Commission’s non-public files has identified 29 email communications and other documents that may be responsive to your request. As explained below, six of these documents are released with redactions taken pursuant to FOIA Exemptions 5³ and 6⁴, and 23 documents are withheld in full pursuant to Exemption 5.

¹ 5 U.S.C. § 552 (2018); 18 C.F.R. § 388.108 (2023).

² You clarified that the date range for this request is for April 21, 2022, through June 21, 2023.

³ 5 U.S.C. § 552(b)(5) (incorporating various privileges, including the deliberative process privilege).

⁴ 5 U.S.C. § 552(b)(6) (protecting certain files whose release would constitute a clearly unwarranted invasion of personal privacy).

FOIA Exemption 5

FOIA Exemption 5 protects from disclosure certain intra-agency and inter-agency documents, and incorporates various privileges, including the deliberative process privilege, which is at issue here. Courts have consistently held that three policy purposes constitute the basis for the FOIA Exemption 5 deliberative process privilege: (1) to encourage open, frank discussions on matters of proposed policy between subordinates and superiors; (2) to protect against premature disclosure of proposed policies before they are finally adopted; and (3) to protect against public confusion that might result from disclosure of reasons and rationales that were not in fact ultimately the grounds for an agency's action. *See Russell v. Dep't of the Air Force*, 682 F.2d 1045, 1048 (D.C. Cir. 1982); *see also EPA v. Mink*, 410 U.S. 73, 87 (1972) (recognizing that “[i]t would be impossible to have any frank discussions of legal or policy matters in writing if all such writings were to be subjected to public scrutiny.”).

Here, the 23 withheld e-mails and documents, and the redacted materials from e-mails, are comprised of inter-agency work product from and to the Office of Management and Budget (OMB) and intra-agency communications and draft documents, all of which contain the type of deliberative information Exemption 5 was created to protect. Specifically, the documents were prepared in anticipation of the EPA's proposed rulemaking, which has not yet been finalized. Release of the pre-decisional material would create the foreseeable harm of discouraging Executive branch officials from consulting with one another during the decision-making process. *See Russell*, 682 F.2d at 1048.

Moreover, because the factual information contained within the documents are so inextricably intertwined with the deliberative material, withholding the documents in their entirety is appropriate. *See STS Energy Partners LP v. FERC*, 82 F.Supp.3d 323, 331 (D.D.C. Mar. 4, 2015) (quoting *Mead Data Ctr., Inc. v. U.S. Dep't of the Air Force*, 566 F.2d 242, 261 (D.C. Cir. 1977)).

FOIA Exemption 6

FOIA Exemption 6 protects personnel or similar files that if disclosed would constitute a clearly unwarranted invasion of privacy, including names, phone numbers, and personal information of private citizens. Here, the redacted portions of the documents concern names of non-senior staff, telephone numbers or other personal contact information, and teleconference numbers and access passcodes. This information is redacted to prevent the foreseeable harm that disclosure could invite unwanted intrusions or result in an unwarranted invasion of personal privacy.

The six documents are enclosed. As provided by the FOIA and 18 C.F.R. § 388.110(a)(1) of the Commission's regulations, any appeal from this determination must be filed within 90 days of the date of this letter. The appeal must be in writing, addressed

to Matthew Christiansen, General Counsel, and emailed to FOIAAPPEALS@ferc.gov. If you do not have access to email, a hard copy may also be sent via traditional mail to Matthew Christiansen, General Counsel, with a copy to Charles A. Beamon, Associate General Counsel, General and Administrative Law, at Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426.

You also have the right to seek dispute resolution services from the FOIA Public Liaison of the agency or the Office of Government Information Services (OGIS). Using OGIS services does not affect your right to pursue your appeal. You may contact OGIS by mail at Office of Government Information Services, National Archives and Records Administration, Room 2510, 8601 Adelphi Road, College Park, MD 20740-6001; email at ogis@nara.gov; telephone at 301-837-1996; facsimile at 301-837-0348; or toll-free at 1-877-684-6448.

Good Morning,

I just received a phone call from OMB with some informational updates from EPA. (b) (5)

Given this change, please let me know who, from your respective offices, you'd like to participate on the call. Matt and David M. – I will continue to keep (b) (6) in the loop.

Secondly, EPA is not available from 10-11 on Friday; but is available in the afternoon. Once I get all staff names who should be involved, I'll float that timeframe to them.

Thank you for working through these changes with me!

Good Afternoon, Jignasa and David:

(b) (5)
As EPA is (b) (5), they'd like the meeting to happen either Thursday or Friday of this week. What do those days look like for you both? If you provide your availability, I'm happy to coordinate the scheduling of a meeting. Please feel free to forward this email to others within FERC

Adding OGC for their awareness as well.

Thank you,

Hi Kal,

Attached are the notes from a FERC-EPA interagency call this past Friday.

Please let us know if you need anything else.

Thanks!
