4.1 - Additional Information

(max 2000 character limit per item)

Provide a Summary Narrative that describes your project

Bring high-speed fiber-to-the-home internet to an area in Eureka, SC that is currently unserved or underserved.

Describe how your proposal meets the needs of the community to be served as described in the "Guidelines."

This area of Eureka contains individuals that have limited to no access to the internet, including students. These individuals are unable to participate in society in the same capacity that others are simply because they do not have reliable access to the internet.

If the proposed Project is in an area that is subject to an existing federal or state funding commitment for reliable speeds of 100/20 Mbps, explain why there is an identified need for additional broadband investment that is not met by existing federal or state funding commitments.

Describe any plans or programs you have developed to improve adoption in the community described in this proposal.

Doorknockers, Letters/Postcards, Calling Residents

As part of the Project, explain how the Applicant will make efforts to increase digital literacy, for example, support through online training?

Applicant frequently trains users how to do many online projects and connectivity products during installation, at community centers, and on the phone.

As part of the Project, identify any areas that the Applicant would be willing to provide public Wi-Fi in a central or community location to improve access for all South Carolinians and for what period of time.

List documents that demonstrate your organization currently has the necessary funds to complete this project/proposal. Attach documents to this proposal.

List any lease, franchise agreement, interconnection agreement, authorization, permit, or other items needed to complete this project.	
Joint-use agreements	
Will the Project deliver broadband in the approved Project Service Area that meets or exceeds symmetrical download and upload speeds of 100/100 Mbps?	Yes
If no to above, explain and provide support demonstrating why the Project will not deliver such speeds and provide an affidavit that 100/100 Mbps symmetrical download/upload speeds are not practicable.	
Explain how the Applicant will consult with the community in the Project Service Area on the general affordability needs of the target markets.	
CarolinaConnect constantly informs those in the project area about affordability options and how to process them	
Will the Project (1) prioritize investments in fiber-optic infrastructure wherever feasible and focus on projects that deliver a physical broadband connection by prioritizing projects that achieve last mile connections or ensure funded middle mile projects have commitments in place to support new and/or improved last mile service; (2) include affordability options and shall participate in ACP for the life of ACP; and (3) prioritize support for local networks owned, operated, or affiliated with local governments, nonprofits, and cooperatives.	Yes
If no to above, explain.	

<p>If awarded, will the Grant funds be used to overbuild another existing broadband provider or to reimburse expenses related to overbuilding another broadband provider?</p>	<p>No</p>
<p>If yes to above, explain.</p>	
<p></p>	
<p>Is there an identified need in the Project Service Area for additional broadband infrastructure that is not met by existing federal or state funding commitments?</p>	<p>No</p>
<p>If so, explain whether service to households and businesses in the Project Service Area should require a holistic approach that provides service to a wider area in order to make ongoing service of certain households or businesses within the service area economical.</p>
