Other changes in plan assets and benefit obligations recognized in regulatory assets were as follows:

The Company	Pension Benefits			Other Postretirement Benefits		
Millions of dollars	2017	2016	2015	2017	2016	2015
Current year actuarial (gain) loss	$ (27.1)	$ 29.4	$ 9.2	$ 9.4	$ 11.1	$ (18.0)
Amortization of actuarial losses	(14.1)	(12.7)	(11.9)	(0.8)	(0.4)	(1.8)
Amortization of prior service cost	(1.4)	(3.4)	(3.7)	—	(0.3)	(0.3)
Total recognized in regulatory assets	$ (42.6)	$ 13.3	$ (6.4)	$ 8.6	$ 10.4	$ (20.1)

Consolidated SCE&G	Pension Benefits			Other Postretirement Benefits		
Millions of dollars	2017	2016	2015	2017	2016	2015
Current year actuarial (gain) loss	$ (24.8)	$ 26.3	$ 12.2	$ 7.3	$ 9.2	$ (14.0)
Amortization of actuarial losses	(12.5)	(11.2)	(10.4)	(0.7)	(0.3)	(1.5)
Amortization of prior service cost	(1.3)	(3.0)	(3.1)	—	(0.2)	(0.3)
Total recognized in regulatory assets	$ (38.6)	$ 12.1	$ (1.3)	$ 6.6	$ 8.7	$ (15.8)

Significant Assumptions Used in Determining Net Periodic Benefit Cost

	Pension Benefits			Other Postretirement Benefits		
	2017	2016	2015	2017	2016	2015
Discount rate	4.22%	4.68%	4.20%	4.30%	4.78%	4.30%
Expected return on plan assets	7.25%	7.50%	7.50%	n/a	n/a	n/a
Rate of compensation increase	3.00%	3.00%	3.00%	3.00%	3.00%	3.00%
Health care cost trend rate	n/a	n/a	n/a	6.60%	7.00%	7.00%
Ultimate health care cost trend rate	n/a	n/a	n/a	5.00%	5.00%	5.00%
Year achieved	n/a	n/a	n/a	2021	2021	2020

The estimated amounts to be amortized from accumulated other comprehensive loss into net periodic benefit cost in 2018 are as follows for the Company. For Consolidated SCE&G such amounts are insignificant:

Millions of Dollars	Pension Benefits	Other Postretirement Benefits
Actuarial loss	$ 0.5	$ 0.1

The estimated amounts to be amortized from regulatory assets into net periodic benefit cost in 2018 are as follows:

	The Company		Consolidated SCE&G	
Millions of Dollars	Pension Benefits	Other Postretirement Benefits	Pension Benefits	Other Postretirement Benefits
Actuarial loss	$ 10.2	$ 1.8	$ 9.0	$ 1.5
Prior service cost	0.4	—	0.4	—
Total	$ 10.6	$ 1.8	$ 9.4	$ 1.5

Other postretirement benefit costs are subject to annual per capita limits pursuant to the plan's design. As a result, the effect of a one-percent increase or decrease in the assumed health care cost trend rate on total service and interest cost is not significant.

401(k) Retirement Savings Plan

SCANA sponsors a defined contribution plan in which eligible employees may defer up to 75% of eligible earnings subject to certain limits and may diversify their investments. SCE&G participates in this plan. Contributions are matched 100% up to 6% of an employee’s eligible earnings. Such matching contributions made by the Company totaled $27.9 million in 2017, $27.5 million in 2016 and $26.2 million in 2015. These matching contributions included those made by Consolidated SCE&G, which totaled $23.4 million in 2017, $22.9 million in 2016 and $21.8 million in 2015. Employee deferrals, matching contributions, and earnings on all contributions are fully vested and nonforfeitable at all times.

9. SHARE-BASED COMPENSATION

The LTECP provides for grants of nonqualified and incentive stock options, stock appreciation rights, restricted stock, performance shares, performance units and restricted stock units to certain key employees and non-employee directors. The LTECP currently authorizes the issuance of up to five million shares of SCANA's common stock, no more than one million of which may be granted in the form of restricted stock.

Compensation cost is measured based on the grant-date fair value of the instruments issued and is recognized over the period that an employee provides service in exchange for the award. Share-based payment awards do not have non-forfeitable rights to dividends or dividend equivalents. To the extent that the awards themselves do not vest, dividends or dividend equivalents which would have been paid on those awards do not vest.

The 2015-2017, 2016-2018 and 2017-2019 performance cycles provide for performance measurement and award determination based on performance over a single three-year cycle, with payment of awards being deferred until after the end of the three-year performance cycle. In each of these performance cycles, 30% of the performance awards were granted in the form of restricted share units, which are liability awards payable in cash, and 70% of the awards were granted in performance shares, each of which has a value that is equal to, and changes with, the value of a share of SCANA common stock. Dividend equivalents are accrued on the performance shares and the restricted share units. Performance awards and related dividend equivalents are subject to forfeiture in the event of termination of employment prior to the end of the cycle, subject to certain exceptions. Payouts of performance share awards are determined by SCANA's performance against pre-determined measures of TSR as compared to a peer group of utilities (weighted 50%) and growth in GAAP-adjusted net earnings per share (weighted 50%).

Compensation cost of liability awards is recognized over their respective three-year performance periods based on the estimated fair value of the award, which is periodically updated based on expected ultimate cash payout, and is reduced by estimated forfeitures. Cash-settled liabilities related to performance cycles totaled approximately $28.0 million in 2017, $18.4 million in 2016 and $20.8 million in 2015 for the Company and approximately $20.2 million in 2017, $13.2 million in 2016 and $6.3 million in 2015 for Consolidated SCE&G.

Fair value adjustments for all performance cycles resulted in compensation expense (benefit) recognized in the statements of operations totaling approximately $(9.0) million in 2017, $25.6 million in 2016 and $18.0 million in 2015 for the Company, of which approximately $(6.3) million in 2017, $17.3 million in 2016 and $12.2 million in 2015 for Consolidated SCE&G (including amounts allocated from SCANA Services). Such fair value adjustments also resulted in capitalized compensation costs of $(1.3) million in 2017, $3.3 million in 2016 and $2.3 million in 2015 for the Company and $(0.9) million in 2017, $3.1 million in 2016 and $0.6 million in 2015 for Consolidated SCE&G. At December 31, 2017, unrecognized compensation cost, which is expected to be recognized over a weighted-average period of 18 months, was $5.4 million for the Company and $4.1 million for Consolidated SCE&G. Large declines in stock price and relative performance in 2017 resulted in reductions of liabilities previously accrued with respect to open performance cycles. In the event of consummation of the merger, additional compensation cost arising from these liability awards may also be recognized.

10. COMMITMENTS AND CONTINGENCIES

Abandoned Nuclear Project

SCE&G, on behalf of itself and as agent for Santee Cooper, entered into the EPC Contract with the Consortium in 2008 for the design and construction of Unit 2 and Unit 3. SCE&G's ownership share in these units is 55%. As discussed below, various difficulties were encountered in connection with the project. The ability of the Consortium to adhere to established budgets and construction schedules was affected by many variables, including unanticipated difficulties encountered in connection with project engineering and the construction of project components, constrained financial resources of the contractors, regulatory, legal, training and construction processes associated with securing approvals, permits and licenses and necessary amendments to them within projected time frames, the availability of labor and materials at estimated costs and the efficiency of project labor. There were also contractor and supplier performance issues, difficulties in timely meeting critical regulatory requirements, contract disputes, and changes in key contractors or subcontractors. These matters, and others more fully discussed below, were the subject of comprehensive analyses performed by the Company and Santee Cooper (see Contractor Bankruptcy Proceedings and Related Uncertainties below). Based on the results of the Company's analysis, and in light of Santee Cooper's decision to suspend construction on Unit 2 and Unit 3, on July 31, 2017, the Company determined to stop the construction of the units and to pursue recovery of costs incurred in connection with such construction under the abandonment provisions of the BLRA or through other means.

EPC Contract and BLRA Matters

The Nuclear Project and SCE&G's related recovery of financing costs through rates has been subject to review and approval by the SCPSC as provided for in the BLRA. Under the BLRA, the SCPSC approved, among other things, a milestone schedule and a capital costs estimates schedule for Unit 2 and Unit 3. Pursuant to the BLRA, this approval constituted a final and binding determination that the units were used and useful for utility purposes, and that the capital costs associated with them were prudent utility costs and expenses and were properly included in rates, so long as Unit 2 and Unit 3 were constructed or were being constructed within the parameters of the approved milestone schedule, including specified contingencies, and the approved capital costs estimates schedule. Subject to the same conditions, the BLRA provides that SCE&G may apply to the SCPSC annually for an order to recover through revised rates SCE&G's weighted average cost of capital applied to all or part of the outstanding balance of construction work in progress concerning the Nuclear Project. As of December 31, 2017, financing costs on $3.5 billion of SCE&G's construction costs for the Nuclear Project, excluding related transmission assets, have been reflected in revised rates under the BLRA, with the last revised rates increase having gone into effect in November 2016. SCE&G estimates that revised rates collections that have accumulated as of December 31, 2017, including collections related to transmission assets expected to be placed into service, total approximately $1.9 billion.

As a result of the decision to abandon the Nuclear Project, amounts reclassified from construction work in progress into regulatory assets, net of impairments described below, are summarized as follows:

Unrecovered Nuclear Project Costs		**Millions of dollars**
Nuclear Project costs as of September 30, 2017, prior to impairment loss and excluding transmission assets	$	4,730
Less Impairment loss recorded in the third quarter of 2017 (See below)		210
Balance of unrecovered Nuclear Project costs as of September 30, 2017		4,520
Less Impairment loss recorded in the fourth quarter of 2017 (See below)		460
Less Nuclear Project and switchyard assets transferred for use by Unit 1		84
Balance of unrecovered Nuclear Project costs as of December 31, 2017 (See Note 2)	$	3,976

The SCPSC granted initial approval of the construction schedule and related forecasted capital costs in 2009. The NRC issued combined Construction and Operating Licenses in March 2012. In November 2012, and again in September 2015 and November 2016 (see discussion below), the SCPSC approved SCE&G's requested updates to the milestone schedule, revised contractual substantial completion dates, and increases in capital and other costs. As further discussed below, under the current regulatory construct in South Carolina, approval by the SCPSC of cost recovery under the abandonment provisions of the BLRA or through other means will be required as a consequence of the Company's determination on July 31, 2017 to cease construction of the Nuclear Project.

October 2015 Amendment and WEC's Engagement of Fluor

On October 27, 2015, SCE&G, Santee Cooper and the Consortium amended the EPC Contract. The amendment became effective in December 2015, at which time Fluor began serving as a subcontracted construction manager for the Consortium. The October 2015 Amendment provided SCE&G and Santee Cooper an option to fix the total amount to be paid to the Consortium for its entire scope of work on the project (excluding a limited amount of work within the time and materials component of the contract price) after June 30, 2015 at $6.082 billion (SCE&G's 55% portion being approximately $3.345 billion). This total amount to be paid would be reduced by amounts paid since June 30, 2015. SCE&G, on behalf of itself and as agent for Santee Cooper, elected the fixed price option, subject to SCPSC approval, on July 1, 2016.

Among other things, the October 2015 Amendment revised the contractual guaranteed substantial completion dates of Unit 2 and Unit 3 to August 31, 2019 and August 31, 2020, respectively, and provided for development of a revised construction milestone payment schedule. In February 2017, WEC notified the Company and Consolidated SCE&G that the contractual guaranteed substantial completion dates of August 31, 2019 and August 31, 2020 for Unit 2 and Unit 3, respectively, which were reflected in the October 2015 Amendment, would not be met. Instead, WEC provided further revised estimated substantial completion dates of April 2020 and December 2020.

November 2016 SCPSC Order

In May 2016, SCE&G petitioned the SCPSC for approval of the updated construction and capital cost schedules for Unit 2 and Unit 3 which had been developed in connection with the October 2015 Amendment. On November 9, 2016, the SCPSC approved a settlement agreement among SCE&G, the ORS and certain other parties concerning this petition. The

SCPSC also approved SCE&G's election of the fixed price option. By order dated February 28, 2017, the SCPSC denied Petitions for Rehearing filed by certain parties that were not included in the settlement, and that order was not appealed.

The construction schedule approved by the SCPSC in November 2016 provided for contractual guaranteed substantial completion dates of August 31, 2019 and August 31, 2020 for Unit 2 and Unit 3, respectively. The approved capital cost schedule included incremental capital costs that totaled $831 million, raising SCE&G's total project capital cost as then approved to an estimated amount of approximately $6.8 billion including owner's costs and transmission, or $7.7 billion with escalation and AFC. In addition, the SCPSC approved revising SCE&G's allowed ROE for the Nuclear Project from 10.5% to 10.25%. This revised ROE was to be applied prospectively for the purpose of calculating revised rates sought by SCE&G under the BLRA on and after January 1, 2017. No such revised rates have been sought since that time.

Contractor Bankruptcy Proceedings and Related Uncertainties

On March 29, 2017, WEC and WECTEC, the two members of the Consortium, and certain of their affiliates filed petitions for protection under Chapter 11 of the U.S. Bankruptcy Code, citing a liquidity crisis arising from project contract losses attributable to the Nuclear Project and similar units being built for an unaffiliated company as a material factor that caused WEC and WECTEC to seek protection under the bankruptcy laws. As part of such filing, WEC and WECTEC publicly announced their inability to complete Unit 2 and Unit 3 under the terms of the EPC Contract.

In connection with the bankruptcy filing, SCE&G, Santee Cooper, WEC and WECTEC entered into an Interim Assessment Agreement under which engineering and construction continued on the project and under which SCE&G and Santee Cooper were provided the right to discuss project status with Fluor and other subcontractors and vendors and to obtain from them relevant project information and documents that had been previously contractually unavailable in order for SCE&G and Santee Cooper to perform comprehensive analyses regarding whether or how to proceed with the Nuclear Project. As part of the Interim Assessment Agreement, and to avoid an immediate rejection of the EPC Contract upon the filing of the bankruptcy case, WEC and WECTEC required SCE&G and Santee Cooper to make estimated weekly payments to WEC, WECTEC, subcontractors and vendors, irrespective of the fixed price provisions of the EPC Contract, to permit the time to conduct analyses. SCE&G and Santee Cooper agreed to pay specified costs incurred by the Consortium, Fluor, other subcontractors and vendors for work performed or services rendered while the Interim Assessment Agreement remained in effect.

During the period of the Interim Assessment Agreement, as amended and extended, SCE&G and Santee Cooper evaluated the various elements of the Nuclear Project, including forecasted costs and completion dates, while construction continued and SCE&G and Santee Cooper continued to make payments for such work.

As part of its evaluation, SCE&G considered that, as a result of the bankruptcy process (including WEC and WECTEC's public announcements that they could not perform under the terms of the EPC Contract), the EPC Contract would likely be rejected and that the benefit of the fixed-price terms provided by the EPC Contract would be lost. As such, any cost overruns that would have been absorbed by the Consortium would become the responsibility of SCE&G and Santee Cooper. Additionally, these cost increases and other costs identified by SCE&G would not be fully recoverable from the Consortium or from Toshiba under its payment guaranty or the related Toshiba Settlement, discussed below, and such costs would likely substantially exceed the amount of the Consortium's payment obligations guaranteed by Toshiba.

SCE&G also considered that even the newly revised substantial completion dates identified by WEC of April and December 2020 for Unit 2 and Unit 3, respectively, likely would not be met. As such, the electricity to be produced by each of the units would not qualify for nuclear production tax credits under Section 45J of the IRC. SCE&G's 55% share of these nuclear production tax credits for both Unit 2 and Unit 3 could have totaled as much as approximately$1.4 billion. Failure to meet the newly revised substantial completion dates identified by WEC would result in the nuclear production tax credits not being earned.

On September 1, 2017, SCE&G, for itself and as agent for Santee Cooper, filed with the Bankruptcy Court Proofs of Claim for unliquidated damages against each of WEC and WECTEC. The Proofs of Claim are based upon the anticipatory repudiation and material breach by the Consortium of the EPC Contract, and assert against WEC and WECTEC any and all claims that are based thereon or that may be related thereto. These claims were sold to Citibank on September 27, 2017 as part of the monetization transaction discussed below. Notwithstanding the sale of the claims, SCE&G and Santee Cooper remain responsible for any claims that may be made by WEC and WECTEC against them relating to the EPC Contract.

Toshiba Settlement and Subsequent Monetization

Payment and performance obligations under the EPC Contract are joint and several obligations of WEC and WECTEC, and in connection with the October 2015 Amendment, Toshiba, WEC's parent company, reaffirmed its guaranty of WEC's payment obligations. In satisfaction of such guaranty obligations, on July 27, 2017, the Toshiba Settlement was executed under which Toshiba was to make periodic settlement payments from October 2017 through September 2022 in the total amount of approximately $2.2 billion ($1.2 billion for SCE&G's 55% share). The $2.2 billion is subject to offset for payments by WEC that have the effect of satisfying the liens on the project discussed below.

On September 27, 2017, the scheduled payments under the Toshiba Settlement, exclusive of the payment due in October 2017, were purchased by Citibank for a one-time upfront payment of $1.847 billion (approximately $1.016 billion for SCE&G's 55% share), including amounts related to the contractor liens discussed below. The initial payment was then received from Toshiba on October 2, 2017, as scheduled, in the amount of $150 million ($82.5 million for SCE&G's 55% share). SCE&G's share of amounts received, net of certain expenses, total $1.095 billion. The purchase agreement provides that SCE&G and Santee Cooper (each according to its pro rata share) would indemnify Citibank for its losses arising from misrepresentations or covenant defaults under the purchase agreement. SCE&G and Santee Cooper also assigned their claims under the WEC bankruptcy process to Citibank, and agreed to use commercially reasonable efforts to cooperate with Citibank and provide reasonable support necessary for its enforcement of those claims. The proceeds received under or arising from the monetization of the Toshiba Settlement were recorded as cash and as a regulatory liability on the accompanying consolidated balance sheets, as the net value of the proceeds will be utilized to benefit SCE&G's customers in a manner to be determined by the SCPSC. While this determination is pending, SCE&G has utilized portions of the proceeds to repay maturing commercial paper balances, which short-term borrowings had been incurred primarily for the construction of Unit 2 and Unit 3 prior to the decision to stop their construction. See further discussion in Note 4.

A number of subcontractors and vendors to the Consortium have alleged non-payment by the Consortium for amounts owed for work performed on the Nuclear Project and have filed liens on property in Fairfield County, South Carolina, where Unit 2 and Unit 3 were to be located. SCE&G is contesting the filed liens. Payments under the Toshiba Settlement are subject to reduction if WEC pays creditors holding these liens directly. Under these circumstances, SCE&G and Santee Cooper, each in its pro rata share, would be required to make Citibank whole for the reduction. On January 2, 2018, the purchase agreement among SCE&G, Santee Cooper and Citibank was amended to limit the amount that SCE&G and Santee Cooper could be required to reimburse Citibank for valid subcontractor and vendor liens to $60 million ($33 million for SCE&G's 55% share).

Determination to Stop Construction and Related Regulatory, Political and Legal Developments

The BLRA provides that, in the event of abandonment prior to plant completion, costs incurred, including AFC, and a return on those costs, may be recoverable through rates, if the SCPSC determines that the decision to abandon the Nuclear Project was prudent. Based on the evaluation previously discussed, and in light of Santee Cooper's decision to suspend construction, on July 31, 2017, the Company determined to stop construction of Unit 2 and Unit 3 and to pursue recovery of costs incurred in connection with such construction under the abandonment provisions of the BLRA or through other means. On July 31, 2017, SCE&G gave WEC a five-day notice of termination of the Interim Assessment Agreement and notified WEC of its determination to stop construction of Unit 2 and Unit 3.

On August 1, 2017, SCE&G senior management provided an allowable ex parte briefing to the SCPSC regarding the Nuclear Project and this decision, and SCE&G also filed a petition with the SCPSC which included its plan of abandonment and certain proposed actions which would mitigate related customer rate increases, including a proposal to return to customers the net value of proceeds received by SCE&G under or arising from the monetization of the Toshiba Settlement. Through this petition, SCE&G had sought recovery of such costs expended on the construction of the Nuclear Project, including certain costs incurred subsequent to SCE&G's last revised rates update, and certain other costs under the abandonment provisions of the BLRA. Subsequently, SCE&G's management met with various stakeholders and members of the South Carolina General Assembly, including legislative leaders, to discuss the abandonment of the Nuclear Project and to hear their concerns. In response to those concerns, and to allow for adequate time for governmental officials to conduct their reviews, SCE&G voluntarily withdrew its petition to abandon the project from the SCPSC on August 15, 2017.

In August 2017, special committees of the South Carolina General Assembly, both in the House of Representatives and in the Senate, began conducting public hearings regarding the decision to abandon the Nuclear Project. Members of SCE&G's senior management, along with representatives from Santee Cooper, the ORS and other interested parties, testified before these committees. Several legislative proposals adverse to the Company and Consolidated SCE&G resulted from the work of these committees and certain adverse proposals have been or are being considered by the General Assembly in 2018. In January 2018, these committees reconvened for the purpose of considering the effects of the proposed merger discussed below on Nuclear Project stakeholders. On January 31, 2018, the South Carolina House of Representatives passed a bill (H. 4375) that would create an experimental rate which would effectively suspend collections from rates previously approved by the SCPSC under the BLRA. This experimental rate would remain in effect during the pendency of administrative proceedings currently before the SCPSC or any appeal therefrom. In addition, the South Carolina Senate passed a joint resolution (S. 954) which, if enacted, would prohibit the SCPSC from holding a hearing on the merits for a docket in which requests were made pursuant to the BLRA (other than an administrative or procedural hearing prior to such hearing on the merits), and would prohibit any final determination on any such requests, before November 1, 2018, and would require the SCPSC to issue a final order for such docket no later than December 21, 2018. Any bill must be approved by both legislative chambers and be signed by, or allowed to become law without the signature of, the Governor before it would be enacted. Neither the Company nor Consolidated SCE&G can predict if or when either of these bills could become law or what additional actions, if any, may be proposed or taken, including other legislative actions related to the BLRA.

In September 2017, the Company was served with a subpoena issued by the United States Attorney's Office for the District of South Carolina seeking documents relating to the Nuclear Project. The subpoena requires the Company to produce a broad range of documents related to the project. Also in September 2017, the state's Office of Attorney General, the Speaker of the House of Representatives, and the Chair and Vice-Chair of the South Carolina House Utility Ratepayer Protection Committee requested that SLED conduct a criminal investigation into the handling of the Nuclear Project by SCANA and SCE&G. In October 2017, the staff of the SEC's Division of Enforcement also issued a subpoena for documents related to an investigation they are conducting related to the Nuclear Project. The Company and Consolidated SCE&G intend to fully cooperate with these investigations. Also in connection with the abandonment of the Nuclear Project, various state or local governmental authorities have attempted and may further attempt to challenge, reverse or revoke one or more previously-approved tax or economic development incentives, benefits or exemptions and may attempt to apply such action retroactively. No assurance can be given as to the timing or outcome of these matters.

On September 26, 2017, the South Carolina Office of Attorney General issued an opinion stating, among other things, that "as applied, portions of the BLRA are constitutionally suspect," including the abandonment provisions. Also on September 26, 2017, the ORS filed the Request with the SCPSC asking for an order directing SCE&G to immediately suspend all revised rates collections from customers which were previously approved by the SCPSC pursuant to the authority of the BLRA. In the Request, the ORS relied upon the opinion from the Office of Attorney General to assert that it is not just and reasonable or in the public interest to allow SCE&G to continue collecting revised rates. Further, the ORS noted the existence of an allegation that SCE&G failed to disclose information to the ORS that should have been disclosed and that would have appeared to provide a basis for challenging prior requests, and asserted that SCE&G should not be allowed to continue to benefit from nondisclosure. The ORS also asked for an order that, if the BLRA is found to be unconstitutional or the South Carolina General Assembly amends or revokes the BLRA, then SCE&G should make credits to future bills or refunds to customers for prior revised rates collections. SCE&G estimates that revised rates collections, including collections related to transmission assets expected to be placed into service, currently total approximately $445 million annually, and such amounts accumulated as of December 31, 2017 total approximately $1.9 billion.

On September 28, 2017, SCE&G filed a Motion to Dismiss the Request and a Request for Briefing Schedule and Hearing on Motion to Dismiss. On September 28, 2017, the SCPSC deferred action on the Request and ordered a hearing officer to establish a briefing schedule and hearing date on SCE&G's motion. On October 17, 2017, the ORS filed a motion with the SCPSC to amend the Request, in which the ORS asked the SCPSC to consider the most prudent manner by which SCE&G will enable its customers to realize the value of the monetized Toshiba Settlement payments and other payments made by Toshiba towards satisfaction of its obligations to SCE&G. Parties who filed to intervene in the matter or who filed a letter in support of the request by the ORS include the Governor, the state's Office of Attorney General and Speaker of the House of Representatives, the Electric Cooperatives of South Carolina, the SCEUC, certain large industrial customers, and several environmental groups. After conducting a hearing to consider SCE&G's motion, the SCPSC denied the motion on December 20, 2017 and requested that the ORS carry out an inspection, audit and examination of SCE&G's revenue requirements to assist the SCPSC in determining whether SCE&G's present schedule of rates is fair and reasonable and also ordered that a hearing be scheduled to consider the Request. The hearing has not yet been scheduled. SCE&G intends to continue vigorously contesting the Request, but cannot give any assurance as to the timing or outcome of this matter. See also Note 2.

Proposals to Resolve Outstanding Issues

On November 16, 2017, SCE&G announced for public consideration a proposal to resolve outstanding issues relating to the Nuclear Project. Under the proposal, SCE&G electric customers were to receive a 3.5% electric rate reduction, the addition of an existing 540-MW natural gas fired power plant by SCE&G with the acquisition cost borne by SCANA shareholders, and the addition of approximately 100-MW of large scale solar energy by SCE&G. The proposal also provided for the recovery of the nuclear construction costs (net of the proceeds of the Toshiba Settlement not utilized for liquidation of project liens) over 50 years. While SCE&G's proposal was not formally submitted for regulatory approval, discussions with key stakeholders over the ensuing weeks indicated that SCE&G's proposal would not be sufficient to resolve the outstanding issues.

On January 2, 2018, SCANA entered into the Merger Agreement with Dominion Energy, and on January 12, 2018, SCE&G and Dominion Energy filed the Joint Petition requesting SCPSC approval of the merger or a finding that either the merger is in the public interest or that there is an absence of harm arising from the merger. In this petition, the parties commit to providing an up-front, one time rate credit to SCE&G's electric customers totaling approximately $1.3 billion within 90 days of the merger's closing, providing at least a 5% reduction in customer bills, shortening the amortization period for costs related to the Nuclear Project to 20 years, forgoing recovery of approximately $1.7 billion in costs related to the Nuclear Project, and adding an existing 540-MW natural gas fired power plant by SCE&G with no initial investment borne by customers. No assurance can be given as to the timing or outcome of efforts to consummate the Merger Agreement or to obtain approval of the Joint Petition.

Impairment Considerations

Under the current regulatory construct in South Carolina, pursuant to the BLRA or through other means, the ability of SCE&G to recover costs incurred in connection with Unit 2 and Unit 3, and a reasonable return on them, will be subject to review and approval by the SCPSC. In light of the contentious nature of the reviews by legislative committees and others, the adverse impact that would result if proposed legislation is enacted, and the Request being considered by the SCPSC that could result in the suspension of rates currently being collected under the BLRA, as well as the return of such amounts previously collected, there is significant uncertainty as to SCE&G's ultimate ability to fully recover its costs of Unit 2 and Unit 3 and a return on them from its customers. SCE&G continues to contest the specific challenges described above. However, based on the consideration of those challenges, and particularly in light of SCE&G's proposed solution announced on November 16, 2017 and details in the Joint Petition filed by SCE&G and Dominion Energy with the SCPSC on January 12, 2018, the Company and Consolidated SCE&G have determined that a disallowance of recovery of part of the cost of the abandoned plant is both probable and reasonably estimable under applicable accounting guidance. In addition, the Company and Consolidated SCE&G have determined that full recovery of certain other related costs deferred within regulatory assets is less than probable. As a result, as of December 31, 2017, the Company and Consolidated SCE&G have recognized a pre-tax impairment loss totaling $1.118 billion ($690 million net of tax). With the exception of the $210 million loss recorded in the third quarter of 2017 as explained below, this impairment loss was recorded in the fourth quarter of 2017. A discussion of this impairment loss follows:

- A pre-tax impairment loss was recorded with respect to disallowance of unrecovered nuclear project costs of approximately $670 million. This amount includes $210 million recorded in the third quarter of 2017, which represented costs of approximately $1.2 billion that had been expended on the project, exclusive of transmission costs, but which had not yet been determined to be prudent by the SCPSC in connection with revised rates proceedings under the BLRA, offset by the amount of approximately $1 billion, which amount represents the recovery of the Toshiba Settlement proceeds that are in excess of amounts from that settlement that the Company and Consolidated SCE&G estimated may be necessary to satisfy certain project liens. This impairment loss also includes $180 million, which amount arises from SCE&G's entry into an agreement in the fourth quarter of 2017 to purchase in 2018 an existing 540-MW combined cycle gas generating station along with SCE&G's commitment to regulators and the public that the recovery of the initial capital investment in the facility would not be sought from customers. The remaining $280 million of this impairment loss was recorded after consideration of the regulatory and political developments described above.

- A pre-tax impairment loss was recorded in the aggregate amount of $361 million to write off costs which had been previously deferred, primarily as regulatory assets, in connection with the Nuclear Project. Such regulatory assets included deferred losses on interest rate swaps for which debt will not be issued due to the abandonment of the Nuclear Project, carrying costs on deferred tax assets arising from the capitalization of interest costs for tax purposes, net deferred costs and tax benefits related to foregone domestic production activities deductions (net of uncertain tax positions and credits) taken with respect to the project, and taxes associated with equity AFC.

- Finally, an $87 million pre-tax impairment loss was recorded in order to reduce to estimated fair value the carrying value of nuclear fuel acquired for use in Unit 2 and Unit 3.

With the exception of the $87 million related to nuclear fuel, the above impairment loss reflects impacts similar to those that may have resulted had the proposed solution announced November 16, 2017 been implemented. That proposal is presented by SCE&G as a less-favored alternative to the merger benefits and cost recovery plan in the January 12, 2018 Joint

Petition. It is reasonably possible that a change in the estimated impairment loss could occur in the near term. If the merger benefits and cost recovery plan outlined in the Joint Petition is implemented (upon closing of the merger as contemplated in the Merger Agreement), an additional impairment loss and other charges totaling as much as approximately $1.7 billion would be expected to be recorded. This additional impairment loss would result from the write-off of unrecovered Nuclear Project costs of approximately $856 million recorded within regulatory assets and the recording of additional liabilities for customer refunds totaling approximately $1.875 billion, net of approximately $1.062 billion, which amount represents the monetization of guaranty settlement of $1.095 billion recorded within regulatory liabilities less amounts that may be required to settle contractor liens. If instead the Joint Petition is not approved and the Request by the ORS is approved, and if the BLRA is found to be unconstitutional or the General Assembly amends or revokes the BLRA, the Company and Consolidated SCE&G may be required to record an additional impairment loss and other charges totaling as much as approximately $4.8 billion. This additional impairment loss would result from the write-off of the remaining unrecovered Nuclear Project costs of $3.976 billion recorded within regulatory assets and the refund of revised rates collections under the BLRA described above of approximately $1.9 billion, net of approximately $1.062 billion, which amount represents the monetization of guaranty settlement of $1.095 billion recorded within regulatory liabilities less amounts that may be required to settle contractor liens. The Company and Consolidated SCE&G do not currently anticipate that any of the $1.9 billion in revenue previously collected will be subject to refund; however, no assurance can be given as to the outcome of this matter.

Liquidity Considerations

As a result of the decision to stop construction of Unit 2 and Unit 3, downgrades by credit ratings agencies have recently occurred. The Company and Consolidated SCE&G have significant obligations that must be paid within the next 12 months, including long-term debt maturities and capital lease payments of $727 million for the Company (including $723 million for Consolidated SCE&G), short-term borrowings of $350 million for the Company (including $252 million for Consolidated SCE&G), interest payments of approximately $335 million for the Company (including $259 million for Consolidated SCE&G), and future minimum payments for operating leases of $34 million for the Company (including $26 million for Consolidated SCE&G). Working capital requirements, such as those for fuel supply and similar obligations, also arise due to the lag between when such amounts are paid and when related collection of such costs through customer rates occurs.

Management believes as of the date of issuance of these financial statements that it has access to available sources of cash to pay obligations when due over the next 12 months. These sources include committed, long-term lines of credit that expire in December 2020 totaling $1.8 billion for the Company (including $1.2 billion for Consolidated SCE&G). In addition, as of the date of issuance of these financial statements, SCE&G continues to collect in customer rates amounts previously approved under the BLRA, as well as amounts provided for in other orders related to non-BLRA electric and gas rates. However, as further described below, SCANA's credit rating has fallen below investment grade, which has constricted its ability and that of Consolidated SCE&G to issue commercial paper.

As described above, on January 31, 2018, the South Carolina House of Representatives passed a bill (H. 4375) that would create an experimental rate which would effectively suspend collections from rates previously approved by the SCPSC under the BLRA. This experimental rate would remain in effect during the pendency of administrative proceedings currently before the SCPSC or any appeal therefrom. In addition, the South Carolina Senate passed a joint resolution (S. 954) which, if enacted, would prohibit the SCPSC from holding a hearing on the merits for a docket in which requests were made pursuant to the BLRA (other than an administrative or procedural hearing prior to such hearing on the merits), and would prohibit any final determination on any such requests, before November 1, 2018, and would require the SCPSC to issue a final order for such docket no later than December 21, 2018. Any bill must be approved by both legislative chambers and be signed by, or allowed to become law without the signature of, the Governor before it would be enacted. Such regulatory, legislative or judicial proceedings outside of the Company's and Consolidated SCE&G's control may result in the temporary or permanent suspension of the approximately $445 million annually of rates being collected currently under the BLRA, the return of such amounts previously collected of $1.9 billion, or the requirement that SCE&G's share of payments received from the Toshiba Settlement ($1.095 billion) be placed in escrow or be refunded to customers. Neither the Company nor Consolidated SCE&G can predict if or when either of these bills could become law or what additional actions, if any, may be proposed or taken, including other legislative actions related to the BLRA.

Were the SCPSC to grant the relief sought by the ORS in the Request or grant similar relief resulting from legislative action, and as further discussed above in Impairment Considerations, an additional impairment loss or other charges totaling as much as approximately $4.8 billion may be required. Such an impairment loss or other charges would further stress the Company's and Consolidated SCE&G's equity to total capitalization ratio and may result in the Company's and Consolidated SCE&G's ratio of equity to total capitalization falling below minimum levels prescribed in the Company's credit agreements. In such an event, the Company's and Consolidated SCE&G's ability to borrow under their commercial paper programs and credit facilities and their ability to pay future dividends would likely be limited or may trigger events of default under such agreements.

Known and knowable conditions and events when considered in the aggregate as of the date of issuance of these financial statements do not suggest it is probable that the Company and Consolidated SCE&G will not be able to meet obligations as they come due over the next 12 months. However, possible future actions related to rates or refunds could have a material adverse effect on the Company's and Consolidated SCE&G's financial condition, liquidity, results of operations and cash flows such that management's conclusion with respect to its ability to pay obligations when due could change.

Claims and Litigation

Following the Company's decision to stop construction of Unit 2 and Unit 3, putative derivative and class action lawsuits have been filed in multiple state circuit courts and federal district court on behalf of customers, shareholders and SCANA (in the case of the derivative shareholder actions), against SCANA, SCE&G, or both, and in certain cases some of their officers and/or directors. The plaintiffs allege various causes of action, including but not limited to waste, breach of fiduciary duty, negligence, unfair trade practices, unjust enrichment, conspiracy, fraud, constructive fraud, misrepresentation and negligent misrepresentation, promissory estoppel, constructive trust, and money had and received, among other causes of action. Plaintiffs generally seek compensatory and consequential damages and statutory treble damages and such further relief as the court deems just and proper. In addition, certain plaintiffs seek a declaration that SCE&G may not charge its customers to reimburse itself for past and continuing costs of the Nuclear Project. Certain plaintiffs also seek to freeze or appoint a receiver for certain of SCE&G's assets, including all money SCE&G has received under the Toshiba payment guaranty and related settlement agreement and money to be collected from customers for the Nuclear Project.

Putative class action lawsuits have been filed on behalf of investors in federal court against SCANA and certain of its current and former executive officers and directors. The plaintiffs allege, among other things, that defendants violated Section 10(b) of the Exchange Act and Rule 10b-5 promulgated thereunder, and two suits allege violations of the Racketeer Influenced and Corrupt Organizations Act. In one suit, plaintiff alleges that director defendants violated Section 14(a) of the Exchange Act and SEC Rule 14a-9 by allowing or causing misleading proxy statements to be issued. The plaintiffs in each of these suits seek compensatory and consequential damages and such further relief as the court deems proper.

Lawsuits seeking class action status have also been filed on behalf of investors in the Court of Common Pleas in the Counties of Lexington and Richland, South Carolina, against SCANA, its CEO and directors, Dominion Energy and Sedona Corp. The plaintiffs allege, among other things, that defendants violated their fiduciary duties to shareholders by executing a merger agreement that unfairly deprived plaintiffs of the true value of their SCANA stock, and that Dominion Energy and Sedona Corp. aided and abetted these actions. Among other remedies, the plaintiffs in each case seek to enjoin the merger and rescind the Merger Agreement. In addition, two of the lawsuits seek in the alternative, should the merger be completed, an award of unspecified monetary damages.

A complaint has been filed by Fairfield County against SCE&G making allegations of breach of contract, fraud, negligent misrepresentation, breach of fiduciary duty, breach of the implied duty of good faith and fair dealing, and unfair trade practices related to SCE&G's termination of the FILOT agreement. Plaintiff seeks injunctive relief to prevent SCE&G from terminating the FILOT agreement; actual and consequential damages; treble damages; punitive damages; and attorneys' fees.

The Company has also been served with subpoenas issued by the United States Attorney's Office for the District of South Carolina and the staff of the SEC's Division of Enforcement seeking documents relating to the Nuclear Project. In addition, the state's Office of Attorney General, the Speaker of the House of Representatives, and the Chair and Vice-Chair of the South Carolina House Utility Ratepayer Protection Committee have requested that SLED conduct a criminal investigation into the handling of the Nuclear Project by SCANA and SCE&G. The Company and Consolidated SCE&G intend to fully cooperate with any such investigations.

On January 26, 2018, the DOR notified the Company that it was initiating an audit of the Company's sales and use tax returns for the periods September 1, 2008 through December 31, 2017. Based on an introductory meeting regarding that audit on February 8, 2018, the Company understands that the DOR's position is that the exemption for sales and use tax for purchases related to the Nuclear Project should not apply because Unit 2 and Unit 3 will not be placed into service and no electricity will be manufactured for sale. The Company intends to vigorously contest the DOR's position.

While the Company and Consolidated SCE&G intend to vigorously contest the lawsuits, claims, and audit positions which have been filed or initiated against them, they cannot predict the timing or outcome of these matters or others that may arise, and adverse outcomes from some of these matters would not be covered by insurance. As noted above, the various claims for damages do not specify an amount for those damages and the number of plaintiffs that are ultimately certified in the potential class actions lawsuits is unknown. In addition, each of the cases referred to above is in its early stages. For these reasons, the Company and Consolidated SCE&G cannot provide any estimate or range of potential loss for these matters at this time, and no accrual for these potential losses has been included in the consolidated financial statements. However, outcomes could have a material adverse effect on the Company's and Consolidated SCE&G's results of operations, cash flows and financial condition.

The Company and Consolidated SCE&G are subject to various other claims and litigation incidental to their business operations which management anticipates will be resolved without a material impact on the Company's and Consolidated SCE&G's results of operations, cash flows or financial condition.

Nuclear Insurance

Under Price-Anderson, SCE&G (for itself and on behalf of Santee-Cooper) maintains agreements of indemnity with the NRC that, together with private insurance, cover third-party liability arising from any nuclear incident occurring at Unit 1. Price-Anderson provides funds up to $13.4 billion for public liability claims that could arise from a single nuclear incident. Each nuclear plant is insured against this liability to a maximum of $450 million by ANI with the remaining coverage provided by a mandatory program of deferred premiums that could be assessed, after a nuclear incident, against all owners of commercial nuclear reactors. Each reactor licensee is liable for up to $127.3 million per reactor owned for each nuclear incident occurring at any reactor in the United States, provided that not more than $18.9 million of the liability per reactor would be assessed per year. SCE&G’s maximum assessment, based on its two-thirds ownership of Unit 1, would be $84.8 million per incident, but not more than $12.6 million per year. Both the maximum assessment per reactor and the maximum yearly assessment are adjusted for inflation at least every five years.

SCE&G currently maintains insurance policies (for itself and on behalf of Santee Cooper) with NEIL. The policies provide coverage to Unit 1 for property damage and outage costs up to $2.75 billion resulting from an event of nuclear origin and up to $2.33 billion resulting from an event of a non-nuclear origin. The NEIL policies in aggregate, are subject to a maximum loss of $2.75 billion for any single loss occurrence. The NEIL policies permit retrospective assessments under certain conditions to cover insurer’s losses. Based on the current annual premium, SCE&G’s portion of the retrospective premium assessment would not exceed $22.3 million. SCE&G currently maintains an excess property insurance policy (for itself and on behalf of Santee Cooper) with EMANI. The policy provides coverage to Unit 1 for property damage and outage costs up to $415 million resulting from an event of a non-nuclear origin. The EMANI policy permits retrospective assessments under certain conditions to cover insurer's losses. Based on the current annual premium, SCE&G's portion of the retrospective premium assessment would not exceed $2.0 million.

To the extent that insurable claims for property damage, decontamination, repair and replacement and other costs and expenses arising from an incident at Unit 1 exceed the policy limits of insurance, or to the extent such insurance becomes unavailable in the future, and to the extent that SCE&G's rates would not recover the cost of any purchased replacement power, SCE&G will retain the risk of loss as a self-insurer. SCE&G has no reason to anticipate a serious nuclear or other incident. However, if such an incident were to occur, it likely would have a material impact on the Company’s and Consolidated SCE&G's results of operations, cash flows and financial position.

Environmental

The Company's operations are subject to extensive regulation by various federal and state authorities in the areas of air quality, water quality, control of toxic substances and hazardous and solid wastes. Applicable statutes and rules include the CAA, CWA, Nuclear Waste Act and CERCLA, among others. In many cases, regulations proposed by such authorities could have a significant impact on the Company's and Consolidated SCE&G's financial condition, results of operations and cash flows. In addition, the Company and Consolidated SCE&G often cannot predict what conditions or requirements will be imposed by regulatory or legislative proposals. To the extent that compliance with environmental regulations or legislation results in capital expenditures or operating costs, the Company and Consolidated SCE&G expect to recover such expenditures and costs through existing ratemaking provisions.

From a regulatory perspective, SCANA, SCE&G and GENCO continually monitor and evaluate their current and projected emission levels and strive to comply with all state and federal regulations regarding those emissions. SCE&G and GENCO participate in the SO_2 and NO_X emission allowance programs with respect to coal plant emissions and also have constructed additional pollution control equipment at its coal-fired electric generating plants. These actions are expected to address many of the rules and regulations discussed herein.

On August 3, 2015, the EPA issued a revised standard for new power plants by re-proposing NSPS under the CAA for emissions of CO_2 from newly constructed fossil fuel-fired units. The final rule requires all new coal-fired power plants to meet a carbon emission rate of 1,400 pounds CO_2 per MWh and new natural gas units to meet 1,000 pounds CO_2 per MWh. While most new natural gas plants will not be required to include any new technologies, no new coal-fired plants could be constructed without partial carbon capture and sequestration capabilities. The Company and Consolidated SCE&G are monitoring the final rule, but do not plan to construct new coal-fired units in the foreseeable future.

On August 3, 2015, the EPA issued its final rule on emission guidelines for states to follow in developing plans to address GHG emissions from existing units. The rule included state-specific goals for reducing national CO_2 emissions by 32% from 2005 levels by 2030, and established a phased-in compliance approach beginning in 2022. The rule gave each state from one to three years to issue its SIP, which would ultimately define the specific compliance methodology that would be applied to existing units in that state. On February 9, 2016, the Supreme Court stayed the rule pending disposition of a petition of review of the rule in the Court of Appeals. As a result of an Executive Order on March 28, 2017, the EPA placed the rule under review and the Court of Appeals agreed to hold the case in abeyance. On October 10, 2017, the Administrator of the EPA signed a notice proposing to repeal the rule on the grounds that it exceeds the EPA's statutory authority. In a separate but related action, the EPA issued an Advance Notice of Proposed Rulemaking on December 18, 2017, to solicit information from the public about a potential future rulemaking to limit greenhouse gas emissions from existing units. The Company and Consolidated SCE&G expect any costs incurred to comply with such rule to be recoverable through rates.

In July 2011, the EPA issued the CSAPR to reduce emissions of SO_2 and NO_X from power plants in the eastern half of the United States. The CSAPR replaces the CAIR and requires a total of 28 states to reduce annual SO_2 emissions and annual and ozone season NO_X emissions to assist in attaining the ozone and fine particle National Ambient Air Quality Standards. The rule establishes an emissions cap for SO_2 and NO_X and limits the trading for emission allowances by separating affected states into two groups with no trading between the groups. The State of South Carolina has chosen to remain in the CSAPR program, even though recent court rulings exempted the state. This allows the state to remain compliant with regional haze standards. Air quality control installations that SCE&G and GENCO have already completed have positioned them to comply with the existing allowances set by the CSAPR. Any costs incurred to comply with CSAPR are expected to be recoverable through rates.

In April 2012, the EPA's MATS rule containing new standards for mercury and other specified air pollutants became effective. The MATS rule has been the subject of ongoing litigation even while it remains in effect. Rulings on this litigation are not expected to have an impact on SCE&G or GENCO due to plant retirements, conversions, and enhancements. SCE&G and GENCO are in compliance with the MATS rule and expect to remain in compliance.

The CWA provides for the imposition of effluent limitations that require treatment for wastewater discharges. Under the CWA, compliance with applicable limitations is achieved under state-issued NPDES permits such that, as a facility's NPDES permit is renewed, any new effluent limitations would be incorporated. The ELG Rule had become effective on January 4, 2016, after which state regulators could modify facility NPDES permits to match more restrictive standards, which would require facilities to retrofit with new wastewater treatment technologies. Compliance dates varied by type of wastewater, and some were based on a facility's five-year permit cycle and thus could range from 2018 to 2023. However, the ELG Rule is under reconsideration by the EPA and has been stayed administratively. The EPA has decided to conduct a new rulemaking that could result in revisions to certain flue gas desulfurization wastewater and bottom ash transport water requirements in the ELG Rule. Accordingly, in September 2017 the EPA finalized a rule that resets compliance dates under the ELG Rule to a range from November 1, 2020 to December 31, 2023. The EPA indicates that the new rulemaking process may take up to three years to complete, such that any revisions to the ELG Rule likely would not be final until the summer of 2020. While the Company and Consolidated SCE&G expect that wastewater treatment technology retrofits will be required at Williams and Wateree Stations, any costs incurred to comply with the ELG Rule are expected to be recoverable through rates.

The CWA Section 316(b) Existing Facilities Rule became effective in October 2014. This rule establishes national requirements for the location, design, construction and capacity of cooling water intake structures at existing facilities that reflect the best technology available for minimizing the adverse environmental impacts of impingement and entrainment. SCE&G and GENCO are conducting studies and implementing plans as required by the rule to determine appropriate intake structure modifications to ensure compliance with this rule. Any costs incurred to comply with this rule are expected to be recoverable through rates.

The EPA's final rule for CCR became effective in the fourth quarter of 2015. This rule regulates CCR as a non-hazardous waste under Subtitle D of the Resource Conservation and Recovery Act and imposes certain requirements on ash storage ponds and other CCR management facilities at SCE&G's and GENCO's coal-fired generating facilities. SCE&G and GENCO have already closed or have begun the process of closure of all of their ash storage ponds and have previously recognized AROs for such ash storage ponds under existing requirements. SCE&G has three ponds and three landfills that are governed by the CCR rule. The Company and Consolidated SCE&G do not expect the incremental compliance costs associated with this rule to be significant and expect to recover such costs in future rates.

In December 2016, the U.S. Congress passed and the President signed legislation that creates a framework for EPA-approved state CCR permit programs. Under this legislation, an approved state CCR permit program functions in lieu of the self-implementing Federal CCR rule. The legislation allows states more flexibility in developing permit programs to implement the environmental criteria in the CCR rule. In August 2017, the EPA issued interim guidance outlining the framework for state CCR program approval. The EPA has enforcement authority until state programs are approved. The EPA and states with approved programs both will have authority to enforce CCR requirements under their respective rules and programs. To date, South Carolina has not begun drafting a CCR rule.

The Nuclear Waste Act required that the United States government accept and permanently dispose of high-level radioactive waste and spent nuclear fuel by January 31, 1998, and it imposed on utilities the primary responsibility for storage of their spent nuclear fuel until the repository is available. SCE&G entered into a Standard Contract for Disposal of Spent Nuclear Fuel and/or High-Level Radioactive Waste with the DOE in 1983. As of December 31, 2016, the federal government has not accepted any spent fuel from Unit 1, and it remains unclear when the repository may become available. SCE&G has constructed an independent spent fuel storage installation to accommodate the spent nuclear fuel output for the life of Unit 1. SCE&G may evaluate other technology as it becomes available.

The provisions of CERCLA authorize the EPA to require the clean-up of hazardous waste sites. The states of South Carolina and North Carolina have similar laws. The Company maintains an environmental assessment program to identify and evaluate current and former operations sites that could require clean-up. In addition, regulators from the EPA and other federal or state agencies periodically notify the Company that it may be required to perform or participate in the investigation and remediation of a hazardous waste site. As site assessments are initiated, estimates are made of the amount of expenditures, if any, deemed necessary to investigate and remediate each site. These estimates are refined as additional information becomes available; therefore, actual expenditures may differ significantly from the original estimates. Amounts estimated and accrued to date for site assessments and clean-up relate solely to regulated operations. Such amounts are recorded in regulatory assets and amortized, with recovery provided through rates.

SCE&G is responsible for four decommissioned MGP sites in South Carolina which contain residues of by-product chemicals. These sites are in various stages of investigation, remediation and monitoring under work plans approved by DHEC and the EPA. SCE&G anticipates that major remediation activities at all these sites will continue at least through 2019 and will cost an additional $9.9 million, which is accrued in Other within Deferred Credits and Other Liabilities on the consolidated balance sheet. SCE&G expects to recover any cost arising from the remediation of MGP sites through rates. At December 31, 2017, deferred amounts, net of amounts previously recovered through rates and insurance settlements, totaled $24.6 million and are included in regulatory assets.

Operating Lease Commitments

The Company and Consolidated SCE&G are obligated under various operating leases for land, office space, furniture, equipment, rail cars, a purchase power agreement, and for the Company, airplanes. Leases expire at various dates through 2057.

	Rent Expense		
Millions of dollars	**2017**	**2016**	**2015**
The Company	$ 10.0	$ 10.2	$ 11.1
Consolidated SCE&G	11.4	12.2	12.3

	Future Minimum Rental Payments					
Millions of dollars	**2018**	**2019**	**2020**	**2021**	**2022**	**Thereafter**
The Company	$ 34	$ 30	$ 6	$ 6	$ 5	$ 31
Consolidated SCE&G	26	23	1	1	—	17

Guarantees

SCANA issues guarantees on behalf of its consolidated subsidiaries to facilitate commercial transactions with third parties. These guarantees are in the form of performance guarantees, primarily for the purchase and transportation of natural gas, standby letters of credit issued by financial institutions and credit support for certain tax-exempt bond issues. SCANA is not required to recognize a liability for such guarantees unless it becomes probable that performance under the guarantees will be required. SCANA believes the likelihood that it would be required to perform or otherwise incur any losses associated with these guarantees is not probable; therefore, no liability for these guarantees has been recognized. To the extent that a liability subject to a guarantee has been incurred, the liability is included in the consolidated financial statements. At December 31, 2017, the maximum future payments (undiscounted) that SCANA could be required to make under guarantees totaled approximately $1.8 billion.

Asset Retirement Obligations

A liability for the present value of an ARO is recognized when incurred if the liability can be reasonably estimated. Uncertainty about the timing or method of settlement of a conditional ARO is factored into the measurement of the liability when sufficient information exists, but such uncertainty is not a basis upon which to avoid liability recognition.

The legal obligations associated with the retirement of long-lived tangible assets that result from their acquisition, construction, development and normal operation relate primarily to the Company's regulated utility operations. As of December 31, 2017, SCE&G has recorded AROs of approximately $208 million for nuclear plant decommissioning (see Note 1). In addition, the Company has recorded AROs of approximately $360 million, including $321 million for Consolidated SCE&G, for other conditional obligations primarily related to other generation, transmission and distribution properties, including gas pipelines. All of the amounts recorded are based upon estimates which are subject to varying degrees of precision, particularly since such payments will be made many years in the future.

A reconciliation of the beginning and ending aggregate carrying amount of AROs is as follows:

	The Company		Consolidated SCE&G	
Millions of dollars	**2017**	**2016**	**2017**	**2016**
Beginning balance	$ 558	$ 520	$ 522	$ 488
Liabilities incurred	—	—	—	—
Liabilities settled	(10)	(11)	(9)	(11)
Accretion expense	25	23	23	22
Revisions in estimated cash flows	(5)	26	(7)	23
Ending balance	$ 568	$ 558	$ 529	$ 522

Revisions in estimated cash flows in 2017 primarily related to ash pond retirement obligations settled and updates in the timing of cash flows as work is completed. Such revisions in 2016 related to changes in the expected timing of ARO settlements due to changes in the estimated useful lives of certain electric utility properties identified as part of a customary depreciation study.

11. AFFILIATED TRANSACTIONS

The Company:

The Company received cash distributions from equity-method investees of $2.8 million in 2017, $3.7 million in 2016 and $4.0 million in 2015. The Company made investments in equity-method investees of $4.6 million in 2017, $5.5 million in 2016 and $4.1 million in 2015.

The Company and Consolidated SCE&G:

SCE&G owns 40% of Canadys Refined Coal, LLC, which is involved in the manufacturing and sale of refined coal to reduce emissions. SCE&G accounts for this investment using the equity method. The net of the total purchases and total sales are recorded in Other expenses on the consolidated statements of operations (for the Company) and of comprehensive income (for Consolidated SCE&G).

Millions of Dollars	2017	2016	2015
Purchases from Canadys Refined Coal, LLC	$ 162.1	$ 161.8	$ 233.2
Sales to Canadys Refined Coal, LLC	161.1	160.8	232.0

Millions of Dollars	2017	2016
Receivable from Canadys Refined Coal, LLC	$ 4.9	$ 16.0
Payable to Canadys Refined Coal, LLC	4.9	16.1

Consolidated SCE&G:

SCE&G purchases natural gas and related pipeline capacity from SCANA Energy to serve its retail gas customers and for certain electric generation requirements.

SCANA Services, on behalf of itself and its parent company, provides the following services to Consolidated SCE&G, which are rendered at direct or allocated cost: information systems, telecommunications, customer support, marketing and sales, human resources, corporate compliance, purchasing, financial, risk management, public affairs, legal, investor relations, gas supply and capacity management, strategic planning, general administrative, and retirement benefits. In addition, SCANA Services processes and pays invoices for Consolidated SCE&G and is reimbursed. Costs for these services include amounts capitalized. Amounts expensed are recorded in Other operation and maintenance - nonconsolidated affiliate and Other expenses on the consolidated statements of comprehensive income (loss).

Millions of Dollars	2017	2016	2015
Purchases from SCANA Energy	$ 127.4	$ 111.5	$ 128.5
Direct and Allocated Costs from SCANA Services	302.8	337.7	300.0

Millions of Dollars	2017	2016
Payable to SCANA Energy	$ 10.0	$ 8.8
Payable to SCANA Services	42.0	63.5

Prior to January 31, 2015, CGT was a wholly-owned subsidiary of SCANA and transported natural gas to SCE&G to serve retail gas customers and certain electric generation requirements. SCE&G's purchases from CGT totaled approximately $3.4 million in 2015.

Borrowings from and investments in an affiliated money pool are described in Note 4. SCE&G's participation in SCANA's noncontributory defined benefit pension plan and unfunded postretirement health care and life insurance programs is described in Note 8.

12. SEGMENT OF BUSINESS INFORMATION

Reportable segments, which are described below, follow the same accounting policies as those described in Note 1. Intersegment sales and transfers of electricity and gas are recorded based on rates established by the appropriate regulatory authority. Nonregulated sales and transfers are recorded at current market prices.

Electric Operations primarily generates, transmits and distributes electricity, and is regulated by the SCPSC and FERC. Gas Distribution, comprised of the local distribution operations of SCE&G and PSNC Energy, purchases and sells natural gas, primarily at retail. SCE&G and PSNC Energy are regulated by the SCPSC and the NCUC, respectively. Gas Marketing is comprised of the marketing operations of SCANA Energy, which markets natural gas to retail customers in Georgia and to industrial and large commercial customers and municipalities in the Southeast.

All Other includes the parent company and a services company. In addition, All Other includes gains from the sales of CGT and SCI (see Note 1) and their operating results prior to their sale in the first quarter of 2015. CGT and SCI were nonreportable segments during all periods presented. External revenue and intersegment revenue for All Other related to CGT and SCI were not significant during any period presented.

Regulated reportable segments share a similar regulatory environment and, in some cases, overlapping service areas. However, Electric Operations' product differs from the other segments, as does its generation process and method of distribution. Gas Marketing operates in a deregulated environment.

Management uses operating income (loss) to measure segment profitability for its regulated operations and evaluates utility plant, net, for segments attributable to SCE&G. As a result, no allocation is made to segments for interest charges, income tax expense (benefit) or assets other than utility plant. For nonregulated operations, management uses net income (loss) as the measure of segment profitability and evaluates total assets for financial position. Intersegment revenue for SCE&G was not significant. Interest income is not reported by segment and is not material. Deferred tax assets are netted with deferred tax liabilities for consolidated reporting purposes.

The consolidated financial statements report operating revenues which are comprised of the energy-related and regulated segments. Revenues from non-reportable and nonregulated segments are included in Other Income. Therefore the adjustments to total operating revenues remove revenues from non-reportable segments. Adjustments to net income (loss) consist of the unallocated net income (loss) of regulated reportable segments.

Segment Assets include utility plant, net for SCE&G's Electric Operations and Gas Distribution, and all assets for PSNC Energy and the remaining segments. As a result, adjustments to assets include non-utility plant and non-fixed assets for SCE&G.

Adjustments to Interest Expense, Income Tax Expense (Benefit), Expenditures for Assets and Deferred Tax Assets include primarily the amounts that are not allocated to the segments. Interest Expense is also adjusted to eliminate charges between affiliates. Adjustments to Depreciation and Amortization consist of non-reportable segment expenses, which are not included in the depreciation and amortization reported on a consolidated basis. Expenditures for Assets are adjusted for AFC and revisions to estimated cash flows related to AROs, and totals not allocated to other segments. Deferred Tax Assets are adjusted to net them against deferred tax liabilities on a consolidated basis.

Disclosure of Reportable Segments

See Note 10 for a discussion of the impairment loss that was booked in the third quarter and the fourth quarter of 2017.

15. SUBSEQUENT EVENT

On January 2, 2018, SCANA, Sedona Corp. and Dominion Energy entered into the Merger Agreement pursuant to which Sedona Corp. (a wholly-owned subsidiary of Dominion Energy) agreed to merge into SCANA in a stock-for-stock transaction in which SCANA shareholders would receive 0.6690 of a share of Dominion Energy common stock for each share of SCANA common stock. The completion of the merger is subject to a variety of closing conditions, including the receipt of approvals from SCANA's shareholders and is also subject to consents and approvals or findings from governmental entities, which may impose conditions that could have an adverse effect on the Company or Consolidated SCE&G or could cause either SCANA or Dominion Energy to abandon the merger. The completion of the merger is also subject to an absence of substantive changes in certain South Carolina laws, including the BLRA, that would reasonably be expected to have an adverse effect on SCANA or its subsidiaries, or if any governmental entity enacts any order or there is any change in law which imposes any material change to the terms, conditions or undertakings set forth in the Joint Petition or any significant changes to the economic value of the Joint Petition. See also Note 10.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not Applicable.

ITEM 9A. CONTROLS AND PROCEDURES

SCANA:

Evaluation of Disclosure Controls and Procedures:

As of December 31, 2017, SCANA conducted an evaluation under the supervision and with the participation of its management, including its CEO and CFO, of the effectiveness of the design and operation of SCANA's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934). Based on this evaluation, the CEO and CFO concluded that, as of December 31, 2017, SCANA's disclosure controls and procedures were effective.

Management's Evaluation of Internal Control Over Financial Reporting:

As of December 31, 2017, SCANA conducted an evaluation under the supervision and with the participation of its management, including its CEO and CFO, of any change in SCANA's internal controls over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934) during the quarter ended December 31, 2017. There has been no change in SCANA's internal controls over financial reporting during the quarter ended December 31, 2017 that has materially affected or is reasonably likely to materially affect SCANA's internal control over financial reporting.

The Management Report on Internal Control over Financial Reporting follows.

MANAGEMENT REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The management of SCANA is responsible for establishing and maintaining adequate internal control over financial reporting. SCANA's internal control system was designed by or under the supervision of SCANA's management, including its CEO and CFO, to provide reasonable assurance to SCANA's management and board of directors regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, the effectiveness of the internal control over financial reporting may deteriorate in future periods due to either changes in conditions or declining levels of compliance with policies or procedures.

SCANA's management assessed the effectiveness of SCANA's internal control over financial reporting as of December 31, 2017. In making this assessment, SCANA used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control—Integrated Framework (2013)*. Based on this assessment, SCANA's management believes that, as of December 31, 2017, internal control over financial reporting is effective based on those criteria.

SCANA's independent registered public accounting firm has issued an attestation report on SCANA's internal control over financial reporting. This report follows.

ATTESTATION REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM ON INTERNAL CONTROL OVER FINANCIAL REPORTING

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
SCANA Corporation
Cayce, South Carolina

Opinion on Internal Control over Financial Reporting

We have audited the internal control over financial reporting of SCANA Corporation and subsidiaries (the "Company") as of December 31, 2017, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2017, based on criteria established in Internal Control - Integrated Framework (2013) issued by COSO.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements and financial statement schedule as of and for the year ended December 31, 2017, of the Company and our report dated February 22, 2018, expressed an unqualified opinion on those financial statements and financial statement schedule and included an emphasis-of-matter paragraph regarding legal, legislative, and regulatory matters that may result in material impacts to results and the liquidity of the Company as a result of the abandoned Nuclear Project.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

/s/DELOITTE & TOUCHE LLP
Charlotte, North Carolina
February 22, 2018

SCE&G:

Evaluation of Disclosure Controls and Procedures:

As of December 31, 2017, SCE&G conducted an evaluation under the supervision and with the participation of its management, including its CEO and CFO, of the effectiveness of the design and operation of SCE&G’s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934). Based on this evaluation, the CEO and CFO concluded that, as of December 31, 2017, SCE&G's disclosure controls and procedures were effective.

Management’s Evaluation of Internal Control Over Financial Reporting:

As of December 31, 2017, SCE&G conducted an evaluation under the supervision and with the participation of its management, including its CEO and CFO, of any change in SCE&G's internal controls over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934) during the quarter ended December 31, 2017. There has been no change in SCE&G’s internal controls over financial reporting during the quarter ended December 31, 2017 that has materially affected or is reasonably likely to materially affect SCE&G’s internal control over financial reporting.

The Management Report on Internal Control over Financial Reporting follows.

MANAGEMENT REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The management of SCE&G is responsible for establishing and maintaining adequate internal control over financial reporting. SCE&G’s internal control system was designed by or under the supervision of SCE&G’s management, including its CEO and CFO, to provide reasonable assurance to SCE&G’s management and board of directors regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, the effectiveness of the internal control over financial reporting may deteriorate in future periods due to either changes in conditions or declining levels of compliance with policies or procedures.

SCE&G’s management assessed the effectiveness of SCE&G’s internal control over financial reporting as of December 31, 2017. In making this assessment, SCE&G used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control-Integrated Framework (2013).* Based on this assessment, SCE&G’s management believes that, as of December 31, 2017, internal control over financial reporting is effective based on those criteria.

ITEM 9B. OTHER INFORMATION

Not Applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

SCANA: A list of SCANA's executive officers is in Part I of this annual report on Form 10-K at page 34. As permitted by Form 10-K General Instruction G(3), the other information required by this Item will be incorporated by reference to SCANA's definitive proxy statement for the 2018 annual meeting of shareholders or included in an amendment to this Form 10-K to be filed not later than 120 days after December 31, 2017, which is the end of the fiscal year for SCANA.

SCE&G: Not applicable.

ITEM 11. EXECUTIVE COMPENSATION

SCANA: As permitted by Form 10-K General Instruction G(3), the information required by this Item will be incorporated by reference to SCANA's definitive proxy statement for the 2018 annual meeting of shareholders or included in an amendment to this Form 10-K to be filed not later than 120 days after December 31, 2017, which is the end of the fiscal year for SCANA.

SCE&G: Not applicable.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

SCANA: As permitted by Form 10-K General Instruction G(3), the information required by this Item will be incorporated by reference to SCANA's definitive proxy statement for the 2018 annual meeting of shareholders or included in an amendment to this Form 10-K to be filed not later than 120 days after December 31, 2017, which is the end of the fiscal year for SCANA.

Equity securities issuable under SCANA's compensation plans at December 31, 2017 are summarized as follows:

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
	(a)	(b)	(c)
Equity compensation plans approved by security holders:			
2015 Long-Term Equity Compensation Plan	454,023 (1)	n/a	4,545,977
Non-Employee Director Compensation Plan	n/a	n/a	154,635
Equity compensation plans not approved by security holders	n/a	n/a	n/a
Total	454,023	n/a	4,700,612

(1) Represents unearned non-vested performance share awards from the 2015-2017, 2016-2018 and 2017-2019 performance periods, assuming a target level payout.

SCE&G: Not applicable.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

SCANA: As permitted by Form 10-K General Instruction G(3), the information required by this Item will be incorporated by reference to SCANA's definitive proxy statement for the 2018 annual meeting of shareholders or included in an amendment to this Form 10-K to be filed not later than 120 days after December 31, 2017, which is the end of the fiscal year for SCANA.

SCE&G: Not applicable.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES

SCANA and SCE&G:

The Audit Committee Charter requires the Audit Committee to pre-approve all auditing services and permitted non-audit services (including the fees and terms thereof) to be performed by the independent registered accounting firm. Pursuant to a policy adopted by the Audit Committee, its Chairman may pre-approve the rendering of services on behalf of the Audit Committee. Decisions by the Chairman to pre-approve the rendering of services are presented to the Audit Committee at its next scheduled meeting.

Independent Registered Public Accounting Firm's Fees

The following table sets forth the aggregate fees, all of which were approved by the Audit Committee, charged to the Company and Consolidated SCE&G for the fiscal years ended December 31, 2017 and 2016 by Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu, and their respective affiliates.

	The Company		Consolidated SCE&G	
	2017	2016	2017	2016
Audit Fees [1]	$ 3,670,360	$ 2,857,000	$ 3,127,191	$ 2,316,288
Audit-Related Fees [2]	168,229	171,710	139,172	117,146
Total Fees	$ 3,838,589	$ 3,028,710	$ 3,266,363	$ 2,433,434

[1] Fees for audit services billed in 2017 and 2016 consisted of audits of annual financial statements, comfort letters for securities underwriters, statutory and regulatory audits, consents and other services related to SEC filings, and accounting research.

[2] Fees primarily for employee benefit plan audits and non-statutory audit services.

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a) The following documents are filed or furnished as a part of this Form 10-K:

(1) Financial Statements and Schedules:

The Report of Independent Registered Public Accounting Firm on the financial statements for each of SCANA and SCE&G is listed under Item 8 herein. The financial statements and supplementary financial data filed as part of this report for SCANA and SCE&G are listed under Item 8 herein. The financial statement schedules "Schedule II - Valuation and Qualifying Accounts" filed as part of this report for SCANA and SCE&G are included below.

(2) Exhibits

Exhibits required to be filed or furnished with this Annual Report on Form 10-K are listed in the Exhibit Index following the signature page. Certain of such exhibits which have heretofore been filed with the SEC and which are designated by reference to their exhibit number in prior filings are incorporated herein by reference and made a part hereof.

Pursuant to Rule 15d-21 promulgated under the Securities Exchange Act of 1934, the annual report for SCANA's employee stock purchase plan will be furnished under cover of Form 11-K to the SEC when the information becomes available.

As permitted under Item 601(b)(4)(iii) of Regulation S-K, instruments defining the rights of holders of long-term debt of less than 10% of the total consolidated assets of SCANA, for itself and its subsidiaries and of SCE&G, for itself and its consolidated affiliates, have been omitted and SCANA and SCE&G agree to furnish a copy of such instruments to the SEC upon request.

Schedule II—Valuation and Qualifying Accounts

Description (in millions)		Beginning Balance	Additions: Charged to Income	Additions: Charged to Other Accounts	Deductions from Reserves	Ending Balance
SCANA:						
Reserves deducted from related assets on the balance sheet:						
Uncollectible accounts						
	2017	$ 6	$ 13	—	$ 13	$ 6
	2016	5	12	—	11	6
	2015	7	12	—	14	5
Reserves other than those deducted from assets on the balance sheet:						
Reserve for injuries and damages						
	2017	$ 9	$ 8	—	$ 8	$ 9
	2016	6	5	—	2	9
	2015	5	11	—	10	6
SCE&G:						
Reserves deducted from related assets on the balance sheet:						
Uncollectible accounts						
	2017	$ 3	$ 8	—	$ 7	$ 4
	2016	3	6	—	6	3
	2015	4	6	—	7	3
Reserves other than those deducted from assets on the balance sheet:						
Reserve for injuries and damages						
	2017	$ 8	$ 8	—	$ 8	$ 8
	2016	5	5	—	2	8
	2015	3	11	—	9	5

If the securities being registered on this Form are being offered in connection with the formation of a holding company and there is compliance with General Instruction G, check the following box ☐

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. ☐

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and " emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer	☒	Accelerated Filer	☐
Non-accelerated Filer	☐ (Do not check if a smaller reporting company)	Smaller reporting company	☐
		Emerging growth company	☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 7(a)(2)(B) of the Securities Act. ☐

If applicable, place an X in the box to designate the appropriate rule provision relied upon in conducting this transaction:

Exchange Act Rule 13e-4(i) (Cross-Border Issuer Tender Offer) ☐

Exchange Act Rule 14d-1(d) (Cross-Border Third-Party Tender Offer) ☐

Table of Contents

Calculation of Registration Fee

Title of each class of securities to be registered(1)	Amount to be registered(2)	Proposed maximum offering price per share	Proposed maximum aggregate offering price(3)(4)	Amount of registration fee(4)
Common Stock	95,611,418	N/A	$5,078,452,603.75	$632,267.35

(1) This Registration Statement relates to shares of common stock, no par value, of Dominion Energy, Inc. ("Dominion Energy common stock"), issuable to holders of common stock, no par value, of SCANA Corporation ("SCANA common stock") upon completion of the merger described herein.

(2) Represents the estimated maximum number of shares of Dominion Energy common stock to be issued upon completion of the merger described herein. This number is based on 142,916,917 shares of SCANA common stock, the estimated maximum number of shares of SCANA common stock outstanding or reserved for issuance under various equity plans or otherwise, immediately prior to the merger, and the exchange of each such share of SCANA common stock for 0.6690 of a share of Dominion Energy common stock, pursuant to the terms of the Agreement and Plan of Merger, dated as of January 2, 2018, by and among Dominion Energy, Inc., Sedona Corp. and SCANA Corporation, which is attached to the proxy statement/prospectus included in this Registration Statement on Form S-4 as Annex A.

(3) Estimated solely for the purpose of calculating the registration fee required by Section 6(b) of the Securities Act and computed pursuant to Rule 457(f) of the Securities Act. The proposed maximum offering price is equal to the product of (a) $35.5343, the average of the high and low prices of SCANA's common stock reported on the New York Stock Exchange on February 13, 2018 and (b) 142,916,917, the estimated maximum number of shares of SCANA common stock that is expected to be exchanged in connection with the merger described herein.

(4) Computed in accordance with Section 6(b) of the Securities Act by multiplying 0.00012450 by the proposed maximum aggregate offering price.

The information in this document is not complete and may be changed. Dominion Energy, Inc. may not sell the securities offered by this document until the registration statement filed with the Securities and Exchange Commission, of which this document is a part, is declared effective. This document shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any jurisdiction where such offer, solicitation or sale is not permitted.

T

PRELIMINARY—SUBJECT TO COMPLETION—DATED , 2018

T

MERGER PROPOSED—YOUR VOTE IS VERY IMPORTANT

Dear SCANA Shareholders:

The board of directors of SCANA Corporation, which we refer to as SCANA, has adopted an Agreement and Plan of Merger, which we refer to as the merger agreement, dated as of January 2, 2018, by and among Dominion Energy, Inc., which we refer to as Dominion Energy, Sedona Corp., a wholly owned subsidiary of Dominion Energy, which we refer to as Merger Sub, and SCANA.

Pursuant to the merger agreement, Merger Sub will merge with and into SCANA, which we refer to as the merger, with SCANA surviving the merger as a wholly owned subsidiary of Dominion Energy. In the merger, holders of SCANA common stock, whom we refer to as SCANA shareholders, will have the right to receive 0.6690 of a share of Dominion Energy common stock for each share of SCANA common stock held at the time of the merger, which we refer to as the merger consideration, with cash to be paid in lieu of the issuance of any fractional share of Dominion Energy common stock. The value of the merger consideration to be received in exchange for each share of SCANA common stock will fluctuate with the market value of Dominion Energy common stock. The transaction structure contemplates that the receipt of shares of Dominion Energy common stock will be tax-deferred for SCANA shareholders.

T

SCANA shareholders are encouraged to read this entire proxy statement/prospectus carefully, including:

- **the "Questions and Answers About the Merger and the Special Meeting" section beginning on page iv;**
- **the "Risk Factors" section beginning on page 17; and**
- **the "The Merger—SCANA's Reasons for the Merger; Recommendation of the SCANA Board" section beginning on page 47.**

SCANA will hold a special meeting of shareholders to consider the merger, which we refer to as the special meeting. Based on the number of shares of SCANA common stock outstanding on , 2018, the record date for the special meeting, Dominion Energy expects to issue approximately shares of Dominion Energy common stock to the SCANA shareholders. As a result, upon the completion of the merger, former SCANA shareholders will own approximately 13% of the issued and outstanding shares of Dominion Energy common stock. SCANA common stock is listed on the New York Stock Exchange, which we refer to as the NYSE, under the symbol "SCG" and Dominion Energy common stock is listed on the NYSE under the symbol "D."

We cannot complete the merger unless the SCANA shareholders approve the proposal related to the merger and, therefore, your vote is very important. Whether or not you expect to attend the special meeting in person, please vote your shares as promptly as possible by (i) accessing the Internet website specified on your proxy card, (ii) calling the toll-free number specified on your proxy card or (iii) signing all proxy cards that you receive and returning them in the postage-paid envelopes provided, so that your shares of SCANA common stock may be represented and voted at the special meeting. You may change or revoke your proxy at any time before the vote at the special meeting by following the procedures outlined in this proxy statement/prospectus.

We look forward to the successful completion of the merger.

Sincerely,

Jimmy E. Addison
Chief Executive Officer
SCANA Corporation

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the securities to be issued in connection with the merger or determined that this proxy statement/prospectus is accurate or complete. Any representation to the contrary is a criminal offense.

This proxy statement/prospectus is dated , 2018, and is first being mailed to SCANA shareholders on or about , 2018.

SCANA CORPORATION

NOTICE OF SPECIAL MEETING OF SHAREHOLDERS TO BE HELD ON , 2018

NOTICE IS HEREBY GIVEN that SCANA Corporation, a South Carolina corporation, which we refer to as SCANA, will hold a special meeting, which we refer to as the special meeting, of the shareholders of SCANA, whom we refer to as SCANA shareholders, on , 2018, at [a.m./p.m.], Eastern Daylight Time, at .

The SCANA shareholders are being asked to consider and vote on the proposals listed below at the special meeting or any adjournment or postponement of the special meeting:

1. the proposal to approve the Agreement and Plan of Merger, dated as of January 2, 2018, by and among Dominion Energy, Inc., a Virginia corporation, which we refer to as Dominion Energy, Sedona Corp., a South Carolina corporation and a wholly owned subsidiary of Dominion Energy, which we refer to as Merger Sub, and SCANA, as such agreement may be amended from time to time, which we refer to as the merger agreement, pursuant to which Merger Sub will be merged with and into SCANA, with SCANA surviving the merger as a wholly owned subsidiary of Dominion Energy, and each outstanding share of the common stock of SCANA, no par value, which we refer to as SCANA common stock, will be converted into the right to receive 0.6690 of a share of the common stock of Dominion Energy, no par value, which we refer to as Dominion Energy common stock, with cash paid in lieu of fractional shares, which we refer to as the merger proposal;

2. the proposal to approve, on a non-binding advisory basis, the compensation to be paid to SCANA's named executive officers that is based on or otherwise relates to the merger, which we refer to as the merger-related compensation proposal; and

3. the proposal to adjourn the special meeting, if necessary or appropriate, in the view of the board of directors of SCANA, which we refer to as the SCANA board, to solicit additional proxies in favor of the merger proposal if there are not sufficient votes at the time of the special meeting to approve the merger proposal, which we refer to as the adjournment proposal.

Approval of the merger proposal by SCANA shareholders is required to complete the merger. Approval of the merger-related compensation proposal and the adjournment proposal are not required to complete the merger.

The SCANA board has unanimously adopted the merger agreement and approved the transactions contemplated thereby, including the merger, and recommends that you vote **"FOR"** the merger proposal, **"FOR"** the merger-related compensation proposal and **"FOR"** the adjournment proposal. Only SCANA shareholders of record at the close of business on , 2018, are entitled to notice of and to vote at the special meeting.

You may vote your shares of SCANA common stock over the Internet at *proxy.georgeson.com*, by calling toll-free [ ], by completing and mailing the enclosed proxy card, or in person at the special meeting. We request that you vote in advance whether or not you plan to attend the special meeting.

If you do not vote on the merger proposal, it will have the same effect as a vote by you against the merger proposal.

You may revoke your proxy at any time prior to the vote at the special meeting by voting your shares of SCANA common stock in person at the special meeting, revoting through the website or telephone numbers listed above, or returning a later-dated proxy card.

Sincerely,

Gina Champion
Vice President, Corporate Secretary and
Deputy General Counsel
, 2018

ABOUT THIS PROXY STATEMENT/PROSPECTUS

This document, which forms part of a registration statement on Form S-4 filed with the SEC by Dominion Energy (File No. 333-   ), constitutes a prospectus of Dominion Energy under Section 5 of the Securities Act of 1933, as amended, which we refer to as the Securities Act, with respect to the shares of Dominion Energy common stock to be issued to SCANA shareholders pursuant to the merger agreement. This document also constitutes a proxy statement of SCANA under Section 14(a) of the Securities Exchange Act of 1934, as amended, which we refer to as the Exchange Act, with respect to the special meeting at which SCANA shareholders will be asked to vote upon and approve the merger proposal, the non-binding merger-related compensation proposal and the adjournment proposal. It also constitutes a notice of meeting with respect to the special meeting.

You should rely only on the information contained in, or incorporated by reference into, this proxy statement/prospectus. No one has been authorized to provide you with information that is different from that contained in, or incorporated by reference into, this proxy statement/prospectus. This proxy statement/prospectus is dated   , 2018. You should not assume that the information contained in, or incorporated by reference into, this proxy statement/prospectus is accurate as of any date other than, in the case of this proxy statement/prospectus, the date on the front cover of this proxy statement/prospectus and, in the case of information incorporated by reference, the respective dates of such referenced documents. Neither the mailing of this proxy statement/prospectus to SCANA shareholders nor the issuance by Dominion Energy of shares of Dominion Energy common stock in connection with the merger will create any implication to the contrary.

This proxy statement/prospectus does not constitute an offer to sell, or a solicitation of an offer to buy, any securities, or the solicitation of a proxy, in any jurisdiction in which, or from any person to whom, it is unlawful to make any such offer or solicitation in such jurisdiction. Information contained in this proxy statement/prospectus regarding Dominion Energy has been provided by Dominion Energy and information contained in this proxy statement/prospectus regarding SCANA has been provided by SCANA.

QUESTIONS AND ANSWERS ABOUT THE MERGER AND THE SPECIAL MEETING

The following questions and answers are intended to briefly address some questions that you, as a SCANA shareholder, may have regarding the merger, the merger agreement and the special meeting. Dominion Energy and SCANA urge you to read carefully the remainder of this proxy statement/prospectus because these questions and answers may not address all questions or provide all information that might be important to you with respect to the merger, the merger agreement and the matters being considered at the special meeting. Additional important information is also contained in the annexes and the documents incorporated by reference into this proxy statement/prospectus. You may obtain the information incorporated by reference into this proxy statement/prospectus without charge by following the instructions under the section entitled "Where You Can Find More Information" beginning on page 136 of this proxy statement/prospectus. For your convenience, these questions and answers have been divided into questions and answers about the merger and questions and answers about the special meeting.

Questions and Answers About the Merger

Q: What is the merger?

A: SCANA, Dominion Energy and Merger Sub have entered into the merger agreement, a copy of which is attached as Annex A to this proxy statement/prospectus and is incorporated by reference herein. The merger agreement contains the terms and conditions of the merger, in which Merger Sub will merge with and into SCANA with SCANA surviving the merger as a wholly owned subsidiary of Dominion Energy, which we refer to as the surviving corporation.

Q: Why am I receiving this proxy statement/prospectus and proxy or voting instruction card?

A: SCANA is sending these materials to the SCANA shareholders to help them decide how to vote their shares of SCANA common stock with respect to the merger and other matters to be considered at the special meeting. SCANA is holding the special meeting to ask its shareholders to consider and vote upon the merger proposal. The merger cannot be completed unless SCANA shareholders approve the merger proposal. At the special meeting, SCANA shareholders will also be asked to consider and vote upon (i) the merger-related compensation proposal, on a non-binding, advisory basis and (ii) the adjournment proposal, if necessary or appropriate in the view of the SCANA board.

This proxy statement/prospectus includes important information about the merger, the merger agreement and the special meeting. SCANA shareholders should read this information carefully and in its entirety. The enclosed voting materials allow SCANA shareholders to vote their shares without attending the special meeting in person.

Your vote is very important. We encourage you to vote as soon as possible.

This proxy statement/prospectus constitutes both a proxy statement of SCANA and a prospectus of Dominion Energy. It is a proxy statement of SCANA because the SCANA board is soliciting proxies from the SCANA shareholders. It is a prospectus of Dominion Energy because Dominion Energy will issue shares of Dominion Energy common stock in exchange for outstanding shares of SCANA common stock in the merger.

Q: What will I receive if the merger is completed?

A: If the merger is completed, you will have the right to receive the merger consideration (0.6690 of a share of Dominion Energy common stock for each share of SCANA common stock that you own at the time of the merger). No fractional shares of Dominion Energy common stock will be issued in the merger; instead, if you otherwise would be owed a fraction of a share of Dominion Energy common stock, you will receive the value of that fraction of a share in cash, without interest and rounded to the nearest cent, where value is

Table of Contents

based on a formula that takes into account the volume-weighted average price of Dominion Energy common stock for the ten (10) consecutive trading day period ending on and including the second trading day prior to the time of the closing of the merger. For example, if you own 100 shares of SCANA common stock, in exchange for your shares of Dominion Energy common stock, you will receive 66 shares of Dominion Energy common stock, plus an amount of cash equivalent to the value of 0.90 of a share of Dominion Energy common stock. See the section entitled "*The Merger Agreement—Terms of the Merger*" beginning on page 84 of this proxy statement/prospectus.

T

Q: Will my shares of Dominion Energy common stock acquired in the merger receive a dividend?

T

A: After the closing of the merger, as a holder of Dominion Energy common stock, you will receive the same dividends on shares of Dominion Energy common stock that all other holders of Dominion Energy common stock will receive with respect to any dividend record date that occurs after the effective time of the merger (as defined below).

Former SCANA shareholders who hold SCANA share certificates will not be entitled to be paid dividends otherwise payable on the shares of Dominion Energy common stock into which their shares of SCANA common stock are exchangeable until they surrender their SCANA share certificates according to the instructions provided to them. Dividends will be accrued for these shareholders and they will receive the accrued dividends when they surrender their SCANA share certificates. Dominion Energy most recently paid a quarterly dividend on December 20, 2017 in an amount equal to $0.770 per share of Dominion Energy common stock. See the section entitled "*Comparative Stock Prices and Dividends*" on page 15 of this proxy statement/prospectus.

All future Dominion Energy dividends will remain subject to approval by the board of directors of Dominion Energy, which we refer to as the Dominion Energy board.

T

Q: What will holders of SCANA equity compensation awards receive in the merger?

T

A: At the effective time of the merger, each performance share award in respect of SCANA common stock, which we refer to as a performance share award, and restricted stock unit in respect of SCANA common stock, which we refer to as a restricted stock unit, granted under SCANA's 2015 Long-Term Equity Compensation Plan, 2000 Long-Term Equity Compensation Plan, or Director Compensation and Deferral Plan, as applicable, which we collectively refer to as the SCANA equity award plans, will fully vest (at the target level of performance in the case of the performance share awards) and will be cancelled and converted automatically into the right to receive an amount in cash, without interest, based on a formula that takes into account the volume-weighted average price of Dominion Energy common stock for the ten (10) consecutive trading day period ending on and including the second (2nd) trading day prior to the closing of the merger for each share of SCANA common stock underlying such performance share award or restricted stock unit, as applicable.

At the effective time of the merger each deferred unit in respect of SCANA common stock, which we refer to as a deferred unit, credited or deemed credited to the SCANA stock ledger under SCANA's Director Compensation and Deferral Plan or Executive Deferred Compensation Plan shall be converted automatically into a number of deferred unit(s) in respect of Dominion Energy common stock under such plans (which will be assumed by Dominion Energy) equal to the product of (x) such deferred unit multiplied by (y) the merger consideration, to be payable pursuant to the terms of the applicable plan.

For additional information regarding the SCANA equity compensation awards, see the section entitled "*The Merger—Interests of SCANA's Directors and Executive Officers in the Merger—Equity Compensation*" beginning on page 73 of this proxy statement/prospectus.

T

Q: Do any of SCANA's directors or executive officers have interests in the merger that may differ from or be in addition to my interests as a SCANA shareholder?

T

A: In considering the recommendation of the SCANA board with respect to the merger proposal, you should be aware that SCANA's directors and executive officers may have interests in the merger that are different

T

Table of Contents

from, or in addition to, the interests of the SCANA shareholders generally. The SCANA board was aware of and considered these interests, among other matters, in evaluating and negotiating the merger agreement and the merger, and in recommending that the SCANA shareholders approve the merger agreement. For additional information on the interests of SCANA's directors and executive officers in the merger, see the section entitled "*The Merger—Interests of SCANA's Directors and Executive Officers in the Merger*" beginning on page 72 of this proxy statement/prospectus and "*Non-Binding Advisory Vote on Named Executive Officer Merger-Related Compensation*" beginning on page 110 of this proxy statement/prospectus.

Q: Why am I being asked to consider and vote on the merger-related compensation proposal?

A: Under SEC rules, we are required to conduct a non-binding advisory vote of shareholders regarding the compensation that may be paid or become payable to our named executive officers in connection with the completion of the merger.

Q: What will happen if the SCANA shareholders do not approve the merger-related compensation proposal?

A: Approval of the merger-related compensation proposal is not a condition to completion of the merger. The merger-related compensation vote is advisory and will not be binding. Therefore, if the merger proposal is approved by the SCANA shareholders and the merger is completed, the compensation that is the subject of the merger-related compensation proposal, which includes amounts we are contractually obligated to pay, would still be paid regardless of the outcome of the non-binding advisory vote.

Q: If I do not favor the approval of the merger agreement, do I have appraisal or dissenters' rights?

A: No. Because SCANA common stock is listed on the NYSE as of the record date of the special meeting, holders of SCANA common stock are not entitled to exercise appraisal or dissenters' rights under Section 33-13-102(B) of the South Carolina Business Corporation Act, which we refer to as the SCBCA, in connection with the merger. SCANA shareholders may vote against the merger proposal if they are not in favor of the approval of the merger agreement. For additional information on appraisal or dissenters' rights, see the section entitled "*The Merger—No Dissenters' Rights*" beginning on page 67 of this proxy statement/prospectus.

Q: What are the U.S. federal income tax consequences of the merger to SCANA shareholders?

A: The merger is intended to be non-taxable to SCANA shareholders, provided it qualifies as a "reorganization" within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended, which we refer to as the Code. The holders of SCANA common stock are not expected to recognize any gain or loss for U.S. federal income tax purposes on the exchange of shares of SCANA common stock for shares of Dominion Energy common stock in the merger, except with respect to any cash received in lieu of fractional shares of Dominion Energy common stock.

You should read "*The Merger—U.S. Federal Income Tax Consequences of the Merger*" beginning on page 65 of this proxy statement/prospectus for a more complete discussion of the U. S. federal income tax consequences of the merger. Tax matters can be complicated and the tax consequences of the merger to you will depend on your particular tax situation. You should consult your tax advisor to determine the tax consequences of the merger to you.

Q: What will happen to SCANA as a result of the merger?

A: If the merger is completed, Merger Sub will be merged with and into SCANA, with SCANA continuing as the surviving corporation and a wholly owned subsidiary of Dominion Energy.

Table of Contents

SCANA will no longer be a public company, and its shares will be delisted from the NYSE, deregistered under the Exchange Act and cease to be publicly traded. SCANA shareholders of record at the effective time of the merger will be entitled to receive the merger consideration.

Q: What equity stake will SCANA shareholders hold in Dominion Energy immediately following the merger?

A: We estimate that upon the closing of the merger, holders of SCANA common stock will hold, in the aggregate, approximately 13% of the issued and outstanding shares of Dominion Energy common stock.

Q: When do you expect the merger to be completed?

A: We hope to complete the merger in 2018; however, the merger is subject to various regulatory approvals and other conditions set forth in the merger agreement and described elsewhere in this proxy statement/prospectus and it is possible that factors outside the control of SCANA and Dominion Energy could result in the merger being completed at a later time, or not at all. There may be a substantial amount of time between the special meeting and the completion of the merger. We hope to complete the merger as soon as reasonably practicable following the receipt of all required approvals and the satisfaction or waiver of the other conditions.

Q: What are the conditions to the completion of the merger?

A: In addition to the approval of the merger agreement by SCANA shareholders as described above, closing of the merger is subject to the satisfaction or, to the extent permitted by applicable law, waiver of a number of other conditions, including compliance with applicable federal and state regulatory filing and approval requirements under the terms of the merger agreement, including under the Hart-Scott-Rodino Act, which we refer to as the HSR Act, and from the Nuclear Regulatory Commission, which we refer to as the NRC, and the Federal Energy Regulatory Commission, which we refer to as FERC, as well as from the Public Service Commission of South Carolina, the North Carolina Utilities Commission and the Georgia Public Service Commission, which we refer to as SCPSC, NCUC and GPSC, respectively. Other conditions include that, since the date of the merger agreement, there have been no substantive changes in any applicable law or order with respect to the South Carolina Base Load Review Act of 2007, as amended, which we refer to as the BLRA, or other South Carolina public utility laws that have or would reasonably be expected to have an adverse effect on SCANA or any of its subsidiaries and that no governmental entity of competent jurisdiction shall have entered any order or enacted any change in law that imposes any condition that would reasonably be expected to result in any material change to the proposed terms, conditions or undertakings of the SCPSC petition (as defined in "*Summary—Conditions to Completion of the Merger*") or any significant change to the economic value of the proposed terms of the SCPSC petition, in each case as reasonably determined by Dominion Energy in good faith. Further conditions to closing include (1) that the SCPSC approve the SCPSC petition (other than the request for the SCPSC to make the SCPSC merger determination (as defined below)), unless otherwise consented to by Dominion Energy in its sole discretion, without any material change to the terms, conditions or undertakings of the cost recovery plan (as defined below) or any significant change to the economic value of the cost recovery plan, in each case as reasonably determined by Dominion Energy in good faith, and (2) that the SCPSC approve the merger with no material changes to the terms of the merger or make a finding that the merger is in the public interest or make a finding that there is an absence of harm to South Carolina rate payers as a result of the merger. We refer to the condition in clause (2) as the SCPSC merger determination.

For a more complete summary of these conditions and additional conditions that must be satisfied or waived prior to the closing of the merger, see the section entitled "*The Merger Agreement—Conditions to Completion of the Merger*" beginning on page 88 of this proxy statement/prospectus.

Q: What happens if I sell my shares of SCANA common stock before the special meeting?

A: The record date for SCANA shareholders entitled to vote at the special meeting is , 2018, which is earlier than the date of the special meeting. If you sell or otherwise transfer your shares of SCANA

Table of Contents

common stock after the record date but before the special meeting, you will retain your right to vote such shares at the special meeting but will otherwise transfer ownership of your shares of SCANA common stock, unless special arrangements (such as provision of a proxy) are made between you and the person to whom you transfer your shares and each of you notifies us in writing of such special arrangements.

Q: What happens if I sell or otherwise transfer my shares of SCANA common stock before the completion of the merger?

A: Only holders of shares of SCANA common stock at the time the articles of merger have been filed with the South Carolina Secretary of State (unless the parties agree in writing to a later time for the completion of the merger and specify such time in the articles of merger), which we refer to as the effective time of the merger, will become entitled to receive the merger consideration. If you sell your shares of SCANA common stock prior to the completion of the merger, you will not be entitled to receive the merger consideration upon completion of the merger.

Q: What happens if the merger is not completed?

A: Under the terms of the merger agreement, if the conditions to the merger are not satisfied or waived by January 2, 2019, which we refer to as the termination date (which will automatically be extended to April 2, 2019 if on the termination date certain required regulatory approvals have not been obtained), then either SCANA or Dominion Energy may terminate the merger agreement, subject to certain restrictions. The merger agreement can also be terminated under other circumstances specified under the merger agreement (see the section entitled "*The Merger Agreement—Termination of the Merger Agreement*" beginning on page 99 of this proxy statement/prospectus). Under specified circumstances, SCANA may be required to pay to Dominion Energy, or be entitled to receive from Dominion Energy, a fee with respect to the termination of the merger agreement. See the section entitled "*The Merger Agreement—Termination Fees*" beginning on page 100.

We cannot complete the merger unless the SCANA shareholders approve the merger proposal. If the merger agreement is not approved by SCANA shareholders or if the merger is not completed for any other reason, SCANA will remain an independent company, the SCANA shareholders will not receive any merger consideration for their shares of SCANA common stock in connection with the merger, and the shares of SCANA common stock will remain outstanding and will continue to be listed and traded on the NYSE.

Questions and Answers Regarding the Special Meeting and Voting

Q: When and where will the special meeting be held?

A: The special meeting will be held at [a.m./p.m.], Eastern Daylight Time on , 2018 at .

Q: What matters will be voted on at the special meeting?

A: You will be asked to consider and vote on the following proposals:

- the merger proposal;
- the merger-related compensation proposal; and
- the adjournment proposal.

SCANA will transact no other business at the special meeting or any adjournment or postponement thereof.

Q: What vote is required for approval of the proposals?

A:
- Approval of the merger proposal requires the affirmative vote of the holders of at least two-thirds of the outstanding shares of SCANA common stock;

Table of Contents

- The merger-related compensation proposal will be approved if more votes are cast in favor of the proposal than against the proposal (the outcome of the merger-related compensation proposal will not be binding on SCANA or the SCANA board or the compensation committee of the SCANA board); and
- The adjournment proposal will be approved if more votes are cast in favor of the proposal than against the proposal.

Q: How does the SCANA board recommend that I vote on the proposals?

A: The SCANA board recommends that the SCANA shareholders vote (i) **"FOR"** the merger proposal, (ii) **"FOR"** the merger-related compensation proposal and (iii) **"FOR"** the adjournment proposal.

Q: Who is entitled to vote at the special meeting?

A: All holders of SCANA common stock as of the close of business on   , 2018, the record date for the special meeting, are entitled to vote at the special meeting, unless a new record date is fixed for any adjournment or postponement of the special meeting.

Q: What are the quorum requirements?

A: A quorum requires the presence, in person or by proxy, of the holders of a majority of the shares of SCANA common stock outstanding and entitled to vote. A quorum is needed to conduct the votes on the merger proposal and the merger-related compensation proposal. Abstentions and broker "non-votes," if any, will be counted as present and entitled to vote for purposes of determining the presence or absence of a quorum.

Q: How can I attend the special meeting in person?

A: An admission ticket or proof of share ownership as of the record date is required to attend the special meeting in person. If you plan to use the admission ticket, please remember to detach the admission ticket from your proxy card before mailing your proxy card. If you forget to bring the admission ticket, you will be admitted to the special meeting only if you are listed as a shareholder of record as of the record date and you bring proof of identification. If you hold your shares through a broker, bank or other nominee, you must provide proof of ownership by bringing either a copy of the voting instruction card provided by your broker, bank or other nominee or a brokerage statement showing your share ownership as of the record date. If you are a SCANA shareholder of record and your shares are owned jointly and you need an additional admission ticket, you should contact the SCANA Corporate Secretary, SCANA Corporation, 220 Operation Way, Mail Code D133, Cayce, South Carolina 29033, or call 803-217-7568.

Q: How do I vote?

A: If you are a SCANA shareholder of record as of the record date for the special meeting, whether or not you plan to attend the special meeting, you may vote by submitting a proxy via the Internet, touchtone telephone or mail before the special meeting, or you may vote in person at the special meeting. To ensure your shares are represented at the special meeting, you may submit your proxy by:

- accessing *proxy.georgeson.com* (this Internet website is specified on your proxy card);
- calling   (this toll-free number is specified on your proxy card); or
- signing and returning the enclosed proxy card in the postage-paid envelope provided.

If you hold shares of SCANA common stock through a broker, bank or other nominee, please follow the voting instructions provided by your broker, bank or other nominee to ensure that your shares are represented at the special meeting.

Table of Contents

Q: How many votes do I have?

T

A: You are entitled to one (1) vote for each share of SCANA common stock that you owned as of the record date. As of the close of business on , 2018, there were outstanding shares of SCANA common stock.

T

Q: What will happen if I fail to vote or I abstain from voting?

T

A: You are strongly encouraged to vote. It is important that your views be represented no matter how many shares you own. Your failure to vote, or failure to instruct your broker, bank or other nominee to vote, or your abstention from voting, will have the same effect as a vote against the merger proposal, but will not be counted as a vote "for" or "against" the merger-related compensation proposal or the adjournment proposal.

T

Q: Who is SCANA's transfer agent?

T

A: Wells Fargo Shareowner Services, a division of Wells Fargo Bank, N.A., which we refer to as Shareowner Services, has served as the transfer agent and registrar for SCANA. On July 12, 2017, Wells Fargo Bank, N.A. announced that it had entered into an agreement to sell Shareowner Services to Equiniti Group plc. In connection with the sale of Shareowner Services, its appointment as transfer agent of SCANA will be transferred to Equiniti Trust Company, which we refer to as EQ, provided that the sale closes. Accordingly, following the closing of the sale, EQ will serve as the transfer agent and registrar for SCANA common stock.

T

Q: What is the difference between holding shares as a shareholder of record and as a beneficial owner?

T

A: If your shares of SCANA common stock are registered directly in your name with SCANA's transfer agent, you are considered the shareholder of record with respect to those shares and you can attend the special meeting and vote in person. You can also vote your shares by proxy without attending the special meeting in any of the ways specified in "*The Special Meeting—Voting by Proxy*" beginning on page 31 of this proxy statement/prospectus.

If your shares of SCANA common stock are held by a brokerage firm, trustee, bank, other financial intermediary or nominee, referred to as an intermediary, you are considered the beneficial owner of shares held in "street name," and the intermediary is considered the shareholder of record with respect to those shares.

T

Q: How do I vote my shares of SCANA common stock if my shares are held in "street name" by my broker, bank or other nominee?

T

A: If your shares of SCANA common stock are held in "street name" (that is, through a broker, bank or other nominee), you will receive a voting instruction card or other information from your broker, bank or other nominee seeking instruction from you as to how your shares should be voted, and, to vote your shares, you must provide your broker, bank or other nominee with instructions on how to vote them. Please follow the voting instructions provided by your broker, bank or other nominee. Please note that you may not vote shares held in "street name" by returning a proxy card directly to SCANA or by voting in person at the special meeting unless you provide a "legal proxy," which you must obtain from your broker, bank or other nominee.

T

Q: If my shares of SCANA common stock are held in "street name," what will happen if I do not instruct my broker, bank or other nominee on how to vote?

T

A: If you do not instruct your broker, bank or other nominee on how to vote your shares:

T

- your broker, bank or other nominee may not vote your shares on the merger proposal, which broker non-votes will have the same effect as a vote against the merger proposal;

T

Table of Contents

- your broker, bank or other nominee may not vote your shares on the merger-related compensation proposal, which broker non-votes will not be counted as a vote "for" or "against" the merger-related compensation proposal; and
- your broker, bank or other nominee may not vote your shares on the adjournment proposal, which broker non-votes will not be counted as a vote "for" or "against" the adjournment proposal.

Q: If I am a shareholder of record, what will happen if I sign and return my proxy card without indicating how to vote?

A: If you sign and return your proxy card without indicating how to vote on any particular proposal, the SCANA common stock represented by your proxy will be voted in favor of that proposal.

Q: How do I vote shares I hold as a participant in the SCANA Corporation 401(k) Retirement Savings Plan (formerly named the SCANA Corporation Stock Purchase-Savings Plan)?

A: If you own shares of SCANA common stock as a participant in the SCANA Corporation 401(k) Retirement Savings Plan, which we refer to as the Plan, you will receive a proxy card that covers only your Plan shares. Proxies executed by Plan participants will serve as instructions to the Plan's trustee as to how Plan shares are to be voted. If you do not instruct the Plan's trustee how your Plan shares are to be voted, the Plan trustee will instruct the proxy agents to vote your shares in the same proportion as the Plan shares for which the Plan's trustee received instructions were voted. As a result of this proportional voting, if voting instructions are given for only a small percentage of Plan participant shares, the wishes of those participants would determine the voting instructions by the Plan's trustee. Accordingly, the greater the number of Plan participant shares for which Plan participants complete and execute proxies, the more representative the Plan trustee's voting instructions will be.

The deadline to provide voting directions for shares allocated to your Plan account in the Plan is   [a.m./p.m.], Eastern Daylight Time on   , 2018, which, for administrative reasons, is earlier than the deadline for voting SCANA common stock not held through the Plan. You will not be able to submit or change voting directions after this deadline. If you own SCANA common stock both through and outside of the Plan, you will be required to vote those shares separately.

Q: May I change my vote after I have returned a proxy or voting instruction card?

A: Yes. You may change your vote (i.e., revoke your proxy card) at any time before your proxy is voted at the special meeting. If you are a shareholder of record (i.e., you hold your shares directly in your name), you may accomplish this by granting a new proxy (by telephone, Internet or mail) bearing a later date or by attending the special meeting and voting in person (each of which automatically revokes the earlier proxy). However, your attendance at the special meeting alone will not revoke any proxy that you have previously given. If you hold your shares in "street name," you must follow the instructions on the voting instruction card you received from your broker, bank or other nominee in order to change or revoke your instructions.

Q: What do I need to do now?

A: Carefully read and consider the information contained in and incorporated by reference into this proxy statement/prospectus, including its annexes.

In order for your shares to be represented at the special meeting:

- you can vote through the Internet or by telephone by following the instructions included on your proxy card;
- you can indicate on the enclosed proxy card how you would like to vote and return the card in the accompanying pre-addressed postage paid envelope; or
- you can attend the special meeting in person.

Table of Contents

Q: Do I need to do anything with my SCANA common stock certificates now?

A: No. If and after the merger is completed, if you held certificates representing shares of SCANA common stock, which we refer to as SCANA stock certificates, prior to the merger, Dominion Energy's exchange agent will send you a letter of transmittal and instructions for exchanging your SCANA stock certificates for the merger consideration. Upon surrender of the SCANA stock certificates for cancellation along with the executed letter of transmittal and other required documents described in the instructions, you will receive the merger consideration. The shares of Dominion Energy common stock you receive in the merger will be issued in book-entry form.

Q: Who will solicit and pay the cost of soliciting proxies?

A: SCANA has engaged Georgeson, Inc. to assist in the solicitation of proxies for the special meeting, and will pay an estimated fee of $ for their services plus associated costs and expenses.

Q: Who can help answer my questions?

A: If you have questions about the merger or the other matters to be voted on at the special meeting or desire additional copies of this proxy statement/prospectus or additional proxy cards, you should contact our proxy solicitor or our shareholder services provider:

SUMMARY

This summary highlights information contained elsewhere in this proxy statement/prospectus and may not contain all the information that is important to you. We urge you to read carefully the remainder of this proxy statement/prospectus, including the attached annexes, and the other documents to which we have referred you for a more complete understanding of the matters being considered at the special meeting. See also the section entitled "Where You Can Find More Information" on page 136 of this proxy statement/prospectus. We have included page references to direct you to a more complete description of the topics presented in this summary.

Parties to the Merger

Dominion Energy

120 Tredegar Street
Richmond, Virginia 23219
(804) 819-2000

Headquartered in Richmond, Virginia and incorporated in Virginia in 1983, Dominion Energy is one of the nation's largest producers and transporters of energy, with a portfolio of approximately 26,000 megawatts of electric generation, 66,100 miles of natural gas transmission, gathering, storage and distribution pipelines and 64,500 miles of electric transmission and distribution lines. Dominion Energy operates one of the largest natural gas storage systems in the U.S. with 1 trillion cubic feet of capacity, and serves nearly 6 million utility and retail energy customers.

Dominion Energy common stock is listed on the NYSE under the symbol "D."

Additional information about Dominion Energy is included in the documents incorporated by reference into this proxy statement/prospectus. See the section entitled "*Where You Can Find More Information*" beginning on page 136 of this proxy statement/prospectus.

SCANA

100 SCANA Parkway
Cayce, South Carolina 29033
(803) 217-9000

SCANA is a South Carolina corporation created in 1984 as a holding company. SCANA, through its wholly owned regulated subsidiaries, is primarily engaged in the generation, transmission, distribution and sale of electricity in the central, southern and southwestern portions of South Carolina and in the purchase, transmission and sale of natural gas in North Carolina and South Carolina. SCANA, through a wholly owned nonregulated subsidiary, also markets natural gas to retail customers in Georgia and to wholesale customers in the southeast United States.

SCANA common stock is traded on the NYSE under the symbol "SCG."

Additional information about SCANA and its subsidiaries is included in the documents incorporated by reference into this proxy statement/prospectus. See the section entitled "*Where You Can Find More Information*" on page 136 of this proxy statement/prospectus.

Merger Sub

120 Tredegar Street
Richmond, Virginia 23219
(804) 819-2000

Merger Sub, a wholly owned subsidiary of Dominion Energy, is a South Carolina corporation formed on December 29, 2017 for the purpose of effecting the merger. To date, Merger Sub has not conducted any activities other than those incidental to its formation and the matters contemplated by the merger agreement in connection with the merger.

The Merger and the Merger Agreement

The terms and conditions of the merger are contained in the merger agreement, a copy of which is attached as Annex A to this proxy statement/prospectus. We encourage you to carefully read the merger agreement in its entirety, as it is the principal document that governs the merger.

Pursuant to and in accordance with the terms and conditions of the merger agreement, at the effective time of the merger, Merger Sub will merge with and into SCANA. After the effective time of the merger, SCANA will be the surviving corporation and a wholly owned subsidiary of Dominion Energy. Following the effective time of the merger, SCANA common stock will be delisted from the NYSE, deregistered under the Exchange Act, and cease to be publicly traded.

Merger Consideration (See page 84)

Upon completion of the merger, each issued and outstanding share of SCANA common stock (other than shares owned by Dominion Energy, Merger Sub or any other wholly owned subsidiary of Dominion Energy and shares owned by SCANA or any wholly owned subsidiary of SCANA, which shares we refer to as cancelled shares) will be automatically converted into the right to receive the merger consideration. Cash will be paid in lieu of any fractional shares of Dominion Energy common stock.

Recommendations of the SCANA Board of Directors (See page 47)

On January 2, 2018 the SCANA board adopted the merger agreement by a unanimous vote. For the factors considered by the SCANA board in reaching its decision to approve the merger agreement, see the section entitled "*The Merger—SCANA's Reasons for the Merger; Recommendation of the SCANA Board*" beginning on page 42.

The SCANA board recommends that the SCANA shareholders vote (i) "FOR" the merger proposal, (ii) "FOR" the merger-related compensation proposal and (iii) "FOR" the adjournment proposal.

Opinions of SCANA's Financial Advisors (See page 47)

Opinion of Morgan Stanley & Co. LLC (See page 47)

The SCANA board selected Morgan Stanley & Co. LLC, which we refer to as Morgan Stanley, to act as its financial advisor based on Morgan Stanley's qualifications, expertise and reputation, its knowledge of and involvement in recent transactions in SCANA's industry and its knowledge and understanding of the business and affairs of SCANA. On January 2, 2018, Morgan Stanley rendered its oral opinion, which was subsequently confirmed in writing, to the SCANA board to the effect that, as of that date, and based upon and subject to the assumptions made, procedures followed, matters considered and qualifications and limitations on the scope of

T

Table of Contents

review undertaken by Morgan Stanley as set forth in Morgan Stanley's written opinion, the merger consideration to be received by the holders of shares of SCANA common stock (other than the holders of the cancelled shares) pursuant to the merger agreement was fair from a financial point of view to the holders of shares of SCANA common stock.

The full text of the written opinion of Morgan Stanley delivered to the SCANA board, dated January 2, 2018, is attached as Annex B and incorporated into this proxy statement/prospectus by reference in its entirety. The opinion sets forth, among other things, the assumptions made, procedures followed, matters considered and qualifications and limitations on the scope of the review undertaken by Morgan Stanley in rendering its opinion. SCANA shareholders are urged to, and should, read the opinion carefully and in its entirety. Morgan Stanley's opinion is directed to the SCANA board and addresses only the fairness from a financial point of view of the merger consideration to be received by the holders of shares of SCANA common stock (other than the holders of the cancelled shares) pursuant to the merger agreement as of the date of the opinion. Morgan Stanley's opinion did not address the relative merits of the transactions contemplated by the merger agreement as compared to other business or financial strategies that might be available to SCANA, nor did it address the underlying business decision of SCANA to enter into the merger agreement or proceed with any other transaction contemplated by the merger agreement. In addition, Morgan Stanley's opinion did not in any manner address the prices at which shares of Dominion Energy common stock will trade following completion of the merger or at any time, and Morgan Stanley's opinion was not intended to, and does not, express any opinion or recommendation as to how the SCANA shareholders should vote at the special meeting. The summary of Morgan Stanley's opinion set forth in this proxy statement/prospectus is qualified in its entirety by reference to the full text of Morgan Stanley's opinion.

For a summary of Morgan Stanley's opinion and the methodology that Morgan Stanley used to render its opinion, see the section entitled "*The Merger—Opinions of SCANA's Financial Advisors—Opinion of Morgan Stanley & Co. LLC*" beginning on page 47 of this proxy statement/prospectus.

Opinion of RBC Capital Markets, LLC (See page 58)

SCANA has engaged RBC Capital Markets, LLC, which we refer to as RBC Capital Markets, as a financial advisor to SCANA in connection with the merger. As part of this engagement, RBC Capital Markets delivered an opinion, dated January 2, 2018, to the SCANA board as to the fairness, from a financial point of view and as of such date, of the merger consideration to be received by holders of SCANA common stock pursuant to the merger agreement. The full text of RBC Capital Markets' written opinion, dated January 2, 2018, is attached as Annex C to this proxy statement/prospectus and sets forth, among other things, the procedures followed, assumptions made, factors considered and qualifications and limitations on the review undertaken by RBC Capital Markets in connection with its opinion, as more fully described in the section entitled "*The Merger—Opinions of SCANA's Financial Advisors—Opinion of RBC Capital Markets, LLC*" beginning on page 58 of this proxy statement/prospectus. **RBC Capital Markets delivered its opinion to the SCANA board for the benefit, information and assistance of the SCANA board (in its capacity as such) in connection with its evaluation of the merger. RBC Capital Markets' opinion addressed only the fairness, from a financial point of view and as of the date of such opinion, of the merger consideration (to the extent expressly specified in such opinion) and did not address any other aspect of the merger. RBC Capital Markets' opinion also did not address the underlying business decision of SCANA to engage in the merger or the relative merits of the merger compared to any alternative business strategy or transaction that might be available to SCANA or in which SCANA might engage. RBC Capital Markets does not express any opinion and does not make any recommendation to any shareholder as to how such shareholder should vote or act with respect to the merger or any proposal to be voted upon in connection with the merger or otherwise.**

T

Table of Contents

Interests of SCANA's Directors and Executive Officers in the Merger (See page 72)

In considering the recommendation of the SCANA board with respect to the merger proposal and the other information contained in this proxy statement/prospectus, you should be aware that SCANA's executive officers and directors may have interests in the merger that may be different from, or in addition to, the interests of the SCANA shareholders. These interests include the accelerated vesting of equity awards, arrangements that provide for severance benefits if the employment of a SCANA executive officer is terminated under specified circumstances following the completion of the merger and rights to indemnification and director's and officer's liability insurance that will survive the completion of the merger. For a detailed discussion of the interests that SCANA's directors and executive officers may have in the merger, please see the section entitled "*The Merger—Interests of SCANA's Directors and Executive Officers in the Merger*" beginning on page 72 of this proxy statement/prospectus.

Expected Timing of the Merger (See page 68)

We are targeting to complete the merger in 2018, subject to the receipt of required shareholder and regulatory approvals and the satisfaction or waiver of the other conditions to the merger discussed below.

Conditions to Completion of the Merger (See page 88)

As more fully explained below, the obligation of SCANA, Dominion Energy and Merger Sub to effect the merger is subject to the satisfaction or waiver of the following mutual conditions:

- the receipt of the affirmative vote of holders of at least two-thirds of the outstanding shares of SCANA common stock entitled to vote thereon at a duly held special meeting (or any adjournment or postponement of the special meeting) with respect to the merger proposal, which we refer to as the SCANA requisite vote;
- the absence of any law or order issued by any governmental entity (as defined below) prohibiting the completion of the merger;
- the expiration or termination of the waiting period applicable to the completion of the merger under the HSR Act;
- authorization of the merger from the FERC;
- authorization of the merger from the NRC;
- authorization of the merger from the GPSC;
- authorization of the merger from the NCUC;
- the issuance by the SCPSC of an order approving the SCPSC petition (other than with respect to the SCPSC merger determination, which is discussed in the conditions of Dominion Energy and Merger Sub in the immediately following paragraph), unless otherwise consented to by Dominion Energy in its sole discretion, without any material changes to the proposed terms, conditions or undertakings set forth in the cost recovery plan or any significant changes to the economic value of the proposed terms of the cost recovery plan (we refer to (i) the South Carolina Public Service Authority as Santee Cooper, (ii) the New Nuclear Development Project under which SCANA and Santee Cooper undertook to construct two (2) Westinghouse AP1000 Advanced Passive Safety nuclear units in Jenkinsville, South Carolina as the NND project, (iii) the cost recovery plan set forth in the SCPSC petition as the cost recovery plan and (iv) the joint petition filed by SCANA's wholly owned utility subsidiary South Carolina Electric & Gas Company, which we refer to as SCE&G, and Dominion Energy with the SCPSC requesting that the SCPSC approve the merger and approve the terms for cost recovery and other regulatory matters with respect to the NND project set forth therein as the SCPSC petition);

Table of Contents

- the approval for listing of the shares of Dominion Energy common stock to be issued in the merger on the NYSE; and
- the effectiveness under the Securities Act of the registration statement on Form S-4 of which this proxy statement/prospectus is a part.

The obligation of Dominion Energy and Merger Sub to effect the merger is subject to the satisfaction or waiver of the following additional conditions:

- the representations and warranties of SCANA relating to SCANA's capitalization being true and correct in all respects, except for de minimis inaccuracies;
- the representations and warranties of SCANA relating to (i) SCANA's authority to execute and deliver the merger agreement and perform its obligations under the merger agreement and (ii) broker's and advisor's fees and commissions owed by SCANA to brokers or other financial advisors in connection with the merger, each being true and correct in all material respects;
- the representations and warranties of SCANA relating to (i) the absence of any changes since January 1, 2017 that have or would be reasonably expected to have, individually or in the aggregate, a material adverse effect on SCANA and its subsidiaries, taken as a whole and (ii) the SCANA requisite vote being the only vote of the SCANA shareholders required to approve the merger agreement and the merger, each being true and correct in all respects;
- each of the representations and warranties of SCANA other than those referred to in the three immediately preceding bullets being true and correct in all respects, except where the failure of such representations and warranties to be true and correct has not had or would not be reasonably expected to have, individually or in the aggregate, a material adverse effect on SCANA and its subsidiaries, taken as a whole;
- performance in all material respects by SCANA of all obligations required to be performed by it under the merger agreement on or prior to the closing date of the merger;
- Dominion Energy having received a certificate of the chief executive officer or the chief financial officer of SCANA, certifying that the conditions set forth in the five (5) immediately preceding bullets have been satisfied;
- the absence of any regulatory approval or other approval or consent, in each case in connection with the merger, or order of a governmental entity related to any of the foregoing imposing a burdensome condition;
- the absence of any changes since the date of the merger agreement that have or would be reasonably expected to have, individually or in the aggregate, a material adverse effect on SCANA and its subsidiaries, taken as a whole;
- the absence of any order enacted by a governmental entity of competent jurisdiction or any change in law which, in each case, imposes any condition that would reasonably be expected to result in (i) a material change to the proposed terms, conditions, or undertakings set forth in the SCPSC petition, or (ii) a significant change to the economic value of the proposed terms set forth in the SCPSC petition, in each case as reasonably determined by Dominion Energy in good faith;
- the SCPSC shall have made the SCPSC merger determination; and
- the absence of any (i) substantive change in applicable law or any order with respect to the BLRA as in effect as of the date of the merger agreement or (ii) substantive change in any applicable law or any order enacted by a governmental entity with respect to any other laws of the State of South Carolina governing public utilities as in effect as of the date of the merger agreement, in each case, which has or would reasonably be expected to have an adverse effect on SCANA or any of its subsidiaries.

Table of Contents

The obligation of SCANA to effect the merger is subject to the satisfaction or waiver of the following additional conditions:

- the representations and warranties of Dominion Energy and Merger Sub relating to Dominion Energy's and Merger Sub's capitalization being true and correct in all respects, except for *de minimis* inaccuracies;
- the representations and warranties of Dominion Energy and Merger Sub relating to (i) Dominion Energy's and Merger Sub's authority to execute and deliver the merger agreement and perform its obligations under the merger agreement and (ii) broker's and advisor's fees and commissions owed by Dominion Energy and Merger Sub to brokers or other financial advisors in connection with the merger, each being true and correct in all material respects;
- the representations and warranties of Dominion Energy and Merger Sub relating to (i) the absence of any change since January 1, 2017 that has or would be reasonably expected to have, individually or in the aggregate, a material adverse effect on Dominion Energy and its subsidiaries, taken as a whole and (ii) the approval of the merger agreement by the sole shareholder of Merger Sub being the only vote or consent of any class of capital stock of Dominion Energy or any of its affiliates necessary for Dominion Energy and Merger Sub to approve the merger agreement and complete the merger and the other transactions contemplated by the merger agreement, each being true and correct in all respects;
- each of the representations and warranties of Dominion Energy and Merger Sub other than those referred to in the three (3) immediately preceding bullets above being true and correct in all respects, except where the failure of such representations and warranties to be true and correct has not had or would not be reasonably expected to have, individually or in the aggregate, a material adverse effect on Dominion Energy and its subsidiaries, taken as a whole;
- performance in all material respects by Dominion Energy and Merger Sub of all obligations required to be performed by them under the merger agreement on or prior to the closing date of the merger; and
- SCANA having received a certificate of the chief executive officer or the chief financial officer of Dominion Energy certifying that the conditions set forth in the five (5) immediately preceding bullets have been satisfied.

We cannot be certain when, or if, the conditions to the merger will be satisfied or waived, or that the merger will be completed.

Termination of the Merger Agreement (See page 99)

As more fully explained below, the merger agreement may be terminated and the merger may be abandoned at any time prior to the effective time of the merger:

- by mutual written consent of Dominion Energy and SCANA;
- by either Dominion Energy or SCANA:
  - if the merger shall not have been completed on or before January 2, 2019, except that such date will be automatically extended to April 2, 2019 if, as of January 2, 2019, the only conditions to closing not yet satisfied or waived are the ones relating to governmental orders, regulatory approvals or the SCPSC's approval of the cost recovery plan;
  - if the SCANA requisite vote is not obtained at the special meeting (or any adjournment or postponement thereof); or
  - if a governmental entity shall have entered a final, nonappealable order that prohibits completion of the merger;

Table of Contents

- by SCANA:
  - if, prior to obtaining the SCANA requisite vote, the SCANA board has effected a SCANA board adverse recommendation change with respect to a superior proposal in accordance with the procedures set forth in the merger agreement and shall have approved, and concurrently with the termination of the merger agreement, SCANA shall have entered into, an alternative acquisition agreement with respect to a superior proposal and paid to Dominion Energy the applicable termination fee; or
  - if Dominion Energy or Merger Sub have breached any of their respective representations or warranties or failed to perform any of their respective covenants under the merger agreement where (i) such breach would give rise to a failure of a condition to SCANA's obligation to complete the merger relating to (a) the accuracy of Dominion Energy's and Merger Sub's representations and warranties or (b) the performance by Dominion Energy and Merger Sub of all obligations required to be performed by them under the merger agreement and (ii) the breach cannot be cured by Dominion Energy or Merger Sub prior to the termination date, or is not cured by Dominion Energy or Merger Sub prior to the earlier of (a) the thirtieth (30th) day after SCANA provides Dominion Energy written notice of such breach and (b) the third (3rd) business day immediately preceding the termination date;
- by Dominion Energy:
  - if the SCANA board (or a committee thereof) has effected a SCANA board adverse recommendation change; or
  - if SCANA has breached any of its representations or warranties or failed to perform any of its covenants under the merger agreement where (i) such breach would give rise to a failure of a condition to Dominion Energy's and Merger Sub's obligation to complete the merger relating to (a) the accuracy of SCANA's representations and warranties or (b) the performance by SCANA of all obligations required to be performed by it under the merger agreement and (ii) the breach cannot be cured by SCANA prior to the termination date, or is not cured by SCANA prior to the earlier of (a) the thirtieth (30th) day after Dominion Energy provides SCANA written notice of such breach and (b) the third (3rd) business day immediately preceding the termination date.

Termination Fees (See page 100)

The merger agreement provides that, upon termination of the merger agreement under certain circumstances, each party may be obligated to pay the other party a termination fee, discussed under the section entitled "*The Merger Agreement—Termination Fees*" beginning on page 100 of this proxy statement/prospectus.

Directors and Management of Dominion Energy After the Merger (See page 65)

Upon completion of the merger, the board of directors and executive officers of Dominion Energy are expected to remain unchanged. Pursuant to the terms of the merger agreement, as soon as practical after completion of the merger, the Dominion Energy board intends to appoint a mutually agreeable current member of the SCANA board or SCANA's executive management to serve on the Dominion Energy board. For information on Dominion Energy's current directors and executive officers, please see Dominion Energy's proxy statement dated March 20, 2017. See the section entitled "*Where You Can Find More Information*" beginning on page 136 of this proxy statement/prospectus.

Regulatory Approvals Required for the Merger (See page 67)

Under the terms of the merger agreement, to complete the merger, Dominion Energy and SCANA must obtain approvals or consents from, or make filings with, public utility, antitrust and other regulatory authorities.

Table of Contents

The U. S. federal and state approvals, consents and filings required under the terms of the merger agreement to complete the merger include the following:

- the expiration or early termination of certain waiting periods under the HSR Act and the related rules and regulations, which provide that certain acquisition transactions may not be completed until required information has been furnished to the Antitrust Division of the Department of Justice, which we refer to as the DOJ, and the Federal Trade Commission, which we refer to as the FTC;
- approval of the FERC under the Federal Power Act, which we refer to as the FPA;
- consent of the NRC under Section 184 of the Atomic Energy Act and the NRC's implementing regulations in 10 C.F.R. 50.80;
- approval of the GPSC under § 46-4-25 of the Official Code of Georgia, which we refer to as the O.C.G.A.;
- authorization of the NCUC under Section 62-111(a) of the North Carolina General Statutes, which we refer to as the NCGS;
- approval by the SCPSC of the SCPSC petition (other than the request for the SCPSC to make the SCPSC merger determination), unless otherwise consented to by Dominion Energy in its sole discretion, without any material changes to the terms, conditions or undertakings of the cost recovery plan or any significant change to the economic value of the cost recovery plan, in each case as reasonably determined by Dominion Energy in good faith; and
- the SCPSC merger determination.

While not a condition to the closing of the merger, the transfer of indirect control over certain licenses for private internal communications held by SCANA and certain SCANA subsidiaries will require the approval of the Federal Communications Commission, which we refer to as the FCC, and the indirect transfer of control of certain state issued radioactive material licenses will require state-level consents.

Dominion Energy and SCANA have made or intend to make various filings and submissions for the above-mentioned authorizations and approvals. Dominion Energy and SCANA filed the required HSR Act notification and report forms with the DOJ and FTC on January 19, 2018, requested early termination of the HSR Act waiting period and were granted such early termination on February 1, 2018. We cannot assure that we will obtain such consents or approvals on terms and subject to conditions that will satisfy the requirements of the merger agreement. Please see the section entitled "*The Merger—Regulatory Approvals Required for the Merger*" beginning on page 67 of this proxy statement/prospectus for additional information about these matters.

U.S. Federal Income Tax Consequences of the Merger (See page 65)

The merger is intended to be non-taxable to shareholders, provided it qualifies as a "reorganization" within the meaning of Section 368(a) of the Code. The holders of SCANA common stock are not expected to recognize any gain or loss for U.S. federal income tax purposes on the exchange of shares of SCANA common stock for shares of Dominion Energy common stock in the merger, except with respect to any cash received in lieu of fractional shares of Dominion Energy common stock.

You should read "*The Merger—U.S. Federal Income Tax Consequences of the Merger*" beginning on page 65 of this proxy statement/prospectus for a more complete discussion of the U. S. federal income tax consequences of the merger. Tax matters can be complicated and the tax consequences of the merger to you will depend on your particular tax situation. You should consult your tax advisor to determine the tax consequences of the merger to you.

Table of Contents

Accounting Treatment (See page 67)

Dominion Energy prepares its financial statements in accordance with generally accepted accounting principles in the United States, which we refer to as GAAP. The merger will be accounted for using the acquisition method of accounting. Dominion Energy will be treated as the acquiror for accounting purposes.

No Dissenters' Rights (See page 67)

No SCANA shareholder will be entitled to exercise any dissenters' rights, appraisal rights or other similar rights in connection with the merger and the other transactions contemplated by the merger agreement.

The Special Meeting (See page 29)

The special meeting will be held at [a.m./p.m.] Eastern Daylight Time on , 2018 at . At the special meeting, SCANA shareholders will be asked to consider and vote on:

T
- the merger proposal;

T
- the merger-related compensation proposal; and

T
- the adjournment proposal, if necessary or appropriate in the view of the SCANA board.

You may vote at the special meeting if you owned common stock of SCANA at the close of business on the record date, , 2018. As of the record date there were shares of SCANA common stock outstanding and entitled to vote.

You may cast one (1) vote for each share of SCANA common stock that you owned on the record date.

Required Vote (See page 30)

Approval of the merger proposal requires the affirmative vote of the holders of at least two-thirds of the outstanding shares of SCANA common stock. Your failure to vote, or failure to instruct your broker, bank or other nominee to vote, or your abstention from voting, will have the same effect as a vote against the merger proposal.

The merger-related compensation proposal will be approved if more votes are cast in favor of the proposal than against the proposal. Because the votes for the merger-related compensation proposal are non-binding, if the merger agreement is approved by the SCANA shareholders and the merger is completed, the compensation that is the subject of the merger-related compensation proposal, which includes amounts SCANA is contractually obligated to pay, would still be paid regardless of the outcome of the non-binding advisory vote. Abstentions and broker non-votes will not be counted as a vote "for" or "against" the merger-related compensation proposal.

The adjournment proposal will be approved if more votes are cast in favor of the proposal than against the proposal. Abstentions and broker non-votes will not be counted as a vote "for" or "against" the adjournment proposal.

If you sign and return your proxy card without indicating how to vote on any particular proposal, SCANA common stock represented by your proxy will be voted in favor of that proposal.

As of the record date for the special meeting, the directors and executive officers of SCANA as a group owned and were entitled to vote shares of the common stock of SCANA, or approximately % of the outstanding shares of SCANA common stock on that date. SCANA currently expects that its directors and executive officers will vote their shares in favor of approval of the merger agreement, but none of SCANA's directors or executive officers have entered into any agreement obligating them to do so.

T

Table of Contents

Risk Factors (See page 17)

Before voting at the special meeting, you should carefully consider all of the information contained in or incorporated by reference into this proxy statement/prospectus, as well as the specific factors under the section entitled "*Risk Factors*" beginning on page 17 of this proxy statement/prospectus.

SELECTED UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL INFORMATION

The following selected unaudited pro forma consolidated financial information is derived from the unaudited pro forma consolidated statements of income data of Dominion Energy for the nine months ended September 30, 2017 and the year ended December 31, 2016, which have been prepared to give effect to the merger as if the merger was completed on January 1, 2016, and the unaudited pro forma condensed consolidated balance sheet of Dominion Energy at September 30, 2017, which has been prepared to give effect to the merger as if the merger was completed on September 30, 2017.

The following selected unaudited pro forma consolidated financial information is for illustrative and informational purposes only and is not necessarily indicative of the results that might have occurred had the merger taken place on January 1, 2016, for statements of income purposes, and September 30, 2017 for balance sheet purposes, and is not intended to be a projection of future results. Future results may vary significantly from the results reflected because of various factors, including those discussed in the section entitled "*Risk Factors*" beginning on page 17 of this proxy statement/prospectus. The following selected unaudited pro forma consolidated financial information should be read in conjunction with the section titled "*Unaudited Pro Forma Consolidated Financial Statements*" and related notes included in this proxy statement/prospectus beginning on page 112 of this proxy statement/prospectus.

T

(millions, except per share amounts)	Nine Months Ended September 30, 2017	Year Ended December 31, 2016
Pro Forma Consolidated Dominion Energy

Table of Contents

EQUIVALENT AND COMPARATIVE PER SHARE INFORMATION

The following table summarizes unaudited per share data for (i) Dominion Energy and SCANA on a historical basis, (ii) Dominion Energy on a pro forma combined basis giving effect to the merger and (iii) SCANA on a pro forma equivalent basis calculated by multiplying the Dominion Energy pro forma combined data by the exchange ratio of 0.6690. It has been assumed for purposes of the pro forma combined financial information provided below that the merger was completed on January 1, 2016, for earnings per share purposes, and on September 30, 2017, for shareholders' equity per share purposes. The following information should be read in conjunction with the section entitled "*Unaudited Pro Forma Consolidated Financial Statements*" and related notes included in this document beginning on page 112 of this proxy statement/prospectus.

T

	Dominion Energy		SCANA	
	Historical	Pro Forma Combined	Historical	Pro Forma Equivalent(a)
Nine Months Ended September 30, 2017				
Basic earnings per share of common stock	$ 2.66	$ 2.76	$ 2.28	$ 1.85
Diluted earnings per share of common stock	2.66	2.76	2.28	1.85
Cash dividends declared per share	2.265	2.265	1.8375	1.515
Book value per share(b)	25.28	29.98	40.47	20.06
Year Ended December 31, 2016				
Basic earnings per share of common stock	3.44	3.85	4.16	2.58
Diluted earnings per share of common stock	3.44	3.85	4.16	2.58
Cash dividends declared per share	2.80	2.80	2.30	1.87

T

(a) The unaudited SCANA pro forma equivalents are calculated by multiplying the unaudited Dominion Energy pro forma combined per share amounts by the exchange ratio of 0.6690.

(b) Historical book value per share for Dominion Energy and SCANA represents the total shareholders' equity at September 30, 2017 divided by the number of shares of Dominion Energy or SCANA shares outstanding. The unaudited Dominion Energy pro forma combined book value per share represents the total pro forma shareholders' equity at September 30, 2017 divided by the pro forma combined number of shares of Dominion Energy common stock that would have been outstanding at September 30, 2017 had the merger been completed at that date.

T

Table of Contents

COMPARATIVE STOCK PRICES AND DIVIDENDS

Dominion Energy common stock is traded on the NYSE under the symbol "D" and SCANA common stock is traded on the NYSE under the symbol "SCG." The following table presents the closing prices for shares of Dominion Energy common stock and SCANA common stock on January 2, 2018, the last trading day before the public announcement of the execution of the merger agreement, and February 13, 2018 the latest practicable trading day before the date of this proxy statement/prospectus. The table also shows the equivalent per share value of the merger consideration for each share of SCANA common stock, which per share values are calculated as the product of (i) the Dominion Energy per share values and (ii) 0.6690, the exchange ratio.

T

Date	Dominion Energy Common Stock Closing Price	SCANA Common Stock Closing Price	Equivalent Per Share Information
January 2, 2018	$ 80.28	$ 38.87	$ 53.71
February 13, 2018	$ 75.07	$ 36.02	$ 50.22

The above table shows only historical comparisons. These comparisons may not provide meaningful information to SCANA shareholders in determining whether to approve the merger agreement. SCANA shareholders are urged to obtain current market quotations for Dominion Energy common stock and SCANA common stock and to review carefully the other information contained in this proxy statement/prospectus or incorporated by reference into this proxy statement/prospectus in considering whether to approve the merger agreement. See the section entitled "*Where You Can Find More Information*" beginning on page 136 of this proxy statement/prospectus for instructions on how to obtain the information that has been incorporated by reference. Historical performance is not necessarily indicative of any performance to be expected in the future. See the sections entitled "*Risk Factors*" and "*Cautionary Statement Regarding Forward-Looking Statements*" beginning on pages 17 and 25, respectively, of this proxy statement/prospectus.

Market Price and Dividend Data

The following table sets forth the high and low sales prices of Dominion Energy common stock as reported on the NYSE and the quarterly cash dividends declared per share in respect of Dominion Energy common stock for the calendar quarters indicated.

T

	Dominion Energy		
	Price Range		
	High	Low	Dividends
2016			
First Quarter	$75.18	$66.25	$ 0.700
Second Quarter	77.93	68.71	0.700
Third Quarter	78.97	72.49	0.700

2018			
First Quarter through February 13, 2018	$81.67	$72.80	

T

Table of Contents

Dividends on Dominion Energy common stock are paid as declared by the Dominion Energy board. On January 26, 2018, the Dominion Energy board declared a quarterly dividend of $0.835 per share payable on March 20, 2018 to shareholders of record on March 2, 2018. Dividends are typically paid on the 20th of March, June, September and December of each year.

As of January 31, 2018, Dominion Energy had approximately 651.5 million shares of its common stock outstanding, and there were approximately 123,000 holders of record of Dominion Energy common stock.

T

Table of Contents

RISK FACTORS

In addition to the other information included or incorporated by reference into this proxy statement/prospectus, including the matters addressed in the section entitled "Cautionary Statement Regarding Forward-Looking Statements" beginning on page 25 of this proxy statement/prospectus, you should carefully consider the following risks before deciding how to vote on the proposals set forth in this document. In addition, you should read and consider the risks associated with each of the businesses of Dominion Energy and SCANA because these risks may also affect the combined company. A description of the material risks can be found in the Annual Reports on Form 10-K for the fiscal year ended December 31, 2016 for each of Dominion Energy and SCANA, as updated by any subsequent Quarterly Reports on Form 10-Q, all of which are filed with the SEC and incorporated by reference into this proxy statement/prospectus. You should also read and consider the other information in this proxy statement/prospectus and the other documents incorporated by reference into this proxy statement/prospectus. See the section entitled "Where You Can Find More Information" beginning on page 136 of this proxy statement/prospectus.

Risk Factors Relating to the Merger

Because the market price of Dominion Energy common stock will fluctuate, SCANA shareholders cannot be certain of the market value of the merger consideration they will receive.

Upon completion of the merger, each outstanding share of SCANA common stock (other than cancelled shares) will be converted into the right to receive 0.6690 of a share of Dominion Energy common stock. The market value of Dominion Energy common stock received in the merger may vary significantly from the closing price of Dominion Energy common stock on the date Dominion Energy and SCANA announced the merger, on the date that this proxy statement/prospectus is mailed to SCANA shareholders, or on the date of the special meeting. Any change in the market price of Dominion Energy common stock prior to the completion of the merger will affect the market value of the merger consideration that SCANA shareholders will receive upon completion of the merger, which may not occur until a significant period of time has passed since the date of the special meeting, and there will be no adjustment to the merger consideration for changes in the market price of either shares of Dominion Energy common stock or shares of SCANA common stock. Neither Dominion Energy nor SCANA is permitted to terminate the merger agreement because of changes in the market price of SCANA common stock or Dominion Energy common stock.

Stock price changes may result from a variety of factors that are beyond the control of Dominion Energy and SCANA, including, but not limited to, general market and economic conditions, changes in the companies' respective businesses, operations and prospects, regulatory considerations, litigation and speculation regarding the likelihood that the merger will be completed and the timing of completion. Therefore, at the time of the special meeting you will not know the precise market value of the consideration you will receive upon completion of the merger. You should obtain current market quotations for shares of Dominion Energy common stock and for shares of SCANA common stock.

The completion of the merger is subject to the receipt of consents, approvals and/or findings from governmental entities, which may impose conditions that could have an adverse effect on Dominion Energy or SCANA or could cause either Dominion Energy or SCANA to abandon the merger. The completion of the merger is also subject to there not having been substantive changes in certain South Carolina laws that have or would reasonably be expected to have an adverse effect on SCANA or its subsidiaries or orders of governmental entities or changes in law that impose any condition that would reasonably be expected to result in specified changes to the SCPSC petition.

Dominion Energy and SCANA are not required to complete the merger until after the applicable waiting period under the HSR Act expires or terminates and the requisite authorizations, approvals, consents and/or permits are received from the FERC, NRC, SCPSC, NCUC and GPSC. Any of the relevant governmental entities

T

Table of Contents

may oppose the merger, fail to approve the merger, fail to make required findings in favor of the merger, or impose certain requirements or obligations as conditions for their consent, approval or findings or in connection with their review. Regulatory approvals of the merger or findings with respect to the merger may not be obtained on a timely basis or at all, and such approvals or findings may include conditions that could have an adverse effect on Dominion Energy and/or SCANA, and/or result in the abandonment of the merger. The terms of any conditions imposed in order to obtain the requisite regulatory approvals or findings may not be known by the date of the special meeting. Neither Dominion Energy nor SCANA can provide any assurance that they will obtain the necessary approvals or findings or that any required conditions will not have an adverse effect on Dominion Energy following the merger. If SCANA shareholders vote in favor of the merger proposal at the special meeting, Dominion Energy or SCANA may make decisions after the special meeting to waive a condition or approve certain actions required to obtain regulatory approvals or findings without seeking further approval of the SCANA shareholders.

Subject to the terms and conditions set forth in the merger agreement, the merger agreement may require Dominion Energy to accept conditions from regulators that could adversely impact Dominion Energy after the merger without either of Dominion Energy or SCANA having the right to refuse to close the merger on the basis of those regulatory conditions, except that Dominion Energy is generally not required, and SCANA is generally not permitted without Dominion Energy's prior approval, to take any action or accept any condition that results in a burdensome condition, as described in "*The Merger Agreement—Reasonable Best Efforts to Obtain Regulatory Approvals*" on page 92 of this proxy statement/prospectus.

In addition, the merger agreement provides that Dominion Energy (but not SCANA) will have the right to refuse to complete the merger if, since the date of the merger agreement, any governmental entity shall have enacted any order, or there shall have been any change in law (including the BLRA and the other laws governing South Carolina public utilities), which imposes any material change to the terms, conditions or undertakings set forth in the SCPSC petition, or any significant changes to the economic value of the proposed terms set forth in the SCPSC petition, in each case as determined by Dominion Energy in good faith.

The merger agreement further provides that Dominion Energy (but not SCANA) will have the right to refuse to complete the merger if there shall have occurred any substantive change in the BLRA or other laws governing South Carolina public utilities which has or would reasonably be expected to have an adverse effect on SCANA or any of its subsidiaries. There is currently pending before the South Carolina Senate a bill that would make substantive changes to the BLRA. This bill (H.4375) has passed the South Carolina House of Representatives. If this bill becomes law, Dominion Energy would not be obligated to complete the merger if it is determined that the bill has or would reasonably be expected to have an adverse effect on SCANA or any of its subsidiaries.

Certain lawsuits and regulatory actions have been filed against SCANA and SCE&G in connection with the abandonment of the NND project. If the relief requested in these matters (including a request for declaratory judgment that the BLRA is unconstitutional) is granted, Dominion Energy might not be obligated to complete the merger.

Dominion Energy and SCANA can provide no assurance that these risks will not materialize and either adversely impact Dominion Energy after the completion of the merger or, if such conditions rise to the thresholds discussed above, some of which, as described above, are in the subjective determination of Dominion Energy acting in good faith, or if the required authorizations, approvals, consents and/or permits are not obtained or received, result in the abandonment of the merger. See the sections entitled "*The Merger—Regulatory Approvals Required for the Merger*" beginning on page 67 of this proxy statement/prospectus and "*The Merger Agreement—Conditions to Completion of the Merger*" beginning on page 88 of this proxy statement/prospectus.

T

Table of Contents

Failure to complete the merger could negatively impact the stock price and the future business and financial results of SCANA.

If the merger is not completed, the ongoing business of SCANA may be adversely affected and SCANA could be subject to several risks, including the following:

- the price of SCANA common stock may decline to the extent that the current market price reflects an expectation by the market that the merger will be completed;
- obligations to pay certain costs relating to the merger, such as legal, accounting, financial advisory, filing, printing and mailing fees;
- the disruption of SCANA's ongoing business or inconsistencies in its services, standards, controls, procedures and policies due to management's focus on the merger, any of which could adversely affect the ability of SCANA to maintain relationships with customers, regulators, vendors and employees, or could otherwise adversely affect the business and financial results of SCANA, without realizing any of the benefits of having the merger completed;
- the potential negative impact on SCANA ultimately resolving the rate and regulatory issues, including pending investigations and legal challenges, relating to the abandonment of the NND project in a manner satisfactory to SCANA on account of SCANA working with Dominion Energy to pursue the resolution of these issues as contemplated by the merger agreement rather than pursuing its regulatory and legal options for resolving these issues independently of considerations and obligations related to the merger; and
- the loss of other opportunities that could be beneficial to SCANA that could have been pursued during the pendency of the merger, without realizing any of the benefits of having the merger completed.

In addition to the above risks, SCANA may be required, under certain circumstances, to pay to Dominion Energy a termination fee of $240 million.

If the merger is not completed, SCANA cannot assure SCANA shareholders that these risks will not materialize and will not materially affect its business, financial results and stock price.

The merger agreement contains provisions that limit SCANA's ability to pursue alternatives to the merger, which could discourage a potential competing acquirer of SCANA or could result in any competing proposal being at a lower price than it might otherwise be.

The merger agreement contains provisions that, subject to certain exceptions, restrict SCANA's ability to initiate, solicit, knowingly encourage, facilitate or discuss competing third-party proposals to acquire all or a significant part of SCANA, or provide information to a third party that could reasonably be expected to lead to such a proposal. See the section entitled "*The Merger Agreement—Non-Solicitation of Alternative Proposals*" on page 95 of this proxy statement/prospectus. In addition, Dominion Energy generally has an opportunity to offer to modify the terms of the merger in response to any superior acquisition proposal that may be made before the SCANA board is permitted to withdraw or qualify its recommendation. In some circumstances on termination of the merger agreement, SCANA may be required to pay to Dominion Energy a termination fee of $240 million. See the section entitled "*The Merger Agreement—Non- Solicitation of Alternative Proposals*" beginning on page 95 of this proxy statement/prospectus, "*The Merger Agreement—Termination of the Merger Agreement*" beginning on page 99 of this proxy statement/prospectus and "*The Merger Agreement—Termination Fees*" beginning on page 100 of this proxy statement/prospectus.

These provisions, which the SCANA board regards as customary for transactions for this type, could discourage a potential competing acquirer that might have an interest in acquiring all or a significant part of SCANA from considering or proposing that acquisition, even if it were prepared to pay consideration with a higher per share cash or market value than the merger consideration, or might result in a potential competing acquirer proposing to pay a lower price than it might otherwise have proposed to pay because of the added expense of the termination fee that may become payable by SCANA in certain circumstances.

Table of Contents

The pendency of the merger could adversely affect the business and operations of SCANA.

In connection with the pending merger, some current or prospective customers or vendors of SCANA's utilities may delay or defer decisions regarding their existing or proposed relationships with those utilities, which could negatively impact the revenues, earnings, cash flows and expenses of SCANA, regardless of whether the merger is completed. Similarly, current and prospective employees of SCANA and its utilities may experience uncertainty about their future roles following the merger, which may materially adversely affect the ability of SCANA and its utilities to attract and retain key personnel during the pendency of the merger. In addition, due to operating covenants in the merger agreement, during the pendency of the merger, SCANA and its utilities may be unable to pursue strategic transactions, undertake significant capital projects, undertake certain significant financing or other specified transactions or pursue actions that are not in the ordinary course of business, even if such actions would prove beneficial.

Certain directors and executive officers of SCANA may have interests in the merger that may differ from, or be in addition to, the interests of SCANA shareholders.

Executive officers of SCANA negotiated the terms of the merger agreement with their counterparts at Dominion Energy, and the SCANA board approved the transactions contemplated by the merger agreement. In considering these facts and the other information contained in this proxy statement/prospectus, you should be aware that SCANA's executive officers and directors may have interests in the merger that may be different from, or in addition to, the interests of SCANA shareholders. These interests include the accelerated vesting of equity awards, arrangements that provide for severance benefits if the employment of a SCANA executive officer is terminated under specified circumstances following the completion of the merger and rights to indemnification and director's and officer's liability insurance that will survive the completion of the merger. For a detailed discussion of the interests that SCANA's directors and executive officers may have in the merger, please see the section entitled "*The Merger—Interests of SCANA's Directors and Executive Officers in the Merger*" beginning on page 72 of this proxy statement/prospectus.

SCANA shareholders will have a reduced ownership and voting interest in the combined company.

SCANA shareholders currently have the right to vote in the election of directors of SCANA and on certain other matters affecting SCANA. Following the merger, each SCANA shareholder will become a shareholder of Dominion Energy with a percentage ownership of the combined company that is much smaller than the shareholder's percentage ownership of SCANA. It is expected that the former SCANA shareholders as a group will own approximately 13% of the outstanding shares of Dominion Energy common stock immediately after the completion of the merger. Because of this, the SCANA shareholders, as a group, will have substantially less influence on the management and policies of Dominion Energy than they now have, as a group, with respect to the management and policies of SCANA.

Dominion Energy expects to incur substantial expenses related to the merger.

Dominion Energy expects to incur relatively significant expenses in connection with completing the merger. While Dominion Energy has assumed that a certain level of transaction and integration expenses would be incurred, there are a number of factors beyond its control that could affect the total amount or the timing of its integration expenses. Many of the expenses that will be incurred, by their nature, are difficult to estimate accurately at the present time.

Following the merger, Dominion Energy may be unable to successfully integrate SCANA's businesses.

Dominion Energy and SCANA currently operate as independent public companies. After the merger, Dominion Energy will be required to devote significant management attention and resources to integrating
T

Table of Contents

SCANA's business. Potential difficulties Dominion Energy may encounter in the integration process include the following:

- the complexities associated with integrating SCANA and its utility businesses, while at the same time continuing to provide consistent, high quality services;
- the complexities of integrating a company with different core services, markets and customers;
- the inability to attract and retain key employees;
- potential unknown liabilities and unforeseen increased expenses, delays or regulatory conditions associated with the merger;
- difficulties in managing political and regulatory conditions related to SCANA's utility businesses after the merger;
- the cost recovery plan includes a moratorium on filing requests for adjustments in SCE&G's base electric rates until 2021 if the merger is approved by the SCPSC, which would limit Dominion Energy's ability to recover increases in non-fuel related costs of electric operations for SCE&G's customers; and
- performance shortfalls as a result of the diversion of Dominion Energy management's attention caused by completing the merger and integrating SCANA's utility businesses.

For these reasons, you should be aware that it is possible that the integration process following the merger could result in the distraction of Dominion Energy's management, the disruption of Dominion Energy's ongoing business or inconsistencies in its services, standards, controls, procedures and policies, any of which could adversely affect the ability of Dominion Energy to maintain or establish relationships with current and prospective customers, vendors and employees or could otherwise adversely affect the business and financial results of Dominion Energy.

Dominion Energy and SCANA may be materially adversely affected by negative publicity related to the merger and in connection with other related matters, including the abandonment of the NND project.

From time to time, political and public sentiment in connection with the merger and in connection with other matters, including the abandonment of the NND project, may result in a significant amount of adverse press coverage and other adverse public statements affecting Dominion Energy and SCANA. Adverse press coverage and other adverse statements, whether or not driven by political or public sentiment, may also result in investigations by regulators, legislators and law enforcement officials or in legal claims. Responding to these investigations and lawsuits, regardless of the ultimate outcome of the proceedings, as well as responding to and addressing adverse press coverage and other adverse public statements, can divert the time and effort of senior management from the management of Dominion Energy's and SCANA's respective businesses.

Addressing any adverse publicity, governmental scrutiny or enforcement or other legal proceedings is time consuming and expensive and, regardless of the factual basis for the assertions being made, can have a negative impact on the reputation of Dominion Energy and SCANA, on the morale and performance of their employees and on their relationships with their respective regulators, customers and commercial counterparties. It may also have a negative impact on their ability to take timely advantage of various business and market opportunities. The direct and indirect effects of negative publicity, and the demands of responding to and addressing it, may have a material adverse effect on Dominion Energy's and SCANA's respective business, financial condition, results of operations and prospects.

The market price of Dominion Energy common stock after the merger may be affected by factors different from those affecting the market price of SCANA common stock currently.

Upon completion of the merger, holders of SCANA common stock will become holders of Dominion Energy common stock. Dominion Energy's business differs in important respects from that of SCANA, and,

Table of Contents

accordingly, the results of operations of the combined company and the market price of Dominion Energy common stock after the completion of the merger may be affected by factors different from those currently affecting the independent results of operations of each of Dominion Energy and SCANA. For a discussion of the businesses of Dominion Energy and SCANA and of some important factors to consider in connection with those businesses, see the documents incorporated by reference in this proxy statement/prospectus and referred to under the section entitled "*Where You Can Find More Information*" on page 136 of this proxy statement/prospectus.

The market value of Dominion Energy common stock could decline if large amounts of its common stock are sold following the merger.

Following the merger, shareholders of Dominion Energy and former SCANA shareholders will own interests in a combined company operating an expanded business with more assets and a different mix of liabilities. Current shareholders of Dominion Energy and SCANA may not wish to continue to invest in the combined company, or may wish to reduce their investment in the combined company, in order to comply with institutional investing guidelines, to increase diversification or to track any rebalancing of stock indices in which Dominion Energy common stock or SCANA common stock is or was included. If, following the merger, large amounts of Dominion Energy common stock are sold, the price of its common stock could decline.

The merger may not be accretive to operating earnings and may cause dilution to Dominion Energy's earnings per share, which may negatively affect the market price of Dominion Energy common stock.

Dominion Energy currently anticipates that the merger will be immediately accretive to Dominion Energy's forecasted operating earnings per share on a standalone basis. This expectation is based on preliminary estimates, which may materially change. Dominion Energy may encounter additional transaction and integration-related costs, may fail to realize all of the benefits anticipated in the merger or be subject to other factors that affect preliminary estimates or its ability to realize operational efficiencies. Any of these factors could cause a decrease in Dominion Energy's operating earnings per share or decrease or delay the expected accretive effect of the merger and contribute to a decrease in the price of Dominion Energy's common stock. Dominion Energy expects that the initial effect of the merger on its GAAP earnings will be a decrease in such earnings due to anticipated charges for refunds to SCE&G electric customers, write-offs of regulatory assets and transaction costs.

Pending litigation against SCANA and Dominion Energy could result in an injunction preventing the completion of the merger or may adversely affect the combined company's business, financial condition or results of operations following the merger.

Following the announcement of the merger, three (3) lawsuits have been filed asserting claims relating to the merger. First, an existing derivative lawsuit was amended to assert direct claims on behalf of a putative class of SCANA shareholders in the Court of Common Pleas of the County of Richland, South Carolina against the members of the SCANA board, Dominion Energy and Merger Sub, alleging breaches of various fiduciary duties by the members of the SCANA board in connection with the merger and alleging that Dominion Energy and Merger Sub aided and abetted such alleged breaches. Second, two (2) putative class actions on behalf of SCANA shareholders have been filed in the Court of Common Pleas of the Counties of Lexington and Richland, South Carolina, respectively, against SCANA, the members of the SCANA board, Dominion Energy and Merger Sub, alleging breaches of various fiduciary duties by the members of the SCANA board in connection with the merger and alleging that SCANA, Dominion Energy and Merger Sub aided and abetted such alleged breaches. Among other remedies, the plaintiffs in each case seek to enjoin the merger and rescind the merger agreement. In addition, the second and third lawsuits seek in the alternative, should the merger be completed, an award of unspecified monetary damages.

While the defendants believe that dismissal is warranted, the outcome of any such litigation is inherently uncertain. The defense or settlement of any lawsuit or claim that remains unresolved at the time the merger closes may adversely affect the combined company's business, financial condition or results of operation. See the
T

Table of Contents

section entitled "*The Merger—Litigation Relating to the Merger*" beginning on page 71 of this proxy statement/prospectus for more detail.

The unaudited pro forma combined financial information and prospective financial information included in this proxy statement/prospectus are presented for illustrative purposes only and do not represent the actual financial position or results of operations of the combined company following the merger.

The unaudited pro forma combined financial information and prospective financial information contained in this proxy statement/prospectus are presented for illustrative purposes only, contain a variety of adjustments, assumptions and preliminary estimates and do not represent the actual financial position or results of operations of Dominion Energy and SCANA prior to the merger or that of the combined company following the merger for several reasons. See the sections entitled *"Equivalent and Comparative Per Share Information*" beginning on page 14 of this proxy statement/prospectus and "*Unaudited Pro Forma Consolidated Financial Statements*" beginning on page 112 of this proxy statement/prospectus.

The actual financial positions and results of operations of Dominion Energy and SCANA prior to the merger and those of the combined company following the merger may not be consistent with, or evident from, the unaudited pro forma combined financial information and prospective financial information included in this proxy statement/prospectus. In addition, the assumptions used in preparing the unaudited pro forma combined financial information and prospective financial information included in this proxy statement/prospectus may not prove to be accurate and may be affected by other factors. Any significant changes in the share price of Dominion Energy may cause a significant change in the purchase price and the pro forma financial information.

Dominion Energy has goodwill and other intangible assets on its balance sheet, and these amounts will increase as a result of the merger. If its goodwill or other intangible assets become impaired in the future, Dominion Energy may be required to record a significant, non-cash charge to earnings and reduce its shareholders' equity.

Upon the completion of the merger, Dominion Energy will record as goodwill the excess of the purchase price paid by Dominion Energy over the fair value of SCANA's assets and liabilities as determined for financial accounting purposes. Under GAAP, intangible assets are reviewed for impairment on an annual basis or more frequently whenever events or circumstances indicate that its carrying value may not be recoverable. If Dominion Energy's intangible assets, including goodwill as a result of the merger, are determined to be impaired in the future, Dominion Energy may be required to record a significant, non-cash charge to earnings during the period in which the impairment is determined.

The shares of Dominion Energy common stock to be received by SCANA shareholders as a result of the merger will have different rights from the shares of SCANA common stock.

Upon completion of the merger, SCANA shareholders will become Dominion Energy shareholders and their rights as shareholders will be governed by the Virginia Stock Corporation Act, which we refer to as the VSCA, and Dominion Energy's amended and restated articles of incorporation, which we refer to as the Dominion Energy charter, and amended and restated bylaws, which we refer to as the Dominion Energy bylaws. The rights associated with SCANA common stock are different from the rights associated with Dominion Energy common stock. See the section entitled "*Comparison of Shareholder Rights*" beginning on page 122 of this proxy statement/prospectus for a summary of the material differences between the rights of holders of Dominion Energy common stock and the rights of holders of SCANA common stock.

The merger may fail to qualify as a tax-free reorganization for federal tax purposes, resulting in the SCANA shareholders' recognition of taxable gain or loss in respect of their SCANA common stock.

Dominion Energy and SCANA intend the merger to qualify as a reorganization within the meaning of Section 368(a) of the Code. At the time of effectiveness of the registration statement relating to this proxy

T

Table of Contents

statement/prospectus, Dominion Energy and SCANA have obtained written tax opinions from Morgan, Lewis & Bockius, LLP, special tax counsel to Dominion Energy, and from Mayer Brown LLP, legal counsel to SCANA, respectively, that the merger will qualify as a reorganization within the meaning of Section 368(a) of the Code. In addition, Dominion Energy and SCANA expect to receive written tax opinions from Morgan, Lewis & Bockius LLP and Mayer Brown, LLP, respectively, dated the closing date of the merger, to the effect that the merger will qualify as a "reorganization" within the meaning of Section 368(a) of the Code. Such tax opinions were and will be based on customary assumptions and representations made by Dominion Energy and SCANA, as well as certain covenants and undertakings by Dominion Energy and SCANA. Such opinions will not bind the Internal Revenue Service, which we refer to as the IRS, or any court, or prevent the IRS from adopting a contrary position. In addition, neither Dominion Energy nor SCANA intends to request a ruling from the IRS regarding the U. S. federal income tax consequences of the merger. Accordingly, even with the tax opinions that conclude that the merger will qualify as a reorganization within the meaning of Section 368(a) of the Code, no assurance can be given that the IRS, will not challenge the conclusions reflected in the opinion or that a court would not sustain such a challenge. If the merger fails to qualify as a reorganization, a SCANA shareholder generally would recognize gain or loss for U. S. federal income tax purposes on each share of SCANA common stock surrendered in an amount equal to the difference between such shareholder's adjusted tax basis in that share and the fair market value of the merger consideration received in exchange for that share upon completion of the merger. SCANA shareholders should read the section entitled "*The Merger—U. S. Federal Income Tax Consequences of the Merger*" on page 65 of this proxy statement/prospectus and consult their own tax advisors regarding the U. S. federal income tax consequences of the merger to SCANA shareholders in their particular circumstances.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This proxy statement/prospectus and the information incorporated by reference in this proxy statement/prospectus include forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. These forward-looking statements are subject to risks and uncertainties, and actual results might differ materially from those discussed in, or implied by, the forward-looking statements. Forward-looking statements are based on the current beliefs and assumptions of the management of Dominion Energy and SCANA and can often be identified by terms and phrases that include “anticipate,” “believe,” “intend,” “estimate,” “expect,” “continue,” “should,” “would,” “could,” “may,” “plan,” “project,” “predict,” “will,” “potential,” “forecast,” “target,” “guidance,” “outlook,” or other similar terminology. Various factors may cause actual results to be materially different than the suggested outcomes within forward-looking statements; accordingly, there is no assurance that such results will be realized.

In light of these risks, uncertainties and assumptions, the events described in the forward-looking statements included or incorporated by reference in this proxy statement/prospectus might not occur or might occur to a different extent or at a different time than described. Actual results may differ materially from the current expectations of Dominion Energy and SCANA depending on a number of factors affecting their businesses and risks associated with the successful execution of the merger and the integration and performance of their businesses following the merger. In evaluating these forward-looking statements, you should carefully consider the risks described herein and in other reports that Dominion Energy and SCANA file with the SEC. See the sections entitled “*Risk Factors*” beginning on page 17 of this proxy statement/prospectus and “*Where You Can Find More Information*” beginning on page 136 of this proxy statement/prospectus. Factors which could have a material adverse effect on operations and future prospects or which could cause events or circumstances to differ from the forward-looking statements include, but are not limited to:

- the occurrence of any event, change or other circumstances that could give rise to the termination of the merger agreement;
- the risk that SCANA shareholders may not approve the merger proposal;
- the risk that the necessary regulatory approvals may not be obtained or may be obtained subject to conditions that are not anticipated, may be burdensome and/or fail to satisfy the requirements of the merger agreement;
- the risk that any repeal of or amendment to the BLRA may be enacted that does not satisfy the requirements of the merger agreement;
- the risk that a condition to closing of the merger may not be satisfied;
- the timing of the completion the merger;
- the possibility that the anticipated benefits from the merger cannot be fully realized or may take longer to realize than expected;
- risks related to disruption of management time from ongoing business operations due to the merger;
- the possibility that costs, difficulties or disruptions related to the integration of SCANA’s operations into Dominion Energy will be greater than expected;
- the timing and extent of changes in interest rates, commodity prices and demand and market prices for electricity;
- changes in the future cash requirements of Dominion Energy following the merger, whether caused by unanticipated increases in capital expenditures or otherwise;
- risks related to any legal proceedings that have been or may be instituted against Dominion Energy, SCANA and/or others relating to the merger; and

Table of Contents

- the effect of the announcement of the merger on Dominion Energy's and SCANA's operating results and businesses generally.

Except as otherwise required by law, neither Dominion Energy nor SCANA is under any obligation, and each expressly disclaims any obligation, to update, alter, or otherwise revise any forward-looking statements, whether written or oral, that may be made from time to time, whether as a result of new information, future events, or otherwise. Persons reading this proxy statement/prospectus are cautioned not to place undue reliance on these forward-looking statements which speak only as of the date hereof.

Table of Contents

THE COMPANIES

Dominion Energy

120 Tredegar Street
Richmond, Virginia 23219
(804) 819-2000

Headquartered in Richmond, Virginia and incorporated in Virginia in 1983, Dominion Energy is one of the nation's largest producers and transporters of energy, with a portfolio of approximately 26,000 megawatts of electric generation, 66,100 miles of natural gas transmission, gathering, storage and distribution pipelines and 64,500 miles of electric transmission and distribution lines. Dominion Energy's strategy is to be a leading provider of electricity, natural gas and related services to customers primarily in the eastern and Rocky Mountain regions of the U.S. Dominion Energy operates one of the largest natural gas storage systems in the U.S. with 1 trillion cubic feet of capacity, and serves nearly 6 million utility and retail energy customers.

Dominion Energy is focused on expanding its investment in regulated and long-term contracted electric generation, transmission and distribution and regulated natural gas transmission and distribution infrastructure. Dominion Energy's nonregulated operations include merchant generation, energy marketing and price risk management activities and natural gas retail energy marketing operations. Dominion Energy's operations are conducted through various subsidiaries, including (i) Virginia Electric and Power Company, a regulated public utility that generates, transmits and distributes electricity for sale in Virginia and northeastern North Carolina, which we refer to as Virginia Power, (ii) Dominion Energy Gas Holdings, LLC, a holding company for the majority of Dominion Energy's regulated natural gas businesses, which conducts business activities through a regulated interstate natural gas transmission pipeline and underground storage system, a local, regulated natural gas transportation and distribution network and natural gas gathering and processing facilities, which we refer to Dominion Energy Gas, and (iii) Dominion Energy Questar Corporation, a holding company for Dominion Energy's primarily regulated natural gas businesses, including retail natural gas distribution in Utah, Wyoming and Idaho and related natural gas development and production. Dominion Energy also owns the general partner, 50.6% of the common and subordinated units and 37.5% of the convertible preferred interests in Dominion Energy Midstream Partners, LP, which was formed by Dominion Energy to own and grow a portfolio of natural gas terminaling, processing, storage, transportation and related assets.

Dominion Energy's common stock is listed on the NYSE under the symbol "D."

Additional information about Dominion Energy is included in the documents incorporated by reference into this proxy statement/prospectus. See the section entitled "*Where You Can Find More Information*" beginning on page 136 of this proxy statement/prospectus.

SCANA

100 SCANA Parkway
Cayce, South Carolina 29033
(803) 217-9000

SCANA is a South Carolina corporation created in 1984 as a holding company. SCANA, through its wholly owned regulated subsidiaries, is primarily engaged in the generation, transmission, distribution and sale of electricity in the central, southern and southwestern portions of South Carolina and in the purchase, transmission and sale of natural gas in North Carolina and South Carolina. SCANA, through a wholly owned nonregulated subsidiary also markets natural gas to retail customers in Georgia and to wholesale customers in the southeast United States.

SCANA common stock is traded on the NYSE under the symbol "SCG."

Additional information about SCANA and its subsidiaries is included in the documents incorporated by reference into this proxy statement/prospectus. See the section entitled "*Where You Can Find More Information*" on page 136 of this proxy statement/prospectus.

Merger Sub

120 Tredegar Street
Richmond, Virginia 23219
(804) 819-2000

Merger Sub, a wholly owned subsidiary of Dominion Energy, is a South Carolina corporation formed on December 29, 2017 for the purpose of effecting the merger. To date, Merger Sub has not conducted any activities other than those incidental to its formation and the matters contemplated by the merger agreement in connection with the merger.
T

Table of Contents

THE SPECIAL MEETING

Date, Time and Place

The special meeting will be held at [a.m./p.m.], Eastern Daylight Time on , 2018 at .

Purpose of the Special Meeting

The special meeting is being held for the SCANA shareholders to consider and vote on the following proposals:

T

1. the proposal to approve the merger agreement, pursuant to which Merger Sub will be merged with and into SCANA, with SCANA surviving the merger as a wholly owned subsidiary of Dominion Energy, and each outstanding share of SCANA common stock will be converted into the right to receive 0.6690 of a share of Dominion Energy common stock, with cash paid in lieu of fractional shares;

T

2. the proposal to approve, on a non-binding advisory basis, the compensation to be paid to SCANA's named executive officers that is based on or otherwise relates to the merger; and

T

3. the proposal to adjourn the special meeting, if necessary or appropriate, in the view of the SCANA board to solicit additional proxies in favor of the merger proposal if there are not sufficient votes at the time of the special meeting to approve the merger proposal.

Recommendations of the SCANA Board

The SCANA board unanimously (i) determined that it is in the best interests of SCANA and the SCANA shareholders that SCANA enter into the merger agreement and complete the merger and the other transactions contemplated by the merger agreement on the terms and subject to the conditions set forth in the merger agreement, (ii) adopted the merger agreement and approved the transactions contemplated by the merger agreement, including the merger, (iii) directed that the approval of the merger agreement be submitted to a vote at a meeting of the SCANA shareholders and (iv) resolved to recommend that the SCANA shareholders approve the merger agreement, which we refer to as the SCANA board recommendation. For a description of factors considered by the SCANA board in making the above recommendation, see the section entitled "*The Merger—SCANA's Reasons for the Merger; Recommendation of the SCANA Board*" beginning on page 42 of this proxy statement/prospectus.

The SCANA board recommends that you vote (i) "FOR" the merger proposal, (ii) "FOR" the merger-related compensation proposal and (iii) "FOR" the adjournment proposal.

Record Date; Stock Entitled to Vote

Only holders of record of shares of SCANA common stock at the close of business on , 2018 are entitled to notice of, and to vote at, the special meeting and at any adjournment or postponement of the special meeting. We refer to this date as the record date for the special meeting. Upon written request by a SCANA shareholder, a list of SCANA shareholders entitled to vote at the special meeting will be available for inspection at SCANA's Corporate Headquarters, 100 SCANA Parkway, Cayce, South Carolina 29033, during business hours from , 2018 through the date of the special meeting. The list will also be available at the special meeting for examination by any shareholder of record of SCANA present at the special meeting.

As of the record date for the special meeting, the directors and executive officers of SCANA as a group owned and were entitled to vote shares of SCANA common stock, or approximately % of the outstanding shares of SCANA common stock on that date. SCANA currently expects that its directors and executive officers will vote their shares in favor of approval of the merger proposal, but none of SCANA's directors or executive officers have entered into any agreement obligating them to do so.

T

Table of Contents

Quorum

A quorum requires the presence, in person or by proxy, of the holders of a majority of the shares of SCANA common stock outstanding and entitled to vote. A quorum is needed to conduct the votes on the merger proposal and the merger-related compensation proposal.

Required Vote

Approval of the merger proposal requires the affirmative vote of the holders of at least two-thirds of the outstanding shares of SCANA common stock.

The merger-related compensation proposal will be approved if more votes are cast in favor of the proposal than against the proposal. Because the vote on the merger-related compensation proposal is non-binding, if the merger agreement is approved by the SCANA shareholders and the merger is completed, the compensation that is the subject of the merger-related compensation proposal, which includes amounts SCANA is contractually obligated to pay, would still be paid regardless of the outcome of the non-binding advisory vote.

The adjournment proposal will be approved if more votes are cast in favor of the proposal than against the proposal.

Abstentions and Broker Non-Votes

Your failure to vote, or failure to instruct your broker, bank or other nominee to vote, or your abstention from voting, will have the same effect as a vote against the merger proposal, but will not be counted as a vote "for" or "against" the merger-related compensation proposal or the adjournment proposal.

Voting at the Special Meeting

Whether or not you plan to attend the special meeting, please promptly vote your shares of SCANA common stock by submitting a proxy to ensure your shares are represented at the meeting. You may also vote in person at the special meeting.

Voting in Person

An admission ticket or proof of share ownership as of the record date is required to attend the special meeting in person. If you plan to use the admission ticket, please remember to detach the admission ticket from your proxy card before mailing your proxy card. If you forget to bring the admission ticket, you will be admitted to the special meeting only if you are listed as a shareholder of record as of the record date and you bring proof of identification. If you hold your shares through a broker, bank or other nominee, you must provide proof of ownership by bringing either a copy of the voting instruction card provided by your broker, bank or other nominee or a brokerage statement showing your share ownership as of the record date. If you are a shareholder of record and your shares are owned jointly and you need an additional admission ticket, you should contact the SCANA Corporate Secretary, SCANA Corporation, 220 Operation Way, Mail Code D133, Cayce, South Carolina 29033, or call 803-217-7568.

You may vote in person at the special meeting by submitting your signed proxy card or requesting a ballot at the special meeting. Please note, however, that if your shares of SCANA common stock are held in "street name," which means your shares of SCANA common stock are held of record by a broker, bank or other nominee, and you wish to vote at the special meeting, you must bring to the special meeting a "legal proxy" from the record holder (your broker, bank or other nominee) of the shares of SCANA common stock authorizing you to vote at the special meeting.
T

Table of Contents

Voting by Proxy

You should vote your proxy even if you plan to attend the special meeting. You can always change your vote at the special meeting or revoke your proxy before the special meeting.

Your enclosed proxy card includes specific instructions for voting your shares of SCANA common stock. SCANA's electronic voting procedures are designed to authenticate your identity and to ensure that your votes are accurately recorded. When the accompanying proxy is returned properly executed, the shares of SCANA common stock represented by it will be voted at the special meeting or any adjournment or postponement thereof in accordance with the instructions contained in the proxy.

If you return your signed proxy card without indicating how you want your shares of SCANA common stock to be voted with regard to a particular proposal, your shares of SCANA common stock will be voted in favor of each such proposal. Proxy cards that are returned without a signature will not be counted as present at the special meeting and cannot be voted.

If your shares of SCANA common stock are held in an account with a broker, bank or other nominee, you have received a separate voting instruction card in lieu of a proxy card and you must follow those instructions in order to vote.

Changing or Revoking Your Proxy or Voting Instructions

You have the power to change your vote (i.e., revoke your proxy) at any time before your proxy is voted at the special meeting. If you are a shareholder of record (i.e., you hold your shares directly in your name), you may accomplish this by granting a new proxy (by telephone, Internet or mail) bearing a later date or by attending the special meeting and voting in person (each of which automatically revokes the earlier proxy). However, your attendance at the special meeting alone will not revoke any proxy that you have previously given. If you hold your shares in "street name," you must follow the instructions on the voting instruction card you received from your broker, bank or other nominee in order to change or revoke your instructions.

Solicitation of Proxies

SCANA has engaged Georgeson, Inc. to assist in the solicitation of proxies for the special meeting and has agreed to pay them a fee of approximately $ for their services plus associated costs and expenses. In addition to the use of the mail, proxies may be solicited by officers and directors and regular employees of SCANA, without additional remuneration, by personal interview, telephone, facsimile or otherwise. SCANA will also request brokers, banks and nominees to forward proxy materials to the beneficial owners of shares of SCANA common stock held of record on the record date and will provide customary reimbursement to such firms for the cost of forwarding these materials.

T

Table of Contents

THE MERGER

Effects of the Merger

Upon completion of the merger, Merger Sub will be merged with and into SCANA. SCANA will be the surviving corporation.

At the effective time of the merger, each share of SCANA common stock, without par value, issued and outstanding immediately prior to the effective time of the merger (other than cancelled shares), whether represented by a SCANA stock certificate or in non-certificated form and represented by book-entry, will be automatically converted into the right to receive the merger consideration.

Dominion Energy will not issue fractional shares of Dominion Energy common stock in the merger. Instead, each SCANA shareholder who would otherwise be entitled to receive fractional shares of Dominion Energy common stock in the merger (after aggregating all fractional shares of Dominion Energy common stock issuable to such holder) will be entitled to an amount of cash, without interest, rounded to the nearest cent, equal to the product of (i) the amount of such fractional shares of Dominion Energy common stock issuable to such holder and (ii) the volume-weighted average price, rounded to four decimal places, of Dominion Energy common stock for the ten (10) consecutive trading days ending on and including the second (2nd) trading day prior to the effective time of the merger, which we refer to as the average price.

Background of the Merger

In 2007, lawmakers in South Carolina passed the BLRA which was intended to encourage investment in nuclear construction by enabling electric utilities to finance that investment by commencing to recover financing costs incurred during construction rather than having to wait until the units were placed into service. In 2008, SCE&G and Santee Cooper announced plans to construct the two Westinghouse AP1000 Advanced Passive Safety nuclear units in Jenkinsville, South Carolina which would serve as the centerpiece of the NND project. In 2009, the SCPSC approved SCE&G's combined application pursuant to the BLRA and other laws seeking a certificate of environmental compatibility and public convenience and necessity and for a base load review order relating to the proposed construction and operation by SCE&G and Santee Cooper of the two nuclear units contemplated by the NND project. In 2012, SCE&G and Santee Cooper received a Combined Operating License from the Nuclear Regulatory Commission with respect to the NND project, and in 2013, SCE&G and Santee Cooper officially commenced nuclear construction on the two nuclear units that were the centerpiece of the NND project.

Senior management of SCANA and the SCANA board regularly review and discuss SCANA's business strategies and prospects.

In late 2016, in light of then-current facts and circumstances related to the electric and gas utility industries in general and SCANA in particular, senior management of SCANA and the SCANA board began preliminary preparations with respect to a process to proactively explore the possibility of a potential strategic transaction. These preliminary preparations included high-level discussions with Mayer Brown LLP, SCANA's outside legal counsel which we refer to as Mayer Brown, and with Morgan Stanley and RBC Capital Markets, although neither Morgan Stanley nor RBC Capital Markets was formally engaged by SCANA as a financial advisor in connection with exploring the possibility of a potential strategic transaction at this time. These discussions included consulting with Morgan Stanley and RBC Capital Markets regarding certain third parties that Morgan Stanley and RBC Capital Markets would suggest contacting regarding their interest in a potential strategic transaction involving SCANA if the SCANA board elected to commence a process to explore the possibility of a potential strategic transaction. In mid December 2016, the SCANA board, having completed these preliminary preparations, elected to defer a formal decision about whether or not to commence a process to explore the possibility of a potential strategic transaction until early January 2017. However, in late December 2016 there
T

Table of Contents

were developments that raised questions about the financial well-being of Westinghouse Electric Company LLC, which we refer to as Westinghouse, the primary contractor on the NND project with which SCE&G had a fixed price contract for Westinghouse's services in connection with the construction of the NND project. In light of these developments, the SCANA board elected in early January 2017 not to commence a process to explore the possibility of a potential strategic transaction.

On March 29, 2017, Westinghouse filed voluntary petitions under Chapter 11 of the U.S. Bankruptcy Code and, in doing so, indicated an intention to reject the fixed price contract with SCE&G for Westinghouse's services in connection with the construction of the NND project. In connection therewith, SCE&G and Santee Cooper entered into an Interim Assessment Agreement with Westinghouse concerning the NND project. This agreement was designed to allow for a transition and evaluation period during which SCE&G and Santee Cooper could continue to make progress on the NND project.

Westinghouse's circumstances led SCANA to undertake an extensive analysis of possible alternatives then available for the NND project. In the months following the Westinghouse bankruptcy filing, in addition to extensively analyzing possible alternatives available for the NND project, senior management of SCANA and the SCANA board also considered various strategic alternatives available to SCANA under the circumstances.

In late March 2017, the chief executive officer of another utility company, which we refer to as Party A, approached Kevin B. Marsh, who was at that time the Chairman of the Board, President and Chief Executive Officer of SCANA, at an industry event they were both attending and told Mr. Marsh that Party A would be interested in talking to SCANA if SCANA decided at some point that it was interested in potentially pursuing a strategic transaction. Mr. Marsh informed D. Maybank Hagood, who was at that time the lead independent director of the SCANA board, of this conversation shortly after it occurred and then informed the SCANA board of this conversation at the next regularly scheduled board meeting on April 27, 2017.

On May 5, 2017, Mr. Marsh and Thomas F. Farrell II, Dominion Energy's Chairman, President and Chief Executive Officer, met in Columbia, South Carolina. The meeting was arranged at the request of Mr. Farrell. At this meeting, Mr. Farrell conveyed to Mr. Marsh various concepts and potential terms related to a potential strategic transaction between SCANA and Dominion Energy. These concepts and terms, which Mr. Farrell indicated did not constitute an offer with respect to a potential transaction, included, among other things, preliminary indications regarding the potential consideration (consisting of up to 50% cash and the remainder Dominion Energy common stock and reflecting in total a premium of approximately 15% over the recent price of SCANA common stock) that would be received by SCANA's shareholders in connection with the transaction. Mr. Marsh told Mr. Farrell that SCANA was still in the process of evaluating the NND project and that he would get back to him when the evaluation process was substantially complete.

Later on May 5, 2017, a telephonic meeting of the SCANA board was held. Members of SCANA's senior management and representatives of Mayer Brown attended the meeting. At this meeting Mr. Marsh described for the SCANA board the meeting he had with Mr. Farrell earlier that day. The SCANA board discussed whether, in light of the preliminary interest in a potential strategic transaction expressed by Dominion Energy, it was prudent to commence a process to explore the possibility of a potential strategic transaction. In light of the considerable uncertainty surrounding the NND project and the challenges that third parties would have in valuing SCANA in light of those uncertainties, the SCANA board elected not to do so at that time.

On May 12, 2017, in a meeting arranged by Mr. Marsh, Mr. Marsh had a conversation with the chief executive officer of another utility company, which we refer to as Party B, and asked whether Party B might be interested in acquiring an ownership interest in the NND project. The chief executive officer responded that Party B would consider the matter. On May 22, 2017, the chief executive officer of Party B informed Mr. Marsh that Party B was not interested in acquiring an ownership interest in the NND project.

In mid-June 2017, Mr. Marsh called Mr. Farrell, telling him that SCANA's evaluation of the NND project was taking longer than expected and that he still planned to get back to him with respect to the conceptual
T

Table of Contents

proposal made by Mr. Farrell at their meeting on May 5, 2017 after more progress was made in the evaluation of the NND project.

On June 26, 2017, SCANA and Santee Cooper announced that the Interim Assessment Agreement with Westinghouse concerning the NND project had been amended to extend the term of the agreement through August 10, 2017. The agreement extension allowed SCANA and Santee Cooper additional time to maintain their options by continuing construction on the NND project, while examining relevant information for a thorough and careful assessment to determine the most prudent path forward.

On July 12, 2017, Mr. Marsh and Jimmy E. Addison, who was at that time the Executive Vice President and Chief Financial Officer of SCANA, met with Mr. Farrell and Mark F. McGettrick, Dominion Energy's Executive Vice President and Chief Financial Officer, in Columbia, South Carolina. The meeting was arranged at the request of Mr. Marsh. At the meeting, Mr. Marsh stated that he was not going to respond to the conceptual proposal communicated by Mr. Farrell at their meeting on May 5, 2017, but rather wanted to provide Dominion Energy with an update regarding SCANA's evaluation of the NND project and to convey to Dominion Energy certain additional information about SCANA's situation and circumstances and about Santee Cooper and its generation needs for the future. Mr. Marsh asked Mr. Farrell if Dominion Energy had any interest in acquiring all or a portion of Santee Cooper's interest in the NND project. Mr. Farrell said that Dominion Energy had no such interest. Rather, Mr. Farrell stated that Dominion Energy was interested in proceeding with a due diligence review for a strategic transaction with SCANA. Mr. Marsh responded that SCANA was not prepared to proceed with that step at that time. The participants in the meeting then discussed certain of the terms that would need to be considered if the parties were to proceed to evaluate a strategic transaction. At the end of this meeting, the representatives of SCANA and Dominion Energy agreed to keep in touch as developments warranted.

On July 17, 2017, an in-person meeting of the SCANA board was held. Members of SCANA's senior management and representatives of Mayer Brown, Morgan Stanley and RBC Capital Markets attended this meeting. At this meeting, the SCANA board engaged in an extensive evaluation and discussion of various alternatives available for the NND project: complete both units, complete one unit and abandon (or postpone further construction of) the other unit or abandon both units. The SCANA board noted that its decision with respect to these three alternatives was heavily dependent on Santee Cooper's decision regarding its interest in the NND project. Also at that meeting, Mr. Marsh described to the SCANA board the meeting with the representatives of Dominion Energy on July 12, 2017 and further discussions ensued among the directors, management and the advisors regarding the NND project, the meeting with Dominion Energy and other related matters. After discussion, the SCANA board concluded not to pursue further discussions with Dominion Energy or others regarding a strategic transaction at that time.

On July 27, 2017, SCANA and Santee Cooper issued a joint press release that stated, among other things, that there were significant challenges to completing construction of one or both units of the NND project.

On July 31, 2017, Santee Cooper announced its decision to suspend construction of the NND project. Later on July 31, 2017, following a telephonic meeting of the SCANA board, SCE&G announced that, in light of its analysis and evaluation of the NND project and Santee Cooper's decision to suspend construction, it would cease construction on the NND project. This announcement led various stakeholders, including rate payers, shareholders, legislative committees, regulators, and other government officials, to commence inquiries into, and in some cases legal challenges with respect to, SCANA's decision to cease construction on the NND project, many of which inquiries and legal challenges remain ongoing.

On August 1, 2017, SCE&G presented the results of its evaluation of the costs necessary to complete the NND project and the basis of its decision to abandon the project in an Allowable Ex Parte Communication Briefing to the SCPSC and filed a petition with the SCPSC under the BLRA seeking, among other things, recovery of certain costs related to the construction of the NND project in light of the decision to abandon construction.
T

Table of Contents

In early August 2017, Mr. Marsh received a call from an executive of another utility company, which we refer to as Party C. During this call, the executive of Party C indicated to Mr. Marsh that Party C would be interested in talking to SCANA if SCANA was interested in pursuing a strategic transaction. At about that time, the chief executive officer of Party A also contacted Mr. Marsh and re-expressed Party A's interest in discussing a strategic transaction with SCANA if SCANA was interested in such a transaction. Also at about that time, Mr. Marsh had a conversation with the chief executive officer of Party B in which Party B did not raise the topic of a possible strategic transaction with SCANA. Mr. Marsh informed the SCANA board of these conversations shortly after they took place.

On August 15, 2017, SCE&G voluntarily withdrew the petition it had filed with the SCPSC on August 1, 2017 under the BLRA in response to concerns raised by various stakeholders with respect to the petition, and to allow adequate time for governmental officials to conduct their reviews.

On September 26, 2017, the office of Alan Wilson, the Attorney General for the State of South Carolina, issued an opinion of Robert D. Cook, the Solicitor General for the State of South Carolina, contending, among other things, that the BLRA was "suspect" under the Constitution of the United States and the Constitution of the State of South Carolina.

Following up on a telephone call from Mr. Farrell on September 29, 2017, on October 1, 2017, Mr. Marsh and Mr. Addison met with Mr. Farrell and Mr. McGettrick in Columbia, South Carolina at Mr. Farrell's request. At this meeting, Mr. Farrell conveyed to Mr. Marsh and Mr. Addison various concepts and potential terms related to a potential strategic transaction between SCANA and Dominion Energy. These concepts and terms, which Mr. Farrell indicated did not constitute an offer with respect to a potential transaction, were intended to address the various issues that had arisen since SCE&G announced it was abandoning the NND project. These concepts and terms included consideration to SCANA's shareholders in the form of 70% Dominion Energy common stock and 30% cash, reflecting in total a premium of approximately 20% over the recent price of SCANA common stock, and an immediate rate credit for SCE&G's customers, maintenance of rates related to the NND project at or below current levels, a reduced amortization period for SCANA's investment in the NND project and a write-off of a portion of that investment. The transaction would involve expedited due diligence and would be subject to regulatory approval of the terms. At the end of the meeting, Mr. Marsh told Mr. Farrell and Mr. McGettrick that SCANA's situation was very complex and involved a number of variables and considerations; however, Mr. Marsh also said that SCANA's board and management would consider what Mr. Farrell and Mr. McGettrick had conveyed and get back to them.

On October 4, 2017, Mr. Marsh called Mr. Farrell and told him that he would be presenting what Dominion Energy had conveyed at the October 1, 2017 meeting to the SCANA board. Mr. Marsh reiterated to Mr. Farrell that SCANA's present circumstances that had arisen out of the abandonment of the NND project were very complex and involved a number of variables and considerations.

Also on October 4, 2017, Mr. Marsh received a telephone call from the chief executive officer of Party A. The chief executive officer told Mr. Marsh that Party A had been separately approached about a potential purchase of Santee Cooper and wanted to discuss the potential for SCANA and Party A to also engage in a strategic transaction. The chief executive officer of Party A also asked that SCANA agree to exclusivity obligations to restrict SCANA from seeking or negotiating with other parties regarding a strategic transaction and indicated that Party A would be unwilling to make a proposal to SCANA at that time without such exclusivity terms. Mr. Marsh asked if there were any concepts or terms related to such a potential transaction involving SCANA that Party A was able to provide and the chief executive officer of Party A responded that Party A had no such concepts or terms to provide at that time, but that they were working on several ideas.

On October 6, 2017, a representative of Party C again indicated to Mr. Marsh in a meeting requested by the representative that Party C would be interested in talking to SCANA about a potential strategic transaction if
T

Table of Contents

SCANA was interested in considering such a transaction, but the representative did not propose any concepts or terms that would apply to such a possible transaction or any process that would apply to the consideration of such a transaction.

An in-person meeting of the SCANA board was held on October 6, 2017. Members of SCANA's senior management and representatives of Mayer Brown, Morgan Stanley and RBC Capital Markets attended this meeting. At this meeting, Mr. Marsh described for the SCANA board the recent discussions with each of Dominion Energy, Party A and Party C. The SCANA board, together with SCANA's management, Morgan Stanley, RBC Capital Markets and Mayer Brown, then discussed whether it was prudent to commence a limited process to identify potential acquirors of SCANA at that time. After weighing the considerations involved and the consequences of commencing such a process, the SCANA board determined to move forward with exploring the possibility of a strategic transaction with Dominion Energy and with Party A, including providing due diligence information to each of Dominion Energy and Party A, and authorized SCANA's management and advisors to proceed accordingly. After the representatives of Morgan Stanley and RBC Capital Markets were excused from the meeting, representatives of Mayer Brown summarized for the SCANA board the material terms proposed by Morgan Stanley and RBC Capital Markets regarding their respective engagements as a financial advisor to SCANA in connection with a possible strategic transaction.

After the conclusion of the meeting of the SCANA board on October 6, 2017, Mr. Marsh called Mr. Farrell to inform him of the SCANA board's decision to proceed to explore a potential transaction with Dominion Energy (without any exclusivity obligations on SCANA) and called the chief executive officer of Party A to inform the chief executive officer of the SCANA board's decision to proceed to explore a potential transaction with Party A (without any exclusivity obligations on SCANA).

On October 8, 2017, SCANA entered into a confidentiality agreement with Dominion Energy and a confidentiality agreement with Party A. Each of such confidentiality agreements contained standstill provisions which, among other things, restricted the ability of Dominion Energy and Party A to acquire or offer to acquire any SCANA securities and to submit any proposal or offer relating to a business combination with SCANA without the SCANA board's prior written consent, except that the standstill restrictions would terminate (other than those relating to acquisitions of SCANA securities) in the event that SCANA announced it had entered into a definitive agreement relating to a strategic transaction. In connection with or prior to entering into such confidentiality agreements, each of Dominion Energy and Party A sought restrictions on SCANA's ability to seek or negotiate with other parties regarding a possible strategic transaction, but SCANA did not agree to any such restrictions. Shortly thereafter, Dominion Energy and Party A were granted access to a data room and a due diligence process was commenced with Dominion Energy and with Party A.

On October 10, 2017, the chief executive officer of Party B called Mr. Marsh and indicated that Party B did not have any interest in acquiring an interest in the NND project but that Party B was willing to talk with SCANA about a potential strategic transaction if SCANA was considering strategic options. The chief executive officer of Party B did not propose any concepts or terms that would apply to such possible transaction or any process that would apply to the consideration of such a transaction.

Also, on October 10, 2017, Mr. Marsh, Mr. Addison and Jim O. Stuckey, SCANA's Senior Vice President and General Counsel, met with the chief executive officer and other representatives of Party A in Columbia, South Carolina. At this meeting, the representatives of Party A conveyed some of the benefits and opportunities that might result from a potential strategic transaction between SCANA and Party A and indicated that a combination of Party A and SCANA would involve SCANA's shareholders receiving solely the common stock of Party A in the transaction. The chief executive officer of Party A stated that Party A was not in the position at that time to indicate the amount of consideration SCANA's shareholders would receive. The chief executive officer again requested that SCANA agree to exclusivity obligations restricting SCANA's ability to seek or negotiate with other parties regarding a potential strategic transaction.

T

Table of Contents

A telephonic meeting of the SCANA board was held on October 12, 2017. Members of SCANA's senior management and representatives of Mayer Brown attended this meeting. At this meeting, Mr. Marsh described for the SCANA board the recent telephone call with Party B, recent meeting with Party A and recent communications from Dominion Energy indicating its desire to move forward with discussions expeditiously. Also, representatives of Mayer Brown summarized for the SCANA board certain matters related to the proposed engagements of Morgan Stanley and RBC Capital Markets as SCANA's financial advisors, including the material proposed terms for such engagements and the disclosures made by Morgan Stanley and RBC Capital Markets with respect to their respective material relationships with Dominion Energy, Party A, Party B and Party C. In consultation with Mayer Brown, the SCANA board determined that none of such relationships of SCANA's financial advisors were sufficiently material to adversely affect the ability of Morgan Stanley or RBC Capital Markets to act as financial advisors to SCANA in connection with a potential strategic transaction.

On October 13, 2017, the SCANA board, acting by written consent, approved the engagements of Morgan Stanley and RBC Capital Markets to serve as financial advisors to SCANA in connection with a possible strategic transaction and SCANA subsequently engaged each of Morgan Stanley and RBC Capital Markets.

Throughout October and November 2017, Dominion Energy conducted due diligence on SCANA and SCANA conducted reverse due diligence on Dominion Energy. However, no significant negotiation of terms of a potential strategic transaction between SCANA and Dominion Energy occurred during this time.

In mid-October 2017, Party A's chief executive officer told Mr. Marsh that, in light of the considerable uncertainty resulting from SCE&G's decision to abandon the NND project, including uncertainty regarding future electric rates, Party A was not able to narrow a valuation range for SCANA. Subsequent to this, Party A did not continue participation in the due diligence process and ceased to communicate interest in a potential strategic transaction with SCANA.

An in-person meeting of the SCANA board was held on October 24, 2017. Members of SCANA's senior management and representatives of Mayer Brown attended this meeting. Among other things discussed at this meeting, the SCANA board discussed the status of discussions with Dominion Energy and Party A as well as the status of SCANA's analysis of a potential strategic transaction more generally.

A telephonic meeting of the SCANA board was held on October 26, 2017. Members of SCANA's senior management and representatives of Mayer Brown, Morgan Stanley and RBC Capital Markets attended this meeting. Mr. Marsh informed the SCANA board of developments with respect to SCANA's consideration of a potential strategic transaction. Mr. Marsh explained that SCANA had primarily been focused on trying to reach a settlement on rates and other regulatory matters resulting from the decision to abandon the NND project and participating in legislative hearings related to the same and further discussions ensued among the directors, management and the advisors regarding the potential for a strategic transaction with Dominion Energy and regulatory and related matters. After discussion, the SCANA board concluded that it was prudent to continue to seek a rate settlement and also to continue discussions with Dominion Energy on a parallel path.

On October 31, 2017, SCANA announced that Mr. Marsh would retire as the chief executive officer of SCANA and SCE&G and that on January 1, 2018 Mr. Addison would become chief executive officer of SCANA and SCE&G, among other leadership changes.

On November 16, 2017, SCE&G publicly proposed a $4.8 billion comprehensive solution to outstanding rate and regulatory issues relating to the abandoned NND project. Based on the reaction from legislators and other stakeholders to the proposal, it quickly became clear that this proposal was not a viable solution to the rate and regulatory issues relating to the abandoned NND project.

During the week of November 20, 2017, Mr. McGettrick and Mr. Addison spoke on multiple occasions by telephone. Among other things discussed between Mr. McGettrick and Mr. Addison, Mr. McGettrick told
T

Table of Contents

Mr. Addison that Dominion Energy was considering providing an updated proposal to SCANA regarding a potential strategic transaction.

On November 27, 2017, at the request of Mr. Farrell, Mr. Marsh, Mr. Addison and Mr. Hagood met with Mr. Farrell and Mr. McGettrick in Columbia, South Carolina. At this meeting, Mr. Farrell conveyed a proposal with respect to a potential strategic transaction between SCANA and Dominion Energy, which Mr. Farrell stated did not constitute an offer for a potential transaction. Key terms of this proposal included consideration to SCANA's shareholders in the form of 75% to 80% Dominion Energy common stock and 20% to 25% cash, reflecting in total a premium of approximately 30% over the recent price of SCANA common stock, the retention of SCE&G's headquarters in South Carolina and an updated plan for the regulatory resolution of the NND project which continued to include immediate cash refunds to SCE&G customers, prospective customer bill reductions for the NND project, a reduced amortization period for investments in the NND project, and a partial write-off of capital spent on the NND project. The representatives of SCANA told Mr. Farrell and Mr. McGettrick that the proposal would be shared with the SCANA board.

A telephonic meeting of the SCANA board was held on November 29, 2017. Members of SCANA's senior management and representatives of Mayer Brown, Morgan Stanley and RBC Capital Markets attended this meeting. Mr. Addison summarized the terms of the proposal conveyed by Dominion Energy on November 27, 2017. Mr. Addison expressed his view that in light of the current issues, risks and challenges facing SCANA, the Dominion Energy proposal merited further consideration. Mr. Marsh agreed with that assessment. The SCANA board then unanimously concluded that the Dominion Energy proposal warranted further consideration and authorized SCANA's management and advisors to pursue discussions with Dominion Energy accordingly.

On December 1, 2017, Mayer Brown provided to Dominion Energy an initial draft of a merger agreement with respect to a potential strategic transaction between SCANA and Dominion Energy. From this time until January 2, 2018, SCANA, Dominion Energy and their respective advisors, including McGuireWoods LLP, Dominion Energy's outside legal counsel which we refer to as McGuireWoods, had extensive negotiations with respect to the terms of the proposed merger agreement.

On December 5, 2017, an in-person due diligence session was held in Richmond, Virginia between representatives of SCANA and representatives of Dominion Energy. Also on December 5, 2017, representatives of SCANA and Dominion Energy met to discuss the timeline for a potential transaction and the terms of Dominion's proposal.

A telephonic meeting of the SCANA board was held on December 8, 2017. Members of SCANA's senior management and representatives of Mayer Brown, Morgan Stanley and RBC Capital Markets attended this meeting, as did a representative of McNair Law Firm, P.A., SCANA's South Carolina corporate counsel which we refer to as McNair. At this meeting, SCANA's management discussed the due diligence Dominion Energy was conducting on SCANA, the status of Dominion Energy's review of the proposed merger agreement, the proposed timeline for a potential transaction with Dominion Energy and the terms of Dominion Energy's anticipated updated proposal. After that discussion, at the request of the SCANA board, the representatives of Morgan Stanley and RBC Capital Markets indicated that they were unaware of any material change in their respective institution's material relationships disclosure previously provided to the SCANA board and that an updated material relationships disclosure would be provided before the next meeting of the SCANA board. Then, at the request of the SCANA board, each of Mayer Brown and McNair confirmed that their respective firms did not have a conflict of interest in representing SCANA in a transaction with Dominion Energy. SCANA's financial advisors then provided an overview of, among other things, (a) Dominion Energy's historical share price performance for the last three years, (b) Dominion Energy's capital expenditures plan, key earnings drivers and master limited partnership structure as provided by Dominion Energy's management, (c) certain financial projections provided by Dominion Energy's management relating to Dominion Energy for fiscal years 2017 through 2022, and (d) based on publicly available information and the projections provided by Dominion Energy, Dominion Energy's credit profile. Next, Iris N. Griffin, who was at that time the Vice President of Finance and

T

Table of Contents

Treasurer of SCANA, made a presentation of SCANA's forecasted earnings per share growth rates, which had been prepared by SCANA management, using various rate and regulatory settlement scenarios. Such scenarios did not take into account potential federal tax reform given the uncertainty with respect to such reform at that time. Following Ms. Griffin's presentation, representatives of Mayer Brown provided the SCANA board an overview of the terms of the proposed merger agreement, including, among other things, a description of the structure of the transaction, the closing conditions of the parties, the obligations of the parties with respect to pursuing regulatory approvals and the terms restricting SCANA's ability to solicit alternative transactions. At the end of the meeting, representatives of Mayer Brown reviewed with the members of the SCANA board their fiduciary duties under applicable law and asked the members of the SCANA board to provide updated information regarding past or current business or personal relationships with Dominion Energy or individuals associated with Dominion Energy in order to determine whether any potential conflicts of interest existed.

Also on December 8, 2017, McGuireWoods sent Mayer Brown a revised draft of the merger agreement that included, among other changes, a closing condition providing that the key terms related to the rate settlement would receive SCPSC approval with no deviation in terms from those proposed by Dominion Energy in connection with the merger.

On December 15, 2017, Dominion Energy provided SCANA with an updated proposal with respect to a potential strategic transaction between SCANA and Dominion Energy. This updated proposal reflected the due diligence that Dominion Energy had conducted on SCANA as well as the various discussions among the parties and their respective advisors to that point. Key terms of this updated proposal included: an all-stock, tax deferred transaction with a value of $54.50 per share of SCANA common stock (based on recent market prices of Dominion Energy common stock) reflecting an implied premium of approximately 27.9% over the closing price of SCANA common stock prior to a November 27, 2017 media report that SCANA had retained Morgan Stanley to explore strategic alternatives, various commitments by Dominion Energy to SCANA's community including a commitment to maintain SCE&G's headquarters in South Carolina, immediate cash refunds to customers totaling approximately $1.3 billion, which Dominion Energy estimated would result in an average refund of approximately $1,000 for residential customers, a 3.5% bill reduction related to the NND project going forward, a substantial write down of the investment in the NND project and exclusion from rate base of a gas-fired generation facility being acquired to help replace the NND project. The updated proposal also included certain requirements of Dominion Energy in order to proceed with the transaction, including that the key terms related to the rate settlement would receive SCPSC approval with no material changes in the terms of the rate settlement proposal and no change to the economic value of the rate settlement proposal and that, prior to the closing of the merger, there would be no changes in laws that impact SCANA, the BLRA or other utility laws.

An in-person meeting of the SCANA board was held on December 18, 2017. Members of SCANA's senior management and representatives of Mayer Brown, Morgan Stanley, RBC Capital Markets and McNair attended this meeting. Also attending a portion of the meeting were representatives from SCANA's various regulatory counsel in connection with the proposed transaction. After some introductory matters, the meeting commenced with regulatory counsel providing the SCANA board with an overview of the various regulatory clearances that would be needed in connection with the proposed transaction, including the likely timing for seeking and obtaining such clearances and the possibility of issues arising in obtaining such clearances. After regulatory counsel was excused from the meeting, representatives of Mayer Brown discussed with the SCANA board, as it had done in prior board meetings, information that the directors had provided regarding past or current business or personal relationships with Dominion Energy or individuals associated with Dominion Energy. After considering such relationships and in consultation with Mayer Brown, the SCANA board reaffirmed its prior determination that each director was independent and disinterested in connection with a potential strategic transaction with Dominion Energy. Mayer Brown also discussed with the SCANA board, as it had done in prior board meetings, the disclosures made by Morgan Stanley and RBC Capital Markets, which had been updated by Morgan Stanley and RBC Capital Markets prior to the meeting, with respect to their respective material relationships with Dominion Energy. After considering such relationships and in consultation with Mayer Brown, the SCANA board reaffirmed its prior determination that none of such relationships of SCANA's financial

T

Table of Contents

advisors were sufficiently material to adversely affect the ability of Morgan Stanley or RBC Capital Markets to act as financial advisors to SCANA in connection with a potential strategic transaction with Dominion Energy.

Next, Ms. Griffin made a presentation of SCANA's financial projections, which had been prepared by SCANA's management, using various rate and regulatory settlement scenarios. Such scenarios took into account the potential consequences of federal tax reform given the additional certainty with respect to such reform at that time. Then, each of Morgan Stanley and RBC Capital Markets discussed certain preliminary financial information relating to SCANA and the proposed transaction. Next, representatives of Mayer Brown, Morgan Stanley and RBC Capital Markets provided an update on the reverse due diligence that had been conducted on Dominion Energy and representatives of Mayer Brown summarized for the SCANA board certain key open issues in the merger agreement. The meeting concluded with Mr. Stuckey explaining to the SCANA board the terms of the change of control plans covering SCANA officers in the event a transaction was consummated.

On December 19, 2017, Mr. Addison had a meeting with an executive of Party C that had been arranged at the request of that executive. At that meeting, the executive indicated that Party C had a long-term interest in acquiring SCANA. The executive did not however propose any concepts or terms that would apply to a transaction between SCANA and Party C or any process that would apply to consideration of such a transaction. The executive also indicated that Party C would be interested in acquiring Public Service Company of North Carolina, a subsidiary of SCANA, for $2.2 billion. Mr. Addison informed the executive that he would present these matters to the SCANA board and would respond to the executive if and as directed by the SCANA board.

A telephonic meeting of the SCANA board was held on December 19, 2017. Members of SCANA's senior management and representatives of Mayer Brown, Morgan Stanley, RBC Capital Markets and McNair attended this meeting. At this meeting, Mr. Addison reported on his recent meeting with an executive of Party C. Mr. Addison explained that, in his view, Party C's proposal to acquire SCANA's subsidiary, Public Service Company of North Carolina, was not particularly attractive given the valuation proposed by Party C and the fact that Public Service Company of North Carolina was a key driver of SCANA's growth. The SCANA board concurred with this assessment. SCANA's management and advisors then discussed with the SCANA board certain significant open issues with respect to the merger agreement with Dominion Energy, including the triggers for and amount of the reverse termination fee payable by Dominion Energy, certain deal protection terms, including the amount of the termination fee payable by SCANA, closing conditions relating to South Carolina regulatory approvals and changes that cannot be considered in determining whether a material adverse effect on SCANA has occurred. After discussion, the SCANA board provided SCANA's management and advisors with guidance on these issues.

Later on December 19, 2017, SCANA, through its financial advisors, had a discussion with Dominion Energy regarding various potential methods to determine a mutually acceptable reference stock price for each party for calculating the fixed exchange ratio, as well as with respect to other open issues. SCANA's proposed method for calculating the exchange ratio reflected a value of $57 per share of SCANA common stock.

On December 21, 2017, SCANA's stock price declined approximately 9.5%. On the following day, SCANA's stock price rose approximately 4.3%.

On December 22, 2017, McGuireWoods circulated a revised draft of the merger agreement on behalf of Dominion Energy. Among other changes, the revised draft reflected a closing condition that provided Dominion Energy the right not to close the transaction if after the signing of the merger agreement there were any changes to the BLRA or other South Carolina public utility laws and a termination fee amount of 3.5% of the equity value of the transaction for each of the termination fee payable by SCANA in certain instances and the termination fee payable by Dominion Energy in certain instances.

On December 27, 2017, Dominion Energy revised its proposal to, among other changes, increase the initial bill reduction to customers to at least 5% from the prior proposal of 3.5%. This increased benefit to customers

T

Table of Contents

was attributed to Dominion Energy passing through to customers the benefits associated with the recently enacted reduction in federal income tax rates (estimated at the time to be at least 1.5%). Also on December 27, 2017, Dominion Energy proposed establishing the proposed transaction value through a fixed exchange ratio of 0.6620 of a share of Dominion Energy common stock for each outstanding share of SCANA common stock.

A telephonic meeting of the SCANA board was held on December 29, 2017. Members of SCANA's senior management and representatives of Mayer Brown, Morgan Stanley, RBC Capital Markets, McNair and a representative of Womble Bond Dickinson, LLP, SCANA's South Carolina regulatory counsel which we refer to as Womble Bond, attended this meeting. At this meeting, each of Morgan Stanley and RBC Capital Markets discussed with the SCANA board certain preliminary financial matters related to SCANA and the proposed transaction, including an update with respect to the negotiations on the exchange ratio. Following such discussion, Mr. Stuckey and representatives of Mayer Brown summarized the remaining significant open issues in the merger agreement and the representatives of Mayer Brown summarized the material terms of the merger agreement for the SCANA board. Among other material terms, Mayer Brown summarized the terms of the merger agreement relating to employee benefits and executive compensation, including treatment of equity and equity-based awards, post closing covenants relating to treatment of employees and employee benefits, including protection of severance benefits and the period of post-closing protection, and the proposed exceptions to the interim operating covenants, including salary increases, ordinary course equity grants, and retention bonuses. The representative of Womble Bond then summarized the material terms of the merger agreement relating to South Carolina regulatory matters and the rate settlement proposal.

Later on December 29, 2017, SCANA, through its financial advisors, conveyed a counterproposal to Dominion Energy with respect to the transaction consideration of an exchange ratio of 0.6690 of a share of Dominion Energy common stock for each outstanding share of SCANA common stock.

On December 30, 2017, Dominion Energy agreed to SCANA's counterproposal on the proposed exchange ratio of 0.6690 of a share of Dominion Energy common stock for each outstanding share of SCANA common stock. On December 31, 2017, the parties also reached agreement on certain of the other significant open issues, including that the merger agreement would include a closing condition that provided Dominion Energy the right not to close the transaction if after the signing of the merger agreement there were any substantive changes to the BLRA or other South Carolina public utility laws that would have an adverse effect on SCANA and a termination fee in the amount of 3.0% of the offered equity value of the transaction for the termination fee payable by SCANA in certain instances and a termination fee in the amount of 3.5% of the offered equity value of the transaction for the termination fee payable by Dominion Energy in certain instances. Counsel for the parties then completed final documentation reflecting these agreements.

A telephonic meeting of the SCANA board was held on January 2, 2018. Members of SCANA's senior management and representatives of Mayer Brown, Morgan Stanley, RBC Capital Markets and McNair attended this meeting. At this meeting, SCANA's management and financial advisors provided the directors with an update of the final negotiations with respect to the exchange ratio and representatives of Mayer Brown summarized the resolution of the remaining significant open issues in the merger agreement. Then, Morgan Stanley and RBC Capital Markets separately provided the SCANA board with their respective financial analyses performed in connection with the proposed transaction. Next, Mr. Addison, Ms. Griffin, Mr. Stuckey and other members of SCANA management shared with the SCANA board their views on the merits of the proposed transaction with Dominion Energy and the alternatives to the transaction. Each member of management present at the meeting stated that, in his or her view, the proposed transaction with Dominion Energy was the best alternative available to SCANA under its present circumstances. The SCANA board then engaged in further discussions and deliberations, with the assistance of SCANA's management and advisors, with respect to the proposed transaction with Dominion Energy.

Next, at the request of the SCANA board, Morgan Stanley rendered its oral opinion to the SCANA board (which was subsequently confirmed in writing by delivery of Morgan Stanley's written opinion to the SCANA

T

Table of Contents

board dated the same date) to the effect that, as of January 2, 2018, and based upon and subject to the assumptions made, procedures followed, matters considered and qualifications and limitations on the scope of review undertaken by Morgan Stanley as set forth in Morgan Stanley's written opinion, the merger consideration (as such term is defined in the merger agreement) to be received by holders of SCANA common stock (other than certain excluded holders) pursuant to the merger agreement was fair from a financial point of view to such holders. Also at this meeting and at the request of the SCANA board, RBC Capital Markets rendered its oral opinion, confirmed by delivery of a written opinion dated January 2, 2018, to the SCANA board to the effect that, as of that date and based on and subject to the procedures followed, assumptions made, factors considered and qualifications and limitations described in the opinion, the merger consideration to be received by holders of SCANA common stock pursuant to the merger agreement was fair, from a financial point of view, to such holders. The full texts of the opinions of Morgan Stanley and RBC Capital Markets are attached as Annex B and Annex C, respectively, to this proxy statement/prospectus and set forth, among other things, the procedures followed, assumptions made, factors considered and qualifications and limitations on the review undertaken in connection with their respective opinions, as more fully described in the section entitled "—Opinions of SCANA's Financial Advisors."

The SCANA board then unanimously (a) determined that it is in the best interests of SCANA and the shareholders of SCANA that SCANA enter into the merger agreement and consummate the merger and the other transactions contemplated by the merger agreement on the terms and subject to the conditions set forth in the merger agreement, (b) adopted the merger agreement and approved the transactions contemplated by the merger agreement, including the merger, (c) directed that the approval of the merger agreement be submitted to a vote at a meeting of the shareholders of SCANA and (d) resolved to recommend that the shareholders of SCANA approve the merger agreement.

In the early evening of January 2, 2018, the parties executed the merger agreement.

In the early morning of January 3, 2018, SCANA and Dominion Energy issued a joint press release announcing the transaction.

SCANA's Reasons for the Merger; Recommendation of the SCANA Board

SCANA's Reasons for the Merger

At a meeting held on January 2, 2018, the SCANA board unanimously (i) determined that it is in the best interests of SCANA and the SCANA shareholders that SCANA enter into the merger agreement and complete the merger and the other transactions contemplated by the merger agreement on the terms and subject to the conditions set forth in the merger agreement, (ii) adopted the merger agreement and approved the transactions contemplated by the merger agreement, including the merger, (iii) directed that the approval of the merger agreement be submitted to a vote at a meeting of the SCANA shareholders, and (iv) resolved to recommend that the SCANA shareholders approve the merger agreement. In evaluating the merger, the SCANA board consulted with SCANA's management and legal and financial advisors and, in reaching its unanimous decision to adopt the merger agreement and to recommend that the SCANA shareholders approve the merger agreement, considered numerous factors which are discussed below.

Among the information and material factors considered by the SCANA board were the following (not in any relative order of importance):

- The understanding of SCANA's management and the SCANA board of SCANA's business, operations, financial condition, financing needs, earnings, strategy and prospects, as well as SCANA's historical and projected financial performance;
- The SCANA board's consideration of the current state of the economy, debt and equity financing markets, and uncertainty regarding near-term and long-term forecasted economic conditions, both generally and within SCANA's industry in particular;

Table of Contents

- The fact that, since the bankruptcy filing of Westinghouse Electric Company, LLC, which we refer to as Westinghouse, and SCANA's decision to abandon the NND project, SCANA has been under increasingly intense regulatory, political and legal scrutiny which has resulted in, and could result in further, significant financial uncertainty for SCANA and could lead to significant negative financial impacts on SCANA, including possible bankruptcy;
- The fact that the exchange ratio of 0.6690 of a share of Dominion Energy common stock for each outstanding share of SCANA common stock provided for in the merger represents:
  - an implied price of approximately $54.23 per share of SCANA common stock based on the closing price of Dominion Energy common stock on December 29, 2017, the last trading day prior to the date on which the SCANA board adopted the merger agreement, which reflects an implied premium of approximately 36.3% based on the closing price of SCANA common stock on December 29, 2017; and
  - an implied price of approximately $55.39 based on the 30-day Bloomberg intraday volume weighted average price of Dominion Energy common stock as of December 29, 2017, the last trading day prior to the date on which the SCANA board adopted the merger agreement, which reflects an implied premium of approximately 29.7% based on the 30-day Bloomberg intraday volume weighted average price of SCANA common stock as of December 29, 2017;
- The fact that SCE&G publicly proposed on November 16, 2017 a $4.8 billion comprehensive solution to outstanding rate and regulatory issues relating to the abandoned NND project and that, based on the reaction from legislators and other stakeholders to the proposal, it quickly became clear that the proposal, in the view of SCANA's management and the SCANA board, was not an acceptable solution to these issues;
- The fact that Dominion Energy committed to propose to the SCPSC, among other things, a one-time rate credit to SCE&G's electric customers equal to an aggregate of $1.3 billion, at least a 5% bill reduction from 2017 bills to SCE&G's electric customers, an approximately $1.7 billion write-off of capital and regulatory assets relating to the NND project (including a 20-year amortization period for costs associated with the NND project) and the completion of the $180 million purchase of a natural gas fired power station (the cost of which would not be included in setting rates for SCE&G's electric customers), which in the aggregate represents a significant improvement over the plan SCE&G publicly proposed on November 16, 2017 and, in the view of SCANA's management and the SCANA board, represents a comprehensive solution to outstanding rate and regulatory issues relating to the abandoned NND project that provides SCE&G's electric customers greater overall value than what SCANA could offer on a standalone basis;
- The fact that, upon completion of the merger, SCANA would become part of a much larger company with a considerably stronger balance sheet and access to greater financial resources, which should lower SCANA's cost of capital (taking into account the regulatory and political uncertainty SCANA was facing at the time the SCANA board adopted the merger agreement) and allow SCE&G the ability and resources to address and resolve the issues arising from or relating to Westinghouse's bankruptcy and the abandonment of the NND project;
- The historical trading ranges of SCANA's common stock and the potential trading range of SCANA's common stock absent announcement of the merger agreement and in light of the ongoing regulatory, political and legal scrutiny SCANA is facing;
- The fact that SCANA had conducted preliminary discussions with parties other than Dominion Energy with respect to a potential strategic transaction, none of which resulted in a proposal that set forth proposed transaction consideration or other developed terms, and the SCANA board's conclusion, based on these preliminary discussions, industry dynamics, advice and market insights received from Morgan Stanley, input and market insights of RBC Capital Markets and regulatory and other challenges for SCANA, among other factors, that the merger provided the most likely path for enhanced value for SCANA shareholders;

Table of Contents

- The recommendation of SCANA's senior management that SCANA should proceed with the proposed transaction based on its knowledge of SCANA's industry and the regulatory, political, legal and financial challenges facing SCANA in connection with the abandonment of the NND project;
- The results of SCANA's due diligence investigation of Dominion Energy conducted with the assistance of SCANA's management and certain of SCANA's outside advisors;
- The fact that, following the merger, SCANA's shareholders would hold stock in a combined company that will have increased scale and scope, including increased financial scale, greater diversification of markets and more regulatory jurisdictions than SCANA on a standalone basis, thereby diversifying certain risks currently associated with SCANA common stock;
- The financial analyses performed by Morgan Stanley with respect to the proposed transaction, and the opinion of Morgan Stanley, dated January 2, 2018, the full text of which is attached as Annex B, that, based upon and subject to the assumptions made, procedures followed, matters considered and qualifications and limitations on the scope of review undertaken by it, as set forth in Morgan Stanley's written opinion and as described in "*—Opinions of SCANA's Financial Advisors—Opinion of Morgan Stanley & Co. LLC*" beginning on page 47 of this proxy statement/prospectus, the merger consideration to be received by holders of SCANA common stock (other than holders of the cancelled shares) pursuant to the merger agreement was fair from a financial point of view to such holders;
- The financial presentation and opinion, dated January 2, 2018, of RBC Capital Markets to the SCANA board as to the fairness, from a financial point of view and as of such date, of the merger consideration to be received by holders of SCANA common stock pursuant to the merger agreement, the full text of which opinion is attached as Annex C to this proxy statement/prospectus and sets forth, among other things, the procedures followed, assumptions made, factors considered and qualifications and limitations on the review undertaken by RBC Capital Markets in connection with its opinion, as more fully described in the section entitled "*—Opinions of SCANA's Financial Advisors—Opinion of RBC Capital Markets, LLC*" beginning on page 58 of this proxy statement/prospectus;
- The terms and conditions of the merger agreement, including, among other things, the representations, warranties, covenants and agreements of the parties, the form and structure of the merger consideration and the termination rights of the parties;
- The fact that, while the merger agreement contains a covenant prohibiting SCANA from soliciting third-party acquisition proposals, the merger agreement permits SCANA, prior to the time that SCANA's shareholders approve the merger agreement, to discuss and negotiate, under specified circumstances, an unsolicited acquisition proposal should one be made and, if the SCANA board determines in good faith, after consultation with SCANA's financial advisors and outside legal counsel, that the unsolicited acquisition proposal constitutes a superior proposal within the meaning of the merger agreement and, after consultation with SCANA's outside legal counsel, that the failure to take any of the following actions would reasonably be expected to be inconsistent with the SCANA board's fiduciary duties under applicable law, the SCANA board is permitted, after taking certain steps, to change or withdraw its recommendation of the merger agreement in response to a superior proposal or terminate the merger agreement in order to enter into a definitive agreement for that superior proposal, subject to payment of a termination payment of $240,000,000 to Dominion Energy;
- The fact that the merger agreement allows the SCANA board, prior to the time that SCANA shareholders approve the merger agreement, to change or withdraw its recommendation of the merger agreement in response to a material event, development or change in circumstances that first becomes known to the SCANA board or certain officers of SCANA after the date of the merger agreement and which was not reasonably foreseeable as of or prior to the date of the merger agreement or which would not reasonably be expected to have become known after reasonable investigation or inquiry as of or prior to the date of the merger agreement, subject, in all cases, to specified exceptions, if the SCANA board determines in good faith, after consultation with SCANA's outside legal counsel, that

Table of Contents

the failure to change or withdraw its recommendation would be inconsistent with the SCANA board's fiduciary duties under applicable law;

- The fact that, in the event that the merger agreement is terminated and a regulatory approval or clearance (other than the approval or clearance of the SCPSC) is not obtained under certain circumstances specified in the merger agreement or is terminated by SCANA for a material breach by Dominion Energy of its covenants to obtain regulatory approvals or clearances with respect to the proposed transaction and that breach caused a failure of any of the closing conditions relating to regulatory matters, SCANA will be entitled to receive a termination fee of $280,000,000 from Dominion Energy;
- The likelihood that the merger will be completed based on, among other things (not in any relative order of importance):
  - the business reputation and capabilities of Dominion Energy, and the SCANA board's assessment that Dominion Energy is willing to devote the resources necessary to close the merger in an expeditious manner;
  - the termination date under the merger agreement, after which SCANA or Dominion Energy, subject to specified exceptions, may terminate the merger agreement, allowing for sufficient time to close the merger;
  - SCANA's ability to seek specific performance to prevent breaches of the merger agreement by the Dominion Energy parties and to enforce specifically the terms of the merger agreement; and
  - the exclusions from what would contribute to or constitute a material adverse effect on SCANA under the terms of the merger agreement;
- The fact that the merger is intended to qualify as a "reorganization" within the meaning of Section 368(a) of the Code, with the result that a U.S. holder of SCANA common stock generally would not recognize any gain or loss upon receipt of Dominion Energy common stock solely in exchange for SCANA common stock in the merger, except with respect to cash received in lieu of fractional shares of Dominion Energy common stock;
- The provisions of the merger agreement that require, as soon as practicable after the effective time of the merger, the appointment of a current member of the SCANA board or SCANA's executive management to the Dominion Energy board;
- The fact that the merger agreement is subject to approval by holders of at least two-thirds of the outstanding shares of SCANA common stock;
- The SCANA board's belief regarding the likelihood of obtaining the regulatory approvals, findings and clearances necessary to complete the merger; and
- The fact that the merger agreement reflects Dominion Energy's agreement to make a good faith commitment to give SCANA's employees due and fair consideration for other employment and promotion opportunities within the combined company to the extent any employment positions are re-aligned, reduced or eliminated in the future as a result of the merger; to maintain SCE&G's corporate headquarters in Cayce, South Carolina; to increase, for at least five (5) years following the merger, SCANA's historical levels of charitable contributions to certain charities to be specified by SCANA's leadership and to maintain or increase historical levels of community involvement, low income funding and economic efforts in SCANA's current operating area.

The SCANA board also considered a variety of potentially negative factors in its deliberations concerning the merger agreement and the merger, including the following (not in any relative order of importance):

- The fact that, because the merger consideration is a fixed exchange ratio of shares of Dominion Energy common stock for shares of SCANA common stock, SCANA shareholders could be adversely affected

Table of Contents

by a decrease in the trading price of Dominion Energy common stock and the fact that the merger agreement does not provide for any adjustment of the merger consideration if the trading price of Dominion Energy common stock decreases and does not provide a price-based termination right or other similar protection in favor of SCANA or SCANA shareholders;

- The risk that the merger will be delayed or will not be completed, including the risk that the required regulatory approvals and clearances may not be obtained or other conditions to closing in the merger agreement may not be satisfied, as well as the potential loss of value to SCANA shareholders and the potential negative impact on the financial position, operations and prospects of SCANA if the merger is delayed or is not completed for any reason;
- The fact that Dominion Energy will not be obligated to complete the merger if (i) any South Carolina public utility law including the BLRA (as in effect as of the date of the merger agreement) is substantively changed in a manner that has or would reasonably be expected to have an adverse effect on SCANA or any of its subsidiaries, (ii) the SCPSC fails to make a SCPSC merger determination, or (iii) unless otherwise consented to by Dominion Energy in its sole discretion, the SCPSC fails to approve the SCPSC petition without any material changes to the proposed terms, conditions or undertakings of the cost recovery plan and without a significant change to the economic value of the proposed terms set forth in the cost recovery plan, in each case as reasonably determined by Dominion Energy in good faith;
- The fact that SCANA did not conduct a formal sale process to solicit other developed acquisition proposals from parties other than Dominion Energy;
- The fact that, since Westinghouse's bankruptcy filing and SCANA's decision to abandon the NND project, SCANA's stock has been trading significantly below historical levels in the recent past, resulting in an implied premium in the merger based on a relatively low stock price;
- The fact that, by virtue of the merger, SCANA has foregone the opportunity to resolve the issues arising from or relating to Westinghouse's bankruptcy and the abandonment of the NND project on its own which, if successful, might have resulted in the price of SCANA common stock increasing to a level in excess of the merger consideration;
- The significant costs involved in connection with negotiating the merger agreement, the pursuit of regulatory approvals and otherwise completing the merger, the substantial management time and effort required to effectuate the merger and the potential disruptions to SCANA's day-to-day operations during the pendency of the merger;
- The risk, during the pendency of the merger, that SCANA's relationship with regulators, customers, employees, suppliers, agents and others with which SCANA and its subsidiaries have business dealings could be adversely affected as a result of, among other things, the restrictions in the merger agreement on the conduct of SCANA's business prior to the completion of the merger, which could delay or prevent SCANA from undertaking business opportunities that may arise or other action it would otherwise take with respect to the operations of SCANA's business;
- The fact that SCANA's executive officers and directors may have interests in the merger that are different from, or in addition to, the interests of SCANA shareholders, including the accelerated vesting of stock-based awards held by executive officers, the payment of cash severance to certain executives of SCANA if a termination of employment were to occur under specified circumstances in connection with the merger, and the interests of SCANA's directors and officers in indemnification by Dominion Energy and insurance coverage from the surviving corporation under the terms of the merger agreement. See the section entitled "*The Merger Agreement—Indemnification and Insurance*" beginning on page 105 of this proxy statement/prospectus;
- The fact that the termination payment to be paid to Dominion Energy under the circumstances specified in the merger agreement, which, while as a percentage of the equity value of the transaction is within a

Table of Contents

customary range for similar transactions, may discourage other parties that might otherwise have an interest in a business combination with, or an acquisition of, SCANA, or may reduce the price offered by those other parties in a competing bid. See the section entitled "*The Merger Agreement—Termination Fees*" beginning on page 100 of this proxy statement/prospectus;

T

- The fact that the right afforded to Dominion Energy under the merger agreement to match acquisition proposals that the SCANA board determines in good faith are superior proposals may discourage other parties that might otherwise have an interest in a business combination with, or an acquisition of, SCANA; and

T

- The risks described in the section entitled "*Risk Factors*" beginning on page 17 of this proxy statement/prospectus.

The foregoing discussion of the information and factors considered by the SCANA board is not intended to be exhaustive, but includes the material factors considered by the SCANA board. In view of the variety of factors considered in connection with its evaluation of the merger, the SCANA board did not find it practicable to, and did not, quantify or otherwise assign relative weights to the specific factors considered in reaching its determination and recommendation. In addition, individual directors may have given different weights to different factors. The SCANA board did not undertake to make any specific determination as to whether any factor, or any particular aspect of any factor, supported or did not support its ultimate determination. The SCANA board based its recommendation on the totality of the information presented.

Portions of this explanation of the reasons for the merger and other information presented in this section are forward-looking in nature and, therefore, should be read in light of the section entitled "*Cautionary Statement Regarding Forward-Looking Statements*" beginning on page 25 of this proxy statement/prospectus.

Recommendation of the SCANA Board

The SCANA board recommends that you vote "FOR" the merger proposal.

Opinions of SCANA's Financial Advisors

Opinion of Morgan Stanley & Co. LLC

Morgan Stanley was retained by SCANA to act as its financial advisor in connection with the merger and to provide financial advice and assistance and, upon SCANA's request, to render a financial opinion, in each case in connection therewith. The SCANA board selected Morgan Stanley to act as its financial advisor based on Morgan Stanley's qualifications, expertise and reputation, its knowledge of and involvement in recent transactions in SCANA's industry and its knowledge and understanding of the business and affairs of SCANA. On January 2, 2018, Morgan Stanley rendered its oral opinion, which was subsequently confirmed in writing, to the SCANA board to the effect that, as of that date, and based upon and subject to the assumptions made, procedures followed, matters considered and qualifications and limitations on the scope of review undertaken by Morgan Stanley as set forth in Morgan Stanley's written opinion, the merger consideration to be received by the holders of shares of SCANA common stock (other than the holders of the cancelled shares) pursuant to the merger agreement was fair from a financial point of view to the holders of shares of SCANA common stock.

The full text of the written opinion of Morgan Stanley delivered to the SCANA board, dated January 2, 2018, is attached as Annex B and incorporated into this proxy statement/prospectus by reference in its entirety. The opinion sets forth, among other things, the assumptions made, procedures followed, matters considered and qualifications and limitations on the scope of the review undertaken by Morgan Stanley in rendering its opinion. SCANA shareholders are urged to, and should, read the opinion carefully and in its entirety. Morgan Stanley's opinion is directed to the SCANA board and addresses only the fairness from a financial point of view of the merger consideration to be received by the holders of

T

Table of Contents

shares of SCANA common stock (other than the holders of the cancelled shares) pursuant to the merger agreement as of the date of the opinion. Morgan Stanley's opinion did not address the relative merits of the transactions contemplated by the merger agreement as compared to other business or financial strategies that might be available to SCANA, nor did it address the underlying business decision of SCANA to enter into the merger agreement or proceed with any other transaction contemplated by the merger agreement. In addition, Morgan Stanley's opinion did not in any manner address the prices at which shares of Dominion Energy common stock will trade following completion of the merger or at any time, and Morgan Stanley's opinion was not intended to, and does not, express any opinion or recommendation as to how the holders of shares of SCANA common stock should vote at the special meeting. The summary of Morgan Stanley's opinion set forth in this proxy statement/prospectus is qualified in its entirety by reference to the full text of Morgan Stanley's opinion.

For purposes of rendering its opinion, Morgan Stanley, among other things:

- reviewed certain publicly available financial statements and other business and financial information of SCANA and Dominion Energy, respectively;
- reviewed certain internal financial statements and other financial and operating data concerning SCANA and Dominion Energy, respectively;
- reviewed certain financial projections prepared by the managements of SCANA and Dominion Energy, respectively, which we refer to as the SCANA management projections and Dominion Energy management projections, respectively;
- discussed the past and current operations and financial condition and the prospects of SCANA with senior executives of SCANA;
- discussed the past and current operations and financial condition and the prospects of Dominion Energy with senior executives of Dominion Energy;
- reviewed the pro forma impact of the merger on Dominion Energy's earnings per share, cash flow, consolidated capitalization and certain financial ratios;
- reviewed the reported prices and trading activity for SCANA common stock and Dominion Energy common stock;
- compared the financial performance of SCANA and the prices and trading activity of SCANA common stock with that of certain other publicly traded companies comparable with SCANA, and their securities;
- reviewed the financial terms, to the extent publicly available, of certain comparable acquisition transactions;
- participated in certain discussions and negotiations among representatives of SCANA and Dominion Energy and their financial and legal advisors;
- reviewed the merger agreement and certain related documents; and
- performed such other analyses and considered such other factors as Morgan Stanley deemed appropriate.

In arriving at its opinion, Morgan Stanley assumed and relied upon, without independent verification, the accuracy and completeness of the information that was publicly available or supplied or otherwise made available to Morgan Stanley by SCANA and Dominion Energy, and formed a substantial basis for Morgan Stanley's opinion. With respect to the SCANA management projections and the Dominion Energy management projections, Morgan Stanley assumed that they had been reasonably prepared on bases reflecting the best currently available estimates and judgments of the respective managements of SCANA and Dominion Energy of the future financial performance of SCANA and Dominion Energy. In addition, Morgan Stanley assumed that the

Table of Contents

merger will be completed in accordance with the terms set forth in the merger agreement without any waiver, amendment or delay of any terms or conditions, including, among other things, that the merger will be treated as a tax-free reorganization, pursuant to the Code. Morgan Stanley relied upon, without independent verification, the assessment by the management of SCANA of: (i) the timing and risks associated with the integration of SCANA and Dominion Energy and (ii) their ability to retain key employees of SCANA and Dominion Energy, respectively. Morgan Stanley assumed that in connection with the receipt of all the necessary governmental, regulatory or other approvals and consents required for the merger, no delays, limitations, conditions or restrictions will be imposed that would have a material adverse effect on the contemplated benefits expected to be derived in the merger (but Morgan Stanley assumed, without independent verification, the reasonableness of those delays, limitations, conditions and restrictions contained in the financial projections prepared by the managements of SCANA and Dominion Energy).

Morgan Stanley is not a legal, tax, or regulatory advisor. Morgan Stanley is a financial advisor only and has relied upon, without independent verification, the assessment of SCANA and its legal, tax, and regulatory advisors with respect to legal, tax, and regulatory matters. For purposes of its analysis Morgan Stanley did not make any assessment of the status of outstanding litigation or regulatory proceedings involving SCANA and excluded the effects of any such litigation or proceedings in its analysis, other than those effects included in the financial projections prepared by the managements of SCANA and Dominion Energy, upon which Morgan Stanley relied without independent verification. Morgan Stanley expresses no opinion with respect to the fairness of the amount or nature of the compensation to any of SCANA's officers, directors or employees, or any class of such persons, relative to the merger consideration to be received by the holders of shares of SCANA common stock (other than the holders of the cancelled shares) in the merger. Morgan Stanley did not make any independent valuation or appraisal of the assets or liabilities of SCANA or Dominion Energy, nor was Morgan Stanley furnished with any such valuations or appraisals. Morgan Stanley's opinion is necessarily based on financial, economic, market and other conditions as in effect on, and the information made available to Morgan Stanley as of January 2, 2018. Events occurring after January 2, 2018 may affect Morgan Stanley's opinion and the assumptions used in preparing it, and Morgan Stanley did not assume any obligation to update, revise or reaffirm its opinion.

In arriving at its opinion, Morgan Stanley was not authorized to solicit, and did not solicit, interest from any party with respect to the acquisition, business combination or other extraordinary transaction, involving SCANA. At the direction of the management and the SCANA board, Morgan Stanley did not negotiate with anyone other than Dominion Energy.

Summary of Morgan Stanley Financial Analyses

SCANA Financial Analysis

The following is a brief summary of the material financial analyses performed by Morgan Stanley in connection with the preparation of its opinion. The following summary is not a complete description of Morgan Stanley's opinion or the financial analyses performed and factors considered by Morgan Stanley in connection with its opinion, nor does the order of analyses described represent the relative importance or weight given to those analyses. The financial analyses summarized below include information presented in tabular format. In order to fully understand the financial analyses used by Morgan Stanley, the tables must be read together with the text of each summary. The tables alone do not constitute a complete description of the financial analyses. The analyses listed in the tables and described below must be considered as a whole; considering any portion of such analyses and of the factors, without considering all analyses and factors, could create a misleading or incomplete view of the process underlying Morgan Stanley's opinion. Furthermore, mathematical analysis, such as determining the mean, median or average, is not in itself a meaningful method of using the data referred to below. Except as otherwise noted below, all implied values per share of SCANA common stock included in Morgan Stanley's presentation to the SCANA board, as described in this section, were rounded to the nearest $0.25.
T

Table of Contents

In performing the financial analyses summarized below and arriving at its opinion, Morgan Stanley used and relied upon the financial forecasts under the 5% regulatory settlement scenario and 9.75% regulatory settlement scenario. For more information, please see the section entitled "—*Certain Forecasts Prepared by SCANA's Management*" beginning on page 78 of this proxy statement/prospectus. In addition, Morgan Stanley analyzed certain financial projections based on Wall Street research reports, which we refer to as IBES. With respect to the financial forecasts under the 3.5% regulatory settlement scenario, the terms of the 3.5% regulatory settlement scenario had been publicly proposed by SCANA on November 16, 2017 and, based on the reaction from regulators and other constituencies to such proposal, it quickly became clear that the proposal, in the view of SCANA's management and the SCANA board, was not an acceptable solution to the outstanding rate and regulatory issues relating to the abandoned NND project. Accordingly, SCANA directed Morgan Stanley not to use and rely upon the financial forecasts under the 3.5% regulatory settlement scenario for purposes of Morgan Stanley's financial analyses and opinion and SCANA provided such financial forecasts to Morgan Stanley for informational reference purposes only.

Comparable Companies Analysis

Morgan Stanley performed a comparable companies analysis, which attempts to provide an implied value of a company by comparing it to similar companies that are publicly traded. Morgan Stanley reviewed and compared certain financial information, ratios and multiples relating to SCANA to corresponding financial information, ratios and multiples for publicly traded regulated electric and gas and electric-only utility companies that shared characteristics with SCANA to derive an implied valuation range for SCANA.

The companies included in the comparable companies analysis were:

T
- Duke Energy Corporation

T
- The Southern Company

T
- American Electric Power Company, Inc.

T
- Xcel Energy Inc.

T
- WEC Energy Group, Inc.

T
- DTE Energy Group, Inc.

T
- Ameren Corporation

T
- CMS Energy Corporation

T
- Pinnacle West Capital Corporation

The foregoing companies were chosen based on Morgan Stanley's knowledge of the industry and because such companies have businesses that may be considered similar to SCANA's. Although none of such companies are identical or directly comparable to SCANA, these companies are publicly traded companies with operations and/or other criteria, such as lines of business, markets, business risks, growth prospects, maturity of business and size and scale of business, that, for purposes of its analysis, Morgan Stanley considered similar to those of SCANA. The foregoing summary and underlying financial analyses involved complex considerations and judgments concerning differences in financial and operating characteristics and other factors that could affect the values of the companies to which SCANA was compared. In evaluating comparable companies, Morgan Stanley made judgments and assumptions with regard to industry performance, general business, economic, market and financial conditions and other matters, which are beyond the control of SCANA, including, among other things, the impact of regulatory changes, industry growth and the absence of any adverse material change in the financial condition and prospects of SCANA or the industry or in the financial markets in general.

In performing this analysis, Morgan Stanley used the financial forecasts under the 5% regulatory settlement scenario and the 9.75% regulatory settlement scenario and IBES to compare the financial information and

T

Table of Contents

multiples of market value of the companies included in the comparable companies analysis to the following metrics of SCANA:

T

- stock price to 2019 estimated earnings per share, which we refer to as EPS (based on the financial forecasts under the 5% regulatory settlement scenario);

T

- stock price to 2019 estimated EPS (based on the financial forecasts under the 9.75% regulatory settlement scenario); and

T

- stock price to 2019 estimated EPS (based on IBES).

Morgan Stanley did not compare SCANA's stock price to its 2018 estimated EPS because of significant write-downs expected to be made by SCANA in 2018 that would cause SCANA's earnings in 2018 to be unrepresentative. In addition, Morgan Stanley applied a discount of 1.5 multiple points to the multiples of stock price to estimated 2019 EPS for the comparable companies referred to above to reflect the long-term average (based on the past 10 years) next-twelve-month multiple discount at which SCANA common stock has traded as compared to the trading prices of the stock of such comparable companies (based on historical trading prices as a multiple of estimated next-twelve-month EPS) and the expected low rate of growth of dividends per share reflected in the SCANA management projections relative to peers. The range of multiples of stock price to estimated EPS for 2019 for the companies included in the comparable companies analysis based on a compilation of earnings estimates by selected equity research analysts (after giving effect to the 1.5 multiple point discount described above) is 14.0x to 18.0x.

Applying this range of multiples, Morgan Stanley derived a range of approximate implied equity values per share of SCANA common stock as follows:

T

Metric	Implied Value Per Share of SCANA Common Stock
Stock price to 2019 estimated EPS (based on the financial forecasts under the 5% regulatory settlement scenario)	$47.00 - $60.50
Stock price to 2019 estimated EPS (based on the financial forecasts under the 9.75% regulatory settlement scenario)	$41.00 - $52.50
Stock price to 2019 estimated EPS (based on IBES)	$41.50 - $53.25

These implied value ranges were compared to the value of the merger consideration of $54.23 (based on the merger consideration of 0.6690 of a share of Dominion Energy common stock per share of SCANA common stock and a Dominion Energy common stock per share price of $81.06, which was the closing price of Dominion Energy common stock as of December 29, 2017) and to the value of the merger consideration of $55.39 (based on the merger consideration of 0.6690 of a share of Dominion Energy common stock per share of SCANA common stock and a Dominion Energy common stock per share price of $82.80, which was the 30-day intraday volume weighted average price of Dominion Energy common stock as of December 29, 2017, as reported by Bloomberg).

Discounted Cash Flow Analysis

Morgan Stanley performed a discounted cash flow analysis of SCANA, which is designed to provide an implied value of a company by calculating the present value of the estimated future unlevered cash flows and terminal year value based upon a price-to-earnings multiple applied to net income in the terminal year. Morgan Stanley calculated a range of implied equity values per share for SCANA common stock based on estimates of future cash flows for calendar years 2018 through 2022 and the terminal year (assuming, at the direction of SCANA's management, that, with respect to the financial forecasts under the 5% regulatory settlement scenario, terminal year net income grew at 2.6%, the compound annual growth rate from 2018 through 2022 for SCANA's

T

Table of Contents

net income in this scenario and, with respect to the financial forecasts under the 9.75% regulatory settlement scenario, terminal year net income grew at 1.0%, the compound annual growth rate from 2018 through 2022 for SCANA's net income in this scenario).

Morgan Stanley used estimates from the financial forecasts under the 5% regulatory settlement scenario and the 9.75% regulatory settlement scenario for purposes of the discounted cash flow analysis, as more fully described below. In performing a discounted cash flow analysis of SCANA using estimates from the financial forecasts under the 5% regulatory settlement scenario and 9.75% regulatory settlement scenario, Morgan Stanley first calculated the estimated unlevered free cash flows of SCANA and then calculated a terminal value for SCANA common stock by applying a 13.5x to 15.0x range of price-to-earnings multiples to SCANA's terminal year estimated net income per share. This terminal year price-to-earnings multiple range was derived from the ten-year average (for the ten-year period ending December 29, 2017) of stock price to the estimated next-twelve-month EPS multiples for the companies in the comparable companies analysis, and then applying the 1.5 multiple point discount, as described above with respect to the comparable companies analysis, to reflect the long-term average multiple discount at which SCANA's stock price to EPS traded as compared to the price to earnings multiples of the comparable companies. In view of the expected low rate of growth of dividends per share reflected in the SCANA management projections relative to peers, Morgan Stanley, based on its professional judgment and experience, did not consider it appropriate to assume that SCANA's stock would cease to trade at this 1.5 multiple point discount.

Unlevered free cash flows were calculated by tax-effecting earnings before interest and taxes and adding back the aggregate of depreciation and amortization, deferred taxes and other cash flow adjustments provided by management, including the change in working capital, less the sum of capital expenditures. The free cash flows and range of terminal values were then discounted to present value as of December 31, 2017 using discount rates ranging from 5.2% to 6.1%, which were chosen by Morgan Stanley based upon prevailing interest rates and Morgan Stanley's judgment of the estimated range of SCANA's weighted average cost of capital. This analysis indicated the following implied range of values per share of SCANA common stock:

T

Metric	Implied Value Per Share of SCANA Common Stock
5% regulatory settlement scenario	$53.50 - $62.25
9.75% regulatory settlement scenario	$46.75 - $54.75

These implied value ranges were compared to the value of the merger consideration of $54.23 (based on the merger consideration of 0.6690 of a share of Dominion Energy common stock per share of SCANA common stock and a Dominion Energy common stock per share price of $81.06, which was the closing price of Dominion Energy common stock as of December 29, 2017) and to the value of the merger consideration of $55.39 (based on the merger consideration of 0.6690 of a share of Dominion Energy common stock per share of SCANA common stock and a Dominion Energy common stock per share price of $82.80, which was the 30-day intraday volume weighted average price of Dominion Energy common stock as of December 29, 2017, as reported by Bloomberg).

Future Stock Price Analysis

Using estimates from the financial forecasts under the 5% regulatory settlement scenario and the 9.75% regulatory settlement scenario, Morgan Stanley performed an illustrative analysis of SCANA's potential future stock price as compared to the merger consideration. This analysis compared (i) SCANA's potential future stock price for each of the years 2018 and 2019 based on SCANA's standalone projected next-twelve month EPS using an illustrative price-to-EPS multiple range derived from historical trading analyses described below and based on Morgan Stanley's professional judgment and experience to (ii) the value of the merger consideration of $54.23 (based on the merger consideration of 0.6690 of a share of Dominion Energy common stock per share of SCANA

T

Table of Contents

common stock and a Dominion Energy common stock per share price of $81.06, which was the closing price of Dominion Energy common stock as of December 29, 2017) and the value of the merger consideration of $55.39 (based on the merger consideration of 0.6690 of a share of Dominion Energy common stock per share of SCANA common stock and a Dominion Energy common stock per share price of $82.80, which was the 30-day intraday volume weighted average price of Dominion Energy common stock as of December 29, 2017, as reported by Bloomberg).

The illustrative price to EPS multiple range selected by Morgan Stanley in this analysis was derived from the following metrics based on the closing price of SCANA common stock as of December 29, 2017:

T

- multiple to 2018 estimated EPS (13.7x), as well as a 1.5 multiple point premium and discount to such multiple (15.2x to 12.2x);

T

- average next twelve month multiple of EPS for the past five years (15.1x); and

T

- average next twelve month multiple of EPS for the past 10 years (14.0x).

This analysis indicated that the potential future value per share of SCANA common stock in all of the ranges of potential future values calculated using each of the financial forecasts under the 5% regulatory settlement scenario and the 9.75% regulatory settlement scenario described above would be lower than the value of the merger consideration on a per-share basis as of December 29, 2017. Specifically, across the range of multiples analyzed, this analysis indicated the following high and low range of implied values per share of SCANA common stock:

T

Metric	Implied Value Per Share of SCANA Common Stock*			
	2018		2019	
	Low	High	Low	High
5% regulatory settlement scenario	$40.86	$50.93	$43.01	$53.61
9.75% regulatory settlement scenario	$35.56	$44.32	$37.61	$46.87

T

* These amounts were not rounded to the nearest $0.25 in the presentation to the SCANA board.

Morgan Stanley also presented the median potential future value per share of SCANA common stock based on the ranges calculated in the analysis described above and discounted the median potential future values per share of SCANA common stock to present value using an 8.1% discount rate, which is the midpoint of SCANA's cost of equity, selected by Morgan Stanley based on the application of its professional judgment and experience, inclusive of projected dividends per share over the applicable time period discounted to present value using the same discount rate. This analysis indicated the following implied discounted median values per share of SCANA common stock:

T

Metric	Implied Value Per Share of SCANA Common Stock*	
	Discounted Median Value	
	2018	2019
5% regulatory settlement scenario	$ 44.72	$ 45.68
9.75% regulatory settlement scenario	$ 39.21	$ 40.07

T

* These amounts were not rounded to the nearest $0.25 in the presentation to the SCANA board.

Reference Data

In addition to conducting the analyses described above, Morgan Stanley reviewed the following data, which was used for reference purposes only and not as a component of its fairness analysis.

T

Table of Contents

Reference Discounted Cash Flow Analyses

For reference only and not as a component of its fairness analysis, Morgan Stanley performed additional discounted cash flow analyses of SCANA using the financial forecasts under the 3.5% regulatory settlement scenario and the 5% regulatory settlement scenario but, in each case, without applying the 1.5 multiple point discount mentioned above. Morgan Stanley calculated a range of implied equity values per share for SCANA common stock based on estimates of future cash flows for calendar years 2018 through 2022 and the terminal year (assuming at the direction of SCANA's management, that, with respect to the 3.5 % Rate Reduction Scenario, terminal year net income grew at 3.1%, the compound annual growth rate from 2018 through 2022 for SCANA's net income in this scenario and, with respect to the financial forecasts under the 5% regulatory settlement scenario, terminal year net income grew at 2.6%, the compound annual growth rate from 2018 to 2022 for SCANA's net income in this scenario).

In performing a discounted cash flow analysis of SCANA using estimates from the financial forecasts under the 3.5% regulatory settlement scenario and the 5% regulatory settlement scenario, Morgan Stanley first calculated the estimated unlevered free cash flows of SCANA and then calculated a terminal value for SCANA common stock by applying a 15.0x to 16.5x range of price to earnings multiples to SCANA's terminal year estimated net income. Although, as discussed above, Morgan Stanley, based on its professional judgment and experience, determined that application of the 1.5 multiple point discount was appropriate, it presented a discounted cash flow analysis using the financial forecasts under the 5% regulatory settlement scenario without applying such discount in order to illustrate for the SCANA board the potential impact on the implied range of values presented to the SCANA board if this historic multiple discount were considered not to be applicable in these scenarios. With respect to the discounted cash flow analysis using the financial forecasts under the 3.5% regulatory settlement scenario, Morgan Stanley did not apply the 1.5 multiple point discount because it concluded, based on its professional judgment and experience, that if the results projected by such scenario were achieved (despite the views of SCANA's management and the SCANA board that the 3.5% regulatory settlement scenario was unlikely to be achieved, as noted above), it would be reasonable to expect that SCANA common stock could trade at a multiple more consistent with the trading multiples of comparable companies. The terminal year price-to-earnings multiple range was derived from the ten-year average (for the ten-year period ending December 29, 2017) of stock price to the estimated next-twelve-month EPS multiples for the companies in the comparable companies analysis.

Unlevered free cash flows were calculated by tax-effecting earnings before interest and taxes and adding back the aggregate of depreciation and amortization, deferred taxes and other cash flow adjustments provided by management including the change in working capital less the sum of capital expenditures. The free cash flows and range of terminal values were then discounted to present value as of December 31, 2017 using discount rates ranging from 5.2% to 6.1%, which were chosen by Morgan Stanley based upon prevailing interest rates and Morgan Stanley's judgment of the estimated range of SCANA's weighted average cost of capital. This analysis indicated the following implied range of values per share of SCANA common stock:

T

Metric	Implied Value Per Share of SCANA Common Stock
3.5% regulatory settlement scenario	$64.50 - $73.75
5% regulatory settlement scenario	$58.25 - $67.25

These implied value ranges were compared to the value of the merger consideration of $54.23 (based on the merger consideration of 0.6690 of a share of Dominion Energy common stock per share of SCANA common stock and a Dominion Energy common stock per share price of $81.06, which was the closing price of Dominion Energy common stock as of December 29, 2017) and to the value of the merger consideration of $55.39 (based on the merger consideration of 0.6690 of a share of Dominion Energy common stock per share of SCANA common stock and a Dominion Energy common stock per share price of $82.80, which was the 30-day intraday volume weighted average price of Dominion Energy common stock as of December 29, 2017, as reported by Bloomberg).

T

Table of Contents

Precedent Transactions Analysis

For reference only and not as a component of its fairness analysis, Morgan Stanley performed a precedent transactions analysis, which is designed to imply a value of a company based on publicly available financial information of selected transactions that share some characteristics with the merger.

Precedent Transaction Premiums. For reference only and not as a component of its fairness analysis, Morgan Stanley reviewed the premiums paid by acquirors in selected transactions in which regulated electric and gas and electric-only utilities were the target between January 1, 2014 and December 29, 2017, which was the last trading day prior to the date Morgan Stanley rendered its opinion, and that Morgan Stanley judged to be similar in certain respects to the merger or aspects thereof based on Morgan Stanley's professional judgment and experience.

For each transaction included in this analysis, Morgan Stanley noted the implied premium to the target share price one day prior to announcement, except where the share price had been affected by pre-announcement events, in which case the unaffected target share price was used. The following is a list of the transactions reviewed:

T

Date Announced	Acquiror	Target
April 30, 2014	Exelon Corporation	Pepco Holdings, Inc.
June 23, 2014	Wisconsin Energy Corporation	Integrys Energy Group, Inc.
October 20, 2014	Macquarie (consortium)	Cleco Corp.
February 26, 2015	Iberdrola, S.A.	UIL Holdings Corporation
September 4, 2015	Emera Incorporated	TECO Energy, Inc.
February 9, 2016	Fortis Inc.	ITC Holdings Corp.
February 9, 2016	Algonquin Power & Utilities Corp.	The Empire District Electric Company
July 10, 2017	Great Plains Energy Incorporated	Westar Energy, Inc.
July 19, 2017	Hydro One Ltd.	Avista Corp.

Based on the foregoing results and Morgan Stanley's professional judgment and experience, Morgan Stanley applied the range of premiums of 14.7% to 50.1% for the precedent transactions to the closing price of the shares of SCANA common stock of $39.78 as of December 29, 2017 to derive a range of implied equity values per share. The results of the analysis were as indicated in the following table:

T

Precedent Transactions Premiums Range	Implied Value Per Share of SCANA Common Stock
14.7% - 50.1%	$45.75 - $59.75

This implied value range was compared to the value of the merger consideration of $54.23 (based on the merger consideration of 0.6690 of a share of Dominion Energy common stock per share of SCANA common stock and a Dominion Energy common stock per share price of $81.06, which was the closing price of Dominion Energy common stock as of December 29, 2017) and as compared to the value of the merger consideration of $55.39 (based on the merger consideration of 0.6690 of a share of Dominion Energy common stock per share of SCANA common stock and a Dominion Energy common stock per share price of $82.80, which was the 30-day intraday volume weighted average price of Dominion Energy common stock as of December 29, 2017, as reported by Bloomberg).

Precedent Transaction Multiples. For reference only and not as a component of its fairness analysis, Morgan Stanley observed the range of stock prices to estimated one-year-forward EPS multiples for each of the selected precedent transactions as 20.1x to 27.2x. Morgan Stanley applied these multiples to SCANA's estimated 2019

T

Table of Contents

EPS based on the financial forecasts under the 5% regulatory settlement scenario and 9.75% regulatory settlement scenario. Morgan Stanley then calculated implied equity value per share of SCANA common stock:

T

Metric	Stock Price / 2019 Estimated EPS Multiple Range	Implied Present Value Per Share of SCANA Common Stock
5% regulatory settlement scenario	20.1x to 27.2x	\$62.50 - \$84.50
9.75% regulatory settlement scenario	20.1x to 27.2x	\$54.50 - \$73.50

These implied value ranges were compared to the value of the merger consideration of \$54.23 (based on the merger consideration of 0.6690 of a share of Dominion Energy common stock per share of SCANA common stock and a Dominion Energy common stock per share price of \$81.06, which was the closing price of Dominion Energy common stock as of December 29, 2017) and as compared to the value of the merger consideration of \$55.39 (based on the merger consideration of 0.6690 of a share of Dominion Energy common stock per share of SCANA common stock and a Dominion Energy common stock per share price of \$82.80, which was the 30-day intraday volume weighted average price of Dominion Energy common stock as of December 29, 2017, as reported by Bloomberg).

No company or transaction utilized in the precedent transactions analysis is identical to SCANA or the merger, respectively. In evaluating the precedent transactions, Morgan Stanley made judgments and assumptions with regard to industry performance, general business, market and financial conditions and other matters, which are beyond SCANA's control, including, among other things, the impact of competition on SCANA's business or the industry generally, regulatory changes, industry growth and the absence of any adverse material change in SCANA's financial condition or the industry or in the financial markets in general, which could affect the aggregate value, equity value and premium paid of the transactions to which they are being compared.

Equity Research Analysts' Price Targets. For reference only and not as a component of its fairness analysis, Morgan Stanley reviewed and analyzed the analyst price targets for SCANA common stock, of \$38.50 to \$60.00 as of December 29, 2017, which was the last trading day prior to the date Morgan Stanley rendered its opinion. Morgan Stanley then discounted the range of analyst price targets for SCANA common stock to present value using a 8.2% discount rate, which is the midpoint of SCANA's cost of equity, selected by Morgan Stanley based on the application of its professional judgment and experience, which produced an implied equity value per share range of SCANA common stock of \$35.50 to \$55.50. The public market trading price targets published by equity research analysts do not necessarily reflect current market trading prices for SCANA common stock, and these estimates are subject to uncertainties.

Historical Trading Range. For reference only and not as a component of its fairness analysis, Morgan Stanley reviewed the historical trading range of shares of SCANA common stock for the last 6 months and the last 3 months, in each case ending on December 29, 2017, and observed a range of \$37.50 to \$69.75, for the last 6 months, and a range of \$37.50 to \$56.25, for the last 3 months.

Dominion Energy Common Stock

Morgan Stanley performed only limited financial analyses related to the value of Dominion Energy common stock, for reference only and not as a component of its fairness analysis. Morgan Stanley observed the trading performance of Dominion Energy common stock for the two-year period ended December 29, 2017 as well as the commentary from selected equity research analysts with respect to Dominion Energy common stock and the observed trading liquidity of Dominion Energy common stock as compared to the number of shares of Dominion Energy common stock to be issued in the merger. As noted above, Morgan Stanley also reviewed, for reference only and not as a component of its fairness analysis, the pro forma impact of the merger on Dominion Energy's earnings per share, cash flow, consolidated capitalization and certain financial ratios. After discussion of these factors with the SCANA board, Morgan Stanley was not requested to and did not perform additional financial analyses to assess the value of Dominion Energy common stock.

T

Table of Contents

General

In connection with the review of the merger by the SCANA board, Morgan Stanley performed a variety of financial and comparative analyses for purposes of rendering its opinion. The preparation of a financial opinion is a complex process and is not necessarily susceptible to a partial analysis or summary description. In arriving at its opinion, Morgan Stanley considered the results of all of its analyses as a whole and did not attribute any particular weight to any analysis or factor it considered. Morgan Stanley believes that selecting any portion of its analyses, without considering all analyses as a whole, would create an incomplete view of the process underlying its analyses and opinion. In addition, Morgan Stanley may have given various analyses and factors more or less weight than other analyses and factors, and may have deemed various assumptions more or less probable than other assumptions. As a result, the ranges of valuations resulting from any particular analysis described above should not be taken to be Morgan Stanley's view of the actual value of SCANA or Dominion Energy.

In performing its analyses, Morgan Stanley made judgments and assumptions with regard to industry performance, general business, regulatory, economic, market and financial conditions and other matters, which are beyond the control of SCANA and Dominion Energy. These include, among other things, industry growth, and the absence of any adverse material change in the financial condition and prospects of SCANA, Dominion Energy and the industry, and in the financial markets in general. Any estimates contained in Morgan Stanley's analyses are not necessarily indicative of future results or actual values, which may be significantly more or less favorable than those suggested by such estimates.

Morgan Stanley conducted the analyses described above solely as part of its analysis of the fairness, from a financial point of view, of the merger consideration pursuant to the merger agreement to the SCANA shareholders (other than the holders of the cancelled shares), and in connection with the delivery of its opinion, dated January 2, 2018, to the SCANA board. Morgan Stanley's opinion did not address any other aspect of the merger or related transactions. The merger consideration pursuant to the merger agreement was determined through arm's-length negotiations between SCANA and Dominion Energy and the merger agreement was adopted by the SCANA board. Morgan Stanley acted as financial advisor to the SCANA board during these negotiations but did not, however, recommend any specific exchange ratio for purposes of determining the merger consideration to SCANA or the SCANA board, nor opine that any specific exchange ratio constituted the only appropriate exchange ratio for the merger.

Morgan Stanley's opinion and its presentation to the SCANA board was one of many factors taken into consideration by the SCANA board in deciding to adopt the merger agreement and approve the transactions contemplated thereby and to recommend the approval of the merger agreement by the SCANA shareholders. Consequently, the analyses as described above should not be viewed as determinative of the opinion of the SCANA board with respect to the merger consideration pursuant to the merger agreement or of whether the SCANA board would have been willing to agree to a different merger consideration. Morgan Stanley's opinion was approved by a committee of Morgan Stanley investment banking and other professionals in accordance with its customary practice.

SCANA retained Morgan Stanley based on Morgan Stanley's qualifications, experience and expertise and its familiarity with SCANA. Morgan Stanley is a global financial services firm engaged in the securities, investment management and individual wealth management businesses. Its securities business is engaged in securities underwriting, trading and brokerage activities, foreign exchange, commodities and derivatives trading, and prime brokerage, as well as providing investment banking, financing and financial advisory services. Morgan Stanley, its affiliates, directors and officers may at any time invest on a principal basis or manage funds that invest, hold long or short positions, finance positions, and may trade or otherwise structure and effect transactions, for their own account or the accounts of its customers, in debt or equity securities or loans of SCANA, Dominion Energy or any other company, or any currency or commodity, that may be involved in the merger, or any related derivative instrument.
T

Table of Contents

Under the terms of its engagement letter dated October 18, 2017, Morgan Stanley provided SCANA financial advisory services and a financial opinion, described in this section and attached to this proxy statement/prospectus as Annex B, in connection with the merger, and SCANA has agreed to pay Morgan Stanley a fee of approximately $27 million for its financial advisory services, $5 million of which was paid upon delivery of Morgan Stanley's opinion, 25% of which is contingent upon SCANA shareholder approval of the merger proposal and the remainder of which is contingent upon closing of the merger. In addition, SCANA may, in its sole discretion, pay Morgan Stanley an incremental incentive fee to be paid upon closing of the merger. SCANA has also agreed to reimburse Morgan Stanley for its reasonable out-of-pocket expenses incurred from time to time in connection with this engagement. In addition, SCANA has agreed to indemnify Morgan Stanley and its affiliates, its and their respective officers, directors, employees and agents and each other person, if any, controlling Morgan Stanley or any of its affiliates, against any losses, claims, damages or liabilities, relating to, arising out of or in connection with Morgan Stanley's engagement and to reimburse certain expenses relating to such indemnity.

In the two (2) years prior to the date of its opinion, Morgan Stanley has provided financial advisory and financing services for SCANA and has received fees in connection with such services in the range of $0 to $1 million. In addition, in the two (2) years prior to the date of its opinion, Morgan Stanley has provided financing services to Dominion Energy and has received fees in connection with such services in the range of $10 million to $11 million. Morgan Stanley may also seek to provide financial advisory and financing services to SCANA, Dominion Energy and their respective affiliates in the future and would expect to receive fees for the rendering of these services.

Opinion of RBC Capital Markets, LLC

SCANA engaged RBC Capital Markets as a financial advisor in connection with the merger. As part of this engagement, the SCANA board requested that RBC Capital Markets evaluate the fairness, from a financial point of view, of the merger consideration to be received by holders of SCANA common stock pursuant to the merger agreement. At a January 2, 2018 meeting of the SCANA board held to evaluate the merger, RBC Capital Markets rendered an oral opinion, confirmed by delivery of a written opinion dated January 2, 2018, to the SCANA board to the effect that, as of that date and based on and subject to the procedures followed, assumptions made, factors considered and qualifications and limitations described in the opinion, the merger consideration to be received by holders of SCANA common stock pursuant to the merger agreement was fair, from a financial point of view, to such holders. The full text of RBC Capital Markets' written opinion, dated January 2, 2018, which is attached as Annex C to this proxy statement/prospectus and incorporated in this document by reference, sets forth, among other things, the procedures followed, assumptions made, factors considered and qualifications and limitations on the review undertaken by RBC Capital Markets in connection with its opinion, as more fully described in this section. The following summary of RBC Capital Markets' opinion is qualified in its entirety by reference to the full text of the opinion. **RBC Capital Markets delivered its opinion to the SCANA board for the benefit, information and assistance of the SCANA board (in its capacity as such) in connection with of its evaluation of the merger. RBC Capital Markets' opinion addressed only the fairness, from a financial point of view and as of the date of such opinion, of the merger consideration (to the extent expressly specified in such opinion) and did not address any other aspect of the merger. RBC Capital Markets' opinion also did not address the underlying business decision of SCANA to engage in the merger or the relative merits of the merger compared to any alternative business strategy or transaction that might be available to SCANA or in which SCANA might engage. RBC Capital Markets does not express any opinion and does not make any recommendation to any shareholder as to how such shareholder should vote or act with respect to the merger or any proposal to be voted upon in connection with the merger or otherwise.**

For purposes of rendering its opinion, RBC Capital Markets undertook such review, inquiries and analyses as it deemed necessary or appropriate under the circumstances and, among other things:

T

- reviewed the financial terms of a draft, dated January 2, 2018, of the merger agreement;

T

Table of Contents

- reviewed certain publicly available financial and other information, and certain historical operating data, relating to SCANA and Dominion Energy made available to RBC Capital Markets from published sources and internal records of SCANA and Dominion Energy, respectively;
- reviewed certain financial projections and other estimates and data (including as to certain tax attributes) relating to SCANA prepared by the management of SCANA based on alternative regulatory settlement cases, and reviewed certain financial projections and other estimates and data relating to Dominion Energy prepared by the management of Dominion Energy, which projections and other estimates and data RBC Capital Markets was directed by SCANA to utilize for purposes of its analyses and opinion;
- conducted discussions with members of the senior managements of SCANA and Dominion Energy with respect to the respective businesses, prospects and financial outlook of SCANA and Dominion Energy;
- reviewed the reported prices and trading activity for shares of SCANA common stock and Dominion Energy common stock;
- compared certain financial metrics of SCANA and Dominion Energy with those of selected publicly traded companies in lines of businesses that RBC Capital Markets considered generally relevant in evaluating SCANA and Dominion Energy, respectively;
- reviewed certain potential pro forma financial effects of the merger on Dominion Energy; and
- considered other information and performed other studies and analyses as RBC Capital Markets deemed appropriate.

In rendering its opinion, RBC Capital Markets assumed and relied upon the accuracy and completeness of all information that was reviewed by RBC Capital Markets, including all financial, legal, tax, accounting, operating and other information provided to or discussed with RBC Capital Markets by or on behalf of SCANA or Dominion Energy (including, without limitation, financial statements and related notes), and upon the assurances of the respective managements and other representatives of SCANA and Dominion Energy that they were not aware of any relevant information that was omitted or that remained undisclosed to RBC Capital Markets. RBC Capital Markets did not assume responsibility for independently verifying and it did not independently verify such information. RBC Capital Markets also assumed that the financial projections and other estimates and data (including potential tax attributes relating to SCANA) that RBC Capital Markets was directed to utilize in its analyses were reasonably prepared on bases reflecting the best currently available estimates and good faith judgments of the respective managements of SCANA and Dominion Energy, as the case may be, as to the future financial performance of, and were a reasonable basis upon which to evaluate, SCANA under the alternative regulatory settlement cases reflected therein, Dominion Energy, the potential pro forma effects of the merger and the other matters covered thereby. RBC Capital Markets expressed no opinion as to any such financial projections and other estimates and data or the assumptions upon which they were based. RBC Capital Markets relied upon the assessments of the managements of SCANA and Dominion Energy as to, among other things, (i) the potential impact on SCANA and Dominion Energy of market, competitive, seasonal, and other trends and developments in and prospects for, and governmental, regulatory and legislative matters relating to or otherwise affecting, the utility, power and energy industries and the sectors of such industries and geographic regions in which SCANA and Dominion Energy operate (including, without limitation, with respect to future commodity prices and availability, which are subject to significant volatility, existing, planned and/or abandoned infrastructure and other capital projects, including the construction and abandonment of the NND project, and pending and future rate cases, cost recovery and other regulatory proceedings and determinations) and assumptions of the managements of SCANA and Dominion Energy, respectively, as to such matters which, if different than as provided to RBC Capital Markets, could have a meaningful impact on RBC Capital Markets' analyses or opinion, (ii) existing and future relationships, agreements and arrangements with, and the ability to attract, retain and/or replace, key employees, customers, suppliers, contractors and subcontractors and other commercial relationships of SCANA and Dominion Energy, and (iii) the ability to integrate the operations of

Table of Contents

SCANA and Dominion Energy. RBC Capital Markets assumed that there would be no developments with respect to any of the foregoing that would have an adverse effect on SCANA, Dominion Energy or the merger or that otherwise would be meaningful in any respect to its analyses or opinion.

In connection with its opinion, RBC Capital Markets did not assume any responsibility to perform, and it did not perform, an independent valuation or appraisal of any of the assets or liabilities (contingent, off-balance sheet, accrued, derivative or otherwise) of or relating to SCANA, Dominion Energy or any other entity and RBC Capital Markets was not furnished with any such valuations or appraisals. RBC Capital Markets expressed no view or opinion as to the potential impact on SCANA, Dominion Energy or any other entity of any pending or potential litigation, claims or governmental, regulatory or other proceedings or investigations. RBC Capital Markets did not assume any obligation to conduct, and it did not conduct, any physical inspection of the properties or facilities of SCANA, Dominion Energy or any other entity. RBC Capital Markets did not evaluate the solvency or fair value of SCANA, Dominion Energy or any other entity under any state, federal or other laws relating to bankruptcy, insolvency or similar matters. RBC Capital Markets assumed that the merger would be completed in accordance with the terms of the merger agreement and in compliance with all applicable laws, documents and other requirements, without waiver, modification or amendment of any material term, condition or agreement, and that, in the course of obtaining the necessary governmental, regulatory or third-party approvals, consents, releases, waivers and agreements for the merger, no delay, limitation, restriction or condition would be imposed or occur, including any divestiture or other requirements, that would have an adverse effect on SCANA, Dominion Energy or the merger or that otherwise would be meaningful in any respect to its analyses or opinion. RBC Capital Markets also assumed that the merger would qualify as a reorganization within the meaning of Section 368(a) of the Code for U.S. federal income tax purposes. In addition, RBC Capital Markets assumed that the final executed merger agreement would not differ, in any respect meaningful to its analyses or opinion, from the draft that RBC Capital Markets reviewed.

RBC Capital Markets' opinion spoke only as of the date of the opinion, was based on conditions as they existed and information supplied or reviewed as of the date of the opinion, and was without regard to any market, economic, financial, legal, regulatory or other circumstances or event of any kind or nature which may exist or occur after such date. RBC Capital Markets did not undertake and has no obligation to reaffirm, revise or update its opinion or otherwise comment upon events occurring after the date of its opinion with respect to its opinion. RBC Capital Markets did not express any opinion as to the actual value of Dominion Energy common stock when issued in connection with the merger or the price or range of prices at which SCANA common stock, Dominion Energy common stock or any other securities of SCANA or Dominion Energy may trade or otherwise be transferable at any time, including following announcement or completion of the merger. As the SCANA board was aware, the credit, financial and stock markets, and the industries in which SCANA and Dominion Energy operate, have experienced and continue to experience volatility and RBC Capital Markets expressed no opinion or view as to any potential effects of such volatility on SCANA or Dominion Energy (or their respective businesses) or the merger.

RBC Capital Markets' opinion addressed the fairness, from a financial point of view and as of the date of the opinion, of the merger consideration (to the extent expressly specified in the opinion), without regard to individual circumstances of specific holders that may distinguish such holders or the securities of SCANA held by such holders. RBC Capital Markets' opinion did not in any way address any other terms, conditions, implications or other aspects of the merger or the merger agreement, including, without limitation, the form or structure of the merger, or any other agreement, arrangement or understanding to be entered into in connection with or contemplated by the merger or otherwise. RBC Capital Markets did not express any opinion or view with respect to, and RBC Capital Markets relied upon the assessments of SCANA and SCANA's representatives regarding, legal, regulatory, tax, accounting and similar matters (including changes resulting from, and the impact of, the recent U.S. tax reform), as to which RBC Capital Markets understood that SCANA obtained such advice as SCANA deemed necessary from qualified professionals. Further, in rendering its opinion, RBC Capital Markets did not express any view on, and its opinion did not address, the fairness of the amount or nature of the compensation (if any) or other consideration to any officers, directors or employees of any party, or class of such

Table of Contents

persons, relative to the merger consideration or otherwise. In connection with its engagement, RBC Capital Markets was not requested to, and it did not, undertake a third-party solicitation process on SCANA's behalf with respect to the acquisition of all or a part of SCANA. The issuance of RBC Capital Markets' opinion was approved by RBC Capital Markets' fairness opinion committee.

In preparing its opinion to the SCANA board, RBC Capital Markets performed various financial and comparative analyses, including those described below. The summary below of RBC Capital Markets' material financial analyses provided to the SCANA board in connection with RBC Capital Markets' opinion is not a comprehensive description of all analyses undertaken or factors considered by RBC Capital Markets in connection with its opinion. The preparation of a financial opinion is a complex analytical process involving various determinations as to the most appropriate and relevant methods of financial analysis and the application of those methods to the particular circumstances and, therefore, a financial opinion is not readily susceptible to partial analysis or summary description.

In arriving at its opinion, RBC Capital Markets employed several analytical methodologies and no one method of analysis should be regarded as critical to the overall conclusion reached by RBC Capital Markets. Each analytical technique has inherent strengths and weaknesses, and the nature of the available information may further affect the value of particular techniques. The overall conclusion reached by RBC Capital Markets was based on all analyses and factors presented, taken as a whole, and also on application of RBC Capital Markets' experience and judgment. Such conclusion may have involved significant elements of subjective judgment and qualitative analysis and no opinion was given as to the value or merit standing alone of any one or more portions of such analyses or factors.

In performing its analyses, RBC Capital Markets considered industry performance, general business and economic conditions and other matters, many of which are beyond the control of SCANA and Dominion Energy. The estimates of the future performance of SCANA and Dominion Energy in or underlying RBC Capital Markets' analyses are not necessarily indicative of actual values or actual future results, which may be significantly more or less favorable than those estimates or those suggested by RBC Capital Markets' analyses. The analyses do not purport to be appraisals or to reflect the prices at which a company or business might actually be sold or acquired or the prices at which any securities have traded or may trade at any time in the future. Accordingly, the estimates used in, and the ranges of valuations resulting from, any particular analysis described below are inherently subject to substantial uncertainty and should not be taken as RBC Capital Markets' view of the actual value of SCANA or Dominion Energy.

The merger consideration was determined through negotiations between SCANA and Dominion Energy and the decision of SCANA to enter into the merger agreement was solely that of the SCANA board. RBC Capital Markets' opinion and analyses were only one of many factors considered by the SCANA board in its evaluation of the merger and should not be viewed as determinative of the views of the SCANA board, SCANA's management or any other party with respect to the merger or the merger consideration to be received by holders of SCANA common stock pursuant to the merger agreement.

Financial Analyses

The summary of the financial analyses described below under this heading "—*Financial Analyses*" is a summary of the material financial analyses provided by RBC Capital Markets to the SCANA board in connection with RBC Capital Markets' opinion, dated January 2, 2018. **The financial analyses summarized below include information presented in tabular format. In order to fully understand the financial analyses performed by RBC Capital Markets, the tables must be read together with the text of each summary. The tables alone do not constitute a complete description of the financial analyses. Selecting portions of RBC Capital Markets' financial analyses or factors considered or focusing on the data set forth in the tables below without considering all analyses or factors or the full narrative description of such analyses or factors, including the methodologies and assumptions underlying the analyses, could create a misleading or incomplete view**
T

Table of Contents

of RBC Capital Markets' financial analyses. In RBC Capital Markets' opinion, the term merger consideration is defined as the implied per share value payable in the merger utilizing the 0.6690 exchange ratio and, for purposes of RBC Capital Markets' financial analyses described below performed in connection with such opinion, the implied value was $54.23 per share based on the 0.6690 exchange ratio and the closing price of Dominion Energy common stock on December 29, 2017 (the last trading day prior to the date of RBC Capital Markets' opinion to the SCANA board), which implied per share amount is referred to below as the implied per share merger consideration. Financial data utilized for SCANA in the financial analyses described below, to the extent based on internal financial forecasts and estimates of SCANA's management, were based on two potential alternative regulatory settlement cases, referred to individually as the 5% regulatory settlement case and the 9.75% regulatory settlement case, respectively, and collectively as the SCANA forecasts, that SCANA directed RBC Capital Markets to use and rely upon for purposes of its analyses and opinion. Financial data utilized for Dominion Energy in the financial analyses described below, to the extent based on internal financial forecasts and estimates of management, were based on financial forecasts and other information and data relating to Dominion Energy provided to or discussed with RBC Capital Markets by the management of Dominion Energy, which we refer to as the Dominion Energy forecasts.

SCANA Financial Analyses

Selected Public Companies Analysis. RBC Capital Markets performed a selected public companies analysis in which RBC Capital Markets reviewed certain financial and stock market information of SCANA and the following nine selected companies that RBC Capital Markets considered generally relevant as publicly traded companies with predominantly regulated integrated utility operations and over $5 billion in market capitalization, which we collectively refer to as the SCANA selected companies:

- Alliant Energy Corporation
- Ameren Corporation
- American Electric Power Company, Inc.
- CMS Energy Corporation
- Duke Energy Corporation
- Pinnacle West Capital Corporation
- The Southern Company
- WEC Energy Group, Inc.
- Xcel Energy Inc.

In its selected public companies analysis of SCANA, RBC Capital Markets reviewed, among other things, closing stock prices on December 29, 2017 as a multiple of calendar year 2019 estimated earnings per share, which we refer to as EPS. Financial data of the SCANA selected companies was based on publicly available research analysts' estimates and other publicly available information. Financial data of SCANA was based on publicly available research analysts' estimates, other publicly available information and the SCANA forecasts.

Table of Contents

The overall low to high calendar year 2019 estimated EPS multiples observed for the SCANA selected companies were 15.4x to 19.2x (with a mean of 18.0x and a median of 18.5x). RBC Capital Markets also observed that the calendar year 2019 estimated EPS multiple for SCANA was 13.3x (based on publicly available research analysts' estimates). RBC Capital Markets then applied a selected range of calendar year 2019 estimated EPS multiples of 13.3x to 18.5x to corresponding data of SCANA based on the SCANA forecasts. This analysis indicated the following approximate implied per share equity value reference ranges for SCANA, as compared to the implied per share merger consideration:

T

Approximate Implied Per Share Equity Value Reference Ranges Based on:		Implied Per Share Merger Consideration
5% Regulatory Settlement Case	9.75% Regulatory Settlement Case	
$44.55 – $62.17	$38.77 – $54.11	$54.23

No company used in these analyses is identical to SCANA. Accordingly, an evaluation of the results of these analyses is not entirely mathematical. Rather, these analyses involve complex considerations and judgments concerning differences in financial and operating characteristics and other factors that could affect the public trading or other values of the companies to which SCANA was compared.

Discounted Cash Flow Analysis. RBC Capital Markets performed a discounted a cash flow analysis of SCANA by calculating the estimated present values of the standalone unlevered, after-tax free cash flows that SCANA was forecasted to generate during the fiscal years ending December 31, 2018 through December 31, 2021 based on the SCANA forecasts. RBC Capital Markets calculated terminal values for SCANA at the end of 2021 by applying to the terminal year 2022 estimated net income of SCANA a selected range of one-year forward EPS multiples of 14.2x to 16.9x. The unlevered, after-tax free cash flows and terminal values were then discounted to present value (as of December 31, 2017) using a selected discount rate range of 5.10% to 6.10%. This analysis indicated the following approximate implied per share equity value reference ranges for SCANA, as compared to the implied per share merger consideration:

T

Approximate Implied Per Share Equity Value Reference Ranges Based on:		Implied Per Share Merger Consideration
5% Regulatory Settlement Case	9.75% Regulatory Settlement Case	
$52.59 – $65.51	$47.24 – $58.89	$54.23

Dominion Energy Financial Analysis

Selected Public Companies Analysis. RBC Capital Markets performed a selected public companies analysis in which RBC Capital Markets reviewed certain financial and stock market information of Dominion Energy and the following five selected companies that RBC Capital Markets considered generally relevant as publicly traded diversified, integrated utilities with over $10 billion in market capitalization, which we collectively refer to as the Dominion Energy selected companies:

T
- Avangrid, Inc.

T
- CenterPoint Energy, Inc.

T
- DTE Energy Company

T
- NextEra Energy, Inc.

T
- Sempra Energy

In its selected public companies analysis of Dominion Energy, RBC Capital Markets reviewed, among other things, closing stock prices on December 29, 2017 as a multiple of calendar years 2018 and 2019 estimated EPS. Financial data of the Dominion Energy selected companies was based on publicly available research analysts' estimates and other publicly available information. Financial data of Dominion Energy was based on publicly available information and the Dominion Energy forecasts.

T

Table of Contents

The overall low to high calendar year 2018 estimated EPS and calendar year 2019 estimated EPS multiples observed for the Dominion Energy selected companies were 19.3x to 21.5x (with a mean of 20.2x and a median of 19.8x) and 16.1x to 20.1x (with a mean of 18.5x and a median of 18.7x), respectively. RBC Capital Markets also observed that the calendar year 2018 estimated EPS and calendar year 2019 estimated EPS multiples for Dominion Energy were 20.1x and 19.0x, respectively (based on publicly available research analysts' estimates). RBC Capital Markets then applied selected ranges of calendar year 2018 estimated EPS and calendar year 2019 estimated EPS multiples of 19.3x to 21.5x and 16.1x to 20.1x, respectively, to corresponding data of Dominion Energy based on the Dominion Energy forecasts. This analysis indicated the following approximate implied per share equity value reference ranges for Dominion Energy, as compared to the per share closing price of Dominion Energy common stock on December 29, 2017:

T

Approximate Implied Per Share Equity Value Reference Ranges Based on:		Dominion Energy Per Share Closing Stock Price on December 29, 2017
CY2018E EPS	CY2019E EPS	
$80.18 – $89.59	$68.49 – $85.50	$81.06

No company used in these analyses is identical to Dominion Energy. Accordingly, an evaluation of the results of these analyses is not entirely mathematical. Rather, these analyses involve complex considerations and judgments concerning differences in financial and operating characteristics and other factors that could affect the public trading or other values of the companies to which Dominion Energy was compared.

Certain Additional Information

RBC Capital Markets observed certain factors that were not considered part of RBC Capital Markets' financial analyses with respect to its opinion but were referenced for informational purposes, including, among other things, the following:

T

- the historical trading performance of SCANA common stock and Dominion Energy common stock during the 52-week period ended December 29, 2017, which indicated low and high closing prices during such 52-week period of approximately $37.39 and $73.61 per share for SCANA common stock and approximately $71.68 and $84.91 per share for Dominion Energy common stock;

T

- publicly available research analysts' forward stock price targets for SCANA common stock and Dominion Energy common stock, discounted to present value using discount rate ranges of 6.40% to 7.40% and 5.40% to 6.40%, respectively, which indicated target stock price ranges of approximately $36.01 to $56.13 per share for SCANA common stock and approximately $72.71 to $84.99 per share for Dominion Energy common stock.

Miscellaneous

SCANA has agreed to pay RBC Capital Markets for its services as a financial advisor an aggregate fee estimated to be approximately $14 million, of which $5 million was payable upon delivery of RBC Capital Markets' opinion, 25% is payable upon receipt of approval of the merger by SCANA shareholders and the balance is contingent upon completion of the merger. RBC Capital Markets also may be entitled to an incremental incentive fee (the amount of which has not yet been determined) payable, in SCANA's sole discretion, upon completion of the merger. SCANA also has agreed to reimburse RBC Capital Markets for expenses incurred in connection with RBC Capital Markets' services and to indemnify RBC Capital Markets and related persons against certain liabilities arising out of RBC Capital Markets' engagement.

As the SCANA board was aware, RBC Capital Markets and certain of its affiliates in the past have provided, currently are providing and in the future may provide investment banking and commercial banking services to SCANA and/or its affiliates unrelated to the merger, for which services RBC Capital Markets and its affiliates have received and expect to receive customary compensation, including, during the two-year period

T

Table of Contents

prior to the date of RBC Capital Markets' opinion, having acted or acting as a lender under certain credit facilities of SCANA. During such two-year period, RBC Capital Markets and such affiliates received aggregate fees for such commercial banking services described above of approximately $0.5 million from SCANA. As the SCANA board also was aware, RBC Capital Markets and certain of its affiliates in the past have provided, currently are providing and in the future may provide investment banking and commercial banking services to Dominion Energy and/or its affiliates, for which services RBC Capital Markets and its affiliates have received or expect to receive customary compensation, including, during the two-year period prior to the date of RBC Capital Markets' opinion, having acted or acting as (i) joint lead manager or joint book-running manager for certain debt and equity offerings of Dominion Energy and certain of its affiliates in 2016 and 2017 and (ii) joint lead arranger for, and as a lender under, certain bridge and other credit facilities of Dominion Energy and certain of its affiliates. During such two-year period, RBC Capital Markets and such affiliates received aggregate fees for such investment banking and commercial banking services of approximately $24 million from Dominion Energy and certain of its affiliates.

RBC Capital Markets, as part of its investment banking services, is regularly engaged in the valuation of businesses and their securities in connection with mergers and acquisitions, corporate restructurings, underwritings, secondary distributions of listed and unlisted securities, private placements and valuations for corporate and other purposes. In the ordinary course of business, RBC Capital Markets and/or certain of its affiliates may act as a market maker and broker in the publicly traded securities of SCANA, Dominion Energy and/or other entities involved in the merger or their respective affiliates and receive customary compensation in connection therewith, and may also actively trade securities of SCANA, Dominion Energy and/or other entities involved in the merger or their respective affiliates for RBC Capital Markets' or its affiliates' account or for the account of customers and, accordingly, RBC Capital Markets and its affiliates may hold a long or short position in such securities.

RBC Capital Markets is an internationally recognized investment banking firm which is regularly engaged in providing financial advisory services in connection with mergers and acquisitions. SCANA selected RBC Capital Markets as SCANA's financial advisor in connection with the merger on the basis of RBC Capital Markets' experience in similar transactions, reputation in the investment community and familiarity with SCANA and its business.

Directors and Management of Dominion Energy After the Merger

Upon completion of the merger, the board of directors and executive officers of Dominion Energy are expected to remain unchanged. Pursuant to the terms of the merger agreement, as soon as practical after completion of the merger, the Dominion Energy board intends to appoint a mutually agreeable current member of the SCANA board or SCANA's executive management to serve on the Dominion Energy board. For information on Dominion Energy's current directors and executive officers, please see Dominion Energy's proxy statement dated March 20, 2017. See the section entitled "*Where You Can Find More Information*" beginning on page 136 of this proxy statement/prospectus.

U.S. Federal Income Tax Consequences of the Merger

The following is a general discussion of the U.S. federal income tax consequences of the merger to "U.S. holders" (as defined below) of SCANA common stock that receive shares of Dominion Energy common stock in exchange for their shares of SCANA common stock in the merger. The following discussion is based upon the Code, the U.S. Treasury regulations promulgated thereunder and judicial and administrative authorities, rulings and decisions, all as in effect as of the date of this proxy statement/prospectus. These authorities may change, possibly with retroactive effect, and any such change could affect the accuracy of the statements and conclusions set forth in this discussion. This discussion does not address any tax consequences arising under the unearned income Medicare contribution tax pursuant to the Health Care and Education Reconciliation Act of 2010, nor does it address any tax consequences arising under the laws of any state, local or foreign jurisdiction, or under any U.S. federal laws other than those pertaining to the income tax.
T

Table of Contents

The following discussion applies only to U.S. holders of shares of SCANA common stock who hold such shares as capital assets within the meaning of Section 1221 of the Code (generally, property held for investment). Further, this discussion does not purport to consider all aspects of U.S. federal income taxation that might be relevant to U.S. holders in light of their particular circumstances and does not apply to U.S. holders subject to special treatment under the U.S. federal income tax laws (such as, for example, dealers or brokers in securities, commodities or foreign currencies, traders in securities that elect to apply a mark-to-market method of accounting, banks and certain other financial institutions, insurance companies, mutual funds, tax-exempt organizations, holders subject to the alternative minimum tax provisions of the Code, partnerships, S corporations or other pass-through entities or investors in partnerships, regulated investment companies, real estate investment trusts, controlled foreign corporations, passive foreign investment companies, former citizens or residents of the United States, U.S. expatriates, holders whose functional currency is not the U.S. dollar, holders who hold shares of SCANA common stock as part of a hedge, straddle, constructive sale or conversion transaction or other integrated investment, holders who acquired SCANA common stock pursuant to the exercise of employee stock options, through a tax qualified retirement plan or otherwise as compensation or holders who actually or constructively own more than 5% of SCANA common stock).

For purposes of this discussion, the term “U.S. holder” means a beneficial owner of SCANA common stock that is for U.S. federal income tax purposes (i) an individual citizen or resident of the United States, (ii) a corporation, or entity treated as a corporation for U.S. federal income tax purposes, organized in or under the laws of the United States or any state thereof or the District of Columbia, (iii) a trust if (a) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or (b) such trust has made a valid election to be treated as a U.S. person for U.S. federal income tax purposes or (iv) an estate, the income of which is includible in gross income for U.S. federal income tax purposes, regardless of its source.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds SCANA common stock, the tax treatment of a partner in such partnership generally will depend on the status of the partner and the activities of the partnership. Any entity treated as a partnership for U.S. federal income tax purposes that holds SCANA common stock, and any partners in such partnership, should consult their own independent tax advisors regarding the tax consequences of the merger to their specific circumstances.

Determining the actual tax consequences of the merger to you may be complex and will depend on your specific situation and on factors that are not within our control. You should consult your own independent tax advisor as to the specific tax consequences of the merger in your particular circumstances, including the applicability and effect of the alternative minimum tax and any state, local, foreign and other tax laws and of changes in those laws.

Consequences of the Merger

The parties intend for the merger to be treated as a “reorganization” within the meaning of Section 368(a) of the Code for U.S. federal income tax purposes. At the time of effectiveness of the registration statement relating to this proxy statement/prospectus, Dominion Energy and SCANA have obtained written tax opinions from Morgan, Lewis & Bockius, LLP, special tax counsel to Dominion Energy, and from Mayer Brown LLP, legal counsel to SCANA, respectively, that the merger will qualify as a “reorganization” within the meaning of Section 368(a) of the Code. In addition, Dominion Energy expects to receive an opinion from Morgan, Lewis & Bockius LLP dated the closing date of the merger, to the effect that the merger will qualify as a “reorganization” within the meaning of Section 368(a) of the Code and SCANA expects to receive an opinion from Mayer Brown LLP, dated the closing date of the merger, to the effect that the merger will qualify as a “reorganization” within the meaning of Section 368(a) of the Code. These opinions were and will be based on facts and representations contained in representation letters provided by Dominion Energy and SCANA and on customary factual assumptions. The obligations of Dominion Energy and SCANA are not, however, contingent on receipt of these opinions. None of the opinions described above will be binding on the IRS or any court. Dominion Energy and

T

Table of Contents

SCANA have not sought and will not seek any ruling from the IRS regarding any matters relating to the merger, and as a result, there can be no assurance that the IRS will not assert, or that a court would not sustain, a position contrary to any of the conclusions set forth below. In addition, if any of the representations or assumptions upon which those opinions are based are inconsistent with the actual facts, the U.S. federal income tax consequences of the merger could be adversely affected. Assuming that, in accordance with the opinions described above, the merger qualifies as a “reorganization” within the meaning of Section 368(a) of the Code, upon the exchange of SCANA common stock for Dominion Energy common stock and cash in lieu of fractional shares, the U.S. federal income tax consequences will be as follows:

Upon exchanging your SCANA common stock for Dominion Energy common stock, you generally will not recognize gain or loss, except with respect to cash received in lieu of fractional shares of Dominion Energy common stock (as discussed below). The aggregate tax basis of Dominion Energy common stock that you receive in the merger (including any fractional shares deemed received) will equal your aggregate adjusted tax basis in the shares of SCANA common stock you surrender in the merger. Your holding period for the shares of Dominion Energy common stock that you receive in the merger (including any fractional share deemed received) will include your holding period for the shares of SCANA common stock that you surrender in the merger. If you acquired different blocks of SCANA common stock at different times or at different prices, Dominion Energy common stock you receive will be allocated pro rata to each block of SCANA common stock, and the basis and holding period of each block of Dominion Energy common stock you receive will be determined on a block-for-block basis depending on the basis and holding period of the blocks of SCANA common stock exchanged for such Dominion Energy common stock.

If you receive cash in lieu of a fractional share of Dominion Energy common stock, you will be treated as having received such fractional share of Dominion Energy common stock pursuant to the merger and then as having sold such fractional share of Dominion Energy common stock for cash. As a result, you generally will recognize capital gain or loss equal to the difference between the amount of cash received for such fractional share and your basis in your fractional share of Dominion Energy common stock as set forth above. Such capital gain or loss generally will be long-term capital gain or loss if, as of the effective date of the merger, your holding period for such fractional share (as described above) exceeds one year. Long-term capital gains of individuals are generally eligible for reduced rates of taxation. The deductibility of capital losses is subject to limitations.

Accounting Treatment

Dominion Energy prepares its financial statements in accordance with GAAP. The merger will be accounted for using the acquisition method of accounting. Dominion Energy will be treated as the acquiror for accounting purposes.

No Dissenters’ Rights

In accordance with Section 33-13-102(B) of the SCBCA, SCANA shareholders will not be entitled to exercise dissenters’ rights, appraisal rights or other similar rights in connection with the merger and the other transactions contemplated by the merger agreement because the shares of SCANA common stock will be listed on the NYSE as of the record date of the special meeting.

Regulatory Approvals Required for the Merger

General

Under the terms of the merger agreement, to complete the merger, Dominion Energy and SCANA must obtain approvals or consents from, or make filings with, a number of U.S. federal and state regulatory authorities. The material regulatory approvals, consents and filings include the following:

T

- approval by the SCPSC of the cost recovery plan;

T

Table of Contents

- the SCPSC shall have made a SCPSC merger determination;
- authorization from the NCUC for Dominion Energy and SCANA to enter into the proposed business combination transaction as required by North Carolina Gen. Stat. § 62-111(a);
- approval by the GPSC of the indirect change of ownership of SCANA Energy Marketing, Inc., which we refer to as SEMI, from SCANA to Dominion Energy as required by O.C.G.A. § 46-4-25;
- the expiration or early termination of certain waiting periods under the HSR Act and the related rules and regulations, which provide that certain acquisition transactions may not be completed until required information has been furnished to the Antitrust Division of the DOJ and the FTC (early termination of the HSR Act waiting period was granted on February 1, 2018);
- authorization from the FERC pursuant to Section 203 of the FPA;
- consent by the NRC to the indirect transfer of control of NRC licenses from SCANA to Dominion Energy as required by Section 184 of the Atomic Energy Act and the NRC's implementing regulations in 10 C.F.R. 50.80; and
- consent from the FCC, for the transfer of control over certain FCC licenses for private internal communications held by certain SCANA subsidiaries (completion of the merger is not conditioned on receipt of FCC approval).

Dominion Energy and SCANA have made and will make various filings and submissions for the above-mentioned authorizations and approvals and will each use their reasonable best efforts to obtain these authorizations and approvals, subject to certain conditions, including that these authorizations and approvals (other than the applicable SCPSC approvals which are subject to a different standard described in the immediately following paragraph) or any law or order relating to them do not impose or require any undertakings, obligations or remedial actions that constitute a burdensome condition (which is described in "*The Merger Agreement—Reasonable Best Efforts to Obtain Regulatory Approvals*" beginning on page 92 of this proxy statement/prospectus) Dominion Energy and SCANA currently anticipate completing the merger in 2018. Although Dominion Energy and SCANA believe that the required authorizations, approvals and consents described in further detail below to complete the merger will be received within that time frame, there can be no assurance as to the precise timing of or the ultimate ability of Dominion Energy and SCANA to obtain such authorizations, approvals or consents (or any additional authorizations, approvals or consents which may otherwise become necessary). The following is a brief summary of required federal and state regulatory filings and approvals related to the merger.

SCPSC Approval

No statute or rule expressly requires approval of the merger by the SCPSC. However, the SCPSC has in the past sought to exercise authority to review and approve business combinations similar to the merger pursuant to S.C. Code Ann. § 58-27-1300 or, without expressly asserting jurisdiction over a merger, has issued findings that the merger was in the public interest or that there was an absence of harm to South Carolina rate payers as a result of the merger. As a result, the merger agreement contains a closing condition to the effect that the SCPSC shall have made a SCPSC merger determination. If the SCPSC fails or declines to make a SCPSC merger determination, then Dominion Energy will not be obligated to complete the merger.

In addition, on December 12, 2017, SCE&G made a public commitment to the SCPSC that on or before January 12, 2018, it would submit a comprehensive plan to reduce the costs incurred by customers associated with the abandoned NND project. On January 12, 2018, Dominion Energy and SCE&G filed the SCPSC petition with the SCPSC seeking a ruling from the SCPSC approving the merger with no material changes to the terms of the merger or making a finding that the merger is in the public interest or that there is an absence of harm to South Carolina rate payers as a result of the merger. The SCPSC petition further requests the SCPSC to approve

Table of Contents

the cost recovery plan with no material change to the proposed terms, conditions or undertakings set forth in the cost recovery plan and no significant change to the economic value of the cost recovery plan, in each case as reasonably determined by Dominion Energy in good faith. There is no guarantee that the SCPSC will take these actions, or that it will not impose conditions on such approvals that result in a failure of a closing condition to the merger.

NCUC Approval

Approval of the business combination transaction is required under N.C.G.S. § 62-111(a) for the indirect transfer of ownership of Public Service Company of North Carolina, Inc., which we refer to as PSNC, from SCANA to Dominion Energy. The standard for approval is that the merger is justified by the public convenience and necessity. In a 2016 decision, the NCUC concluded that a merger was justified by the public convenience and necessity and serves the public interest upon findings that the merger would have no adverse impact on the rates and services provide by the utility, the utility's rate payers were protected as much as reasonably possible from potential costs and risks resulting from the merger, and the known and potential benefits of the merger were sufficient to offset the potential costs and risks. See *Order Approving Merger Subject to Regulatory Conditions and Code of Conduct*, Docket Nos. E-2, Sub 1095, E-7, Sub 1100, G-9, Sub 682, at 16 (Sept. 29, 2016). On January 24, 2018, Dominion Energy and SCANA filed a joint application with the NCUC seeking approval to engage in the business combination transaction. There is no guarantee that the NCUC will approve the merger or that it will not impose conditions on its approval that are unacceptable to either Dominion Energy or SCANA.

GPSC Approval

Approval of the merger is required under O.C.G.A. § 46-4-25 for the indirect transfer of ownership of SEMI, from SCANA to Dominion Energy. The GPSC must act on an application to amend a certificate of authority to reflect a change in ownership within ninety (90) days from the date the application is deemed complete. On January 19, 2018, Dominion Energy and SEMI filed a joint application with the GPSC seeking approval of the change of ownership. There is no guarantee that the GPSC will approve the indirect transfer of ownership or that it will not impose conditions on its approval that are unacceptable to either Dominion Energy or SCANA.

HSR Act and Antitrust

Completion of the merger is subject to the receipt of antitrust clearance in the United States. Under the HSR Act and the rules and regulations promulgated thereunder, the merger may not be completed until notification and report forms have been filed with the DOJ and the FTC and the applicable waiting period has expired or been terminated.

The waiting period with respect to the notification and report forms filed under the HSR Act expires 30 calendar days after the date both parties have submitted such filings, unless otherwise extended or terminated. Dominion Energy and SCANA filed the required HSR Act notification and report forms with the DOJ and FTC on January 19, 2018, and requested early termination of the HSR Act waiting period. On February 1, 2018, the FTC notified Dominion Energy and SCANA that it had granted early termination of the waiting period.

At any time before or after completion of the merger, notwithstanding the termination of the waiting period under the HSR Act, the DOJ, FTC, or any U.S. state, could take such action under the antitrust laws as each deems necessary or desirable in the public interest, including seeking to enjoin the completion of the merger or seeking divestiture of substantial assets of Dominion Energy and SCANA. Private parties also may seek to take legal action under the antitrust laws under certain circumstances. There can be no assurance that the DOJ, the FTC or any other governmental entity or any private party will not attempt to challenge the merger on antitrust or competition grounds, and, if such a challenge is made, there can be no assurance as to its result. Under the merger agreement, Dominion Energy and SCANA generally must use reasonable best efforts to take all
T

Table of Contents

necessary actions to obtain all regulatory approvals required to complete the merger, subject to certain exceptions. If the merger is not completed within 12 months after the expiration or early termination of the applicable HSR Act waiting period, Dominion Energy and SCANA will be required to submit new notification and report forms to the DOJ and the FTC, and a new HSR Act waiting period will have to expire or be terminated before the merger can be completed.

FERC Approval

Each of Dominion Energy and SCANA is a holding company under the Public Utility Holding Company Act of 2005, which we refer to as PUHCA, that has subsidiaries that either are “public utilities,” “transmitting utilities,” “electric utilities,” “electric utility companies” or a “holding company in a holding company system that includes a transmitting utility or an electric utility company” as such terms are defined under PUHCA, the FPA and the FERC’s implementing regulations. One of the requirements of Section 203 of the FPA is that no holding company in a holding company system that includes a transmitting utility or an electric utility may purchase, acquire, merge or consolidate with a transmitting utility, an electric utility company or a holding company in a holding company system that includes a transmitting utility or electric utility company without prior FERC authorization. Consequently, the FERC’s approval of the merger under Section 203 of the FPA is required.

The FERC must authorize the merger if it finds that the merger is consistent with the public interest. The FERC has stated that, in analyzing a merger or transaction under Section 203 of the FPA, it will evaluate the impact of the merger on:

- competition in electric power markets;
- the applicants’ wholesale rates; and
- state and federal regulation of the applicants.

The FERC must also find that the merger will not result in the cross-subsidization by utilities of their non-utility affiliates or the improper encumbrance or pledge of utility assets. If such cross-subsidization or encumbrances were to occur as a result of the merger, the FERC then must find that such cross-subsidization or encumbrances are consistent with the public interest.

The FERC will review these factors to determine whether the merger is consistent with the public interest. If the FERC finds that the merger would adversely affect competition in wholesale electric power markets, rates for transmission or the wholesale sale of electric energy, or regulation, or that the merger would result in cross-subsidies or improper encumbrances that are not consistent with the public interest, it may, pursuant to the FPA, impose upon the merger remedial conditions intended to mitigate such effects or it may decline to authorize the merger. The FERC is required to rule on a completed merger application not later than 180 days from the date on which the completed application is filed. The FERC may, however, for good cause, issue an order extending the time for consideration of the merger application by an additional 180 days. If the FERC does not issue an order within the statutory deadline, then the transaction is deemed to be approved. Dominion Energy and SCANA expect that the FERC will approve the merger within the initial 180-day review period. However, there is no guarantee that the FERC will not extend the time period for its review or will not impose conditions on its approval that are unacceptable to Dominion Energy or SCANA.

NRC Approval

Completion of the merger is subject to the issuance of an order by the NRC consenting to the indirect transfer of control of NRC License No. NPF-93, Docket No. 52-027, NRC License No. NPF-94, Docket No. 52-028, and NRC License No. NPF-126, Docket No. 50-395 from SCANA to Dominion Energy as required by Section 184 of the Atomic Energy Act and the NRC’s implementing regulations in 10 C.F.R. 50.80. On

Table of Contents

January 25, 2018, Dominion Energy and SCANA filed an application requesting that NRC issue an order consenting to the indirect transfer of control of the licenses. There is no guarantee that the NRC will consent to the indirect transfer of control or that it will not impose conditions on its consent that are unacceptable to either Dominion Energy or SCANA. In addition, while completion of the merger is not conditioned on their receipt, consent is required for the indirect transfer of control of certain other related licenses issued by the State of South Carolina and the State of Tennessee.

FCC Approval

Under FCC regulations implementing provisions of the Communications Act of 1934, as amended, an entity holding private radio licenses for internal communications purposes generally must obtain the approval of the FCC before the direct or indirect transfer of control or assignment of those licenses. SCANA and certain SCANA subsidiaries hold FCC licenses for private internal communications and, thus, must obtain prior FCC approval to assign or transfer direct or indirect control of those licenses. Once the FCC has consented to the transfer of control, the parties have 180 days to complete the merger. If the merger does not close within 180 days of receiving FCC consent, the parties can request an extension of time to complete the transaction. The FCC customarily grants extension requests of this nature. There is no guarantee that the FCC will consent to the transfer of control or that it will not impose conditions on its consent that are unacceptable to either Dominion Energy or SCANA. Completion of the merger is not conditioned on the receipt of this FCC consent.

Material Contracts between SCANA and Dominion Energy

In December 2014, SCANA and Dominion Energy entered into a definitive agreement for the sale by SCANA of its subsidiary, Carolina Gas Transmission Corporation, to Dominion Energy for approximately $450 million. The sale was completed by the parties in January 2015.

Legislation Relating to the Merger

Following the announcement of the merger, the South Carolina legislature has proposed two (2) pieces of legislation relating to the merger. First, the South Carolina House of Representatives has passed H.4375. This bill, among other things, repeals the BLRA for future projects, restricts SCE&G's ability to file a general rate case proceeding which seeks to recover new nuclear expenses and directs the SCPSC to, within five (5) days of enactment, set an experimental rate that SCE&G would charge ratepayers, the result of which experimental rate would be a reduction in SCE&G's lawfully approved rate revenue of approximately $37,000,000 per month. This bill is currently pending before the South Carolina Senate. If this bill becomes law, Dominion Energy would not be obligated to complete the merger if it is determined that the bill has or would reasonably be expected to have an adverse effect on SCANA or any of its subsidiaries. Second, S.954 is currently pending in the South Carolina Senate. This joint resolution, among other things, prohibits the SCPSC from taking any action on any request made under the BLRA until 90 days after the South Carolina General Assembly adjourns *Sine Die*. If S.954 becomes law, and the House and Senate adjourn *Sine Die* in November 2018 as is presently contemplated, then the SCPSC would not be allowed to take action on matters that are required to satisfy Dominion Energy's conditions to closing under the merger agreement until early 2019, and Dominion Energy would not be obligated to complete the merger until such conditions are satisfied.

Litigation Relating to the Merger

Following the announcement of the merger, three (3) lawsuits have asserted claims relating to the merger. First, a pre-existing lawsuit filed derivatively on behalf of SCANA was amended to assert putative class action claims on behalf of SCANA shareholders in the Court of Common Pleas of the County of Richland, South Carolina: *Firemen's Retirement System of St. Louis v. Addison, et al.*, 2017-CP-400-7547. This lawsuit asserts claims against certain officers of SCANA and members of the SCANA board for breach of fiduciary duties, waste of corporate assets, and unjust enrichment, and against Dominion Energy and Merger Sub for aiding and abetting the alleged breaches of fiduciary duties. Second, two (2) putative class actions on behalf of SCANA

T

Table of Contents

shareholders have been filed in the Court of Common Pleas of the Counties of Lexington and Richland, South Carolina, respectively: *City of Warren Police and Fire Retirement System v. SCANA Corporation, et al*., 2018-CP-320-0268 and *Metzler Asset Management GmbH and Joseph Heinz v. Aliff, et al*., 2018-CP-400-0816. The first of these lawsuits asserts claims against an officer of SCANA and certain members of the SCANA board for breach of fiduciary duties in connection with the merger, and against SCANA, Dominion Energy and Merger Sub for aiding and abetting the alleged breaches. The second asserts claims against certain members of the SCANA board for breach of fiduciary duties in connection with the merger, and against Dominion Energy and Merger Sub for aiding and abetting the alleged breaches. Collectively, these three (3) lawsuits allege, among other things, that the individual defendants created a false impression to investors and state regulators that the NND project was running smoothly within a reasonable budget and on schedule to increase their compensation and maintain their positions, which has exposed SCANA to billions of dollars in costs and damages in connection with numerous civil and criminal proceedings. The lawsuits also allege that the merger is designed to unlawfully divest SCANA shareholders of their holdings without providing them the maximized value to which they are entitled and without adequate information to evaluate the transaction. Specifically, these plaintiffs allege that the individual defendants were motivated to approve the merger for an inadequate price for the purpose of extinguishing the right of SCANA shareholders to pursue the derivative claims against them to avoid personal liability, and because they will receive significant personal financial benefits in the merger not shared by other SCANA shareholders. The lawsuits also allege that the consideration proposed in the merger fails to adequately account for and value the derivative claims against the individual defendants that Dominion Energy will acquire in the merger, and that because Dominion Energy has agreed to indemnify the individual defendants in the merger agreement, it is unlikely that Dominion Energy will pursue these claims if the merger is consummated. The lawsuits also allege that the merger is unfair to SCANA shareholders because if SCANA were offered the same rate settlement terms that Dominion Energy is proposing in connection with the transaction, SCANA's stock price would increase substantially above the value of the merger consideration. The lawsuits also allege that the merger was the result of a flawed process and self-dealing, that the merger consideration was insufficient and that certain provisions of the merger agreement might dissuade an alternative bidder from surfacing. The lawsuits seek to enjoin the merger and rescind the merger agreement. In addition, the second and third lawsuits seek in the alternative, should the merger be completed, an award of unspecified monetary damages.

Other Legal Proceedings

Certain lawsuits and regulatory actions have been filed against SCANA and SCE&G in connection with the abandonment of the NND project. If the relief requested in these matters (including a request for declaratory judgment that the BLRA is unconstitutional) is granted, Dominion Energy might not be obligated to complete the merger.

Exchange of Shares in the Merger

For a description of the exchange and payment procedures with respect to the shares of SCANA common stock under the merger agreement, please see the section entitled "*The Merger Agreement—Exchange and Payment Procedures*" on page 86 of this proxy statement/prospectus.

Interests of SCANA's Directors and Executive Officers in the Merger

In considering the SCANA board's recommendation that you vote to approve the merger, you should be aware that SCANA's directors and executive officers have economic interests in the merger that are different from, and in addition to, those of SCANA's shareholders generally. These interests, which may create actual or potential conflicts of interests, are, to the extent material, described below. The SCANA board was aware of and considered these interests, among other matters, in evaluating and negotiating the merger agreement, in reaching its decision to approve the merger agreement, and in recommending to SCANA's shareholders that the merger agreement be approved. For the purposes of the SCANA plans and agreements described below, the completion of the transactions contemplated by the merger agreement will constitute a change in control of SCANA.

T

Table of Contents

Allegations of Shareholder Derivative and Class Action Suits

The directors and officers of SCANA are also alleged to have certain interests in the transaction as described in the section entitled "—*Litigation Relating to the Merger*" beginning on page 71 of this proxy statement/ prospectus.

Equity Compensation

Pursuant to the merger agreement, upon completion of the merger, each performance share award and restricted stock unit award will be cancelled in exchange for a cash payment, as described below. The payment shall be made as soon as reasonably practicable after the effective time of the merger, but in any event within three (3) business days thereafter; *provided*, *however*, that any performance share awards and restricted stock unit awards that are subject to Section 409A of the Code shall be paid at the earliest time permitted under, and in accordance with, the terms of the applicable award agreements and relevant documents and in accordance with Section 409A of the Code.

Treatment of Performance Share Awards

At the effective time of the merger, each performance share award that is outstanding immediately prior to the effective time of the merger will fully vest at the target level of performance and shall be cancelled and converted automatically into the right to receive the following in respect of each share of SCANA common stock underlying such performance share award: (i) the merger consideration multiplied by (ii) the average price, in cash and without interest (we refer to the product of clauses (i) and (ii) in this sentence as the equity award consideration).

Treatment of Restricted Stock Units

At the effective time of the merger, each restricted stock unit award that is outstanding immediately prior to the effective time of the merger will fully vest and be cancelled and converted automatically into the right to receive the equity award consideration in respect of each share of SCANA common stock underlying such restricted stock unit award.

Treatment of Deferred Units

At the effective time of the merger, each deferred unit in respect of SCANA common stock credited or deemed credited to the SCANA stock ledger under the SCANA Director Compensation and Deferral Plan or the SCANA Executive Deferred Compensation Plan that is outstanding immediately prior to the effective time of the merger shall be converted automatically into a number of deferred units in respect of Dominion Energy common stock equal to the product of (i) the deferred unit, multiplied by (ii) the merger consideration, to be payable pursuant to the terms of the applicable plan.

Payments under the Supplementary Key Executive Severance Benefits Plan

The SCANA Corporation Supplementary Key Executive Severance Benefits Plan, which we refer to as the Supplementary Severance Plan, provides for payments to SCANA's senior executive officers if, within twenty-four (24) months after a change in control of SCANA, a senior executive officer's employment is terminated without "just cause" or the senior executive officer terminates his or her employment for "good reason."

Under the Supplementary Severance Plan, SCANA would be deemed to have "just cause" for terminating the employment of a senior executive officer if he or she: (i) willfully and continually failed to substantially perform his or her duties after SCANA made demand for substantial performance; (ii) willfully engaged in conduct that is demonstrably and materially injurious to SCANA; or (iii) were convicted of a felony or certain misdemeanors.
T

Table of Contents

A senior executive officer would be deemed to have “good reason” for terminating his or her employment under the Supplementary Severance Plan if, after a change in control, without his or her consent, any one or more of the following occurred: (i) a material diminution in his or her base salary; (ii) a material diminution in his or her authority, duties, or responsibilities; (iii) a material diminution in the authority, duties, or responsibilities of the supervisor to whom he or she is required to report, including a requirement that he or she report to one of our officers or employees instead of reporting directly to the SCANA board; (iv) a material diminution in the budget over which he or she retains authority; (v) a material change in the geographic location at which he or she must perform services; or (vi) any other action or inaction that constitutes a material breach by SCANA of the agreement under which he or she provides services.

In the event of such a termination, the Supplementary Severance Plan entitles participants to the following payments and benefits:

- an amount intended to approximate 2.5 times the sum of: (i) his or her annual base salary (before reduction for certain pre-tax deferrals) in effect as of the change in control, plus (ii) his or her full targeted annual incentive opportunity in effect as of the change in control;
- an amount equal to the participant’s full targeted annual incentive opportunity in effect under each existing annual incentive plan or program for the year in which the change in control occurs;
- if the participant’s benefit under the SCANA Corporation Supplemental Executive Retirement Plan, which we refer to as the SERP, is determined using the final average pay formula under the SCANA Corporation Retirement Plan, which we refer to as the Retirement Plan, an amount equal to the present lump sum value of the actuarial equivalent of his or her accrued benefit under the Retirement Plan and the SERP through the date of the change in control, calculated as though he or she had attained age 65 and completed 35 years of benefit service as of the date of the change in control, and as if his or her final average earnings under the Retirement Plan equaled the amount determined after applying cost-of-living increases to his or her annual base salary from the date of the change in control until the date he or she would reach age 65, and without regard to any early retirement or other actuarial reductions otherwise provided in any such plan (this benefit will be offset by the actuarial equivalent of the participant’s benefit provided by the Retirement Plan and the participant’s benefit under the SERP);
- if the participant’s benefit under the SERP is determined using the cash balance formula under the Retirement Plan, an amount equal to the present value as of the date of the change in control of his or her accrued benefit, if any, under the SERP, determined prior to any offset for amounts payable under the Retirement Plan, increased by the present value of the additional projected pay credits and periodic interest credits that would otherwise accrue under the Retirement Plan (based on the Retirement Plan’s actuarial assumptions), assuming that he or she remained employed until reaching age 65, and reduced by his or her cash balance account under the Retirement Plan, and further reduced by an amount equal to his or her benefit under the SERP;
- an amount equal to the value of all amounts credited to each participant’s SCANA Corporation Executive Deferred Compensation Plan, which we refer to as the EDCP, ledger account as of the date of the change in control, plus interest on the benefits payable under the EDCP at a rate equal to the sum of the prime interest rate as published in the Wall Street Journal on the most recent publication date prior to the date of the change in control plus 3%, calculated through the end of the month preceding the month in which the benefits are distributed, reduced by the value of his or her benefit under the EDCP as of the date of the change in control; and
- an amount equal to the projected cost for medical, long-term disability and certain life insurance coverage for three (3) years following the change in control as though he or she had continued to be a SCANA employee.

Pursuant to the merger agreement, with respect to Mr. Addison, Mr. Kissam and Ms. Griffin, if any such executive’s salary has not been adjusted to at least the low point of SCANA’s pre-established salary range for his

Table of Contents

or her applicable pay grade which pay grade was adjusted in respect of recent promotions, benefits under the Supplementary Severance Plan will be provided to such executive as if such executive's salary had been adjusted to the low point. The low point of the salary range represents a salary at 85% of the midpoint of the range for an executive's applicable pay grade.

In addition to the benefits above (unless their agreements with SCANA provide otherwise), participants in the Supplementary Severance Plan are entitled to benefit distribution under the Long-Term Equity Compensation Plan equal to 100% of the target awards for all performance periods not completed as of the date of the change in control, if any; however, the treatment of equity awards is prescribed under the merger agreement and further described under "*Interests of SCANA's Directors and Executive Officers in the Merger—Equity Compensation*" above. Participants in the Supplementary Severance Plan are also be entitled to any amounts previously earned, but not yet paid, under the terms of any of SCANA's other plans or programs.

Retirement Benefits

Supplemental Executive Retirement Plan

The SERP is an unfunded nonqualified defined benefit plan that was established for the purpose of providing supplemental retirement income to certain SCANA employees, including the executive officers. Subject to the terms of the SERP, a participant becomes eligible to receive benefits under the SERP upon termination of his or her employment with SCANA (or at such later date as may be provided in a participant's agreement), if the participant has become vested in his or her accrued benefit under the Retirement Plan prior to termination of employment. However, if a participant is involuntarily terminated following or incident to a change in control and prior to becoming fully vested in his or her accrued benefit under the Retirement Plan, the participant will automatically become fully vested in his or her benefit under the SERP and a benefit will be payable under the SERP.

Executive Deferred Compensation Plan

The EDCP is a nonqualified deferred compensation plan in which SCANA's executive officers, including the named executive officers, and SCANA's directors, may participate. Amounts deferred under the EDCP are required to be paid, or begin to be paid, as soon as practicable following the earliest of a participant's death, separation from service, or with respect to pre-2005 deferrals and hypothetical earnings thereon, disability.

Director Deferred Compensation

The Director Compensation and Deferral Plan, which we refer to as the DCDP, is a nonqualified deferred compensation plan pursuant to which SCANA's non-employee directors may defer annual stock and cash retainer fees. Amounts are generally paid, or begin to be paid, on a separation from service from the SCANA board for any reason or a date certain previously elected by the director (and subject to the ability to make subsequent deferrals pursuant to the terms set forth in the DCDP). In addition, one director has an account balance under the Voluntary Deferral Plan, a nonqualified deferred compensation plan that was closed effective January 1, 2001, which account balance will generally be paid, or begin to be paid, upon separation from service from the SCANA board for any reason (and subject to the ability to make subsequent deferrals pursuant to the terms set forth in the Voluntary Deferral Plan).

Director Endowment Plan

The SCANA Director Endowment Plan, which was closed to new participants effective January 1, 2013, provides for SCANA to make tax deductible, charitable contributions totaling $500,000 per eligible director to institutions of higher education designated by the applicable director. A portion is contributed upon retirement of the director and the remainder upon the director's death.

T

Table of Contents

Agreements with Dominion Energy

As of the date of this proxy statement/prospectus, none of the SCANA executive officers has entered into any agreement with Dominion Energy or any of its affiliates regarding employment with, or the right to purchase or participate in the equity of, Dominion Energy or one or more of its affiliates. Prior to or following the closing of the merger, however, some or all of the SCANA executive officers may discuss or enter into agreements with Dominion Energy or any of its affiliates regarding employment with, or the right to purchase or participate in the equity of, Dominion Energy or one or more of its affiliates. For information on Dominion Energy's directors and management after the merger, please see the section entitled "—*Directors and Management of Dominion Energy After the Merger*" beginning on page 65 of this proxy statement/prospectus.

Director and Officer Indemnification

Under the merger agreement, after the effective time of the merger, the SCANA directors and officers are entitled to continued indemnification and insurance coverage relating to their service as SCANA directors and officers prior to the effective time of the merger. For a more complete description, please see the section entitled "*The Merger Agreement—Indemnification and Insurance*" beginning on page 105 of this proxy statement/prospectus.

Potential Payments upon a Termination in Connection with a Change in Control

In accordance with Item 402(t) of Regulation S-K, the table below sets forth the estimated amounts of compensation that are based on or otherwise relate to the merger and that may be payable to those individuals who were listed in the "Summary Compensation Table" that was set out in SCANA's most recent securities filing for which disclosure was required under Item 402(c) of Regulation S-K other than executive officers who cease to be employed by SCANA during 2017 but including Ms. Griffin, who became Chief Financial Officer of SCANA effective January 1, 2018. We refer to these individuals as the "named executive officers."

Please see the section entitled "*The Merger — Interests of SCANA's Directors and Executive Officers in the Merger*" for further information about the compensation disclosed in the table below. The amounts shown in the table below are estimates based on multiple assumptions that may or may not actually occur or be accurate on the relevant date, including the assumptions described below and in the footnotes to the table. This document is being filed before SCANA's Compensation Committee has determined base salary adjustments for 2018, annual target incentive awards for 2018, or equity grants for 2018, all of which determinations are typically made in February of each year and are expected to be made in the latter half of February 2018. Accordingly, for purposes of calculating the amounts set forth below, the following assumptions have been made: for each of Mr. Addison, Mr. Kissam, and Ms. Griffin, his or her salary has been assumed to be adjusted to the low point of the pre-established salary range for his or her applicable pay grade (which pay grade was adjusted in respect of recent promotions), and each was assumed to receive a 2018 annual target incentive award and equity grants based on the pay grade and adjusted salary. The amounts in the table do not otherwise reflect certain compensation actions that may occur before completion of the merger, including certain compensation actions that SCANA is permitted to take prior to the completion of the merger, as described in the section entitled "*The Merger Agreement—Conduct of Business*." For purposes of calculating such amounts, the following additional assumptions were used:

T

- the relevant price per share of SCANA common stock is $45.19, which is the average closing price of a share of SCANA common stock over the first five (5) business days following the first public announcement of the merger agreement;

T

- the effective time of the merger is September 30, 2018, which is the assumed date of completion of the merger solely for purposes of the disclosure in this section; and

T

- the employment of each executive officer of SCANA will have been terminated by Dominion Energy without cause or due to the executive officer's resignation for good reason, as such terms are defined in

T

Table of Contents

the relevant plans and agreements, in either case following the assumed effective time of the merger on September 30, 2018.

Merger-Related Compensation

T

(1) Cash. The amounts listed in this column consist of (a) an amount equal to 2.5 times the sum of base salary and target short-term incentive award, (b) an amount equal to the full target annual incentive opportunity for the year in which the merger occurs, and (c) an amount equal to the projected cost for insurance benefits for three years. All such benefits are "double trigger" and are provided only on a termination without just cause or resignation for good reason during the period within twenty-four (24) months after a change in control of SCANA. For further details, see the section entitled "*—Interests of SCANA's Directors and Executive Officers in the Merger—Payments under the Supplementary Key Executive Severance Benefits Plan*." Messrs. Marsh and Byrne retired January 1, 2018 and are not eligible for any severance as a result of the merger.

T

Named Executive Officer	Severance	Target Bonus	Amount Related to Benefits	Total
K. B. Marsh(4)	$ 0	$ 0	$ 0	$ 0
J. E. Addison	$4,395,223	$ 832,779	$ 69,312	$5,297,314

I. N. Griffin	$1,617,720	$ 242,658	$ 81,024	$1,941,402

T

(2) Equity. Consists of (a) unvested performance share awards and (b) unvested restricted stock units (each including dividend equivalents) that will become vested at the effective time of the merger and paid out in cash as described above pursuant to the merger agreement. Pursuant to the merger agreement, all such benefits are "single trigger." For Messrs. Marsh and Byrne, only a pro rata portion of the performance shares (relating to the period during which each was employed) is included pursuant to the terms of their award agreements. For further details regarding the treatment of SCANA equity awards in connection with the merger, see the section entitled "*—Interests of SCANA's Directors and Executive Officers in the Merger—Equity Compensation*."

T

Named Executive Officer	Performance Share Awards	Restricted Stock Units	Total

I. N. Griffin	$ 501,829	$ 214,553	$ 716,382

T

(3) Pension/Non-Qualified Deferred Compensation. Consists of increased payments pursuant to the EDCP, (with interest as provided under the Supplementary Severance Plan), and the SERP (including the excess payable as provided under the Supplementary Severance Plan). All such benefits are "double trigger." For further details, see the section entitled "*—Interests of SCANA's Directors and Executive Officers in the*

T

Table of Contents

Merger." Messrs. Marsh and Byrne retired January 1, 2018 and are not eligible for any pension/non-qualified deferred compensation benefit as a result of the merger.

T

(4) Messrs. Marsh and Byrne retired effective January 1, 2018.

Dividends

Dominion Energy currently pays a quarterly dividend of $0.835 per share. SCANA currently pays a quarterly dividend of $0.6125 per share and has agreed in the merger agreement that it will not increase such dividend prior to the completion of the merger without Dominion Energy's prior written consent. Following the closing of the merger, Dominion Energy expects to continue its current dividend for shareholders of the combined company, subject to any factors that the Dominion Energy board in its discretion deems relevant. For additional information on the treatment of dividends under the merger agreement, see the section entitled "*The Merger Agreement—Conduct of Business*" beginning on page 101 of this proxy statement/prospectus.

Listing of Dominion Energy Common Stock

Shares of Dominion Energy common stock currently trade on the NYSE under the stock symbol "D." It is a condition to the completion of the merger that Dominion Energy common stock issuable in the merger be approved for listing on the NYSE, subject to official notice of issuance. Dominion Energy has agreed to use its reasonable best efforts to cause Dominion Energy common stock issuable in connection with the merger to be approved for listing on the NYSE and expects to obtain NYSE's approval to list such shares prior to completion of the merger, subject to official notice of issuance.

Delisting and Deregistration of SCANA Common Stock

Shares of SCANA common stock currently trade on the NYSE under the stock symbol "SCG." SCANA has agreed pursuant to the merger agreement to cooperate with Dominion Energy to use its reasonable best efforts to take all actions, and do or cause to be done all things, reasonably necessary, proper or advisable on its part under applicable laws and rules and regulations of the NYSE to enable the delisting of SCANA common stock from the NYSE and deregistration of SCANA common stock under the Exchange Act as promptly as practicable after the effective time of the merger.

Certain Forecasts Prepared by SCANA's Management

While SCANA provides public earnings guidance from time to time, SCANA does not as a matter of course publicly disclose other financial forecasts as to future earnings or financial performance or results because of, among other reasons, the uncertainty underlying assumptions and estimates. However, SCANA's management prepared and provided the SCANA board with certain non-public financial forecasts in connection with the SCANA board's consideration and evaluation of a possible merger with Dominion Energy. As described below, certain of these financial forecasts were also provided to SCANA's financial advisors, Morgan Stanley and RBC Capital Markets, for their use and reliance in connection with their respective financial analyses and opinions summarized in "*—Opinions of SCANA's Financial Advisors*" beginning on page 47 of this proxy statement/prospectus. In addition, as described below, certain of these financial forecasts were provided to Dominion Energy and its advisors in connection with the proposed transaction.

Neither SCANA's independent auditors nor any other independent accountants have compiled, examined, or performed any procedures with respect to the prospective financial information contained herein, nor have they expressed any opinion or any other form of assurance on such information or its achievability, and assume no responsibility for, and disclaim any association with, the prospective financial information. Further, the report of SCANA's independent auditors included in this proxy statement/prospectus relates to SCANA's historical financial information. It does not extend to prospective financial information and should not be read to do so.

T

Table of Contents

SCANA has included a summary of these financial forecasts to give SCANA shareholders access to certain non-public information made available to the SCANA board, SCANA's advisors, and Dominion Energy and its advisors in connection with the proposed transaction with Dominion Energy. SCANA has not included these financial forecasts to influence the decision of the SCANA shareholders as to whether to vote for or against the merger proposal.

The inclusion of this information should not be regarded as an indication that SCANA, Dominion Energy or any of their respective affiliates, directors, officers, employees, agents, advisors or other representatives considered, or now considers, such financial forecasts to be material or to be necessarily predictive of actual future results, and readers are cautioned not to place undue reliance on this information.

The financial forecasts have been prepared by, and are the responsibility of, SCANA's management. SCANA's management believes that the financial forecasts were prepared in good faith and on a reasonable basis based on the best information available to SCANA's management when prepared. The financial forecasts were not prepared with a view toward complying with GAAP, the published guidelines of the SEC regarding projections and the use of non-GAAP measures, or the guidelines established by the American Institute of Certified Public Accountants for preparation and presentation of prospective financial information.

The financial forecasts include non-GAAP financial measures, which were presented because SCANA's management believed they could be useful indicators of SCANA's projected future operating performance and cash flow. However, non-GAAP measures presented in the financial forecasts may not be comparable to similarly titled measures of other companies.

The financial forecasts prepared by SCANA's management were prepared for SCANA's internal use and not with a view toward public disclosure and are subjective in many respects. As a result, there can be no assurance that the prospective earnings or financial performance or results set forth in the financial forecasts will be realized or that actual future results will not be significantly higher or lower than estimated. These financial forecasts were based on numerous variables, which are inherently uncertain and may be beyond SCANA's control. Since the financial forecasts cover multiple years, by their nature, they become subject to greater uncertainty with each successive year. Important factors that may affect actual results and cause these financial forecasts not to be achieved include, but are not limited to, risks and uncertainties relating to SCANA's business, regulatory decisions and the regulatory environment generally, changes in applicable laws, general business and economic conditions, the occurrence of unusual weather events, and other factors described or referenced under "*Cautionary Statement Regarding Forward-Looking Statements*" beginning on page 25 of this proxy statement/prospectus.

In addition, financial forecasts also reflect assumptions that are subject to change and do not reflect revised prospects for our business, changes in applicable laws or regulations, changes in general business or economic conditions or any other transaction or event that has occurred or that may occur subsequent to the time the financial forecasts were prepared and that was not anticipated at the time the financial forecasts were prepared. The financial forecasts also do not take into account the merger or other transactions contemplated by the merger agreement or the effect of the failure of the merger to occur, and should not be viewed as necessarily indicative of actual or continuing results in that context.

Accordingly, there can be no assurance that the financial forecasts will be realized, and actual results may vary materially from those shown, including because of the risks and other factors described in the section entitled "*Cautionary Statement Regarding Forward-Looking Statements*" beginning on page 25 of this proxy statement/prospectus. None of SCANA, Dominion Energy or any of their respective affiliates, directors, officers, employees, agents, advisors or other representatives gives or can give any assurance that actual results will not differ from the financial forecasts, and none of SCANA, Dominion Energy or any of their respective affiliates, directors, employees, agents, advisors or other representatives undertakes any obligation to update or otherwise revise or reconcile the financial forecasts to reflect circumstances existing after the date the financial forecasts
T

Table of Contents

were generated or to reflect the occurrence of future events even in the event that any or all of the assumptions underlying the financial forecasts are shown not to be appropriate.

SCANA does not intend to make publicly available any update or other revision to the financial forecasts, except as otherwise required by law. None of SCANA, Dominion Energy or any of their respective affiliates, directors, officers, employees, agents, advisors or other representatives has made or makes any representation or warranty to any shareholder of SCANA or other person regarding the ultimate performance of SCANA compared to the information contained in the financial forecasts or that the financial forecasts will be achieved. The financial forecasts do not take into account any circumstances or events occurring after the date on which such forecasts were prepared.

Additional information relating to the principal assumptions used in preparing the projections is set forth below. See the section entitled "*Risk Factors*" on page 17 of this proxy statement/prospectus for a discussion of various factors that could materially affect SCANA's financial condition, results of operations, business, prospects and securities.

The financial forecasts were prepared based on SCANA's management's belief that it was preferable to seek a settlement that offered a comprehensive solution to the outstanding rate and regulatory issues relating to the abandoned NND project in order to resolve those issues rather than pursue an outcome that did not include such a settlement. In light of that context, SCANA's management prepared financial forecasts (taking into account SCANA's management's views on the estimated anticipated effect of the U.S. tax reform enacted on December 22, 2017, referred to as the Tax Cuts and Jobs Act of 2017) under various settlement scenarios, each of which reflect the following material assumptions:

- A compound annual growth rate, which we refer to as CAGR, of revenues for SCANA's gas business from FY2018E through FY2022E as follows:
  - SCE&G: 4.5%;
  - PSNC: 5.7%; and
  - SEMI: 3.1%; and
- A CAGR of SCANA's Operations and Maintenance growth from FY2018E through FY2022E of approximately 0.3%.

The specific regulatory settlement scenarios prepared by SCANA's management and focused on by the SCANA board in connection with the proposed transaction were a 5% regulatory settlement scenario and a 9.75% regulatory settlement scenario, which scenarios SCANA directed Morgan Stanley and RBC Capital Markets to use and rely upon for purposes of their respective financial analyses and opinions in connection with the proposed transaction without ascribing any relative weighting, probability or likelihood of success to either scenario. The financial forecasts under the 5% regulatory settlement scenario reflect circumstances under which SCE&G would provide a 5% reduction in electricity rates and an upfront cash refund to customers that would provide a higher benefit to customers than the publicly disclosed 3.5% regulatory settlement scenario (described below). The financial forecasts under the 9.75% regulatory settlement scenario reflect circumstances under which SCE&G would provide the largest reduction in electricity rates it could on a stand-alone basis while still maintaining an investment-grade credit rating for SCANA. The following are the material assumptions for the 5% regulatory settlement scenario and the 9.75% regulatory settlement scenario:

- 5% regulatory settlement scenario:
  - SCE&G reduces its retail electricity rates by 5% from current levels, an aggregate discount of approximately $125 million per year;
  - SCE&G writes-off approximately $697 million in assets;
  - SCE&G provides its electric customers a one-time $500 million credit in 2018;

Table of Contents

- SCANA repurchases approximately $300 million of its shares of common stock through 2022;
- SCE&G purchases a natural gas-fired power station for approximately $180 million in order to increase electricity generation, for which the acquisition cost will not be recovered from customers and only certain ongoing costs will be recovered in future base and fuel rates; and
- SCE&G absorbs through existing revenues approximately $3.0 billion in nuclear construction amortization costs over 50 years.

- 9.75% regulatory settlement scenario:
  - SCE&G reduces its retail electricity rates by 9.75% from current levels, an aggregate discount of approximately $233 million per year;
  - SCE&G writes-off approximately $1.83 billion in assets;
  - SCANA does not repurchase any of its shares of common stock;
  - SCE&G purchases a natural gas fired power station for approximately $180 million in order to increase electricity generation, for which the acquisition cost will not be recovered from customers and only certain ongoing costs will be recovered in future base and fuel rates; and
  - SCE&G absorbs through existing revenues approximately $1.9 billion in nuclear construction amortization costs over 50 years.

The following is a summary of the financial forecasts prepared by SCANA's management regarding SCANA for the fiscal years ending 2018 through 2022 under each of the 5% regulatory settlement scenario and the 9.75% regulatory settlement scenario:

5% Regulatory Settlement Scenario

	FY 2018E	FY 2019E	FY 2020E	FY 2021E	FY 2022E
	(in $ millions, except for per share data)				
Revenues	3,908	4,512	4,577	4,693	4,845
EBITDA	997	1,471	1,514	1,593	1,649
EBIT	(324)	972	1,004	1,054	1,102
Net Income	(510)	480	505	550	594
Weighted-Average Outstanding Shares	142.9	142.9	142.9	141.9	139.9
Earnings Per Share	($ 3.57)	$ 3.36	$ 3.53	$ 3.87	$ 4.24
Normalized Net Income(1)	537	480	505	550	594
Adjusted Earnings Per Share(1)	$ 3.76	$ 3.36	$ 3.53	$ 3.87	$ 4.24
Dividend Per Share	2.45	2.43	2.43	2.43	2.58
Capital Expenditures (including Other Investing)	1,034	792	876	882	848

(1) In FY2018E, excludes a net of tax write-off and one-time credit of approximately $1.04 billion in assets with an earnings per share impact of $7.33.

Table of Contents

9.75% Regulatory Settlement Scenario

	FY 2018E	FY 2019E	FY 2020E	FY 2021E	FY 2022E
	(in $ millions, except for per share data)				
Revenues	4,350	4,398	4,463	4,580	4,732
EBITDA	1,438	1,358	1,401	1,480	1,536
EBIT	(1,004)	890	922	972	1,022
Net Income	(1,020)	418	442	486	531
Weighted-Average Outstanding Shares	142.9	142.9	142.9	142.9	142.9
Earnings Per Share	($ 7.13)	$ 2.92	$ 3.09	$ 3.40	$ 3.71
Normalized Net Income(1)	510	418	442	486	531
Adjusted Earnings Per Share(1)	$ 3.57	$ 2.92	$ 3.09	$ 3.40	$ 3.71
Dividend Per Share	2.45	2.41	2.41	2.41	2.41
Capital Expenditures (including Other Investing)	1,034	792	876	882	848

(1) In FY2018E, excludes a net of tax write-off of approximately $1.53 billion in assets with an earnings per share impact of $10.70.

In addition to the financial forecasts under the 5% regulatory settlement scenario and the 9.75% regulatory settlement scenario, SCANA's management prepared and provided to the SCANA board and SCANA's financial advisors for informational purposes financial forecasts under the following scenario, which reflects the following material assumptions:

- 3.5% regulatory settlement scenario:
  - SCE&G reduces its retail electricity rates by 3.5% from current levels, an aggregate discount of approximately $90 million per year;
  - SCE&G writes-off approximately $330 million in assets (which, disregarding the effects of the Tax Cuts and Jobs Act of 2017, equates to a write-off of approximately $811 million in assets);
  - SCANA repurchases approximately $650 million of its shares of common stock through 2022;
  - SCE&G purchases a natural gas fired power station for approximately $180 million in order to increase electricity generation, for which the acquisition cost will not be recovered from customers and only certain ongoing costs will be recovered in future base and fuel rates; and
  - SCE&G absorbs through existing revenues on equity approximately $3.4 billion in nuclear construction amortization costs over 50 years (which, disregarding the effects of the Tax Cuts and Jobs Act of 2017, equates to approximately $2.9 billion in nuclear construction amortization costs over 50 years).

The terms of the 3.5% regulatory settlement scenario had been publicly proposed by SCANA on November 16, 2017. Based on the reaction from legislators and other stakeholders to the proposal, it quickly became clear that the terms of the 3.5% regulatory settlement scenario, in the view of SCANA's management and the SCANA board, were not an acceptable solution to the rate and regulatory issues relating to the abandoned NND project. Accordingly, SCANA directed Morgan Stanley and RBC Capital Markets not to use and rely upon the financial forecasts under the 3.5% regulatory settlement scenario for purposes of their respective financial analyses and opinions in connection with the proposed transaction.

The financial forecasts under the 3.5% regulatory settlement scenario were provided to Dominion Energy and its advisors in connection with the proposed transaction. The financial forecasts under the 5% regulatory settlement scenario and the 9.75% regulatory settlement scenario were not provided to Dominion Energy or its advisors because, in the view of SCANA's management, such financial forecasts were not relevant to Dominion Energy's valuation of SCANA in light of the fact that they reflected scenarios considered by the management of

Table of Contents

SCANA, based on its judgment and the financial resources of SCANA as a standalone company, whereas any regulatory settlement ultimately proposed by Dominion Energy would reflect the judgments and strategy of Dominion Energy's management and the financial resources of a much larger company (Dominion Energy) that would include SCANA.

The following is a summary of the financial forecasts prepared by SCANA's management regarding SCANA for the fiscal years ending 2018 through 2022 under the 3.5% regulatory settlement scenario:

3.5% Regulatory Settlement Scenario

	FY 2018E	FY 2019E	FY 2020E	FY 2021E	FY 2022E
	(in $ millions, except for per share data)				
Revenues	4,429	4,552	4,617	4,733	4,885
EBITDA	1,517	1,511	1,554	1,633	1,689
EBIT	562	1,014	1,045	1,093	1,139
Net Income	162	513	537	579	621
Weighted-Average Outstanding Shares	142.9	142.2	140.4	137.7	135.1
Earnings Per Share	$ 1.14	$ 3.61	$ 3.82	$ 4.21	$ 4.60

THE MERGER AGREEMENT

The following summarizes material provisions of the merger agreement, which is attached as Annex A to this proxy statement/prospectus and is incorporated by reference herein. The rights and obligations of the parties are governed by the express terms and conditions of the merger agreement and not by this summary or any other information contained in this proxy statement/prospectus. SCANA shareholders are urged to read the merger agreement carefully and in its entirety as well as this proxy statement/prospectus before making any decisions regarding the merger.

In reviewing the merger agreement, please remember that it is included to provide you with information regarding its terms and is not intended to provide any other factual information about Dominion Energy or SCANA. The merger agreement contains representations and warranties by each of the parties to the merger agreement. These representations and warranties have been made solely for the benefit of the other parties to the merger agreement and:

- may be intended not as statements of fact, but rather as a way of allocating the risk to one of the parties if those statements prove to be inaccurate;
- have been qualified by certain confidential disclosures that were made to the other party in connection with the negotiation of the merger agreement, which disclosures are not reflected in the merger agreement;
- may apply standards of materiality in a way that is different from what may be viewed as material by you or other investors; and
- information concerning the subject matter of the representations, warranties and covenants may have changed after the date of the merger agreement.

Accordingly, the representations and warranties and other provisions of the merger agreement should not be read alone, but instead should be read together with the information provided elsewhere in this proxy statement/prospectus and in the documents incorporated by reference herein. See the section entitled "*Where You Can Find More Information*" on page 136 of this proxy statement/prospectus.

Effects of the Merger

The merger agreement provides for the merger of Merger Sub with and into SCANA upon the terms and subject to the conditions set forth in the merger agreement and in accordance with the SCBCA. Upon completion of the merger, the separate corporate existence of Merger Sub will cease and SCANA will be the surviving corporation and a wholly owned subsidiary of Dominion Energy.

At the effective time of the merger:

- each share of SCANA common stock issued and outstanding immediately prior to the effective time of the merger (other than cancelled shares), whether represented by a certificate or in non-certificated form and represented by book-entry, will be automatically converted into the right to receive the merger consideration, as may be adjusted in accordance with the immediately following sentence. The merger consideration will be adjusted to reflect the effect of any reclassification, stock split (including a reverse stock split), stock dividend or distribution, recapitalization, exchange or readjustment of shares, merger, issuer tender or exchange offer or other similar transaction with respect to the shares of either Dominion Energy common stock or SCANA common stock that occurs between the date of the merger agreement and the effective time of the merger to provide SCANA shareholders the same economic effect as provided under the merger agreement before such change;
- each performance share award outstanding immediately prior to the effective time of the merger shall fully vest at the target level of performance and shall be cancelled and converted automatically into the right to receive the equity award consideration in respect of each share of SCANA common stock underlying such performance share award;

Table of Contents

- each restricted stock unit award outstanding immediately prior to the effective time of the merger shall fully vest and shall be cancelled and converted automatically into the right to receive the equity award consideration in respect of each share of SCANA common stock underlying such restricted stock unit; and

T

- each deferred unit credited or deemed credited to SCANA's stock ledger under SCANA's Director Compensation and Deferral Plan or Executive Deferred Compensation Plan that is outstanding immediately prior to the effective time of the merger will be automatically converted into a number of deferred unit(s) in respect of shares of Dominion Energy common stock equal to the product of (i) the deferred unit multiplied by (ii) the merger consideration, to be payable pursuant to the terms of the applicable plan.

Dominion Energy will issue cash in lieu of fractional shares of Dominion Energy common stock in the merger. Each SCANA shareholder who would otherwise be entitled to receive fractional shares of Dominion Energy common stock in the merger (after aggregating all fractional shares of Dominion Energy common stock issuable to such SCANA shareholder) will be entitled to an amount of cash, without interest, rounded to the nearest cent, equal to the product of (i) the amount of such fractional shares of Dominion Energy common stock issuable to such SCANA shareholder and (ii) the average price.

At the effective time of the merger, each cancelled share will cease to be outstanding, will be cancelled without payment of any consideration therefor and shall cease to exist.

At the effective time of the merger, each share of common stock, without par value, of Merger Sub issued and outstanding immediately prior to the effective time of the merger will be automatically converted into and become one (1) share of common stock, without par value, of the surviving corporation, and all such shares together shall constitute the only outstanding shares of capital stock of the surviving corporation.

Amendments to Organizational Documents; Directors and Officers

The restated articles of incorporation of SCANA, as amended, which we refer to collectively as the SCANA charter, as in effect immediately prior to the effective time of the merger will be the articles of incorporation of the surviving corporation until thereafter amended in accordance with the provisions thereof and applicable law, except that no such amendment will be inconsistent with Dominion Energy's obligation to honor the provisions regarding exculpation of directors, limitation of liability of directors and officers, advancement of expenses and indemnification contained in SCANA's and its subsidiaries' respective organizational documents in existence immediately prior to the effective time of the merger. See the section entitled "*The Merger Agreement—Indemnification and Insurance*" on page 105 of this proxy statement/prospectus.

The amended and restated bylaws of SCANA, which we refer to as the SCANA bylaws, as in effect immediately prior to the effective time of the merger will be amended as of the effective time of the merger to be in the form of Merger Sub's bylaws as of the date of the merger agreement, except with respect to the name of the surviving corporation which shall be "SCANA Corporation," and as so amended will be the bylaws of the surviving corporation until thereafter amended in accordance with the provisions thereof and applicable law, except that no such amendment will be inconsistent with Dominion Energy's obligation to honor the provisions regarding exculpation of directors, limitation of liability of directors and officers, advancement of expenses and indemnification contained in SCANA's and its subsidiaries' respective organizational documents in existence immediately prior to the effective time of the merger. Furthermore, the bylaws of the surviving corporation following the effective time of the merger will include any changes necessary so that such bylaws comply with the provisions in the merger agreement relating to indemnification and insurance coverage for SCANA's directors and officers. See the section entitled "*The Merger Agreement—Indemnification and Insurance*" on page 105 of this proxy statement/prospectus.

The directors of Merger Sub will be appointed by Dominion Energy pursuant to applicable law to be the directors of the surviving corporation after the effective time of the merger, following the resignation or removal

T

Table of Contents

of the individuals serving as directors of SCANA prior to the effective time of the merger. Such directors will serve until their respective successors have been duly elected or appointed and qualified or until their earlier death, resignation or removal in accordance with the surviving corporation's articles of incorporation and bylaws. Dominion Energy intends that the Dominion Energy board will take all necessary action as soon as practicable after the effective time of the merger to appoint a member of either the SCANA board or SCANA's executive management that is mutually agreeable to Dominion Energy and SCANA to serve as a director on the Dominion Energy board.

The officers of SCANA immediately prior to the effective time of the merger will, from and after the effective time of the merger, be the officers of the surviving corporation, until their respective successors have been duly elected or appointed and qualified or until their earlier death, resignation or removal in accordance with the surviving corporation's articles of incorporation and bylaws.

Completion of the Merger

The closing of the merger will take place on the third (3rd) business day following the day on which all of the conditions to closing (see the section entitled "*The Merger Agreement—Conditions to Completion of the Merger*" on page 88 of this proxy statement/prospectus) have been satisfied or waived (other than those conditions that by their nature are to be satisfied at the closing of the merger, but subject to the satisfaction or waiver of those conditions at the closing), or at such other time and place as SCANA and Dominion Energy may agree in writing.

The merger will become effective at the time when SCANA and Dominion Energy file the articles of merger with respect to the merger with the Secretary of State of the State of South Carolina or at such later time as Dominion Energy and SCANA agree in writing and specify such time in the articles of merger.

Exchange and Payment Procedures

Prior to the effective time of the merger, Dominion Energy will select an exchange agent reasonably acceptable to SCANA, which we refer to as the exchange agent. Dominion Energy will enter into an agreement with the exchange agent in form and substance reasonably acceptable to SCANA pursuant to which the exchange agent will (i) act as agent for the SCANA shareholders in connection with the merger and receive payment and delivery of the merger consideration to which the SCANA shareholders shall become entitled pursuant to the merger agreement and (ii) act as agent for Dominion Energy in transmitting the merger consideration to the SCANA shareholders following the effective time of the merger in accordance with the merger agreement. At or prior to the effective time of the merger, Dominion Energy will deposit or cause to be deposited with the exchange agent, in trust for the benefit of the SCANA shareholders, an amount of shares of Dominion Energy common stock in book-entry form sufficient for the exchange agent to deliver the merger consideration required to be paid and delivered by Dominion Energy pursuant to the merger agreement. Dominion Energy will also deposit or cause to be deposited with the exchange agent from time to time following the effective time of the merger (i) any dividends or other distributions payable pursuant to the merger agreement (as described below in the section entitled "The Merger Agreement—Exchange and Payment Procedures"), which we refer to as the dividend payment and (ii) any cash in lieu of fractional shares of Dominion Energy common stock payable pursuant to the merger agreement (see the section entitled "*The Merger Agreement—Terms of the Merger*" on page 84 of this proxy statement/prospectus), which we refer to as the fractional shares payment.

Promptly after the effective time of the merger (and in any event within three (3) business days thereafter), Dominion Energy will cause the exchange agent to mail or otherwise provide to each person who was, as of immediately prior to the effective time of the merger, a holder of record of shares of SCANA common stock (other than holders of cancelled shares) transmittal materials, including a letter of transmittal, and instructions for effecting the surrender of SCANA common stock to the exchange agent.

T

Table of Contents

Upon surrender of SCANA stock certificates, or an affidavit of loss in lieu of such SCANA stock certificates along with the posting of a bond, if required by the exchange agent or Dominion Energy, for cancellation, in accordance with the instructions set forth in the transmittal materials, a SCANA shareholder will be entitled to receive the number of shares of Dominion Energy common stock equal to the number of shares of SCANA common stock represented by such SCANA stock certificates (or affidavit of loss in lieu of such SCANA stock certificates) multiplied by the merger consideration (subject to the treatment of fractional shares described in the section entitled "*The Merger Agreement—Terms of the Merger*" on page 84 of this proxy statement/prospectus) and a cash amount equal to the dividend payment and the fractional shares payment such SCANA shareholder has the right to receive pursuant to the merger agreement. The shares of Dominion Energy common stock issued in exchange for such SCANA stock certificates will be in non-certificated, book-entry form and no interest will be paid or accrued on any cash amount payable upon surrender of such SCANA stock certificates.

Holders of SCANA common stock in book-entry form, which we refer to as book-entry shares, will not be required to obtain and deliver SCANA stock certificates or an executed letter of transmittal to the exchange agent in order to receive the merger consideration that such holder is entitled to receive. Instead, each holder of record of book-entry shares (other than cancelled shares) will be deemed to have surrendered such book-entry shares upon receipt by the exchange agent of an "agent's message" in customary form (or such other evidence, if any, as the exchange agent may reasonably request). Upon the exchange agent's receipt of such an "agent's message," each such holder of book-entry shares will be entitled to receive, and Dominion Energy will cause the exchange agent to pay and deliver as promptly as practicable following the effective time of the merger, to each such holder of book-entry shares, the number of shares of Dominion Energy common stock equal to the number of book-entry shares held by such holder multiplied by the merger consideration (subject to the treatment of fractional shares described in the section entitled "*The Merger Agreement—Terms of the Merger*" on page 84 of this proxy statement/prospectus) and a cash amount equal to the dividend payment and the fractional shares payment such holder has the right to receive pursuant to the merger agreement. The shares of Dominion Energy common stock issued in exchange for such book-entry shares will be in non-certificated, book-entry form and no interest will be paid or accrued on any cash amount payable upon surrender of such book-entry shares.

At any time after the effective time of the merger, until surrendered or exchanged in the manner contemplated above, each share of SCANA common stock will be deemed to represent only the right to receive, upon such surrender or exchange, the merger consideration, the dividend payment and the fractional shares payment. Dominion Energy is required to pay or cause to be paid all charges and expenses of the exchange agent set forth in the agreement with the exchange agent.

Any merger consideration and any amounts with respect to the aggregate dividend payments and the aggregate fractional share payments deposited with the exchange agent (including the proceeds of any investment thereof) that remain undistributed one (1) year after the effective time of the merger will be delivered to Dominion Energy or the surviving corporation upon demand by Dominion Energy. Thereafter, any holders of shares of SCANA common stock (other than cancelled shares) will be entitled to look only to Dominion Energy and the surviving corporation for payment and delivery of the merger consideration, the dividend payment and the fractional shares payment due upon surrender of their SCANA stock certificates or exchange of their book-entry shares in accordance with the procedures for surrender and exchange set forth above, and Dominion Energy and the surviving corporation will remain liable (subject to applicable abandoned property, escheat or other similar law) for payment of claims for the merger consideration payable upon surrender of such SCANA stock certificates or exchange of such book-entry shares.

From and after the effective time, the stock transfer books of SCANA will be closed and there will be no transfers on the stock transfer books of SCANA of the shares of SCANA common stock that were outstanding immediately prior to the effective time of the merger.

If any SCANA stock certificate has been lost, stolen, or destroyed, upon the making of an affidavit of that fact by the person claiming such SCANA stock certificate to be lost, stolen or destroyed and, if required by the

T

Table of Contents

exchange agent or Dominion Energy, the posting by such person of a bond in a reasonable amount as indemnity against any claim that may be made against it with respect to such SCANA stock certificate, the exchange agent will pay and deliver in exchange for such SCANA stock certificate the merger consideration, the dividend payment and the fractional share payment the holder of such SCANA stock certificate is entitled to pursuant to the merger agreement.

Holders of SCANA common stock will not be entitled to receive any dividends or other distributions on Dominion Energy common stock until the merger is completed and such holders have surrendered (or are deemed to have surrendered) their SCANA common stock in exchange for Dominion Energy common stock in accordance with the instructions included with the letter of transmittal. If Dominion Energy effects any dividend or other distribution on Dominion Energy common stock with a record date after the effective time of the merger and a payment date before a SCANA shareholder surrenders (or is deemed to surrender) their SCANA common stock, such SCANA shareholder will be entitled to receive such dividend or distribution, without interest, with respect to the shares of Dominion Energy common stock to be issued to such SCANA shareholder promptly after the proper surrender (or deemed surrender) of such SCANA shareholder's SCANA common stock. If Dominion Energy effects any dividend or other distribution on Dominion Energy common stock with a record date after the effective time of the merger and a payment date after the date a SCANA shareholder surrenders (or is deemed to surrender) their SCANA common stock, such SCANA shareholder will be entitled to receive such dividend or distribution, without interest, with respect to the shares of Dominion Energy common stock that were issued to such SCANA shareholder on the appropriate payment date.

Dominion Energy and the surviving corporation will be entitled to deduct and withhold any applicable taxes from the consideration otherwise payable pursuant to the merger agreement to any holder of shares of SCANA common stock, performance share awards and restricted stock units, and pay over such withheld amount to the appropriate governmental entity. Any amount so withheld will be promptly remitted to the applicable governmental entity and be treated for all purposes under the merger agreement as having been paid to the person in respect of whom such deduction and withholding was made.

The merger consideration and any other payments to be made to SCANA shareholders pursuant to the merger agreement will be adjusted to reflect the effect of any reclassification, stock split (including a reverse stock split), stock dividend or distribution, recapitalization, exchange or readjustment of shares, merger, issuer tender or exchange offer, or other similar transaction with respect to the shares of either Dominion Energy common stock or SCANA common stock that occurs between the date of the merger agreement and the effective time of the merger to provide the SCANA shareholders and the holders of performance share awards and restricted stock units the same economic effect as provided under the merger agreement before such change.

Conditions to Completion of the Merger

The obligation of SCANA, Dominion Energy and Merger Sub to effect the merger is subject to the satisfaction or waiver of the following mutual conditions:

- the receipt of the SCANA requisite vote, which we refer to as the shareholder vote condition;
- the absence of any law, executive order, ruling, judgment, injunction or other order, which we refer to as an order, issued by any federal, state, local, or non-United States government, any court or tribunal of competent jurisdiction, any administrative, regulatory (including any stock exchange) or other governmental or quasi-governmental agency, commission, branch or authority or other governmental entity or body, which we refer to as a governmental entity (except such reference does not include Santee Cooper in its capacity as a commercial counterparty of SCE&G in connection with the NND project), that is in effect and restrains, enjoins, prevents or otherwise prohibits the completion of the merger or makes the completion of the merger illegal, which we refer to as the governmental order condition;
- the issuance of an order from the FERC authorizing the merger under Section 203 of the FPA;

Table of Contents

- the expiration or early termination of certain waiting periods under the HSR Act and the related rules and regulations, which provide that certain acquisition transactions may not be completed until required information has been furnished to the DOJ and the FTC;
- the issuance of an order from the NRC (x) consenting to the indirect transfer of control of NRC License No. NPF-93, Docket No. 52-027 and NRC License No. NPF-94, Docket No. 52-028 (to the extent that either (a) the NRC has not already approved the termination or withdrawal of such licenses or (b) such licenses have not already been transferred to a third party pursuant to an NRC approval) and (y) consenting to the indirect transfer of control of NRC License No. NPF-126, Docket No. 50-395, in each case from SCANA to Dominion Energy, as required by Section 184 of the Atomic Energy Act and the NRC's implementing regulations in 10 CFR 50.80;
- the issuance by the NCUC of an order authorizing SCANA and Dominion Energy to engage in the business combination transaction contemplated by the merger agreement pursuant to North Carolina General Statutes, or N.C.G.S. § 62-111(a);
- the issuance of an order from the GPSC of an order approving the indirect change of ownership of SEMI from SCANA to Dominion Energy pursuant to Official Code of Georgia Annotated, or O.C.G.A. § 46-4-25, this condition and the previous four (4) bullet points we refer to collectively as the regulatory approval conditions;
- the issuance by the SCPSC of an order approving the SCPSC petition (other than the request to make the SCPSC merger determination), unless otherwise consented to by Dominion Energy in its sole discretion, without any (i) material changes to the proposed terms, conditions or undertakings set forth in the cost recovery plan or (ii) significant changes to the economic value of the proposed terms of the cost recovery plan, in each case as reasonably determined by Dominion Energy in good faith, which we refer to as the SCPSC condition;
- the approval for listing on the NYSE of the shares of Dominion Energy common stock to be issued in connection with the transactions contemplated by the merger agreement, subject to official notice of issuance; and
- the effectiveness under the Securities Act of the registration statement on Form S-4 of which this proxy statement/prospectus is a part, and there not having been any stop order suspending the effectiveness of such Form S-4 issued or any proceedings for that purpose, which we refer to as the Form S-4 condition.

The obligation of Dominion Energy and Merger Sub to effect the merger is subject to the satisfaction or waiver of the following additional conditions:

- the representations and warranties of SCANA relating to SCANA's capitalization being true and correct in all respects, except for de minimis inaccuracies, as of the date of the merger agreement and as of the closing date of the merger as though made on and as of such date (except for any such representation or warranty that is made as of a specified date (including the date of the merger agreement), in which case such representation or warranty shall be true and correct only as of such specified date);
- the representations and warranties of SCANA relating to (i) SCANA's authority to execute and deliver the merger agreement and perform its obligations under the merger agreement and (ii) broker's and advisor's fees and commissions owed by SCANA to brokers or other financial advisor(s) in connection with the merger, each being true and correct in all material respects (disregarding all qualifications or limitations as to materiality and words of similar import set forth therein) as of the date of the merger agreement and as of the closing date of the merger as though made on and as of such date (except for any such representation or warranty that is made as of a specified date (including the date of the merger agreement), in which case such representation or warranty shall be true and correct only as of such specified date);

Table of Contents

- the representations and warranties of SCANA relating to (i) the absence of any changes since January 1, 2017 that has or would be reasonably expected to have, individually or in the aggregate, a material adverse effect on SCANA and its subsidiaries, taken as a whole (which is described in "*The Merger Agreement—Material Adverse Effect*") and (ii) the SCANA requisite vote being the only vote of the SCANA shareholders required to approve the merger proposal, each being true and correct in all respects as of the date of the merger agreement and as of the closing date of the merger as though made on and as of such date (except for any such representation or warranty that is made as of a specified date (including the date of the merger agreement), in which case such representation or warranty shall be true and correct only as of such specified date);
- each of the representations and warranties of SCANA other than those referred to in the immediately preceding three bullets being true and correct in all respects (disregarding all qualifications or limitations as to materiality and words of similar import set forth therein) as of the date of the merger agreement and as of the closing date of the merger as though made on and as of such date (except for any such representation or warranty that is made as of a specified date (including the date of the merger agreement), in which case such representation or warranty shall be true and correct only as of such specified date), except where the failure of such representations and warranties to be true and correct has not had or would not be reasonably expected to have, individually or in the aggregate, a material adverse effect on SCANA and its subsidiaries, taken as a whole, which (collectively with the immediately preceding three bullets) we refer to as the SCANA representation condition;
- performance by SCANA in all material respects of all obligations required to be performed by it under the merger agreement on or prior to the closing date, which we refer to as the SCANA covenant condition;
- Dominion Energy having received a certificate of the chief executive officer or the chief financial officer of SCANA, certifying that the SCANA representation condition and the SCANA covenant condition have been satisfied;
- the absence of any regulatory approval or other approval or consent, in each case in connection with the merger, or order of a governmental entity related to any of the foregoing imposing or requiring any undertakings, terms, conditions, liabilities, obligations, commitments or sanctions, or any structural or remedial actions, that constitute a burdensome condition (which is described in "*The Merger Agreement—Reasonable Best Efforts to Obtain Regulatory Approvals*" and which we refer to as the burdensome condition closing condition);
- the absence of any changes since the date of the merger agreement that have or would be reasonably expected to have, individually or in the aggregate, a material adverse effect on SCANA and its subsidiaries, taken as a whole, which we refer to as the MAE condition;
- the absence of any order enacted by a governmental entity of competent jurisdiction or any change in law, in each case which imposes any condition that would reasonably be expected to result in (i) a material change to the proposed terms, conditions, or undertakings set forth in the SCPSC petition or (ii) a significant change to the economic value of the proposed terms set forth in the SCPSC petition, in each case as reasonably determined by Dominion Energy in good faith, which we refer to as the change in SCPSC petition condition;
- the SCPSC shall have made the SCPSC merger determination; and
- since the date of the merger agreement, there shall not have occurred any (i) substantive change in applicable law or any order with respect to the BLRA, as in effect on the date of the merger agreement, which has or would reasonably be expected to have an adverse effect on SCANA or any of its subsidiaries or (ii) substantive change in any applicable law or any order with respect to any other laws

Table of Contents

of the state of South Carolina governing public utilities as contained in Title 58 of the Code of Laws of South Carolina, as in effect on the date of the merger agreement which has or would reasonably be expected to have an adverse effect on SCANA or any of its subsidiaries, which changes we refer to collectively as SC law changes and which condition we refer to as the absence of changes in law condition.

The obligation of SCANA to effect the merger is subject to the satisfaction or waiver of the following additional conditions:

- the representations and warranties of Dominion Energy and Merger Sub relating to Dominion Energy's and Merger Sub's capitalization being true and correct in all respects, except for *de minimis* inaccuracies, as of the date of the merger agreement and as of the closing date of the merger as though made on and as of such date (except for any such representation or warranty that is made as of a specified date (including the date of the merger agreement), in which case such representation or warranty shall be true and correct only as of such specified date);
- the representations and warranties of Dominion Energy and Merger Sub relating to (i) their authority to execute and deliver the merger agreement and perform their respective obligations under the merger agreement and (ii) broker's and advisor's fees and commissions owed by Dominion Energy to brokers or other financial advisor(s) in connection with the merger, each being true and correct in all material respects (disregarding all qualifications or limitations as to materiality and words of similar import set forth therein) as of the date of the merger agreement and as of the closing date of the merger as though made on and as of such date (except for any such representation or warranty that is made as of a specified date (including the date of the merger agreement), in which case such representation or warranty shall be true and correct only as of such specified date);
- the representations and warranties of Dominion Energy and Merger Sub relating to (i) the absence of any changes since January 1, 2017 that has or would be reasonably expected to have, individually or in the aggregate, a material adverse effect on Dominion Energy and its subsidiaries, taken as a whole (which is described in "*The Merger Agreement—Material Adverse Effect*") and (ii) the approval of the merger agreement by the sole shareholder of Merger Sub being the only vote or consent of any class of capital stock of Dominion Energy or any of its affiliates necessary for Dominion Energy and Merger Sub to approve the merger agreement and complete the merger and the other transactions contemplated by the merger agreement, each being true and correct in all respects as of the date of the merger agreement and as of the closing date of the merger as though made on and as of such date (except for any such representation or warranty that is made as of a specified date (including the date of the merger agreement), in which case such representation or warranty shall be true and correct only as of such specified date);
- each of the representations and warranties of Dominion Energy and Merger Sub other than those referred to in the immediately preceding three bullets being true and correct in all respects (disregarding all qualifications or limitations as to materiality and words of similar import set forth therein) as of the date of the merger agreement and as of the closing date of the merger as though made on and as of such date (except for any such representation or warranty that is made as of a specified date (including the date of the merger agreement), in which case such representation or warranty shall be true and correct only as of such specified date), except where the failure of such representations and warranties to be true and correct has not had or would not be reasonably expected to have, individually or in the aggregate, a material adverse effect on Dominion Energy and its subsidiaries, taken as a whole, which (collectively with the immediately preceding three bullets) we refer to as the Dominion Energy representation condition;
- performance by Dominion Energy and Merger Sub in all material respects of all obligations required to be performed by them under the merger agreement on or prior to the closing date, which we refer to as the Dominion Energy covenant condition; and

Table of Contents

- SCANA having received a certificate of the chief executive officer or the chief financial officer of Dominion Energy, certifying that the Dominion Energy representation condition and the Dominion Energy covenant condition have been satisfied.

We cannot be certain when, or if, the conditions to the merger will be satisfied or waived, or that the merger will be completed.

Actions to Obtain Required Shareholder Vote

Subject to the fiduciary duties of the SCANA board, under applicable law, SCANA has agreed to take, in accordance with applicable law and SCANA's organizational documents, all action necessary to call, give notice of, convene and hold the special meeting as promptly as practicable after the Form S-4 (of which this proxy statement/prospectus is a part) is declared effective under the Securities Act. The merger agreement requires the SCANA board to recommend approval of the merger proposal and take all lawful action to solicit and obtain the SCANA requisite vote unless the SCANA board changes its recommendation in accordance with the terms of the merger agreement (see the section entitled "*The Merger Agreement—Non-Solicitation of Alternative Proposals*" on page 95 of this proxy statement/prospectus). SCANA may, but is not required to, adjourn or postpone the special meeting (i) to the extent necessary to ensure that any necessary supplement or amendment to this proxy statement/prospectus is provided to the SCANA shareholders a reasonable amount of time in advance of the vote on the approval of the merger proposal, (ii) if SCANA reasonably believes it is necessary and advisable to do so in order to solicit additional proxies in order to obtain the SCANA requisite vote, (iii) if, as of the time for which the special meeting is originally scheduled, there are insufficient shares of SCANA common stock represented (either in person or by proxy) to constitute a quorum necessary to conduct the business of the special meeting or (iv) as required by law.

Reasonable Best Efforts to Obtain Regulatory Approvals

Dominion Energy, SCANA and Merger Sub are required under the terms of the merger agreement to (and shall cause their respective subsidiaries to) cooperate and use their respective reasonable best efforts to (i) promptly make any required submissions and filings under applicable law or to governmental entities with respect to the merger and the other transactions contemplated by the merger agreement, (ii) promptly furnish information requested in connection with such submissions and filings to such governmental entities or under such applicable law, (iii) keep the other parties reasonably informed with respect to the status of any such submissions and filings to such governmental entities or under such applicable law, (iv) obtain all consents and permits from any governmental entity or any other person necessary to consummate the transactions contemplated by the merger agreement as soon as practicable and (v) take or cause to be taken all other actions, and do or cause to be done all other things, reasonably necessary to consummate and make effective the merger and the other transactions contemplated by the merger agreement as soon as practicable.

Under the merger agreement, SCANA and Dominion Energy also agreed to use their respective reasonable best efforts to take or cause to be taken all actions consistent with the terms of the merger agreement and the SCPSC petition to obtain the SCPSC's approval of the SCPSC petition as soon as practicable. The material terms of the SCPSC petition agreed to by the parties in the merger agreement include, among other things (i) an aggregate up-front, one-time rate credit totaling $1.3 billion to all customers who are current customers of SCE&G at the effective time of the merger, (ii) a write down of approximately $1.4 billion by SCE&G of its investment in construction work in the NND project, (iii) SCE&G not seeking recovery of approximately $320 million in regulatory assets, (iv) a total estimated reduction of 5% in retail electric customer bills by Dominion Energy and SCE&G resulting from a $575 million refund underwritten by Dominion Energy for amounts previously collected in connection with the NND project and from the impact of federal tax reform passed in December of 2017, (v) an approximately $180 million capital investment in the Columbia Energy Center, a natural gas-fired power plant located in Gaston, South Carolina, will be excluded from rate base and rate recovery, with only certain ongoing costs to be recovered in future base and fuel rates, (vi) a finding by the
T

Table of Contents

SCPSC that approximately $3.3 billion of invested capital for the NND project is prudent and may be amortized over a 20-year period (without offset or disallowance) and recovered through retail rates, (vii) a ruling by the SCPSC that until the balance of the $3.3 billion is fully recovered, the capital costs of the unrecovered balance shall be reflected in retail rates at a return on common equity of 10.25%, a weighted average cost of debt of 5.85%, and a capital structure consisting of 52.81% equity and 47.19% debt, with these percentages fixed over the 20-year amortization period and (viii) apart from the 5% customer bill reduction mentioned above, that retail electric base rates will remain frozen at current levels until January 1, 2021, except for rate adjustments for fuel and environmental costs, demand side management costs and other rates routinely adjusted on an annual or biannual basis.

Subject to the limitations set forth in the merger agreement and as further described below, Dominion Energy, SCANA and Merger Sub have agreed to promptly take any and all steps necessary to avoid, eliminate or resolve each and every impediment to and obtain all consents under applicable laws that may be required by any governmental entity (including any regulatory clearances with respect to the transactions contemplated by the merger agreement and the SCPSC's approval of the SCPSC petition), so as to enable the parties to consummate the merger and the other transactions contemplated by the merger agreement as soon as practicable, including taking any remedial action (as described in the paragraph that immediately follows). However, any remedial action may, at the discretion of SCANA or Dominion Energy, be conditioned upon completion of the transactions contemplated by the merger agreement.

The merger agreement provides that a "remedial action" means, with respect to Dominion Energy, SCANA and each of their respective subsidiaries, committing to and effecting, by consent decree, hold separate orders, trust, or otherwise, (i) selling, licensing, holding separate or otherwise disposing of assets or businesses of Dominion Energy or SCANA or any of their respective subsidiaries, (ii) terminating, relinquishing, modifying, or waiving existing relationships, ventures, contractual rights, obligations or other arrangements of Dominion Energy or SCANA or any of their respective subsidiaries and (iii) creating any relationships, ventures, contractual rights, obligations or other arrangements of Dominion Energy or SCANA or any of their respective subsidiaries.

Subject to the limitations set forth in the merger agreement, Dominion Energy has agreed to use reasonable best efforts to take or cause to be taken any and all action, including a remedial action, to avoid or resolve as promptly as practicable any legal proceeding challenging any of the transactions contemplated by the merger agreement that seeks, or would reasonably be expected to seek, to prevent, materially impede or materially delay the consummation of such transactions. Dominion Energy, SCANA and Merger Sub have agreed to cooperate with each other and use their respective reasonable best efforts to contest, defend and resist any such proceeding and to have any order that is in effect lifted that prohibits, prevents, delays, interferes with or restricts the completion of the transactions contemplated by the merger agreement as promptly as practicable.

In connection with obtaining any consent, permit or regulatory approval as described in the above paragraphs, Dominion Energy and its affiliates are not required to, and SCANA and its subsidiaries are not required to (unless conditioned on the completion of the merger) and are not permitted to (without Dominion Energy's prior written consent), offer or accept, or agree, commit to agree or consent to, any undertakings, terms, conditions, liabilities, obligations, commitments or sanctions (including remedial actions) that constitutes a burdensome condition (as described in the immediately following paragraph).

The merger agreement provides that a "burdensome condition" means any undertakings, terms, conditions, liabilities, obligations, commitments or sanctions (including remedial actions) that, in the aggregate, would have or would reasonably be expected to have, a material adverse effect on the business, financial condition, assets, liabilities or results of operations of SCANA and its subsidiaries or of Dominion Energy and its subsidiaries, in each case taken as a whole. However, for purposes of determining whether a burdensome condition exists, Dominion Energy and its subsidiaries will be deemed to be a consolidated group of entities of the size and scale of a hypothetical company that is one hundred percent (100%) of the size and scale of SCANA and its

T

Table of Contents

subsidiaries, taken as a whole as of immediately prior to the effective time of the merger. Notwithstanding the foregoing, any undertakings, terms, conditions, liabilities, obligations, commitments or sanctions relating to implementing, or otherwise arising or resulting from or imposed by, the social commitments (as described below), or any relief or other matters contemplated by the SCPSC petition or the SCPSC's approval of the SCPSC petition, shall not constitute or be taken into account in determining whether a burdensome condition exists.

Under the terms of the merger agreement, none of Dominion Energy and its affiliates are required to, and none of SCANA and its affiliates are required to (unless conditioned on the completion of the merger) and are not permitted to (without Dominion Energy's prior written consent), offer or accept, or agree, or commit to agree or consent to, any undertakings, terms, conditions, liabilities, obligations, commitments or sanctions (including remedial actions) that (i) materially change the proposed terms, conditions or undertakings set forth in the SCPSC petition or (ii) significantly change the economic value of the proposed terms set forth in the SCPSC petition, in each case as reasonably determined by Dominion Energy in good faith.

Unless otherwise agreed to by Dominion Energy and SCANA, Dominion Energy, SCANA and/or certain SCANA subsidiaries (as applicable) are required to (i) file the SCPSC petition by January 12, 2018, (ii) file the notification and report form pursuant to the HSR Act within 15 business days after the date the merger agreement is signed, (iii) file an application for FERC approval within 40 business days after the date of the merger agreement, (iv) file an application for NRC approval within 20 business days after the date of the merger agreement, (v) file applications for FCC approvals no later than 90 business days prior to the anticipated closing date of the merger, (vi) file an application for NCUC approval within 15 business days after the date of the merger agreement and (vii) file an application for GPSC approval within 15 business days after the date of the merger agreement.

In furtherance of the foregoing, Dominion Energy, SCANA and/or certain SCANA subsidiaries (as applicable) (i) filed the SCPSC petition on January 12, 2018, (ii) filed an application for GPSC approval on January 19, 2018, (iii) filed an application for NCUC approval on January 24, 2018, and (iv) filed applications for NRC approvals on January 25, 2018. Additionally, each of Dominion Energy and SCANA filed a Notification and Report form pursuant to the HSR Act on January 19, 2018.

On February 1, 2018, the FTC notified Dominion Energy and SCANA that it had granted early termination of the HSR Act waiting period.

Dominion Energy, SCANA and Merger Sub have agreed to, subject to applicable law relating to the exchange of information:

- promptly notify the other parties of (and if in writing, furnish the other parties with copies of) any communication to such person from any third party (other than a representative of any of the parties to the merger agreement or any of their respective subsidiaries) or any governmental entity regarding the filings and submissions made in connection with the transactions contemplated by the merger agreement and permit the other parties to review and discuss in advance (and to consider in good faith any comments made by the others in relation to) any proposed written response to any communication from any third party (other than a representative of any of the parties to the merger agreement or any of their respective subsidiaries) or any governmental entity regarding such filings and submissions;
- keep the other parties reasonably informed of any developments, meetings or discussions with any third party (other than a representative of any of the parties to the merger agreement or any of their respective subsidiaries) or any governmental entity in respect of any filings, submissions, investigations, or inquiries concerning the transactions contemplated by this agreement; and
- not independently participate in any meeting or discussion with any third party (other than a representative of any of the parties to the merger agreement or any of their respective subsidiaries) or

Table of Contents

any governmental entity in respect of any filings, submissions, investigations or inquiries concerning the transactions contemplated by the merger agreement without giving the other party or parties to the merger agreement prior notice of such meeting or discussions to the extent it is reasonably practical to do so and, unless prohibited by such third party or governmental entity or otherwise not reasonably practical, the opportunity to attend or participate.

Notwithstanding the obligations described in the three (3) immediately preceding bullets, Dominion Energy, SCANA and Merger Sub are (i) permitted to redact any correspondence, filing, submission or communication prior to furnishing it to the other parties to the extent it contains competitively or commercially sensitive information and (ii) not prohibited from independently participating in meetings and discussions with third parties or governmental entities that solely relate to an explanation of the terms of this agreement.

SCANA and its subsidiaries are required, to the extent reasonably practicable, subject to applicable law relating to the exchange of information and except as would be in violation of, or result in a waiver or loss of, the attorney-client privilege or work-product doctrine, to do the following with respect to any material claim, hearing, investigation or proceeding, whether criminal or civil in nature, relating to or arising out of the NND project or the bankruptcy of Westinghouse.

- within 48 hours of receipt, notify Dominion Energy of (and if in writing, furnish Dominion Energy with copies of) any material communication to SCANA or its subsidiaries from any governmental entity related to or arising out of such claim, hearing, investigation or proceeding and permit Dominion Energy to review and discuss in advance (and consider in good faith any comments made by Dominion Energy in relation to) any proposed written response to any material communication from any governmental entity related to or arising out of any such claim, hearing, investigation or proceeding;
- keep Dominion Energy reasonably informed of any developments, meetings or discussions with any governmental entity related to or arising out of such claim, hearing, investigation or proceeding; and
- use good faith efforts to give Dominion Energy notice (which notice shall be prior notice to the extent providing prior notice is reasonably practical) of any material meetings or discussions relating to or arising out of such claim, hearing, investigation or proceeding (and consider in good faith any comments or guidance from Dominion Energy in relation to such meeting or discussions) and, if appropriate in SCANA's reasonable judgment, provide Dominion Energy the opportunity to attend or participate in such meetings or discussions.

Non-Solicitation of Alternative Proposals

The merger agreement provides that neither SCANA nor any of its subsidiaries nor any of their respective directors or officers will, and SCANA will instruct and use its reasonable best efforts to cause its and its subsidiaries' employees, investment bankers, attorneys, accountants and other advisors or representatives, which we refer to as representatives, not to, directly or indirectly:

- initiate, solicit or knowingly encourage any acquisition proposal (which is described in the following paragraph) or the making or any inquiry, indication of interest, proposal or offer that constitutes, or could reasonably be expected to lead to an acquisition proposal;
- engage in, continue or otherwise participate in any discussions or negotiations regarding any inquiry, indication of interest, proposal or offer that constitutes or could reasonably be expected to lead to, an acquisition proposal;
- furnish or provide any information or data to any third party in connection with any inquiry, indication of interest, proposal or offer that constitutes or could reasonably be expected to lead to, an acquisition proposal; or
- otherwise knowingly facilitate any effort or attempt with respect to any of the actions contemplated by the three (3) immediately preceding bullets.

Table of Contents

The merger agreement provides that an "acquisition proposal" means any bona fide proposal or offer from any third party or group of third parties (other than Dominion Energy, Merger Sub or any of their respective affiliates) relating to (i) any acquisition or purchase directly or indirectly, in a single transaction or series of transactions, of a business that constitutes more than fifteen percent (15%) of the net revenues, net income or consolidated assets of SCANA and its subsidiaries, taken as a whole, or more than fifteen percent (15%) of the total voting power of the equity securities of SCANA, (ii) any tender offer or exchange offer that if completed would result in any third party beneficially owning more than fifteen percent (15%) of the total voting power of the equity securities of SCANA or (iii) any merger, reorganization, consolidation, share exchange, business combination, recapitalization, liquidation, joint venture, partnership, dissolution or similar transaction involving directly or indirectly, in a single transaction or series of transactions, SCANA (or any subsidiaries of SCANA whose business constitutes more than fifteen percent (15%) of the net revenues, net income or consolidated assets of SCANA and its subsidiaries, taken as a whole).

In addition, the merger agreement requires SCANA and its subsidiaries and their respective directors, officers and employees to, and SCANA will instruct and use its reasonable best efforts to cause its and its subsidiaries' representatives to, immediately (i) cease and terminate any solicitation, discussions, negotiations or knowing facilitation or encouragement with any third party that may be ongoing with respect to any inquiry, indication of interest, proposal or offer that constitutes, or could reasonably be expected to lead to, an acquisition proposal, (ii) terminate any such third party's access to any physical or electronic data rooms and (iii) request that any such third party promptly return or destroy all confidential information concerning SCANA and its subsidiaries previously furnished to such third party by or on behalf of SCANA or any of its subsidiaries, and destroy all analyses and other materials prepared by or on behalf of such third party that contain, reflect or analyze such information, in each case, to the extent required by, and in accordance with the terms of the applicable confidentiality agreement between SCANA and such third party.

Notwithstanding the restrictions described above, prior to the time the SCANA requisite vote is obtained, the SCANA board will be permitted to (i) furnish or provide information (including non-public information or data) regarding, and provide access to, the business, properties, assets, books, records and personnel of, SCANA and its subsidiaries, to a third party making an unsolicited bona fide written acquisition proposal (and shall as promptly as is reasonably practicable make available to Dominion Energy any non-public information concerning SCANA or its subsidiaries that is provided to any such third party pursuant to this clause (i) to the extent not previously made available to Dominion Energy) and (ii) engage in discussions and negotiations with such third party with respect to such acquisition proposal, *provided* that the SCANA board has determined in good faith, (a) after consultation with SCANA's financial advisors and outside legal counsel, that such acquisition proposal is, or could reasonably be expected to lead to, a superior proposal (which is described in the following paragraph) and (b) after consultation with SCANA's outside legal counsel, that failure to take such action would reasonably be expected to be inconsistent with the SCANA board's fiduciary duties under applicable law. Furthermore, such acquisition proposal must be unsolicited, bona fide and in writing and must not have resulted from a breach of the non-solicitation restrictions described above. Before SCANA is permitted to take any of the actions described in clauses (i) or (ii) of this paragraph, the third party making such acquisition proposal is required to enter into a confidentiality agreement, which we refer to as an acceptable confidentiality agreement, having provisions with respect to the confidential treatment of SCANA's information that are not materially less favorable to those contained in the confidentiality agreement executed by Dominion Energy and SCANA on October 8, 2017 (as may be amended from time to time).

The merger agreement provides that a "superior proposal" means any unsolicited bona fide written acquisition proposal relating to any direct or indirect acquisition or purchase of (i) assets that generate more than fifty percent (50%) of the consolidated total revenues or operating income of SCANA and its subsidiaries, taken as a whole, (ii) assets that constitute more than fifty percent (50%) of the consolidated total assets of SCANA and its subsidiaries, taken as a whole or (iii) more than fifty percent (50%) of the total voting power of the equity securities of SCANA, in each case, that the SCANA board determines in good faith after consultation with SCANA's financial advisors and outside legal counsel is more favorable to the SCANA shareholders than the

T

Table of Contents

merger, taking into account the third party making the acquisition proposal and all legal, financial and regulatory aspects of the acquisition proposal (including the likelihood that such acquisition proposal would be completed in accordance with its terms) and all other relevant circumstances.

The merger agreement also requires that SCANA promptly (but in any event within forty-eight (48) hours) notify Dominion Energy in writing of the receipt of any acquisition proposal or any inquiry or offer that could reasonably be expected to lead to an acquisition proposal, indicating the identity of the third party making such proposal and the material terms and conditions of such proposal or inquiry and providing Dominion Energy with the most current version (if any) of such inquiry or proposal.

The merger agreement also requires that SCANA promptly (but in any event within forty-eight (48) hours) notify Dominion Energy in writing of the receipt of any acquisition proposal or any inquiry or offer that could reasonably be expected to lead to an acquisition proposal, indicating the identity of the third party making such proposal and the material terms and conditions of such proposal or inquiry and providing Dominion Energy with the most current version (if any) of such inquiry or proposal. With respect to any such acquisition proposal, SCANA must keep Dominion Energy reasonably informed, on a prompt basis (but in any event within forty-eight (48) hours) of any changes or modifications to the terms of such acquisition proposal and any communications between SCANA and such third party with respect to any changes or modifications to the terms of any such acquisition proposal.

Except as required by law, SCANA may not terminate, amend, modify, waive or fail to enforce any standstill provisions or similar obligation with respect to any class of equity securities of SCANA or any of its subsidiaries.

Change in SCANA Board Recommendation

The merger agreement requires that, subject to certain exceptions described below, the SCANA board (and each committee thereof) will not (i) withdraw, change, qualify, withhold or modify, or propose to do any of the foregoing, in a manner adverse to Dominion Energy or Merger Sub, the SCANA board recommendation, (ii) adopt, approve or recommend, or propose to adopt, approve or recommend, any acquisition proposal, (iii) fail to recommend against any acquisition proposal subject to Regulation 14D promulgated under the Exchange Act in any solicitation or recommendation statement made on Schedule 14D-9 within ten (10) business days after Dominion Energy requests in writing, (iv) if an acquisition proposal or any material modification thereof is made public or sent to the SCANA shareholders, fail to issue a press release that reaffirms the SCANA board recommendation within ten (10) business days after Dominion Energy requests in writing or (v) agree or resolve to take any action set forth in the foregoing clauses (i) though (iv), which we collectively refer to as a SCANA board adverse recommendation change. The SCANA board may not, subject to certain exceptions described below, authorize, cause or permit SCANA or any of its affiliates to enter into any letter of intent, memorandum of understanding, agreement in principle, definitive agreement or other similar commitment that would reasonably be expected to lead to an acquisition proposal (other than an acceptable confidentiality agreement), which we refer to as an alternative acquisition agreement.

Notwithstanding the general restrictions described above, at any time prior to obtaining the SCANA requisite vote, the SCANA board may make a SCANA board adverse recommendation change under two (2) circumstances:

T

- the SCANA board (or a duly authorized committee thereof) determines that an acquisition proposal that was not received in violation of the non-solicitation provisions of the merger agreement constitutes a superior proposal and further determines in good faith, and after consultation with SCANA’s outside legal counsel, that the failure to make a SCANA board adverse recommendation change in response to the receipt of such superior proposal would reasonably be expected to be inconsistent with its fiduciary duties under applicable law; or

T

Table of Contents

- an intervening event (which is described in the following paragraph) occurs and in response thereto the SCANA board determines in good faith, after consultation with SCANA's outside legal counsel, that the failure to take such action would reasonably be expected to be inconsistent with its fiduciary duties under applicable law.

The merger agreement provides that an "intervening event" means any material event, development or change in circumstances that materially affects the business, assets or operations of SCANA and its subsidiaries, taken as a whole, that first becomes known to the SCANA board or certain officers of SCANA after the date of the merger agreement but before the SCANA requisite vote is obtained, to the extent that such event, development or change in circumstances was not reasonably foreseeable as of or prior to the date of the merger agreement or which would not reasonably be expected to have become known after reasonable investigation or inquiry as of or prior to the date of the merger agreement; *provided*, *however*, that in no event will (i) the receipt, existence or terms of an acquisition proposal or any matter relating thereto or consequence thereof, (ii) any action taken by the parties pursuant to or in compliance with the merger agreement, including any action taken in connection with seeking any regulatory approvals, (iii) any changes in law or the settlement of any lawsuits or proceedings, (iv) changes in the market price or trading volume of SCANA shares or Dominion Energy shares, or SCANA or Dominion Energy or any of their respective subsidiaries meeting or exceeding internal or published projections, forecasts or revenue or earnings predictions for any period, (v) changes in the energy markets or industry or to rates, or (vi) any event, development or change relating solely to Dominion Energy or its affiliates, in each case, constitute an "intervening event" or be taken into account in determining whether an intervening event has occurred or would reasonably be expected to result.

In each of the two circumstances described above, to make a SCANA board adverse recommendation change (and, solely with respect to a superior proposal, terminate the merger agreement to enter into an alternative acquisition agreement in accordance with the merger agreement), (i) SCANA must provide Dominion Energy with prior written notice of its intent to make such SCANA board adverse recommendation change (or, solely with respect to a superior proposal, terminate the merger agreement) at least four (4) business days prior to the SCANA board taking such action, which notice shall specify the basis for such SCANA board adverse recommendation change (or termination) and include the most current draft of any letter of intent, memorandum of understanding, agreement in principle, definitive agreement or other similar commitment that would reasonably be expected to lead to an acquisition proposal (we refer to such agreement or commitment as an alternative acquisition agreement) and any other material documents with respect to the superior proposal, if applicable, (ii) during such four (4) business day period, if requested by Dominion Energy, SCANA must make its representatives reasonably available to negotiate in good faith with Dominion Energy and its representatives regarding any modifications to the terms and conditions of the merger agreement that Dominion Energy proposes to make, and (iii) at the end of such four (4) business day period, after taking into account any modifications to the terms of the merger agreement proposed by Dominion Energy to SCANA in a written, binding and irrevocable offer, the SCANA board must determine in good faith, (a) after consultation with SCANA's outside legal counsel, that the failure to effect a SCANA board adverse recommendation change would reasonably be expected to be inconsistent with the SCANA board's fiduciary duties under applicable law and (b) in the case of a SCANA board adverse recommendation change with respect to a superior proposal, after consultation with SCANA's outside legal counsel and financial advisors, that such superior proposal still constitutes a superior proposal. In the event of a change in price or material revision or material amendment to the terms of a superior proposal, or a material change to the facts or circumstances relating to an intervening event, SCANA must deliver an additional written notice summarizing such change, revision or amendment and comply anew with the obligations described in this paragraph, except that, in the case of such a new notice, the four (4) business day period referred to above shall instead be deemed to refer to a two (2) business day period. We refer to the obligations set forth in this paragraph as the match right obligations.

Nothing contained in the merger agreement prohibits SCANA or any of its subsidiaries from (i) complying with its disclosure obligations under U.S. federal or state law, (ii) making any "stop, look or listen" communication to the SCANA shareholders pursuant to Rule 14d-9(f) promulgated under the Exchange Act (or
T

Table of Contents

any similar communications to the SCANA shareholders) or (iii) making any other disclosure to its shareholders if the SCANA board determines in good faith after consultation with SCANA's outside legal counsel that the failure to make such disclosure would be inconsistent with its fiduciary duties under applicable law.

Termination of the Merger Agreement

The merger agreement may be terminated and the merger may be abandoned at any time prior to the effective time of the merger (subject to certain exceptions and limitations described in the merger agreement), whether before or after (except as set forth below) the SCANA requisite vote is obtained:

- by mutual written consent of Dominion Energy and SCANA;
- by either Dominion Energy or SCANA:
  - if the merger has not been completed on or before the termination date, *provided*, *however*, that the termination date shall be automatically extended to April 2, 2019 if, as of the termination date, any of the governmental order condition, regulatory approval condition or the SCPSC condition has not been satisfied, *provided*, *further*, that this termination right will not be available to a party whose breach of its obligations under the merger agreement in any manner that was the principal cause of or resulted in the failure of a condition to any party's obligation to effect the merger, which termination we refer to as a termination date termination;
  - if at the special meeting (or any adjournment or postponement thereof), the SCANA requisite vote is not obtained, which termination we refer to as a SCANA "no" vote termination;
  - if any order permanently restraining, enjoining, preventing or otherwise prohibiting completion of the merger shall have become final and non-appealable, *provided*, *however*, that this termination right will not be available to a party whose breach of its obligations under the merger agreement was the principal cause of such order, which termination we refer to as a legal restraint termination;
- by SCANA:
  - if the SCANA board has effected a SCANA board adverse recommendation change with respect to a superior proposal and has approved and entered into concurrently with the termination of the merger agreement an alternative acquisition agreement with respect to such superior proposal, *provided*, *however*, that such termination will not be effective and SCANA will not be permitted to enter into an alternative acquisition agreement unless (i) SCANA complied with the match right obligations, and (ii) SCANA has paid Dominion the SCANA termination fee (which is described in "*The Merger Agreement—Termination Fees*"); *provided*, *further*, that this termination right will not be available after the SCANA requisite vote shall have been obtained, which termination we refer to as a superior proposal termination;
  - if Dominion Energy or Merger Sub have breached any of their respective representations or warranties or failed to perform any of their respective covenants under the merger agreement and such breach or failure to perform (i) would give rise to the failure of the applicable conditions to SCANA's obligation to complete the merger and (ii) cannot be cured by Dominion Energy or Merger Sub by the termination date, or if capable of being cured, is not cured prior to the earlier of (a) the thirtieth (30th) day after written notice thereof is given by SCANA to Dominion Energy and (b) the third (3rd) business day immediately preceding the termination date, *provided*, *however*, that SCANA will not have this termination right if SCANA is then in material breach of the merger agreement, which termination we refer to as a Dominion Energy breach termination;
- by Dominion Energy:
  - if the SCANA board (or a committee thereof) has effected a SCANA board adverse recommendation change, except that this termination right will not be available after the SCANA

requisite vote shall have been obtained, which termination we refer to as a change of recommendation termination; or

- if SCANA has breached any of its representations or warranties or failed to perform any of its covenants under the merger agreement and such breach or failure to perform (i) would give rise to the failure of the applicable conditions to Dominion Energy's and Merger Sub's obligation to complete the merger and (ii) cannot be cured by SCANA by the termination date, or if capable of being cured, is not cured prior to the earlier of (a) the thirtieth (30th) day after written notice thereof is given by Dominion Energy to SCANA and (b) the third (3rd) business day immediately preceding the termination date, except that Dominion Energy will not have this termination right if either Dominion Energy or Merger Sub is then in material breach of the merger agreement, which termination we refer to as a SCANA breach termination.

Termination Fees

SCANA will be required to pay Dominion Energy a termination fee equal to $240,000,000 (which we refer to as the SCANA termination fee) if:

- SCANA effects a superior proposal termination;
- (i) Dominion Energy or SCANA effects a termination date termination or a SCANA "no" vote termination or Dominion Energy effects a SCANA breach termination, (ii) a bona fide acquisition proposal has been publicly announced or publicly disclosed and has not been withdrawn (a) in the case of a termination date termination or a SCANA breach termination, prior to the date of such termination, and (b) in the case of a SCANA "no" vote termination, prior to the special meeting, and (iii) thereafter during the twelve-month period immediately following such termination, (a) SCANA enters into an alternative acquisition agreement or (b) an acquisition proposal is completed (except that for the purpose of determining whether SCANA will be required to pay the SCANA termination fee under these circumstances, the references to "fifteen percent (15%)" in the definition of acquisition proposal in the merger agreement shall be deemed to be references to "fifty percent (50%)"); or
- Dominion Energy effects a change of recommendation termination.

Dominion Energy will be required to pay SCANA a termination fee equal to $280,000,000 (which we refer to as the Dominion Energy termination fee) if:

- Dominion Energy or SCANA effects a termination date termination and, at the time of such termination, (i) the burdensome condition closing condition shall not have been satisfied or waived with respect to a regulatory approval or consent in connection with the merger (other than in connection with South Carolina regulatory approvals), (ii) (a) the governmental order condition, (b) the regulatory approval condition and (c) the SCPSC condition shall each have been satisfied or waived (unless such condition was not satisfied solely due to the proposal of a burdensome condition to which Dominion Energy did not agree) and (iii) each of (a) the shareholder vote condition, (b) the Form S-4 condition, (c) the SCANA representation condition, (d) the SCANA covenant condition and (e) the MAE condition, in each case has been satisfied or waived (except for any such conditions that have not been satisfied as a result of a breach by Dominion Energy or Merger Sub of any of their respective obligations under the merger agreement);
- Dominion Energy or SCANA effects a legal restraint termination and, at the time of such termination, (i) the burdensome condition closing condition shall not have been satisfied or waived with respect to a regulatory approval or consent in connection with the merger (other than in connection with South Carolina regulatory approvals), (ii) (a) the governmental order condition, (b) regulatory approval condition and (c) the SCPSC condition shall each have been satisfied or waived (unless such condition was not satisfied solely due to the proposal of a burdensome condition to which Dominion Energy did not agree) and (iii) each of (a) the shareholder vote condition, (b) the Form S-4 condition, (c) the

Table of Contents

SCANA representation condition, (d) the SCANA covenant condition and (e) the MAE condition, in each case has been satisfied or waived (except for any such conditions that have not been satisfied as a result of a breach by Dominion Energy or Merger Sub of any of their respective obligations under the merger agreement); or

- SCANA effects a Dominion Energy breach termination due to a material breach by Dominion Energy or Merger Sub of their respective obligations to obtain the regulatory approvals and consents in connection with the merger (which are described in "*The Merger Agreement —Reasonable Best Efforts to Obtain Regulatory Approvals*"), which breach has caused the failure of any of the following conditions to completion of the merger from being satisfied: (i) the governmental order condition, (ii) the regulatory approvals condition, (iii) the SCPSC condition, (iv) absence of a burdensome condition, (v) the change in SCPSC petition condition, (vi) the SCPSC merger determination and (vii) the absence of changes in law condition.

In the event the merger agreement is terminated under circumstances in which SCANA is required to pay the SCANA termination fee or Dominion Energy is required to pay the Dominion Energy termination fee and such termination fee, as applicable, is paid, the payment of such termination fee will be the sole and exclusive remedy of Dominion Energy and Merger Sub against SCANA, or of SCANA against Dominion Energy and Merger Sub, as applicable.

Conduct of Business

Under the merger agreement, each of SCANA and Dominion Energy has agreed to restrict the conduct of its respective business between the date of the merger agreement and the earlier of the effective time of the merger and the termination of the merger agreement.

In general, SCANA has agreed to, and to cause each of its subsidiaries to, conduct its business in all material respects in the ordinary course consistent with past practice and to use commercially reasonable efforts to preserve substantially intact its current business organizations, maintain adequate and comparable insurance coverage, and preserve its relationships with its employees, counterparties, customers and suppliers and governmental entities with jurisdiction over SCANA and any of its subsidiaries.

In addition, between the date of the merger agreement and the effective time of the merger, SCANA has agreed to various specific restrictions relating to the conduct of its business and the business of its subsidiaries, including restrictions on the following (in each case, subject to Dominion Energy's prior written consent, certain exceptions specified in the merger agreement, the related SCANA disclosure materials, which we refer to as the SCANA disclosure letter, or as may be required by applicable law or by a governmental entity):

- declaring or paying dividends or other distributions (other than regular quarterly cash dividends payable in respect of SCANA common stock, not in excess of a certain amount);
- splitting, combining, subdividing or reclassifying any of its capital stock or issuing any other securities in respect of, in lieu of or in substitution for shares of its capital stock;
- purchasing, redeeming or otherwise acquiring any of its or its subsidiaries' capital stock or securities convertible into or exchangeable or exercisable for any such shares of capital stock;
- issuing, selling, pledging, disposing or encumbering shares of its capital stock;
- amending its articles of incorporation or bylaws or the comparable organizational documents of any of its subsidiaries;
- acquiring (whether by merger, consolidation, purchase of property or assets or otherwise) any corporation, partnership or other business organization or any material assets or interests in any third party with a value in excess of fifty million dollars ($50,000,000) in the aggregate;

Table of Contents

- selling, licensing, transferring, abandoning or otherwise disposing of any of its properties, rights or assets which are material to SCANA or its subsidiaries taken as a whole or have a value in excess of twenty five million dollars ($25,000,000);
- incurring indebtedness except for (i) borrowings under existing revolving credit facilities (or replacements thereof on comparable terms, including in regards to maturity) or commercial paper programs in the ordinary course of business, (ii) incurring indebtedness in the ordinary course of business (including interest rate swaps on customary commercial terms consistent with past practice) not in excess of two hundred million dollars ($200,000,000), (iii) redeeming, prepaying, defeasing, cancelling or modifying any indebtedness in the ordinary course of business (including interest rate swaps on customary commercial terms consistent with past practice) not to exceed two hundred million dollars ($200,000,000), (iv) incurring, redeeming, prepaying, defeasing, canceling or modifying any indebtedness among SCANA or any of its subsidiaries, (v) incurring any indebtedness to replace, renew, extend, refinance or refund any existing indebtedness in the same principal amount and upon the maturity of such existing indebtedness and to the extent such existing indebtedness is indebtedness of SCANA, on terms that can be redeemed or prepaid at any time upon payment of the outstanding principal amount plus accrued interest without any make whole or similar prepayment penalty and (vi) providing guarantees and other credit support by SCANA with respect to obligations of any of its subsidiaries; *provided*, *however*, that no such indebtedness shall contain any term that would accelerate the payment thereof or require its immediate repayment due to the transactions contemplated by the merger agreement;
- settling any claim, investigation or proceeding with a governmental entity or third party, in each case, threatened, made or pending against SCANA or any of its subsidiaries which provides injunctive relief which is material to SCANA or any of its subsidiaries or requires payment in excess of ten million dollars ($10,000,000) in the aggregate, other than the settlement of any claims, investigations or proceedings made in the ordinary course of business or for an amount (excluding any amounts covered by insurance) not in excess of the amount reflected or reserved therefor in the most recent financial statements of SCANA; *provided*, *however*, that neither SCANA nor any of its subsidiaries are permitted to settle any claim, investigation or proceeding relating to or arising out of (i) the construction (or cessation of the construction), abandonment or disposal of the NND project, (ii) the bankruptcy of Westinghouse (including the settlement agreement entered into with Toshiba Corporation and any contract relating to the proceeds thereof), or (iii) any other aspect of the abandoned NND project (other than (a) the termination of any contract related to the abandoned NND project, so long as such termination results in no additional liability of SCANA or any of its subsidiaries in excess of five million dollars ($5,000,000) in the aggregate, (b) any immaterial amendment of any contract related to the abandoned NND project and (c) after prior notice to Dominion Energy, settling any mechanic liens related to the cessation of construction of the abandoned NND project);
- making capital expenditures in any fiscal year, except for (i) capital expenditures made in accordance with the capital expenditure plans included in the SCANA disclosure letter in an amount not to exceed fifty million dollars ($50,000,000) in excess of the amounts set forth in such plans during any calendar year, (ii) capital expenditures related to operational emergencies, equipment failures or outages or expenditures that SCANA reasonably determines are then necessary to maintain the safety and integrity of any asset or property in response to any unanticipated or unforeseen and subsequently discovered events, occurrences or developments or (iii) as required by law or a governmental entity;
- except as required by any SCANA benefit plan or other written agreement in effect on the date of the merger agreement, (i) granting any director or officer any increase in compensation or pay, or award any bonuses or incentive compensation, including in the case of any SCANA officer, any changes associated with promotions or other position changes, regardless of whether such promotions or changes were previously announced, (ii) granting to any current or former director, officer or employee any increase in severance, retention or termination pay, (iii) granting or amending any equity awards,

Table of Contents

(iv) entering into any new, or modifying any existing, employment or consulting agreement with any current or former director or officer or individual consultant pursuant to which the annual base salary of such individual exceeds two hundred fifty thousand dollars ($250,000) or the term of which exceeds twelve months, (v) establishing or amending in any material respect any material collective bargaining agreement or material benefit plan, (vi) taking any action to accelerate any rights or benefits under any benefit plan, or (vii) hiring or promoting any new officer (other than any officer whose hiring or promotion has been publicly announced, but that has not yet taken effect as of the date of the merger agreement); *provided*, *however*, that, other than as set forth in subclause (i), the foregoing shall not restrict SCANA or its subsidiaries from entering into or making available to newly hired employees or to employees in the context of promotions based on job performance or workplace requirements, in each case, in the ordinary course of business, plans, agreements, benefits and compensation arrangements that have a value that is consistent with its past practice of making compensation and benefits available to newly hired or promoted employees in similar positions under similar circumstances;

- changing its accounting methods, principles or practices, where such changes would reasonably be expected to be material to SCANA and its subsidiaries, taken as a whole (other than as required by GAAP);
- (i) making, changing or rescinding any material tax election, any tax accounting period or adopting or changing any material method of tax accounting, (ii) settling any material tax liability or consenting to any material claim or assessment or obtaining any material ruling related to taxes, (iii) filing any amended material tax return or (iv) entering into any material closing agreement relating to taxes;
- materially amending, modifying, terminating or waiving any material rights under any contract (i) required to be filed by SCANA as a "material contract" pursuant to Item 601(b)(10) of Regulation S-K under the Securities Act, (ii) that provides for indebtedness of SCANA or any of its subsidiaries of more than fifty million dollars ($50,000,000), (iii) that resulted in expenditures, receipts, liabilities, or payments by SCANA or any of its subsidiaries of more than eighty million dollars ($80,000,000) in the 2016 fiscal year or 2017 fiscal year or (iv) that requires SCANA or any of its subsidiaries to incur indebtedness or liabilities, or to make payments or expenditures of more than eighty million dollars ($80,000,000) in any one future fiscal year (in the case of clauses (ii) and (iii), excluding (a) contracts that can be terminated for convenience on less than ninety (90) days' notice without material payment or material penalty and (b) any contracts for the supply of natural gas capacity or commodity) (we refer to such contracts as SCANA material contracts), or entering into any contract that if entered into prior to the date of the merger agreement, would have been deemed a SCANA material contract;
- adopting or entering into a plan of complete or partial liquidation, dissolution, merger (other than the merger), consolidation, restructuring, recapitalization or other reorganization;
- materially changing or entering into any IT systems or cyber-security contracts that are material to SCANA and its subsidiaries; and
- authorizing, agreeing or committing to take any of the foregoing actions.

Other Covenants and Agreements

The merger agreement contains certain additional covenants and agreements between Dominion Energy and SCANA relating to the following matters, among other things:

- cooperation between Dominion Energy and SCANA in preparation of the Form S-4 (of which this proxy statement/prospectus is a part);
- the delivery of certain comfort letters and tax representation letters by Dominion Energy and SCANA for use in connection with the Form S-4 (of which this proxy statement/prospectus is a part);

Table of Contents

- cooperation between Dominion Energy and SCANA to obtain all governmental approvals, consents and waiting period expirations required to complete the merger;
- providing prompt notice to the other parties of any communications received from any governmental entity with respect to the merger or the other transactions contemplated by the merger agreement;
- promptly taking all steps necessary to avoid, eliminate or resolve each and every impediment to and obtain all consents under applicable law that may be required by any governmental entity so as to enable the parties to contemplate the merger and the other transactions contemplated by the merger agreement as soon as practicable;
- SCANA providing Dominion Energy with notice of any material communication to SCANA or its subsidiaries from any governmental entity related to or arising out of any material claim, investigation or proceeding related to or arising out of the construction or cessation of the construction of the NND project or the bankruptcy of Westinghouse (including the settlement agreement entered into with Toshiba Corporation and any contract relating to the proceeds thereof) and permitting Dominion Energy to, in certain circumstances, review and discuss in advance any response to such communications or participate in any meetings or discussions related thereto;
- confidentiality and access by each party to certain information about the other party and its subsidiaries prior to the effective time of the merger;
- Dominion Energy's use of reasonable best efforts to cause Dominion Energy common stock to be issued in connection with the merger to be approved for listing on the NYSE, subject to official notice of issuance, prior to the closing date;
- making certain public announcements concerning the merger;
- using reasonable best efforts to take all actions as are necessary to eliminate or minimize the effects of any anti-takeover statutes that may become applicable to the merger; and
- SCANA providing Dominion Energy with prompt written notice of any proceeding brought by a SCANA shareholder or any other third party against SCANA or its directors or officers arising out of or relating to the merger agreement or the transactions contemplated by the merger agreement and requesting Dominion Energy's consent prior to settling any such proceeding.

Social Commitments

Dominion Energy confirms in the merger agreement that, subject to the occurrence of the effective time of the merger, it:

- intends to maintain SCE&G's corporate headquarters in Cayce, South Carolina;
- will make a good faith commitment to give SCANA's employees and the employees of SCANA's subsidiaries due and fair consideration for other employment and promotion opportunities within Dominion Energy's larger organization, both inside and outside of South Carolina, to the extent any employment positions are re-aligned, reduced or eliminated in the future as a result of the merger;
- intends that the Dominion Energy board will take all necessary action as soon as practical after the effective time of the merger to appoint a current member of the SCANA Board or SCANA's executive management that is mutually agreement to Dominion Energy and SCANA as a director to serve on the Dominion Energy board; and
- intends to increase SCANA's historic level of corporate contributions to charities identified by SCANA's leadership by $1,000,000.00 per year for at least five (5) years after the effective time of the merger and to maintain or increase historic levels of community involvement, low income funding and economic development efforts in SCANA's current operating area, each of this commitment and the previous three bullets we refer to as the social commitments.

Table of Contents

Indemnification and Insurance

The merger agreement provides that from and after the effective time of the merger, Dominion Energy will indemnify and hold harmless each current and former director and officer of SCANA and its subsidiaries (in each case, when acting in such capacity) for any liabilities for acts or omissions occurring at or prior to the effective time of the merger including any acts or omissions occurring in respect of the transactions contemplated by the merger agreement.

In addition, from and after the effective time of the merger, Dominion Energy will cause the surviving corporation to honor the provisions regarding exculpation of directors, limitation of liability of directors and officers, advancement of expenses and indemnification set forth in the organizational documents of SCANA and its subsidiaries (as in effect on the date of the merger agreement) or certain indemnification contacts existing immediately prior to the effective time of the merger and will not, for a period of three (3) years following the effective time of the merger (as may be extended in certain instances), amended, replace or otherwise modify such provisions.

Dominion Energy is also required to cause the surviving corporation to maintain directors' and officers' and fiduciary liability insurance policies for at least six (6) years following the effective time of the merger, subject to certain limitations on the amount of premiums payable under such policies. In lieu of such insurance, SCANA may, prior to the completion of the merger, purchase a "tail" directors' and officers' liability insurance policy for its current and former directors and officers who are currently covered by the liability insurance coverage currently maintained by SCANA.

Employee Matters

The merger agreement provides that, for the period that begins at the effective time of the merger and ends on December 31, 2019 (which we refer to as the continuation period), Dominion Energy shall, or shall cause the surviving corporation to provide, each SCANA non-union employee who is employed immediately prior to the effective time of the merger with (i) annual base compensation that is no less than the annual base compensation provided to the employee immediately prior to the effective time; (ii) annual target cash incentive opportunities that are no less than the annual target cash incentive opportunities provided to the employee immediately prior to the effective time of the merger, subject to satisfaction of performance criteria determined by Dominion Energy (consistent with the form and terms and conditions, including performance criteria, of such awards provided to other similarly situated employees of Dominion Energy, and other terms and conditions of Dominion Energy's annual incentive program); (iii) long-term target incentive award opportunities that are no less than the long-term target incentive award opportunities provided to the employee immediately prior to the effective time of the merger (to be provided in such a form, and subject to performance and vesting criteria and other terms and conditions as Dominion Energy shall determine, consistent with the form and terms and conditions, including performance criteria, of such awards provided to other similarly situated employees of Dominion Energy); (iv) employment within a fifty (50)-mile radius from each employee's location of employment immediately prior to the effective time and duties and responsibilities similar to what the employee had immediately prior to the effective time of the merger; and (v) other employee benefits that are substantially comparable in the aggregate to the employee benefits provided to the employee immediately prior to the effective time of the merger. Dominion Energy shall, or shall cause the surviving corporation to provide, each SCANA union employee who is employed immediately prior to the effective time of the merger with compensation and benefits and other terms and conditions of employment in accordance with the terms of their collective bargaining agreement or any subsequently adopted collective bargaining agreement.

The merger agreement further provides that, during the continuation period, SCANA employees who are covered under two (2) SCANA severance plans for executives and other key employees in effect prior to the effective time of the merger will be provided with severance benefits no less favorable than the benefits provided under those plans for at least the longer of the continuation period or the change in control protection period

T

Table of Contents

under those plans. Benefits provided under the SCANA Corporation Supplementary Key Executive Severance Benefits Plan, including potential increases in benefits to be provided to certain executives, are described in more detail in "*The Merger—Interests of SCANA's Directors and Executive Officers in the Merger—Payments under the Supplementary Key Executive Severance Benefits Plan*." All other SCANA employees who are terminated without good cause during the continuation period will be provided with reasonable outplacement services and severance benefits that are no less favorable than the greater of (i) the severance pay that would be owed pursuant to Dominion Energy's severance program in effect as of the date of the merger agreement (notwithstanding any coverage exclusion that would otherwise apply with respect to union employees) or (ii) the employee's base salary or base compensation paid on a payroll period by payroll period basis until December 31, 2019.

The merger agreement provides that, during the continuation period or, if later, until all obligations have been satisfied, Dominion Energy will (or will cause the surviving corporation to) assume, honor and continue all of SCANA's employment, severance, retention, termination, deferred compensation, and change in control plans, policies, programs, agreements and arrangements maintained by SCANA as in effect at the effective time of the merger, including with respect to any payments, benefits or rights arising as a result of the transaction, and will not amend or terminate them unless permitted under their terms as in effect at the effective time of the merger or as required by applicable laws; provided that Dominion Energy will not amend certain deferred compensation and severance plans during the continuation period other than as required by applicable laws. Dominion Energy will also (or will cause the surviving corporation to) expressly assume and agree to perform all obligations under the terms of such plans, to the extent required by their terms.

The merger agreement also provides that each SCANA employee's service with SCANA and its subsidiaries and predecessors (to the extent such predecessor service was recognized under the comparable SCANA plan) will be treated as service with Dominion Energy and its subsidiaries for eligibility, vesting and level-of-benefit purposes (other than benefit accrual under any defined benefit pension plan or except as would result in a duplication of benefits) under any employee benefit plans maintained by Dominion Energy or its subsidiaries in which SCANA employees are eligible to participate after the closing date of the merger, including vacation, paid time off and severance plans. In addition, Dominion Energy will (or will cause the surviving corporation to) waive any pre-existing condition limitations, exclusions, actively-at-work requirements and waiting periods under any welfare benefit plan maintained by Dominion Energy, the surviving corporation or its subsidiaries in which SCANA employees and their eligible dependents will be eligible to participate from and after the effective time of the merger, except to the extent not satisfied or waived under the comparable SCANA plan immediately prior to the effective time of the merger. Dominion Energy will (or will cause the surviving corporation to) recognize the dollar amount of all co-payments, deductibles and similar expenses incurred by each SCANA employee (and his or her eligible dependents) during the calendar year or plan year in which the effective time of the merger occurs for purposes of satisfying such year's deductible and co-payment limitations under the relevant welfare benefit plans in which they are eligible to participate after the effective time of the merger. For any insured plan, such waivers and crediting of amounts will be subject to the consent of the insurer, which Dominion Energy will use commercially reasonable efforts to obtain.

Representations and Warranties

Mutual Representations and Warranties

The merger agreement contains certain customary representations and warranties by SCANA and Dominion Energy and Merger Sub that are subject, in some cases, to specific exceptions and qualifications contained in the merger agreement, in any form, statement, certification, report or other document filed with or furnished to the SEC since January 1, 2016 and publicly available at least twenty-four (24) hours prior to the date of the merger agreement (excluding, in each case, any disclosures set forth in any risk factor section or in any other section to the extent such disclosures are forward-looking statements or are cautionary, predictive or forward-looking in nature), or in the SCANA disclosure letter and the Dominion Energy disclosure materials (with any item disclosed in any section or subsection of either of the disclosure letters deemed disclosed with respect to any other section or subsection of the merger agreement to which the relevance of such item is reasonably apparent).

T

Table of Contents

These representations and warranties relate to, among other things:

- organization, good standing and corporate power;
- subsidiaries;
- capital structure;
- corporate authority and approval related to the execution, delivery and performance of the merger agreement;
- the absence of violations of, or conflicts with, either SCANA's or Dominion Energy's, or their respective subsidiaries', governing documents, or governmental orders, applicable law and certain agreements, in each case as a result of entering into and performing under the merger agreement;
- governmental filings, notices, declarations, registrations, consents, approvals or authorizations required to complete the merger;
- proper and accurate filings with the SEC since June 30, 2016;
- accuracy of financial statements;
- absence of undisclosed liabilities and certain off-balance-sheet arrangements;
- compliance with disclosure controls and procedures required under the Exchange Act;
- since January 1, 2017, the absence of any changes, developments, circumstances, effects, events or occurrences that would be expected to have a material adverse effect on SCANA or Dominion Energy and their respective subsidiaries as applicable;
- since January 1, 2017, SCANA or Dominion Energy, as applicable, have conducted their respective businesses in all material respects in the ordinary course of business consistent with past practice;
- absence of certain litigation;
- compliance with applicable laws;
- certain tax matters;
- regulatory status and compliance matters;
- broker's and finder's fees payable in connection with the merger; and
- accuracy of information supplied for the Form S-4 (of which this proxy statement/prospectus is a part).

Dominion Energy Additional Representations and Warranties

The merger agreement also contains additional representations and warranties by Dominion Energy relating to the following:

- that no vote or consent of Dominion Energy's shareholders or of any of Dominion Energy's affiliates' shareholders, other than the approval of the sole shareholder of Merger Sub, is necessary for Dominion Energy and Merger Sub to approve the merger agreement and complete the merger and the other transactions contemplated by the merger agreement;
- capitalization and operations of Merger Sub;
- the ownership of SCANA shares by Dominion Energy, Merger Sub or any of their subsidiaries; and
- available funds and financial ability to pay all amounts due in respect of the equity award consideration.

Table of Contents

SCANA Additional Representations and Warranties

The merger agreement also contains additional representations and warranties by SCANA relating to the following:

- the voting requirements of the SCANA shareholders in order for SCANA to approve the merger agreement and approve and complete the merger and the other transactions contemplated by the merger agreement;
- compliance with applicable permits;
- employee benefits;
- labor and employment matters;
- material contracts;
- real property;
- environmental matters;
- intellectual property, privacy and information technology matters;
- certain regulatory compliance matters relating to SCANA's existing nuclear operations, including decommissioning thereof, and the construction and abandonment of the NND project;
- takeover statutes;
- insurance policies; and
- receipt by the SCANA board of opinions from SCANA's financial advisors.

Material Adverse Effect

Many of SCANA's and Dominion Energy's representations and warranties in the merger agreement are qualified by, among other things, exceptions relating to the absence of a "material adverse effect," which means any change that has a material adverse effect on the business, financial condition, assets, liabilities or results of operations of, as applicable, SCANA and its subsidiaries, taken as a whole, or Dominion Energy and its subsidiaries, taken as a whole, except that no change arising out of or resulting from any of the following will, either alone or in combination, constitute or contribute to a material adverse effect:

- changes in the economy in the United States or elsewhere in the world, including as a result of changes in geopolitical conditions;
- changes that affect any of the industries in which SCANA and its subsidiaries or Dominion Energy and its subsidiaries, as applicable, operate;
- changes in the financial, debt, capital, credit or securities markets generally in the United States or elsewhere in the world, including changes in interest rates;
- changes in the stock price or trading volume of shares of SCANA's common stock or shares of Dominion Energy's common stock, as applicable, or credit rating of SCANA or any of its subsidiaries or Dominion Energy or any of its subsidiaries, as applicable, or any failure by SCANA or Dominion Energy, as applicable, to meet published analyst estimates or expectations of such party's revenue, earnings or other financial performance or results of operations for any period, or any failure by SCANA or Dominion Energy, as applicable, to meet its internal or published projections, budgets, plans or forecasts of its revenues, earnings or other financial performance or results of operations for any period, except that the changes underlying any such change or failure that are not otherwise excluded from the definition of material adverse effect may be considered in determining whether there has been a material adverse effect;

Table of Contents

- changes in any applicable law, legislative or political conditions or policy or practices of any governmental entity (other than SC law changes);
- changes in applicable accounting regulations or principles or interpretations thereof;
- an act of terrorism or an outbreak or escalation of hostilities or war (whether declared or not declared) or earthquakes, any weather-related or other force majeure events or other natural disasters or any national or international calamity or crisis;
- the announcement, execution or delivery of the merger agreement or the public announcement or pendency of the merger or the other transactions contemplated by the merger agreement, in each case, including any impact thereof on relationships, contractual or otherwise, with governmental entities or customers, suppliers, distributors, lenders, partners or employees of SCANA and its subsidiaries or Dominion Energy and its subsidiaries, as applicable;
- actions taken or requirements imposed by any governmental entities, in connection with obtaining the regulatory approvals or the SCPSC petition approval;
- any proceeding brought by a SCANA shareholder or any other person against SCANA or its directors arising out of or relating to the merger agreement or the transactions contemplated by the merger agreement or changes with respect thereto; and
- any proceeding disclosed in certain portions of the SCANA disclosure letter or changes with respect thereto;

except, with respect to the first (1st), second (2nd), third (3rd), fifth (5th) and sixth (6th) bullets above, in the case of changes, to the extent not otherwise excluded under the merger agreement, that such change has a materially disproportionate adverse effect, as applicable, on SCANA and its subsidiaries, taken as a whole, or Dominion Energy and its subsidiaries, take as a whole, as compared to the other companies engaged in the relevant business affected by such change.

Amendment

At any time prior to the effective time of the merger, the merger agreement may be amended by the parties; however, no amendment of the merger agreement will be made which, pursuant to applicable law or the rules of the NYSE, requires further approval by the SCANA shareholders or approval by the Dominion Energy shareholders, as applicable, without such approval being obtained.

Extension; Waiver

At any time prior to the effective time of the merger any party to the merger agreement may, subject to certain exceptions and limitations, (i) extend the time for performance of any obligations or other acts of the other parties, (ii) waive any inaccuracies in the representations and warranties of the other parties contained in the merger agreement or in any document delivered pursuant to the merger agreement or (iii) waive compliance by another party with any of the agreements or conditions contained in the merger agreement; provided, however, that neither Dominion Energy nor Merger Sub may perform any of the foregoing with respect to Merger Sub or Dominion Energy, respectively. No extension or waiver will be made which, pursuant to applicable law or the rules of the NYSE, requires further approval by the SCANA shareholders or approval by the Dominion Energy shareholders, as applicable, without such approval being obtained.

THE SCANA BOARD RECOMMENDS THAT YOU VOTE "FOR" THE MERGER PROPOSAL.

Table of Contents

NON-BINDING ADVISORY VOTE ON NAMED EXECUTIVE OFFICER MERGER-RELATED COMPENSATION

As required by Section 14A of the Exchange Act and the applicable SEC rules issued thereunder, SCANA is required to submit a proposal to SCANA shareholders for a non-binding advisory vote to approve the payment of certain compensation payable to the named executive officers of SCANA that is based on or otherwise relates to the merger. This proposal, which we refer to as the merger-related compensation proposal, gives SCANA shareholders the opportunity to express their views on the compensation that SCANA's named executive officers may be entitled to receive that is based on or otherwise relates to the merger.

The compensation that SCANA's named executive officers may be entitled to receive that is based on or otherwise relates to the merger is summarized in the table entitled "*Merger-Related Compensation*," which is included in "*The Merger—Potential Payments Upon a Termination In Connection With a Change in Control*" beginning on page 76 of this proxy statement/prospectus.

The following resolution is submitted for shareholder vote:

"RESOLVED, that the shareholders of SCANA Corporation approve, on a non-binding advisory basis, the compensation that may be paid or become payable to its named executive officers that is based on or otherwise relates to the merger as disclosed pursuant to Item 402(t) of Regulation S-K in the table entitled "*Merger-Related Compensation*," which is included in "*The Merger—Potential Payments Upon a Termination In Connection With a Change in Control*," and the related narrative disclosures.

Approval of this proposal is not a condition to completion of the merger, and as a non-binding advisory vote, the result will not be binding on SCANA or Dominion Energy, or the SCANA board or the Dominion Energy board or their respective compensation committees. Therefore, if the merger is approved by the shareholders of SCANA and completed, the merger-related compensation would still be paid to the SCANA named executive officers regardless of whether the shareholders of SCANA approve the merger-related compensation proposal. Proxies submitted without direction pursuant to this solicitation will be voted "FOR" the approval of the compensation to be paid to SCANA's named executive officers that is based on or otherwise relates to the merger, as disclosed in this proxy statement/prospectus.

THE SCANA BOARD RECOMMENDS THAT YOU VOTE "FOR" THE MERGER-RELATED COMPENSATION PROPOSAL.

T

Table of Contents

PROPOSAL TO ADJOURN THE SPECIAL MEETING OF SCANA SHAREHOLDERS

If there are not sufficient votes at the time of the special meeting to approve the merger proposal, SCANA may propose to adjourn the special meeting to a later date or dates in order to permit the solicitation of additional proxies. Under South Carolina law, no notice of adjournment need be given to you other than the announcement of the adjournment at the special meeting.

In order to permit proxies that have been received by SCANA at the time of the special meeting to be voted for an adjournment, if necessary, SCANA has submitted the adjournment proposal to you as a separate matter for your consideration.

In the adjournment proposal, SCANA is asking you to authorize the holder of any proxy solicited by the SCANA board to vote in favor of adjourning the special meeting and any later adjournments. If the SCANA shareholders approve the adjournment proposal, SCANA could adjourn the special meeting, and any adjourned session of the special meeting, to use the additional time to solicit additional proxies in favor of the merger proposal, including the solicitation of proxies from shareholders that have previously voted against the merger proposal. As a result, even if proxies representing a sufficient number of votes against the merger proposal have been received such that if a vote on the merger proposal were held the merger proposal would not be approved, SCANA could adjourn the special meeting without a vote on the merger proposal and seek to convince the holders of those shares of SCANA common stock to change their votes to votes in favor of the merger proposal.

The SCANA board believes that if the number of shares of SCANA common stock present or represented at the special meeting and voting in favor of the merger proposal is insufficient to approve the merger proposal, it is in the best interests of the SCANA shareholders to enable the SCANA board, for a limited period of time, to continue to seek to obtain a sufficient number of additional votes to approve the merger proposal.

The adjournment proposal will be approved if more votes are cast in favor of the proposal than against the proposal. Abstentions and broker non-votes will not be counted as a vote “FOR” or “AGAINST” the adjournment proposal. Proxies submitted without direction pursuant to this solicitation will be voted “FOR” the approval of the adjournment proposal.

THE SCANA BOARD RECOMMENDS THAT YOU VOTE “FOR” THE ADJOURNMENT PROPOSAL.

UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS

The unaudited pro forma consolidated financial statements of Dominion Energy consist of a condensed consolidated balance sheet at September 30, 2017, consolidated statement of income for the nine months ended September 30, 2017 and consolidated statement of income for the year ended December 31, 2016, which reflect Dominion Energy's anticipated acquisition of SCANA, expected to occur by the end of 2018. The unaudited pro forma consolidated financial statements included herein have been derived from the following historical financial statements:

- the audited financial statements of Dominion Energy for the year ended December 31, 2016;
- the unaudited interim financial statements of Dominion Energy for the nine months ended September 30, 2017;
- the audited financial statements of SCANA for the year ended December 31, 2016; and
- the unaudited interim financial statements of SCANA for the nine months ended September 30, 2017.

On January 2, 2018, Dominion Energy entered into the merger agreement with SCANA, which provides for a stock-for-stock merger in which SCANA shareholders would receive 0.6690 of a share of Dominion Energy common stock for each share of SCANA common stock. Following completion of the merger, SCANA would operate as a wholly-owned subsidiary of Dominion Energy.

The pro forma adjustments have been prepared as if the acquisition of SCANA occurred on September 30, 2017 in the case of the unaudited pro forma condensed consolidated balance sheet and on January 1, 2016 in the case of the unaudited pro forma consolidated statements of income. The unaudited pro forma consolidated financial statements should be read in conjunction with the related notes, which are included herein, the financial statements and notes included in Dominion Energy's Annual Report on Form 10-K for the year ended December 31, 2016 and the Quarterly Report on Form 10-Q for the nine months ended September 30, 2017, and the financial statements and notes included in SCANA's Annual Report on Form 10-K for the year ended December 31, 2016 and the Quarterly Report on Form 10-Q for the nine months ended September 30, 2017.

The unaudited pro forma consolidated financial statements do not necessarily reflect what Dominion Energy's financial position and results of operations would have been if it had owned SCANA during the periods presented. In addition, they are not necessarily indicative of its future results of operations or financial condition. The assumptions and adjustments give pro forma effect to events, described below, that are (i) directly attributable to Dominion Energy's acquisition of SCANA, (ii) factually supportable, and (iii) with respect to the unaudited pro forma consolidated statements of income, expected to have a continuing impact on Dominion Energy. The actual adjustments may differ from the pro forma adjustments.

The unaudited pro forma consolidated financial statements give effect to Dominion Energy's acquisition of SCANA for total consideration consisting of the right to receive 0.6690 of a share of Dominion Energy common stock for each share of SCANA common stock. While additional financing, either through the issuance of common stock or debt, may be required by Dominion Energy to fund certain provisions proposed to the SCPSC in connection with the merger agreement, such financing transactions have not been reflected in the unaudited pro forma consolidated financial statements due to the uncertainty of such plans at this point in time.

DOMINION ENERGY, INC.
NOTES TO UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. BASIS OF PRESENTATION

The unaudited pro forma consolidated financial statements included herein have been derived from the following historical financial statements:

T

- the audited financial statements of Dominion Energy for the year ended December 31, 2016;
- the unaudited interim financial statements of Dominion Energy for the nine months ended September 30, 2017;
- the audited financial statements of SCANA for the year ended December 31, 2016; and
- the unaudited interim financial statements of SCANA for the nine months ended September 30, 2017.

On January 2, 2018, Dominion Energy entered into an Agreement and Plan of Merger with SCANA, which provides for a stock-for-stock merger in which SCANA shareholders would receive 0.6690 of a share of Dominion Energy common stock for each share of SCANA common stock. Following completion of the merger, SCANA would operate as a wholly-owned subsidiary of Dominion Energy.

The pro forma adjustments have been prepared as if the acquisition of SCANA occurred on September 30, 2017 in the case of the unaudited pro forma condensed consolidated balance sheet and on January 1, 2016 in the case of the unaudited pro forma consolidated statements of income for the year ended December 31, 2016 and for the nine months ended September 30, 2017. The adjustments give pro forma effect to events that are (i) directly attributable to Dominion Energy's acquisition of SCANA, (ii) factually supportable, and (iii) with respect to the unaudited pro forma consolidated statements of income, expected to have a continuing impact on Dominion Energy. The adjustments are based on currently available information and certain estimates and assumptions, and therefore the actual effects of these transactions will differ from the pro forma adjustments. However, management believes that the assumptions used provide a reasonable basis for presenting the significant effects of the transaction, and that the pro forma adjustments in the unaudited pro forma consolidated financial statements give appropriate effect to the assumptions. The effects on the unaudited pro forma consolidated financial statements of the transaction described above are more fully described in Note 4.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies followed in preparing the unaudited pro forma consolidated financial statements are those used by Dominion Energy as set forth in the audited historical financial statements and notes of Dominion Energy included in its Annual Report on Form 10-K for the year ended December 31, 2016, as filed. The unaudited pro forma consolidated financial statements reflect any adjustments known at this time to conform SCANA's historical financial information to Dominion Energy's significant accounting policies based on Dominion Energy's review of SCANA's summary of significant accounting policies, as disclosed in the SCANA historical financial statements incorporated by reference, and preliminary discussions with SCANA's management. Upon completion of the merger and a more comprehensive comparison and assessment, additional differences may be identified.

NOTE 3. PRELIMINARY PURCHASE PRICE AND PRELIMINARY PURCHASE PRICE ALLOCATION

Preliminary Purchase Price

The merger agreement provides that each outstanding share of SCANA common stock will be converted into the right to receive 0.6690 of a share of Dominion Energy common stock.

The fair value of the purchase consideration expected to be transferred on the closing date includes the value of the estimated equity consideration (including the value attributable to the consideration transferred of

T

Table of Contents

replacement stock compensation awards). The fair value per share of Dominion Energy common stock was assumed for pro forma purposes to be $75.07 per share, which was the closing price of Dominion Energy's common stock on February 13, 2018, and may change significantly between these unaudited pro forma consolidated financial statements and the closing of the acquisition. The accompanying unaudited pro forma condensed consolidated balance sheet reflects an estimated preliminary purchase price of approximately $7.2 billion.

The preliminary purchase price for the merger is estimated as follows:

T

(millions, except exchange ratio and closing price)	
SCANA shares outstanding at September 30, 2017	142.9
Exchange ratio (per SCANA share)	0.6690
Estimated total Dominion Energy common shares to be issued	95.6
Closing price of Dominion Energy common stock on February 13, 2018	75.07
Estimated equity portion of purchase price	$ 7,178
Estimated equity compensation	17
Total estimated purchase price	$ 7,195

Preliminary Purchase Price Allocation

Under the acquisition method of accounting, the identifiable assets acquired and liabilities assumed of SCANA are recorded at fair value on the acquisition date and added to those of Dominion Energy. The pro forma adjustments included herein are preliminary and based on estimates of the fair value and useful lives of the assets acquired and liabilities assumed and have been prepared to illustrate the estimated effect of the acquisition between Dominion Energy and SCANA. Significant portions of SCANA's operations are subject to the rate-setting authority of the FERC, SCPSC or NCUC. The carrying values of the assets and liabilities subject to regulatory accounting under GAAP, including property, plant and equipment, are considered to approximate the fair values. A fair value adjustment has not been included for SCANA's pension and other postretirement benefit obligations, which could vary by a significant amount due to potential changes in discount rates, return on plan assets or other assumptions surrounding the determination of these obligations. At this time, Dominion Energy management does not have sufficient information to record any adjustments to measure legal contingencies at fair value or at a reasonably estimable amount. The final purchase price allocation is dependent upon certain valuation and other studies that have not yet been completed. The final determination of the purchase price allocation, upon the consummation of the acquisition, will be based on the net assets acquired as of that date and will depend on a number of factors, which cannot be predicted with any certainty at this time. The purchase price allocation may change materially based on the receipt of more detailed information. Accordingly, the pro forma purchase price allocation is preliminary and is subject to further adjustment as additional information becomes available and as additional analyses and final valuations are completed. There can be no assurance that these additional analyses and final valuations will not result in significant changes to the estimates of fair value set forth below.

T

Table of Contents

The following table provides a summary of the preliminary allocation of the estimated purchase price to the identifiable tangible and intangible assets acquired and liabilities assumed of SCANA, based on SCANA's consolidated balance sheet at September 30, 2017, with all excess value over consideration paid recorded as goodwill.

(millions)	
Total current assets	$ 2,164
Investments	209
Property, plant and equipment	10,497
Goodwill	1,608
Regulatory assets	6,690
Other deferred charges and other assets, including intangible assets	393
Total assets	21,561
Total current liabilities	2,515
Long-term debt	6,507
Deferred tax liabilities	1,774
Regulatory liabilities	2,015
Other deferred credits and other liabilities	1,555
Total liabilities	14,366
Total estimated purchase price	$ 7,195

NOTE 4. PRO FORMA ADJUSTMENTS AND ASSUMPTIONS

The following transactions are directly attributable to Dominion Energy's acquisition of SCANA.

(a) Reflects the issuance of 95.6 million shares of Dominion Energy common stock to SCANA shareholders as consideration for the acquisition. The number of shares of Dominion Energy common stock was calculated based on 142.9 million of shares of SCANA common stock outstanding at September 30, 2017 multiplied by the 0.6690 exchange ratio per the merger agreement. Based on the closing price of Dominion Energy at February 13, 2018 of $75.07, such consideration is calculated to have a value of $7.2 billion, as shown in Note 3 above.

(b) Reflects the accrual of $59 million in estimated transaction costs associated with the acquisition of SCANA by Dominion Energy, including audit, legal and advisory fees.

(c) Reflects an up-front, one-time rate credit totaling $1.3 billion to all current retail electric service customers of SCE&G to be paid within 90 days of the closing of the merger, as proposed to the SCPSC, through the reclassification of $1.1 billion of an existing regulatory liability from noncurrent to current and the accrual of an additional $200 million to current regulatory liabilities. The impact of this up-front, one-time rate credit has not been reflected in the unaudited pro forma consolidated statements of income as the $200 million charge is nonrecurring.

(d) Reflects the accrual of a $575 million refund of amounts previously collected from retail electric customers of SCE&G to be credited over an estimated eight-year period following the merger, as proposed to the SCPSC. The allocation between current and noncurrent regulatory liabilities has been determined based on the expected portion to be credited to customer bills. The impact of this refund has not been reflected in the unaudited pro forma consolidated statements of Income as the $575 million charge is nonrecurring.

(e) Reflects the write-down of $1.5 billion of existing regulatory assets associated with the NND project which SCE&G will not seek recovery of following the merger, as proposed to the SCPSC. The impact of this write-down has not been reflected in the unaudited pro forma consolidated statements of income as the $1.5 billion charge is nonrecurring.

Table of Contents

(f) Reflects the presentation of nonregulated property, plant and equipment at estimated fair value and the removal of historical accumulated depreciation. For the purposes of the preliminary purchase price allocation in Note 3, the estimated fair value is equal to the carrying value.

T

(g) Reflects the excess of Dominion Energy's consideration paid of approximately $1.6 billion over the amount of identifiable assets and liabilities assumed in the transaction (goodwill) as shown in Note 3 above. In addition, this reflects the removal of SCANA's previously recorded goodwill.

T

(h) Reflects the estimated settlement of all outstanding SCANA equity compensation awards at the time of the merger, calculated based on an estimated share price of $50.22, which is 0.6690 percent of the share price of Dominion Energy's common stock at closing on February 13, 2018 of $75.07, and allocated between compensation considered to be service provided prior to the merger ($17 million) and expense to be recognized after the merger ($20 million). The impact of this charge has not been reflected in the unaudited pro forma consolidated statements of income as it is nonrecurring.

T

(i) Reflects an intangible asset for the value of customer relationships estimated to be $144 million with a weighted average useful life of approximately three (3) years included within the preliminary purchase price allocation in Note 3. Amortization is based on the expected pattern of economic benefit, estimated to be $46 million, $31 million, $21 million, $14 million and $10 million over the five (5)-year period following the acquisition. Estimated amortization of this asset is $24 million for the nine months ended September 30, 2017 and $46 million for the year ended December 31, 2016.

T

(j) Reflects a contract liability for the unfavorable terms of an existing contract estimated to be $75 million with a 14-month useful life included within the preliminary purchase price allocation in Note 3. Estimated amortization of this liability is $11 million for the nine months ended September 30, 2017 and $64 million for the year ended December 31, 2016.

T

(k) Reflects an increase in current liabilities for incremental charitable contributions committed to by Dominion Energy under the terms of the merger agreement of $20 million, $4 million of which is considered a current liability. The impact of this charge has not been reflected in the unaudited pro forma consolidated statements of income as it is nonrecurring.

T

(l) Reflects the fair value adjustment of long-term debt of $47 million, on a weighted average maturity of approximately three (3) years, and the write-off of $5 million of unamortized debt issuance costs included within the preliminary purchase price allocation in Note 3. Estimated amortization of the fair value premium, and the elimination of the recorded debt issuance cost amortization, is $13 million and $1 million for the nine months ended September 30, 2017, and $19 million and $1 million for the year ended December 31, 2016, respectively.

T

(m) Reflects the elimination of SCANA's historical shareholders' equity.

T

(n) This pro forma adjustment conforms SCANA's accounting for AROs to the methodology used by Dominion Energy. The cash flows used to measure Dominion Energy's pipeline AROs reflect the cost and timing of activities legally required to retire component sections of pipeline as they are removed from service. The cash flows previously used to measure SCANA's pipeline AROs are those legally required to retire the entire pipeline system at one point in time. As a result of this change in accounting estimate, Dominion Energy recorded an increase of $247 million to property, plant and equipment and increases of $6 million and $241 million to current and noncurrent other liabilities, respectively.

T

(o) Reflects income taxes on pro forma adjustments based on an estimated statutory tax rate of 38.3%. The unaudited pro forma condensed consolidated balance sheet includes adjustments related to the preliminary purchase price allocation ($7 million) and related to pro forma adjustment impacting retained earnings ($923 million).

T

(p) Reflects the elimination of SCANA's historical accumulated other comprehensive loss.

T

(q) Reflects the elimination of transactions between Dominion Energy and SCANA, primarily for the purchase and sale of natural gas transportation, included in each company's historical financial statements.

T

Table of Contents

(r) Reflects the elimination of the SCANA common stock offset by the issuance of 95.6 million shares of Dominion Energy common stock as discussed in tickmark (a).

T

Table of Contents

COMPARISON OF SHAREHOLDER RIGHTS

If the merger is completed, SCANA shareholders will become shareholders of Dominion Energy. The rights of Dominion Energy shareholders are governed by and subject to the provisions of the VSCA, and the Dominion Energy charter and the Dominion Energy bylaws, rather than the provisions of the SCBCA and Title 35, Chapter 2 of the Code of Laws of South Carolina 1976, as amended, which we refer to as the Business Combination Statutes, the SCANA charter, the SCANA bylaws, and the "Governance Principles" of SCANA adopted by the SCANA board, which we refer to as the Governance Principles. The following is a summary of the material differences between the rights of holders of Dominion Energy common stock and the rights of holders of SCANA common stock. It does not purport to be a complete description of those differences, does not include a complete description of the specific rights of Dominion Energy shareholders and SCANA shareholders, and is qualified in its entirety by reference to the relevant provisions of (i) the VSCA, (ii) the SCBCA and the Business Combination Statutes, (iii) the Dominion Energy charter, (iv) the Dominion Energy bylaws, (v) the SCANA charter, (vi) the SCANA bylaws, (vii) the description of Dominion Energy common stock contained in Dominion Energy's Form 8-K/A filed on August 8, 2016, (viii) the Governance Principles and (ix) the description of SCANA common stock contained in SCANA's Registration Statement on Form 8-B dated November 6, 1984, as amended on May 26, 1995.

The identification of some of the differences in the rights of such holders as material is not intended to indicate that other differences that may be equally important do not exist. We urge you to read carefully the relevant portions of the VSCA, the SCBCA and the Business Combination Statutes, as well as the Dominion Energy charter, the Dominion Energy bylaws, the SCANA charter and the SCANA bylaws, copies of which are available, without charge, to any person, including any beneficial owner to whom this proxy statement/prospectus is delivered, by following the instructions listed under "*Where You Can Find More Information*" on page 136 of this proxy statement/prospectus.

AUTHORIZED CAPITAL STOCK

T

DOMINION ENERGY	SCANA
The Dominion Energy charter authorizes it to issue one billion shares of common stock without par value and 20 million shares of preferred stock. As of , 2018, there were shares of Dominion Energy common stock outstanding and no shares of Dominion Energy preferred stock outstanding	The SCANA charter authorizes it to issue 200 million shares of common stock without par value. As of , 2018, there were [ ] shares of SCANA common stock outstanding. SCANA is not authorized to issue any preferred stock.

VOTING RIGHTS

T

DOMINION ENERGY	SCANA
Each share of Dominion Energy common stock is entitled to one vote in the election of directors and other matters. Common stock shareholders are not entitled to cumulative voting rights.	Each share of SCANA common stock is entitled to one vote in the election of directors and other matters. Common stock shareholders are not entitled to cumulative voting rights.

T

Table of Contents

NUMBER OF DIRECTORS

T

DOMINION ENERGY	SCANA
The Dominion Energy charter currently provides that the Dominion Energy board shall consist of not less than 10 or more than 17 directors. The exact number of directors, within the range specified in the preceding sentence, is determined from time to time by resolution adopted by (i) the affirmative vote of a majority of the directors then in office or (ii) the shareholders of Dominion Energy by a majority of the votes entitled to be cast at an election of directors. The Dominion Energy board currently has 12 directors.	The SCANA bylaws currently provide that the SCANA board shall consist of not less than nine or more than 20. The exact number of directors, within the range specified in the preceding sentence, is determined from time to time by resolution adopted by (i) the SCANA board by the affirmative vote of a majority of the directors at a meeting at which a quorum is present or (ii) the SCANA shareholders, if more votes are cast in favor of the proposed size of the board of directors than against the proposed size. The SCANA board currently has nine directors.

CLASSES OF DIRECTORS

T

DOMINION ENERGY	SCANA
The Dominion Energy board is not classified. All directors are elected annually.	The SCBCA permits a classified board so long as SCANA has at least six directors, and the SCANA charter provides for a classified board. The SCANA board is divided into three classes. Each class of directors consists, as nearly as possible, of one-third of the total number of directors constituting the entire board. Each director serves for a term ending on the date of the third annual meeting of shareholders following the annual meeting at which the director was elected. However, the SCANA charter provides that the term of a director who is not a salaried employee of SCANA shall expire at the annual meeting next preceding the date on which such director attains age 70 and the term of office of any director who is a salaried employee of SCANA (except in the case of the Chief Executive Officer) shall expire upon such director attaining age 65 or upon his retirement from active service with the corporation, whichever is earlier.

ELECTION OF DIRECTORS

T

DOMINION ENERGY	SCANA
Under the Dominion Energy bylaws, a director is elected if the number of votes cast for a nominee's election exceeds the number of votes cast against the nominee's election. In a contested election, where the number of nominees exceeds the number of directors to be elected, directors are elected by a plurality of the votes cast.	Under the SCBCA, directors are elected by a plurality of the votes cast by the shares entitled to vote in the election at a meeting at which a quorum is present. The Governance Principles provide that in an election in which the number of nominees is not greater than the number of board seats open for election any nominee who receives a greater number of votes "withheld" from his or her election than votes "for" his or her election will tender his or her

T

Table of Contents

DOMINION ENERGY	SCANA
	written resignation to the Chairman of the SCANA board for consideration by the Nominating and Governance Committee of the SCANA board, which we refer to as the Nominating and Governance Committee. The Nominating and Governance Committee will consider such tendered resignation and will make a recommendation to the SCANA board concerning the acceptance or rejection of such resignation. In determining its recommendation to the SCANA board, the Nominating and Governance Committee will consider all factors deemed relevant by the members of the Nominating and Governance Committee. The SCANA board will take formal action on the Nominating and Governance Committee's recommendation no later than 90 days following the date of the shareholders' meeting at which the election occurred.

REMOVAL OF DIRECTORS

T

DOMINION ENERGY	SCANA
Under the Dominion Energy bylaws, directors may be removed from office for cause if the number of votes cast to remove the director constitutes a majority of the votes entitled to be cast at an election of directors of the voting group by which the director was elected.	The SCANA charter provides that the vote of at least 80% of the shares entitled to vote shall be required to remove a director except for cause. A director may be removed for cause if the number of votes cast favoring removal exceeds the number of votes cast opposing removal. Under the SCANA charter, cause for removal of a director means fraudulent or dishonest acts, or gross abuse of authority in the discharge of duties to SCANA, and must be established after written notice of specific charges and an opportunity to meet and refute such charges.

FILLING VACANCIES ON THE BOARD OF DIRECTORS

T

DOMINION ENERGY	SCANA
Vacancies on the Dominion Energy board, whether occurring due to the creation of a new directorship or as a result of death, resignation, retirement or disqualification of a director, may be filled only by a majority vote of the directors then in office. If a vacancy results from the removal of a director by shareholders for cause at a meeting called for such purpose, the shareholders may elect a successor if such purpose was included in the meeting notice. Any director elected to fill a vacancy will serve until the next annual meeting of shareholders.	The SCANA charter provides that vacancies on the SCANA board, whether occurring due to the creation of a new directorship or as a result of the death, resignation, retirement, disqualification or removal of a director or otherwise, may be filled only by a majority vote of the directors then in office even if less than a quorum is present when the vote was held. Any director elected to fill a vacancy will serve until the next shareholders' meeting at which directors are elected.

T

Table of Contents

PROXY ACCESS FOR DIRECTOR NOMINATIONS

T

DOMINION ENERGY	SCANA
The Dominion Energy bylaws permit a shareholder, or a group of up to 20 shareholders, owning 3% or more of Dominion Energy's outstanding common stock for at least three years, to nominate and include in the annual proxy materials director candidates to occupy up to two or 20% of the board seats (whichever is greater), provided that such shareholder or group of shareholders otherwise satisfies the requirements set forth in the bylaws.	The SCANA bylaws permit a shareholder, or a group of up to 20 shareholders, owning 3% or more of SCANA's outstanding common stock for at least three years, to nominate and include in the annual meeting proxy materials director candidates for election for up to one director or 20% of the directors to be elected (whichever is greater), provided that such shareholder or group of shareholders otherwise satisfies the requirements set forth in the bylaws.

SPECIAL MEETINGS OF SHAREHOLDERS

T

DOMINION ENERGY	SCANA
Under the Dominion Energy bylaws, meetings of the shareholders may be called by the chairman of the board, the vice chairman, the president or a majority of the members of the Dominion Energy board. Special meetings of shareholders also will be held whenever called by the Corporate Secretary, upon the written request of shareholders owning more than 25% of all outstanding shares of common stock continuously for a period of at least one year prior to the date of such request.	Under the SCANA bylaws, special meetings of the shareholders may be called by the chief executive officer, by the chairman of the SCANA board or by a majority of the members of the SCANA board.

QUORUM

T

DOMINION ENERGY	SCANA
The Dominion Energy bylaws provide that, at any meeting of the shareholders, a majority of the votes entitled to be cast on a matter shall constitute a quorum. A lesser interest may adjourn any meeting from time to time.	The SCBCA provides that a majority of votes entitled to be cast on a matter shall constitute a quorum. Once a share is represented for any purpose at a meeting, it is considered present for quorum purposes for the remainder of the meeting and for any adjournment of that meeting unless a new record date is or must be set for that adjourned meeting.

NOTICE OF SHAREHOLDER MEETINGS

T

DOMINION ENERGY	SCANA
Under the Dominion Energy bylaws, notice stating the place, day and hour of each shareholders meeting and, in the case of a special meeting, the purpose for which the meeting is called, shall be given not less than 10 nor more than 60 days before the date of the meeting to each shareholder of record entitled to vote at the meeting. Notice of a shareholders meeting to act on an amendment of the charter, on a plan of merger or share exchange, on a proposed dissolution of Dominion Energy or on a proposed sale, lease or exchange, or other disposition of assets that would leave Dominion	Under the SCBCA, notice stating the date, time and place of each shareholders' meeting, and in the case of a special meeting, the purpose for which the meeting is called, must be given no fewer than 10 nor more than 60 days before the meeting to each shareholder of record entitled to vote at the meeting. In addition, notice of a shareholders' meeting to act on an amendment to the charter, on a plan of merger or share exchange, on a proposed dissolution of SCANA or on a proposed sale, lease, exchange or other disposition of all or substantially all of its

T

Table of Contents

DOMINION ENERGY	SCANA
Energy without a significant continuing business activity shall be given not less than 25 nor more than 60 days before the date of the meeting. If any shareholders meeting is adjourned to a different date, time or place, notice need not be given if the new date, time or place is announced at the meeting before adjournment. However, if a new record date for the adjourned meeting is fixed, notice of the adjourned meeting shall be given to shareholders entitled to notice of the new record date.	property other than in the usual and regular course of business must be given to each shareholder not entitled to vote. If any shareholders' meeting is adjourned to a different date, time or place, notice need not be given of the new date, time or place if the new date, time and place is announced at the meeting before adjournment. However, if a new record date for the adjourned meeting is or must be fixed, notice of the adjourned meeting must be given to shareholders entitled to notice as of the new record date.

ADVANCE NOTICE OF SHAREHOLDER PROPOSALS

T

DOMINION ENERGY	SCANA
The Dominion Energy bylaws establish an advance notice procedure with regard to nominations and other business proposals to be brought before the annual meeting by a shareholder. To nominate directors, shareholders must submit a written notice to the Corporate Secretary at least 60 days before a scheduled meeting. The notice must include the name and address of the shareholder and of the nominee, a description of any arrangements between the shareholder and the nominee, information about the nominee required by the SEC, the written consent of the nominee to serve as a director and other information. Non-director nomination shareholder proposals must be submitted to the Corporate Secretary at least 90 days before the first anniversary of the date of the last annual meeting. The notice must include a description of the proposal, the reason for presenting the proposal at the annual meeting, the text of any resolutions to be presented, the shareholder's name and address and number of shares held and any material interest of the shareholder in the proposal.	The SCANA bylaws establish an advance notice procedure with regard to nominations and other business proposals to be brought before the annual meeting by a shareholder. To nominate a director or to propose other business, a shareholder must submit a written notice to the Corporate Secretary at least 120 days prior to the first anniversary of the date of the proxy statement sent to shareholders in connection with the preceding year's annual meeting. The notice must include the name, address and share ownership of the shareholder making the nomination or proposing other business. In the case of a nomination, the notice must also include the information about the nominee required by the SEC, a description of any arrangements between the shareholder and the nominee and the written consent of the nominee to serve as a director and other information. In the case of a business proposal, the notice must contain a description of the proposal, the reason for presenting the proposal at the annual meeting and any material interest of such shareholder in such business.

ACTION BY WRITTEN CONSENT OF THE SHAREHOLDERS

T

DOMINION ENERGY	SCANA
Neither the Dominion Energy charter nor the Dominion Energy bylaws provide for action by written consent of the shareholders.	Under the SCBCA, action required or permitted to be taken at a shareholders' meeting may be taken without a meeting if the action is taken by all the shareholders entitled to vote on the action. The action must be evidenced by one or more written consents describing the action taken, signed by all the shareholders entitled to vote on the action, and delivered to the corporation for inclusion in the minutes or filing with the corporate records.

T

Table of Contents

"POISON PILL" PROVISIONS AND OTHER SHAREHOLDER PROTECTIVE MEASURES

T

DOMINION ENERGY	SCANA
Neither the Dominion Energy charter nor the Dominion Energy bylaws establish any anti-takeover provisions or "poison pill" provisions.	The SCANA charter provides that any "business combination" involving SCANA and any "related person" or any affiliate or associate of a related person must be approved by holders of at least 80% of SCANA common stock. However, such higher vote is not required if (i) the business combination is approved by a majority of the directors who are not the related person or an affiliate or associate of the related person and who were directors immediately before the related person became a related person, (ii) the business combination is solely with a subsidiary of SCANA and does not have the effect of increasing the voting power of the related person or (iii) the business combination satisfies certain minimum price and other standards and no "extraordinary event" occurs after the related person becomes a related person and prior to the business combination, all as described in the SCANA charter. For purposes of these provisions, (1) a "related person" means any person (with certain exceptions) who is the beneficial owner of more than 10% of SCANA common stock; (2) a "business combination" means any of the following transactions, when entered into by SCANA or a subsidiary of SCANA with, or upon a proposal by or on behalf of, a related person: (a) a merger or completion of a plan of share exchange of SCANA or any subsidiary, (b) the sale, lease, mortgage, pledge, transfer or other disposition other than in the ordinary course of business of assets of SCANA or any subsidiary having an aggregate fair market value of $10 million or more, (c) the issuance or transfer by SCANA or any subsidiary of any securities of SCANA or that subsidiary, other than proportionately to all SCANA shareholders or such subsidiary, (d) the adoption of any plan or proposal for the liquidation or dissolution of SCANA, (e) a reclassification of securities, recapitalization or other transaction (whether or not involving a related person) which has the effect of increasing the voting power of a related person in the capital stock of SCANA or any subsidiary, or (f) any agreement, contract or other arrangement providing directly or indirectly for any of the foregoing; and (3) an "extraordinary event" means, as to any business combination and any related person, any of the following events that is not approved by a majority of all SCANA directors who are not related persons or affiliates, associates or representatives of related

T

Table of Contents

DOMINION ENERGY	SCANA
	persons and who were directors immediately prior to the time such related person became a related person, including but not limited to: (a) any reduction in the annual rate of dividends on SCANA common stock or failure to increase such annual rate to reflect any reclassification, recapitalization, reorganization or any similar transaction that reduces the number of outstanding shares of SCANA common stock, (b) the receipt by a related person of any direct or indirect benefit from any loans, advances, guarantees, pledges or other financial assistance or any tax credits or other tax advantages provided by SCANA or its subsidiaries, whether in anticipation of or in connection with the business combination or otherwise or (c) any increase in the number of shares of common stock that the related person owns, except in a transaction that does not increase the related person's percentage of ownership thereof. The SCANA charter also requires the approval of the holders of a majority of the outstanding shares of SCANA's common stock before SCANA may purchase any outstanding shares of its common stock from any person known by SCANA to be an owner of more than three percent of SCANA's common stock, which we refer to as a selling shareholder, who has purchased or agreed to purchase any of such shares within the most recent two-year period at a price known by SCANA to be above "market price" (unless SCANA purchases such shares on the same terms as a result of an offer by SCANA to purchase all of the outstanding shares of SCANA common stock). For purposes of the vote required to approve such transaction with a selling shareholder, the shares of SCANA common stock held by such selling shareholder shall be counted as having abstained regardless of how they have been voted. For purposes of these provisions, "market price" means the highest closing sale price, during the 30-day period immediately preceding the date in question, of a share of SCANA common stock on the composite tape for New York Stock Exchange issues.

BUSINESS COMBINATION STATUTES

T

DOMINION ENERGY	SCANA
The VSCA contains several provisions relating to transactions with interested shareholders (holders of more than 10% of any class of a corporation's outstanding voting shares). Transactions between a corporation and an interested shareholder are referred to	The Business Combination Statutes contain several provisions relating to transactions with interested shareholders (holders of more than 10% of the voting power of a corporation's outstanding voting shares or any person who currently is or was within the

T

Table of Contents

DOMINION ENERGY	SCANA
as affiliated transactions. The VSCA prohibits a Virginia corporation from engaging in an affiliated transaction with an interested shareholder during the three years following the date that such shareholder becomes "interested" without (i) approval of two-thirds of the disinterested voting shares and (ii) majority approval of disinterested directors. After those initial three years, a material affiliated transactions must be approved by either (i) two-thirds of disinterested shareholders or (ii) a majority of disinterested directors. Affiliated transactions include mergers, share exchanges, material dispositions of corporate assets, dissolution or any reclassification of securities or merger of the corporation with any of its subsidiaries which has the result of increasing the percentage of voting shares owned by an interested shareholder by more than five percent. The provisions of the VSCA relating to affiliated transactions do not apply if a majority of disinterested directors approve the acquisition of shares making a person an interested shareholder, and the VSCA permits corporations to opt out of the affiliated transactions provisions. Dominion Energy has not opted out. The VSCA also contains provisions regulating certain control share acquisitions, which are transactions causing the voting strength of any person acquiring beneficial ownership of shares of a Virginia public corporation to meet or exceed certain threshold voting percentages (20%, 33 1/3%, or 50%). Shares acquired in a control share acquisition have no voting rights unless the voting rights are granted by a majority vote of all outstanding shares other than those held by the acquiring person or any officer or employee-director of the corporation. The acquiring person may require that a special meeting of the shareholders be held to consider the grant of voting rights to the shares acquired in the control share acquisition. The Dominion Energy bylaws grant Dominion Energy the right to redeem the shares purchased by an acquiring person in a control share acquisition. Dominion Energy can do this if the acquiring person fails to deliver a statement to Dominion Energy listing information required by the VSCA or if the shareholders vote not to grant voting rights to the acquiring person. The VSCA permits corporations to opt out of the control share acquisition provisions. Dominion Energy has not opted out.	two years prior to such transaction an affiliate or associate of such interested shareholder). The Business Combination Statutes prohibit a South Carolina corporation from engaging in a business combination of the type described above in the section of this chart entitled "Anti-Takeover Provisions and Other Shareholder Protections" (except that only such sales, leases, mortgages, pledges, transfers or other dispositions of assets which represent at least ten percent of the assets, earning power or net income, determined on a consolidated basis, or aggregate market value of the outstanding shares, of such corporation shall be taken into account) with an interested shareholder unless such business combination meets the requirements of the corporation's articles of incorporation and either (i) is approved by (a) such corporation's board of directors prior to the date the interested shareholder first becomes an interested shareholder ("share acquisition date"), or (b) affirmative vote of the holders of a majority of the outstanding voting shares not beneficially owned by the interested shareholder (or any affiliate or associate thereof), at a meeting called for that purpose no earlier than two years after the interested shareholder's share acquisition date, or (ii) satisfies certain minimum price and other standards described in the Business Combination Statutes. However, if such business combination occurs during the two years following the interested shareholder's share acquisition date, such business combination must also be approved by a majority of disinterested directors. For purposes of these provisions, a director of a corporation is disinterested if the director is not a present or former officer or employee of such corporation. The Business Combination Statutes permit corporations to opt out of the business combinations provisions. SCANA has not opted out. The Business Combination Statutes also contain provisions regulating certain control share acquisitions, which are transactions causing the voting strength of any person acquiring beneficial ownership of shares of a South Carolina public corporation to meet or exceed certain threshold voting percentages (20%, 33 1/3%, or 50%). Shares acquired in a control share acquisition have no voting rights unless the voting rights are granted by a majority vote of all outstanding shares other than those held by the acquiring person or any officer or employee-director of the corporation. The acquiring

T

Table of Contents

DOMINION ENERGY	SCANA
	person may require that a special meeting of the shareholders be held to consider the grant of voting rights to the shares acquired in the control share acquisition. The Business Combination Statutes permit a South Carolina corporation to redeem the shares purchased by an acquiring person in a control share acquisition if so authorized in a corporation's articles of incorporation or bylaws before a control share acquisition has occurred, and if the acquiring person fails to deliver a statement to such corporation listing information required by the Business Combination Statutes or if the shareholders vote not to grant voting rights to the acquiring person. Neither the SCANA charter nor the SCANA bylaws contain such authorizations. The Business Combination Statutes permit corporations to opt out of the control share acquisition provisions. SCANA has not opted out.

VOTES ON MERGERS, CONSOLIDATIONS AND CERTAIN OTHER TRANSACTIONS

T

DOMINION ENERGY	SCANA
The Dominion Energy charter requires that any merger, share exchange or sale of substantially all of Dominion Energy's assets be approved by a majority of the votes entitled to be cast on the matter by each voting group entitled to vote on the matter. Abstentions and broker non-votes will have no effect on the outcome.	The SCBCA provides that any merger, share exchange or sale of substantially all of SCANA's assets must be approved by holders of at least two-thirds of SCANA shares outstanding. Abstentions and broker non-votes have the effect of a vote against any such proposed transaction. As described above in the sections of this chart entitled "Anti-Takeover Provisions and Other Shareholder Protections" and "Business Combination Statutes", greater or additional voting requirements may apply in certain circumstances.

DIVIDENDS

T

DOMINION ENERGY	SCANA
Dominion Energy's common shareholders may receive dividends when declared by the Dominion Energy board. Dividends may be paid in cash, stock or other form. In certain cases, common shareholders may not receive dividends until Dominion Energy has satisfied its obligations to any preferred shareholders. Under certain circumstances, Dominion Energy's indentures may also restrict its ability to pay cash dividends.	Under the SCBCA, the SCANA board may authorize and SCANA may pay dividends; provided, however, that no dividend may be paid if, after giving it effect, SCANA would be insolvent. Dividends may be paid in cash, stock or other form. Under certain circumstances, indentures or other agreements entered into by certain of SCANA's subsidiaries may restrict the ability of such subsidiaries to pay dividends to SCANA.

T

Table of Contents

LIMITATION OF PERSONAL LIABILITY OF OFFICERS AND DIRECTORS

T

DOMINION ENERGY	SCANA
The Dominion Energy charter provides that Dominion Energy's directors and officers will not be personally liable for monetary damages to Dominion Energy for breaches of their fiduciary duty as directors or officers, unless they violated their duty of loyalty to Dominion Energy or its shareholders, acted in bad faith, knowingly or intentionally violated the law, authorized illegal dividends or redemptions or derived an improper personal benefit from their action as directors or officers. This provision applies only to claims against directors or officers arising out of their role as directors or officers and not in any other capacity. Directors and officers remain liable for violations of the federal securities laws, and Dominion Energy retains the right to pursue legal remedies other than monetary damages, such as an injunction or rescission for breach of the officer's or director's duty of care.	The SCANA charter provides that SCANA's directors will not be personally liable for monetary damages for breaches of their fiduciary duty as directors except for (i) any breach of their duty of loyalty to SCANA or its shareholders, (ii) acts or omissions not in good faith or which involve gross negligence, intentional misconduct or a knowing violation of law, (iii) authorizing any illegal dividends or redemptions or (iv) any transaction from which the director derived improper personal benefit. This provision applies only to claims against directors arising out of their role as directors and not in any other capacity. Directors remain liable for violations of the federal securities laws, and SCANA retains the right to pursue legal remedies other than monetary damages, such as an injunction or rescission for breach of the director's duty of care.

INDEMNIFICATION OF DIRECTORS AND OFFICERS AND INSURANCE

T

DOMINION ENERGY	SCANA
The Dominion Energy charter mandates indemnification of its directors and officers to the full extent permitted by the VSCA and any other applicable law. The VSCA permits a corporation to indemnify its directors and officers against liability incurred in all proceedings, including derivative proceedings, arising out of their service to the corporation or to other corporations or enterprises that the officer or director was serving at the request of the corporation, except in the case of willful misconduct or a knowing violation of a criminal law. Dominion Energy is required to indemnify its directors and officers in all such proceedings if they have not violated this standard. Dominion Energy has also entered into agreements relating to the advancement of expenses for certain of its directors and officers in advance of a final disposition of proceedings or the making of any determination of eligibility for indemnification pursuant to Dominion Energy's charter. In addition, the Dominion Energy charter limits the liability of its directors and officers to the full extent permitted by the VSCA as now and hereafter in effect. The VSCA places a limit on the liability of a director or officer in derivative or shareholder proceedings equal to the lesser of (i) the amount specified in the corporation's articles of incorporation or a shareholder-approved bylaw; or (ii) the greater of (a) $100,000 or (b) twelve months of cash compensation received by the director or	The SCBCA permits a corporation to indemnify its directors and officers against liability incurred in all proceedings if such directors and officers (i) conducted themselves in good faith, (ii) reasonably believed, in the case of conduct in their official capacities with the corporation, that their conduct was in the corporation's best interest and, in all other cases, that their conduct was at least not opposed to its best interest or, in the case of conduct with respect to an employee benefit plan, for a purpose reasonably believed to be in the interests of the participants and beneficiaries of such plan, and (iii) in the case of any criminal proceeding, had no reasonable cause to believe their conduct was unlawful; provided, however, such directors and officers may not be indemnified in connection with a proceeding in which they are adjudged liable to the corporation or any other proceeding charging that such directors or officers received any improper personal benefit in which they are adjudged liable on that basis. SCANA is also required to indemnify its directors and officers against reasonable expenses incurred by them in all proceedings to which they are party and have been adjudged to be wholly successful on the merits or otherwise. SCANA has also entered into agreements relating to the advancement of expenses for its directors and certain of its officers in advance of a final disposition of proceedings.

T

Table of Contents

DOMINION ENERGY	SCANA
officer. The limit does not apply in the event the director or officer has engaged in willful misconduct or a knowing violation of a criminal law or a federal or state securities law. The effect of the Dominion Energy charter, together with the VSCA, is to eliminate liability of directors and officers for monetary damages in derivative or shareholder proceedings so long as the required standard of conduct is met. Dominion Energy has purchased directors' and officers' liability insurance policies. Within the limits of their coverage, the policies insure (1) the directors and officers of Dominion Energy against certain losses resulting from claims against them in their capacities as directors and officers to the extent that such losses are not indemnified by Dominion Energy and (2) Dominion Energy to the extent that it indemnifies such directors and officers for losses as permitted under the laws of Virginia.	In addition, the SCANA charter eliminates or limits the liability of its directors only to the maximum extent permitted by the SCBCA or any successor law or laws, and provides that any repeal or modification of such protection by the SCANA shareholders shall not adversely affect any right or protection of a director of the corporation existing at the time of such repeal or modification. SCANA has purchased directors' and officers' liability insurance policies. Within the limits of their coverage, the policies insure (1) the directors and officers of SCANA against certain losses resulting from claims against them in their capacities as directors and officers to the extent that such losses are not indemnified by SCANA and (2) SCANA to the extent that it indemnifies such directors and officers for losses as permitted under the laws of South Carolina.

AMENDMENT TO ARTICLES OF INCORPORATION AND BYLAWS

T

DOMINION ENERGY	SCANA
Generally, the Dominion Energy charter may be amended if the votes cast favoring the amendment exceed the votes cast opposing the amendment at a meeting where a quorum is present. Some provisions of the Dominion Energy charter, however, may only be amended or repealed by a majority of the votes entitled to be cast on the matter by each voting group entitled to vote on the matter. The Dominion Energy bylaws may be amended by both the Dominion Energy board and the Dominion Energy shareholders, except that a bylaw enacted by the shareholders may not be amended or repealed by the board if it so expressly provides. Furthermore, provisions of the Dominion Energy bylaws concerning special meetings of shareholders and the nomination and election of directors may not be amended or repealed without the affirmative vote of a majority of the votes entitled to be cast on the matter.	Generally, the SCANA charter may be amended if approved by holders of a majority of SCANA common stock. Some provisions of the SCANA charter, including the provisions relating to removal of directors other than for cause, certain business combinations described above in the section of this chart entitled "Anti-Takeover Provisions and Other Shareholder Protections", the classification of the board, filling board vacancies and the expiration of terms of directors who are not salaried employees of SCANA, may only be amended or repealed if approved by holders of at least 80% of SCANA common stock. SCANA bylaws may be amended by both the SCANA board and the SCANA shareholders, except that a bylaw adopted, amended or repealed by the SCANA shareholders may not be adopted, amended or repealed by the SCANA board if the shareholders expressly so provide.

SHAREHOLDER PROPOSALS

SCANA's 2018 annual meeting of shareholders, which we refer to as the 2018 annual meeting, is scheduled for , 2018. As disclosed in the proxy statement for SCANA's 2017 annual meeting of shareholders, any SCANA shareholder desiring to submit a proposal pursuant to Rule 14a-8 under the Exchange Act for inclusion in SCANA's proxy statement and proxy card for the 2018 annual meeting must have submitted the proposal to SCANA's Corporate Secretary no later than November 24, 2017. In addition, any shareholder desiring to bring other business (including director nominations) before the 2018 annual meeting must have provided, pursuant to the SCANA bylaws, written notice of such business to SCANA's Corporate Secretary no later than November 24, 2017. In the event that the 2018 annual meeting is scheduled to be held on a date after May 25, 2018, SCANA will announce the date by which proposals pursuant to Rule 14a-8 must be submitted. In the event that the 2018 annual meeting is scheduled to be held on a date after June 26, 2018, the time period for any SCANA shareholder to bring other business (including director nominations) pursuant to the SCANA bylaws, before the 2018 annual meeting will be extended until the later of 120 days prior to the date of the 2018 annual meeting or 10 days following the day on which the 2018 annual meeting is publicly announced.

For additional requirements, SCANA shareholders should refer to Article I, Section 5 of the SCANA bylaws, a current copy of which may be obtained from SCANA's Corporate Secretary.

T

OTHER MATTERS

As of the date of this proxy statement/prospectus, the SCANA board knows of no matters that will be presented for consideration at the special meeting other than as described in this proxy statement/prospectus. If any other matters properly come before the special meeting or any adjournments or postponements of the meeting and are voted upon, the enclosed proxy will confer discretionary authority on the individuals named as proxy to vote the shares represented by the proxy as to any other matters. The individuals named as proxies intend to vote in accordance with their best judgment as to any other matters.

WHERE YOU CAN FIND MORE INFORMATION

Dominion Energy and SCANA file annual, quarterly and current reports, proxy statements and other information with the SEC. Dominion Energy's file number with the SEC is 001-08489 and SCANA's file number with the SEC is 001-08809. Filings made with the SEC by Dominion Energy and SCANA are available to the public over the Internet at the SEC's web site at *www.sec.gov*. The information contained on the SEC's website is expressly not incorporated by reference into this proxy statement/prospectus. You may also read and copy any document Dominion Energy and SCANA file at the SEC's public reference room at 100 F. Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room.

Dominion Energy has filed with the SEC a registration statement on Form S-4 of which this proxy statement/prospectus forms a part. The registration statement registers the shares of Dominion Energy common stock to be issued to SCANA shareholders in connection with the merger. The registration statement, including the attached exhibits and schedules, contains additional relevant information about Dominion Energy common stock. The rules and regulations of the SEC allow Dominion Energy and SCANA to omit certain information included in the registration statement from this proxy statement/prospectus.

The SEC allows Dominion Energy and SCANA to "incorporate by reference" the information they file with it, which means that Dominion Energy and SCANA can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be part of this proxy statement/prospectus, and information that Dominion Energy and SCANA file later with the SEC will automatically update or supersede this information.

Some of the filings Dominion Energy makes with the SEC are on a combined basis with two of its subsidiaries, Virginia Power and Dominion Energy Gas. Dominion Energy's combined filings with the SEC present separate filings by each of Virginia Power, Dominion Energy Gas and Dominion Energy. Dominion Energy incorporates by reference the documents listed below (other than any portions of the documents not deemed to be filed) and any future filings made with the SEC under Sections 13(a), 13(c), 14, or 15(d) of the Exchange Act, except those portions of filings that relate to Virginia Power or Dominion Energy Gas as a separate registrant, before the date of the special meeting.

Some of the filings SCANA makes with the SEC are on a combined basis with one of its subsidiaries, SCE&G. SCANA's combined filings with the SEC present separate filings by SCE&G and SCANA. SCANA incorporates by reference the documents listed below (other than any portions of the documents not deemed to be filed) and any future filings made with the SEC under Sections 13(a), 13(c), 14, or 15(d) of the Securities Exchange Act of 1934, except those portions of filings that relate to SCE&G as a separate registrant before the date of the special meeting.

AGREEMENT AND PLAN OF MERGER

This AGREEMENT AND PLAN OF MERGER, dated as of January 2, 2018 (this "Agreement"), is entered into by and among DOMINION ENERGY, INC., a Virginia corporation ("Parent"), SEDONA CORP., a South Carolina corporation and a wholly-owned Subsidiary of Parent ("Merger Sub") and SCANA CORPORATION, a South Carolina corporation (the "Company").

RECITALS

WHEREAS, the board of directors of Parent has approved this Agreement and the transactions contemplated by this Agreement, including the merger of Merger Sub with and into the Company (the "Merger"), on the terms and subject to the conditions set forth in this Agreement;

WHEREAS, the board of directors of the Company (the "Company Board") has (a) determined that it is in the best interests of the Company and the shareholders of the Company that the Company enter into this Agreement and consummate the Merger and the other transactions contemplated by this Agreement on the terms and subject to the conditions set forth in this Agreement, (b) adopted this Agreement and approved the transactions contemplated by this Agreement, including the Merger, (c) directed that the approval of this Agreement be submitted to a vote at a meeting of the shareholders of the Company and (d) resolved to recommend that the shareholders of the Company approve this Agreement;

WHEREAS, the board of directors of Merger Sub has (a) determined that it is in the best interests of Merger Sub and the sole shareholder of Merger Sub that Merger Sub enter into this Agreement and consummate the Merger and the other transactions contemplated by this Agreement on the terms and subject to the conditions set forth in this Agreement, (b) adopted this Agreement and approved the transactions contemplated by this Agreement, including the Merger and (c) resolved to recommend that the sole shareholder of Merger Sub approve this Agreement;

WHEREAS, for U.S. federal income tax purposes, the Merger is intended to qualify as a "reorganization" within the meaning of Section 368(a) of the Code (the "Intended Tax Treatment"), and this Agreement is intended to be a "plan of reorganization" for purposes of Sections 354 and 361 of the Code; and

WHEREAS, the Company, Parent and Merger Sub desire to make certain representations, warranties, covenants and agreements in connection with the Merger and also to prescribe various conditions to the Merger.

NOW, THEREFORE, in consideration of the premises, and of the representations, warranties, covenants and agreements contained in this Agreement, and intending to be legally bound hereby, the Company, Parent and Merger Sub hereby agree as follows:

ARTICLE I

THE MERGER

SECTION 1.01. The Merger. Upon the terms and subject to the conditions set forth in this Agreement and in accordance with the SCBCA, at the Effective Time, Merger Sub shall be merged with and into the Company and the separate corporate existence of Merger Sub shall thereupon cease and the Company shall continue as the surviving corporation in the Merger (the "Surviving Corporation") and a wholly-owned Subsidiary of Parent. The Merger shall have the effects set forth in this Agreement and in the applicable provisions of the SCBCA.
T

Table of Contents

SECTION 1.02. Closing. The closing of the Merger (the "Closing") shall take place at the offices of Mayer Brown LLP, 71 South Wacker Drive, Chicago, Illinois 60606, at 9:00 a.m., local time, on the third (3rd) Business Day following the day on which all of the conditions set forth in Article VI (other than those conditions that by their nature are to be satisfied at the Closing, but subject to the satisfaction or waiver of those conditions at the Closing) have been satisfied or waived in accordance with this Agreement, or at such other time and place as the Company and Parent may agree in writing. The date on which the Closing occurs is referred to in this Agreement as the "Closing Date".

SECTION 1.03. Effective Time. As soon as practicable on the Closing Date, the Company and Parent will cause the Merger to become effective by filing the articles of merger (the "Articles of Merger") with the Secretary of State of the State of South Carolina, which Articles of Merger will be executed and filed in accordance with the applicable provisions of the SCBCA. The Merger shall become effective at the time when the Articles of Merger have been duly filed with the Secretary of State of the State of South Carolina or at such later time as may be agreed by Parent and the Company in writing and specified in the Articles of Merger (the "Effective Time").

SECTION 1.04. Articles of Incorporation; Bylaws.

(a) At the Effective Time, the articles of incorporation of the Company, as in effect immediately prior to the Effective Time, shall be the articles of incorporation of the Surviving Corporation until thereafter amended in accordance with the provisions thereof and applicable Law; provided, however, that no such amendment shall be inconsistent with the obligations of Parent under Section 5.08(b).

(b) At the Effective Time, the bylaws of the Company, as in effect immediately prior to the Effective Time, shall be amended as of the Effective Time to be in the form of the bylaws of Merger Sub as of the date hereof (except with respect to the name of the Company, which shall be "SCANA Corporation"), with any changes necessary so that such bylaws shall be in compliance with Section 5.08 and, to the extent not inconsistent with any of the foregoing, such other changes as Parent deems necessary or appropriate) and as so amended shall be the bylaws of the Surviving Corporation until thereafter amended as provided therein or by applicable Law; provided, however, that no such amendment shall be inconsistent with the obligations of Parent under Section 5.08(b).

SECTION 1.05. Directors and Officers.

(a) The directors of Merger Sub will be appointed by Parent pursuant to applicable Law to be the directors of the Surviving Corporation after the Effective Time following the resignation or removal of the individuals serving as directors of the Company prior to the Effective Time in accordance with Section 5.15, with such directors appointed by Parent to serve until their respective successors have been duly elected or appointed and qualified or until their earlier death, resignation or removal in accordance with the articles of incorporation and the bylaws of the Surviving Corporation.

(b) The officers of the Company as of immediately prior to the Effective Time shall, from and after the Effective Time, be the officers of the Surviving Corporation until their respective successors have been duly elected or appointed and qualified or until their earlier death, resignation or removal in accordance with the articles of incorporation and the bylaws of the Surviving Corporation.

SECTION 1.06. Plan of Merger. This Agreement will constitute a "plan of merger" for purposes of the SCBCA.

T

Table of Contents

ARTICLE II

EFFECT OF THE MERGER ON THE CAPITAL STOCK OF THE CONSTITUENT CORPORATIONS

SECTION 2.01. Effect on Capital Stock. At the Effective Time, by virtue of the Merger and without any action on the part of the Company, Parent, Merger Sub or the holders of any shares of capital stock of the Company, Parent or Merger Sub:

(a) Merger Consideration. Each Company Share issued and outstanding immediately prior to the Effective Time (other than the Cancelled Shares, which shall be treated in accordance with Section 2.01(b)) shall cease to be outstanding, shall be cancelled and shall cease to exist, and each such Company Share, whether represented by a certificate ("Certificate") or in non-certificated form and represented by book-entry ("Book-Entry Share"), shall automatically be converted into the right to receive 0.6690 validly issued, fully paid and non-assessable Parent Shares (the "Merger Consideration"). Following the Effective Time, the holders of Company Shares as of immediately prior to the Effective Time shall cease to have any rights with respect thereto, except for the rights set forth in Section 2.03(b)(v).

(b) Cancellation of Cancelled Shares. Each Company Share owned by Parent, Merger Sub or any other wholly-owned Subsidiary of Parent and each Company Share owned by the Company or any wholly-owned Subsidiary of the Company (collectively, the "Cancelled Shares") shall cease to be outstanding, shall be cancelled without payment of any consideration therefor and shall cease to exist.

(c) Capital Stock of Merger Sub. Each share of common stock, without par value, of Merger Sub issued and outstanding immediately prior to the Effective Time shall be converted into and become one (1) validly issued, fully paid and non-assessable share of common stock, without par value, of the Surviving Corporation, and all such shares together shall constitute the only outstanding shares of capital stock of the Surviving Corporation.

SECTION 2.02. Treatment of Company Equity Awards.

(a) Treatment of Performance Shares. At the Effective Time, each performance share award granted under a Company Equity Award Plan that is outstanding immediately prior to the Effective Time (a "Company Performance Share Award") shall fully vest at the target level of performance and shall be cancelled and converted automatically into the right to receive the Equity Award Consideration in respect of each Company Share underlying such Company Performance Share Award.

(b) Treatment of Restricted Stock Units. At the Effective Time, each restricted stock unit award in respect of Company Shares granted under a Company Equity Award Plan that is outstanding immediately prior to the Effective Time (a "Company RSU") shall fully vest and shall be cancelled and converted automatically into the right to receive the Equity Award Consideration in respect of each Company Share underlying such Company RSU.

(c) Treatment of Deferred Units. At the Effective Time, each deferred unit in respect of Company Shares credited or deemed credited to the Company stock ledger under the Director Compensation and Deferral Plan or the Executive Deferred Compensation Plan that is outstanding immediately prior to the Effective Time (a "Company Deferred Unit") shall be converted automatically into a number of deferred unit(s) in respect of Parent Shares equal to the product of (x) the Company Deferred Unit multiplied by (y) the Merger Consideration, to be payable pursuant to the terms of the applicable plan.

(d) Payment. The Surviving Corporation shall pay the Equity Award Consideration as required under Section 2.02(a) and Section 2.02(b) as soon as reasonably practicable after the Effective Time (but in any event

T

Table of Contents

within three (3) Business Days thereafter); provided, however, that to the extent any such payment relates to any Company Performance Share Awards or Company RSUs that are nonqualified deferred compensation subject to Section 409A of the Code, the Surviving Corporation shall make such payment at the earliest time permitted under, and in accordance with, the terms of the applicable award agreement or other relevant documents and in accordance with Section 409A of the Code.

(e) Corporate Actions. At or prior to the Effective Time, the Company, the Company Board or any authorized committee thereof, as applicable, shall adopt any resolutions and take any actions that are necessary to effectuate the provisions of Section 2.02(a), Section 2.02(b) and Section 2.02(c). The Company shall take all actions necessary to ensure that, from and after the Effective Time, neither Parent nor the Surviving Corporation will be required to deliver Company Shares or other capital stock of the Company to any Person pursuant to or in settlement of Company Performance Share Awards, Company RSUs, Company Deferred Units or any other awards under any Company Equity Award Plan.

SECTION 2.03. Exchange of Company Shares.

(a) Exchange Agent. Prior to the Effective Time, Parent shall select a paying and exchange agent reasonably acceptable to the Company (the "Exchange Agent") and enter into an agreement with such Exchange Agent in form and substance reasonably acceptable to the Company pursuant to which the Exchange Agent will (i) act as agent for the shareholders of the Company in connection with the Merger and receive payment and delivery of the Merger Consideration to which the shareholders of the Company shall become entitled pursuant to Section 2.01(a) and (ii) act as agent for Parent in transmitting the Merger Consideration to such shareholders following the occurrence of the Effective Time in accordance with this Agreement. At or prior to the Effective Time, Parent shall deposit, or cause to be deposited, with the Exchange Agent, in trust for the benefit of the holders of Company Shares, an amount of Parent Shares in book-entry form sufficient for the Exchange Agent to pay and deliver the Merger Consideration required to be paid and delivered by Parent in accordance with Section 2.01(a). In addition, Parent shall deposit, or cause to be deposited, with the Exchange Agent, from time to time after the Effective Time, (A) any dividends or other distributions payable pursuant to Section 2.03(g) and (B) cash in lieu of any fractional Parent Shares payable pursuant to Section 2.03(h). All cash and Parent Shares, together with any dividends or other distributions, deposited with the Exchange Agent pursuant to this Section 2.03(a) shall be referred to as the "Exchange Fund."

(b) Exchange Procedures.

(i) Transmittal Materials and Instructions. Promptly after the Effective Time (and in any event within three (3) Business Days thereafter), Parent shall cause the Exchange Agent to mail or otherwise provide to each holder of record of Company Shares (other than holders of Cancelled Shares) (A) transmittal materials, including a letter of transmittal in form as agreed by Parent and the Company, specifying that delivery shall be effected, and risk of loss and title shall pass, with respect to Book-Entry Shares, only upon delivery of an "agent's message" regarding the book-entry transfer of Book-Entry Shares (or such other evidence, if any, of the transfer as the Exchange Agent may reasonably request), and with respect to Certificates, only upon delivery of the Certificates (or affidavits of loss in lieu of the Certificates as provided in Section 2.03(f) to the Exchange Agent), such transmittal materials to be in such form and have such other provisions as Parent and the Company may reasonably agree, and (B) instructions for use in effecting the surrender of the Book-Entry Shares or Certificates (or affidavits of loss in lieu of the Certificates as provided in Section 2.03(f)) to the Exchange Agent.

(ii) Certificates. Upon surrender of a Certificate (or affidavit of loss in lieu of the Certificate as provided in Section 2.03(f)) to the Exchange Agent in accordance with the terms of transmittal materials and instructions referred to in Section 2.03(b)(i), the holder of such Certificate shall be entitled to receive in exchange therefor (A) a cash amount in immediately available funds equal to (1) any dividends and other distributions such holder has the right to receive pursuant to Section 2.03(g) plus (2) any cash in lieu of any fractional Parent Shares such holder has the right to receive pursuant to Section 2.03(h) and (B) the number

T

Table of Contents

of Parent Shares, in uncertificated book-entry form, equal to the number of Company Shares represented by such Certificate (or affidavit of loss in lieu of the Certificate as provided in Section 2.03(f)) multiplied by the Merger Consideration. No interest will be paid or accrued on any cash amount payable upon due surrender of the Certificates.

(iii) Book-Entry Shares. Notwithstanding anything to the contrary contained in this Agreement, any holder of Book-Entry Shares shall not be required to deliver a Certificate or an executed letter of transmittal to the Exchange Agent to receive the aggregate Merger Consideration that such holder is entitled to receive as a result of the Merger pursuant to Section 2.01(a). In lieu thereof, each holder of record of one or more Book-Entry Shares (other than Cancelled Shares) shall upon receipt by the Exchange Agent of an "agent's message" in customary form (it being understood that the holders of Book-Entry Shares shall be deemed to have surrendered such Company Shares upon receipt by the Exchange Agent of such "agent's message" or such other evidence, if any, as the Exchange Agent may reasonably request) be entitled to receive, and Parent shall cause the Exchange Agent to pay and deliver as promptly as practicable after the Effective Time, (A) a cash amount in immediately available funds equal to (1) any dividends and other distributions such holder has the right to receive pursuant to Section 2.03(g) plus (2) any cash in lieu of any fractional Parent Shares such holder has the right to receive pursuant to Section 2.03(h) and (B) the number of Parent Shares, in uncertificated book-entry form, equal to the number of Company Shares represented by such Book-Entry Shares multiplied by the Merger Consideration. No interest will be paid or accrued on any cash amount payable upon due surrender of the Book-Entry Shares.

(iv) Unrecorded Transfers; Other Payments. In the event of a transfer of ownership of Company Shares that is not registered in the transfer records of the Company or if payment and delivery of the Merger Consideration and the other payments contemplated by Section 2.01(a) and this Section 2.03 is to be made to a Person other than the Person in whose name the surrendered Certificate or Book-Entry Share is registered, such Certificate or Book-Entry Share may be exchanged in accordance with this Article II if the Certificate or Book-Entry Share formerly representing such Company Shares is presented to the Exchange Agent accompanied by all documents required to evidence and effect such transfer and to evidence that any applicable transfer or other similar Taxes have been paid or are not applicable.

(v) Rights of Holders of Company Shares; Expenses. Until surrendered or exchanged pursuant to this Section 2.03(b), each Certificate or Book-Entry Share shall be deemed at any time after the Effective Time to represent only the right to receive upon such surrender or exchange the Merger Consideration pursuant to Section 2.01(a), any dividends and other distributions pursuant to Section 2.03(g) and any cash in lieu of any fractional Parent Shares pursuant to Section 2.03(h). Parent shall pay all charges and expenses, including those of the Exchange Agent, in connection with the exchange of Company Shares pursuant to this Article II.

(c) Termination of the Exchange Fund; No Liability. Any portion of the Exchange Fund (including the proceeds of any investment thereof) that remains undistributed one (1) year after the Effective Time shall be delivered to Parent or the Surviving Corporation, upon demand by Parent. Any holders of Company Shares (other than Cancelled Shares) who have not theretofore complied with this Article II shall thereafter be entitled to look only to Parent and the Surviving Corporation for payment and delivery of the Merger Consideration pursuant to Section 2.01(a), any dividends and other distributions pursuant to Section 2.03(g) and any cash in lieu of any fractional Parent Shares pursuant to Section 2.03(h) upon surrender of their Certificates or exchange of their Book-Entry Shares in accordance with the provisions set forth in Section 2.03(b), and Parent and the Surviving Corporation shall remain liable for (subject to applicable abandoned property, escheat or other similar Law) payment of their claims for the Merger Consideration payable upon surrender of their Certificates or exchange of their Book-Entry Shares. Notwithstanding the foregoing, none of the Surviving Corporation, Parent, the Company, the Exchange Agent or any other Person shall be liable to any former holder of Company Shares for any amount properly delivered to a public official pursuant to applicable abandoned property, escheat or other similar Law.

T

Table of Contents

(d) Investment of the Exchange Fund. The Exchange Agent shall invest the cash portion of the Exchange Fund as directed by Parent; provided, however, that such investments shall be in obligations of or guaranteed by the United States of America, in commercial paper obligations rated A-1 or P-1 or better by Moody's Investors Service, Inc. or Standard & Poor's Corporation, respectively, in certificates of deposit, bank repurchase agreements or banker's acceptances of commercial banks with capital exceeding $1 billion, or in money market funds which are invested in instruments that consist of U.S. Treasury obligations and repurchase agreements collateralized by U.S. Treasury obligations or having a rating in the highest investment category granted by a recognized credit rating agency at the time of acquisition or a combination of the foregoing and, in any such case, no such instrument shall have a maturity that could prevent or delay payments to be made pursuant to this Agreement. Subject to Section 2.03(c), to the extent that there are losses with respect to such investment of the cash portion of the Exchange Fund, or the cash portion of the Exchange Fund diminishes for other reasons, such that the amount of cash in the Exchange Fund is below the level required to make prompt cash payment of any dividends and other distributions pursuant to Section 2.03(g) and any cash in lieu of any fractional Parent Shares pursuant to Section 2.03(h), Parent shall promptly replace or restore the cash in the Exchange Fund lost through such investments or other events so as to ensure that the Exchange Fund is at all applicable times maintained at a level sufficient to make such cash payments. Any interest and other income resulting from such investment shall become a part of the Exchange Fund, and any amounts in excess of the aggregate amount of the payments described in the immediately preceding sentence will be promptly returned to Parent or the Surviving Corporation, as requested by Parent. The Exchange Fund shall not be used for any purpose other than as contemplated by Section 2.03(a) and this Section 2.03(d).

(e) Transfers. From and after the Effective Time, the stock transfer books of the Company shall be closed and there shall be no transfers on the stock transfer books of the Company of the Company Shares that were outstanding immediately prior to the Effective Time. If, after the Effective Time, acceptable evidence of a Certificate or Book-Entry Share is presented to the Surviving Corporation, Parent or the Exchange Agent for transfer, (i) in the case of Certificates, the holder of such Certificate shall be given a copy of the transmittal materials and instructions referred to in Section 2.03(b)(i) and instructed to comply with the instructions thereto in order to receive the Merger Consideration pursuant to Section 2.01(a) and (ii) in the case of Book-Entry Shares, such Book-Entry Share shall be cancelled and exchanged as contemplated by this Article II.

(f) Lost Certificates. In the case of any Certificate that has been lost, stolen or destroyed, upon the making of an affidavit of that fact by the Person claiming such Certificate to be lost, stolen or destroyed and, if required by the Exchange Agent or Parent, the posting by such Person of a bond in a reasonable amount as indemnity against any claim that may be made against it with respect to such Certificate, the Exchange Agent shall pay and deliver in exchange for such Certificate the Merger Consideration pursuant to Section 2.01(a), any dividends or other distributions payable pursuant to Section 2.03(g) and any cash in lieu of any fractional Parent Shares pursuant to Section 2.03(h).

(g) Dividends.

(i) Certificates. No dividends or other distributions declared or made with respect to Parent Shares with a record date after the Effective Time shall be paid to the holder of any Certificate with respect to the Parent Shares that such holder would be entitled to receive upon surrender of such Certificate, until such holder shall surrender such Certificate in accordance with Section 2.03(b)(ii). Subject to applicable Law, following surrender of any such Certificate, there shall be paid to the holder of Parent Shares issued in exchange therefor, without interest, (A) promptly after the time of such surrender, the amount of dividends and other distributions with a record date after the Effective Time but prior to such surrender and a payment date prior to such surrender payable with respect to such Parent Shares and (B) at the appropriate payment date, the amount of dividends and other distributions with a record date after the Effective Time but prior to such surrender and a payment date subsequent to such surrender payable with respect to such Parent Shares.

(ii) Book-Entry Shares. Subject to applicable Law, there shall be paid to the holder of Parent Shares issued in exchange for Book-Entry Shares in accordance with Section 2.03(b)(iii), without interest,

T

Table of Contents

(A) promptly upon receipt by the Exchange Agent of an "agent's message" (or such other evidence, if any, of surrender as the Exchange Agent may reasonably request), the amount of dividends and other distributions with a record date after the Effective Time but prior to such receipt and a payment date prior to such receipt payable with respect to such Parent Shares and (B) at the appropriate payment date, the amount of dividends and other distributions with a record date after the Effective Time but prior to such receipt and a payment date subsequent to such receipt payable with respect to such Parent Shares.

(h) Fractional Shares. No certificates or scrip representing fractional Parent Shares shall be issued upon the conversion of the Company Shares into the Merger Consideration pursuant to Section 2.01(a), and such fractional share interests shall not entitle the owner thereof to vote or to any rights of a holder of Parent Shares. For purposes of this Section 2.03(h), all fractional shares to which a single record holder would be entitled shall be aggregated and calculations shall be rounded to four (4) decimal places. In lieu of any such fractional Parent Shares, each holder of Company Shares who would otherwise be entitled to such fractional Parent Shares shall be entitled to receive an amount in cash, without interest, rounded to the nearest cent, equal to the product of (i) the amount of such fractional Parent Share and (ii) the Average Price.

SECTION 2.04. Withholding Rights. Each of Parent and the Surviving Corporation shall be entitled to deduct and withhold from the consideration otherwise payable pursuant to this Agreement to any holder of Company Shares, Company Performance Share Awards and Company RSUs such amounts as it is required to deduct and withhold with respect to the making of such payment under the Code or any other applicable state, local or foreign Tax Law, taking into account any applicable exemption under such Law. To the extent that amounts are so withheld by Parent or the Surviving Corporation, as the case may be, such withheld amounts (a) shall be promptly remitted by Parent or the Surviving Corporation, as applicable, to the applicable Governmental Entity and (b) shall be treated for all purposes of this Agreement as having been paid to the holder of Company Shares, Company Performance Share Awards and Company RSUs (as applicable) in respect of which such deduction and withholding were made by the Surviving Corporation or Parent, as the case may be.

SECTION 2.05. No Dissenters' Rights. In accordance with Section 33-13-102(B) of the SCBCA, no holder of Company Shares shall be entitled to exercise dissenters' rights, appraisal rights or other similar rights in connection with the Merger and the other transactions contemplated by this Agreement.

SECTION 2.06. Adjustments . In the event of any change to the Company Shares or Parent Shares (or securities convertible thereto or exchangeable or exercisable therefor) issued and outstanding in the period between the date of this Agreement and the Effective Time as a result of a reclassification, stock split (including a reverse stock split), stock dividend or distribution, recapitalization, exchange or readjustment of shares, merger, issuer tender or exchange offer, or other similar transaction, the Merger Consideration and any other payments to be made pursuant to this Article II shall be equitably adjusted, without duplication, to provide the holders of Company Shares, Company Performance Share Awards, Company RSUs and Company Deferred Units the same economic effect contemplated by this Agreement prior to such change; provided, however, that nothing in this Section 2.06 shall be construed to permit the Company, Parent, any of their respective Subsidiaries or any other Person to take any action that is otherwise prohibited by the terms of this Agreement; and provided, further, that any adjustment pursuant to this Section 2.06 to any Company Performance Share Awards, Company RSUs and Company Deferred Units shall be done in all respects in accordance with Section 409A of the Code, if applicable, and the terms of the applicable Company Equity Award Plan.

ARTICLE III

REPRESENTATIONS AND WARRANTIES

SECTION 3.01. Representations and Warranties of the Company. Except (x) as disclosed in the SEC Reports of the Company or South Carolina Electric & Gas Company (each, a "Reporting Company") filed with
T

Table of Contents

or furnished to the SEC since January 1, 2016 and publicly available at least twenty-four (24) hours prior to the date of this Agreement (excluding any disclosures set forth in any risk factor section or in any other section to the extent such disclosures are forward-looking statements or are cautionary, predictive or forward-looking in nature) or (y) as set forth in the Company Disclosure Letter (it being agreed that disclosure of any item in any section or subsection of the Company Disclosure Letter shall also be deemed disclosed with respect to any other section or subsection of this Agreement to which the relevance of such item is reasonably apparent), the Company represents and warrants to Parent and Merger Sub as follows:

(a) Organization, Standing and Corporate Power. The Company is a corporation duly incorporated and validly existing under the Laws of the State of South Carolina and has all requisite corporate power and authority to carry on its business as currently conducted and is duly qualified or licensed to do business and is in good standing (where such concept is recognized under applicable Law) in each jurisdiction where the nature of its business or the ownership, leasing or operation of its properties or assets makes such qualification or licensing necessary, other than where the failure to be so qualified, licensed or in good standing has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect. Each of the Company's Subsidiaries is a legal entity duly organized, validly existing and in good standing (where such concept is recognized under applicable Law) under the Law of its jurisdiction of organization and has all requisite corporate or similar power and authority to carry on its business as currently conducted, and each of the Company's Subsidiaries is duly qualified or licensed to do business and is in good standing (where such concept is recognized under applicable Law) in each jurisdiction where the nature of its business or the ownership, leasing or operation of its properties or assets makes such qualification or licensing necessary, other than where the failure to be so qualified, licensed or in good standing has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect. The Company has made available to Parent a true and complete copy of the Restated Articles of Incorporation of the Company and any amendments thereto (collectively, the "Company Articles of Incorporation") and the Amended and Restated Bylaws of the Company (the "Company Bylaws" and together with the Company Articles of Incorporation, the "Company Organizational Documents").

(b) Subsidiaries. Section 3.01(b) of the Company Disclosure Letter sets forth a list of all Subsidiaries of the Company. All of the outstanding shares of capital stock of, or other equity interests in, each Subsidiary of the Company have, in all cases, been duly authorized and validly issued and are fully paid, non-assessable and not subject to preemptive rights, and are wholly-owned, directly or indirectly, by the Company free and clear of all pledges, liens, charges, mortgages, encumbrances, adverse claims and interests, licenses, purchase options, call options, rights of first offer and rights of first refusal, easements, rights-of-way, security interests and other use agreements, covenants and encroachments of any kind or nature whatsoever (including any restriction on the right to vote or transfer the same, except for such transfer restrictions of general applicability as may be provided under the Securities Act, the "blue sky" Laws of the various States of the United States or similar Law of other applicable jurisdictions) (collectively, "Liens"), other than transfer restrictions contained in the articles of incorporation, bylaws and limited liability company agreements (or any equivalent constituent documents) of such Subsidiary. Except for its interests in its Subsidiaries, the Company does not own, directly or indirectly, any capital stock of, or other equity interests in, any Person. The Company has made available to Parent true and complete copies of the articles of incorporation, bylaws and limited liability company agreements (or equivalent constituent documents) of each Subsidiary of the Company as in effect on the date of this Agreement.

(c) Capital Structure.

(i) The authorized capital stock of the Company consists of 200,000,000 Company Shares. The Company is not authorized to issue any preferred stock. At the close of business on December 29, 2017, there were (A)(1)142,916,916.594 Company Shares issued and outstanding and (2) 269,647.326 Company Shares held by the Company in its treasury, (B) 454,325 Company Shares underlying the outstanding Company Performance Share Awards (assuming target level performance), (C) 215,200 Company Shares underlying the outstanding Company RSUs (assuming achievement of required performance measure(s))

T

Table of Contents

and (D) 269,647.326 Company Shares underlying ledgers pursuant to the Director Compensation and Deferral Plan. Except as set forth in the immediately preceding sentence, at the close of business on December 29, 2017, no shares of capital stock or other voting securities of the Company were issued or outstanding or subject to outstanding awards under the Company Equity Award Plans. Since December 29, 2017 to the date of this Agreement, (x) there have been no issuances by the Company of shares of capital stock or other voting securities of the Company other than pursuant to the exercise or vesting of equity awards under the Company Equity Award Plans, in each case, outstanding as of December 29, 2017 and (y) there have been no issuances by the Company of options, warrants, other rights to acquire shares of capital stock of the Company or other rights that give the holder thereof any economic interest of a nature accruing to the holders of Company Shares. All outstanding Company Shares are, and all such Company Shares that may be issued prior to the Effective Time will be when issued, duly authorized, validly issued, fully paid and non-assessable and not subject to preemptive rights.

(ii) No Subsidiary of the Company owns any Company Shares or other shares of capital stock of the Company. There are no bonds, debentures, notes or other Indebtedness of the Company or of any of its Subsidiaries that give the holders thereof the right to vote (or that are convertible into, or exchangeable for, securities having the right to vote) on any matters on which holders of Company Shares may vote ("Voting Company Debt"). Except for any obligations pursuant to this Agreement or as otherwise set forth in Section 3.01(c)(i), as of December 29, 2017, there are no options, warrants, rights (including preemptive, conversion, stock appreciation, redemption or repurchase rights), convertible or exchangeable securities, stock-based performance units, Contracts or undertakings of any kind to which the Company or any of its Subsidiaries is a party or by which any of them is bound (A) obligating the Company or any of its Subsidiaries to issue, deliver or sell, or cause to be issued, delivered or sold, additional shares of capital stock or other securities of, or equity interests in, or any security convertible or exchangeable for any capital stock or other security of, or equity interest in, the Company or any of its Subsidiaries or any Voting Company Debt, (B) obligating the Company or any of its Subsidiaries to issue, grant or enter into any such option, warrant, right, security, unit, Contract or undertaking to declare or pay any dividend or distribution or (C) that give any Person the right to subscribe for or acquire any securities of the Company or any of its Subsidiaries, or to receive any economic interest of a nature accruing to the holders of Company Shares or otherwise based on the performance or value of shares of capital stock of the Company or any of its Subsidiaries. As of the date of this Agreement, there are no outstanding obligations of the Company or any of its Subsidiaries to repurchase, redeem or otherwise acquire any shares of capital stock or other equity interest of the Company or any of its Subsidiaries, other than pursuant to the Company Equity Award Plans. There are no voting agreements, voting trusts, shareholders agreements, proxies or other agreements to which the Company or any of its Subsidiaries is bound with respect to the voting of the capital stock or other equity interests of the Company, or restricting the transfer of, or providing registration rights with respect to, such capital stock or equity interests.

(d) Authority; Noncontravention.

(i) The Company has all requisite corporate power and authority to execute and deliver, and perform its obligations under, this Agreement and to consummate the transactions contemplated by this Agreement, subject, in the case of the Merger only, to receipt of the Company Requisite Vote. The execution, delivery and performance of this Agreement by the Company and the consummation by the Company of the transactions contemplated by this Agreement have been duly authorized by all necessary corporate action on the part of the Company, subject, in the case of the Merger only, to receipt of the Company Requisite Vote. This Agreement has been duly executed and delivered by the Company and, assuming the due authorization, execution and delivery by each of the other parties hereto, constitutes a legal, valid and binding obligation of the Company, enforceable against the Company in accordance with its terms, subject, as to enforceability, bankruptcy, insolvency and other Law of general applicability relating to or affecting creditors' rights and to general equity principles. The Company Board has duly and validly adopted resolutions (A) determining that it is in the best interests of the Company and the shareholders of the Company that the Company enter into this Agreement and consummate the Merger and the other transactions contemplated by this Agreement

T

Table of Contents

on the terms and subject to the conditions set forth in this Agreement, (B) adopting this Agreement and approving the transactions contemplated by this Agreement, including the Merger, (C) directing that the approval of this Agreement be submitted to a vote at a meeting of the shareholders of the Company and (D) recommending that the shareholders of the Company approve this Agreement (the "Company Board Recommendation"), which resolutions, as of the date of this Agreement, have not been rescinded, modified or withdrawn in any way.

(ii) The execution, delivery and performance by the Company of this Agreement do not, and the consummation of the Merger and the other transactions contemplated by this Agreement and compliance with the provisions of this Agreement will not, conflict with, or result in any violation of, or default (with or without notice or lapse of time, or both) under, or give rise to any right (including a right of termination, cancellation or acceleration of any obligation or any right of first refusal, participation or similar right) under, or cause the loss of any benefit under, or result in the creation of any Lien (other than Permitted Liens) upon any of the properties or assets of the Company or any of its Subsidiaries under, any provision of (A) the Company Organizational Documents or the comparable organizational documents of any of the Company's Subsidiaries or (B) subject to the filings and other matters referred to in Section 3.01(d)(iii), (1) any Contract, or (2) any Law, in each case, applicable to the Company or any of its Subsidiaries or any of their respective properties or assets, other than, in the case of the foregoing clause (B), any such conflicts, violations, defaults, rights, losses or Liens that have not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect.

(iii) No Consent of, or registration, declaration or filing with, or notice to, any Governmental Entity is required to be obtained or made by or with respect to the Company or any of its Subsidiaries in connection with the execution, delivery and performance of this Agreement by the Company or the consummation by the Company of the Merger and the other transactions contemplated by this Agreement, except for (A) the Regulatory Conditions and any other Consents of or under, and compliance with any other applicable requirements of, (1) the HSR Act, (2) the Federal Energy Regulatory Commission (the "FERC"), (3) the U.S. Nuclear Regulatory Commission (the "NRC"), (4) the Federal Communications Commission (the "FCC"), (5) the North Carolina Utilities Commission (the "NCUC"), and (6) the Georgia Public Service Commission (the "GPSC") (the items set forth in this clause (A), collectively, the "Company Regulatory Clearances"), (B) the filing with the SEC of such reports and other documents (including the filing of the Proxy Statement/Prospectus) under, and compliance with all other applicable requirements of, the Securities Act or the Exchange Act and the rules and regulations promulgated thereunder and any applicable state securities, takeover and "blue sky" Laws, (C) the filing of the Articles of Merger with the Secretary of State of the State of South Carolina, (D) any filings under, and compliance with all other applicable requirements of, the rules and regulations of the NYSE and (E) such other Consents, registrations, declarations, filings and notices, the failure of which to be obtained or made has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect and would not reasonably be expected to prevent, or materially impair or delay, the consummation of the Merger or any of the other material transactions contemplated by this Agreement.

(e) Applicable Company SEC Reports; Financial Statements; Undisclosed Liabilities.

(i) The Reporting Companies have filed or furnished, as applicable, all SEC Reports such companies were required or otherwise obligated to file with or furnish to the SEC since June 30, 2016 (such SEC Reports, the "Applicable Company SEC Reports"). As of their respective dates of filing, or, if amended or superseded by a subsequent filing made prior to the date of this Agreement, as of the date of the last such amendment or superseding filing prior to the date of this Agreement, the Applicable Company SEC Reports complied in all material respects with the applicable requirements of the Securities Act, the Exchange Act and the Sarbanes-Oxley Act, as the case may be, and the applicable rules and regulations promulgated thereunder, each as in effect on the date of any such filing. As of the time of filing with the SEC (or, if amended prior to the date of this Agreement, as of the date of such amendment), none of the Applicable Company SEC Reports so filed contained any untrue statement of a material fact or omitted to state a

T

Table of Contents

material fact required to be stated therein or necessary in order to make the statements therein, in light of the circumstances under which they were made, not misleading, except to the extent that the information in such Applicable Company SEC Reports has been amended or superseded by a later Applicable Company SEC Report.

(ii) As of their respective dates, the audited and unaudited financial statements (consolidated, as applicable, and including any related notes thereto) of each of the Reporting Companies and their Subsidiaries, as applicable, included in the Applicable Company SEC Reports have been prepared in all material respects (except, as applicable, as permitted by Form 10-Q of the SEC or other applicable rules and regulations of the SEC) in accordance with United States generally accepted accounting principles ("GAAP") applied on a consistent basis during the periods involved (except as may be indicated in the notes thereto) and fairly present in all material respects the consolidated financial position of each Reporting Company and its Subsidiaries, as applicable, as of the respective dates thereof (taking into account the notes thereto) and the consolidated results of their operations and cash flows for the periods indicated (taking into account the notes thereto) and subject, in the case of unaudited financial statements, to normal year-end adjustments.

(iii) Each Reporting Company maintains disclosure controls and procedures required by Rule 13a-15(e) or Rule 15d-15(e) under the Exchange Act and such disclosure controls and procedures are effective in all material respects to ensure that information required to be disclosed by such Reporting Company in the SEC Reports it files or submits under the Exchange Act is recorded, processed, summarized and reported on a timely basis to the individuals responsible for the preparation of such Reporting Company's SEC Reports and other public disclosure documents. Each Reporting Company maintains internal control over financial reporting required by Rule 13a-15(f) or Rule 15d-15(f) under the Exchange Act and such internal control is effective in all material respects in providing reasonable assurance regarding the reliability of such Reporting Company's financial reporting and such Reporting Company's preparation of financial statements for external purposes in accordance with GAAP. Each Reporting Company has disclosed, based on its most recent evaluation prior to the date of this Agreement, to such Reporting Company's outside auditors and the audit committee of such Reporting Company's board of directors, (A) any significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that are reasonably likely to adversely affect such Reporting Company's ability to record, process, summarize and report financial information and (B) to the Knowledge of the Company, any fraud that involves management or other employees of such Reporting Company who have a significant role in such Reporting Company's internal control over financial reporting.

(iv) There are no liabilities or obligations of any Reporting Company or any Subsidiary of any Reporting Company of a nature that would be required under GAAP to be reflected or reserved on a balance sheet (consolidated, as applicable) of such Reporting Company, other than (A) liabilities or obligations reflected or reserved against in such Reporting Company's most recent balance sheet (including the notes thereto) included in the Applicable Company SEC Reports filed prior to the date hereof, (B) liabilities or obligations incurred in the ordinary course of business consistent with past practice since September 30, 2017, (C) liabilities or obligations incurred under or in accordance with this Agreement or in connection with the transactions contemplated by this Agreement and (D) liabilities or obligations that have not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect.

(f) Absence of Certain Changes or Events.

(i) Since January 1, 2017, there have not been any changes, developments, circumstances, effects, events or occurrences (changes, developments, circumstances, effects, events and occurrences being collectively referred to as "Changes") that have had or would reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect.

T

Table of Contents

(ii) Since January 1, 2017, except as contemplated or required by this Agreement, the Company and its Subsidiaries have conducted their respective businesses in all material respects in the ordinary course of business consistent with past practice.

(g) Litigation. There is no (i) material suit, action, arbitration, mediation or legal, arbitral, administrative or other proceeding (a "Proceeding") pending or, to the Knowledge of the Company, threatened against the Company or any of its Subsidiaries, (ii) to the Knowledge of the Company, pending or threatened material investigation or inquiry by a Governmental Entity of the Company or any of its Subsidiaries and (iii) Order, decree or writ of any Governmental Entity outstanding or, to the Knowledge of the Company, threatened to be imposed against the Company or any of its Subsidiaries.

(h) Contracts. Except for this Agreement and the Contracts set forth in Section 3.01(h) of the Company Disclosure Letter and Company Benefit Plans, as of the date of this Agreement, neither the Company nor any of its Subsidiaries is a party to any Company Material Contract. Each Company Material Contract required to be filed by the Company as a "material contract" pursuant to Item 601(b)(10) of Regulation S-K under the Securities Act has been so filed. Each of the Company Material Contracts is valid and binding on the Company or the Subsidiary of the Company party thereto and, to the Knowledge of the Company as of the date hereof, each other party thereto, and is in full force and effect, except for such failures to be valid and binding or to be in full force and effect that have not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect. There is no default under any Company Material Contract by the Company or any of its Subsidiaries or, to the Knowledge of the Company as of the date hereof, by any other party thereto, in each case except for such defaults that have not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect.

(i) Compliance with Law; Permits. Since January 1, 2016, the Company and each of its Subsidiaries have been in compliance with and have not been in default under or in violation of any applicable Law, except where such non-compliance, default or violation has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect. Since January 1, 2016, neither the Company nor any of its Subsidiaries has received any written notice from any Governmental Entity regarding any actual or possible violation of, or failure to comply with, any Law, except as has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect. The Company and its Subsidiaries are in possession of all franchises, grants, permits, easements, variances, exceptions, Consents, certificates, permissions, qualifications and registrations and Orders of all Governmental Entities (collectively, "Permits"), and have filed all tariffs, reports, notices, and other documents with all Governmental Entities, necessary for the Company and its Subsidiaries to own, lease and operate their properties and assets and to carry on their businesses as currently conducted, except where the failure to possess any of such Permits or make any such filings has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect. All such Permits are valid and in full force and effect and there are no pending or, to the Knowledge of the Company, threatened administrative or judicial Proceedings that would reasonably be expected to result in modification, termination or revocation thereof, except where the failure to be in full force and effect or any modification, termination or revocation thereof has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect. Since January 1, 2016, the Company and each of its Subsidiaries have been in compliance with the terms and requirements of such Permits, except where the failure to be in compliance has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect.

(j) Labor and Employment Matters.

(i) Neither the Company nor any of its Subsidiaries is a party to any collective bargaining agreement or other similar agreement with a labor union, works council or similar organization. To the Knowledge of the Company, as of the date hereof, (A) there are no union or other labor organizing activities occurring concerning any employees of the Company or any of its Subsidiaries and (B) there are no labor strikes,

T

Table of Contents

slowdowns, work stoppages or lockouts pending or threatened in writing against the Company or any of its Subsidiaries, except, in each case, as has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect. Since January 1, 2016, the Company and its Subsidiaries have not engaged in any action that required any notifications under the Workers Adjustment and Retraining Notification (WARN) Act of 1989, as amended, except as has not had and would not reasonably be expected to have, individually or in the aggregate a Company Material Adverse Effect.

(ii) The Company and its Subsidiaries are in compliance with all applicable Law respecting labor, employment, discrimination in employment, payroll, worker classification, wages and hours, occupational safety and health and employment practices, other than instances of non-compliance that have not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect.

(iii) The list that has been provided by the Company to Parent prior to the date of this Agreement of each employee of the Company and its Subsidiaries setting forth (as applicable) each employee's annual base salary or base wage rate, target annual cash bonus, target long term incentive and other employee data is complete and accurate in all material respects as of the date of this Agreement.

(k) Employee Benefit Matters.

(i) Section 3.01(k)(i) of the Company Disclosure Letter sets forth a complete and accurate list of each material Company Benefit Plan. The Company has made available to Parent correct and complete copies of, to the extent applicable: (A) the current plan document for each material Company Benefit Plan, (B) the most recent annual report on Form 5500 required to be filed with the Department of Labor with respect to each material Company Benefit Plan, (C) the most recent summary plan description for each material Company Benefit Plan, (D) the most recent actuarial reports and financial statements for each material Company Benefit Plan, (E) each trust agreement relating to any material Company Benefit Plan, and (F) the most recent determination or opinion letter, as applicable, for each Qualified Plan.

(ii) Except as has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect, (A) each Company Benefit Plan (and any related trust or other funding vehicle) has been established, operated and administered in accordance with its terms and is in compliance with ERISA, the Code and all other applicable Law, (B) all contributions or other amounts payable by the Company or any Commonly Controlled Entity with respect to each Company Benefit Plan in respect of current or prior plan years have been paid or accrued in accordance with GAAP, (C) each Company Benefit Plan (and any related trust) that is intended to be qualified under Section 401(a) of the Code (each, a "Qualified Plan") is the subject of a favorable determination or opinion letter issued by the Internal Revenue Service, and, to the Knowledge of the Company, no condition exists that would reasonably be expected to result in the loss of any such Qualified Plan's qualified status and (D) to the Knowledge of the Company, there has been no non-exempt prohibited transaction (as defined in Section 4975 of the Code or Section 406 of ERISA) or breach of fiduciary duty under Section 404 of ERISA with respect to any Company Benefit Plan.

(iii) Except as has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect, as of the date hereof, (A) no Proceedings (other than routine claims for benefits in the ordinary course of business) are pending or, to the Knowledge of the Company, threatened relating to or otherwise in connection with any Company Benefit Plan or the assets thereof and (B) to the Knowledge of the Company, there are no pending or threatened administrative investigations, audits or other administrative Proceedings by the Department of Labor, the Pension Benefit Guaranty Corporation, the Internal Revenue Service or other Governmental Entity relating to any Company Benefit Plan.

(iv) None of the Company or any Commonly Controlled Entity has, within the past six (6) years, sponsored, maintained, contributed to or been required to maintain or contribute to, or has any liability under, any employee benefit plan (within the meaning of Section 3(3) of ERISA) that is (and no Company

T

Table of Contents

Benefit Plan is) subject to Section 302 or Title IV of ERISA or Sections 412 or 4971 of the Code, or is otherwise a defined benefit plan (as defined in Section 4001 of ERISA). With respect to any plan set forth in Section 3.01(k)(iv) of the Company Disclosure Letter, the Pension Benefit Guaranty Corporation (the "PBGC") has not instituted Proceedings to terminate any such plan (and, to the Knowledge of the Company, no condition exists that would reasonably be expected to result in such Proceedings being instituted) and the Company and its Commonly Controlled Entities do not have any material liability to the PBGC with respect to such plan other than premium payments required by ERISA. Neither the Company nor any Commonly Controlled Entity has, within the past six (6) years, sponsored, maintained, contributed to or been required to maintain or contribute to, nor has any liability under, any multiemployer plan (as defined in Section 3(37) of ERISA).

(v) The Company has no liability for providing health, medical or life insurance or other welfare benefits after retirement or other termination of employment (other than for continuation coverage required under Section 4980(B)(f) of the Code or other similar applicable Law), except for such liabilities that have not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect. With respect to any plan set forth in Section 3.01(k)(v) of the Company Disclosure Letter, to the Knowledge of the Company, the Company has the right to amend or terminate such plan in its discretion without the consent of any participant.

(vi) None of the execution and delivery of this Agreement, obtaining the Company Requisite Vote or the consummation of the Merger (alone or in conjunction with any other event, including any termination of employment on or following the Effective Time) would reasonably be expected to (A) entitle any current or former director, officer, employee or independent contractor of the Company or any of its Subsidiaries to any compensation or material benefit, (B) accelerate the time of payment or vesting, or trigger any payment or funding, of any compensation or material benefits or trigger any other material obligation under any Company Benefit Plan, (C) result in any material breach or violation of, or material default under, or limit the Company's right to amend, modify, terminate or transfer the assets of, any Company Benefit Plan, (D) directly or indirectly cause the Company to transfer or set aside any assets to fund any benefits, or otherwise give rise to any material liability, under any Company Benefit Plan or (E) result in payments to any "disqualified individual" (as defined for purposes of Section 280G(c) of the Code) which would not be deductible under Section 280G of the Code.

(l) Taxes.

(i) All material Tax Returns required to be filed by or with respect to the Company or any of its Subsidiaries have been timely filed (taking into account any extension of time within which to file) and all such Tax Returns are correct and complete in all material respects.

(ii) All material Taxes of the Company and its Subsidiaries that are required to be paid or discharged, other than Taxes being contested in good faith by appropriate proceedings, have been timely paid and discharged.

(iii) No material deficiency with respect to Taxes has been proposed, asserted or assessed against the Company or any of its Subsidiaries which has not been fully paid or adequately reserved in the SEC Reports filed or furnished by the applicable Reporting Company to the SEC.

(iv) There are no material Tax Liens, other than Permitted Liens, on any asset of the Company or any of its Subsidiaries.

(v) Neither the Company nor any of its Subsidiaries has executed any outstanding waiver of any statute of limitations for the assessment or collection of any material Tax.

(vi) As of the date hereof, no audit or other examination or Proceeding of, or with respect to, any material Tax Return or material amount of Taxes of the Company or any of its Subsidiaries is pending and, between January 1, 2016 and the date hereof, no written notice thereof has been received by the Company or any of its Subsidiaries.

T

Table of Contents

(vii) None of the Company or any of its Subsidiaries (A) is a party to any material Tax allocation, Tax sharing, or Tax indemnity agreement (other than commercial Contracts the primary purpose of which is not Taxes) or (B) is under an obligation under Treasury Regulation Section 1.1502-6 (or any similar provision of state, local or non-U.S. Law) or as transferee or successor, such that, in each case, the Company or any of its Subsidiaries is, after the date hereof or after the Closing (as the case may be), liable for any material amount of Taxes of another Person (other than the Company or any of its Subsidiaries).

(viii) There are no material closing agreements, private letter rulings, technical advice memoranda or rulings that have been entered into or issued by any Tax authority with respect to the Company or any of its Subsidiaries which are still in effect as of the date of this Agreement.

(ix) Neither the Company nor any of its Subsidiaries has "participated" within the meaning of Treasury Regulation Section 1.6011-4(c)(3)(i)(A) in any "listed transaction" within the meaning of Section 6011 of the Code and the Treasury Regulations thereunder, as in effect and as amended by any guidance published by the Internal Revenue Service for the applicable period.

(x) Each of the Company and its Subsidiaries has properly and timely withheld or collected and timely paid over to the appropriate Governmental Entity (or each is properly holding for such timely payment) all material amounts of Taxes required to be withheld, collected and paid over by applicable Law.

(xi) To the Knowledge of the Company, the Company and its Subsidiaries have complied with the normalization rules described in Section 168(i)(9) of the Code and any other applicable provisions of the Code or the Treasury Regulations thereunder with respect to any "public utility property" (as defined in Section 168(i)(10) of the Code).

(xii) Neither the Company nor any of its Subsidiaries has taken any action or knows of any fact that would reasonably be expected to prevent the Merger from qualifying for the Intended Tax Treatment.

(m) Environmental Matters. Except for those matters that have not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect, (i) each of the Company and its Subsidiaries is, and since January 1, 2016 has been, in compliance with all applicable Environmental Law and, as of the date hereof, neither the Company nor any of its Subsidiaries has received any written notice from any Governmental Entity alleging that the Company or any of its Subsidiaries is in violation of, or has any liability under, any Environmental Law, (ii) each of the Company and its Subsidiaries possesses and is in compliance with all Permits required under applicable Environmental Law to conduct its business as currently conducted, and all such Permits are valid and in good standing and neither the Company nor any of its Subsidiaries has received notice from any Governmental Entity seeking to modify, revoke or terminate any such Environmental Permits, (iii) there are no Proceedings pursuant to any Environmental Law pending or, to the Knowledge of the Company, threatened against the Company or any of its Subsidiaries, (iv) there have been no releases of Hazardous Materials at or on any property owned, leased or operated by the Company or any of its Subsidiaries, in each case, in a manner that would reasonably be expected to result in any obligation to conduct any investigation, remediation or other corrective or responsive action by the Company or any of its Subsidiaries and (v) neither the Company nor any of its Subsidiaries is subject to any consent decrees, Orders, settlements or compliance agreements that impose any current or future obligations on the Company and its Subsidiaries under Environmental Law.

(n) Insurance. The Company and its Subsidiaries maintain, or are entitled to the benefits of, insurance in such amounts and against such risks as the Company believes to be customary for companies of a comparable size in the industries in which it and its Subsidiaries operate. Except as has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect, all material insurance policies carried by or covering the Company and its Subsidiaries with respect to their business, assets and properties are in full force and effect, and, to the Knowledge of the Company, no notice of cancellation has been given with respect to any such policy.

T

Table of Contents

(o) Real Property.

(i) Subject, as to enforceability, to bankruptcy, insolvency and other Law of general applicability relating to or affecting creditors' rights and to general equity principles, each Contract under which the Company or any Subsidiary thereof is the tenant, subtenant or occupant (each, a "Company Real Property Lease") with respect to material real property leased, subleased, licensed or otherwise occupied (whether as tenant, subtenant or pursuant to other occupancy arrangements) by the Company or any of its Subsidiaries (collectively, including the improvements thereon, the "Company Leased Real Property") is valid and binding on the Company or the Subsidiary of the Company party thereto, and, to the Knowledge of the Company, each other party thereto, and is in full force and effect, except for such failures to be valid and binding or to be in full force and effect that have not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect. There is no uncured default of any material provision of any Company Real Property Lease by the Company or any of its Subsidiaries or, to the Knowledge of the Company, by any other party thereto, and no event has occurred that with the lapse of time or the giving of notice or both would reasonably be expected to constitute a default thereunder by the Company or any of its Subsidiaries or, to the Knowledge of the Company, by any other party thereto, in each case except for such defaults and events that have not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect.

(ii) The Company or one of its Subsidiaries has good and valid title to all material real property currently owned by the Company or any of its Subsidiaries (collectively, "Company Owned Real Property") free and clear of all Liens (other than Permitted Liens), except where absence of good and valid title or any such Lien has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect.

(iii) Each of the Company and its Subsidiaries has such consents, easements, rights-of-way, permits and licenses with respect to any real property (collectively, "Rights-of-Way") as are sufficient to conduct its business in the manner described, and subject to the limitations, qualifications, reservations and encumbrances contained, in any Applicable Company SEC Report, except for such Rights-of-Way the absence of which has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect. All pipelines and electric transmission assets owned or operated by the Company and its Subsidiaries are subject to Rights-of-Way, there are no encroachments or encumbrances or other Rights-of-Way that affect the use thereof and there are no gaps in the Rights-of-Way that are material for such pipelines or electric transmission assets, except as has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect.

(iv) Each of the Company and its Subsidiaries have sufficient rights with respect to their Company Leased Real Property and Company Owned Real Property and under their Rights-of-Way to conduct its business as currently conducted, except where a failure to have such rights would not have and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect.

(p) Intellectual Property, Privacy, and Information Technology.

(i) The Company and its Subsidiaries own or have the right to use all Intellectual Property necessary for the operation of the business of the Company and its Subsidiaries, except where the failure to own or have the right to use such Intellectual Property has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect. To the Knowledge of the Company, the operation of the business of the Company and its Subsidiaries does not infringe upon or misappropriate any Intellectual Property of any other Person as of the date of this Agreement, except for such matters that have not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect. The Company and its Subsidiaries have taken commercially reasonable precautions to protect the secrecy and confidentiality of the trade secrets owned by the Company and its Subsidiaries, except where the failure to take reasonable precautions has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect.

T

Table of Contents

(ii) Except as has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect, (A) to the Knowledge of the Company, the Company has not suffered any security breach of its IT Systems that has caused any loss of data, disruption or damage to the Company's operations, (B) the Company has not experienced any security breaches of personal data or IT Systems that required or would require law enforcement or Governmental Entity notification or any remedial action under applicable Law or any Data Privacy Legal Requirement, (C) to the Knowledge of the Company, since January 1, 2016, there has been no unauthorized access to, or other misuse of, personal data or IT Systems and (D) there are no pending or expected complaints, claims, actions, fines, or other penalties facing the Company in connection with any of the foregoing.

(iii) Except as has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect, the Company has security, back-ups, disaster recovery arrangements, and administrative, physical, and technical safeguards in place that are reasonably appropriate for a company in the business in which the Company is engaged and the Company has implemented security patches or upgrades that are reasonably available for the IT Systems where such patches or upgrades are reasonably required to maintain the security of such IT Systems.

(q) Regulatory Matters.

(i) All filings (other than immaterial filings) required to be made by the Company or any of its Subsidiaries since January 1, 2016 with the FERC, the Department of Energy (the "DOE"), the NRC, the FCC, the North American Electric Reliability Corporation (the "NERC"), the SCPSC, the SCORS, the NCUC, the GPSC, the United States Pipeline Hazardous Materials Safety Administration (the "PHMSA") and the United States Department of Transportation (the "DOT"), as the case may be, have been made, including all forms, notices, statements, reports, agreements and all documents, exhibits, amendments and supplements appertaining thereto, including all rates, tariffs and related documents, and all such filings complied, as of their respective dates, or, if amended or superseded by a subsequent filing made prior to the date of this Agreement, as of the date of the last such amendment or superseding filing prior to the date of this Agreement, with all applicable requirements of applicable statutes and the rules and regulations promulgated thereunder, except for filings the failure of which to make or the failure of which to make in compliance with all applicable requirements of applicable statutes and the rules and regulations promulgated thereunder, has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect.

(ii) Since January 1, 2016, none of the Company or any of its Subsidiaries has received any written notice or, to the Company's Knowledge, any other communication from the FERC, the DOE, the NRC, the FCC, the NERC, the SCPSC, the SCORS, the NCUC, the GPSC, the PHMSA or the DOT regarding any actual or possible material violation of, or material failure to comply with, any Law.

(iii) To the Knowledge of the Company, except as has not had and would not reasonably be expected to have a material impact on the Company and its Subsidiaries, the operations of the Virgil C. Summer Nuclear Station in Jenkinsville, South Carolina (the "Summer Station"), including the operation of the NND Project and the construction, and cessation of the construction, of such project, are and have been conducted in compliance with applicable health, safety, regulatory and other requirements under applicable Laws.

(iv) Except as has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect, the financial assurance for decommissioning relating to the Summer Station provided to comply with NRC's requirements in 10 CFR 50.75 and 72.30 consists of one or more trusts that are validly existing and in good standing under the Laws of their respective jurisdictions of formation with all requisite authority to conduct their affairs as currently conducted.

(r) Voting Requirements. Assuming the accuracy of the representations and warranties set forth in Section 3.02(n), the affirmative vote of holders of at least two-thirds of the outstanding Company Shares entitled to vote thereon at the Shareholders Meeting or any adjournment or postponement thereof to approve this

T

Table of Contents

Agreement (the "Company Requisite Vote") is the only vote of the holders of any class or series of capital stock of the Company necessary for the Company to approve this Agreement and approve and consummate the Merger and the other transactions contemplated by this Agreement.

(s) Brokers and Other Advisors. No broker, investment banker, financial advisor or other Person, other than Morgan Stanley & Co. LLC and RBC Capital Markets, LLC, is entitled to any broker's, finder's or financial advisor's fee or commission in connection with the Merger and the other transactions contemplated by this Agreement based upon arrangements made by or on behalf of the Company.

(t) Opinions of Financial Advisors. The Company Board has received the oral opinions of Morgan Stanley & Co. LLC and RBC Capital Markets, LLC to the effect that, as of the date of such opinions and based upon and subject to the various matters, limitations, qualifications and assumptions set forth therein, the Merger Consideration is fair, from a financial point of view, to the holders of Company Shares (other than Cancelled Shares). Signed, true and complete written copies of such opinions will be made available to Parent, which Parent and Merger Sub acknowledge and agree (i) are being provided to Parent for informational purposes only and (ii) may not be relied upon by Parent or Merger Sub.

(u) State Takeover Statutes. Assuming the accuracy of the representations and warranties set forth in Section 3.02(n), the Company Board has taken all action necessary to render inapplicable to this Agreement and the transactions contemplated by this Agreement all potentially applicable state anti-takeover statutes or regulations and any similar provisions in the Company Articles of Incorporation and the Company Bylaws. Assuming the accuracy of the representations and warranties set forth in Section 3.02(n), as of the date of this Agreement, no "fair price", "business combination", "moratorium", "control share acquisition" or other state takeover Law or similar Law (collectively, "Takeover Statutes") enacted by any state will prohibit or impair the consummation of the Merger or the other transactions contemplated by this Agreement.

(v) Information Supplied. None of the information supplied by the Company specifically for inclusion or incorporation by reference in the registration statement on Form S-4 in connection with the issuance by Parent of the aggregate Merger Consideration (the "Form S-4") or the Proxy Statement/Prospectus, at (i) the time the Form S-4 is declared effective, (ii) the date the Proxy Statement/Prospectus is first published or mailed to the holders of Company Shares or (iii) the time of the Shareholders Meeting (except, with respect to the foregoing clauses (i) through (iii), to the extent that any such information is amended or superseded by any subsequent SEC Reports of Parent or the Company), will contain any untrue statement of material fact or omit to state any material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they are made, not misleading.

SECTION 3.02. Representations and Warranties of Parent and Merger Sub. Except (x) as disclosed in the SEC Reports of Parent or its wholly-owned Subsidiaries filed with or furnished to the SEC since January 1, 2016 and publicly available at least twenty-four (24) hours prior to the date of this Agreement (excluding any disclosures set forth in any risk factor section or in any other section to the extent such disclosures are forward-looking statements or are cautionary, predictive or forward-looking in nature) or (y) as set forth in the Parent Disclosure Letter (it being agreed that disclosure of any item in any section or subsection of the Parent Disclosure Letter shall also be deemed disclosed with respect to any other section or subsection of this Agreement to which the relevance of such item is reasonably apparent), Parent and Merger Sub represent and warrant to the Company as follows:

(a) Organization, Standing and Corporate Power. Each of Parent and Merger Sub is a corporation duly incorporated, validly existing and in good standing (where such concept is recognized under applicable Law) under the Laws of the Commonwealth of Virginia, in the case of Parent, and the Laws of the State of South Carolina, in the case of Merger Sub, and has all requisite corporate power and authority to carry on its business as currently conducted and is duly qualified or licensed to do business and is in good standing (where such concept is recognized under applicable Law) in each jurisdiction where the nature of its business or the
T

Table of Contents

ownership, leasing or operation of its properties or assets makes such qualification or licensing necessary, other than where the failure to be so qualified, licensed or in good standing has not had and would not reasonably be expected to have, individually or in the aggregate, a Parent Material Adverse Effect. Each of Parent's Subsidiaries is a legal entity duly organized, validly existing and in good standing (where such concept is recognized under applicable Law) under the Law of its jurisdiction of organization and has all requisite corporate power and authority to carry on its business as currently conducted, and each of Parent's Subsidiaries is duly qualified or licensed to do business and is in good standing (where such concept is recognized under applicable Law) in each jurisdiction where the nature of its business or the ownership, leasing or operation of its properties or assets makes such qualification or licensing necessary, other than where the failure to be so qualified, licensed or in good standing has not had and would not reasonably be expected to have, individually or in the aggregate, a Parent Material Adverse Effect. Parent has made available to the Company a true and complete copy of the organizational documents of Parent (the "Parent Organizational Documents"), and the comparable organizational documents of Merger Sub, in each case as amended and in effect as of the date of this Agreement.

(b) Subsidiaries. All of the outstanding shares of capital stock of, or other equity interests in, each wholly-owned Subsidiary of Parent have, in all cases, been duly authorized and validly issued and are fully paid, non-assessable and not subject to preemptive rights, and are wholly-owned, directly or indirectly, by Parent free and clear of all Liens, other than transfer restrictions contained in the articles of incorporation, bylaws and limited liability company agreements (or any equivalent constituent documents) of such wholly-owned Subsidiary.

(c) Capital Structure.

(i) The authorized capital stock of Parent consists of 1,000,000,000 Parent Shares and 20,000,000 shares of preferred stock (such preferred stock, the "Parent Preferred Stock"). At the close of business on December 29, 2017, there were (A) 644,571,202 Parent Shares issued and outstanding and (B) no shares of Parent Preferred Stock issued or outstanding. Except as set forth in the immediately preceding sentence, at the close of business on December 29, 2017, no shares of capital stock or other voting securities of Parent were issued or outstanding. Since December 29, 2017 to the date of this Agreement, (x) there have been no issuances by Parent of shares of capital stock or other voting securities of Parent other than pursuant to the exercise or vesting of equity awards under any Parent equity award plans or pursuant to Parent's dividend reinvestment and direct stock purchase plan, in each case, outstanding as of December 29, 2017 and (y) there have been no issuances by Parent of options, warrants, other rights to acquire shares of capital stock of Parent or other rights that give the holder thereof any economic interest of a nature accruing to the holders of Parent Shares. All outstanding Parent Shares are, and all such Parent Shares that may be issued prior to the Effective Time will be when issued, duly authorized, validly issued, fully paid and non-assessable and not subject to preemptive rights.

(ii) No Subsidiary of Parent (it being understood and agreed that, for purposes of this Section 3.02(c)(ii), Subsidiaries of Parent shall not include (x) any benefit plan maintained by Parent or any of its Subsidiaries or (y) any nuclear decommissioning trusts maintained by Parent or any of its Subsidiaries) owns any Parent Shares or other shares of capital stock of Parent. There are no bonds, debentures, notes or other Indebtedness of Parent or of any of its Subsidiaries that give the holders thereof the right to vote (or that are convertible into, or exchangeable for, securities having the right to vote) on any matters on which holders of Parent Shares may vote ("Voting Parent Debt"). Except for any obligations pursuant to this Agreement or as otherwise set forth in Section 3.02(c)(i), as of December 29, 2017, there are no options, warrants, rights (including preemptive, conversion, stock appreciation, redemption or repurchase rights), convertible or exchangeable securities, stock-based performance units, Contracts or undertakings of any kind to which Parent or any of its Subsidiaries is a party or by which any of them is bound (A) obligating Parent or any of its Subsidiaries to issue, deliver or sell, or cause to be issued, delivered or sold, additional shares of capital stock or other securities of, or equity interests in, or any security convertible or exchangeable for any capital stock or other security of, or equity interest in, Parent or any of its wholly-owned Subsidiaries or any Voting Parent Debt, (B) obligating Parent or any of its wholly-owned Subsidiaries to issue, grant or enter into any such option, warrant, right, security, unit, Contract or

T

Table of Contents

undertaking to declare or pay any dividend or distribution or (C) that give any Person the right to subscribe for or acquire any securities of Parent or any of its wholly-owned Subsidiaries, or to receive any economic interest of a nature accruing to the holders of Parent Shares or otherwise based on the performance or value of shares of capital stock of Parent or any of its wholly-owned Subsidiaries. As of the date of this Agreement, there are no outstanding obligations of Parent or any of its wholly-owned Subsidiaries to repurchase, redeem or otherwise acquire any shares of capital stock or other equity interest, other than pursuant to any Parent equity award plans. There are no voting agreements, voting trusts, shareholders agreements, proxies or other agreements to which Parent or any of its Subsidiaries is bound with respect to the voting of the capital stock or other equity interests of Parent, or restricting the transfer of, or providing registration rights with respect to, such capital stock or equity interests.

(d) Authority; Noncontravention.

(i) Each of Parent and Merger Sub has all requisite corporate power and authority to execute and deliver, and perform its obligations under, this Agreement and to consummate the transactions contemplated by this Agreement, subject, in the case of the Merger, to the delivery by Parent of the written consent, as sole shareholder of Merger Sub, referenced in Section 5.11. The execution, delivery and performance of this Agreement by Parent and Merger Sub and the consummation by Parent and Merger Sub of the transactions contemplated by this Agreement have been duly authorized by all necessary corporate action on the part of each of Parent and Merger Sub, subject, in the case of the Merger, to the delivery by Parent of the written consent, as sole shareholder of Merger Sub, referenced in Section 5.11. This Agreement has been duly executed and delivered by each of Parent and Merger Sub and, assuming the due authorization, execution and delivery by the Company, constitutes a legal, valid and binding obligation of each of Parent and Merger Sub, enforceable against each of Parent and Merger Sub in accordance with its terms, subject, as to enforceability, to bankruptcy, insolvency and other Law of general applicability relating to or affecting creditors' rights and to general equity principles. The board of directors of Parent has duly and validly adopted resolutions approving this Agreement and the transactions contemplated by this Agreement, including the Merger, and the board of directors of Merger Sub has duly and validly adopted resolutions (A) determining that it is in the best interests of Merger Sub and its sole shareholder that Merger Sub enter into this Agreement and consummate the Merger and the other transactions contemplated by this Agreement on the terms and subject to the conditions set forth in this Agreement, (B) adopting this Agreement and approving the transactions contemplated by this Agreement, including the Merger and (C) recommending that the sole shareholder of Merger Sub approve this Agreement, which resolutions of Parent and Merger Sub, in each case, have not been rescinded, modified or withdrawn in any way.

(ii) The execution, delivery and performance by Parent and Merger Sub of this Agreement do not, and the consummation of the Merger and the other transactions contemplated by this Agreement and compliance with the provisions of this Agreement will not, conflict with, or result in any violation of, or default (with or without notice or lapse of time, or both) under, or give rise to any right (including a right of termination, cancellation or acceleration of any obligation or any right of first refusal, participation or similar right) under, or cause the loss of any benefit under, or result in the creation of any Lien (other than Permitted Liens) upon any of the properties or assets of Parent or Merger Sub or any of their respective Subsidiaries under, any provision of (A) the Parent Organizational Documents or the comparable organizational documents of any of Parent's Subsidiaries, including Merger Sub or (B) subject to the filings and other matters referred to in Section 3.02(d)(iii), (1) any Contract or (2) any Law, in each case, applicable to Parent or Merger Sub or any of their respective Subsidiaries or any of their respective properties or assets, other than, in the case of foregoing clause (B), any such conflicts, violations, defaults, rights, losses or Liens that have not had and would not reasonably be expected to have, individually or in the aggregate, a Parent Material Adverse Effect.

(iii) No Consent of, or registration, declaration or filing with, or notice to, any Governmental Entity is required to be obtained or made by or with respect to Parent or Merger Sub or any of their respective Subsidiaries in connection with the execution, delivery and performance of this Agreement by Parent and

T

Table of Contents

Merger Sub or the consummation by Parent and Merger Sub of the transactions contemplated by this Agreement, except for (A) the Regulatory Conditions and any other Consents of or under, and compliance with any other applicable requirements of, (1) the HSR Act, (2) the FERC, (3) the NRC, (4) the FCC, (5) the NCUC, and (6) the GPSC (the items set forth in this clause (A), collectively, the "Parent Regulatory Clearances" and together with the Company Regulatory Clearances, the "Regulatory Clearances"), (B) the filing with the SEC of such reports and other documents (including the filing of the Form S-4) under, and compliance with all other applicable requirements of, the Securities Act or the Exchange Act and the rules and regulations promulgated thereunder and any applicable state securities, takeover and "blue sky" Laws, (C) the filing of the Articles of Merger with the Secretary of State of the State of South Carolina, (D) any filings under, and compliance with all other applicable requirements of, the rules and regulations of the NYSE and (E) such other Consents, registrations, declarations, filings and notices, the failure of which to be obtained or made has not had and would not reasonably be expected to have, individually or in the aggregate, a Parent Material Adverse Effect and would not reasonably be expected to prevent, or materially impair or delay, the consummation of the Merger or any of the other material transactions contemplated by this Agreement.

(e) Applicable Parent SEC Reports; Financial Statements; Undisclosed Liabilities.

(i) Parent and its Subsidiaries have filed or furnished, as applicable, all SEC Reports such companies were required or otherwise obligated to file with or furnish to the SEC since June 30, 2016 (such SEC Reports, the "Applicable Parent SEC Reports"). As of their respective dates of filing, or, if amended or superseded by a subsequent filing made prior to the date of this Agreement, as of the date of the last such amendment or superseding filing prior to the date of this Agreement, the Applicable Parent SEC Reports complied in all material respects with the applicable requirements of the Securities Act, the Exchange Act and the Sarbanes-Oxley Act, as the case may be, and the applicable rules and regulations promulgated thereunder, each as in effect on the date of any such filing. As of the time of filing with the SEC (or, if amended prior to the date of this Agreement, as of the date of such amendment), none of the Applicable Parent SEC Reports so filed contained any untrue statement of a material fact or omitted to state a material fact required to be stated therein or necessary in order to make the statements therein, in light of the circumstances under which they were made, not misleading, except to the extent that the information in such Applicable Parent SEC Reports has been amended or superseded by a later Applicable Parent SEC Report.

(ii) As of their respective dates, the audited and unaudited financial statements (consolidated, as applicable, and including any related notes thereto) of each of Parent and its Subsidiaries, as applicable, included in the Applicable Parent SEC Reports have been prepared in all material respects (except, as applicable, as permitted by Form 10-Q of the SEC or other applicable rules and regulations of the SEC) in accordance with GAAP applied on a consistent basis during the periods involved (except as may be indicated in the notes thereto) and fairly present in all material respects the consolidated financial position of Parent and its Subsidiaries, as applicable, as of the respective dates thereof (taking into account the notes thereto) and the consolidated results of their operations and cash flows for the periods indicated (taking into account the notes thereto) and subject, in the case of unaudited financial statements, to normal year-end adjustments.

(iii) Parent maintains disclosure controls and procedures required by Rule 13a-15(e) or Rule 15d-15(e) under the Exchange Act and such disclosure controls and procedures are effective in all material respects to ensure that information required to be disclosed by Parent in the SEC Reports it files or submits under the Exchange Act is recorded, processed, summarized and reported on a timely basis to the individuals responsible for the preparation of Parent's SEC Reports and other public disclosure documents. Parent maintains internal control over financial reporting required by Rule 13a-15(f) or Rule 15d-15(f) under the Exchange Act and such internal control is effective in all material respects in providing reasonable assurance regarding the reliability of Parent's financial reporting and Parent's preparation of financial statements for external purposes in accordance with GAAP. Parent has disclosed, based on its most recent evaluation prior to the date of this Agreement, to Parent's outside auditors and the audit committee of

T

Table of Contents

Parent's board of directors (A) any significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that are reasonably likely to adversely affect Parent's ability to record, process, summarize and report financial information and (B) to the Knowledge of Parent, any fraud that involves management or other employees of Parent who have a significant role in Parent's internal control over financial reporting.

(iv) There are no liabilities or obligations of Parent or any of its Subsidiaries of a nature that would be required under GAAP to be reflected or reserved on a financial statement (consolidated, as applicable) of Parent, other than (A) liabilities or obligations reflected or reserved against in such entity's most recent balance sheet (including the notes thereto) included in the Applicable Parent SEC Reports filed prior to the date hereof, (B) liabilities or obligations incurred in the ordinary course of business consistent with past practice since September 30, 2017, (C) liabilities or obligations incurred under or in accordance with this Agreement or in connection with the transactions contemplated by this Agreement and (D) liabilities or obligations that have not had and would not reasonably be expected to have, individually or in the aggregate, a Parent Material Adverse Effect.

(f) Absence of Certain Changes or Events.

(i) Since January 1, 2017, there have not been any Changes that have had or would reasonably be expected to have, individually or in the aggregate, a Parent Material Adverse Effect.

(ii) Since January 1, 2017, except as contemplated or required by this Agreement, Parent and its wholly-owned Subsidiaries have conducted their respective businesses in all material respects in the ordinary course of business consistent with past practice.

(g) Litigation. Except as has not had and would not reasonably be expected to have, individually or in the aggregate, a Parent Material Adverse Effect, there is no (i) Proceeding pending or, to the Knowledge of Parent, threatened against Parent or any of its Subsidiaries, (ii) to the Knowledge of Parent, pending or threatened material investigation or inquiry by a Governmental Entity of Parent or any of its Subsidiaries and (iii) Order, decree or writ of any Governmental Entity outstanding or, to the Knowledge of Parent, threatened to be imposed against Parent or any of its Subsidiaries.

(h) Compliance with Law. Since January 1, 2016, Parent and each of its Subsidiaries have been in compliance with and have not been in default under or in violation of any applicable Law, except where such non-compliance, default or violation has not had and would not reasonably be expected to have, individually or in the aggregate, a Parent Material Adverse Effect. Since January 1, 2016, neither Parent nor any of its Subsidiaries has received any written notice from any Governmental Entity regarding any violation of, or failure to comply with, any Law, except as has not had and would not reasonably be expected to have, individually or in the aggregate, a Parent Material Adverse Effect.

(i) Taxes.

(i) All material Tax Returns required to be filed by or with respect to Parent or any of its wholly-owned Subsidiaries have been timely filed (taking into account any extension of time within which to file) and all such Tax Returns are correct and complete in all material respects.

(ii) All material Taxes of Parent and its wholly-owned Subsidiaries that are required to be paid or discharged, other than Taxes being contested in good faith by appropriate proceedings, have been timely paid and discharged.

(iii) There are no material Tax Liens, other than Permitted Liens, on any asset of Parent or any of its wholly-owned Subsidiaries.

(iv) Neither Parent nor any of its wholly-owned Subsidiaries has executed any outstanding waiver of any statute of limitations for the assessment or collection of any material Tax.

T

Table of Contents

(v) As of the date hereof, no audit or other examination or Proceeding of, or with respect to, any material Tax Return or material amount of Taxes of Parent or any of its wholly-owned Subsidiaries is pending and, between January 1, 2016 and the date hereof, no written notice thereof has been received by Parent or any of its wholly-owned Subsidiaries.

(vi) None of Parent or any of its wholly-owned Subsidiaries (A) is a party to any material Tax allocation, Tax sharing, Tax indemnity or similar agreement or (B) is under an obligation under Treasury Regulation Section 1.1502-6 (or any similar provision of state, local or non-U.S. Law) or as transferee or successor, such that, in each case, Parent or any of its wholly-owned Subsidiaries is, after the date hereof or after the Closing (as the case may be), liable for any material amount of Taxes of another Person (other than Parent or any of its wholly-owned Subsidiaries).

(vii) There are no material closing agreements, private letter rulings, technical advice memoranda or rulings that have been entered into or issued by any Tax authority with respect to Parent or any of its wholly-owned Subsidiaries which are still in effect as of the date of this Agreement.

(viii) Neither Parent nor any of its wholly-owned Subsidiaries has "participated" within the meaning of Treasury Regulation Section 1.6011-4(c)(3)(i)(A) in any "listed transaction" within the meaning of Section 6011 of the Code and the Treasury Regulations thereunder, as in effect and as amended by any guidance published by the Internal Revenue Service for the applicable period.

(ix) Neither Parent nor any of its Subsidiaries has taken any action or knows of any fact that would reasonably be expected to prevent the Merger from qualifying for the Intended Tax Treatment.

(j) Regulatory Matters.

(i) All filings (other than immaterial filings) required to be made by Parent or any of its Subsidiaries since January 1, 2016 with the FERC, the DOE, the NRC, and the NERC, as the case may be, have been made, including all forms, notices, statements, reports, agreements and all documents, exhibits, amendments and supplements appertaining thereto, including all rates, tariffs and related documents, and all such filings complied, as of their respective dates, or, if amended or superseded by a subsequent filing made prior to the date of this Agreement, as of the date of the last such amendment or superseding filing prior to the date of this Agreement, with all applicable requirements of applicable statutes and the rules and regulations promulgated thereunder, except for filings the failure of which to make or the failure of which to make in compliance with all applicable requirements of applicable statutes and the rules and regulations promulgated thereunder, has not had and would not reasonably be expected to have, individually or in the aggregate, a Parent Material Adverse Effect.

(ii) Since January 1, 2016, none of Parent or any of its wholly-owned Subsidiaries has received any written notice or, to Parent's Knowledge, any other communication from the FERC, the DOE, the NRC or the NERC regarding any actual or possible material violation of, or material failure to comply with, any Law.

(k) No Vote Required. Other than the approval of this Agreement by the sole shareholder of Merger Sub referenced in Section 5.11, no vote or consent of the holders of any class or series of capital stock of Parent or any of its Affiliates is necessary for Parent and Merger Sub to approve this Agreement and approve and consummate the Merger and the other transactions contemplated by this Agreement.

(l) Brokers and Other Advisors. Except for fees or commissions to be paid by Parent, no broker, investment banker, financial advisor or other Person is entitled to any broker's, finder's or financial advisor's fee or commission in connection with the Merger and the other transactions contemplated by this Agreement based upon arrangements made by or on behalf of Parent or Merger Sub.

(m) Ownership and Operation of Merger Sub. The authorized capital stock of Merger Sub consists solely of one thousand (1,000) shares of common stock, without par value, one hundred (100) of which are
T

Table of Contents

validly issued and outstanding as of the date hereof. All of the issued and outstanding capital stock of Merger Sub is, and at and immediately prior to the Effective Time will be, owned by Parent. Merger Sub has been formed solely for the purpose of engaging in the transactions contemplated by this Agreement and prior to the Effective Time will have engaged in no other business activities and will have no assets, liabilities or obligations of any nature other than those incident to its formation and its entry into this Agreement and the consummation of the Merger and the other transactions contemplated by this Agreement.

(n) Ownership of Shares. None of Parent, Merger Sub or any of their Subsidiaries (it being understood and agreed that, for purposes of this Section 3.02(n), Subsidiaries of Parent and Merger Sub shall not include (x) any benefit plan maintained by Parent or any of its Subsidiaries or (y) any nuclear decommissioning trusts maintained by Parent or any of its Subsidiaries) is, directly or indirectly, a "beneficial owner" (as such term is defined in Rule 13d-3 under the Exchange Act) of any (i) Company Shares, (ii) securities that are convertible into or exchangeable or exercisable for Company Shares, or (iii) any rights to acquire or vote any Company Shares, or any option, warrant, convertible security, stock appreciation right, swap agreement or other security, contract right or derivative position, whether or not presently exercisable, that provides Parent, Merger Sub, or any of their respective Subsidiaries with an exercise or conversion privilege or a settlement payment or mechanism at a price related to the value of Company Shares or a value determined in whole or part with reference to, or derived in whole or part from, the value of the Company Shares, in any case without regard to whether (A) such derivative conveys any voting rights in such securities to such Person, (B) such derivative is required to be, or capable of being, settled through delivery of securities or (C) such Person may have entered into other transactions that hedge the economic effect of such derivative, other than any Company Shares or securities, rights, options, warrants, agreements and derivatives with respect to any Company Shares in an amount equal to, in the aggregate, less than five percent (5%) of the total number of issued and outstanding Company Shares.

(o) Information Supplied. None of the information supplied by Parent specifically for inclusion or incorporation by reference in the Form S-4 or the Proxy Statement/Prospectus, at (i) the time the Form S-4 is declared effective, (ii) the date the Proxy Statement/Prospectus is first published or mailed to the holders of Company Shares or (iii) the time of the Shareholders Meeting (except, with respect to the foregoing clauses (i) through (iii), to the extent that any such information is amended or superseded by any subsequent SEC Reports of Parent or the Company), will contain any untrue statement of material fact or omit to state any material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they are made, not misleading.

(p) Financial Ability. Parent has, and at the Closing Parent will have, sufficient immediately available funds and the financial ability to pay all amounts payable to holders of Company Performance Share Awards and Company RSUs pursuant to Section 2.02 and any repayment or refinancing of then outstanding Indebtedness of the Company or any of its Subsidiaries, which repayment or refinancing is required as a result of the Merger, as set forth in Section 3.02(p) of the Company Disclosure Letter, after taking into account any consents or waivers obtained from any holder of such Indebtedness prior to the Effective Time.

ARTICLE IV

COVENANTS RELATING TO CONDUCT OF BUSINESS

SECTION 4.01. Conduct of Business Pending the Merger.

(a) Conduct of Business by the Company. From the date of this Agreement until the earlier of the Effective Time and the termination of this Agreement in accordance with Article VII, except as otherwise expressly contemplated by this Agreement, set forth in Section 4.01(a) of the Company Disclosure Letter, required by applicable Law, required by a Governmental Entity or with the prior written consent of Parent (such consent not to be unreasonably withheld, conditioned or delayed), (x) the Company shall, and shall cause each of

T

Table of Contents

its Subsidiaries to, conduct its business in all material respects in the ordinary course consistent with past practice and shall use commercially reasonable efforts to preserve substantially intact its current business organizations, maintain adequate and comparable insurance coverage, and preserve its relationships with its employees, counterparties, customers and suppliers and Governmental Entities with jurisdiction over the Company or any of its Subsidiaries and (y) without limiting the foregoing, the Company shall not, and shall not permit any of its Subsidiaries to:

(i) declare, set aside or pay any dividends on, or make any other distributions (whether in cash, stock or property) in respect of, any of its capital stock, other than (A) regular quarterly cash dividends payable by the Company in respect of Company Shares not in excess of the amount set forth in Section 4.01(a)(i) of the Company Disclosure Letter and (B) dividends or distributions by a Subsidiary of the Company to the Company or to any wholly-owned Subsidiary of the Company;

(ii) split, combine or reclassify any of its capital stock, other ownership interests or voting securities, or securities convertible into or exchangeable or exercisable for any such shares of capital stock, interests or securities, or issue or authorize the issuance of any other securities in respect of, in lieu of or in substitution for shares of its capital stock, other ownership interests or voting securities, other than transactions solely between or among the Company and its wholly-owned Subsidiaries or between or among the Company’s wholly-owned Subsidiaries;

(iii) purchase, redeem or otherwise acquire any of its or its Subsidiaries’ shares of capital stock, other ownership interests or voting securities, or securities convertible into or exchangeable or exercisable for any such shares of capital stock, interests or securities, or any rights, warrants or options to acquire any such shares of capital stock, interests or securities, other than (A) the withholding of Company Shares to satisfy Tax obligations or the exercise price with respect to awards granted pursuant to the Company Equity Award Plans or settlement of awards granted pursuant to the Company Equity Award Plans and (B) the acquisition by the Company of awards granted pursuant to the Company Equity Award Plans in connection with the forfeiture or settlement of such awards or rights, in each case, that are outstanding as of the date hereof and in accordance with their terms as of the date hereof or granted after the date hereof in accordance with this Agreement;

(iv) issue, deliver, sell, pledge, dispose of, encumber or subject to any Lien, any shares of its capital stock, other ownership interests or voting securities (other than the issuance of shares by a wholly-owned Subsidiary of the Company to the Company or another wholly-owned Subsidiary of the Company), or any securities convertible into, exercisable or exchangeable for, or any rights, warrants or options to acquire, any such shares of capital stock, interests or voting securities or any “phantom” stock, “phantom” stock rights, stock appreciation rights or stock-based performance units, other than upon the exercise, vesting or settlement of awards granted pursuant to the Company Equity Award Plans that are outstanding as of the date hereof or granted after the date hereof in accordance with this Agreement, in each case, exercised, vested or settled in accordance with their terms;

(v) amend (A) any of the Company Organizational Documents or (B) the comparable organizational documents of any Subsidiary of the Company, other than, in the case of this clause (B), amendments that effect solely ministerial changes to such documents;

(vi) acquire (whether by merger, consolidation, purchase of property or assets (including equity interests) or otherwise) any corporation, partnership or other business organization or division thereof or any material assets or interests in any Person with a value in excess of $50 million in the aggregate, other than transactions solely between or among the Company and its wholly-owned Subsidiaries or between or among the Company’s wholly-owned Subsidiaries;

(vii) sell, license, lease, transfer, assign, divest, cancel, encumber, abandon or otherwise dispose of any of its properties, rights or assets which (A) are material to the Company and its Subsidiaries, taken as a whole, or (B) have a value in excess of $25 million, other than (1) sales, transfers and dispositions of obsolete, non-operating or worthless assets or properties and (2) sales, leases, transfers or other dispositions

T

Table of Contents

made in connection with (x) any immaterial transactions in the ordinary course of business consistent with past practice or (y) any transactions solely between or among the Company and its wholly-owned Subsidiaries or between or among the Company's wholly-owned Subsidiaries;

(viii) incur, redeem, prepay, defease, cancel, or, in any material respect, modify any indebtedness for borrowed money, issue or sell any debt securities or warrants or other rights to acquire any debt securities of the Company or any of its Subsidiaries, guarantee, assume or endorse or otherwise as an accommodation become responsible for any such indebtedness or any debt securities or other financial obligations of another Person or enter into any "keep well" or other agreement to maintain any financial statement condition of another Person (collectively, "Indebtedness"), other than (A) borrowings under existing revolving credit facilities (or replacements thereof on comparable terms, including in regards to maturity) or commercial paper programs in the ordinary course of business, (B) other than as set forth in the foregoing clause (A) and in Section 4.01(a)(viii) of the Company Disclosure Letter, incurring any Indebtedness in the ordinary course of business (including interest rate swaps on customary commercial terms consistent with past practice) not in excess of $200,000,000, (C) other than as set forth in Section 4.01(a)(viii) of the Company Disclosure Letter, redeeming, prepaying, defeasing, cancelling or modifying any Indebtedness in the ordinary course of business (including interest rate swaps on customary commercial terms consistent with past practice) not to exceed $200,000,000, (D) incurring, redeeming, prepaying, defeasing, cancelling or modifying any Indebtedness among the Company or any of its Subsidiaries, (E) incurring any Indebtedness to replace, renew, extend, refinance or refund any existing Indebtedness in the same principal amount of such existing Indebtedness and upon the maturity of such existing Indebtedness and to the extent such existing Indebtedness is Indebtedness of the Company, on terms that can be redeemed or prepaid at any time upon payment of the outstanding principal amount plus accrued interest without any make whole or similar prepayment penalty, and (F) providing guarantees and other credit support by the Company with respect to the obligations of any of its Subsidiaries; provided, however, no such Indebtedness shall contain any term that would accelerate the payment thereof or require its immediate repayment due to the transactions contemplated by this Agreement;

(ix) settle any claim, investigation or Proceeding with a Governmental Entity or third party, in each case, threatened, made or pending against the Company or any of its Subsidiaries, which (A) provides injunctive relief which is material to the Company or any of its Subsidiaries or (B) requires payment in excess of $10 million in the aggregate, other than the settlement of any claims, investigations or Proceedings made in the ordinary course of business or for an amount (excluding any amounts that are covered by any insurance policies of the Company or its Subsidiaries, as applicable) not in excess of the amount reflected or reserved therefor in the most recent financial statements (or the notes thereto) of the Company included in the Company's SEC Reports; provided, however, that neither the Company nor any of its Subsidiaries shall settle any claim, investigation or Proceeding with a Governmental Entity or third party, in each case, threatened, made or pending against the Company or any of its Subsidiaries relating to or arising out of (A) the construction (or cessation of the construction), abandonment or disposal of nuclear power Units 2 and 3 at the Summer Station, (B) the bankruptcy of Westinghouse Electric Company, LLC (including the settlement agreement entered into with Toshiba Corporation and any Contract relating to the proceeds thereof), or (C) any other aspect of the NND Project (collectively, the "NND Project Litigation") (it being understood and agreed that this proviso shall not apply to (x) the termination of any Contract related to the NND Project so long as such termination results in no additional liability of the Company or any of its Subsidiaries in excess of $5 million in the aggregate or (y) any immaterial amendment of any Contract related to the NND Project) other than as follows:
(a) except as set forth in subclause (b) below, neither the Company nor any of its Subsidiaries shall settle any claim, investigation or Proceeding with a third party who is not a Governmental Entity relating to or arising out of the NND Project Litigation without prior consent of Parent (such consent not to be unreasonably withheld, conditioned or delayed), (b) the Company or its Subsidiaries may, after prior notice to Parent, settle any mechanic liens related to the cessation of construction of the NND Project including those more specifically described as item 1(y) of Section 3.01(g) of the Company Disclosure Letter (it being understood and agreed that the $10 million limitation referred to in the fourth line of this Section 4.01(a)(ix) shall not apply to such settlement of mechanic's liens) and

T

Table of Contents

(c) neither the Company nor its Subsidiaries may settle any claim, investigation or Proceeding with a Governmental Entity relating to or arising out of the NND Project Litigation without prior consent of Parent (such consent not to be unreasonably withheld, conditioned or delayed);

(x) make or agree to make any capital expenditure in any fiscal year, except (A) for capital expenditures made in accordance with the capital expenditures plan set forth in Section 4.01(a)(x) of the Company Disclosure Letter in an amount not to exceed $50 million in excess of the amounts set forth in such capital expenditure plan during any calendar year, (B) for capital expenditures related to operational emergencies, equipment failures or outages or expenditures that the Company reasonably determines are then necessary to maintain the safety and integrity of any asset or property in response to any unanticipated or unforeseen and subsequently discovered events, occurrences or developments, or (C) as required by Law or a Governmental Entity;

(xi) except as required pursuant to the terms of any Company Benefit Plan or other written agreement, in each case, in effect on the date hereof, (A) grant to any director or officer any increase in compensation or pay, or award any bonuses or incentive compensation, including in the case of any Company officer, any changes associated with promotions or other position changes, regardless of whether such promotions or changes were previously announced, (B) grant to any current or former director, officer or employee any increase in severance, retention or termination pay, (C) grant or amend any equity awards, (D) enter into any new, or modify any existing, employment or consulting agreement with any current or former director or officer or enter into any new, or modify any existing, employment or consulting agreement with any individual consultant pursuant to which the annual base salary of such individual under such agreement exceeds $250,000.00 or the term of which exceeds twelve (12) months, (E) establish, adopt, enter into or amend in any material respect any material collective bargaining agreement or material Company Benefit Plan, (F) take any action to accelerate any rights or benefits under any Company Benefit Plan, or (G) hire or promote any new officer (other than any officer whose hiring or promotion has previously been publicly announced, but that has not yet taken effect as of the date hereof); provided, however, that, other than as set forth in subclause (A), the foregoing shall not restrict the Company or any of its Subsidiaries from entering into or making available to newly hired employees or to employees in the context of promotions based on job performance or workplace requirements, in each case, in the ordinary course of business, plans, agreements, benefits and compensation arrangements (including incentive grants, whether cash or equity, but excluding any individual severance arrangements) that have a value that is consistent with its past practice of making compensation and benefits available to newly hired or promoted employees in similar positions and under similar circumstances;

(xii) other than as required (A) by GAAP (or any interpretation thereof), including pursuant to standards, guidelines and interpretations of the Financial Accounting Standards Board or any similar organization or (B) by a Governmental Entity or Law (including pursuant to any applicable SEC rule or policy), make any change in accounting methods, principles or practices where such changes would reasonably be expected to be material to the Company and its Subsidiaries, taken as a whole;

(xiii) (A) make, change or rescind any material Tax election, any Tax accounting period, or adopt or change any material method of Tax accounting, (B) settle or compromise any material Tax liability or consent to any material claim or assessment or obtain any material ruling relating Taxes, (C) file any amended material Tax Return or (D) enter into any material closing agreement relating to Taxes;

(xiv) other than in the ordinary course of business consistent with past practice, materially amend, modify or terminate, or waive any material rights under, or enter into any Contract which if entered into prior to the date of this Agreement would have been deemed, a Company Material Contract;

(xv) adopt or enter into a plan of complete or partial liquidation, dissolution, merger, consolidation, restructuring, recapitalization or other reorganization, other than the Merger and any other mergers, consolidations, restructurings, recapitalizations or other reorganizations solely between or among the

T

Table of Contents

Company and its wholly-owned Subsidiaries or between or among the Company's wholly-owned Subsidiaries;

(xvi) materially change or enter into any IT Systems or cyber-security Contracts that are material to the Company and its Subsidiaries (other than routine maintenance and upgrades to existing IT Systems); or

(xvii) authorize any of, or commit or agree to take any of, the foregoing actions prohibited pursuant to clauses (i) through (xvi) of this Section 4.01(a).

(b) Conduct of Business by Parent. From the date of this Agreement until the earlier of the Effective Time and the termination of this Agreement in accordance with Article VII, except as otherwise expressly contemplated by this Agreement, set forth in Section 4.01(b) of the Parent Disclosure Letter, required by applicable Law, required by a Governmental Entity or with the prior written consent of the Company (such consent not to be unreasonably withheld, conditioned or delayed), (x) Parent shall, and shall cause each of the Parent Significant Subsidiaries to, conduct its business in all material respects in the ordinary course of business consistent with past practice and shall use commercially reasonable efforts to preserve substantially intact its current business organizations, maintain adequate and comparable insurance coverage and preserve its relationships with its employees, counterparties, customers and suppliers and Governmental Entities with jurisdiction over Parent or any of the Parent Significant Subsidiaries and (y) without limiting the foregoing, Parent shall not:

(i) declare, set aside or pay any dividends on, or make any other distributions (whether in cash, stock or property) in respect of, any of its capital stock, other than regular quarterly cash dividends payable by Parent in respect of Parent Shares;

(ii) split, combine or reclassify any of its capital stock, other ownership interests or voting securities, or securities convertible into or exchangeable or exercisable for any such shares of capital stock, interests or securities, or issue or authorize the issuance of any other securities in respect of, in lieu of or in substitution for shares of its capital stock, other ownership interests or voting securities, other than transactions solely between or among Parent and its wholly-owned Subsidiaries;

(iii) purchase, redeem or otherwise acquire any of its or the Parent Significant Subsidiaries' shares of capital stock, other ownership interests or voting securities, or securities convertible into or exchangeable or exercisable for any such shares of capital stock, interests or securities, or any rights, warrants or options to acquire any such shares of capital stock, interests or securities, other than (A) the withholding of Parent Shares or any of Parent's Subsidiaries' capital stock to satisfy Tax obligations or the exercise price with respect to awards granted pursuant to any of Parent's equity award plans or (B) purchasing, redeeming or acquiring any of Parent's equity awards pursuant to any of Parent's equity award plans;

(iv) except for any Parent Shares issued in an offering for cash at a price no lower than ninety-five percent (95%) of the market price for Parent Shares on the NYSE at the time of such offering, issue, deliver, sell, pledge, dispose of, encumber or subject to any Lien, any shares of its capital stock, other ownership interests or voting securities, or, except for equity units or mandatorily convertible securities issued in an offering for cash with a conversion premium, any securities convertible into, exercisable or exchangeable for, or any rights, warrants or options to acquire, any such shares of capital stock, interests or securities or any "phantom" stock, "phantom" stock rights, stock appreciation rights or stock-based performance units, other than upon the exercise, vesting or settlement of awards granted pursuant to any Parent equity award plans or pursuant to Parent's dividend reinvestment and direct stock purchase plan;

(v) amend (A) any of the Parent Organizational Documents or (B) the comparable organizational documents of any Parent Significant Subsidiary, in each case, in a manner that would materially adversely affect the holders of Company Shares whose Company Shares shall, pursuant to Section 2.01(a), convert in part into Parent Shares at the Effective Time; or

(vi) authorize any of, or commit or agree to take any of, the foregoing actions prohibited pursuant to clauses (i) through (v) of this Section 4.01(b).

T

Table of Contents

(c) From the date of this Agreement until the earlier of the Effective Time and the termination of this Agreement in accordance with Article VII, neither the Company nor Parent shall take or permit any of their respective Subsidiaries to take any action that would reasonably be expected to prevent, or materially impair or delay, the consummation of the Merger or any of the other transactions contemplated by this Agreement.

SECTION 4.02. Acquisition Proposals.

(a) The Company agrees that, except as permitted by this Section 4.02, neither it nor any of its Subsidiaries, or any of their respective directors or officers, shall, and it shall instruct and use its reasonable best efforts to cause its and its Subsidiaries' employees, investment bankers, attorneys, accountants and other advisors or representatives (collectively, "Representatives") not to, directly or indirectly (i) initiate, solicit or knowingly encourage any Acquisition Proposal or the making of any inquiry, indication of interest, proposal or offer that constitutes, or could reasonably be expected to lead to, an Acquisition Proposal, (ii) engage in, continue or otherwise participate in any discussions or negotiations regarding any inquiry, indication of interest, proposal or offer that constitutes, or could reasonably be expected to lead to, an Acquisition Proposal, (iii) furnish or provide any information or data to any Person in connection with any inquiry, indication of interest, proposal or offer that constitutes, or could reasonably be expected to lead to, an Acquisition Proposal, (iv) otherwise knowingly facilitate any effort or attempt with respect to the foregoing. Any violation of the restrictions set forth in this Section 4.02 by any director, officer or investment banker of the Company or any of its Subsidiaries shall be deemed to be a breach of this Section 4.02 by the Company.

(b) The Company agrees that it and its Subsidiaries and their respective directors, officers, and employees, shall, and it shall instruct and use its reasonable best efforts to cause its and its Subsidiaries' Representatives to, immediately (i) cease and cause to be terminated any solicitation, discussions, negotiations or knowing facilitation or encouragement with any Person that may be ongoing with respect to any inquiry, indication of interest, proposal or offer that constitutes, or could reasonably be expected to lead to, an Acquisition Proposal, (ii) terminate any such Person's access to any physical or electronic data rooms and (iii) request that any such Person and its Representatives promptly return or destroy all confidential information concerning the Company and its Subsidiaries theretofore furnished thereto by or on behalf of the Company or any of its Subsidiaries, and destroy all analyses and other materials prepared by or on behalf of such Person that contain, reflect or analyze such information, in each case, to the extent required by, and in accordance with, the terms of the applicable confidentiality agreement between the Company and such Person.

(c) The Company shall promptly (but in any event within forty-eight (48) hours) notify Parent in writing of the receipt of any inquiry, indication of interest, proposal or offer that constitutes, or could reasonably be expected to lead to, any Acquisition Proposal, indicating (i) the identity of the Person making such Acquisition Proposal and (ii) the material terms and conditions of such Acquisition Proposal and providing Parent with the most current version (if any) of such inquiry, indication of interest, proposal or offer and all related material documentation. With respect to any Acquisition Proposal described in the immediately preceding sentence, the Company shall keep Parent reasonably informed, on a prompt basis (but in any event within forty-eight (48) hours of any such event), of (x) any changes or modifications to the terms of any such Acquisition Proposal and (y) any communications from such Person to the Company or from the Company to such Person with respect to any changes or modifications to the terms of any such Acquisition Proposal. Except as required by applicable Law, the Company shall not terminate, amend, modify, waive or fail to enforce any provision of any standstill or similar obligation with respect to any class of equity securities of the Company or any of its Subsidiaries.

(d) Notwithstanding anything to the contrary contained in Section 4.02(a) or Section 4.02(b), prior to the Company Requisite Vote, in response to an unsolicited bona fide written Acquisition Proposal that did not result from a breach of this Section 4.02, if the Company Board determines in good faith (x) after consultation with the Company's financial advisors and outside legal counsel, that such Acquisition Proposal is, or could reasonably be expected to lead to, a Superior Proposal and (y) after consultation with the Company's outside

T

Table of Contents

legal counsel, that the failure to take such action would reasonably be expected to be inconsistent with its fiduciary duties under applicable Law, the Company may, subject to providing Parent prior notice, (i) furnish or provide information (including non-public information or data) regarding, and afford access to, the business, properties, assets, books, records and personnel of, the Company and its Subsidiaries, to the Person making such Acquisition Proposal and its Representatives; provided, however, that the Company shall as promptly as is reasonably practicable make available to Parent any non-public information concerning the Company or its Subsidiaries that is provided to any Person pursuant to this clause (i) to the extent such information was not previously made available to Parent and (ii) engage in discussions and negotiations with such Person and its Representatives with respect to such Acquisition Proposal; provided, further, that, prior to taking any of the actions set forth in the foregoing clauses (i) or (ii) above, the Person making such Acquisition Proposal has entered into an Acceptable Confidentiality Agreement (it being understood that the negotiation of such Acceptable Confidentiality Agreement shall not be deemed to be a breach of Section 4.02(a) or Section 4.02(b)).

(e) Except as set forth in Section 4.02(f) and Section 4.02(g), the Company shall not, and the Company Board (and each committee thereof) shall not (i) (A) withdraw, change, qualify, withhold or modify, or propose to do any of the foregoing, in a manner adverse to Parent or Merger Sub, the Company Board Recommendation, (B) adopt, approve or recommend, or propose to adopt, approve or recommend, any Acquisition Proposal, (C) fail to include the Company Board Recommendation in the Proxy Statement/Prospectus, (D) fail to recommend against any Acquisition Proposal subject to Regulation 14D promulgated under the Exchange Act in any solicitation or recommendation statement made on Schedule 14D-9 within ten (10) Business Days after Parent so requests in writing, (E) if an Acquisition Proposal or any material modification thereof is made public or sent to the holders of Company Shares, fail to issue a press release that reaffirms the Company Board Recommendation within ten (10) Business Days after Parent so requests in writing or (F) agree or resolve to take any action set forth in the foregoing clauses (A) through (E) (any action set forth in this clause (i), a "Company Adverse Recommendation Change") or (ii) authorize, cause or permit the Company or any of its Affiliates to enter into any letter of intent, memorandum of understanding, agreement in principle, definitive agreement, or other similar commitment that would reasonably be expected to lead to an Acquisition Proposal (other than an Acceptable Confidentiality Agreement) (an "Alternative Acquisition Agreement").

(f) Notwithstanding anything to the contrary in this Agreement, at any time prior to obtaining the Company Requisite Vote, the Company Board may make a Company Adverse Recommendation Change (and, solely with respect to a Superior Proposal, terminate this Agreement pursuant to Section 7.01(c)(i)) if (i) the Company has received a Superior Proposal other than as a result of a breach of this Section 4.02 and the Company Board (or a duly authorized committee thereof) determines in good faith, after consultation with the Company's outside legal counsel, that the failure to make a Company Adverse Recommendation Change in response to the receipt of such Superior Proposal would reasonably be expected to be inconsistent with its fiduciary duties under applicable Law and (ii) (A) the Company provides Parent prior written notice of its intent to make any Company Adverse Recommendation Change or terminate this Agreement pursuant to Section 7.01(c)(i) at least four (4) Business Days prior to taking such action to the effect that, absent any modification to the terms and conditions of this Agreement that would cause the Superior Proposal to no longer be a Superior Proposal, the Company Board has resolved to effect a Company Adverse Recommendation Change or to terminate this Agreement pursuant to Section 7.01(c)(i), which notice shall specify the basis for such Company Adverse Recommendation Change or termination, shall provide the material terms and conditions of such Superior Proposal and shall attach the most current draft of any Alternative Acquisition Agreement, and any other material documents with respect to the Superior Proposal that (x) include any terms and conditions of the Superior Proposal and (y) were not produced by the Company, any of its Subsidiaries or any of its or their Representatives solely for internal purposes, if applicable (a "Notice of Recommendation Change") (it being understood that such Notice of Recommendation Change shall not in itself be deemed a Company Adverse Recommendation Change and that any change in price or material revision or material amendment to the terms of a Superior Proposal, if applicable, shall require a new notice to which the provisions of clauses (A), (B) and (C) of this Section 4.02(f) shall apply *mutatis mutandis* except that, in the case of such a new notice, all references to four (4) Business Days in this Section 4.02(f) shall be deemed to be two (2) Business Days), (B)
T

Table of Contents

during such four (4) Business Day period, if requested by Parent, the Company shall make its Representatives reasonably available to negotiate in good faith with Parent and its Representatives regarding any modifications to the terms and conditions of this Agreement that Parent proposes to make and (C) at the end of such four (4) Business Day period and taking into account any modifications to the terms of this Agreement proposed by Parent to the Company in a written, binding and irrevocable offer, the Company Board determines in good faith (x) after consultation with the Company's financial advisors and outside legal counsel, that such Superior Proposal still constitutes a Superior Proposal and (y) after consultation with the Company's outside legal counsel, that the failure to make such a Company Adverse Recommendation Change would reasonably be expected to be inconsistent with its fiduciary duties under applicable Law.

(g) Notwithstanding anything to the contrary in this Agreement, other than in connection with an Acquisition Proposal (which shall be governed by Section 4.02(f)), at any time prior to obtaining the Company Requisite Vote, the Company Board may make a Company Adverse Recommendation Change if (i) an Intervening Event occurs and in response thereto the Company Board determines in good faith, after consultation with the Company's outside legal counsel, that the failure to take such action would reasonably be expected to be inconsistent with its fiduciary duties under applicable Law and (ii) (A) the Company provides Parent prior written notice of its intent to make any Company Adverse Recommendation Change at least four (4) Business Days prior to taking such action to the effect that the Company Board has resolved to effect a Company Adverse Recommendation Change, which notice shall specify the basis therefor and include a reasonably detailed description of the Intervening Event, (B) during such four (4) Business Day period, if requested by Parent, the Company shall make its Representatives reasonably available to negotiate in good faith with Parent and its Representatives regarding any modifications to the terms and conditions of this Agreement that Parent proposes to make and (C) at the end of such four (4) Business Day period and taking into account any modifications to the terms of this Agreement proposed by Parent to the Company in a written, binding and irrevocable offer, the Company Board determines in good faith, after consultation with the Company's outside legal counsel, that the failure to make such a Company Adverse Recommendation Change would reasonably be expected to be inconsistent with its fiduciary duties under applicable Law. Each time there is a material change to the facts or circumstances relating to the Intervening Event prior to obtaining the Company Requisite Vote, the Company will be required to deliver to Parent prompt written notice of such material change (which notice shall include a reasonably detailed description of such material change) and the Company will provide Parent with an additional two (2) Business Day period prior to making a Company Adverse Recommendation Change, such period shall begin upon the date of Parent's receipt of the notice of such material change.

(h) Nothing contained in this Section 4.02 or elsewhere in this Agreement shall prohibit the Company or any of its Subsidiaries from (i) complying with its disclosure obligations under U.S. federal or state Law, (ii) making any "stop, look or listen" communication to the shareholders of the Company pursuant to Rule 14d-9(f) promulgated under the Exchange Act (or any similar communications to the shareholders of the Company) or (iii) making any other disclosure to its shareholders if the Company Board determines in good faith after consultation with the Company's outside legal counsel that the failure to make such disclosure would be inconsistent with its fiduciary duties under applicable Law.

ARTICLE V

ADDITIONAL AGREEMENTS

SECTION 5.01. Proxy Statement/Prospectus; Shareholders Meeting.

(a) As soon as reasonably practicable following the date of this Agreement, but in any event within thirty (30) Business Days thereafter, (i) the Company and Parent shall jointly prepare and cause to be filed with the SEC the proxy statement/prospectus (together with any amendment or supplement thereto, the "Proxy Statement/Prospectus"), as part of the Form S-4, that includes (A) a proxy statement of the Company for use in

T

Table of Contents

the solicitation of proxies for the Shareholders Meeting and (B) a prospectus with respect to the issuance of Parent Shares in the Merger and (ii) Parent shall prepare and cause to be filed with the SEC the Form S-4. The Company and Parent shall use their respective reasonable best efforts to (A) have the Form S-4 declared effective under the Securities Act as promptly as practicable after the Form S-4 is filed, (B) ensure that the Form S-4 and the Proxy Statement/Prospectus complies in all material respects with the applicable provisions of the Securities Act, the Exchange Act and the rules and regulations thereunder and (C) keep the Form S-4 effective for as long as may be reasonably requested in connection with the preparation, filing and distribution of the Form S-4 and the Proxy Statement/Prospectus. As promptly as practicable after the date of this Agreement, each of the Company and Parent will furnish or cause to be furnished to the other party the information relating to itself and its Subsidiaries, and cooperate with the other party, as may reasonably be requested, in connection with the preparation, filing and distribution of the Form S-4 and the Proxy Statement/Prospectus. The Form S-4 and Proxy Statement/Prospectus shall include all information reasonably requested by the parties hereto pursuant to the immediately preceding sentence.

(b) Each party hereto shall promptly notify the other parties of the receipt of any comments of the SEC to the Form S-4 or the Proxy Statement/Prospectus and of any request by the SEC for any amendment or supplement thereto or for additional information in connection therewith. As promptly as practicable after receipt of any such comment or request from the SEC, the party that received such comment or request shall provide the other parties copies of all correspondence between the receiving party and its Representatives, on the one hand, and the SEC, on the other hand, regarding such comments or request. The Company and Parent shall each use its reasonable best efforts to promptly provide responses to the SEC with respect to all comments received on the Form S-4 or the Proxy Statement/Prospectus from the SEC.

(c) Notwithstanding the foregoing, prior to filing the Form S-4 (or any amendment or supplement thereto) or mailing the Proxy Statement/Prospectus (or any amendment or supplement thereto) or responding to any comments of the SEC with respect thereto, each of the Company and Parent shall (i) provide the other party an opportunity to review and comment on such document or response (including the proposed final version of such document or response) and shall consider such comments in good faith and (ii) promptly provide the other party with a copy of any such document or response.

(d) Each of the Company and Parent shall advise the other, promptly after receipt of notice thereof, of the time of effectiveness of the Form S-4, the issuance of any stop order relating thereto or the suspension of the qualification of the Parent Shares to be issued in connection with the consummation of the transactions contemplated by this Agreement for offering or sale in any jurisdiction. Each of the Company and Parent shall use its reasonable best efforts to have any such stop order or suspension lifted, reversed or otherwise terminated. Each of the Company and Parent shall also take any other action required to be taken under the Securities Act, the Exchange Act, any applicable foreign or state securities or “blue sky” laws and the rules and regulations thereunder in connection with the Merger and the issuance of the Parent Shares to be issued in connection with the consummation of the transactions contemplated by this Agreement.

(e) If, prior to the Effective Time, any event occurs with respect to any party hereto or any of its Subsidiaries, or any change occurs with respect to other information supplied by such party for inclusion in the Form S-4 or the Proxy Statement/Prospectus, which is required to be described in an amendment of, or a supplement to, the Form S-4 or the Proxy Statement/Prospectus, such party shall promptly notify the other parties hereto of such event, and the Company and Parent shall cooperate (i) in the prompt filing with the SEC of any necessary amendment or supplement to the Form S-4 or the Proxy Statement/Prospectus so that such documents would not include any misstatement of a material fact or omit to state any material fact required to be stated therein or necessary in order to make the statements made therein, in light of the circumstances under which they are made, not misleading and (ii) to the extent required by Law, in disseminating the information contained in such amendment or supplement to the holders of Company Shares.

(f) Subject to the fiduciary duties of the Company Board under applicable Law, the Company will take, in accordance with applicable Law and the Company Organizational Documents, all action necessary to call, give
T

Table of Contents

notice of, convene and hold a meeting of holders of Company Shares (the "Shareholders Meeting") as promptly as practicable after the Form S-4 is declared effective under the Securities Act, to consider and vote upon the approval of this Agreement. Subject to Section 4.02, the Company Board shall recommend such approval and shall take all lawful action to solicit and obtain the Company Requisite Vote. Notwithstanding anything to the contrary in this Agreement, the Company may, but shall not be required to, adjourn or postpone the Shareholders Meeting (i) to the extent necessary to ensure that any necessary supplement or amendment to the Proxy Statement/Prospectus (including with respect to an Acquisition Proposal) is provided to the holders of Company Shares a reasonable amount of time in advance of a vote on the approval of this Agreement, (ii) if the Company reasonably believes it is necessary and advisable to do so in order to solicit additional proxies in order to obtain the Company Requisite Vote, (iii) if, as of the time for which the Shareholders Meeting is originally scheduled, there are insufficient Company Shares represented (either in person or by proxy) to constitute a quorum necessary to conduct the business of such meeting or (iv) as required by applicable Law.

(g) Parent shall use its reasonable best efforts to cause to be delivered to the Company two (2) letters from Parent's independent accountants, one dated a date within two (2) Business Days before the date on which the Form S-4 shall become effective and one dated a date within two (2) Business Days before the Closing Date, each addressed to the Company, in form and substance reasonably satisfactory to the Company and customary in scope and substance for comfort letters delivered by independent public accountants in connection with registration statements similar to the Form S-4.

(h) The Company shall use its reasonable best efforts to cause to be delivered to Parent two (2) letters from the Company's independent accountants, one dated a date within two (2) Business Days before the date on which the Form S-4 shall become effective and one dated a date within two (2) Business Days before the Closing Date, each addressed to Parent, in form and substance reasonably satisfactory to Parent and customary in scope and substance for comfort letters delivered by independent public accountants in connection with registration statements similar to the Form S-4.

SECTION 5.02. Filings; Other Actions; Notification.

(a) Subject to the terms and conditions set forth in this Agreement, each of the Company, Parent and Merger Sub shall (and shall cause its respective Subsidiaries to) cooperate and use its respective reasonable best efforts to (i) promptly make any required submissions and filings under applicable Law or to Governmental Entities with respect to the Merger and the other transactions contemplated by this Agreement, (ii) promptly furnish information requested in connection with such submissions and filings to such Governmental Entities or under such applicable Law, (iii) keep the other parties reasonably informed with respect to the status of any such submissions and filings to such Governmental Entities or under such applicable Law, including with respect to: (A) the occurrence or receipt of any Consent under such applicable Law, (B) the expiration or termination of any waiting period, (C) the commencement or proposed or threatened commencement of any investigation, litigation or administrative or judicial action or proceeding under such applicable Law, and (D) the nature and status of any objections raised or proposed or threatened to be raised under such applicable Law with respect to the Merger or the other transactions contemplated by this Agreement, (iv) obtain all Consents and Permits from any Governmental Entity (including the Regulatory Clearances) or any other Person necessary to consummate the transactions contemplated by this Agreement as soon as practicable, and (v) take or cause to be taken all other actions, and do or cause to be done all other things, reasonably necessary to consummate and make effective the Merger and the other transactions contemplated by this Agreement as soon as practicable.

(b) In furtherance and not in limitation of the foregoing: each of the Company, Parent and Merger Sub shall (i) (A) make an appropriate filing of a Notification and Report Form pursuant to the HSR Act with respect to the transactions contemplated by this Agreement as promptly as reasonably practicable following the date of this Agreement (and in any event within fifteen (15) Business Days after the date hereof (unless the parties otherwise agree)), (B) furnish as soon as practicable any additional information and documentary material that may be required or requested pursuant to the HSR Act and (C) use its reasonable best efforts to take, or cause to
T

Table of Contents

be taken, all other actions consistent with this Section 5.02 necessary to cause the expiration or termination of the applicable waiting periods under the HSR Act (including any extensions thereof) as soon as practicable and (ii) (A) make or cause to be made the appropriate filings (including notice filings) as soon as practicable (and in any event by the date with respect to each such filing set forth in Section 5.02(b) of the Company Disclosure Letter (unless the parties otherwise agree)) with the FERC, the NRC, the FCC, the SCPSC, the NCUC and the GPSC relating to the transactions contemplated by this Agreement, (B) supply as soon as practicable any additional information and documentary material that may be required or requested by the FERC, the NRC, the FCC, the SCPSC, the SCORS, the NCUC and the GPSC, as applicable, in connection with the Regulatory Clearances and (C) use its reasonable best efforts to take or cause to be taken all other actions consistent with this Section 5.02 as necessary to obtain any necessary Consents and Permits from the FERC, the NRC, the FCC, the SCPSC, the NCUC and the GPSC, as applicable, in connection with the Regulatory Clearances as soon as practicable.

(c) In furtherance and not in limitation of the foregoing, as promptly as reasonably practicable following the date of this Agreement, the Company and Parent shall (i) work together in good faith the finalize the terms of the SCPCS Petition and (ii) jointly file the SCPSC Petition. Each of the Company, Parent and Merger Sub shall furnish as soon as practicable any additional information and documentary material that may be required by the SCPSC or any other Government Entity in connection with the SCPSC Petition and use its reasonable best efforts to take, or cause to be taken, all other actions consistent with this Section 5.02 and as set forth in the SCPSC Petition necessary to obtain the SCPSC Petition Approval as soon as practicable.

(d) The Company, Parent and Merger Sub shall, subject to applicable Law relating to the exchange of information: (i) promptly notify the other parties of (and if in writing, furnish the other parties with copies of) any communication to such Person from any third party (other than a Representative of any of the parties hereto or any of their respective Subsidiaries) or any Governmental Entity regarding the filings and submissions described in this Section 5.02 and permit the other parties to review and discuss in advance (and to consider in good faith any comments made by the others in relation to) any proposed written response to any communication from any third party (other than a Representative of any of the parties hereto or any of their respective Subsidiaries) or any Governmental Entity regarding such filings and submissions, (ii) keep the other parties reasonably informed of any developments, meetings or discussions with any third party (other than a Representative of any of the parties hereto or any of their respective Subsidiaries) or any Governmental Entity in respect of any filings, submissions, investigations, or inquiries concerning the transactions contemplated by this Agreement and (iii) not independently participate in any meeting or discussion with any third party (other than a Representative of any of the parties hereto or any of their respective Subsidiaries) or any Governmental Entity in respect of any filings, submissions, investigations or inquiries concerning the transactions contemplated by this Agreement without giving the other party or parties hereto prior notice of such meeting or discussions to the extent it is reasonably practical to do so and, unless prohibited by such third party or Governmental Entity or otherwise not reasonably practical, the opportunity to attend or participate; provided, however, that (x) the Company, Parent and Merger Sub shall be permitted to redact any correspondence, filing, submission or communication prior to furnishing it to the other parties to the extent such correspondence, filing, submission or communication contains competitively or commercially sensitive information, including information relating to the valuation of the transactions contemplated by this Agreement and (y) for the avoidance of doubt, the foregoing clause (iii) shall not prohibit the Company, Parent or Merger Sub from independently participating in meetings and discussions with third parties or Governmental Entities that solely relate to an explanation of the terms of this Agreement, including the conditions set forth in Article VI.

(e) In furtherance and not in limitation of the foregoing, but subject to the other terms and conditions of this Section 5.02, Parent, Merger Sub and the Company agree to take promptly any and all steps necessary to avoid, eliminate or resolve each and every impediment to and obtain all Consents under applicable Laws that may be required by any Governmental Entity (including any Regulatory Clearances and the SCPSC Petition Approval), so as to enable the parties to consummate the Merger and the other transactions contemplated by this Agreement as soon as practicable, including committing to and effecting, by consent decree, hold separate
T

Table of Contents

orders, trust, or otherwise, (i) selling, licensing, holding separate or otherwise disposing of assets or businesses of Parent or the Company or any of their respective Subsidiaries, (ii) terminating, relinquishing, modifying, or waiving existing relationships, ventures, contractual rights, obligations or other arrangements of Parent or the Company or any of their respective Subsidiaries and (iii) creating any relationships, ventures, contractual rights, obligations or other arrangements of Parent or the Company or any of their respective Subsidiaries (each, a "Remedial Action"); provided, however, that any Remedial Action may, at the discretion of the Company or Parent, be conditioned upon consummation of the transactions contemplated by this Agreement.

(f) In furtherance and not in limitation of the foregoing, but subject to the other terms and conditions of this Section 5.02, in the event that any Proceeding is commenced, threatened or is reasonably foreseeable challenging any of the transactions contemplated by this Agreement and such Proceeding seeks, or would reasonably be expected to seek, to prevent, materially impede or materially delay the consummation of such transactions, Parent shall use reasonable best efforts to take or cause to be taken any and all action, including a Remedial Action, to avoid or resolve any such Proceeding as promptly as practicable. In addition, each of the Company, Parent and Merger Sub shall cooperate with each other and use its respective reasonable best efforts to contest, defend and resist any such litigation, action or proceeding and to have vacated, lifted, reversed or overturned any Order, whether temporary, preliminary or permanent, that is in effect and that prohibits, prevents, delays, interferes with or restricts consummation of the transactions contemplated by this Agreement as promptly as practicable.

(g) From the date hereof until the earlier of the Effective Time and the date this Agreement is terminated pursuant to Article VII, neither Parent, Merger Sub, nor Company shall, nor shall they permit their respective Subsidiaries to, acquire or agree to acquire any rights, assets, business, Person or division thereof (through acquisition, license, joint venture, collaboration or otherwise), if such acquisition would reasonably be expected to materially increase the risk of not obtaining, or would reasonably be expected to prevent or prohibit, or materially impede, interfere with or delay, obtaining, any applicable Consent under applicable Laws (including any Regulatory Clearance and the SCPSC Petition Approval) with respect to the transactions contemplated by this Agreement. Section 5.02(g) of the Company Disclosure Letter sets forth the approach to the coordination of matters related to the Company's pending acquisition described as Item 3 of Section 3.01(f) of the Company Disclosure Letter and matters related to this Agreement.

(h) The Company and its Subsidiaries (as applicable) shall, to the extent reasonably practicable, subject to applicable Law relating to the exchange of information and except as would be in violation of, or result in a waiver or loss of, the attorney-client privilege or work-product doctrine: (i) within 48 hours of receipt thereof, notify Parent of (and if in writing, furnish Parent with copies of) any material communication to the Company or its Subsidiaries from any Governmental Entity related to or arising out of any material claim, hearing, investigation or Proceeding, whether criminal or civil in nature, relating to or arising out of the construction, or cessation of the construction, of nuclear power Units 2 and 3 at the Summer Station or the bankruptcy of Westinghouse Electric Company, LLC (including the settlement agreement entered into with Toshiba Corporation and any Contract relating to the proceeds thereof) (collectively, "Nuclear Litigation") and permit Parent to review and discuss in advance (and consider in good faith any comments made by Parent in relation to) any proposed written response to any material communication from any Governmental Entity related to or arising out of any Nuclear Litigation, (ii) keep Parent reasonably informed of any developments, meetings or discussions with any Governmental Entity related to or arising out of any Nuclear Litigation, and (iii) use good faith efforts to give Parent notice (which notice shall be prior notice to the extent providing prior notice is reasonably practical) of any material meetings or discussions relating to or arising out of any Nuclear Litigation (and consider in good faith any comments or guidance from Parent in relation to such meeting or discussions) and, if appropriate in the Company's reasonable judgment, provide Parent the opportunity to attend or participate in such meetings or discussions.

(i) Notwithstanding anything set forth in this Agreement, Parent and its Affiliates shall not be required to and the Company and its Affiliates shall not be required to, unless conditioned on the Closing, and without the
T

Table of Contents

prior written consent of Parent (which consent may be withheld at Parent's sole discretion) the Company shall not and shall cause its Subsidiaries not to, in connection with obtaining any Consent or Permit, or with respect to any actions required under this Section 5.02, offer or accept, or agree, commit to agree or consent to, any undertaking, term, condition, liability, obligation, commitment or sanction (including any Remedial Action), that constitutes a Burdensome Condition.

(j) Notwithstanding anything set forth in this Agreement, Parent and its Affiliates shall not be required to and the Company and its Affiliates shall not be required to, unless conditioned on the Closing, and without the prior written consent of Parent (which consent may be withheld at Parent's sole discretion) the Company shall not and shall cause its Subsidiaries not to, in connection with the SCPSC Petition, offer or accept, or agree, commit to agree or consent to, any undertaking, term, condition, liability, obligation, commitment or sanction (including any Remedial Action) that (i) materially changes the proposed terms, conditions, or undertakings set forth in the SCPSC Petition or (ii) significantly changes the economic value of the proposed terms set forth in the SCPSC Petition, in each case, as reasonably determined by Parent in good faith.

SECTION 5.03. Access and Reports; Confidentiality.

(a) Subject to applicable Law relating to the exchange of information, upon reasonable notice, the Company and Parent shall, and shall cause each of their respective Subsidiaries to, afford to the other party's Representatives reasonable access, during normal business hours throughout the period prior to the Effective Time, to its employees, properties, books, contracts and records. During such period, the Company and Parent shall, and shall cause each of their respective Subsidiaries to, furnish promptly to the other party (i) to the extent not publicly available, a copy of each report, schedule, registration statement and other document (A) filed by it during such period pursuant to applicable Law or (B) filed with, furnished to or sent to the SEC, the FERC, the FCC, the NRC, the SCPSC, the SCORS, the NCUC, the GPSC or any other federal or state regulatory agency or commission and (ii) all information concerning its business, properties and personnel as may reasonably be requested by the other party; provided, however, that no investigation pursuant to this Section 5.03(a) shall affect or be deemed to modify any representation or warranty made herein; provided, further, that the foregoing shall not require the Company and Parent to (A) permit any inspection, or to disclose any information, that in the reasonable judgment of such party, would result in the disclosure of any trade secrets of third parties or violate any of its obligations to a third party with respect to confidentiality if the Company or Parent, as applicable, shall have used commercially reasonable efforts to obtain the consent of such third party to such inspection or disclosure, (B) disclose any privileged information of such party or any of its Subsidiaries, (C) permit any invasive environmental testing or sampling at any property or (D) take or allow any action that would unreasonably interfere with such party's or any of its Subsidiaries' business or operations. All requests for information made pursuant to this Section 5.03 shall be directed to the executive officer or other Person designated by the Company or Parent, as applicable. Notwithstanding the foregoing, with respect to Parent and its Subsidiaries, the access to and exchange of information described in this Section 5.03(a) shall be limited to the extent reasonably necessary or related to the consummation of the Merger and the other transactions contemplated by this Agreement.

(b) Each of the Company, Parent and Merger Sub will comply with the terms and conditions of that certain letter agreement, dated October 8, 2017, between Parent and the Company (as may be amended from time to time, the "Confidentiality Agreement"), and will hold and treat, and will cause their respective Representatives to hold and treat, in confidence all documents and information exchanged pursuant to Section 5.03(a) in accordance with the Confidentiality Agreement, which Confidentiality Agreement shall remain in full force and effect in accordance with its terms.

SECTION 5.04. Stock Exchange Delisting and Listing.

(a) Prior to the Closing Date, the Company shall cooperate with Parent and use its reasonable best efforts to take or cause to be taken all actions, and do or cause to be done all things, reasonably necessary, proper

T

Table of Contents

or advisable on its part under applicable Law and rules and policies of the NYSE to enable the delisting by the Surviving Corporation of the Company Shares from the NYSE and the deregistration of the Company Shares under the Exchange Act as promptly as practicable after the Effective Time and in accordance with applicable Law.

(b) Parent shall use its reasonable best efforts to cause the Parent Shares to be issued in connection with the transactions contemplated by this Agreement to be approved for listing on the NYSE, subject to official notice of issuance, prior to the Closing Date.

SECTION 5.05. Publicity. The initial news release regarding the Merger shall be a joint news release reasonably agreed between Parent and the Company and, except with respect to any action taken pursuant to Section 4.02 or Section 7.01, thereafter the Company and Parent each shall consult with each other prior to issuing, and give each other the opportunity to review and comment upon, any news releases or otherwise making public announcements with respect to the Merger and the other transactions contemplated by this Agreement, except as such party may reasonably conclude may be required by Law or by obligations pursuant to any listing agreement with or rules of any national securities exchange or interdealer quotation service or as may be requested by any Governmental Entity.

SECTION 5.06. Employee Matters.

(a) Following the Effective Time and until December 31, 2019 (the "Continuation Period"), Parent shall provide, or shall cause the Surviving Corporation to provide, the individuals who are employed by the Company or any of its Subsidiaries immediately before the Effective Time and not covered by any collective bargaining agreement (the "Company Non-Union Employees") with (i) annual base compensation no less than the annual base compensation provided to such Company Non-Union Employees immediately prior to the Effective Time, (ii) annual target cash incentive opportunities that are no less than the annual target cash incentive opportunities provided to such Company Non-Union Employees immediately prior to the Effective Time, subject to the satisfaction of performance criteria determined by Parent (consistent with the form and terms and conditions (including performance criteria) of such awards provided to other similarly situated employees of Parent) and other terms and conditions of Parent's annual incentive program, (iii) long-term target incentive award opportunities that are no less than the long-term target incentive award opportunities provided to such Company Non-Union Employees immediately prior to the Effective Time (such long-term incentive awards to be provided in such a form, and subject to such performance and vesting criteria and other terms and conditions, as Parent shall determine, consistent with the form and terms and conditions (including performance criteria) of such awards provided to other similarly situated employees of Parent), (iv) employment within a 50-mile radius from each such Company Non-Union Employee's location of employment immediately prior to the Effective Time and duties and responsibilities similar to what such Company Non-Union Employee had immediately prior to the Effective Time, (v) severance benefits that are no less favorable than those set forth in Section 5.06(a) of the Company Disclosure Letter and (vi) other employee benefits that are substantially comparable in the aggregate to the employee benefits provided to such Company Non-Union Employees immediately prior to the Effective Time. Further Parent shall provide, or shall cause the Surviving Corporation to provide, the individuals who are employed by the Company or any of its Subsidiaries immediately before the Effective Time and who are covered by a collective bargaining agreement with (A) compensation and benefits and other terms and conditions of employment in accordance with the terms of such collective bargaining agreement or any subsequently adopted collective bargaining agreement, as in effect from time to time, and (B) severance benefits that are no less favorable than those set forth in Section 5.06(a) of the Company Disclosure Letter.

(b) Without limiting the generality of Section 5.06(a) but subject to the obligations set forth in Section 5.06(a), from and after the Effective Time, Parent shall, or shall cause the Surviving Corporation to, assume, honor and continue during the Continuation Period or, if later, until all obligations thereunder have been satisfied, all of the Company's employment, severance, retention, termination, deferred compensation, and change in control plans, policies, programs, agreements and arrangements maintained by the Company or any of

T

Table of Contents

its Subsidiaries, in each case, as in effect at the Effective Time, including with respect to any payments, benefits or rights arising as a result of the transactions contemplated by this Agreement (either alone or in combination with any other event), and Parent or the Surviving Corporation may not amend, modify or terminate any such plan, policy, program, agreement or arrangement unless and solely to the extent permitted under the terms thereof as in effect at the Effective Time or otherwise as required to comply with applicable Law. In addition, to the extent required by the express terms of any Company Benefit Plan, Parent shall, or shall cause the Surviving Corporation to, expressly assume and agree to perform all obligations under and with respect to the terms of each such Company Benefit Plan. Notwithstanding anything to the contrary herein, Parent shall, or shall cause the Surviving Corporation to, maintain without amendment (other than as required to comply with applicable Law) for the duration of the Continuation Period each of the Company Benefit Plans listed on Section 5.06(b) of the Company Disclosure Letter. For avoidance of doubt, Parent shall assume, honor and continue the Company's change in control plans in accordance with the foregoing solely with respect to any payments, benefits or rights arising as a result of the transactions contemplated by this Agreement (either alone or in combination with any other event), and shall not be obligated to provide any additional payments, benefits or rights under such plans in connection with any subsequent change in control of Parent or the Surviving Corporation that may occur after the Merger.

(c) With respect to all plans maintained by Parent, the Surviving Corporation or their respective Subsidiaries in which the individuals who are employed by the Company or any of its Subsidiaries immediately before the Effective Time (the "Company Employees") are eligible to participate after the Closing Date (including any vacation, paid time-off and severance plans) for purposes of determining eligibility to participate, level of benefits and vesting (but not benefit accruals under any defined benefit pension plan), each Company Employee's service with the Company or any of its Subsidiaries (as well as service with any predecessor employer of the Company or any such Subsidiary, to the extent service with the predecessor employer is recognized by the Company or such Subsidiary) shall be treated as service with Parent, the Surviving Corporation or any of their respective Subsidiaries or any Commonly Controlled Entity, in each case, to the extent such service would have been recognized by the Company or its Subsidiaries under analogous Company Benefit Plans prior to the Effective Time; provided, however, that such service need not be recognized to the extent that such recognition would result in any duplication of benefits for the same period of service; and, provided further, that no Company Employee shall be entitled based on such prior credited service or otherwise to participate in any frozen or grandfathered plan or benefit formula of Parent or any of its Subsidiaries that would not be offered to employees first hired by Parent or its Subsidiaries after the Effective Time.

(d) Without limiting the generality of Section 5.06(a), Parent shall, or shall cause the Surviving Corporation to, waive any pre-existing condition limitations, exclusions, actively-at-work requirements and waiting periods under any welfare benefit plan maintained by Parent, the Surviving Corporation or any of their respective Subsidiaries in which Company Employees (and their eligible dependents) will be eligible to participate from and after the Effective Time, except to the extent that such pre-existing condition limitations, exclusions, actively-at-work requirements and waiting periods would not have been satisfied or waived under the comparable Company Benefit Plan immediately prior to the Effective Time; provided, however, that in the case of an insured plan, such waivers shall be made only to the extent the insurer consents thereto, and Parent and the Surviving Corporation shall use commercially reasonable efforts to obtain such consent. Parent shall, or shall cause the Surviving Corporation to, recognize the dollar amount of all co-payments, deductibles and similar expenses incurred by each Company Employee (and his or her eligible dependents) during the calendar year or plan year in which the Effective Time occurs for purposes of satisfying such year's deductible and co-payment limitations under the relevant welfare benefit plans in which they will be eligible to participate from and after the Effective Time; provided, however, that in the case of an insured plan, such amounts shall be taken into account only to the extent the insurer consents thereto, and Parent and the Surviving Corporation shall use commercially reasonable efforts to obtain such consent.

(e) The provisions of this Section 5.06 are solely for the benefit of the parties to this Agreement, and no other Person (including any current or former employee of the Company or its Subsidiaries or any beneficiary or

T

Table of Contents

dependent thereof) shall be regarded for any purpose as a third-party beneficiary of this Section 5.06, and no provision of this Section 5.06 shall create such rights in any such Persons. Except as set forth in Section 5.06(b), no provision of this Agreement shall be construed (i) as a guarantee of continued employment of any employee of the Company or its Subsidiaries, (ii) to prohibit Parent or its Subsidiaries (including the Surviving Corporation) from having the right to terminate the employment of any such employee, (iii) to require Parent or its Subsidiaries to continue to pay or provide any such employee any compensation or benefits after such termination of employment, other than any severance benefits that may be provided pursuant to Section 5.06(a)(v); (iv) to permit the amendment, modification or termination of any Company Benefit Plan or employee benefit plan of Parent or its Subsidiaries (in each case solely to the extent any such amendment, modification or termination is prohibited in accordance with the terms of the applicable plan) or (v) as an amendment or modification of the terms of any Company Benefit Plan or employee benefit plan or Parent or its Subsidiaries.

SECTION 5.07. Expenses. Except as set forth in Section 5.09(c), whether or not the Merger is consummated, all costs and expenses incurred in connection with this Agreement and the Merger and the other transactions contemplated by this Agreement shall be paid by the party incurring such expenses.

SECTION 5.08. Indemnification; Directors' and Officers' Insurance.

(a) From and after the Effective Time, Parent shall indemnify and hold harmless, to the fullest extent permitted under applicable Law, each present and former director and officer of the Company and its Subsidiaries (in each case, when acting in such capacity) (collectively, the "Indemnified Parties") from and against any and all costs and expenses (including reasonable attorneys' fees), judgments, fines, losses, claims, damages and liabilities (collectively, "Costs") incurred in connection with any Proceeding or investigation, whether civil, criminal, administrative or investigative, arising out of or pertaining to matters existing or occurring at or prior to the Effective Time, including the transactions contemplated by this Agreement. From and after the Effective Time, Parent shall advance expenses to each Indemnified Party claiming indemnification pursuant to this Section 5.08 as incurred to the fullest extent permitted under applicable Law; provided, however, that such Indemnified Party provides an undertaking to repay such advances if it is ultimately determined that such Indemnified Party is not entitled to such indemnification.

(b) From and after the Effective Time, Parent shall cause the Surviving Corporation to honor the provisions regarding (i) exculpation of directors, (ii) limitation of liability of directors and officers, (iii) advancement of expenses and (iv) indemnification, in each case, contained in the Company Organizational Documents (as in effect as of the date hereof), the comparable organizational documents of any of the Company's Subsidiaries (as in effect as of the date hereof) or any indemnification Contract set forth in Section 5.08(b) of the Company Disclosure Letter between the applicable Indemnified Party and the Company or any of its Subsidiaries existing immediately prior to the Effective Time (it being understood and agreed that, for the avoidance of doubt and without limiting the generality of the foregoing, the foregoing obligation of Parent shall apply with respect to, and remain in full force and effect as to any pending or future claim, hearing, investigation or Proceeding relating to or arising out of the construction, or cessation of the construction, of nuclear power Units 2 and 3 at the Summer Station or the bankruptcy of Westinghouse Electric Company, LLC (including the settlement agreement entered into with Toshiba Corporation and any Contract relating to the proceeds thereof)). For a period of three (3) years following the Effective Time, Parent shall cause the Surviving Corporation and its Subsidiaries not to amend, replace or otherwise modify the provisions regarding (A) exculpation of directors, (B) limitation of liability of directors and officers, (C) advancement of expenses and (D) indemnification, in each case, contained in their respective organizational documents; provided, however, that such three (3) year period shall be extended for so long as any Proceeding is pending or asserted against an Indemnified Party that implicates the rights set forth in the foregoing clauses (A) through (D); provided, further, that such prohibition on amendments, replacements and other modifications shall not apply to amendments, replacements and other modifications that are prospective in their application and exclude any effect on the Indemnified Parties.
T

Table of Contents

(c) From and after the Effective Time, Parent shall cause the Surviving Corporation to maintain for a period of at least six (6) years following the Effective Time directors' and officers' liability insurance and fiduciary liability insurance policies (collectively, "D&O Insurance") from an insurance carrier with the same or better credit rating as the Company's current insurance carrier with benefits, levels of coverage and terms and conditions at least as favorable as the Company's D&O Insurance existing immediately prior to the Effective Time with respect to matters existing or occurring at or prior to the Effective Time, including for acts or omissions in connection with this Agreement and the consummation of the transactions contemplated by this Agreement. Notwithstanding the foregoing, in no event shall Parent or the Surviving Corporation be required to expend for such D&O Insurance coverage an annual premium amount greater than three hundred percent (300%) of the aggregate amount of the annual premiums currently paid by the Company for D&O Insurance immediately prior to the Effective Time (such aggregate amount of premiums currently paid, the "Maximum Annual Premium"). If the annual premiums of such D&O Insurance coverage exceed the Maximum Annual Premium, Parent and the Surviving Corporation shall obtain a policy with as much coverage as reasonably available for an annual cost not exceeding the Maximum Annual Premium.

(d) Notwithstanding Section 5.08(c), the Company may in its sole discretion obtain, prior to the Effective Time, six (6) year pre-paid "tail" insurance coverage, at an aggregate cost no greater than six times the Maximum Annual Premium, providing for D&O Insurance not materially less favorable than that described in Section 5.08(c). If the Company has obtained such policy pursuant to this Section 5.08(d), Parent will cause such policy to be maintained in full force and effect for its full term and cause all obligations thereunder to be honored by the Surviving Corporation, and Parent will have no further obligation to purchase or pay for insurance pursuant to Section 5.08(c).

(e) If Parent, the Surviving Corporation or any of their respective successors or assigns (i) consolidates or merges with or into any other Person and is not the continuing or surviving corporation or entity of such consolidation or merger or (ii) transfers all or substantially all of its properties and assets to any Person, then, and in each such case, proper provisions shall be made so that the successors and assigns of Parent or the Surviving Corporation, as applicable, shall assume and comply with all of the obligations applicable to Parent or the Surviving Corporation, respectively, set forth in this Section 5.08.

(f) The provisions of this Section 5.08 are intended to be for the benefit of, and shall be enforceable by, each of the Indemnified Parties. The obligations of Parent and the Surviving Corporation in this Section 5.08 may not be terminated or modified in any manner that adversely affects any Indemnified Party without the consent of such Indemnified Party. Parent will honor, guaranty and stand as surety for, and will cause the Surviving Corporation and its Subsidiaries and successors to honor and comply with, the covenants contained in this Section 5.08.

(g) The rights of the Indemnified Parties under this Section 5.08 shall be in addition to, and not in limitation of, any rights such Indemnified Parties may have under the Company Organizational Documents or any of the comparable organizational documents of any of the Company's Subsidiaries, or under any applicable Contracts or Law.

SECTION 5.09. Financing.

(a) The Company shall, and shall cause its Subsidiaries to, (i) provide commercially reasonable assistance with the preparation of rating agency presentations and lender, underwriter and initial purchaser presentations, offering memoranda and prospectuses and any discussions regarding the business, financial statements, and management discussion and analysis of the Company and its Subsidiaries, all for use in connection with the financing activities of Parent, including any registration statement filed with the SEC where Parent determines that the inclusion of such information is required or desirable, and (ii) request that its independent accountants provide customary and reasonable assistance to Parent or any of its Subsidiaries, as applicable, in connection with providing customary comfort letters in connection with the financing activities of

T

Table of Contents

Parent; provided, further, that nothing in this Agreement shall require the Company to cause the delivery of (A) legal opinions or reliance letters or any certificate as to solvency or any other certificate necessary for such financing activities, other than as allowed by the preceding clause (ii), (B) any audited financial information or any financial information prepared in accordance with Regulation S-K or Regulation S-X under the Securities Act or any financial information in a form not customarily prepared by the Company with respect to any period or (C) any financial information with respect to a month or fiscal period that has not yet ended or has ended less than forty-five (45) days prior to the date of such request.

(b) Notwithstanding anything to the contrary contained in this Agreement (including this Section 5.09): (i) nothing in this Agreement (including this Section 5.09) shall require any such cooperation set forth in Section 5.09(a) to the extent that it would require the Company, any of its Subsidiaries or any of their respective Affiliates or Representatives to (A) pay any commitment or other fees, reimburse any expenses or otherwise incur any liabilities or give any indemnities prior to the Effective Time, (B) provide any cooperation that would unreasonably interfere with the ongoing business or operations of the Company, any of its Subsidiaries or any of their respective Affiliates or Representatives, (C) enter into or approve any agreement or other documentation effective prior to the Effective Time or agree to any change or modification of any existing agreement or other documentation that would be effective prior to the Effective Time, (D) require the Company to provide *pro forma* financial statements or *pro forma* adjustments reflecting the financing activities of Parent or any description of all or any component of such financing activities (it being understood that the Company shall use reasonable best efforts to assist in preparation of *pro forma* financial adjustments to the extent otherwise relating to the Company and required by the financing activities of Parent), (E) require the Company or the Subsidiaries of the Company to provide *pro forma* financial statements or *pro forma* adjustments reflecting transactions contemplated or required hereunder (it being understood that the Company shall use reasonable best efforts to assist in preparation of *pro forma* financial adjustments to the extent otherwise relating to the Company and required by the financing activities of Parent), (F) provide any cooperation or take any action that, in the reasonable judgment of the Company, would result in a violation of any confidentiality agreement or material agreement or the loss of any attorney-client or other similar privilege, (G) make any representation or warranty in connection with the financing activities of Parent or the marketing or arrangement thereof, (H) provide any cooperation, or take any action, that would cause any representation or warranty in this Agreement to be breached or any condition to the Closing set forth in this Agreement to fail to be satisfied or (I) cause the Company, any of its Subsidiaries or any of their respective boards of directors (or equivalent bodies) to approve or authorize the financing activities of Parent, and (ii) no action, liability or obligation (including any obligation to pay any commitment or other fees or reimburse any expenses) of the Company, any of its Subsidiaries or any of their respective Affiliates or Representatives under any certificate, agreement, arrangement, document or instrument relating to the financing activities of Parent shall be effective until the Effective Time.

(c) Parent shall (i) promptly reimburse the Company for all reasonable and out-of-pocket costs or expenses (including reasonable and documented costs and expenses of counsel and accountants) incurred by the Company, any of its Subsidiaries and any of their respective Representatives in connection with any cooperation provided for in Section 5.09(a) and (ii) indemnify and hold harmless the Company, each of its Subsidiaries and each of their respective Representatives against any claim, loss, damage, injury, liability, judgment, award, penalty, fine, Tax, cost (including cost of investigation), expense (including fees and expenses of counsel and accountants) or settlement payment incurred as a result of, or in connection with, any cooperation provided for in Section 5.09(a) or the financing activities of Parent and any information used in connection therewith, unless the Company acted in bad faith or engaged in willful misconduct and other than in the case of fraud.

(d) Without limiting the generality of the foregoing, promptly following Parent's request, the Company shall deliver to each of the lenders with respect to the Indebtedness set forth in Section 5.09(d) of the Parent Disclosure Letter (the "Existing Loan Lenders") a notice (an "Existing Loan Notice") prepared by Parent, in form and substance reasonably acceptable to the Company, notifying each of the Existing Loan Lenders of this Agreement and the contemplated Merger. At Parent's election, the Existing Loan Notice with respect to one or more of the Existing Loan Lenders may include a request for a consent, in form and substance reasonably

T

Table of Contents

acceptable to the Company (an "Existing Loan Consent"), to (i) the consummation of the Merger and the other transactions contemplated by this Agreement, and (ii) certain modifications of (or waivers under or other changes to) any agreement or documentation relating to the Company's or its Subsidiaries', as applicable, relationship with such Existing Loan Lender; provided, however, that no such modifications, waivers or changes shall be effective prior to the Effective Time.

(e) Parent and Merger Sub acknowledge and agree that the obtaining of any Existing Loan Consent is not a condition to the Closing.

SECTION 5.10. Rule 16b-3. Prior to the Effective Time, each of the Company and Parent shall take such steps as may be reasonably necessary or advisable to cause (a) any dispositions of Company equity securities (including derivative securities) pursuant to the transactions contemplated by this Agreement by each individual who is subject to the reporting requirements of Section 16(a) of the Exchange Act with respect to the Company to be exempt under Rule 16b-3 promulgated under the Exchange Act and (b) any acquisitions of Parent equity securities (including derivative securities) pursuant to the transactions contemplated by this Agreement by each individual who may become subject to the reporting requirements of Section 16(a) of the Exchange Act with respect to Parent to be exempt under Rule 16b-3 promulgated under the Exchange Act.

SECTION 5.11. Parent Consent. Within twenty-four (24) hours after the execution of this Agreement, Parent shall execute and deliver, in accordance with Chapter 11 of the SCBCA and in its capacity as the sole shareholder of Merger Sub, a written consent approving this Agreement.

SECTION 5.12. Merger Sub and Surviving Corporation Compliance. Parent shall cause Merger Sub or the Surviving Corporation, as applicable, to comply with all of its respective obligations under this Agreement, and prior to the Effective Time, Merger Sub shall not engage in any activities of any nature except as provided in or in furtherance of, or contemplated by this Agreement.

SECTION 5.13. Takeover Statutes. If any Takeover Statute is or may become applicable to the Merger or the other transactions contemplated by this Agreement, Parent, Merger Sub, the Company and the Company Board shall use reasonable best efforts to take such actions as are necessary so that such transactions may be consummated as promptly as practicable on the terms contemplated by this Agreement and otherwise act to eliminate or minimize the effects of such Takeover Statute on such transactions.

SECTION 5.14. Control of Operations. Without limiting any party's rights or obligations under this Agreement, the parties hereto understand and agree that (a) nothing contained in this Agreement will give any party hereto, directly or indirectly, the right to control, direct or influence any other party's operations prior to the Effective Time and (b) prior to the Effective Time, each party will exercise, consistent with the terms and conditions of this Agreement, complete control and supervision over its operations.

SECTION 5.15. Resignation of Directors. The Company will cause each of the directors of the Company to submit at the Closing a letter of resignation in form reasonably satisfactory to Parent and effective as of the Effective Time. Notwithstanding the foregoing, the Company will not be in breach of this Section 5.15 if it fails to obtain the resignation of any such director if Parent will have the power, directly or indirectly, to remove any such Person from his or her position as a director of the Company without cause immediately after the Effective Time with no liability in excess of $500,000 in the aggregate.

SECTION 5.16. Additional Matters. Parent hereby confirms that, subject to the occurrence of the Effective Time, it:

(a) intends to maintain South Carolina Electric & Gas Company's corporate headquarters in Cayce, South Carolina;

(b) will make a good faith commitment to give the employees of the Company and its Subsidiaries due and fair consideration for other employment and promotion opportunities within the larger Parent organization,

T

Table of Contents

both inside and outside of South Carolina, to the extent any employment positions are re-aligned, reduced or eliminated in the future as a result of the Merger;

(c) intends that Parent's board of directors will take all necessary action as soon as practical after the Effective Time to appoint a mutually agreeable current member of the Company Board or the Company's executive management as a director to serve on Parent's board of directors; and

(d) intends to increase the Company's historic level of corporate contributions to charities identified by the Company's leadership by $1,000,000.00 per year for at least five (5) years after the Effective Time and to maintain or increase historic levels of community involvement, low income funding and economic development efforts in the Company's current operating area.

SECTION 5.17. Shareholder Litigation. The Company shall advise Parent promptly in writing of any Proceeding brought by a holder of Company Shares or any other Person against the Company or its directors or officers arising out of or relating to this Agreement or the transactions contemplated by this Agreement (the "Shareholder Litigation") and shall keep Parent reasonably informed regarding any such matter. The Company shall not settle any such shareholder litigation without Parent's consent, not to be unreasonably withheld or delayed.

SECTION 5.18. Advice of Changes. Each of Parent and the Company will, to the extent not in violation of applicable Law, promptly advise the other of any Change of which it has Knowledge, (a) having or reasonably likely to have, individually or in the aggregate, a Parent Material Adverse Effect or a Company Material Adverse Effect, as the case may be, or (b) that would or would be reasonably likely to cause or constitute a material breach of any of its representations, warranties or covenants contained in this Agreement; provided, however, that (i) no such notification will operate as a waiver of or otherwise affect the representations, warranties or covenants of the parties or the conditions to the obligations of the parties under this Agreement, (ii) the delivery of any notice pursuant to this Section 5.18 shall not limit or otherwise affect the remedies available under this Agreement to the party receiving such notice and (iii) a failure to comply with this Section 5.18 shall not constitute the failure of any condition set forth in Article VI.

SECTION 5.19. Certain Tax Matters.

(a) Each of the parties shall use its reasonable best efforts to cause the Merger to qualify for the Intended Tax Treatment. None of the parties shall (and each of the parties shall cause their respective Subsidiaries not to) take any action (or fail to take any action) if taking (or failing to take) such action could reasonably be expected to cause the Merger to fail to qualify for the Intended Tax Treatment. The parties shall consider in good faith such amendments to this Agreement as may be reasonably required to cause the Merger to qualify for the Intended Tax Treatment.

(b) Each of the parties shall use its reasonable best efforts to obtain the Tax opinions to be attached as exhibits to the Proxy Statement/Prospectus and the Form S-4, including by (i) delivering to Morgan, Lewis & Bockius LLP and Mayer Brown LLP, prior to the filing of the Proxy Statement/Prospectus and the Form S-4, Tax representation letters in substantially the forms set forth in Section 5.19(b) of the Parent Disclosure Letter and Section 5.19(b) of the Company Disclosure Letter, respectively, and (ii) delivering to Morgan, Lewis & Bockius LLP and Mayer Brown LLP, dated and executed as of the Closing Date, Tax representation letters in substantially the forms set forth in Section 5.19(b) of the Parent Disclosure Letter and Section 5.19(b) of the Company Disclosure Letter, respectively. Each of the parties shall use its reasonable best efforts not to, and not permit any of its Affiliates to, take or cause to be taken any action that would cause to be untrue (or fail to take or cause not to be taken any action which inaction would cause to be untrue) any of the representations, warranties and covenants made to counsel in the Tax representation letters described in this Section 5.19(b).

(c) This Agreement is intended to constitute, and the parties hereto adopt this Agreement as, a "plan of reorganization" for purposes of Sections 354, 361 and 368 of the Code. The parties shall treat the Merger as

T

Table of Contents

a "reorganization" within the meaning of Section 368(a) of the Code for United States federal, state and other relevant Tax purposes.

ARTICLE VI

CONDITIONS

SECTION 6.01. Conditions to Each Party's Obligation to Effect the Merger. The respective obligation of each party hereto to effect the Merger is subject to the satisfaction or (to the extent permitted by Law) waiver at or prior to the Closing of each of the following conditions:

(a) Shareholder Approval. This Agreement shall have been duly approved by holders of Company Shares constituting the Company Requisite Vote;

(b) Orders. No Governmental Entity of competent jurisdiction shall have enacted, entered, promulgated or enforced any Law, executive order, ruling, judgment, injunction or other order (collectively, "Orders") that is in effect and restrains, enjoins, prevents or otherwise prohibits the consummation of the Merger or makes the consummation of the Merger illegal;

(c) Regulatory Conditions. Each of the conditions set forth in Section 6.01(c) of the Company Disclosure Letter with respect to the Consents described therein (the "Regulatory Conditions") shall have been satisfied;

(d) Approval of SCPSC Petition. The issuance by the SCPSC of an Order approving the SCPSC Petition (other than the request for the SCPSC to take the actions contemplated by Section 6.02(g), which actions are addressed in Section 6.02(g)), unless otherwise consented to by Parent in its sole discretion, without any (i) material changes to the proposed terms, conditions, or undertakings set forth in Section 3 of the key terms summarized in Appendix A attached to this Agreement and incorporated in the SCPSC Petition or (ii) a significant change to the economic value of proposed terms set forth in Section 3 of the key terms summarized in Appendix A attached to this Agreement and incorporated in the SCPSC Petition, in each case as reasonably determined by Parent in good faith (the "SCPSC Petition Approval") (it being understood and agreed that the condition set forth in this Section 6.01(d) shall be satisfied upon the issuance of such Order by the SCPSC without regard to any rehearing or appeals process (including the filing of any motion for reconsideration or petition for judicial review), or other judicial or administrative process, subsequent to the initial issuance of such Order);

(e) Listing. The Parent Shares to be issued in connection with the transactions contemplated by this Agreement shall have been approved for listing on the NYSE, subject to official notice of issuance; and

(f) Form S-4. The Form S-4 shall have been declared effective under the Securities Act and shall not be subject to any stop order or Proceeding seeking a stop order.

SECTION 6.02. Additional Conditions to Obligations of Parent and Merger Sub. The obligations of Parent and Merger Sub to effect the Merger are further subject to the satisfaction or (to the extent permitted by Law) waiver at or prior to the Closing of each of the following conditions:

(a) Representations and Warranties. (i) Each of the representations and warranties of the Company set forth in Section 3.01 (except for those contained in Section 3.01(c), Section 3.01(d)(i), Section 3.01(f)(i), Section 3.01(r) and Section 3.01(s)) shall be true and correct in all respects (disregarding all qualifications or limitations as to "materiality", "Company Material Adverse Effect" and words of similar import set forth therein) as of the date of this Agreement and as of the Closing Date as though made on and as of such date (except for any such representation or warranty that is made as of a specified date (including the date of this Agreement), in
T

Table of Contents

which case such representation or warranty shall be true and correct only as of such specified date), except where the failure of such representations and warranties to be so true and correct has not had and would not reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect, (ii) each of the representations and warranties of the Company set forth in Section 3.01(c) shall be true and correct in all respects (except for de minimis inaccuracies) as of the date of this Agreement and as of the Closing Date as though made on and as of such date (except for any such representation or warranty that is made as of a specified date (including the date of this Agreement), in which case such representation or warranty shall be true and correct only as of such specified date), (iii) each of the representations and warranties of the Company set forth in Section 3.01(d)(i) and Section 3.01(s) shall be true and correct in all material respects (disregarding all qualifications or limitations as to "materiality", "Company Material Adverse Effect" and words of similar import set forth therein) as of the date of this Agreement and as of the Closing Date as though made on and as of such date (except for any such representation or warranty that is made as of a specified date (including the date of this Agreement), in which case such representation or warranty shall be true and correct only as of such specified date) and (iv) each of the representations and warranties of the Company set forth in Section 3.01(f)(i) and Section 3.01(r) shall be true and correct in all respects as of the date of this Agreement and as of the Closing Date as though made on and as of such date (except for any such representation or warranty that is made as of a specified date (including the date of this Agreement), in which case such representation or warranty shall be true and correct only as of such specified date);

(b) Performance of Obligations of the Company. The Company shall have performed in all material respects all obligations required to be performed by it under this Agreement on or prior to the Closing Date;

(c) Certificate. Parent shall have received a certificate of the Chief Executive Officer or the Chief Financial Officer of the Company, certifying that the conditions set forth in Section 6.02(a) and Section 6.02(b) have been satisfied;

(d) Absence of Burdensome Condition. No Regulatory Clearance, other approval of a Governmental Entity or other Consent, in each case in connection with the Merger, or Order related to any of the foregoing, shall impose or require any undertakings, terms, conditions, liabilities, obligations, commitments or sanctions, or any structural or remedial actions (including a Remedial Action), that constitute a Burdensome Condition;

(e) No MAE. Since the date of this Agreement, there shall not have occurred any Change or Changes that have or would reasonably be expected to have, individually or in the aggregate, a Company Material Adverse Effect;

(f) No Actions Affecting SCPSC Petition. No Governmental Entity of competent jurisdiction shall have enacted any Order and no Change in Law (including no Change to the BLRA or the South Carolina Public Utility Laws) shall have been enacted, in each case which imposes any condition that would reasonably be expected to result in a (i) material change to the proposed terms, conditions, or undertakings set forth in the SCPSC Petition or (ii) a significant change to the economic value of the proposed terms set forth in the SCPSC Petition, in each case as reasonably determined by Parent in good faith;

(g) SCPSC Determination. The SCPSC shall have (i) approved the Merger with no material Changes to the terms of the Merger, (ii) made a finding that the Merger is in the public interest or (iii) made a finding that there is an absence of harm to South Carolina rate payers as a result of the Merger; and

(h) No Change in Law. Since the date of this Agreement, there shall not have occurred any (i) substantive Change in any applicable Law or any Order with respect to the BLRA, as in effect on the date of this Agreement, which has or would reasonably be expected to have an adverse effect on the Company or any of its Subsidiaries or (ii) substantive Change in any applicable Law or any Order with respect to any other South Carolina Public Utility Law, as in effect as of the date of this Agreement, which has or would reasonably be expected to have an adverse effect on the Company or any of its Subsidiaries (such Changes as set forth in (i) and (ii), the "SC Law Changes").

T

Table of Contents

SECTION 6.03. Additional Conditions to Obligation of the Company. The obligation of the Company to effect the Merger is further subject to the satisfaction or (to the extent permitted by Law) waiver on or prior to the Closing of the following conditions:

(a) Representations and Warranties. (i) Each of the representations and warranties of Parent and Merger Sub set forth in Section 3.02 (except for those contained in Section 3.02(c), Section 3.02(d)(i), Section 3.02(f)(i), Section 3.02(k) and Section 3.02(l)) shall be true and correct in all respects (disregarding all qualifications or limitations as to "materiality", "Parent Material Adverse Effect" and words of similar import set forth therein) as of the date of this Agreement and as of the Closing Date as though made on and as of such date (except for any such representation or warranty that is made as of a specified date (including the date of this Agreement), in which case such representation or warranty shall be true and correct only as of such specified date), except where the failure of such representations and warranties to be so true and correct has not had and would not reasonably be expected to have, individually or in the aggregate, a Parent Material Adverse Effect, (ii) each of the representations and warranties of Parent and Merger Sub set forth in Section 3.02(c) shall be true and correct in all respects (except for de minimis inaccuracies) as of the date of this Agreement and as of the Closing Date as though made on and as of such date (except for any such representation or warranty that is made as of a specified date (including the date of this Agreement), in which case such representation or warranty shall be true and correct only as of such specified date), (iii) each of the representations and warranties of Parent and Merger Sub set forth in Section 3.02(d)(i) and Section 3.02(l) shall be true and correct in all material respects (disregarding all qualifications or limitations as to "materiality", "Parent Material Adverse Effect" and words of similar import set forth therein) as of the date of this Agreement and as of the Closing Date as though made on and as of such date (except for any such representation or warranty that is made as of a specified date (including the date of this Agreement), in which case such representation or warranty shall be true and correct only as of such specified date) and (iv) each of the representations and warranties of Parent and Merger Sub set forth in Section 3.02(f)(i) and Section 3.02(k) shall be true and correct in all respects as of the date of this Agreement and as of the Closing Date as though made on and as of such date (except for any such representation or warranty that is made as of a specified date (including the date of this Agreement), in which case such representation or warranty shall be true and correct only as of such specified date);

(b) Performance of Obligations of Parent and Merger Sub. Each of Parent and Merger Sub shall have performed in all material respects all obligations required to be performed by it under this Agreement at or prior to the Closing Date; and

(c) Certificate. The Company shall have received a certificate of the Chief Executive Officer or the Chief Financial Officer of Parent, certifying that the conditions set forth in Section 6.03(a) and Section 6.03(b) have been satisfied.

SECTION 6.04. Frustration of Closing Conditions. None of the Company, Parent or Merger Sub may rely on the failure of any condition set forth in Section 6.01, Section 6.02 or Section 6.03, as the case may be, to be satisfied if such failure was primarily caused by such party's breach of this Agreement.

ARTICLE VII

TERMINATION

SECTION 7.01. Termination. This Agreement may be terminated and the Merger may be abandoned at any time prior to the Effective Time, whether before or after (except as set forth below) the Company Requisite Vote is obtained:

(a) by mutual written consent of Parent and the Company;

T

Table of Contents

(b) by either Parent or the Company:

(i) if the Merger shall not have been consummated on or before January 2, 2019 (the "Termination Date"); provided, however, that if any condition set forth in Section 6.01(b), Section 6.01(c) or Section 6.01(d) shall not have been satisfied at such time, the Termination Date shall automatically be extended to (and shall thereafter be deemed to be), without any action on the part of any party hereto, April 2, 2019; provided, further, that the right to terminate this Agreement pursuant to this Section 7.01(b)(i) shall not be available to any party if such party (or, in the case of Parent, Merger Sub) has breached its obligations under this Agreement in any manner that shall have been the principal cause of or resulted in the failure of a condition to any party's obligation to effect the Merger;

(ii) if at the Shareholders Meeting (or any adjournment or postponement thereof done in accordance with this Agreement), the Company Requisite Vote shall not have been obtained; or

(iii) if any Order permanently restraining, enjoining, preventing or otherwise prohibiting consummation of the Merger shall have become final and non-appealable; provided, however, that a party may not terminate this Agreement pursuant to this Section 7.01(b)(iii) if such party (or, in the case of Parent, Merger Sub) has breached its obligations under this Agreement in a manner that shall have been the principal cause of such Order;

(c) by the Company:

(i) if the Company Board has effected a Company Adverse Recommendation Change with respect to a Superior Proposal in accordance with Section 4.02(f) and shall have approved, and concurrently with the termination hereunder the Company shall have entered into, an Alternative Acquisition Agreement with respect to a Superior Proposal; provided, however, that such termination shall not be effective and the Company shall not enter into an Alternative Acquisition Agreement, unless (A) the Company shall have complied with the provisions of Section 4.02(f) and (B) the Company has paid the Company Termination Fee to Parent; provided, further, that the right to terminate this Agreement under this Section 7.01(c)(i) shall not be available after the Company Requisite Vote shall have been obtained; or

(ii) if Parent or Merger Sub shall have breached any of their respective representations or warranties or failed to perform any of their respective covenants or other agreements contained in this Agreement, where such breach or failure to perform (A) would give rise to the failure of a condition set forth in Section 6.03(a) or Section 6.03(b) and (B) cannot be cured by Parent or Merger Sub by the Termination Date, or if capable of being cured, is not cured prior to the earlier of (1) the thirtieth (30th) day after written notice thereof is given by the Company to Parent and (2) the third (3rd) Business Day immediately preceding the Termination Date; provided, however, that the Company shall not have the right to terminate this Agreement pursuant to this Section 7.01(c)(ii) if the Company is then in material breach of this Agreement;

(d) by Parent:

(i) if the Company Board (or a committee thereof) shall have effected a Company Adverse Recommendation Change; provided, however, that the right to terminate under this Section 7.01(d)(i) shall not be available after the Company Requisite Vote shall have been obtained; or

(ii) if the Company shall have breached any of its representations or warranties or failed to perform any of its covenants or other agreements contained in this Agreement, where such breach or failure to perform (A) would give rise to the failure of a condition set forth in Section 6.02(a) or Section 6.02(b) and (B) cannot be cured by Company by the Termination Date, or if capable of being cured, is not cured prior to the earlier of (1) the thirtieth (30th) day after written notice thereof is given by Parent to the Company and (2) the third (3rd) Business Day immediately preceding the Termination Date; provided, however, that Parent shall not have the right to terminate this Agreement pursuant to this Section 7.01(d)(ii) if either Parent or Merger Sub is then in material breach of this Agreement.

SECTION 7.02. Effect of Termination and Abandonment.

(a) Except as provided in Section 7.02(b), in the event of termination of this Agreement and the abandonment of the Merger pursuant to this Article VII, this Agreement shall forthwith become void and of no effect and there shall be no liability or obligation on the part of any party hereto (or of any of its Representatives or Affiliates), except as provided in the last sentence of Section 5.02(c), Section 5.03(b), Section 5.07, Section 5.09(c), this Section 7.02 and Article VIII, which provisions shall survive such termination; provided, however, that subject to Section 7.02(b), Section 7.02(c), and Section 7.02(d), no such termination shall relieve any party hereto (treating Parent and Merger Sub as one party) of any liability for damages to any other party hereto resulting from any Willful Breach by the party (treating Parent and Merger Sub as one party) committing such Willful Breach prior to such termination, and the aggrieved party will be entitled to all rights and remedies available at law or in equity. The parties hereto acknowledge and agree that nothing in this Section 7.02 shall be deemed to affect their right to specific performance under Section 8.12.

(b) The Company shall pay or cause to be paid to Parent or its designee a non-refundable fee of $240,000,000 (the "Company Termination Fee") if:

(i) this Agreement is terminated by the Company pursuant to Section 7.01(c)(i);

(ii) (A) this Agreement is terminated (1) by Parent or the Company pursuant to Section 7.01(b)(i) or Section 7.01(b)(ii), or (2) by Parent pursuant to Section 7.01(d)(ii), (B) a bona fide Acquisition Proposal shall have been publicly announced or publicly disclosed and not have been withdrawn (1) in the case of a termination pursuant to Section 7.01(b)(i) or Section 7.01(d)(ii), prior to the date of such termination, and (2) in the case of a termination pursuant to Section 7.01(b)(ii), prior to the Shareholders Meeting, and (C) thereafter during the twelve (12) month period immediately following such termination, (1) the Company enters into an Alternative Acquisition Agreement or (2) an Acquisition Proposal is consummated; or

(iii) this Agreement is terminated by Parent pursuant to Section 7.01(d)(i);

If the Company Termination Fee becomes due pursuant to this Section 7.02(b), the Company shall pay Parent or its designee such Company Termination Fee by wire transfer of immediately available funds (x) in the case of a payment required by Section 7.02(b)(i), on the date of termination of this Agreement, (y) in the case of a payment required by Section 7.02(b)(ii), within two (2) Business Days after the earlier of the time when an Acquisition Proposal is consummated or an Alternative Acquisition Agreement is executed and (z) in the case of a payment required by Section 7.02(b)(iii), within two (2) Business Days of the date of termination of this Agreement, it being understood that in no event shall the Company be required to pay the Company Termination Fee on more than one occasion. Parent shall provide to the Company notice designating an account for purposes of payment of the Company Termination Fee within forty-eight (48) hours of a request by the Company to provide such information. For purposes of Section 7.02(b)(ii), the term "Acquisition Proposal" shall have the meaning assigned to such term in Exhibit A, except that all references to 15% therein shall be deemed to be references to 50%.

(c) Parent shall pay or cause to be paid to the Company or its designee a non-refundable fee of $280,000,000 (the "Parent Termination Fee") if:

(i) this Agreement is terminated by Parent or the Company pursuant to Section 7.01(b)(i) and, at the time of any such termination (A) the condition set forth in Section 6.02(d) shall not have been satisfied or waived with respect to one or more Regulatory Conditions and (B) the conditions set forth in Section 6.01(a), Section 6.01(b) – (d) (unless such condition was not satisfied solely due to the proposal of a Burdensome Condition to which Parent has not agreed), Section 6.01(f), Section 6.02(a), Section 6.02(b) and Section 6.02(e) shall have been satisfied or waived (except for any such conditions that have not been satisfied as a result of a breach by Parent or Merger Sub of any of their respective obligations under this Agreement);

(ii) this Agreement is terminated by Parent or the Company pursuant to Section 7.01(b)(iii) and, at the time of any such termination (A) the condition set forth in Section 6.02(d) shall not have been satisfied or

T

Table of Contents

waived with respect to one or more Regulatory Conditions and (B) the conditions set forth in Section 6.01(a), Section 6.01(b) – (d) (unless such condition was not satisfied solely due to the proposal of a Burdensome Condition to which Parent has not agreed), Section 6.01(f), Section 6.02(a), Section 6.02(b) and Section 6.02(e) shall have been satisfied or waived (except for any such conditions that have not been satisfied as a result of a breach by Parent or Merger Sub of any of their respective obligations under this Agreement); or

(iii) this Agreement is terminated by the Company pursuant to Section 7.01(c)(ii) due to a material breach by Parent or Merger Sub of its obligations under Section 5.02 which breach has caused the failure of a condition set forth in Section 6.01(b), Section 6.01(c), Section 6.01(d) , Section 6.02(d), Section 6.02(f), Section 6.02(g) or Section 6.02(h) to be satisfied.

If the Parent Termination Fee becomes due pursuant to this Section 7.02(c), Parent shall pay the Company or its designee the Parent Termination Fee by wire transfer of immediately available funds within two (2) Business Days of the date of termination of this Agreement, it being understood that in no event shall Parent be required to pay the Parent Termination Fee on more than one occasion. The Company shall provide to Parent notice designating an account for purposes of payment of the Parent Termination Fee within forty-eight (48) hours of a request by Parent to provide such information.

(d) Notwithstanding anything to the contrary in this Agreement, if this Agreement is terminated under circumstances in which the Company is required to pay the Company Termination Fee pursuant to Section 7.02(b) and the Company Termination Fee is paid, the payment of the Company Termination Fee shall be Parent's and Merger Sub's sole and exclusive remedy against the Company and its Affiliates, and their respective shareholders and Representatives, relating to or arising out of this Agreement, any agreement entered into in connection herewith or the transactions contemplated by this Agreement or thereby. Notwithstanding anything to the contrary in this Agreement, if this Agreement is terminated under circumstances in which Parent is required to pay the Parent Termination Fee pursuant to Section 7.02(c) and the Parent Termination Fee is paid, the payment of the Parent Termination Fee shall be the Company's sole and exclusive remedy against Parent, Merger Sub and their respective Affiliates, and their respective shareholders and Representatives, relating to or arising out of this Agreement, any agreement entered into in connection herewith or the transactions contemplated by this Agreement or thereby.

(e) Each party acknowledges that the agreements contained in Section 7.02(b) and Section 7.02(c) are an integral part of the transactions contemplated by this Agreement and that, without these agreements, such party would not enter into this Agreement. Accordingly, if the applicable party fails promptly to pay any amount due pursuant to Section 7.02(b) or Section 7.02(c), such party shall also pay any reasonable out-of-pocket costs, fees and expenses incurred by the other party (including reasonable legal fees and expenses) in connection with a Proceeding to enforce this Agreement that results in a final non-appealable Order for such amount against the party failing to promptly pay such amount. Any amount not paid when due pursuant to Section 7.02(b) or Section 7.02(c) shall bear interest from the date such amount is due until the date paid at a rate equal to the prime rate as published in *The Wall Street Journal, Eastern Edition*, in effect on the date of such payment.

ARTICLE VIII

MISCELLANEOUS

SECTION 8.01. Non-Survival. None of the representations, warranties, covenants and agreements in this Agreement or in any instrument delivered pursuant to this Agreement, including any rights arising out of any breach of such representations, warranties, covenants and agreements, shall survive the Effective Time, except for (a) those covenants and agreements contained herein that by their terms apply or are to be performed in whole or in part after the Effective Time and (b) those contained in this Article VIII.

T

Table of Contents

SECTION 8.02. Modification or Amendment. Subject to the requirements of applicable Law, at any time prior to the Effective Time, the parties hereto (in the case of the Company or Merger Sub, by action of their respective boards of directors to the extent required by Law) may modify or amend this Agreement by written agreement, executed and delivered by duly authorized officers of the respective parties. No modification or amendment will be made which, pursuant to applicable Law or the rules of the NYSE, requires further approval by the holders of Company Shares or the holders of the Parent Shares, as applicable, without such further approval being obtained.

SECTION 8.03. Waiver. Subject to the requirements of applicable Law, at any time prior to the Effective Time, any party hereto may (a) extend the time for the performance of any of the obligations or other acts of the other parties, (b) waive any inaccuracies in the representations and warranties of the other parties contained herein or in any document delivered pursuant hereto, or (c) waive compliance by the other parties with any of the agreements or conditions contained herein; provided, however, that neither Parent nor Merger Sub may perform any of the actions set forth in the foregoing clauses (a), (b) or (c) with respect to Merger Sub or Parent, respectively. No extension or waiver will be made which, pursuant to applicable Law or the rules of the NYSE, requires further approval by the holders of Company Shares or the holders of the Parent Shares, as applicable, without such further approval being obtained. Any such extension or waiver shall be valid only if set forth in an instrument in writing signed by the party or parties to be bound thereby and specifically referencing this Agreement. The failure of any party hereto to assert any rights or remedies shall not constitute a waiver of such rights or remedies.

SECTION 8.04. No Other Representations or Warranties.

(a) Except for the representations and warranties set forth in Section 3.01, each of Parent and Merger Sub acknowledges and agrees that (i) none of the Company, its Subsidiaries or any other Person makes any other express or implied representation or warranty in connection with the transactions contemplated by this Agreement, (ii) it has relied solely on the representations and warranties of the Company expressly set forth in Section 3.01 and (iii) it has not been induced to enter into this Agreement by any representation, warranty or statement of or by the Company, any of its Subsidiaries or any other Person.

(b) Except for the representations and warranties set forth in Section 3.02, the Company acknowledges and agrees that (i) none of Parent, Merger Sub, any of Parent's other Subsidiaries or any other Person makes any other express or implied representation or warranty in connection with the transactions contemplated by this Agreement, (ii) it has relied solely on the representations and warranties of Parent and Merger Sub expressly set forth Section 3.02 and (iii) it has not been induced to enter into this Agreement by any representation, warranty or statement of or by Parent, Merger Sub, any of the other Subsidiaries of Parent or any other Person.

SECTION 8.05. Notices. All notices, requests, claims, demands and other communications hereunder shall be in writing and shall be deemed given if delivered personally, faxed (with confirmation), electronically mailed in portable document format (PDF) (with confirmation) or sent by overnight courier (providing proof of delivery) to the parties at the following addresses (or at such other address for a party as shall be specified by like notice):

SECTION 8.06. Definitions. Capitalized terms used in this Agreement have the meanings specified in Exhibit A.

SECTION 8.07. Interpretation.

(a) When a reference is made in this Agreement to an Article, a Section, an Appendix or an Exhibit, such reference shall be to an Article or a Section of, or an Appendix or an Exhibit to, this Agreement unless otherwise indicated. The table of contents and headings contained in this Agreement are for reference purposes only and shall not affect in any way the meaning or interpretation of this Agreement.

(b) Whenever the words "include", "includes" or "including" are used in this Agreement, they shall be deemed to be followed by the words "without limitation". The words "hereof", "herein" and "hereunder" and words of similar import when used in this Agreement shall refer to this Agreement as a whole and not to any particular provision of this Agreement. The word "or" when used in this Agreement is not exclusive.

(c) When a reference is made in this Agreement, the Company Disclosure Letter or the Parent Disclosure Letter to information or documents being "provided", "made available" or "disclosed" by a party hereto to another party or its Affiliates, such information or documents shall include any information or documents (i) included in the SEC Reports of such disclosing party which are publicly available at least twenty-four (24) hours prior to the date of this Agreement, (ii) furnished prior to the execution of this Agreement in the electronic "data room" maintained by such disclosing party and to which access has been granted to the other party and its Representatives at least twenty-four (24) hours prior to the date of this

T

Table of Contents

Agreement, or (iii) otherwise provided in writing (including electronically) to the other party or any of its Affiliates or Representatives at least twenty-four (24) hours prior to the date of this Agreement.

(d) The definitions contained in this Agreement are applicable to the singular as well as the plural forms of such terms and to the masculine as well as to the feminine and neuter genders of such term.

(e) Any agreement, instrument or statute defined or referred to herein means such agreement, instrument or statute as from time to time amended, modified or supplemented, including (in the case of agreements or instruments) by waiver or consent and (in the case of statutes) by succession of comparable successor statutes, and all attachments thereto and instruments incorporated therein.

(f) References to a Person are also to its permitted successors and permitted assigns.

(g) Where this Agreement states that a party "shall", "will" or "must" perform in some manner, it means that the party is legally obligated to do so under this Agreement.

(h) When calculating the period of time before which, within which or following which any act is to be done or step taken pursuant to this Agreement, (i) the date that is the reference date in calculating such period shall be excluded and (ii) if the last day of such period is not a Business Day, the period in question shall end on the next succeeding Business Day.

(i) Unless otherwise specifically indicated, any reference herein to $ means U.S. dollars.

(j) The parties hereto have participated jointly in the negotiation and drafting of this Agreement. If an ambiguity or question of intent or interpretation arises, this Agreement shall be construed as jointly drafted by the parties hereto, and no presumption or burden of proof shall arise favoring or disfavoring any party by virtue of the authorship of any provision of this Agreement.

SECTION 8.08. Counterparts. This Agreement may be executed in one or more counterparts (including by facsimile or by attachment to electronic mail in portable document format (PDF)), and by the different parties hereto in separate counterparts, each of which when executed shall be deemed an original but all of which taken together shall be considered one and the same agreement and shall become effective when one or more counterparts have been signed by each of the parties hereto and delivered to the other parties hereto.

SECTION 8.09. Parties in Interest. This Agreement shall be binding upon and inure solely to the benefit of the parties hereto, and nothing in this Agreement, express or implied, is intended to or shall confer upon any other Person any rights, benefits or remedies of any nature whatsoever under or by reason of this Agreement, other than (a) after the Effective Time, with respect to the provisions of Section 5.08 which shall inure to the benefit of the Indemnified Parties who are intended to be third-party beneficiaries thereof, (b) after the Effective Time, the rights of the holders of Company Shares to receive the Merger Consideration in accordance with the terms and conditions of this Agreement, and (c) after the Effective Time, the rights of the holders of Company Performance Share Awards, Company RSUs and Company Deferred Units to receive the payments contemplated by the applicable provisions of Section 2.02, in each case, in accordance with the terms and conditions of this Agreement. The representations and warranties in this Agreement are the product of negotiations among the parties hereto and are for the sole benefit of such parties. Any inaccuracies in such representations and warranties are subject to waiver by the parties hereto in accordance with Section 8.03 without notice or liability to any other Person. In some instances, the representations and warranties in this Agreement may represent an allocation among the parties hereto of risks associated with particular matters regardless of the knowledge of any of the parties hereto. Consequently, Persons other than the parties hereto may not rely upon the representations and warranties in this Agreement as characterizations of actual facts or circumstances as of the date of this Agreement or as of any other date.

SECTION 8.10. Governing Law. This Agreement shall be governed by, and construed in accordance with, the internal Laws and judicial decisions of the State of Delaware applicable to agreements executed and performed entirely within such State, regardless of the Law that might otherwise govern under applicable

T

Table of Contents

principles of conflicts of law thereof, except that matters related to the obligations of the Company Board under the SCBCA and matters that are specifically required by the SCBCA in connection with the transactions contemplated by this Agreement shall be governed by the laws of the State of South Carolina.

SECTION 8.11. Entire Agreement; Assignment. This Agreement (including the Appendices and Exhibits hereto, the Company Disclosure Letter and the Parent Disclosure Letter) and the Confidentiality Agreement constitute the entire agreement among the parties hereto with respect to the subject matter hereof and supersede all prior and contemporaneous agreements and undertakings, both written and oral, among the parties, or any of them, with respect to the subject matter hereof. Neither this Agreement nor any of the rights, interests or obligations hereunder may be assigned, in whole or in part, by operation of law or otherwise by any of the parties hereto without the prior written consent of the other parties hereto. Any purported assignment in contravention of this Agreement is and shall be null and void. Subject to the immediately preceding two sentences, this Agreement will be binding upon, inure to the benefit of and be enforceable by the parties hereto and their respective successors and permitted assigns.

SECTION 8.12. Specific Enforcement; Consent to Jurisdiction.

(a) The parties hereto agree that irreparable damage for which monetary damages, even if available, would not be an adequate remedy, would occur in the event that any of the parties hereto do not perform the provisions of this Agreement (including failing to take such actions as are required of it hereunder in order to consummate the transactions contemplated by this Agreement) in accordance with its specified terms or otherwise breach such provisions. The parties hereto acknowledge and agree that each party hereto shall be entitled to seek an injunction, specific performance and other equitable relief to prevent breaches of this Agreement and to seek to enforce specifically the terms and provisions hereof, this being in addition to any other remedy to which it is entitled at law or in equity. Each of the parties hereto further agrees that it will not oppose the granting of an injunction, specific performance and other equitable relief as provided herein on the basis that (A) the other party has an adequate remedy at law or (B) an award of specific performance is not an appropriate remedy for any reason at law or equity. Any party hereto seeking an Order to prevent breaches of this Agreement and to enforce specifically the terms and provisions of this Agreement shall not be required to provide any bond or other security in connection with any such Order.

(b) Each of the parties hereto irrevocably (i) submits itself to the personal jurisdiction of the federal courts located in the State of Delaware and any appellate court therefrom, in connection with any claim or matter directly or indirectly based upon, arising out of or relating to this Agreement or any of the transactions contemplated by this Agreement or the actions of Parent, Merger Sub or the Company in the negotiation, administration, performance and enforcement of this Agreement, (ii) agrees that it will not attempt to deny or defeat such personal jurisdiction by motion or other request for leave from any such court, (iii) agrees that it will not bring any action relating to this Agreement or any of the transactions contemplated by this Agreement in any court other than the federal courts located in the State of Delaware and (iv) agrees that the service of any process, summons, notice or document through the notice procedures set forth in Section 8.05 or by U.S. registered mail to the respective addresses set forth in Section 8.05 shall be effective service of process for any Proceeding in connection with this Agreement or the transactions contemplated by this Agreement. Each party hereto hereby irrevocably waives, and agrees not to assert, by way of motion, as a defense, counterclaim or otherwise, in any Proceeding with respect to this Agreement, any claim that (A) it is not personally subject to the jurisdiction of the above-named courts for any reason other than the failure to serve process in accordance with this Section 8.12(b), (B) it or its property is exempt or immune from jurisdiction of any such court or from any legal process commenced in such courts (whether through service of notice, attachment prior to judgment, attachment in aid of execution of judgment, execution of judgment or otherwise), (C) the Proceeding in any such court is brought in an inconvenient forum, (D) the venue of such Proceeding is improper, or (E) this Agreement, or the subject matter hereof, may not be enforced in or by such courts. Furthermore, each of the Company, Parent and Merger Sub irrevocably waives, to the fullest extent permitted by applicable Law, the benefit of any defense that would hinder, fetter or delay the levy, execution or collection of any amount to which any party is

T

Table of Contents

entitled pursuant to the final judgment of any court having jurisdiction. Each party hereto expressly acknowledges that the foregoing waiver is intended to be irrevocable under the Law of the State of Delaware and of the United States of America; provided, however, that each such party's consent to jurisdiction and service contained in this Section 8.12 is solely for the purpose referred to in this Section 8.12 and shall not be deemed to be a general submission to said courts or to courts in the State of Delaware other than for such purpose.

SECTION 8.13. WAIVER OF JURY TRIAL. EACH PARTY HERETO ACKNOWLEDGES AND AGREES THAT ANY CONTROVERSY WHICH MAY ARISE UNDER THIS AGREEMENT IS LIKELY TO INVOLVE COMPLICATED AND DIFFICULT ISSUES, AND THEREFORE IT HEREBY IRREVOCABLY AND UNCONDITIONALLY WAIVES TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW ANY AND ALL RIGHT IT MAY HAVE TO A TRIAL BY JURY IN RESPECT OF ANY PROCEEDING (WHETHER BASED ON CONTRACT, TORT OR OTHERWISE) DIRECTLY OR INDIRECTLY BASED UPON, ARISING OUT OF OR RELATING TO THIS AGREEMENT OR ANY OF THE TRANSACTIONS CONTEMPLATED BY THIS AGREEMENT OR THE ACTIONS OF PARENT, MERGER SUB OR THE COMPANY IN THE NEGOTIATION, ADMINISTRATION, PERFORMANCE AND ENFORCEMENT OF THIS AGREEMENT. EACH PARTY CERTIFIES AND ACKNOWLEDGES THAT (A) NO REPRESENTATIVE, AGENT OR ATTORNEY OF ANY OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF LITIGATION, SEEK TO ENFORCE THE FOREGOING WAIVER, (B) IT UNDERSTANDS AND HAS CONSIDERED THE IMPLICATIONS OF SUCH WAIVER, (C) IT MAKES SUCH WAIVER VOLUNTARILY AND (D) IT HAS BEEN INDUCED TO ENTER INTO THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVER AND CERTIFICATIONS IN THIS SECTION 8.13.

SECTION 8.14. Severability. If any term or other provision of this Agreement is found by a court of competent jurisdiction to be invalid, illegal or incapable of being enforced by any rule of Law or public policy, all other terms and provisions of this Agreement shall nevertheless remain in full force and effect. Upon such determination that any term or other provision is invalid, illegal or incapable of being enforced, the parties hereto shall negotiate in good faith to modify this Agreement so as to effect the original intent of the parties hereto as closely as possible in an acceptable manner to the end that the transactions contemplated by this Agreement are fulfilled to the fullest extent possible.

SECTION 8.15. Transfer Taxes. All transfer, documentary, sales, use, stamp, registration and other Taxes and fees (including penalties and interest) incurred in connection with the Merger shall be paid by Parent and Merger Sub when due.

SECTION 8.16. Disclosure Letters. Certain items and matters are listed in the Company Disclosure Letter and the Parent Disclosure Letter for informational purposes only and may not be required to be listed therein by the terms of this Agreement. In no event shall the listing of items or matters in the Company Disclosure Letter or the Parent Disclosure Letter be deemed or interpreted to broaden, or otherwise expand the scope of, the representations and warranties or covenants and agreements contained in this Agreement. No reference to, or disclosure of, any item or matter in any Section of this Agreement or any section or subsection of the Company Disclosure Letter or the Parent Disclosure Letter shall be construed as an admission or indication that such item or matter is material or that such item or matter is required to be referred to or disclosed in this Agreement or in the Company Disclosure Letter or the Parent Disclosure Letter, as applicable. Without limiting the foregoing, no reference to, or disclosure of, a possible breach or violation of any Contract or Law in the Company Disclosure Letter or the Parent Disclosure Letter shall be construed as an admission or indication that a breach or violation exists or has actually occurred. Each section or subsection of the Company Disclosure Letter and the Parent Disclosure Letter, as the case may be, shall be deemed to qualify the corresponding section or subsection of this Agreement, irrespective of whether or not any particular section or subsection of this Agreement specifically refers to the Company Disclosure Letter or the Parent Disclosure Letter, as the case may be.

APPENDIX A

SCPSC PETITION

1. To meet commitments made by South Carolina Electric & Gas Company to the SCPSC, South Carolina Electric & Gas Company and Parent will jointly file the Petition on or before January 12, 2018.

2. The Petition will seek a ruling from the SCPSC (i) approving the Merger with no material changes to the terms of the Merger; (ii) making a finding that the Merger is in the public interest; or (iii) making a finding that there is an absence of harm to South Carolina rate payers as a result of the Merger.

3. The Petition will acknowledge that the Merger can only close if the SCPSC approves the jointly proposed NND Project cost recovery plan, with (x) no material change to the terms, conditions or undertakings set forth in the plan and (y) no significant change to the economic value of the plan, in each case as reasonably determined by Parent in good faith (except in each case unless otherwise consented to by Parent in its sole discretion), which shall include the following terms:

   a. There will be an aggregate up-front, one-time rate credit totaling $1.3 billion[1] to all current South Carolina Electric & Gas Company electric customers as of the date of Merger close. The rate credit will be apportioned to all retail electric customer classes based on their 2016 contribution to summer adjusted peak demand as prepared by South Carolina Electric & Gas Company. After the dollar apportionment per customer class and rate schedule is determined on this basis, a rate per kilowatt hour ($/kWh) will be derived by customer class and rate schedule by dividing the total kWh sales of electricity by customer class and rate schedule over a preceding 12-month period (the "Base Period") into the apportioned funding amount. The $/kWh rate will then be applied to each customer's kWh usage over the Base Period to determine the customer's up-front rate credit amount. The rate credit will be issued to eligible customers in the form of a check issued within 90 days of Merger close. Eligible customers shall be South Carolina Electric & Gas Company retail electric customers as of record on the date of the close of the Merger.

   b. South Carolina Electric & Gas Company will immediately upon Merger closing write down its investment in construction work in progress associated with the new nuclear development project by approximately $1.4 billion, which amount includes approximately $1.2 billion in assets that have not previously been subject to consideration in setting revised rates and approximately $200 million that have been so considered. The amounts written down would be permanently excluded from consideration in establishing retail electric rates going forward.

   c. South Carolina Electric & Gas Company will not seek recovery of the approximately $320 million in regulatory assets associated with the following items:

      i. The approximately $173 million regulatory asset associated with interest rate swap losses related to the debt that was not issued for the NND Project;

      ii. The approximately $66 million regulatory asset associated with the NND Project Equity AFUDC;

      iii. The approximately $52 million regulatory asset associated with the carrying costs on deferred tax assets related to nuclear construction; and

      iv. The regulatory asset associated with foregone domestic production activities deductions will be written off and not be recovered from customers. The net regulatory asset associated with research and experimentation credit claims, interest, and legal costs expected to be incurred in defending these claims, will be borne by the shareholders and not returned to or collected from customers.

---

1 The net proceeds of the Toshiba settlement were utilized by South Carolina Gas & Electric Company to repay indebtedness in 2017, and therefore those funds are unavailable for refund. A portion of the one time rate credit will be funded through issuance of debt and defeasement of the regulatory liability associated with the Toshiba settlement.

Table of Contents

d. Parent will underwrite an approximately $575 million refund for amounts previously collected under the NND Project (regulatory liability) which is estimated to provide the 3.5% retail electric rate decrease from the 2017 rate level until accumulated amortization of the cost of abandoned plant lowers South Carolina Electric & Gas Company's revenue requirements. The refund amount is calculated to be sufficient to support the 3.5% retail electric rate reduction for approximately eight (8) years following the closing of the Merger. This amount of time is estimated to be sufficient to avoid a future retail electric rate increase resulting from new nuclear project costs when the refund amount is exhausted.

e. Parent will reduce retail electric rates further to reflect the impact of federal tax reform passed in December of 2017 which is estimated to lower rates an additional amount resulting in a total estimated rate reduction of approximately 5%.

f. An SCPSC finding, as necessary, that South Carolina Electric & Gas Company's investment in construction work in progress for new nuclear project in the amount of approximately $3.3 billion, which reflects the amount of that investment net of write-downs and offsets, was prudent; and that the capital costs and amortization of that $3.3 billion may be recovered through retail electric rates.

g. An SCPSC order directing that:

   i. The approximately $3.3 billion of invested capital for the new nuclear development project shall be included in a regulatory asset and recovered through rates over a 20-year amortization and recovery period that is reflected in retail electric revenue requirements without offset or disallowance until the regulatory asset is fully recovered; and

   ii. Until the balance in the regulatory asset is fully recovered, the capital costs associated with the unrecovered balance in that account shall be reflected in South Carolina Electric & Gas Company's cost of capital devoted to retail electric operations at a rate that reflects a return on common equity of 10.25%,[2] a weighted average cost of debt of 5.85%, and a capital structure consisting of 52.81% equity and 47.19% debt, with these percentages fixed over the 20-year amortization period.

h. The deferred tax liability associated with the tax abandonment of the NND Project shall reduce the NND Project cost to be recovered from South Carolina Electric & Gas Company customers. The deferred tax asset for the net operating loss carryforward resulting from the tax abandonment of the NND Project shall be reflected as a rate base offset, dollar for dollar, to the deferred tax liability. Reductions in the deferred tax asset shall be subject to Parent's ability to use the net operating loss in filing its consolidated income tax returns and shall not be computed on a separate company basis.

i. Adjustments to the deferred tax liability and the deferred tax asset described in item (h) of this subsection resulting from a change in tax laws or tax treatment of the abandonment and/or Parent's ability to use the net operating loss will be returned to or recovered from South Carolina Electric & Gas Company customers in the following manner:

   i. The regulatory liability resulting from excess deferred tax liabilities on the tax abandonment will be returned to customers over the book recovery period of the property (*i.e*., 20 years);

   ii. The regulatory asset resulting from excess deferred tax assets on the net operating loss will be recovered from customers in a manner that coincides with Parent's ability to use the net operating loss in filing its consolidated income tax returns and not on a separate company basis; and

   iii. As adjusted for any impacts related to the tax treatment of the abandonment loss

j. The approximately $180 million initial capital investment in the Columbia Energy Center, a 540-megawatt combined-cycle, natural gas-fired power plant located in Gaston, S.C., will be excluded

---

2 The current allowed blended ROE for NND is approximately 10.9% but the proposal is to adjust the rate down to South Carolina Gas & Electric Company's base ROE of 10.25%.

Table of Contents

from rate base and rate recovery, with only the ongoing costs such as fuel costs, operations and maintenance expense, and maintenance or improvement capital investments associated with the plant to be recovered in future base and fuel rates.

k. Transmission projects associated with the new nuclear project will be closed to rate base and removed from BLRA project costs. The revenue of approximately $32 million per year currently being recovered in base rates will continue to be recovered through base rates notwithstanding the Merger. The associated depreciation and operating and maintenance costs will be captured in a regulatory asset for future rate recovery.

l. Except for rate adjustments for fuel and environmental costs, demand side management costs and other rates routinely adjusted on an annual or biannual basis, retail electric base rates will remain frozen at current levels until January 1, 2021.

4. The parties shall request approval of the SCPSC Petition, including the NND Project cost recovery plan, within 6 months from the date of filing.

5. South Carolina Electric & Gas Company and Parent commit to support and advocate for SCPSC approval or adoption of the terms, both individually and collectively, and without modification, identified and described in Paragraphs (2) and (3) above (the “Merger Terms”) and will take no action inconsistent with this commitment. In the Petition to be jointly filed on January 12, 2018, South Carolina Electric & Gas Company may also present alternative terms for NND Project cost recovery, consistent with and based on the terms publically disclosed by Mr. Kissam on November 16, 2017 and previously provided to Parent in a more comprehensive form in a proposed draft of the Petition (the “Alternative Terms”). South Carolina Electric & Gas Company may provide any necessary testimony, exhibits or supporting materials in order to meet prior commitments to the SCPSC concerning the substance of South Carolina Electric & Gas Company’s January 12, 2018 filing or to show that the Alternative Terms, as a disfavored alternative to the Merger Terms, are nonetheless just, reasonable, lawful, fair and non-confiscatory and should be adopted by the SCPSC if the Merger is not approved. However, South Carolina Electric & Gas Company will not support or advocate for the Alternative Terms except as an expressly disfavored alternative to the Merger Terms and in each case where it discusses the Alternative Terms in testimony, exhibits or otherwise, will expressly state South Carolina Electric & Gas Company’s overriding commitment to the Merger Terms as being in the best interest of customers and the State of South Carolina, and that the Alternative Terms are a disfavored alternative to be considered only if the Merger is disapproved. South Carolina Electric & Gas Company will not otherwise advocate for any other terms for NND cost recovery differing from those identified in Paragraphs (2) and (3) above (without prior consent of Parent), unless and until the Merger Agreement is terminated.

Table of Contents

EXHIBIT A

DEFINITIONS

(a) The following terms have the following meanings:

"Acceptable Confidentiality Agreement" means a confidentiality agreement having provisions as to confidential treatment of the Company's information that are not materially less favorable to those contained in the Confidentiality Agreement.

"Acquisition Proposal" means any bona fide proposal or offer from any Person or group of Persons (other than Parent, Merger Sub or their respective Affiliates) relating to (i) any acquisition or purchase directly or indirectly, in a single transaction or series of transactions, of a business that constitutes more than 15% of the net revenues, net income or consolidated assets of the Company and its Subsidiaries, taken as a whole, or more than 15% of the total voting power of the equity securities of the Company, (ii) any tender offer or exchange offer that if consummated would result in any Person beneficially owning more than 15% of the total voting power of the equity securities of the Company or (iii) any merger, reorganization, consolidation, share exchange, business combination, recapitalization, liquidation, joint venture, partnership, dissolution or similar transaction involving directly or indirectly, in a single transaction or series of transactions, the Company (or any Subsidiary or Subsidiaries of the Company whose business constitutes more than 15% of the net revenues, net income or consolidated assets of the Company and its Subsidiaries, taken as a whole).

"Affiliate" means, with respect to any Person, any other Person that directly or indirectly, through one or more intermediaries, controls, is controlled by, or is under common control with, such first Person.

"Atomic Energy Act" means the Atomic Energy Act of 1954, as amended.

"Average Price" means the volume-weighted average price, rounded to four decimal places, of Parent Shares for the ten (10) consecutive trading days ending on and including the second (2^{nd}) trading day prior to the Effective Time.

"BLRA" means the South Carolina Base Load Review Act of 2007 as amended, S.C. Code Ann. § 58-33-210 *et seq*.

"Burdensome Condition" shall mean any undertakings, terms, conditions, liabilities, obligations, commitments or sanctions (including any Remedial Action) that, in the aggregate, would have or would reasonably be expected to have, a material adverse effect on the business, financial condition, assets, liabilities or results of operations of the Company and its Subsidiaries, taken as a whole, or of Parent and its Subsidiaries, taken as a whole; provided, however, that, for this purpose, Parent and its Subsidiaries, and after giving effect to the Merger, Parent and its Subsidiaries, shall be deemed to be a consolidated group of entities of the size and scale of a hypothetical company that is 100% of the size and scale of the Company and its Subsidiaries, taken as a whole as of immediately prior to the Effective Time; and provided, further, that any undertakings, terms, conditions, liabilities, obligations, commitments or sanctions relating to implementing, or otherwise arising or resulting from or imposed by, the Social Commitments, or any relief or other matters contemplated by the SCPSC Petition or the SCPSC Petition Approval, shall not constitute or be taken into account in determining whether there has been or is such a material adverse effect.

"Business Day" means any day other than a Saturday or Sunday or a day on which banks in the City of New York are required or authorized to be closed.

"Byproduct Material" means any radioactive material (except Special Nuclear Material) yielded in, or made radioactive by, exposure to radiation in the process of producing or utilizing Special Nuclear Material.
T

Table of Contents

“Code” means the Internal Revenue Code of 1986, as amended.

“Commonly Controlled Entity” means, with respect to the Company, any other Person that, together with the Company, is treated as a single employer under Section 414 of the Code.

“Company Benefit Plan” means any (i) “employee benefit plan” (within the meaning of Section 3(3) of ERISA), (ii) bonus, incentive or deferred compensation or equity or equity-based compensation plan, program, policy or arrangement (including the Company Equity Award Plans), (iii) severance, change in control, employment, consulting, retirement, retention or termination plan, program, agreement, policy or arrangement or (iv) other compensation or benefit plan, program, agreement, policy, practice, Contract, arrangement or other obligation, whether or not in writing and whether or not subject to ERISA, in each case, sponsored, maintained, contributed to or required to be maintained or contributed to by the Company or any Commonly Controlled Entity or with respect to which the Company or any Commonly Controlled Entity had or has any present or future liability, in any case other than any (A) “multiemployer plan” (within the meaning of Section 3(37) of ERISA) or (B) plan, program, policy or arrangement mandated by applicable Law.

“Company Disclosure Letter” means the confidential disclosure letter dated as of the date of this Agreement delivered by the Company to Parent and Merger Sub.

“Company Equity Award Plans” means the 2015 Long-Term Equity Compensation Plan, the 2000 Long-Term Equity Compensation Plan, and the Director Compensation and Deferral Plan, each as amended and restated from time to time.

“Company Material Adverse Effect” means any Change that has a material adverse effect on the business, financial condition, assets, liabilities or results of operations of the Company and its Subsidiaries, taken as a whole; provided, however, that none of the following shall, either alone or in combination, constitute or contribute to a Company Material Adverse Effect: (i) Changes in the economy in the United States or elsewhere in the world, including as a result of changes in geopolitical conditions, (ii) Changes that affect any of the industries in which the Company or any of its Subsidiaries operate, (iii) Changes in the financial, debt, capital, credit or securities markets generally in the United States or elsewhere in the world, including changes in interest rates, (iv) any Change in the stock price, trading volume or credit rating of the Company or any of its Subsidiaries or any failure by the Company to meet published analyst estimates or expectations of its revenue, earnings or other financial performance or results of operations for any period, or any failure by the Company to meet its internal or published projections, budgets, plans or forecasts of its revenues, earnings or other financial performance or results of operations for any period (it being understood that the Changes underlying any such Change or failure described in this clause (iv) to the extent not otherwise excluded from the definition of a “Company Material Adverse Effect” may be considered in determining whether there has been a Company Material Adverse Effect), (v) Changes in Law, legislative or political conditions or policy or practices of any Governmental Entity (other than SC Law Changes), (vi) Changes in applicable accounting regulations or principles or interpretations thereof, (vii) an act of terrorism or an outbreak or escalation of hostilities or war (whether declared or not declared) or earthquakes, any weather-related or other force majeure events or other natural disasters or any national or international calamity or crisis, (viii) the announcement, execution or delivery of this Agreement or the public announcement or pendency of the Merger or the other transactions contemplated by this Agreement, in each case, including any impact thereof on relationships, contractual or otherwise, with Governmental Entities or customers, suppliers, distributors, lenders, partners or employees of the Company and its Subsidiaries, (ix) actions taken or requirements imposed by any Governmental Entities, in connection with obtaining the Regulatory Clearances or the SCPSC Petition Approval, (x) any Shareholder Litigation or Changes with respect thereto and (xi) any Proceedings, claims, investigations or inquiries set forth in Section 3.01(g) of the Company Disclosure Letter (other than with respect to SC Law Changes) or any Changes with respect thereto, provided, further, that any Change set forth in the foregoing clauses (i), (ii), (iii), (v) or (vi), to the extent not otherwise excluded hereunder, may be taken into account in determining whether a Company Material Adverse Effect has occurred solely to the extent that such Change has a materially disproportionate adverse

T

Table of Contents

effect on the Company and its Subsidiaries, taken as a whole, as compared to other Persons engaged in the relevant business affected by such Change.

"Company Material Contract" means any Contract (i) required to be filed by the Company as a "material contract" pursuant to Item 601(b)(10) of Regulation S-K under the Securities Act, (ii) that provides for Indebtedness of the Company or any of its Subsidiaries of more than $50,000,000, (iii) that resulted in expenditures, receipts, liabilities, or payments by the Company or any of its Subsidiaries of more than $80,000,000 in the 2016 fiscal year or 2017 fiscal year or (iv) that requires the Company or any of its Subsidiaries to incur Indebtedness or liabilities, or to make payments or expenditures, of more than $80,000,000 in any one future fiscal year, in the case of the foregoing clauses (ii) and (iii), excluding (A) any Contracts that can be terminated for convenience on less than ninety (90) days' notice without material payment or penalty and (B) any Contracts for the supply of natural gas capacity or commodity.

"Company Share" means a share of common stock, without par value, of the Company.

"Consent" means any consent, clearance, approval, Order, authorization, waiver, license, notice filing, action or non-action.

"Contract" means a contract, purchase order, license, sublicense, lease, sublease, option, warrant, guaranty, indenture, note, bond, mortgage or other legally binding agreement or instrument, whether written or unwritten.

"control" (including in the terms "controlling", "controlled", "controlled by" and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management policies of a Person, whether through the ownership of voting securities, by Contract or otherwise.

"Data Privacy Legal Requirements" mean (i) all applicable requirements imposed by applicable Laws relating to (A) the security or privacy of information systems, networks, or data; (B) the use, collection, recording, storing, altering, retrieving, transferring, disclosing (whether authorized or unauthorized) or otherwise processing of data owned or used by the Company or its Subsidiaries; (C) the unauthorized access, acquisition, use, modification, disclosure or misuse of data; (D) the notification to affected parties, regulators, or credit reporting agencies as a result of any breach of systems, networks or data; or (E) any other cybersecurity or data privacy incident requiring reporting outside of the Company; (ii) all contractual standards, rules and requirements that the Company or any of its Subsidiaries is or has been contractually obligated to comply with; and (iii) each published external or internal, past or present Company privacy policy or security policy applicable to any information systems, networks, or data, including personal data and any published policy of the Company or its Subsidiaries relating to: (A) the privacy of any Person, (B) financial records or information pertaining to any Person, (C) the collection, storage, disclosure, transfer, disposal, other processing or security of any personal data, or (D) personally identifying information, sensitive customer information, financial records, security records and associated information, about Persons.

"Director Compensation and Deferral Plan" means the Company Director Compensation and Deferral Plan.

"Environmental Law" means any Law relating to pollution or protection of the environment or natural resources, including ambient air, soil, surface water or groundwater, sediment, flora and fauna, or, as it relates to the exposure to hazardous, deleterious or toxic materials, human health or safety.

"Equity Award Consideration" means an amount in cash, without interest, equal to the product of (i) the Merger Consideration multiplied by (ii) the Average Price.

"ERISA" means the Employee Retirement Income Security Act of 1974, as amended.

"Exchange Act" means the Securities Exchange Act of 1934, as amended.

T

Table of Contents

"Executive Deferred Compensation Plan" means the Company Executive Deferred Compensation Plan.

"Governmental Entity" means any federal, state, local, or non-United States government, any court or tribunal of competent jurisdiction, any administrative, regulatory (including any stock exchange) or other governmental or quasi-governmental agency, commission, branch or authority or other governmental entity or body (it being understood and agreed that no reference to "Governmental Entity" in this Agreement shall be deemed to include Santee Cooper in its capacity as a commercial counterparty of the Company in connection with the NND Project or otherwise).

"Hazardous Materials" means any substance, waste or material defined or regulated as hazardous, acutely hazardous or toxic or that could reasonably be expected to result in liability under any applicable Environmental Law currently in effect, including petroleum, petroleum products, High-Level Waste, Spent Nuclear Fuel, by-products and distillates, pesticides, dioxin, polychlorinated biphenyls, mold, biological hazards, asbestos and asbestos-containing materials.

"High-Level Waste" means (i) irradiated nuclear reactor fuel, (ii) liquid wastes resulting from the operation of the first cycle solvent extraction system, or its equivalent, and the concentrated wastes from subsequent extraction cycles, or their equivalent, in a facility for reprocessing irradiated reactor fuel and (iii) solids into which such liquid wastes have been converted.

"HSR Act" means the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended.

"Intellectual Property" means all intellectual property and proprietary rights, and applications with respect thereto, including (i) patents and patent applications, (ii) trademarks, service marks, trade dress, logos, Internet domain names, trade names and corporate names, whether registered or unregistered, and the goodwill associated therewith, together with any registrations and applications for registration thereof, (iii) copyrights and rights under copyrights, whether registered or unregistered, and any registrations and applications for registration thereof, (iv) trade secrets and other rights in know-how and confidential or proprietary information, including any technical data, specifications, techniques, inventions and discoveries, in each case, to the extent that it qualifies as a trade secret under applicable Law and (v) all other intellectual property rights recognized by applicable Law.

"Intervening Event" means any material event, development or change in circumstances that materially affects the business, assets or operations of the Company and its Subsidiaries, taken as a whole, that first becomes known to the Company Board or any of the Persons set forth in Section 8.06 of the Company Disclosure Letter or their successors after the date of this Agreement but before the Company Requisite Vote is obtained, to the extent that such event, development or change in circumstances was not reasonably foreseeable as of or prior to the date of this Agreement or which would not reasonably be expected to have become known after reasonable investigation or inquiry as of or prior to the date of this Agreement; provided, however, that in no event will (i) the receipt, existence or terms of an Acquisition Proposal or any matter relating thereto or consequence thereof, (ii) any action taken by the parties pursuant to or in compliance with this Agreement, including any action taken in connection with seeking any Regulatory Clearances, (iii) any changes in Law or the settlement of any lawsuits, investigations, inquiries or Proceedings, (iv) changes in the market price or trading volume of the Company Shares or Parent Shares, or the Company or Parent or any their respective Subsidiaries meeting or exceeding internal or published projections, forecasts or revenue or earnings predictions for any period, (v) changes in the energy markets or industry or to rates, or (vi) any event, development or change relating solely to Parent or its Affiliates, in each case, constitute an "Intervening Event" or be taken into account in determining whether an Intervening Event has occurred or would reasonably be expected to result.

"IT Systems" means all computer systems, computer programs, networks, hardware, software, software engines, electronic databases and websites used to process, store, maintain and operate data, information and control systems owned, used or provided by the Company.
T

Table of Contents

"Knowledge" means (i) with respect to the Company, the actual knowledge, after reasonable inquiry, of any of the Persons set forth in Section 8.06 of the Company Disclosure Letter and their successors and (ii) with respect to Parent or Merger Sub, the actual knowledge, after reasonable inquiry, of any of the Persons set forth in Section 8.06 of the Parent Disclosure Letter and their successors.

"Law" means any federal, state, local or non-United States law, statute, regulation, rule, ordinance, Order or decree of any Governmental Entity.

"Low-Level Waste" means radioactive material that (i) is not High-Level Waste, Mixed Waste, Spent Nuclear Fuel or Byproduct Material as defined in section 11e.(2) of the Atomic Energy Act, and (ii) the NRC classifies as low-level radioactive waste.

"Mixed Waste" means waste that (i) contains both a hazardous waste component regulated under the Resource Conservation and Recovery Act (42 U.S.C. § 6901 *et seq*.) and a radioactive component of Source Material, Byproduct Material or Special Nuclear Material and (ii) the NRC classifies as mixed waste or that constitutes "mixed waste" as defined in 42 U.S.C. § 6903(41).

"NND Project" means the New Nuclear Development Project under which the Company and Santee Cooper undertook to construct two Westinghouse AP1000 Advanced Passive Safety nuclear units in Jenkinsville, South Carolina.

"Nuclear Material" means Source Material, Special Nuclear Material, Low-Level Waste, High-Level Waste, the radioactive component of Mixed Waste, Byproduct Material and Spent Nuclear Fuel.

"NYSE" means the New York Stock Exchange.

"Parent Disclosure Letter" means the confidential disclosure letter dated as of the date of this Agreement delivered by Parent to the Company.

"Parent Material Adverse Effect" means any Change that has a material adverse effect on the business, financial condition, assets, liabilities or results of operations of Parent and its Subsidiaries, taken as a whole; provided, however, that none of the following shall, either alone or in combination, constitute or contribute to a Parent Material Adverse Effect: (i) Changes in the economy in the United States or elsewhere in the world, including as a result of changes in geopolitical conditions, (ii) Changes that affect any of the industries in which Parent or any of its Subsidiaries operate, (iii) Changes in the financial, debt, capital, credit or securities markets generally in the United States or elsewhere in the world, including changes in interest rates, (iv) any Change in the stock price, trading volume or credit rating of Parent or any of its Subsidiaries or any failure by Parent to meet published analyst estimates or expectations of its revenue, earnings or other financial performance or results of operations for any period, or any failure by Parent to meet its internal or published projections, budgets, plans or forecasts of its revenues, earnings or other financial performance or results of operations for any period (it being understood that the Changes underlying any such Change or failure described in this clause (iv) to the extent not otherwise excluded from the definition of a "Parent Material Adverse Effect" may be considered in determining whether there has been a Parent Material Adverse Effect), (v) Changes in Law, legislative or political conditions or policy or practices of any Governmental Entity (other than SC Law Changes), (vi) Changes in applicable accounting regulations or principles or interpretations thereof, (vii) an act of terrorism or an outbreak or escalation of hostilities or war (whether declared or not declared) or earthquakes, any weather-related or other force majeure events or other natural disasters or any national or international calamity or crisis, (viii) the announcement, execution or delivery of this Agreement or the public announcement or pendency of the Merger or the other transactions contemplated by this Agreement, in each case, including any impact thereof on relationships, contractual or otherwise, with Governmental Entities or customers, suppliers, distributors, lenders, partners or employees of Parent and its Subsidiaries, (ix) actions taken or requirements imposed by any Governmental Entities, in connection with obtaining the Regulatory Clearances or the SCPSC Petition Approval,
T

Table of Contents

(x) any Shareholder Litigation or any Changes with respect thereto, and (xi) any Proceedings, claims, investigations or inquiries set forth in Section 3.02(g) of the Parent Disclosure Letter or any Changes with respect thereto, provided, further, that any Change set forth in the foregoing clauses (i), (ii), (iii), (v) or (vi), to the extent not otherwise excluded hereunder, may be taken into account in determining whether a Parent Material Adverse Effect has occurred solely to the extent that such Change has a materially disproportionate adverse effect on the Parent and its Subsidiaries, taken as a whole, as compared to other Persons engaged in the relevant business affected by such Change.

"Parent Severance Program" means the severance program sponsored by Parent and described in the summary plan description attached as Section 5.06 of the Parent Disclosure Letter.

"Parent Share" means a share of common stock, without par value, of Parent.

"Parent Significant Subsidiaries" means the significant subsidiaries (as defined in Rule 1-02(w) of Regulation S-X) of Parent, excluding, if otherwise included, Dominion Energy Midstream Partners LP.

"Permitted Liens" means, with respect to any Person, (i) mechanics', materialmen's, carriers', workmen's, repairmen's, vendors', operators' or other like Liens, if any, that do not materially detract from the value of or materially interfere with the use of any of the assets of such Person and its Subsidiaries as currently conducted, (ii) Liens arising under original purchase price conditional sales Contracts and equipment leases with third parties entered into in the ordinary course of business, (iii) title defects or Liens (other than those constituting Liens for the payment of Indebtedness), if any, that do not or would not, individually or in the aggregate, impair in any material respect the use or occupancy of the assets of such Person and its Subsidiaries, taken as a whole, (iv) Liens for Taxes that are not yet due or payable or that may thereafter be paid without penalty, (v) Liens supporting surety bonds, performance bonds and similar obligations issued in connection with the businesses of such Person and its Subsidiaries, (vi) Liens not created by such Person or its Subsidiaries that affect the underlying fee interest of a Company Leased Real Property, (vii) Liens that are disclosed on the most recent consolidated balance sheet of such Person included in its SEC Reports or notes thereto or securing liabilities reflected on such balance sheet, (viii) Liens arising under or pursuant to the organizational documents of such Person or any of its Subsidiaries, (ix) grants to others of rights-of-way, surface leases or crossing rights and amendments, modifications, and releases of rights-of-way, surface leases or crossing rights in the ordinary course of business, (x) with respect to rights-of-way, restrictions on the exercise of any of the rights under a granting instrument that are set forth therein or in another executed agreement, that is of public record or to which such Person or any of its Subsidiaries otherwise has access, between the parties thereto, (xi) Liens which an accurate up-to-date survey would show, (xii) Liens resulting from any facts or circumstances relating to, if such Person is the Company, Parent, Merger Sub or any of their Affiliates or, if such Person is Parent or Merger Sub, the Company or any of its Affiliates and (xiii) Liens that do not and would not reasonably be expected to materially impair the continued use of a Company Owned Real Property or a Company Leased Real Property as currently operated.

"Person" means an individual, corporation (including not-for-profit), Governmental Entity, general or limited partnership, limited liability company, joint venture, estate, trust, association, organization, unincorporated organization, other entity of any kind or nature or group (as defined in Section 13(d)(3) of the Exchange Act).

"Santee Cooper" means the South Carolina Public Service Authority, a body corporate and politic and agency of the State of South Carolina established under Chapter 31 of Title 58 of the Code of Laws of South Carolina, Annotated, as amended from time to time.

"Sarbanes-Oxley Act" means the Sarbanes-Oxley Act of 2002, as amended.

"SCBCA" means the South Carolina Business Corporation Act of 1988, as amended.

T

Table of Contents

"SCORS" means the South Carolina Office of Regulatory Staff, the administrative and regulatory body established under Title 58, Chapter 4 of the Code of Laws of South Carolina, Annotated, as amended from time to time.

"SCPSC" means the South Carolina Public Service Commission, the regulatory commission established under Title 58, Chapter 3 of the Code of Laws of South Carolina, Annotated, as amended from time to time.

"SCPSC Petition" means a petition to be filed jointly by the Company and Parent with the SCPSC for approval of the Merger and for approval of terms for cost recovery and other regulatory matters with respect to the NND Project, including the key terms summarized in Appendix A attached to this Agreement.

"SEC" means the United States Securities and Exchange Commission.

"SEC Reports" means all forms, statements, certifications, reports and other documents a Person is required or otherwise obligated to file or furnish with the SEC, including (i) those filed or furnished subsequent to the date of this Agreement and (ii) all exhibits and other information incorporated therein and all amendments and supplements thereto.

"Securities Act" means the Securities Act of 1933, as amended.

"Social Commitments" means the undertakings, terms, conditions, liabilities, obligations, commitments and sanctions set forth in Section 5.16.

"Source Material" means (i) uranium or thorium, or any combination thereof, in any physical or chemical form or (ii) ores that contain by weight one-twentieth of one percent (0.05%) or more of (A) uranium, (B) thorium or (C) any combination thereof.

"South Carolina Public Utility Laws" means the Laws of the State of South Carolina governing public utilities as contained in Title 58 of the Code of Laws of South Carolina, Annotated, as they may be amended from time, including the BLRA, the Laws providing for the organization, powers and terms of officials and members of the SCPSC and the SCORS, and the Laws providing for the establishment, review and adjustment of retail electric and natural gas rates and terms of conditions of service, as found in Title 58 of the Code of Laws of South Carolina, Annotated, in each case, as they may be amended from time to time.

"Special Nuclear Material" means plutonium, uranium-233, uranium enriched in the isotope-233 or in the isotope-235, and any other material that the NRC determines to be "Special Nuclear Material." Special Nuclear Material also refers to any material artificially enriched by any of the foregoing materials or isotopes. Special Nuclear Material does not include Source Material.

"Spent Nuclear Fuel" means fuel that has been withdrawn from a nuclear reactor following irradiation, and has not been chemically separated into its constituent elements by reprocessing. Spent Nuclear Fuel includes Special Nuclear Material, Byproduct Material, Source Material and other radioactive materials associated with nuclear fuel assemblies.

"Subsidiary" means, with respect to any Person, (i) any other Person (other than a partnership, joint venture or limited liability company) of which 50% or more of the total voting power of shares of stock or other equity interests entitled to vote in the election of directors, managers or trustees is at the time of determination owned or controlled, directly or indirectly, by such first Person and (ii) any partnership, joint venture or limited liability company of which (A) 50% or more of the capital accounts, distribution rights, total equity or voting interests or general or limited partnership interests, as applicable, are owned or controlled, directly or indirectly, by such Person, whether in the form of membership, general, special or limited partnership interests or otherwise or (B) such Person or any Subsidiary of such Person is a controlling general partner or otherwise controls such entity.
T

Table of Contents

"Superior Proposal" means an unsolicited bona fide written Acquisition Proposal relating to any direct or indirect acquisition or purchase of (i) assets that generate more than 50% of the consolidated total revenues or operating income of the Company and its Subsidiaries, taken as a whole, (ii) assets that constitute more than 50% of the consolidated total assets of the Company and its Subsidiaries, taken as a whole or (iii) more than 50% of the total voting power of the equity securities of the Company, in each case, that the Company Board determines in good faith after consultation with the Company's financial advisors and outside legal counsel is more favorable to the Company's shareholders than the Merger, taking into account the Person making the Acquisition Proposal and all legal, financial and regulatory aspects of the Acquisition Proposal (including the likelihood that such Acquisition Proposal would be consummated in accordance with its terms) and all other relevant circumstances.

"Tax Return" means any return, declaration, report, election, claim for refund or information return or any other statement or form filed or required to be filed with any Governmental Entity relating to Taxes, including any schedule or attachment thereto, and including any amendment thereof.

"Taxes" means all forms of taxes or duties imposed by any Governmental Entity, or required by any Governmental Entity to be collected or withheld, including charges, together with any related interest, penalties and other additional amounts.

"Willful Breach" means, with respect to any breach or failure to perform any of the covenants or other agreements contained in this Agreement, a breach that is a consequence of an act or failure to act undertaken by the breaching party with actual knowledge that such party's act or failure to act would result in or constitute a breach of this Agreement. For the avoidance of doubt, the failure of a party hereto to consummate the Closing when required pursuant to Section 1.02, or, on the Closing Date, cause the Effective Time to occur pursuant to Section 1.03, shall be a Willful Breach of this Agreement.

(b) Each of the following terms is defined in the Section set forth opposite such term:

T

Term	Section
Agreement	Preamble
Alternative Acquisition Agreement	4.02(e)
Applicable Company SEC Reports	3.01(e)(i)
Applicable Parent SEC Reports	3.02(e)(i)
Articles of Merger	1.03
Book-Entry Share	2.01(a)

Annex B

[Morgan Stanley letterhead]

January 2, 2018

Board of Directors
SCANA Corporation
100 SCANA Parkway
Cayce, SC 29033

Members of the Board:

We understand that SCANA Corporation ("SCANA" or the "Company"), Dominion Energy, Inc. (the "Parent") and Sedona Corp., a wholly owned subsidiary of the Parent ("Acquisition Sub"), propose to enter into an Agreement and Plan of Merger, dated as of January 2, 2018 (the "Merger Agreement"), which provides, among other things, for the merger (the "Merger") of Acquisition Sub with and into the Company. Pursuant to the Merger, the Company will become a wholly owned subsidiary of the Parent, and each outstanding share of common stock, without par value, of the Company (the "Company Common Stock"), other than each share held by the Parent, Acquisition Sub or any other wholly owned subsidiary of the Parent and each share held by the Company or any wholly owned subsidiary of the Company (collectively, the "Excluded Shares"), will be converted into the right to receive 0.6690 shares (the "Merger Consideration," as such term is defined in the Merger Agreement) of common stock, without par value, of the Parent (the "Parent Common Stock"), subject to adjustment in certain circumstances. The terms and conditions of the Merger are more fully set forth in the Merger Agreement.

You have asked for our opinion as to whether the Merger Consideration to be received by the holders of shares of the Company Common Stock (other than the holders of the Excluded Shares) pursuant to the Merger Agreement is fair from a financial point of view to such holders of shares of the Company Common Stock.

For purposes of the opinion set forth herein, we have:

T
1) Reviewed certain publicly available financial statements and other business and financial information of the Company and the Parent, respectively;
T
2) Reviewed certain internal financial statements and other financial and operating data concerning the Company and the Parent, respectively;
T
3) Reviewed certain financial projections prepared by the managements of the Company and the Parent, respectively;
T
4) Discussed the past and current operations and financial condition and the prospects of the Company with senior executives of the Company;
T
5) Discussed the past and current operations and financial condition and the prospects of the Parent with senior executives of the Parent;
T
6) Reviewed the pro forma impact of the Merger on the Parent's earnings per share, cash flow, consolidated capitalization and certain financial ratios;
T
7) Reviewed the reported prices and trading activity for the Company Common Stock and the Parent Common Stock;
T
8) Compared the financial performance of the Company and the prices and trading activity of the Company Common Stock with that of certain other publicly-traded companies comparable with the Company, and their securities;
T

Table of Contents

9) Reviewed the financial terms, to the extent publicly available, of certain comparable acquisition transactions;

T

10) Participated in certain discussions and negotiations among representatives of the Company and the Parent and their financial and legal advisors;

T

11) Reviewed the Merger Agreement and certain related documents; and

T

12) Performed such other analyses and considered such other factors as we have deemed appropriate.

We have assumed and relied upon, without independent verification, the accuracy and completeness of the information that was publicly available or supplied or otherwise made available to us by the Company and the Parent, and formed a substantial basis for this opinion. With respect to the financial projections, we have assumed that they have been reasonably prepared on bases reflecting the best currently available estimates and judgments of the respective managements of the Company and the Parent of the future financial performance of the Company and the Parent. In addition, we have assumed that the Merger will be consummated in accordance with the terms set forth in the Merger Agreement without any waiver, amendment or delay of any terms or conditions, including, among other things, that the Merger will be treated as a tax-free reorganization, pursuant to the Internal Revenue Code of 1986, as amended. We have relied upon, without independent verification, the assessment by the management of the Company of: (i) the timing and risks associated with the integration of the Company and the Parent; and (ii) their ability to retain key employees of the Company and the Parent, respectively. Morgan Stanley has assumed that in connection with the receipt of all the necessary governmental, regulatory or other approvals and consents required for the proposed Merger, no delays, limitations, conditions or restrictions will be imposed that would have a material adverse effect on the contemplated benefits expected to be derived in the proposed Merger (but we have assumed, without independent verification, the reasonableness of those delays, limitations, conditions and restrictions contained in the financial projections prepared by the managements of the Company and of the Parent). We are not legal, tax, or regulatory advisors. We are financial advisors only and have relied upon, without independent verification, the assessment of the Company and its legal, tax, and regulatory advisors with respect to legal, tax, and regulatory matters. For purposes of our analysis we have not made any assessment of the status of outstanding litigation or regulatory proceedings involving the Company and have excluded the effects of any such litigation or proceedings in our analysis, other than those effects included in the financial projections prepared by the managements of the Company and Parent, upon which we have relied without independent verification. We express no opinion with respect to the fairness of the amount or nature of the compensation to any of the Company's officers, directors or employees, or any class of such persons, relative to the Merger Consideration to be received by the holders of shares of the Company Common Stock (other than the holders of the Excluded Shares) in the transaction. We have not made any independent valuation or appraisal of the assets or liabilities of the Company or the Parent, nor have we been furnished with any such valuations or appraisals. Our opinion is necessarily based on financial, economic, market and other conditions as in effect on, and the information made available to us as of, the date hereof. Events occurring after the date hereof may affect this opinion and the assumptions used in preparing it, and we do not assume any obligation to update, revise or reaffirm this opinion.

In arriving at our opinion, we were not authorized to solicit, and did not solicit, interest from any party with respect to the acquisition, business combination or other extraordinary transaction, involving the Company. At the direction of the management and the Board of Directors of the Company, we did not negotiate with anyone other than the Parent.

We have acted as financial advisor to the Board of Directors of the Company in connection with this transaction and will receive a fee for our services, a substantial portion of which is contingent upon the closing of the Merger. In the two years prior to the date hereof, we and our affiliates have provided financing services to the Parent and have received fees for such services. Morgan Stanley may also seek to provide financial advisory and financing services to the Parent and the Company and their respective affiliates in the future and would expect to receive fees for the rendering of these services.

T

Table of Contents

Please note that Morgan Stanley is a global financial services firm engaged in the securities, investment management and individual wealth management businesses. Our securities business is engaged in securities underwriting, trading and brokerage activities, foreign exchange, commodities and derivatives trading, prime brokerage, as well as providing investment banking, financing and financial advisory services. Morgan Stanley, its affiliates, directors and officers may at any time invest on a principal basis or manage funds that invest, hold long or short positions, finance positions, and may trade or otherwise structure and effect transactions, for their own account or the accounts of its customers, in debt or equity securities or loans of the Parent, the Company, or any other company, or any currency or commodity, that may be involved in this transaction, or any related derivative instrument.

This opinion has been approved by a committee of Morgan Stanley investment banking and other professionals in accordance with our customary practice. This opinion is for the benefit and use of the senior management and the Board of Directors of the Company and, subject to the terms of the engagement letter, dated October 18, 2017, between the Company and Morgan Stanley, may not be used for any other purpose or disclosed without our prior written consent, except that a copy of this opinion may be included in its entirety in the Proxy Statement/Prospectus (as such term is defined in the Merger Agreement) to be filed with the Securities and Exchange Commission in connection with this transaction. This opinion does not address the relative merits of the transactions contemplated by the Merger Agreement as compared to other business or financial strategies that might be available to the Company, nor does it address the underlying business decision of the Company to enter into the Merger Agreement or proceed with any other transaction contemplated by the Merger Agreement. In addition, this opinion does not in any manner address the prices at which the Parent Common Stock will trade following consummation of the Merger or at any time and Morgan Stanley expresses no opinion or recommendation as to how the shareholders of the Company should vote at the shareholders' meeting to be held in connection with the Merger.

Based on and subject to the foregoing, we are of the opinion on the date hereof that the Merger Consideration to be received by the holders of shares of the Company Common Stock (other than the holders of the Excluded Shares) pursuant to the Merger Agreement is fair from a financial point of view to such holders of shares of the Company Common Stock.

T

Very truly yours,

MORGAN STANLEY & CO., LLC

Annex C

Opinion of RBC Capital Markets, LLC

January 2, 2018

The Board of Directors
SCANA Corporation
100 SCANA Parkway
Cayce, South Carolina 29033

The Board of Directors:

You have requested our opinion as to the fairness, from a financial point of view, to holders of the common stock of SCANA Corporation, a South Carolina corporation ("SCANA"), of the Merger Consideration (defined below) provided for pursuant to the terms and subject to the conditions set forth in an Agreement and Plan of Merger (the "Merger Agreement") proposed to be entered into among SCANA, Dominion Energy, Inc., a Virginia corporation ("Dominion Energy"), and Sedona Corp., a South Carolina corporation and wholly-owned subsidiary of Dominion Energy ("Merger Sub"). The Merger Agreement provides for, among other things, the merger of Merger Sub with and into SCANA (the "Merger") pursuant to which each outstanding share of the common stock, no par value per share, of SCANA ("SCANA Common Stock") will be converted into the right to receive 0.6690 of a share of the common stock, no par value per share, of Dominion Energy ("Dominion Energy Common Stock" and the implied per share value payable in the Merger utilizing such exchange ratio, the "Merger Consideration"). The terms and conditions of the Merger are set forth more fully in the Merger Agreement.

RBC Capital Markets, LLC ("RBCCM"), as part of our investment banking services, is regularly engaged in the valuation of businesses and securities in connection with mergers and acquisitions, corporate restructurings, underwritings, secondary distributions of listed and unlisted securities, private placements, and valuations for corporate and other purposes. In the ordinary course of business, RBCCM and/or certain of our affiliates may act as a market maker and broker in the publicly traded securities of SCANA, Dominion Energy and/or other entities involved in the Merger or their respective affiliates and receive customary compensation in connection therewith, and may also actively trade securities of SCANA, Dominion Energy and/or other entities involved in the Merger or their respective affiliates for our or our affiliates' own account or for the account of customers and, accordingly, RBCCM and our affiliates may hold a long or short position in such securities. We are acting as financial advisor to SCANA in connection with the Merger and we will receive a fee for our services, of which a portion is payable upon delivery of this opinion, a portion is payable upon receipt of approval of the Merger by holders of SCANA Common Stock and the principal portion is contingent upon consummation of the Merger. We also may be entitled to an additional fee payable, at SCANA's discretion, upon consummation of the Merger. In addition, SCANA has agreed to indemnify us for certain liabilities that may arise out of our engagement and to reimburse us for expenses incurred in connection with our services. As you are aware, RBCCM and certain of our affiliates in the past have provided, currently are providing and in the future may provide investment banking and commercial banking services to SCANA and/or its affiliates unrelated to the Merger, for which services RBCCM and our affiliates have received and expect to receive customary compensation, including, during the past two years, having acted or acting as a lender under certain credit facilities of SCANA. As you also are aware, RBCCM and certain of our affiliates in the past have provided, currently are providing and in the future may provide investment banking and commercial banking services to Dominion Energy and/or its affiliates, for which services RBCCM and its affiliates have received or expect to receive customary compensation, including, during the past two years, having acted or acting as (i) joint lead manager or joint book-running manager for certain debt and equity offerings of Dominion Energy and certain of its affiliates in 2016 and 2017, and (ii) joint lead arranger for, and as a lender under, certain bridge and other credit facilities of Dominion Energy and certain of its affiliates.

T

Table of Contents

The Board of Directors
SCANA Corporation
January 2, 2018

For purposes of rendering our opinion, we have undertaken such review, inquiries and analyses as we deemed necessary or appropriate under the circumstances, including the following:

(i) we reviewed the financial terms of a draft, dated January 2, 2018, of the Merger Agreement;

(ii) we reviewed certain publicly available financial and other information, and certain historical operating data, relating to SCANA and Dominion Energy made available to us from published sources and internal records of SCANA and Dominion Energy, respectively;

(iii) we reviewed certain financial projections and other estimates and data (including as to certain tax attributes) relating to SCANA prepared by the management of SCANA based on alternative regulatory settlement cases, and we reviewed certain financial projections and other estimates and data relating to Dominion Energy prepared by the management of Dominion Energy, which projections and other estimates and data we were directed by SCANA to utilize for purposes of our analyses and opinion;

(iv) we conducted discussions with members of the senior managements of SCANA and Dominion Energy with respect to the respective businesses, prospects and financial outlook of SCANA and Dominion Energy;

(v) we reviewed the reported prices and trading activity for shares of SCANA Common Stock and Dominion Energy Common Stock;

(vi) we compared certain financial metrics of SCANA and Dominion Energy with those of selected publicly traded companies in lines of businesses that we considered generally relevant in evaluating SCANA and Dominion Energy, respectively;

(vii) we reviewed certain potential pro forma financial effects of the Merger on Dominion Energy; and

(viii) we considered other information and performed other studies and analyses as we deemed appropriate.

In rendering our opinion, we have assumed and relied upon the accuracy and completeness of all information that was reviewed by us, including all financial, legal, tax, accounting, operating and other information provided to or discussed with us by or on behalf of SCANA or Dominion Energy (including, without limitation, financial statements and related notes), and upon the assurances of the respective managements and other representatives of SCANA and Dominion Energy that they are not aware of any relevant information that has been omitted or that remains undisclosed to us. We have not assumed responsibility for independently verifying and have not independently verified such information. We also have assumed that the financial projections and other estimates and data (including potential tax attributes relating to SCANA) that we were directed to utilize in our analyses were reasonably prepared on bases reflecting the best currently available estimates and good faith judgments of the respective managements of SCANA and Dominion Energy, as the case may be, as to the future financial performance of, and are a reasonable basis upon which to evaluate, SCANA under the alternative regulatory settlement cases reflected therein, Dominion Energy, the potential pro forma effects of the Merger and the other matters covered thereby. We express no opinion as to any such financial projections and other estimates and data or the assumptions upon which they are based. We have relied upon the assessments of the managements of SCANA and Dominion Energy as to, among other things, (i) the potential impact on SCANA and Dominion Energy of market, competitive, seasonal, and other trends and developments in and prospects for, and governmental, regulatory and legislative matters relating to or otherwise affecting, the utility, power and energy industries and the sectors of such industries and geographic regions in which SCANA and Dominion Energy operate (including, without limitation, with respect to future commodity prices and availability, which are subject to significant volatility, existing, planned and/or abandoned infrastructure and other capital projects, including the construction and abandonment of SCANA's new nuclear project in Jenkinsville, South Carolina, and pending and future rate cases, cost recovery and other regulatory proceedings and determinations) and assumptions of the managements of SCANA and Dominion Energy, respectively, as to

Table of Contents

T
such matters which, if different than as provided to us, could have a meaningful impact on our analyses or opinion, (ii) existing and future relationships, agreements and arrangements with, and the ability to attract, retain and/or replace, key employees, customers, suppliers, contractors and subcontractors and other commercial relationships of SCANA and Dominion Energy, and (iii) the ability to integrate the operations of SCANA and Dominion Energy. We have assumed that there will be no developments with respect to any of the foregoing that would have an adverse effect on SCANA, Dominion Energy or the Merger or that otherwise would be meaningful in any respect to our analyses or opinion.

In connection with our opinion, we have not assumed any responsibility to perform, and we have not performed, an independent valuation or appraisal of any of the assets or liabilities (contingent, off-balance sheet, accrued, derivative or otherwise) of or relating to SCANA, Dominion Energy or any other entity and we have not been furnished with any such valuations or appraisals. We express no view or opinion as to the potential impact on SCANA, Dominion Energy or any other entity of any pending or potential litigation, claims or governmental, regulatory or other proceedings or investigations. We have not assumed any obligation to conduct, and we have not conducted, any physical inspection of the property or facilities of SCANA, Dominion Energy or any other entity. We have not evaluated the solvency or fair value of SCANA, Dominion Energy or any other entity under any state, federal or other laws relating to bankruptcy, insolvency or similar matters. We have assumed that the Merger will be consummated in accordance with the terms of the Merger Agreement and in compliance with all applicable laws, documents and other requirements, without waiver, modification or amendment of any material term, condition or agreement, and that, in the course of obtaining the necessary governmental, regulatory or third party approvals, consents, releases, waivers and agreements for the Merger, no delay, limitation, restriction or condition will be imposed or occur, including any divestiture or other requirements, that would have an adverse effect on SCANA, Dominion Energy or the Merger or that otherwise would be meaningful in any respect to our analyses or opinion. We also have assumed that the Merger will qualify as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended, for U.S. federal income tax purposes and otherwise qualify for the intended tax treatment contemplated by the Merger Agreement. In addition, we have assumed that the final executed Merger Agreement will not differ, in any respect meaningful to our analyses or opinion, from the draft that we reviewed.

Our opinion speaks only as of the date hereof, is based on conditions as they exist and information supplied or reviewed as of the date hereof, and is without regard to any market, economic, financial, legal, regulatory or other circumstances or event of any kind or nature which may exist or occur after such date. We have not undertaken and have no obligation to reaffirm, revise or update this opinion or otherwise comment upon events occurring after the date hereof with respect to this opinion. We are not expressing any opinion as to the actual value of Dominion Energy Common Stock when issued in connection with the Merger or the price or range of prices at which SCANA Common Stock, Dominion Energy Common Stock or any other securities of SCANA or Dominion Energy may trade or otherwise be transferable at any time, including following announcement or consummation of the Merger. As you are aware, the credit, financial and stock markets, and the industries in which SCANA and Dominion Energy operate, have experienced and continue to experience volatility and we express no opinion or view as to any potential effects of such volatility on SCANA or Dominion Energy (or their respective businesses) or the Merger.

The advice (written or oral) of RBCCM and our opinion expressed herein is provided for the benefit, information and assistance of the Board of Directors of SCANA (in its capacity as such) in connection with its evaluation of the Merger. We express no opinion and make no recommendation to any shareholder as to how such shareholder should vote or act with respect to the Merger or any proposal to be voted upon in connection with the Merger or otherwise.
T

Table of Contents

Our opinion addresses the fairness, from a financial point of view and as of the date hereof, of the Merger Consideration (to the extent expressly specified herein), without regard to individual circumstances of specific holders that may distinguish such holders or the securities of SCANA held by such holders. Our opinion does not in any way address any other terms, conditions, implications or other aspects of the Merger or the Merger Agreement, including, without limitation, the form or structure of the Merger, or any other agreement, arrangement or understanding to be entered into in connection with or contemplated by the Merger or otherwise. Our opinion also does not address the underlying business decision of SCANA to engage in the Merger or the relative merits of the Merger compared to any alternative business strategy or transaction that may be available to SCANA or in which SCANA might engage. We do not express any opinion or view with respect to, and we have relied upon the assessments of SCANA and its representatives regarding, legal, regulatory, tax, accounting and similar matters (including changes resulting from, and the impact of, the recent U.S. tax reform), as to which we understand that SCANA has obtained such advice as it deemed necessary from qualified professionals. Further, in rendering our opinion, we do not express any view on, and our opinion does not address, the fairness of the amount or nature of the compensation (if any) or other consideration to any officers, directors or employees of any party, or class of such persons, relative to the Merger Consideration or otherwise. In connection with our engagement, we were not requested to, and we did not, undertake a third-party solicitation process on SCANA's behalf with respect to the acquisition of all or a part of SCANA.

The issuance of our opinion has been approved by RBCCM's Fairness Opinion Committee.

Based on our experience as investment bankers and subject to the foregoing, including the various assumptions and limitations set forth herein, it is our opinion that, as of the date hereof, the Merger Consideration to be received by holders of SCANA Common Stock pursuant to the Merger Agreement is fair, from a financial point of view, to such holders.

Very truly yours,

RBC CAPITAL MARKETS, LLC

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

T

Item 20. Indemnification of Directors and Officers.

Article VI of the Dominion Energy charter mandates indemnification of its directors and officers to the full extent permitted by the VSCA, and any other applicable law. The VSCA permits a corporation to indemnify its directors and officers against liability incurred in all proceedings, including derivative proceedings, arising out of their service to the corporation or to other corporations or enterprises that the officer or director was serving at the request of the corporation, except in the case of willful misconduct or a knowing violation of a criminal law. Dominion Energy is required to indemnify its directors and officers in all such proceedings if they have not violated this standard. Dominion Energy has also entered into agreements relating to the advancement of expenses for certain of its directors and officers in advance of a final disposition of proceedings or the making of any determination of eligibility for indemnification pursuant to the Dominion Energy charter.

In addition, Article VI of the Dominion Energy charter limits the liability of its directors and officers to the full extent permitted by the VSCA as now and hereafter in effect. The VSCA places a limit on the liability of a director or officer in derivative or shareholder proceedings equal to the lesser of (i) the amount specified in the corporation's articles of incorporation or a shareholder-approved bylaw; or (ii) the greater of (a) $100,000 or (b) twelve months of cash compensation received by the director or officer. The limit does not apply in the event the director or officer has engaged in willful misconduct or a knowing violation of a criminal law or a federal or state securities law. The effect of the Dominion Energy charter, together with the VSCA, is to eliminate liability of directors and officers for monetary damages in derivative or shareholder proceedings so long as the required standard of conduct is met.

Dominion Energy has purchased directors' and officers' liability insurance policies. Within the limits of their coverage, the policies insure (1) the directors and officers of Dominion Energy against certain losses resulting from claims against them in their capacities as directors and officers to the extent that such losses are not indemnified by Dominion Energy and (2) Dominion Energy to the extent that it indemnifies such directors and officers for losses as permitted under the laws of Virginia.

Item 22. Undertakings.

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Securities and Exchange Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement, or any material change to such information in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered that remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

(i) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5) or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii) or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that

Table of Contents

time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

(5) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

(ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

(iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

(iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(b) The undersigned registrant hereby further undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions described under Item 15 in the registration statement above, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted against the registrant by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(d) The undersigned registrant hereby undertakes to respond to requests for information that is incorporated by reference into the prospectus pursuant to Items 4, 10(b), 11, or 13 of this Form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

(e) The undersigned registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.

INDEPENDENT AUDITORS' REPORT

South Carolina Electric & Gas Company
Cayce, South Carolina

We have audited the accompanying financial statements of South Carolina Electric & Gas Company (the "Company"), which comprise the balance sheet — regulatory basis as of December 31, 2014, and the related statements of income — regulatory basis, retained earnings — regulatory basis, and cash flows — regulatory basis for the year then ended, included on pages 110 through 123 of the accompanying Federal Energy Regulatory Commission Form 1, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the regulatory basis financial statements referred to above present fairly, in all material respects, the assets, liabilities, and proprietary capital of the Company as of December 31, 2014, and the results of its operations and its cash flows for the year then ended in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases.

Basis of Accounting

As discussed before Note 1 to the financial statements, these financial statements were prepared in accordance with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Restricted Use

This report is intended solely for the information and use of the board of directors and management of the Company and for filing with the Federal Energy Regulatory Commission and is not intended to be and should not be used by anyone other than these specified parties.

Deloitte & Touche LLP

April 17, 2015

INSTRUCTIONS FOR FILING FERC FORM NOS. 1 and 3-Q

GENERAL INFORMATION

I. Purpose

FERC Form No. 1 (FERC Form 1) is an annual regulatory requirement for Major electric utilities, licensees and others (18 C.F.R. § 141.1). FERC Form No. 3-Q (FERC Form 3-Q)is a quarterly regulatory requirement which supplements the annual financial reporting requirement (18 C.F.R. § 141.400). These reports are designed to collect financial and operational information from electric utilities, licensees and others subject to the jurisdiction of the Federal Energy Regulatory Commission. These reports are also considered to be non-confidential public use forms.

II. Who Must Submit

Each Major electric utility, licensee, or other, as classified in the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees Subject To the Provisions of The Federal Power Act (18 C.F.R. Part 101), must submit FERC Form 1 (18 C.F.R. § 141.1), and FERC Form 3-Q (18 C.F.R. § 141.400).

Note: Major means having, in each of the three previous calendar years, sales or transmission service that exceeds one of the following:

(1) one million megawatt hours of total annual sales,
(2) 100 megawatt hours of annual sales for resale,
(3) 500 megawatt hours of annual power exchanges delivered, or
(4) 500 megawatt hours of annual wheeling for others (deliveries plus losses).

III. What and Where to Submit

(a) Submit FERC Forms 1 and 3-Q electronically through the forms submission software. Retain one copy of each report for your files. Any electronic submission must be created by using the forms submission software provided free by the Commission at its web site: http://www.ferc.gov/docs-filing/eforms/form-1/elec-subm-soft.asp. The software is used to submit the electronic filing to the Commission via the Internet.

(b) The Corporate Officer Certification must be submitted electronically as part of the FERC Forms 1 and 3-Q filings.

(c) Submit immediately upon publication, by either eFiling or mail, two (2) copies to the Secretary of the Commission, the latest Annual Report to Stockholders. Unless eFiling the Annual Report to Stockholders, mail the stockholders report to the Secretary of the Commission at:

Secretary
Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

(d) For the CPA Certification Statement, submit within 30 days after filing the FERC Form 1, a letter or report (not applicable to filers classified as Class C or Class D prior to January 1, 1984). The CPA Certification Statement can be either eFiled or mailed to the Secretary of the Commission at the address above.

The CPA Certification Statement should:

a) Attest to the conformity, in all material aspects, of the below listed (schedules and pages) with the Commission's applicable Uniform System of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and

b) Be signed by independent certified public accountants or an independent licensed public accountant certified or licensed by a regulatory authority of a State or other political subdivision of the U. S. (See 18 C.F.R. §§ 41.10-41.12 for specific qualifications.)

Reference Schedules	Pages
Comparative Balance Sheet	110-113
Statement of Income	114-117
Statement of Retained Earnings	118-119
Statement of Cash Flows	120-121
Notes to Financial Statements	122-123

e) The following format must be used for the CPA Certification Statement unless unusual circumstances or conditions, explained in the letter or report, demand that it be varied. Insert parenthetical phrases only when exceptions are reported.

"In connection with our regular examination of the financial statements of _____ for the year ended on which we have reported separately under date of ___________ , we have also reviewed schedules ___________________of FERC Form No. 1 for the year filed with the Federal Energy Regulatory Commission, for conformity in all material respects with the requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Our review for this purpose included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

Based on our review, in our opinion the accompanying schedules identified in the preceding paragraph (except as noted below) conform in all material respects with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases."

The letter or report must state which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist.

(f) Filers are encouraged to file their Annual Report to Stockholders, and the CPA Certification Statement using eFiling. To further that effort, new selections, "Annual Report to Stockholders," and "CPA Certification Statement" have been added to the dropdown "pick list" from which companies must choose when eFiling. Further instructions are found on the Commission's website at http://www.ferc.gov/help/how-to.asp.

(g) Federal, State and Local Governments and other authorized users may obtain additional blank copies of FERC Form 1 and 3-Q free of charge from http://www.ferc.gov/docs-filing/eforms/form-1/form-1.pdf and http://www.ferc.gov/docs-filing/eforms.asp#3Q-gas .

IV. When to Submit:

FERC Forms 1 and 3-Q must be filed by the following schedule:

a) FERC Form 1 for each year ending December 31 must be filed by April 18th of the following year (18 CFR § 141.1), and

b) FERC Form 3-Q for each calendar quarter must be filed within 60 days after the reporting quarter (18 C.F.R. § 141.400).

V. Where to Send Comments on Public Reporting Burden.

The public reporting burden for the FERC Form 1 collection of information is estimated to average 1,144 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data-needed, and completing and reviewing the collection of information. The public reporting burden for the FERC Form 3-Q collection of information is estimated to average 150 hours per response.

Send comments regarding these burden estimates or any aspect of these collections of information, including suggestions for reducing burden, to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426 (Attention: Information Clearance Officer); and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 (Attention: Desk Officer for the Federal Energy Regulatory Commission). No person shall be subject to any penalty if any collection of information does not display a valid control number (44 U.S.C. § 3512 (a)).

GENERAL INSTRUCTIONS

I. Prepare this report in conformity with the Uniform System of Accounts (18 CFR Part 101) (USofA). Interpret all accounting words and phrases in accordance with the USofA.

II. Enter in whole numbers (dollars or MWH) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required.) The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting period, and use for statement of income accounts the current year's year to date amounts.

III Complete each question fully and accurately, even if it has been answered in a previous report. Enter the word "None" where it truly and completely states the fact.

IV. For any page(s) that is not applicable to the respondent, omit the page(s) and enter "NA," "NONE," or "Not Applicable" in column (d) on the List of Schedules, pages 2 and 3.

V. Enter the month, day, and year for all dates. Use customary abbreviations. **The "Date of Report" included in the header of each page is to be completed only for resubmissions** (see VII. below).

VI. Generally, except for certain schedules, all numbers, whether they are expected to be debits or credits, must be reported as positive. Numbers having a sign that is different from the expected sign must be reported by enclosing the numbers in parentheses.

VII For any resubmissions, submit the electronic filing using the form submission software only. Please explain the reason for the resubmission in a footnote to the data field.

VIII. Do not make references to reports of previous periods/years or to other reports in lieu of required entries, except as specifically authorized.

IX. Wherever (schedule) pages refer to figures from a previous period/year, the figures reported must be based upon those shown by the report of the previous period/year, or an appropriate explanation given as to why the different figures were used.

Definitions for statistical classifications used for completing schedules for transmission system reporting are as follows:

FNS - Firm Network Transmission Service for Self. "Firm" means service that can not be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Network Service" is Network Transmission Service as described in Order No. 888 and the Open Access Transmission Tariff. "Self" means the respondent.

FNO - Firm Network Service for Others. "Firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Network Service" is Network Transmission Service as described in Order No. 888 and the Open Access Transmission Tariff.

LFP - for Long-Term Firm Point-to-Point Transmission Reservations. "Long-Term" means one year or longer and" firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Point-to-Point Transmission Reservations" are described in Order No. 888 and the Open Access Transmission Tariff. For all transactions identified as LFP, provide in a footnote the

termination date of the contract defined as the earliest date either buyer or seller can unilaterally cancel the contract.

OLF - Other Long-Term Firm Transmission Service. Report service provided under contracts which do not conform to the terms of the Open Access Transmission Tariff. "Long-Term" means one year or longer and “firm” means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. For all transactions identified as OLF, provide in a footnote the termination date of the contract defined as the earliest date either buyer or seller can unilaterally get out of the contract.

SFP - Short-Term Firm Point-to-Point Transmission Reservations. Use this classification for all firm point-to-point transmission reservations, where the duration of each period of reservation is less than one-year.

NF - Non-Firm Transmission Service, where firm means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions.

OS - Other Transmission Service. Use this classification only for those services which can not be placed in the above-mentioned classifications, such as all other service regardless of the length of the contract and service FERC Form. Describe the type of service in a footnote for each entry.

AD - Out-of-Period Adjustments. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting periods. Provide an explanation in a footnote for each adjustment.

DEFINITIONS

I. Commission Authorization (Comm. Auth.) -- The authorization of the Federal Energy Regulatory Commission, or any other Commission. Name the commission whose authorization was obtained and give date of the authorization.

II. Respondent -- The person, corporation, licensee, agency, authority, or other Legal entity or instrumentality in whose behalf the report is made.

EXCERPTS FROM THE LAW

Federal Power Act, 16 U.S.C. § 791a-825r

Sec. 3. The words defined in this section shall have the following meanings for purposes of this Act, to with:

(3) 'Corporation' means any corporation, joint-stock company, partnership, association, business trust, organized group of persons, whether incorporated or not, or a receiver or receivers, trustee or trustees of any of the foregoing. It shall not include 'municipalities, as hereinafter defined;

(4) 'Person' means an individual or a corporation;

(5) 'Licensee, means any person, State, or municipality Licensed under the provisions of section 4 of this Act, and any assignee or successor in interest thereof;

(7) 'municipality means a city, county, irrigation district, drainage district, or other political subdivision or agency of a State competent under the Laws thereof to carry and the business of developing, transmitting, unitizing, or distributing power; ......

(11) "project' means. a complete unit of improvement or development, consisting of a power house, all water conduits, all dams and appurtenant works and structures (including navigation structures) which are a part of said unit, and all storage, diverting, or fore bay reservoirs directly connected therewith, the primary line or lines transmitting power there from to the point of junction with the distribution system or with the interconnected primary transmission system, all miscellaneous structures used and useful in connection with said unit or any part thereof, and all water rights, rights-of-way, ditches, dams, reservoirs, Lands, or interest in Lands the use and occupancy of which are necessary or appropriate in the maintenance and operation of such unit;

"Sec. 4. The Commission is hereby authorized and empowered

(a) To make investigations and to collect and record data concerning the utilization of the water 'resources of any region to be developed, the water-power industry and its relation to other industries and to interstate or foreign commerce, and concerning the location, capacity, development -costs, and relation to markets of power sites; ... to the extent the Commission may deem necessary or useful for the purposes of this Act."

"Sec. 304. (a) Every Licensee and every public utility shall file with the Commission such annual and other periodic or special* reports as the Commission may be rules and regulations or other prescribe as necessary or appropriate to assist the Commission in the -proper administration of this Act. The Commission may prescribe the manner and FERC Form in which such reports salt be made, and require from such persons specific answers to all questions upon which the Commission may need information. The Commission may require that such reports shall include, among other things, full information as to assets and Liabilities, capitalization, net investment, and reduction thereof, gross receipts, interest due and paid, depreciation, and other reserves, cost of project and other facilities, cost of maintenance and operation of the project and other facilities, cost of renewals and replacement of the project works and other facilities, depreciation, generation, transmission, distribution, delivery, use, and sale of electric energy. The Commission may require any such person to make adequate provision for currently determining such costs and other facts. Such reports shall be made under oath unless the Commission otherwise specifies*.10

"Sec. 309. The Commission shall have power to perform any and all acts, and to prescribe, issue, make, and rescind such orders, rules and regulations as it may find necessary or appropriate to carry out the provisions of this Act. Among other things, such rules and regulations may define accounting, technical, and trade terms used in this Act; and may prescribe the FERC Form or FERC Forms of all statements, declarations, applications, and reports to be filed with the Commission, the information which they shall contain, and the time within which they shall be field..."

General Penalties

The Commission may assess up to $1 million per day per violation of its rules and regulations. *See* FPA § 316(a) (2005), 16 U.S.C. § 825o(a).

GENERAL INFORMATION

1. Provide name and title of officer having custody of the general corporate books of account and address of office where the general corporate books are kept, and address of office where any other corporate books of account are kept, if different from that where the general corporate books are kept.

James E. Swan, IV, Controller
100 SCANA Parkway
Cayce, SC 29033-3712

2. Provide the name of the State under the laws of which respondent is incorporated, and date of incorporation. If incorporated under a special law, give reference to such law. If not incorporated, state that fact and give the type of organization and the date organized.

South Carolina - July 19, 1924

3. If at any time during the year the property of respondent was held by a receiver or trustee, give (a) name of receiver or trustee, (b) date such receiver or trustee took possession, (c) the authority by which the receivership or trusteeship was created, and (d) date when possession by receiver or trustee ceased.

Not Applicable

4. State the classes or utility and other services furnished by respondent during the year in each State in which the respondent operated.

South Carolina - Electric, Gas

5. Have you engaged as the principal accountant to audit your financial statements an accountant who is not the principal accountant for your previous year's certified financial statements?

(1) [ ] Yes...Enter the date when such independent accountant was initially engaged:
(2) [X] No

Name of Respondent South Carolina Electric & Gas Company	This Report Is: (1) [X] An Original (2) [ ] A Resubmission	Date of Report *(Mo, Da, Yr)* / /	Year/Period of Report End of 2014/Q4

CONTROL OVER RESPONDENT

1. If any corporation, business trust, or similar organization or a combination of such organizations jointly held control over the repondent at the end of the year, state name of controlling corporation or organization, manner in which control was held, and extent of control. If control was in a holding company organization, show the chain of ownership or control to the main parent company or organization. If control was held by a trustee(s), state name of trustee(s), name of beneficiary or beneficiearies for whom trust was maintained, and purpose of the trust.

The respondent is a wholly-owned subsidiary of SCANA Corporation (SCANA). See below for SCANA's organizational structure.

SCANA is a South Carolina corporation created in 1984 as a holding company. SCANA holds directly all of the capital stock of the following subsidiaries, each of which is incorporated in South Carolina.

SOUTH CAROLINA ELECTRIC & GAS COMPANY (SCE&G) is engaged in the generation, transmission, distribution and sale of electricity to retail and wholesale customers and the purchase, sale and transportation of natural gas to retail customers.

SOUTH CAROLINA GENERATING COMPANY, INC. (GENCO) owns Williams Station and sells electricity solely to SCE&G.

SOUTH CAROLINA FUEL COMPANY, INC. (Fuel Company) acquires, owns, provides financing for and sells at cost to SCE&G nuclear fuel, certain fossil fuels and emission allowances.

PUBLIC SERVICE COMPANY OF NORTH CAROLINA, INCORPORATED (PSNC Energy) purchases, sells and transports natural gas to retail customers.

CAROLINA GAS TRANSMISSION CORPORATION (CGT) transports natural gas in South Carolina and southeastern Georgia. In December 2014, SCANA announced that CGT would be sold to Dominion Resources, Inc. The sale closed at the end of January 2015.

SCANA COMMUNICATIONS, INC. (SCI) provides fiber optic communications, ethernet services and data center facilities and builds, manages and leases communications towers in South Carolina, North Carolina and Georgia. In December 2014, SCANA announced that SCI would be sold to Spirit Communications. The sale closed in February 2015.

SCANA ENERGY MARKETING, INC. (SEMI) markets natural gas, primarily in the Southeast, and provides energy-related risk management services. SCANA Energy, a division of SEMI, markets natural gas in Georgia's retail market.

SCANA SERVICES, INC. provides administrative, management and other services to SCANA's subsidiaries and business units.

SCANA owns two insiginificant energy-related companies that are being liquidated.

CORPORATIONS CONTROLLED BY RESPONDENT

1. Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by respondent at any time during the year. If control ceased prior to end of year, give particulars (details) in a footnote.
2. If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved.
3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.

Definitions
1. See the Uniform System of Accounts for a definition of control.
2. Direct control is that which is exercised without interposition of an intermediary.
3. Indirect control is that which is exercised by the interposition of an intermediary which exercises direct control.
4. Joint control is that in which neither interest can effectively control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

Schedule Page: 103 Line No.: 1 Column: d

Control held by SCE&G under the terms of a fuel contract.

Schedule Page: 103 Line No.: 7 Column: d

SCE&G has determined that it has a controlling financial interest in South Carolina Generating Company, Inc. under the terms of a Power Purchase Agreement. Accordingly, SCE&G consolidates the accounts of South Carolina Generating Company, Inc. for financial reporting under Generally Accepted Accounting Principles. Since South Carolina Generating Company, Inc. is a separate FERC reporting entity and per guidance from FERC staff, South Carolina Generating Company, Inc. has not been consolidated in this Form 1 report.

Schedule Page: 103 Line No.: 12 Column: d

SRFI, LLC is a single member LLC in which SCE&G is the sole member and no stock was issued.

Schedule Page: 103 Line No.: 17 Column: d

SCE&G holds a 25% interest in APOG, LLC. Other members include Duke Energy, Southern Nuclear Operating Company and Florida Power & Light Company.

Schedule Page: 103.1 Line No.: 1 Column: d

SCE&G holds a 40% interest in Canadys Refined Coal, LLC. The other member is AJG Coal, Inc.

Schedule Page: 103.1 Line No.: 5 Column: d

SCE&G holds a 10% interest in Brandon Shores Coaltech, LLC. Other members include AJG Coal, Inc. and BSW Refined Coal.

Schedule Page: 103.1 Line No.: 9 Column: d

SCE&G holds a 10% interest in Louisa Refined Coal, LLC. Other members include AJG Coal, Inc. and LRC Holdings.

Schedule Page: 103.1 Line No.: 13 Column: d

SCE&G holds a 25% interest in CVNPA. Other members include Duke Power Company (Duke Energy Carolinas, LLC), Carolina Power & Light Company (Duke Energy Progress) and Virginia Electric and Power Company (Dominion Virginia Power).

IMPORTANT CHANGES DURING THE QUARTER/YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Each inquiry should be answered. Enter "none," "not applicable," or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.

1. Changes in and important additions to franchise rights: Describe the actual consideration given therefore and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact.
2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give names of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
3. Purchase or sale of an operating unit or system: Give a brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.
4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other condition. State name of Commission authorizing lease and give reference to such authorization.
5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased and give reference to Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service. Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements, etc.
6. Obligations incurred as a result of issuance of securities or assumption of liabilities or guarantees including issuance of short-term debt and commercial paper having a maturity of one year or less. Give reference to FERC or State Commission authorization, as appropriate, and the amount of obligation or guarantee.
7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
8. State the estimated annual effect and nature of any important wage scale changes during the year.
9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
10. Describe briefly any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder reported on Page 104 or 105 of the Annual Report Form No. 1, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
11. (Reserved.)
12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by Instructions 1 to 11 above, such notes may be included on this page.
13. Describe fully any changes in officers, directors, major security holders and voting powers of the respondent that may have occurred during the reporting period.
14. In the event that the respondent participates in a cash management program(s) and its proprietary capital ratio is less than 30 percent please describe the significant events or transactions causing the proprietary capital ratio to be less than 30 percent, and the extent to which the respondent has amounts loaned or money advanced to its parent, subsidiary, or affiliated companies through a cash management program(s). Additionally, please describe plans, if any to regain at least a 30 percent proprietary ratio.

5. None

6. The Company's obligation under short-term borrowing arrangements on the respective Balance Sheet dates were as follows:

12/31/2014	12/31/2013
$708,647,000	$251,264,000

Such short-term borrowings have been authorized by FERC (Docket No. ES12-53-000 and Docket No. ES14-48-00).

In October 2014, SCE&G extended its existing five-year credit agreement. See Note 4 to the Financial Statements for additional information. (FERC Docket Nos. ES12-53-000, ES14-48-000 and SCPSC Docket No. 2012-322-E).

In 2014, the Company borrowed $314,087,861 and paid back $297,300,000 from the SCANA Utility Money Pool. At 12/31/2014, Fuel Company had $16,787,861 of borrowings outstanding and SCE&G had $80,000,000 invested in the SCANA Utility Money Pool.

In May 2014, SCE&G issued $300 million of 4.5% First Mortgage Bonds due June 1, 2064. Proceeds from this sale were used to repay short-term debt primarily incurred as a result of SCE&G's construction program, to finance capital expenditures, and for general corporate purposes.

Such long-term borrowings have been authorized by the SCPSC (Docket No. 2013-132-E).

For additional information, see Notes 4, 6 and 7 to the Financial Statements.

South Carolina Electric & Gas Company	(1) [X] An Original (2) [ ] A Resubmission	/ /	End of 2014/Q4

STATEMENT OF INCOME

Quarterly

1. Report in column (c) the current year to date balance. Column (c) equals the total of adding the data in column (g) plus the data in column (i) plus the data in column (k). Report in column (d) similar data for the previous year. This information is reported in the annual filing only.
2. Enter in column (e) the balance for the reporting quarter and in column (f) the balance for the same three month period for the prior year.
3. Report in column (g) the quarter to date amounts for electric utility function; in column (i) the quarter to date amounts for gas utility, and in column (k) the quarter to date amounts for other utility function for the current year quarter.
4. Report in column (h) the quarter to date amounts for electric utility function; in column (j) the quarter to date amounts for gas utility, and in column (l) the quarter to date amounts for other utility function for the prior year quarter.
5. If additional columns are needed, place them in a footnote.

Annual or Quarterly if applicable

5. Do not report fourth quarter data in columns (e) and (f)
6. Report amounts for accounts 412 and 413, Revenues and Expenses from Utility Plant Leased to Others, in another utility columnin a similar manner to a utility department. Spread the amount(s) over lines 2 thru 26 as appropriate. Include these amounts in columns (c) and (d) totals.
7. Report amounts in account 414, Other Utility Operating Income, in the same manner as accounts 412 and 413 above.

STATEMENT OF INCOME FOR THE YEAR (Continued)

9. Use page 122 for important notes regarding the statement of income for any account thereof.
10. Give concise explanations concerning unsettled rate proceedings where a contingency exists such that refunds of a material amount may need to be made to the utility's customers or which may result in material refund to the utility with respect to power or gas purchases. State for each year effected the gross revenues or costs to which the contingency relates and the tax effects together with an explanation of the major factors which affect the rights of the utility to retain such revenues or recover amounts paid with respect to power or gas purchases.
11 Give concise explanations concerning significant amounts of any refunds made or received during the year resulting from settlement of any rate proceeding affecting revenues received or costs incurred for power or gas purches, and a summary of the adjustments made to balance sheet, income, and expense accounts.
12. If any notes appearing in the report to stokholders are applicable to the Statement of Income, such notes may be included at page 122.
13. Enter on page 122 a concise explanation of only those changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionments from those used in the preceding year. Also, give the appropriate dollar effect of such changes.
14. Explain in a footnote if the previous year's/quarter's figures are different from that reported in prior reports.
15. If the columns are insufficient for reporting additional utility departments, supply the appropriate account titles report the information in a footnote to this schedule.

Schedule Page: 114 Line No.: 4 Column: j

Includes depreciation charges of $739,079, amortization charges of $245,551 and property taxes of $166,723 billed from SCANA Services.

Schedule Page: 114 Line No.: 39 Column: c

In SCPSC Docket No. 2013-382-E, the SCPSC authorized the Company to utilize gains from the settlement of existing interest rate derivatives for the benefit of its customers through offsetting fuel costs. Accordingly, in 2014 the Company recognized $46,436,829 of interest rate derivative settlement gains within Account 421-Miscellaneous Nonoperating Income with such gain recognition being fully offset by a downward adjustment in electric revenue to reduce the Company's undercollected fuel costs.

In addition, in SCPSC Docket No. 2014-44-E, the SCPSC authorized the Company to utilize interest rate derivative settlement gains to offset certain Lost Revenue amounts related to the Company's DSM Program for which recovery had been deferred. Accordingly, during 2014 the Company recognized $4,964,918 of interest rate derivative settlement gains within Account 421-Miscellaneous Nonoperating Income with such gain recognition being fully offset by a downward adjustment in electric revenue as a result of the Company writing off the related receivable.

The order also authorized the Company to utilize interest rate derivative settlement gains to stabilize the ongoing DSM Lost Revenues through May 2015. Accordingly, during 2014 the Company recognized $12,601,958 of interest rate derivative settlement gains within Account 421-Miscellaneous Nonoperating Income with such gain recognition being fully offset by a downward adjustment in electric revenue.

Schedule Page: 114 Line No.: 39 Column: d

In SCPSC Docket No. 2013-382-E, the SCPSC authorized the Company to utilize gains from the settlement of existing interest rate derivatives for the benefit of its customers through offsetting fuel costs. Accordingly, in 2013 the Company recognized $41,645,809 of interest rate derivative settlement gains within Account 421-Miscellaneous Nonoperating Income with such gain recognition being fully offset by a downward adjustment in electric revenue to reduce the Company's undercollected fuel costs.

In addition, in SCPSC Docket No. 2012-218-E, the SCPSC authorized the Company to utilize interest rate derivative settlement gains to offset certain undercollected amounts related to the termination of the Company's eWNA program. Accordingly, during 2013 the Company recognized $8,461,020 of interest rate derivative settlement gains within Account 421-Miscellaneous Nonoperating Income with such gain recognition being fully offset by a downward adjustment in electric revenue as a result of the Company writing off the related receivable.

Name of Respondent	This Report Is:	Date of Report (Mo, Da, Yr)	Year/Period of Report
South Carolina Electric & Gas Company	(1) [X] An Original (2) [ ] A Resubmission	/ /	End of 2014/Q4

STATEMENT OF RETAINED EARNINGS

1. Do not report Lines 49-53 on the quarterly version.
2. Report all changes in appropriated retained earnings, unappropriated retained earnings, year to date, and unappropriated undistributed subsidiary earnings for the year.
3. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433, 436 - 439 inclusive). Show the contra primary account affected in column (b)
4. State the purpose and amount of each reservation or appropriation of retained earnings.
5. List first account 439, Adjustments to Retained Earnings, reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit items in that order.
6. Show dividends for each class and series of capital stock.
7. Show separately the State and Federal income tax effect of items shown in account 439, Adjustments to Retained Earnings.
8. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservation or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.
9. If any notes appearing in the report to stockholders are applicable to this statement, include them on pages 122-123.

STATEMENTS OF ACCUMULATED COMPREHENSIVE INCOME, COMPREHENSIVE INCOME, AND HEDGING ACTIVITIES

1. Report in columns (b),(c),(d) and (e) the amounts of accumulated other comprehensive income items, on a net-of-tax basis, where appropriate.
2. Report in columns (f) and (g) the amounts of other categories of other cash flow hedges.
3. For each category of hedges that have been accounted for as "fair value hedges", report the accounts affected and the related amounts in a footnote.
4. Report data on a year-to-date basis.

Line No.	Item (a)	Unrealized Gains and Losses on Available-for-Sale Securities (b)	Minimum Pension Liability adjustment (net amount) (c)	Foreign Currency Hedges (d)	Other Adjustments (e)

NOTES TO FINANCIAL STATEMENTS

1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Cash Flows, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.
2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.
3. For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and plan of disposition contemplated, giving references to Cormmission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.
4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.
5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.
6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 114-121, such notes may be included herein.
7. For the 3Q disclosures, respondent must provide in the notes sufficient disclosures so as to make the interim information not misleading. Disclosures which would substantially duplicate the disclosures contained in the most recent FERC Annual Report may be omitted.
8. For the 3Q disclosures, the disclosures shall be provided where events subsequent to the end of the most recent year have occurred which have a material effect on the respondent. Respondent must include in the notes significant changes since the most recently completed year in such items as: accounting principles and practices; estimates inherent in the preparation of the financial statements; status of long-term contracts; capitalization including significant new borrowings or modifications of existing financing agreements; and changes resulting from business combinations or dispositions. However were material contingencies exist, the disclosure of such matters shall be provided even though a significant change since year end may not have occurred.
9. Finally, if the notes to the financial statements relating to the respondent appearing in the annual report to the stockholders are applicable and furnish the data required by the above instructions, such notes may be included herein.

PAGE 122 INTENTIONALLY LEFT BLANK
SEE PAGE 123 FOR REQUIRED INFORMATION.

NOTES TO FINANCIAL STATEMENTS

The basic financial statements shown on pages 110 through 122 are prepared in accordance with the accounting requirements of the Federal Energy Regulatory Commission (FERC) as set forth in its applicable Uniform System of Accounts and published accounting releases, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). The significant differences from the GAAP requirements are related to the classification of certain assets and liabilities to include the classification of the current portion of certain regulatory assets, the classification of the current portion of long term debt, the classification of certain deferred income taxes, the classification of certain cost of removal and the classification of plant to be retired. In addition, the accounts of South Carolina Generating Company, Inc. (GENCO) are not consolidated herein, whereas they are so consolidated for GAAP reporting purposes.

These notes are based on the notes contained in South Carolina Electric & Gas Company's (SCE&G) Annual Report on Form 10K filed with the Securities and Exchange Commission and reflect certain reclassifications from the Uniform System of Accounts presentation shown on pages 110 through 122.

Management has evaluated the impact of events occurring after December 31, 2014 up to February 27, 2015, the date that SCE&G's U.S. GAAP financial statements were issued and has updated such evaluation for disclosure purposes through April 17, 2015. These financial statements include all necessary adjustments and disclosures resulting from these evaluations.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Principles of Consolidation

South Carolina Electric & Gas Company (SCE&G), a public utility, is a South Carolina corporation organized in 1924 and a wholly-owned subsidiary of SCANA Corporation (SCANA), a South Carolina corporation. SCE&G engages predominantly in the generation and sale of electricity to wholesale and retail customers in South Carolina and in the purchase, sale and transportation of natural gas to retail customers in South Carolina.

SCE&G has determined that it has a controlling financial interest in South Carolina Fuel Company, Inc. (Fuel Company), and accordingly, the accompanying consolidated financial statements include the accounts of SCE&G and Fuel Company. The equity interests in Fuel Company are held solely by SCANA, SCE&G's parent.

Fuel Company acquires, owns and provides financing for SCE&G's nuclear fuel, certain fossil fuels and emission and other environmental allowances. See also Note 4.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Utility Plant

Utility plant is stated at original cost. The costs of additions, replacements and betterments to utility plant, including direct labor, material and indirect charges for engineering, supervision and Allowance for Funds Used During Construction (AFC), are added to utility plant accounts. The original cost of utility property retired or otherwise disposed of is removed from utility plant accounts and generally charged to accumulated depreciation. The costs of repairs and replacements of items of property determined to be less than a unit of property or that do not increase the asset's life or functionality are charged to expense.

AFC is a noncash item that reflects the period cost of capital devoted to plant under construction. This accounting practice results in the inclusion of, as a component of construction cost, the costs of debt and equity capital dedicated to construction investment. AFC is included in rate base investment and depreciated as a component of plant cost in establishing rates for utility services. SCE&G calculated AFC using average composite rates of 6.5% for 2014, 6.9% for 2013 and 6.3% for 2012. These rates do not exceed the maximum allowable rate as calculated under United States Federal Energy Regulatory Commission (FERC) Order No. 561. SCE&G capitalizes interest on nuclear fuel in process at the actual interest cost incurred.

SCE&G records provisions for depreciation and amortization using the straight-line method based on the estimated service lives of the various classes of property. The composite weighted average depreciation rates for utility plant assets were 2.85% in 2014, 2.96% in 2013 and 2.93% in 2012.

SCE&G records nuclear fuel amortization using the units-of-production method. Nuclear fuel amortization is included in "Fuel used in electric generation" and recovered through the fuel cost component of retail electric rates. Provisions for amortization of nuclear fuel include amounts necessary to satisfy obligations to the United States Department of Energy (DOE) under a contract for disposal of spent nuclear fuel.

Jointly Owned Utility Plant

SCE&G jointly owns and is the operator of V.C Summer Station Unit 1 (Summer Station). In addition, SCE&G will jointly own and will be the operator of the Nuclear Units 2 and 3 being designed and constructed at Summer Station (New Units). Each joint owner provides its own financing and shares the direct expenses and generation output in proportion to its ownership of a unit. SCE&G's share of the direct expenses is included in the corresponding operating expenses on its income statement.

As of December 31,	**2014**		**2013**	
	Unit 1	**New Units**	**Unit 1**	**New Units**
Percent owned	66.7%	55.0%	66.7%	55.0%
Plant in service	$ 1.2 billion	—	$ 1.1 billion	—
Accumulated depreciation	$578.3 million	—	$566.9 million	—
Construction work in progress	$199.3 million	$2.7 billion	$127.1 million	$2.3 billion

SCE&G, on behalf of itself and as agent for the South Carolina Public Service Authority (Santee Cooper), has contracted with a consortium consisting of Westinghouse Electric Company LLC and CB&I Stone and Webster, Inc., a subsidiary of Chicago Bridge & Iron Company N.V. (Consortium) for the design and construction of the New Units at the site of Summer Station. For a discussion of expected cash outlays and expected in-service dates for the New Units and a description of SCE&G's agreement to acquire an additional 5% ownership in the New Units, see Note 10.

Included within receivables on the balance sheet were amounts due to SCE&G from Santee Cooper for its share of direct expenses and construction costs for Summer Station Unit 1 and the New Units. These amounts totaled $88.9 million at December 31, 2014 and $75.6 million at December 31, 2013.

Plant to be Retired

SCE&G expects to retire three units that are or were coal-fired by 2020, subject to future developments in environmental regulations, among other matters. The net carrying value of these units is identified as Plant to be Retired, Net in the consolidated financial statements. SCE&G plans to request recovery of and a return on the net carrying value of these units in future rate proceedings in connection with their retirement, and expects that such deferred amounts will be recovered through rates. In the meantime, these units remain in rate base, and SCE&G depreciates them using composite straight-line rates approved by the Public Service Commission of South Carolina (SCPSC). The net carrying value of three previously retired units is recorded in regulatory assets within unrecovered plant (see Note 2).

Major Maintenance

Planned major maintenance costs related to certain fossil fuel turbine equipment and nuclear refueling outages are accrued to regulatory assets in periods other than when incurred in accordance with approval by the SCPSC for such accounting treatment and rate recovery of expenses accrued thereunder. The difference between such cumulative major maintenance costs and cumulative collections are classified as a regulatory asset or regulatory liability on the balance sheet (see Note 2). Other planned major maintenance is expensed when incurred.

Through 2017, SCE&G is authorized to collect $18.4 million annually through electric rates to offset certain turbine maintenance expenditures. For the years ended December 31, 2014 and 2013, SCE&G incurred $17.3 million and $18.1 million, respectively, for turbine maintenance.

Nuclear refueling outages are scheduled 18 months apart. SCE&G accrued $1.2 million per month from July 2011 through December 2012 for its portion of the outages in the fall of 2012. Total costs for the 2012 outage were $32.3 million, of which SCE&G was responsible for $21.5 million. In connection with the SCPSC's December 2012 approval of SCE&G's retail electric rates (see Note 2), effective January 1, 2013, SCE&G began to accrue $1.4 million per month for its portion of the nuclear refueling outages that are scheduled to occur from the spring of 2014 through the spring of 2020. Total costs for the 2014 outage were $43.7 million, of which SCE&G was responsible for $29.1 million.

Nuclear Decommissioning

Based on a decommissioning cost study, SCE&G’s two-thirds share of estimated site-specific nuclear decommissioning costs for Summer Station Unit 1, including the cost of decommissioning plant components both subject to and not subject to radioactive contamination, totals $696.8 million, stated in 2012 dollars. Santee Cooper is responsible for decommissioning costs related to its one-third ownership interest in Summer Station Unit 1. The cost estimate assumes that the site will be maintained over a period of approximately 60 years in such a manner as to allow for subsequent decontamination that would permit release for unrestricted use.

Under SCE&G’s method of funding decommissioning costs, amounts collected through rates ($3.2 million pre-tax in each of 2014, 2013 and 2012) are invested in insurance policies on the lives of certain SCE&G and affiliate personnel. SCE&G transfers to an external trust fund the amounts collected through electric rates, insurance proceeds and interest thereon, less expenses. The trusteed asset balance reflects the net cash surrender value of the insurance policies and cash held by the trust. Management intends for the fund, including earnings thereon, to provide for all eventual decommissioning expenditures for Summer Station Unit 1 on an after-tax basis.

Cash and Cash Equivalents

SCE&G considers temporary cash investments having original maturities of three months or less at time of purchase to be cash equivalents. These cash equivalents are generally in the form of commercial paper, certificates of deposit, repurchase agreements and treasury bills.

Accounts Receivable

Accounts receivable reflect amounts due from customers arising from the delivery of energy or related services and include revenues earned pursuant to revenue recognition practices described below. These receivables include both billed and unbilled amounts. Receivables are generally due within one month of receipt of invoices which are presented on a monthly cycle basis.

Inventory

Materials and supplies include the average cost of transmission, distribution, and generating plant materials. Materials are charged to inventory when purchased and then expensed or capitalized to plant, as appropriate, at weighted average cost when used. Fuel inventory includes the average cost of coal, natural gas and fuel oil. Fuel is charged to inventory when purchased and is expensed, at weighted average cost, as used and recovered through fuel cost recovery rates approved by the SCPSC. Emission allowances are included in inventory at average cost. Emission allowances are expensed at weighted average cost as used and recovered through fuel cost recovery rates approved by the SCPSC.

Income Taxes

SCE&G is included in the consolidated federal income tax return of SCANA. Under a joint consolidated income tax allocation agreement, each SCANA subsidiary's current and deferred tax expense is computed on a stand-alone basis. Deferred tax assets and liabilities are recorded for the tax effects of all significant temporary differences between the book basis and tax basis of assets and liabilities at currently enacted tax rates. Deferred tax assets and liabilities are adjusted for changes in such tax rates through charges or credits to regulatory assets or liabilities if they are expected to be recovered from, or passed through to, customers; otherwise, they are charged or credited to income tax expense. Also under provisions of the income tax allocation agreement, certain tax benefits of the parent holding company are distributed in cash to tax paying affiliates, including SCE&G, in the form of capital contributions.

Regulatory Assets and Regulatory Liabilities

SCE&G records costs that have been or are expected to be allowed in the ratemaking process in a period different from the period in which the costs would be charged to expense or revenues would be recognized by a nonregulated enterprise. These regulatory assets and liabilities represent expenses deferred for future recovery from customers or obligations to be refunded to customers and are primarily classified in the balance sheet as regulatory assets and regulatory liabilities (see Note 2) and are amortized consistent with the treatment of the related costs in the ratemaking process.

Debt Premium, Discount and Expense, Unamortized Loss on Reacquired Debt

SCE&G records long-term debt premium and discount within long-term debt and amortizes them as components of interest charges over the terms of the respective debt issues. Other issuance expense and gains or losses on reacquired debt that is refinanced are recorded in other deferred debits or credits and are amortized over the term of the replacement debt, also as interest charges.

Environmental

SCE&G maintains an environmental assessment program to identify and evaluate current and former operations sites that could require environmental clean-up. As site assessments are initiated, estimates are made of the amount of expenditures, if any, deemed necessary to investigate and remediate each site. Environmental remediation liabilities are accrued when the criteria for loss contingencies are met. These estimates are refined as additional information becomes available; therefore, actual expenditures could differ significantly from the original estimates. Probable and estimable costs are accrued related to environmental sites on an undiscounted basis. Amounts estimated and accrued to date for site assessments and clean-up relate solely to regulated operations. Amounts expected to be recovered through rates are recorded in regulatory assets and, if applicable, amortized over approved amortization periods. Other environmental costs are expensed as incurred.

Income Statement Presentation

SCE&G presents the revenues and expenses of its regulated activities (including those activities of segments described in Note 12) within operating income, and it presents all other activities within other income (expense).

Revenue Recognition

SCE&G records revenues during the accounting period in which it provides services to customers and includes estimated amounts for electricity and natural gas delivered but not billed. Unbilled revenues totaled $115.8 million at December 31, 2014 and $111.9 million at December 31, 2013.

Fuel costs, emission allowances and certain environmental reagent costs for electric generation are collected through the fuel cost component in retail electric rates. This component is established by the SCPSC during fuel cost hearings. Any difference between actual fuel costs and amounts contained in the fuel cost component is adjusted through revenue and is deferred and included when determining the fuel cost component during subsequent hearings.

Customers subject to the Purchased Gas Adjustment (PGA) are billed based on a cost of gas factor calculated in accordance with a gas cost recovery procedure approved by the SCPSC and subject to adjustment monthly. Any difference between actual gas costs and amounts contained in rates is adjusted through revenue and is deferred and included when making the next adjustment to the cost of gas factor.

SCE&G’s gas rate schedules for residential, small commercial and small industrial customers include a Weather Normalization Adjustment (WNA) which minimizes fluctuations in gas revenues due to abnormal weather conditions. In August 2010, SCE&G implemented a pilot electric WNA (eWNA) for its electric customers; effective with the first billing cycle of 2014, the eWNA was discontinued as approved by the SCPSC. See Note 2.

Taxes that are billed to and collected from customers are recorded as liabilities until they are remitted to the respective taxing authority. Such taxes are not included in revenues or expenses in the statements of income.

New Accounting Matters

In April 2014, the Financial Accounting Standards Board (FASB) issued new accounting guidance for reporting discontinued operations and disclosures of disposals of components of an entity. Under this new guidance, only those discontinued operations which represent a strategic shift that will have a major effect on an entity's operations and financial results should be reported as discontinued operations in the financial statements. As permitted, SCE&G adopted this new guidance for the period ended December 31, 2014.

In May 2014, the FASB issued new accounting guidance for revenue arising from contracts with customers that supersedes most current revenue recognition guidance, including industry-specific guidance. This new revenue recognition model provides a five-step analysis in determining when and how revenue is recognized, and will require revenue recognition to depict the transfer of promised goods or services to customers in an amount that reflects the consideration a company expects to receive in exchange for those goods or services. Currently, SCE&G would be required to adopt the new guidance in the first quarter of 2017, and early adoption would not be permitted. However, the FASB may defer the adoption of this guidance for one year. SCE&G has not determined the impact this guidance will have on its results of operations, cash flows or financial position.

Cost of Removal

In 2013, certain cost of removal related to assets with an associated Asset Retirement Obligation, was reclassified from accumulated provision for depreciation to other regulatory liabilities. Beginning in 2014, all cost of removal components are reflected in accumulated provision for depreciation. See supporting schedules on pages 219 and 278 for roll forward activity.

2. RATE AND OTHER REGULATORY MATTERS

Electric - Cost of Fuel

SCE&G's retail electric rates include a cost of fuel component approved by the SCPSC which may be adjusted periodically to reflect changes in the price of fuel purchased. In connection with its annual review of base rates for fuel costs, and by order dated April 30, 2013, the SCPSC approved a settlement agreement among SCE&G, the South Carolina Office of Regulatory Staff (ORS), and the South Carolina Energy Users Committee (SCEUC) in which SCE&G agreed to reduce its environmental fuel cost component effective with the first billing cycle of May 2013. The order also provided for the accrual of certain debt-related carrying costs on a portion of SCE&G's under-collected balance of base fuel costs, and approved SCE&G's total fuel cost component.

Pursuant to a November 2013 SCPSC accounting order, SCE&G's electric revenue for 2013 was reduced for adjustments to the fuel cost component and related under-collected fuel balance of $41.6 million. Such adjustments are fully offset by the recognition within other income, also pursuant to that accounting order, of gains realized upon the settlement of certain interest rate derivatives which had been entered into in anticipation of the issuance of long-term debt, which gains had been deferred as a regulatory liability. See also Note 6.

By order dated April 29, 2014, the SCPSC approved a settlement agreement among SCE&G, the ORS, and the SCEUC in which SCE&G agreed to increase its base fuel cost component by approximately $10.3 million for the 12-month period beginning with the first billing cycle of May 2014. The base fuel cost increase was offset by a reduction in SCE&G's rate rider related to pension costs, which was approved by the SCPSC in March 2014. In addition, pursuant to the April 29, 2014 order, SCE&G's electric revenue for 2014 was reduced by approximately $46 million for adjustments to the fuel cost component and related under-collected fuel balance. Such adjustments are fully offset by the recognition within other income of gains realized from the late

2013 settlement of certain interest rate derivatives which had been entered into in anticipation of the issuance of long-term debt, which gains had been deferred as a regulatory liability. The order also provided for the accrual of certain debt-related carrying costs on its under-collected balance of base fuel costs during the period May 1, 2014 through April 30, 2015. See also Note 6.

The cost of fuel includes amounts paid by SCE&G pursuant to the Nuclear Waste Policy Act of 1982 (Nuclear Waste Act) for the disposal of spent nuclear fuel. As a result of a November 2013 decision by the United States Court of Appeals for the District of Columbia (Court of Appeals), the DOE set the Nuclear Waste Act fee to zero effective May 16, 2014. The SCPSC will consider the impact of this action in future cost of fuel rate proceedings.

In October 2014, the SCPSC initiated its 2015 annual review of base rates for fuel costs. In connection with its January 2015 Demand Side Management Programs (DSM Programs) filing (see Electric-Base Rates herein), SCE&G notified the SCPSC that it anticipated proposing an adjustment to its cost of fuel that, if approved, will result in an overall decrease to its base fuel costs beginning with the first billing cycle of May 2015. A public hearing for the annual fuel review was held on April 9, 2015.

Electric - Base Rates

In October 2013, SCE&G received an accounting order from the SCPSC directing it to remove from rate base deferred income tax assets arising from capital expenditures related to the New Units and to accrue carrying costs (recorded as a regulatory asset) on those amounts during periods in which they are not included in rate base. Such carrying costs are determined at SCE&G’s weighted average long-term borrowing rate, and $5.8 million and $2.9 million of such carrying costs were accrued within other income during 2014 and 2013, respectively. SCE&G anticipates that when the New Units are placed in service and accelerated tax deprecation is recognized on them, these deferred income tax assets will decline. When these assets are fully offset by related deferred income tax liabilities, the carrying cost accruals will cease, and the regulatory asset will begin to be amortized.

In December 2012, the SCPSC approved a 4.23% overall increase in SCE&G's retail electric base rates, effective January 1, 2013, and authorized an allowed return on common equity of 10.25%. The SCPSC also approved a mid-period reduction to the cost of fuel component in rates, a reduction in the DSM Programs component rider to retail rates, and the recovery of and a return on the net carrying value of certain retired generating plant assets described below. In February 2013, the SCPSC denied the SCEUC's petition for rehearing and the denial was not appealed.

Prior to 2014, certain of SCE&G's electric rates included an adjustment for eWNA. The eWNA was designed to mitigate the effects of abnormal weather on residential and commercial customers' bills. On November 26, 2013, SCE&G, ORS and certain other parties filed a joint petition with the SCPSC requesting, among other things, that the SCPSC discontinue the eWNA effective with bills rendered on or after the first billing cycle of January 2014. On December 20, 2013, the SCPSC granted the relief requested in the joint petition. In connection with the termination of the eWNA effective December 31, 2013, and pursuant to an SCPSC order, electric revenues were reduced to reverse the prior accrual of an under-collected balance of $8.5 million. This revenue reduction was fully offset by the recognition within other income of $8.5 million of gains realized upon the settlement of certain interest rate derivatives, which gains had been deferred as a regulatory liability.

SCE&G files an Integrated Resource Plan (IRP) with the SCPSC annually which evaluates future electric generation needs based on a variety of factors, including customer energy demands, United States Environmental Protection Agency (EPA) regulations, reserve margins and fuel costs. SCE&G previously identified six coal-fired units that it has subsequently retired or intends to retire by 2020, subject to future developments in environmental regulations, among other matters. Three of these units had been retired by December 31, 2013, and their net carrying value is recorded in regulatory assets as unrecovered plant and is being amortized over the units' previously estimated remaining useful lives as approved by the SCPSC. The net carrying value of the remaining units is included in Plant to be Retired, Net. In connection with their retirement, SCE&G expects to be allowed a recovery of and a return on the net carrying value of these remaining units through rates. In the meantime, these units remain in rate base, and SCE&G continues to depreciate them using composite straight-line rates approved by the SCPSC.

SCE&G's DSM Programs for electric customers provide for an annual rider, approved by the SCPSC, to allow recovery of the costs and net lost revenues associated with the DSM Programs, along with an incentive for investing in such programs. SCE&G submits annual filings regarding the DSM Programs, net lost revenues, program costs, incentives and net program benefits. The SCPSC approved recovery of the following amounts pursuant to annual DSM Programs filings, which went into effect as indicated below:

Year	Effective	Amount
2014	First billing cycle of May	$15.4 million
2013	First billing cycle of May	$16.9 million
2012	First billing cycle of May	$19.6 million

Other activity related to SCE&G's DSM Programs is as follows:

- In May 2013, the SCPSC ordered the deferral of one-half of the net lost revenues and provided for their recovery over a 12-month period beginning with the first billing cycle in May 2014.

- In April 2014, the SCPSC approved SCE&G's request to (1) recover one-half of the balance of allowable costs beginning with bills rendered on and after the first billing cycle of May 2014 and to recover the remaining balance of allowable costs beginning with bills rendered on and after the first billing cycle of May 2015, (2) utilize approximately $17.8 million of gains from the late 2013 settlement of certain interest rate derivative instruments, previously deferred as regulatory liabilities, to offset a portion of the net lost revenues component of SCE&G's DSM Program rider, and (3) apply $5.0 million of its storm damage reserve and $5.0 million of the gains from the settlement of certain interest rate derivative instruments to the remaining balance of deferred net lost revenues as of April 30, 2014, which had been deferred within regulatory assets resulting from the May 2013 order previously described.

- In addition, in April 2014 the SCPSC, upon recommendation of the ORS, reduced by 25%, or $6.6 million, the amount of net lost revenues SCE&G expects to experience over the 12-month period beginning with the first billing cycle of May 2014, and ordered that the $6.6 million be applied to decrease the amount of program costs deferred for recovery. Actual net lost revenues not collected in the current DSM Programs rate rider are subject to true up in the following program year.

- In January 2015, SCE&G submitted its annual DSM Programs filing to the SCPSC. If approved, the filing would, among other things, allow recovery of $33.0 million of costs and net lost revenues associated with the DSM Programs, along with an incentive to invest in such programs.

<u>Electric – Base Load Review Act (BLRA)</u>

In November 2012, the SCPSC approved an updated milestone schedule and additional updated capital costs for the New Units. In addition, the SCPSC approved revised substantial completion dates for the New Units based on the March 30, 2012 issuance of the Combined Construction and Operating License (COL) and the amounts agreed upon by SCE&G and the Consortium in July 2012 to resolve known claims by the Consortium for costs related to COL delays, design modifications of the shield building and certain pre-fabricated structural modules for the New Units and unanticipated rock conditions at the site. In December 2012, the SCPSC denied separate petitions filed by two parties requesting reconsideration of its order. On October 22, 2014, the South Carolina Supreme Court affirmed the SCPSC's order on appeal.

Under the BLRA, SCE&G is allowed to file revised rates with the SCPSC each year to incorporate the financing cost of any incremental construction work in progress incurred for new nuclear generation. Requested rate adjustments are based on SCE&G's updated cost of debt and capital structure and on an allowed return on common equity of 11.0%. The SCPSC has approved recovery of the following amounts under the BLRA effective for bills rendered on and after October 30 in the following years:

Year	Increase	Amount
2014	2.8%	$66.2 million
2013	2.9%	$67.2 million
2012	2.3%	$52.1 million

Gas

The Natural Gas Rate Stabilization Act (RSA) is designed to reduce the volatility of costs charged to customers by allowing for more timely recovery of the costs that regulated utilities incur related to natural gas infrastructure. The SCPSC has approved the following rate changes pursuant to annual RSA filings effective with the first billing cycle of November in the following years:

Year	Action	Amount
2014	0.6% Decrease	$ 2.6 million
2013	No change	
2012	2.1% Increase	$ 7.5 million

SCE&G's natural gas tariffs include a Purchased Gas Adjustment (PGA) that provides for the recovery of actual gas costs incurred, including transportation costs. SCE&G's gas rates are calculated using a methodology which may adjust the cost of gas monthly based on a 12-month rolling average, and its gas purchasing policies and practices are reviewed annually by the SCPSC. The annual reviews conducted for each of the 12-month periods ended July 31, 2014 and 2013 resulted in the SCPSC issuing an order finding that SCE&G's gas purchasing policies and practices during each review period were reasonable and prudent.

Regulatory Assets and Regulatory Liabilities

SCE&G has significant cost-based, rate-regulated operations and recognizes in its financial statements certain revenues and expenses in different time periods than do enterprises that are not rate-regulated. As a result, SCE&G has recorded regulatory assets and regulatory liabilities, which are summarized in the following tables. Other than unrecovered plant, substantially all regulatory assets are either explicitly excluded from rate base or are effectively excluded from rate base due to their being offset by related liabilities.

	December 31,	
Millions of dollars	**2014**	**2013**
Regulatory Assets:		
Accumulated deferred income taxes	$ 261	$ 239
Under-collections-electric fuel adjustment clause	20	18
Environmental remediation costs	36	37
AROs and related funding	333	337
Franchise agreements	26	31
Deferred employee benefit plan costs	309	214
Planned major maintenance	2	—
Deferred losses on interest rate derivatives	445	124
Deferred pollution control costs	36	37
Unrecovered plant	137	145
DSM Programs	56	51
Other	44	39
Total Regulatory Assets	$ 1,705	$ 1,272
Regulatory Liabilities:		
Accumulated deferred income taxes	$ 15	$ 17
Asset removal costs	476	463
Storm damage reserve	6	27
Deferred gains on interest rate derivatives	82	181
Planned major maintenance	—	10
Total Regulatory Liabilities	$ 579	$ 698

Accumulated deferred income tax liabilities that arose from utility operations that have not been included in customer rates are recorded as a regulatory asset. Substantially all of these regulatory assets relate to depreciation and are expected to be recovered over the remaining lives of the related property which may range up to approximately 70 years. Similarly, accumulated deferred income tax assets arising from deferred investment tax credits are recorded as a regulatory liability.

Under-collections - electric fuel adjustment clause represent amounts due from customers pursuant to the fuel adjustment clause as approved by the SCPSC which are expected to be recovered in retail electric rates over periods exceeding 12 months.

Environmental remediation costs represent costs associated with the assessment and clean-up of sites currently or formerly owned by SCE&G and are expected to be recovered over periods of up to approximately 25 years.

Asset Retirement Obligation (ARO) and related funding represents the regulatory asset associated with the legal obligation to decommission and dismantle Summer Station and conditional AROs related to generation, transmission and distribution properties, including gas pipelines. These regulatory assets are expected to be recovered over the related property lives and periods of decommissioning which may range up to approximately 90 years.

Franchise agreements represent costs associated with electric and gas franchise agreements with the cities of Charleston and Columbia, South Carolina. Based on an SCPSC order, SCE&G is recovering these amounts through cost of service rates through 2020.

Employee benefit plan costs of the regulated utilities have historically been recovered as they have been recorded under generally accepted accounting principles. Deferred employee benefit plan costs represent pension and other postretirement benefit costs which were accrued as liabilities and treated as regulatory assets pursuant to FERC guidance, and costs deferred pursuant to specific SCPSC regulatory orders. Accordingly, in 2013 SCE&G began recovering through utility rates approximately $63 million of deferred pension costs for electric operations over approximately 30 years and approximately $14 million of deferred pension costs for gas operations over approximately 14 years. The remainder of the deferred benefit costs are expected to be recovered through utility rates, primarily over average service periods of participating employees, or up to approximately 12 years.

Planned major maintenance related to certain fossil-fueled turbine/generation equipment and nuclear refueling outages is accrued in periods other than when incurred, as approved pursuant to specific SCPSC orders. SCE&G collects and accrues $18.4 million annually for fossil-fueled turbine/generation equipment maintenance, and collects and accrues $17.2 million annually for nuclear-related refueling charges.

Deferred losses or gains on interest rate derivatives represent (i) the effective portions of changes in fair value and payments made or received upon settlement of certain interest rate derivatives designated as cash flow hedges and (ii) the changes in fair value and payments made or received upon settlement of certain other interest rate derivatives not so designated. The amounts recorded with respect to (i) are expected to be amortized to interest expense over the lives of the underlying debt through 2038. The amounts recorded with respect to (ii) are expected to be similarly amortized to interest expense over periods up to approximately 50 years except when, in the case of deferred gains, such amounts are applied otherwise at the direction of the SCPSC. Also, in 2014, as discussed above at Rate Matters - Electric - Cost of Fuel and Rate Matters - Electric - Base Rates, certain of these deferred amounts were applied to offset under-collected fuel balances and unrecorded net lost revenues related to DSM Programs.

Deferred pollution control costs represent deferred depreciation and operating and maintenance costs associated with the scrubbers installed at certain coal-fired generating plants pursuant to specific regulatory orders. Such costs are being recovered through utility rates through 2045.

Unrecovered plant represents the carrying value of coal-fired generating units, including related materials and supplies inventory, retired from service prior to being fully depreciated. Pursuant to SCPSC approval, SCE&G is amortizing these amounts through cost of service rates over the units' previous estimated remaining useful lives through 2025. Unamortized amounts are included in rate base and are earning a current return.

DSM Programs represent deferred costs associated with such programs. As a result of an April 2014 SCPSC order, deferred costs are currently being recovered over approximately ten years through an approved rate rider. See Rate Matters - Electric - Base Rates above for details regarding the 2014 filing with the SCPSC regarding recovery of these deferred costs.

Various other regulatory assets are expected to be recovered in rates over periods of up to approximately 30 years.

Asset removal costs represent estimated net collections through depreciation rates of amounts to be incurred for the non-legal obligation to remove assets in the future.

The storm damage reserve represents an SCPSC-approved collection through SCE&G electric rates, capped at $100 million, which can be applied to offset incremental storm damage costs in excess of $2.5 million in a calendar year. Pursuant to specific regulatory orders, SCE&G has suspended storm damage reserve collection through rates indefinitely. In 2014, $16.8 million of the reserve was applied to offset incremental storm damage costs. Also, as discussed above at Rate Matters - Electric - Base Rates, in April 2014 $5.0 million of the reserve was applied to offset unrecovered net lost revenues related to DSM Programs.

The SCPSC or the FERC has reviewed and approved through specific orders most of the items shown as regulatory assets. Other regulatory assets include, but are not limited to, certain costs which have not been specifically approved for recovery by the SCPSC or by the FERC. In recording such costs as regulatory assets, management believes the costs will be allowable under existing rate-making concepts that are embodied in rate orders received by SCE&G. The costs are currently not being recovered, but are expected to be recovered through rates in future periods. In the future, as a result of deregulation or other changes in the regulatory environment or changes in accounting requirements, SCE&G could be required to write off its regulatory assets and liabilities. Such an event could have a material effect on SCE&G's results of operations, liquidity or financial position in the period the write-off would be recorded.

3. EQUITY

Authorized shares of SCE&G common stock were 50 million as of December 31, 2014 and 2013. Authorized shares of SCE&G preferred stock were 20 million, of which 1,000 shares, no par value, were held by SCANA as of December 31, 2014 and 2013.

SCE&G’s articles of incorporation do not limit the dividends that may be paid on its common stock. However, SCE&G’s bond indenture contains provisions that, under certain circumstances, which SCE&G considers to be remote, could limit the payment of cash dividends on its common stock.

The Federal Power Act requires the appropriation of a portion of certain earnings from hydroelectric projects. At December 31, 2014 and 2013, retained earnings of approximately $67.7 million and $63.1 million, respectively, were restricted by this requirement as to payment of cash dividends on common stock.

4. LONG-TERM AND SHORT-TERM DEBT

Long-term debt by type with related weighted average effective interest rates and maturities at December 31 is as follows:

		2014		2013	
Dollars in millions	**Maturity**	**Balance**	**Rate**	**Balance**	**Rate**
First Mortgage Bonds (secured)	2018 - 2064	$ 3,840	5.56%	$ 3,540	5.60%
Industrial and Pollution Control Bonds (a)	2028 - 2038	89	3.42%	89	3.42%
Nuclear Fuel Financing	2016	100	0.78%	100	0.78%
Other	2015 - 2027	14	2.63%	15	2.26%
Total debt		4,043		3,744	
Current maturities of long-term debt		(3)		(5)	
Unamortized premium		5		8	
Total long-term debt, net		$ 4,045		$ 3,747	

(a) Includes variable rate debt of $34.6 million at December 31, 2014 (rate of 0.04%) and 2013 (rate of 0.11%), which are hedged by fixed swaps.

The annual amounts of long-term debt maturities for the next five years are summarized as follows:

Year	**Millions of dollars**
2015	$ 3
2016	103
2017	2
2018	552
2019	1

Substantially all of SCE&G’s electric utility plant is pledged as collateral in connection with long-term debt.

SCE&G is subject to a bond indenture dated April 1, 1993 (Mortgage) covering substantially all of its electric properties under which all of its first mortgage bonds (Bonds) have been issued. Bonds may be issued under the Mortgage in an aggregate principal amount not exceeding the sum of (1) 70% of Unfunded Net Property Additions (as therein defined), (2) the aggregate principal amount of retired Bonds and (3) cash deposited with the trustee. Bonds, other than certain Bonds issued on the basis of retired Bonds, may be issued under the Mortgage only if Adjusted Net Earnings (as therein defined) for 12 consecutive months out of the 18 months immediately preceding the month of issuance are at least twice (2.0) the annual interest requirements on all outstanding Bonds and Bonds to be outstanding (Bond Ratio). For the year ended December 31, 2014, the Bond Ratio was 5.41.

Lines of Credit and Short-Term Borrowings

At December 31, 2014 and 2013, SCE&G (including Fuel Company) had available the following committed Lines of Credit (LOC) and had outstanding the following LOC-related obligations and commercial paper borrowings:

Millions of dollars	**2014**	**2013**
Lines of credit:		
Total committed long-term	$ 1,400	$ 1,400
Outstanding commercial paper (270 or fewer days)	$ 709	$ 251
Weighted average interest rate	0.52%	0.27%
Letters of credit supported by an LOC	$ 0.3	$ 0.3
Available	$ 691	$ 1,149

SCE&G and Fuel Company are parties to five-year credit agreements in the amount of $1.2 billion (of which $500 million relates to Fuel Company). In addition, SCE&G is party to a three-year credit agreement in the amount of $200 million. In October 2014, the term of the five-year agreements was extended by one year, such that they expire in October 2019. The three-year agreement expires in October 2016. These credit agreements are used for general corporate purposes, including liquidity support for each company's commercial paper program and working capital needs and, in the case of Fuel Company, to finance or refinance the purchase of nuclear fuel, certain fossil fuels, and emission and other environmental allowances. These committed long-term facilities are revolving lines of credit under credit agreements with a syndicate of banks. Wells Fargo Bank, National Association, Bank of America, N. A. and Morgan Stanley Bank, N.A. each provide 10.7% of the aggregate $1.4 billion credit facilities, JPMorgan Chase Bank, N.A., Mizuho Corporate Bank, Ltd., TD Bank N.A., Credit Suisse AG, Cayman Islands Branch and UBS Loan Finance LLC each provide 8.9% and Branch Banking and Trust Company, Union Bank, N.A. and U.S. Bank National Association each provide 6.3%. Two other banks provide the remaining support. SCE&G pays fees to the banks as compensation for maintaining the committed lines of credit. Such fees were not material in any period presented.

SCE&G is obligated with respect to an aggregate of $34.6 million of industrial revenue bonds which are secured by letters of credit issued by TD Bank N.A. These letters of credit expire, subject to renewal, in the fourth quarter of 2019.

SCE&G participates in a utility money pool with SCANA and certain other subsidiaries of SCANA. Money pool borrowings and investments bear interest at short-term market rates. SCE&G's interest income and expense from money pool transactions were not significant for any period presented. At December 31, 2014 SCE&G had outstanding money pool borrowings due to an affiliate of $17 million and money pool investments due from an affiliate of $80 million. At December 31, 2013 SCE&G had no outstanding money pool borrowings due to an affiliate. On the consolidated balance sheets, amounts due from an affiliate are included within Receivables-affiliated companies, and amounts due to an affiliate are included within Affiliated payables.

5. INCOME TAXES

Components of income tax expense are as follows:

Millions of dollars	2014	2013	2012
Current taxes:			
Federal	$ 39	$ 145	$ 88
State	(7)	15	11
Total current taxes	32	160	99
Deferred taxes, net:			
Federal	151	20	60
State	32	6	8
Total deferred taxes	183	26	68
Investment tax credits:			
Amortization of amounts deferred—state	(1)	(1)	(14)
Amortization of amounts deferred—federal	(3)	(2)	(2)
Total investment tax credits	(4)	(3)	(16)
Total income tax expense	$ 211	$ 183	$ 151

The difference between actual income tax expense and the amount calculated from the application of the statutory 35% federal income tax rate to pre-tax income is reconciled as follows:

Millions of dollars	2014	2013	2012
Net income	$ 446	$ 380	$ 341
Income tax expense	211	183	151
Total pre-tax income	$ 657	$ 563	$ 492
Income taxes on above at statutory federal income tax rate	$ 230	$ 197	$ 172
Increases (decreases) attributed to:			
State income taxes (less federal income tax effect)	20	17	16
State investment tax credits (less federal income tax effect)	(5)	(5)	(13)
Allowance for equity funds used during construction	(10)	(9)	(7)
Amortization of federal investment tax credits	(2)	(2)	(2)
Section 41 tax credits	(3)	—	—
Section 45 tax credits	(9)	(5)	(5)
Domestic production activities deduction	(7)	(11)	(9)
Other differences, net	(3)	1	(1)
Total income tax expense	$ 211	$ 183	$ 151

The tax effects of significant temporary differences comprising SCE&G's net deferred tax liability are as follows:

Millions of dollars	2014	2013
Deferred tax assets:		
Nondeductible accruals	$ 46	$ 16
Asset retirement obligation-,including nuclear decommissioning	199	204
Unamortized investment tax credits	16	18
Regulatory liability, net gain on interest rate derivative contracts settlement	—	27
Other	7	11
Total deferred tax assets	268	276
Deferred tax liabilities:		
Property, plant and equipment	$ 1,529	$ 1,406
Regulatory asset - asset retirement obligation	109	109
Deferred employee benefit plan costs	90	54
Deferred fuel costs	28	26
Regulatory asset- unrecovered plant	52	55
Regulatory asset- net loss on interest rate derivative contracts settlement	21	—
Demand side management costs	21	21
Prepayments	25	23
Other	24	17
Total deferred tax liabilities	1,899	1,711
Net deferred tax liability	$ 1,631	$ 1,435

SCE&G is included in the consolidated federal income tax return of SCANA and files various applicable state and local income tax returns. The United States Internal Revenue Service (IRS) has completed examinations of SCANA's federal returns through 2004, and SCANA's federal returns through 2007 are closed for additional assessment. The IRS is currently examining SCANA's open federal returns through 2012. With few exceptions, SCE&G is no longer subject to state and local income tax examinations by tax authorities for years before 2010.

Changes to Unrecognized Tax Benefits

Millions of dollars	2014	2013	2012
Unrecognized tax benefits, January 1	$ 3	—	$ 35
Gross increases-uncertain tax positions in prior period	—	—	—
Gross decreases-uncertain tax positions in prior period	—	—	(35)
Gross increases-current period uncertain tax positions	13	$ 3	—
Settlements	—	—	—
Lapse of statute of limitations	—	—	—
Unrecognized tax benefits, December 31	$16	$ 3	$ —

In connection with the change in method of tax accounting for certain repair costs in prior years, the Company had previously recorded an unrecognized tax benefit. During the first quarter of 2012, the publication of new administrative guidance from the IRS allowed SCE&G to recognize this benefit. Since this change was primarily a temporary difference, the recognition of this benefit did not have a significant effect on the SCE&G's effective tax rate.

During 2013 and 2014, SCE&G amended certain of its tax returns to claim certain tax-defined research and development deductions and credits. In connection with these filings, SCE&G recorded an unrecognized tax benefit of $16 million. If recognized, $13 million of the tax benefit would affect SCE&G's effective tax rate. It is reasonably possible that this tax benefit will increase by an additional $2 million within the next 12 months. It is also reasonably possible that this tax benefit may decrease by $7 million within the next 12 months. No other material changes in the status of the SCE&G's tax positions have occurred through December 31, 2014.

As of December 31, 2014, accounts receivable related to taxes are primarily due to the late 2014 extension of the 50% bonus depreciation deduction.

SCE&G recognizes interest accrued related to unrecognized tax benefits within interest expense and recognizes tax penalties within other expenses. In connection with the resolution of the uncertainty and recognition of the tax benefit in 2012, during 2012 SCE&G reversed $2 million of interest expense which had been accrued during 2011. SCE&G has not recorded interest expense or penalties associated with uncertain tax positions in 2013 or 2014.

6. DERIVATIVE FINANCIAL INSTRUMENTS

SCE&G recognizes all derivative instruments as either assets or liabilities in its statements of financial position and measures those instruments at fair value. SCE&G recognizes changes in the fair value of derivative instruments either in earnings or within regulatory assets or regulatory liabilities, depending upon the intended use of the derivative and the resulting designation.

Policies and procedures and risk limits are established to control the level of market, credit, liquidity and operational and administrative risks assumed by SCE&G. SCANA's Board of Directors has delegated to a Risk Management Committee the authority to set risk limits, establish policies and procedures for risk management and measurement, and oversee and review the risk management process and infrastructure for SCANA and each of its subsidiaries, including SCE&G. The Risk Management Committee, which is comprised of certain officers, including SCE&G's Risk Management Officer and senior officers, apprises the Audit Committee of the Board of Directors with regard to the management of risk and brings to their attention significant areas of concern. Written policies define the physical and financial transactions that are approved, as well as the authorization requirements and limits for transactions.

Interest Rate Swaps

SCE&G synthetically converts variable rate debt to fixed rate debt using swaps that are designated as cash flow hedges. Periodic payments to or receipts from swap counterparties related to these derivatives are recorded within interest expense.

In anticipation of the issuance of debt, SCE&G may use treasury rate lock or forward starting swap agreements. Pursuant to regulatory orders issued in 2013, interest derivatives entered into by SCE&G after October 2013 are not designated as cash flow hedges and fair value changes and settlement amounts are recorded as regulatory assets and liabilities. Settlement losses on swaps will be amortized over the lives of subsequent debt issuances and gains may be applied to under-collected fuel, may be amortized to interest expense or may be applied as otherwise directed by the SCPSC. As discussed in Note 2, the SCPSC directed SCE&G to recognize $41.6 million and $8.5 million of realized gains (which had been deferred in regulatory liabilities) within other income, fully offsetting revenue reductions related to under-collected fuel balances and under-collected amounts arising under the eWNA program which was terminated at the end of 2013. As also discussed in Note 2, pursuant to regulatory orders issued in 2014, the SCPSC directed SCE&G to apply $46 million of these deferred gains to reduce under-collected fuel balances in April 2014. The

SCPSC also approved SCE&G's request to utilize approximately $17.8 million of these gains to offset a portion of the net lost revenues component of SCE&G's DSM Program rider and apply $5.0 million of the gains to the remaining balance of deferred net lost revenues as of April 30, 2014, which had been deferred within regulatory assets.

Cash payments made or received upon settlement of these financial instruments are classified as investing activities for cash flow statement purposes.

Quantitative Disclosures Related to Derivatives

SCE&G was party to interest rate swaps not designated as cash flow hedges with an aggregate notional amount of $1.1 billion and $1.3 billion at December 31, 2014 and 2013, respectively.

The fair value of derivatives in the consolidated balance sheets is as follows:

Fair Values of Derivative Instruments	**Asset Derivatives**		**Liability Derivatives**	
Millions of dollars	**Balance Sheet Location**	**Fair Value**	**Balance Sheet Location**	**Fair Value**
As of December 31, 2014				
Not designated as hedging instruments				
Interest rate contracts			Derivative financial instruments	$ 207
			Other deferred credits and other liabilities	17
Total				$ 224
As of December 31, 2013				
Not designated as hedging instruments				
Interest rate contracts	Other current assets	$ 13	Derivative financial instruments	$ —
	Other deferred debits and other assets	19		
Total		$ 32		$ —

The effect of derivative instruments on the consolidated statements of income is as follows:

Derivatives in Cash Flow Hedging Relationships	**Gain (Loss) Deferred in Regulatory Accounts (Effective Portion)**	**Gain (Loss) Reclassified from Deferred Accounts into Income (Effective Portion)**	
Millions of dollars		**Location**	**Amount**
Year Ended December 31, 2014			
Interest rate contracts	$ —	Interest expense	$ (1)
Year Ended December 31, 2013			
Interest rate contracts	$ 100	Interest expense	$ (2)
Year Ended December 31, 2012			
Interest rate contracts	$ 85	Interest expense	$ (2)

As of December 31, 2014, SCE&G expects that during the next twelve months reclassifications from regulatory accounts to earnings arising from cash flow hedges designated as hedging instruments will include approximately $1.2 million as an increase to interest expense assuming financial markets remain at their current levels.

Hedge Ineffectiveness

Other gains (losses) recognized in income representing ineffectiveness on interest rate hedges designated as cash flow hedges were insignificant for all periods presented.

Derivatives Not Designated as Hedging Instruments	**Loss Recognized in Income**	**Year Ended December 31,**		
Millions of dollars	**Location**	**2014**	**2013**	**2012**
Commodity contracts	Gas purchased for resale	—	—	$ (1)

	Gain or (Loss) Deferred in Regulatory Accounts	**Gain Reclassified from Deferred Accounts into Income**	
Millions of dollars		**Location**	**Amount**
Year Ended December 31, 2014			
Interest rate contracts	$ (352)	Other income	$ 64
Year Ended December 31, 2013			
Interest rate contracts	$ 39	Other income	$ 50
Year Ended December 31, 2012			
Interest rate contracts	—	Other income	—

The gains reclassified to other income offset revenue reductions as previously described herein and in Note 2.

As of December 31, 2014, SCE&G expects that during the next twelve months reclassifications from regulatory accounts to earnings arising from interest rate swaps not designated as cash flow hedges will include approximately $5.2 million as an increase to other income.

Credit Risk Considerations

SCE&G limits credit risk in its derivatives activities by assessing the creditworthiness of potential counterparties before entering into transactions with them and continuing to evaluate their creditworthiness on an ongoing basis. In this regard, SCE&G uses credit ratings provided by credit rating agencies and current market-based qualitative and quantitative data, as well as financial statements, to assess the financial health of counterparties on an ongoing basis. SCE&G uses standardized master agreements which generally include collateral requirements. These master agreements permit the netting of cash flows associated with a single counterparty. Cash, letters of credit and parental/affiliate guarantees may be obtained as security from counterparties in order to mitigate credit risk. The collateral agreements require a counterparty to post cash or letters of credit in the event an exposure exceeds the established threshold. The threshold represents an unsecured credit limit which may be supported by a parental/affiliate guaranty, as determined in accordance with SCE&G's credit policies and due diligence. In addition, collateral agreements allow for the termination and liquidation of all positions in the event of a failure or inability to post collateral.

Certain of SCE&G's derivative instruments contain contingent provisions that require SCE&G to provide collateral upon the occurrence of specific events, primarily credit rating downgrades. As of December 31, 2014 and 2013, SCE&G had posted $107.1 million and $-, respectively, of collateral related to derivatives with contingent provisions that were in a net liability position. Collateral related to the positions expected to close in the next 12 months are recorded in Other Current Assets on the consolidated balance sheets. Collateral related to the noncurrent positions is recorded in Other within Deferred Debits and Other Assets on the consolidated balance sheets. If all of the contingent features underlying these instruments had been fully triggered as of December 31, 2014 and 2013, SCE&G would have been required to post an additional $125.9 million and $- million, respectively, of collateral to its counterparties. The aggregate fair value of all derivative instruments with contingent provisions that are in a net liability position as of December 31, 2014 and 2013, are $233.0 million and $-, respectively.

In addition, as of December 31, 2014 and December 31, 2013, SCE&G has collected no cash collateral related to interest rate derivatives with contingent provisions that are in a net asset position. If all the contingent features underlying these instruments had been fully triggered as of December 31, 2014 and December 31, 2013, SCE&G could request $- million and $31.7 million, respectively, of cash collateral from its counterparties. The aggregate fair value of all derivative instruments with contingent provisions that are in a net asset position as of December 31, 2014 and December 31, 2013 is $- million and $31.7 million, respectively.

Information related to SCE&G's offsetting derivative assets and liabilities follows:

Offsetting Derivative Assets

Millions of dollars	Gross Amounts of Recognized Assets	Gross Amounts Offset in the Statement of Financial Position	Net Amounts Presented in the Statement of Financial Position	Gross Amounts Not Offset in the Statement of Financial Position: Financial Instruments	Gross Amounts Not Offset in the Statement of Financial Position: Cash Collateral Received	Net Amount
As of December 31, 2014						
Interest rate	—	—	—	—	—	—
As of December 31, 2013						
Interest rate	$ 32	—	$ 32	$ (1)	—	$ 31
Balance sheet location	Other current assets		$ 13			
	Other deferred debits and other assets		19			
	Total		$ 32			

Offsetting Derivative Liabilities

Millions of dollars	Gross Amounts of Recognized Liabilities	Gross Amounts Offset in the Statement of Financial Position	Net Amounts Presented in the Statement of Financial Position	Gross Amounts Not Offset in the Statement of Financial Position: Financial Instruments	Gross Amounts Not Offset in the Statement of Financial Position: Cash Collateral Posted	Net Amount
As of December 31, 2014						
Interest rate	$ 224	—	$ 224	—	$ (98)	$ 126

7. FAIR VALUE MEASUREMENTS, INCLUDING DERIVATIVES

SCE&G's interest rate swap agreements are valued using discounted cash flow models with independently sourced data. Fair value Level 2 measurements were as follows:

Millions of dollars	As of December 31, 2014 Level 2	As of December 31, 2013 Level 2
Assets-Interest rate contracts	—	$ 32
Liabilities-Interest rate contracts	$ 224	—

There were no Level 1 or Level 3 fair value measurements for either period presented and there were no transfers of fair value amounts into or out of Levels 1, 2 or 3 during the periods presented.

Financial instruments for which the carrying amount may not equal estimated fair value at December 31, 2014 and December 31, 2013 were as follows:

	As of December 31, 2014		As of December 31, 2013	
Millions of dollars	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Long-term debt	$ 4,048.6	$ 4,776.6	$ 3,752.3	$ 4,088.0

Fair values of long-term debt instruments are based on net present value calculations using independently sourced market data that incorporate a developed discount rate using similarly rated long-term debt, along with benchmark interest rates. As such, the aggregate fair values presented above are considered to be Level 2. Early settlement of long-term debt may not be possible or may not be considered prudent.

Carrying values of short-term borrowings approximate their fair values, which are based on quoted prices from dealers in the commercial paper market. These fair values are considered to be Level 2.

8. EMPLOYEE BENEFIT PLANS AND EQUITY COMPENSATION PLAN

Pension and Other Postretirement Benefit Plans

SCE&G participates in SCANA's noncontributory defined benefit pension plan, which covers substantially all regular, full-time employees hired before January 1, 2014. Benefits are no longer offered to employees hired or rehired after December 31, 2013, and pension benefits for existing participants will no longer accrue for services performed or compensation earned after December 31, 2023. SCANA's policy has been to fund the plan as permitted by applicable federal income tax regulations, as determined by an independent actuary.

SCANA's pension plan provides benefits under a cash balance formula for employees hired before January 1, 2000 who elected that option and for all eligible employees hired subsequently. Under the cash balance formula, benefits accumulate as a result of compensation credits and interest credits. Employees hired before January 1, 2000 who elected to remain under the final average pay formula earn benefits based on years of credited service and the employee's average annual base earnings received during the last three years of employment. Benefits under the cash balance formula and the final average pay formula will continue to accrue through December 31, 2023, after which date no benefits will be accrued except that participants under the cash balance formula will continue to earn interest credits.

In addition to pension benefits, SCE&G participates in SCANA's unfunded postretirement health care and life insurance programs which provide benefits to certain active and retired employees. Retirees hired before January 1, 2011 share in a portion of their medical care cost. Employees hired after December 31, 2010 are responsible for the full costs of retiree medical benefits elected by them. The costs of postretirement benefits other than pensions are accrued during the years the employees render the services necessary to be eligible for these benefits.

The same benefit formula applies to all SCANA subsidiaries participating in the parent sponsored plans and, with regard to the pension plan, there are no legally separate asset pools. The postretirement benefit plans are accounted for as multiple employer plans. The information presented below reflects SCE&G's portion of the obligations, assets, funded status, net periodic benefit costs, and other information reported for the parent sponsored plans as a whole. The tabular data presented reflects the use of various cost assignment methodologies and participation assumptions based on SCE&G's past and current employees and its share of plan assets.

Changes in Benefit Obligations

The measurement date used to determine pension and other postretirement benefit obligations is December 31. Data related to the changes in the projected benefit obligation for pension benefits and the accumulated benefit obligation for other postretirement benefits are presented below.

	Pension Benefits		**Other Postretirement Benefits**	
Millions of dollars	**2014**	**2013**	**2014**	**2013**
Benefit obligation, January 1	$ 695.7	$ 788.4	$ 181.2	$ 204.8
Service cost	16.0	17.6	3.6	4.5
Interest cost	34.1	32.6	9.2	8.5
Plan participants' contributions	—	—	1.7	2.0
Actuarial (gain) loss	82.7	(70.7)	18.2	(26.8)
Benefits paid	(54.8)	(50.6)	(9.4)	(9.1)
Curtailment	—	(21.6)	—	—
Amounts funded to parent	—	—	(1.3)	(2.7)
Benefit obligation, December 31	$ 773.7	$ 695.7	$ 203.2	$ 181.2

The accumulated benefit obligation for pension benefits was $747.6 million at the end of 2014 and $673.2 million at the end of 2013. The accumulated pension benefit obligation differs from the projected pension benefit obligation above in that it reflects no assumptions about future compensation levels.

Significant assumptions used to determine the above benefit obligations are as follows:

	Pension Benefits		**Other Postretirement Benefits**	
	2014	**2013**	**2014**	**2013**
Annual discount rate used to determine benefit obligation	4.20%	5.03%	4.30%	5.19%
Assumed annual rate of future salary increases for projected benefit obligation	3.00%	3.00%	3.00%	3.75%

A 7.0% annual rate of increase in the per capita cost of covered health care benefits was assumed for 2014. The rate was assumed to decrease gradually to 5.0% for 2020 and to remain at that level thereafter.

A one percent increase in the assumed health care cost trend rate would increase the postretirement benefit obligation by $0.9

million at December 31, 2014 and by $1.0 million at December 31, 2013. A one percent decrease in the assumed health care cost trend rate would decrease the postretirement benefit obligation by $0.8 million at December 31, 2014 and by $0.9 million at December 31, 2013.

Funded Status

Millions of Dollars	**Pension Benefits**		**Other Postretirement Benefits**	
December 31,	**2014**	**2013**	**2014**	**2013**
Fair value of plan assets	$ 783.6	$ 792.1	—	—
Benefit obligation	773.7	695.7	$ 203.2	$ 181.2
Funded status	$ 9.9	$ 96.4	$ (203.2)	$ (181.2)

Amounts recognized on the consolidated balance sheets were as follows:

Millions of Dollars	**Pension Benefits**		**Other Postretirement Benefits**	
December 31,	**2014**	**2013**	**2014**	**2013**
Current liability	—	—	$ (8.5)	$ (7.8)
Noncurrent asset	$ 9.9	$ 96.4	—	—
Noncurrent liability	—	—	(195.7)	(173.4)

Amounts recognized in accumulated other comprehensive loss (a component of common equity) as of December 31, 2014 and 2013 were as follows:

Millions of Dollars	**Pension Benefits**		**Other Postretirement Benefits**	
December 31,	**2014**	**2013**	**2014**	**2013**
Net actuarial loss	$ 1.9	$ 1.8	$ 1.0	$ 0.6
Prior service cost	0.1	0.2	—	—
Total	$ 2.0	$ 2.0	$ 1.0	$ 0.6

Amounts recognized in regulatory assets as of December 31, 2014 and 2013 were as follows:

Millions of Dollars	**Pension Benefits**		**Other Postretirement Benefits**	
December 31,	**2014**	**2013**	**2014**	**2013**
Net actuarial loss	$ 191.9	$ 107.7	$ 35.0	$ 19.5
Prior service cost	8.3	11.1	0.5	0.7
Total	$ 200.2	$ 118.8	$ 35.5	$ 20.2

In connection with the joint ownership of Summer Station, as of December 31, 2014 and 2013, SCE&G recorded within deferred debits $17.8 million and $14.1 million, respectively, attributable to Santee Cooper's portion of shared pension costs. As of December 31, 2014 and 2013, SCE&G also recorded within deferred debits $15.1 million and $12.6 million, respectively, from Santee Cooper, representing its portion of the unfunded postretirement benefit obligation.

Changes in Fair Value of Plan Assets

Millions of dollars	Pension Benefits 2014	2013
Fair value of plan assets, January 1	$792.1	$ 732.0
Actual return on plan assets	46.3	110.7
Benefits paid	(54.8)	(50.6)
Fair value of plan assets, December 31	$783.6	$ 792.1

Investment Policies and Strategies

The assets of the pension plan are invested in accordance with the objectives of (1) fully funding the obligations of the pension plan, (2) overseeing the plan's investments in an asset-liability framework that considers the funding surplus (or deficit) between assets and liabilities, and overall risk associated with assets as compared to liabilities, and (3) maintaining sufficient liquidity to meet benefit payment obligations on a timely basis. The pension plan is closed to new entrants effective January 1, 2014, and benefit accruals will cease effective January 1, 2024. In addition, during 2013, SCANA adopted a dynamic investment strategy for the management of the pension plan assets. The strategy will lead to a reduction in equities and an increase in long duration fixed income allocations over time with the intention of reducing volatility of funded status and pension costs in connection with the amendments to the plan.

The pension plan operates with several risk and control procedures, including ongoing reviews of liabilities, investment objectives, levels of diversification, investment managers and performance expectations. The total portfolio is constructed and maintained to provide prudent diversification with regard to the concentration of holdings in individual issues, corporations, or industries.

Transactions involving certain types of investments are prohibited. These include, except where utilized by a hedge fund manager, any form of private equity; commodities or commodity contracts (except for unleveraged stock or bond index futures and currency futures and options); ownership of real estate in any form other than publicly traded securities; short sales, warrants or margin transactions, or any leveraged investments; and natural resource properties. Investments made for the purpose of engaging in speculative trading are also prohibited.

The pension plan asset allocation at December 31, 2014 and 2013 and the target allocation for 2015 are as follows:

	Percentage of Plan Assets		
	Target Allocation	At December 31,	
Asset Category	2015	2014	2013
Equity Securities	58%	57%	59%
Fixed Income	33%	34%	32%
Hedge Funds	9%	9%	9%

For 2015, the expected long-term rate of return on assets will be 7.50%. In developing the expected long-term rate of return assumptions, management evaluates the pension plan's historical cumulative actual returns over several periods, considers the expected active returns across various asset classes and assumes an asset allocation of 58% with equity managers, 33% with fixed income managers and 9% with hedge fund managers. Management regularly reviews such allocations and periodically rebalances the portfolio when considered appropriate. Additional rebalancing may occur subject to funded status improvements as part of the dynamic investment strategy adopted for 2013.

Fair Value Measurements

Assets held by the pension plan are measured at fair value as described below. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. At December 31, 2014 and 2013, fair value measurements, and the level within the fair value hierarchy in which the measurements fall, were as follows:

	Fair Value Measurements at Reporting Date Using						
Millions of dollars	**Total**	**Level 2**	**Level 3**	**Total**	**Level 1**	**Level 2**	**Level 3**
	December 31, 2014			*December 31, 2013*			
Common stock	—	—	—	$302	$302	—	—
Preferred stock	—	—	—	1	1	—	—
Mutual funds	$566	$566	—	278	18	$260	—
Short-term investment vehicles	18	18	—	18	—	18	—
US Treasury securities	6	6	—	30	—	30	—
Corporate debt securities	78	78	—	48	—	48	—
Loans secured by mortgages	—	—	—	11	—	11	—
Municipals	14	14	—	3	—	3	—
Limited partnerships	29	29	—	32	1	31	—
Multi-strategy hedge funds	73	—	$73	69	—	—	$69
	$784	$711	$73	$ 792	$322	$401	$69

At December 31, 2014, assets with fair value measurements classified as Level 1 were insignificant. There were no transfers of fair value amounts into or out of Levels 1, 2 or 3 during 2014 or 2013.

The pension plan values common stock, preferred stock and certain mutual funds, where applicable, using unadjusted quoted prices from a national stock exchange, such as The New York Stock Exchange and The NASDAQ Stock Market, Inc., where the securities are actively traded. Other mutual funds, common collective trusts and limited partnerships are valued using the observable prices of the underlying fund assets based on trade data for identical or similar securities or from a national stock exchange for similar assets or broker quotes. Short-term investment vehicles are funds that invest in short-term fixed income instruments and are valued using observable prices of the underlying fund assets based on trade data for identical or similar securities. Government agency securities are valued using quoted market prices or based on models using observable inputs from market sources such as external prices or spreads or benchmarked thereto. Corporate debt securities and municipals are valued based on recently executed transactions, using quoted market prices, or based on models using observable inputs from market sources such as external prices or spreads or benchmarked thereto. Loans secured by mortgages are valued using observable prices based on trade data for identical or comparable instruments. Hedge funds represent investments in a hedge fund of funds partnership that invests directly in multiple hedge fund strategies that are not traded on exchanges and do not trade on a daily basis. The fair value of this multi-strategy hedge fund is estimated based on the net asset value of the underlying hedge fund strategies using consistent valuation guidelines that account for variations that may impact their fair value. The estimated fair value is the price at which redemptions and subscriptions occur.

Millions of dollars	Fair Value Measurements Level 3	
	2014	2013
Beginning Balance	$ 69	$ 64
Unrealized gains included in changes in net assets	4	5
Purchases, issuances, and settlements	—	—
Ending Balance	$ 73	$ 69

Expected Cash Flows

The total benefits expected to be paid from the pension plan or from SCE&G's assets for the other postretirement benefits plan (net of participant contributions), respectively, are as follows:

Expected Benefit Payments

Millions of dollars	Pension Benefits	Other Postretirement Benefits
2015	$ 63.4	$ 8.9
2016	64.5	9.6
2017	65.6	10.2
2018	66.1	10.7
2019	65.1	11.3
2020 - 2024	338.4	63.3

Pension Plan Contributions

The pension trust is adequately funded under current regulations. No contributions have been required since 1997, and as a result of closing the plan to new entrants and freezing benefit accruals in the future, SCE&G does not anticipate making significant contributions to the pension plan for the foreseeable future.

Net Periodic Benefit Cost

SCE&G records net periodic benefit cost utilizing beginning of the year assumptions. Disclosures required for these plans are set forth in the following tables.

Components of Net Periodic Benefit Cost

	Pension Benefits			Other Postretirement Benefits		
Millions of dollars	**2014**	**2013**	**2012**	**2014**	**2013**	**2012**
Service cost	$ 16.0	$ 17.6	$ 15.7	$ 3.6	$ 4.5	$ 3.7
Interest cost	34.1	32.6	36.4	9.2	8.5	9.1
Expected return on assets	(56.3)	(51.9)	(50.4)	n/a	n/a	n/a
Prior service cost amortization	3.5	5.0	6.0	0.3	0.6	0.7
Amortization of actuarial losses	4.0	14.3	15.6	—	2.6	1.1
Transition obligation amortization	—	—	—	—	—	(0.1)
Curtailment	—	8.4	—	—	—	—
Net periodic benefit cost	$ 1.3	$ 26.0	$ 23.3	$ 13.1	$ 16.2	$ 14.5

In connection with regulatory orders, in 2013 SCE&G began recovering current pension expense through a rate rider that may be adjusted annually (for retail electric operations) or through cost of service rates (for gas operations). SCE&G is amortizing previously deferred pension costs as further described in Note 2.

Other changes in plan assets and benefit obligations recognized in other comprehensive income (OCI), net of tax, were as follows:

	Pension Benefits			Other Postretirement Benefits		
Millions of dollars	**2014**	**2013**	**2012**	**2014**	**2013**	**2012**
Current year actuarial (gain) loss	$ 0.2	$ (0.8)	$ 0.4	$ 0.4	$ (0.4)	$ 0.7
Amortization of actuarial losses	(0.1)	(0.1)	(0.1)	—	(0.1)	—
Amortization of prior service cost	(0.1)	—	(0.1)	—	—	(0.1)
Total recognized in OCI	$ —	$ (0.9)	$ 0.2	$ 0.4	$ (0.5)	$ 0.6

Other changes in plan assets and benefit obligations recognized in regulatory assets were as follows:

	Pension Benefits			Other Postretirement Benefits		
Millions of dollars	**2014**	**2013**	**2012**	**2014**	**2013**	**2012**
Current year actuarial (gain) loss	$ 87.7	$ (137.1)	$ 37.9	$ 15.5	$ (23.9)	$ 25.1
Amortization of actuarial losses	(3.5)	(12.7)	(14.0)	—	(2.2)	(1.0)
Amortization of prior service cost	(2.8)	(4.5)	(5.7)	(0.2)	(0.5)	(0.6)
Prior service cost (credit)	—	(7.7)	—	—	—	—
Amortization of transition obligation	—	—	—	—	(0.1)	(0.2)
Total recognized in regulatory assets	$ 81.4	$ (162.0)	$ 18.2	$ 15.3	$ (26.7)	$ 23.3

Significant Assumptions Used in Determining Net Periodic Benefit Cost

	Pension Benefits			Other Postretirement Benefits		
	2014	**2013**	**2012**	**2014**	**2013**	**2012**
Discount rate	5.03%	4.10%/5.07%	5.25%	5.19%	4.19%	5.35%
Expected return on plan assets	8.00%	8.00%	8.25%	n/a	n/a	n/a
Rate of compensation increase	3.00%	3.75%/3.00%	4.00%	3.75%	3.75%	4.00%
Health care cost trend rate	n/a	n/a	n/a	7.40%	7.80%	8.20%
Ultimate health care cost trend rate	n/a	n/a	n/a	5.00%	5.00%	5.00%
Year achieved	n/a	n/a	n/a	2020	2020	2020

Net periodic benefit cost for the period through September 1, 2013, was determined using a 4.10% discount rate, and net periodic benefit cost after that date was determined using a 5.07% discount rate. Similarly, estimated rates of compensation increase were changed in connection with the September 1, 2013 remeasurement.

The actuarial loss and prior service cost to be amortized from accumulated other comprehensive loss into net periodic benefit cost in 2015 are insignificant.

The estimated amounts to be amortized from regulatory assets into net periodic benefit cost in 2015 are as follows:

Millions of Dollars	**Pension Benefits**	**Other Postretirement Benefits**
Actuarial loss	$ 10.6	$ 1.5
Prior service cost	3.1	0.2
Total	$ 13.7	$ 1.7

Other postretirement benefit costs are subject to annual per capita limits pursuant to the plan's design. As a result, the effect of a one-percent increase or decrease in the assumed health care cost trend rate on total service and interest cost is not significant.

Stock Purchase Savings Plan

SCE&G participates in a SCANA-sponsored defined contribution plan in which eligible employees may defer up to 75% of eligible earnings subject to certain limits and may diversify their investments. Employee deferrals are fully vested and nonforfeitable at all times. SCE&G provides 100% matching contributions up to 6% of an employee’s eligible earnings. Total matching contributions made to the plan were $20.7 million in 2014, $18.7 million in 2013 and $17.7 million in 2012 and were made in the form of SCANA common stock.

9. SHARE-BASED COMPENSATION

SCE&G participates in the SCANA Long-Term Equity Compensation Plan (LTECP) which provides for grants of nonqualified and incentive stock options, stock appreciation rights, restricted stock, performance shares, performance units and restricted stock units to certain key employees and non-employee directors. The LTECP currently authorizes the issuance of up to five million shares of SCANA’s common stock, no more than one million of which may be granted in the form of restricted stock.

Compensation cost is measured based on the grant-date fair value of the instruments issued and is recognized over the period that an employee provides service in exchange for the award. Share-based payment awards do not have non-forfeitable rights to dividends or dividend equivalents. To the extent that the awards themselves do not vest, dividends or dividend equivalents which would have been paid on those awards do not vest.

Liability Awards

The 2012-2014, 2013-2015, and 2014-2016 performance cycles provide for performance measurement and award determination on an annual basis, with payment of awards being deferred until after the end of the three-year performance cycle. In each performance cycle, 20% of the performance award was granted in the form of restricted share units, which are liability awards payable in cash and are subject to forfeiture in the event of termination of employment prior to the end of the cycle, subject to exceptions for retirement, death, disability or change in control. The remaining 80% of the award was granted in performance shares, which are subject to forfeiture in the event of termination of employment prior to the end of the cycle, subject to exceptions for retirement, death or disability. Each performance share has a value that is equal to, and changes with, the value of a share of SCANA common stock. Dividend equivalents are accrued on the performance shares and the restricted share units. Payouts of performance share awards are determined by SCANA's performance against pre-determined measures of total shareholder return as compared to a peer group of utilities (weighted 50%) and growth in "GAAP-adjusted net earnings per share from operations" (weighted 50%).

Compensation cost of liability awards is recognized over their respective three-year performance periods based on the estimated fair value of the award, which is periodically updated based on expected ultimate cash payout, and is reduced by estimated forfeitures. Awards under the 2012-2014 performance cycle were paid in cash at SCANA's discretion in February 2015. Cash-settled liabilities related to the performance cycles were paid totaling approximately $1.9 million in 2014, $3.2 million in 2013 and $8.7 million in 2012.

Fair value adjustments for performance awards resulted in compensation expense recognized in the statements of income totaling approximately $12.6 million in 2014, $5.5 million in 2013 and $9.5 million in 2012. Fair value adjustments resulted in capitalized compensation costs of $0.6 million in 2014, $0.5 million in 2013 and $2.1 million in 2012.

10. COMMITMENTS AND CONTINGENCIES

Nuclear Insurance

Under the Price-Anderson Indemnification Act (Price-Anderson), SCE&G (for itself and on behalf of Santee-Cooper, a one-third owner of Summer Station Unit 1) maintains agreements of indemnity with the United States Nuclear Regulatory Commission (NRC) that, together with private insurance, cover third-party liability arising from any nuclear incident occurring at the company's nuclear power plant. Price-Anderson provides funds up to $13.6 billion for public liability claims that could arise from a single nuclear incident. Each nuclear plant is insured against this liability to a maximum of $375 million by American Nuclear Insurers with the remaining coverage provided by a mandatory program of deferred premiums that could be assessed, after a nuclear incident, against all owners of commercial nuclear reactors. Each reactor licensee is currently liable for up to $127.3 million per reactor owned for each nuclear incident occurring at any reactor in the United States, provided that not more than $18.9 million of the liability per reactor would be assessed per year. SCE&G's maximum assessment, based on its two-thirds ownership of Summer Station Unit 1, would be $84.8 million per incident, but not more than $12.6 million per year. Both the maximum assessment per reactor and the maximum yearly assessment are adjusted for inflation at least every five years.

SCE&G currently maintains insurance policies (for itself and on behalf of Santee Cooper) with Nuclear Electric Insurance Limited (NEIL). The policies provide coverage to Summer Station Unit 1 for property damage and outage costs up to $2.75 billion resulting from an event of nuclear origin. In addition, a builder's risk insurance policy has been purchased from NEIL for the construction of the New Units. This policy provides the owners of the New Units up to $500 million in limits of accidental property damage occurring during construction. The NEIL policies, in the aggregate, are subject to a maximum loss of $2.75 billion for any single loss occurrence. All of the NEIL policies permit retrospective assessments under certain conditions to cover insurer's losses. Based on the current annual premiums, SCE&G's portion of the retrospective premium assessment would not exceed $43.5 million.

To the extent that insurable claims for property damage, decontamination, repair and replacement and other costs and expenses arising from a nuclear incident at Summer Station Unit 1 exceed the policy limits of insurance, or to the extent such insurance becomes unavailable in the future, and to the extent that SCE&G rates would not recover the cost of any purchased replacement power, SCE&G will retain the risk of loss as a self-insurer. SCE&G has no reason to anticipate a serious nuclear incident. However, if such an incident were to occur, it likely would have a material impact on SCE&G's results of operations, cash flows and financial position.

New Nuclear Construction

In 2008, SCE&G, on behalf of itself and as agent for Santee Cooper, contracted with the Consortium for the design and construction of the New Units at the site of Summer Station.

SCE&G's current ownership share in the New Units is 55%. As discussed below, under an agreement signed in January 2014 (and subject to customary closing conditions, including necessary regulatory approvals), SCE&G has agreed to acquire an additional 5% ownership in the New Units from Santee Cooper.

EPC Contract and BLRA Matters

The construction of the New Units and SCE&G's related recovery of financing costs through rates is subject to review and approval by the SCPSC as provided for in the BLRA. Under the BLRA, the SCPSC has approved, among other things, a milestone schedule and a capital costs estimates schedule for the New Units. This approval constitutes a final and binding determination that the New Units are used and useful for utility purposes, and that the capital costs associated with the New Units are prudent utility costs and expenses and are properly included in rates, so long as the New Units are constructed or are being constructed within the parameters of the approved milestone schedule, including specified contingencies, and the approved capital costs estimates schedule. Subject to the same conditions, the BLRA provides that SCE&G may apply to the SCPSC annually for an order to recover through revised rates SCE&G's weighted average cost of capital applied to all or part of the outstanding balance of construction work in progress concerning the New Units. Such annual rate changes are described in Note 2. As of December 31, 2014, SCE&G's investment in the New Units totaled $2.7 billion, for which the financing costs on $2.425 billion have been reflected in rates under the BLRA.

The SCPSC granted initial approval of the construction schedule, including 146 milestones within that schedule, and related forecasted capital costs in 2009. The NRC issued COLs in March 2012. In November 2012, the SCPSC approved an updated milestone schedule and additional updated capital costs for the New Units. In addition, the SCPSC approved revised substantial completion dates for the New Units based on that March 2012 issuance of the COL and the amounts agreed upon by SCE&G and the Consortium in July 2012 to resolve known claims by the Consortium for costs related to COL delays, design modifications of the shield building and certain prefabricated structural modules for the New Units and unanticipated rock conditions at the site. In December 2012, the SCPSC denied separate petitions filed by two parties requesting reconsideration of its order. On October 22, 2014, the South Carolina Supreme Court affirmed the SCPSC's order on appeal.

The substantial completion dates currently approved by the SCPSC for Units 2 and 3 are March 15, 2017 and May 15, 2018. The SCPSC also approved an 18-month contingency period beyond each of these dates, and for each of the 146 milestones in the schedule.

Since the settlement of delay-related claims in 2012, the Consortium has continued to experience delays in the schedule for fabrication and delivery of sub-modules for the New Units. The fabrication and delivery of sub-modules have been and remain focus areas of the Consortium, including sub-modules for module CA20, which is part of the auxiliary building, and CA01, which houses components inside the containment vessel. Modules CA20 and CA01, as well as shield building modules, are considered critical path items for both New Units. CA20 was placed on the nuclear island of Unit 2 in May 2014. The delivery schedule of sub-modules for CA01 is expected to support completion of on-site fabrication to allow it to be ready for placement on the nuclear island of Unit 2 during the first half of 2015.

During the fourth quarter of 2013, the Consortium began a full re-baselining of the Unit 2 and Unit 3 construction schedules to incorporate a more detailed evaluation of the engineering and procurement activities necessary to accomplish the schedules and to provide a detailed reassessment of the impact of the revised Unit 2 and Unit 3 schedules on engineering and design resource allocations, procurement, construction work crew efficiencies, and other items. The intended result will be a revised fully integrated project schedule with timing of specific construction activities along with detailed information on budget, cost and cash flow requirements. While this detailed re-baselining of construction schedules has not been completed, in August 2014, SCE&G received preliminary information in which the Consortium has indicated that the substantial completion of Unit 2 was expected to occur in late 2018 or the first half of 2019 and that the substantial completion of Unit 3 may be approximately 12 months later.

During the third quarter of 2014, the Consortium also provided preliminary cost estimates for Units 2 and 3, principally related to delays for non-firm and non-fixed scopes of work to achieve a late 2018 substantial completion date for Unit 2 and a substantial completion date for Unit 3 approximately 12 months later. SCE&G's 55% portion of this preliminary estimate is approximately $660 million, excluding any owner's cost amounts associated with the delays, which could be $10 million per month for delays beyond the current SCPSC-approved substantial completion dates. This figure is presented in 2007 dollars and would be subject to escalation, which could be material. Further, this figure does not reflect consideration of the liquidated damages provisions of the Engineering, Procurement and Construction Agreement dated May 23, 2008 (EPC Contract) which would partly mitigate any such delay-related costs. The Consortium's preliminary schedule and the cost estimate information have not been accepted by SCE&G and are under review, and SCE&G cannot predict when a revised schedule and cost estimate will be resolved with the Consortium.

Since receiving the August 2014 preliminary information, SCE&G has worked with Consortium executive management to evaluate this information. Based upon this evaluation, the Consortium now indicates that the substantial completion date of Unit 2 is expected to occur by June 2019 and that the substantial completion date of Unit 3 may be approximately 12 months later. SCE&G has not, however, accepted the Consortium's contention that the new substantial completion dates are made necessary by delays that are excusable under the EPC Contract. SCE&G is continuing discussions with Consortium executive management in order to identify potential mitigation strategies to possibly accelerate the substantial completion date of Unit 2 to a time earlier in the first half of 2019 or to the end of 2018, with Unit 3 following approximately 12 months later.

As discussed above, the milestone schedule approved by the SCPSC in November 2012 provides for 146 milestone dates, each of which is subject to an 18-month schedule contingency. As of December 31, 2014, 101 milestones have been completed. Three of the remaining milestones have not been or will not be completed within their 18-month contingency periods, and it is anticipated that the completion dates for a number of the other remaining milestone dates will also extend beyond their contingency periods. Further, capital costs (in 2007 dollars) and gross construction cost estimates (including escalation and AFC) are now projected to exceed amounts currently approved by the SCPSC of $4.548 billion and $5.755 billion, respectively. As such, on March 12, 2015 SCE&G, as provided for under the BLRA, petitioned the SCPSC for an order to update the BLRA milestone schedule based on revised substantial completion dates for Units 2 and 3 of June 2019 and June 2020, respectively. In addition, that petition included certain updated owner's costs and other capital costs, including amounts within the Consortium's preliminary cost estimate which may be the subject of dispute. As such, the petition did not reflect the resolution of the above described negotiations. The petition included incremental capital costs that total $698 million (SCE&G's portion in 2007 dollars). The total project capital cost is now estimated at approximately $5.2 billion (SCE&G's portion in 2007 dollars) or $6.8 billion including escalation and allowance for funds used during construction (SCE&G's portion in future dollars). The BLRA provides that the SCPSC shall grant the petition for modification if the record justifies a finding that the change is not the result of imprudence by SCE&G. A hearing before the SCPSC has been scheduled for July 21, 2015 with an order due by September 12, 2015.

Additional claims by the Consortium or SCE&G involving the project schedule and budget may arise as the project continues. The parties to the EPC Contract have established both informal and formal dispute resolution procedures in order to resolve such issues. SCE&G expects to resolve all disputes (including any ultimate disagreements involving the preliminary cost estimates provided by the Consortium in the third quarter of 2014) through both the informal and formal procedures and anticipates that any costs that arise through such dispute resolution processes, as well as other costs identified from time to time, will be recoverable through rates.

Santee Cooper Matters

As noted above, SCE&G has agreed to acquire an additional 5% ownership in the New Units from Santee Cooper. Under the terms of this agreement, SCE&G will acquire a 1% ownership interest in the New Units at the commercial operation date of Unit 2, will acquire an additional 2% ownership interest no later than the first anniversary of such commercial operation date, and will acquire the final 2% no later than the second anniversary of such commercial operation date. SCE&G has agreed to pay an amount equal to Santee Cooper's actual cost of the percentage conveyed as of the date of each conveyance. In addition, the agreement provides that Santee Cooper will not transfer any of its remaining interest in the New Units to third parties until the New Units are complete. This transaction will not affect the payment obligations between the parties during construction for the New Units, nor is it anticipated that the payments for the additional ownership interest would be reflected in a revised rates filing under the BLRA. Based on the current milestone schedule and capital costs schedule approved by the SCPSC in November 2012, SCE&G's estimated cost would be approximately $500 million for the additional 5% interest being acquired from Santee Cooper. This cost figure could be higher in light of the delays and related costs discussed above.

Nuclear Production Tax Credits

In August 2014, the IRS notified SCE&G that, subject to a national megawatt capacity limitation, the electricity to be produced by each of the New Units (advanced nuclear units, as defined) would qualify for nuclear production tax credits under Section 45J of the Internal Revenue Code to the extent that such New Unit is operational before January 1, 2021 and other eligibility requirements are met. Based on the above substantial completion dates provided by the Consortium of June 2019 and June 2020 for Units 2 and 3, respectively, both New Units are expected to be operational and to qualify for the nuclear production tax credits; however, further delays in the schedule or changes in tax law could impact such conclusions. To the extent that production tax credits are realized, their benefits are expected to be provided directly to SCE&G's electric customers as so realized.

Other Project Matters

When the NRC issued the COLs for the New Units, two of the conditions that it imposed were requiring inspection and testing of certain components of the New Units' passive cooling system, and requiring the development of strategies to respond to extreme natural events resulting in the loss of power at the New Units. In addition, the NRC directed the Office of New Reactors to issue to SCE&G an order requiring enhanced, reliable spent fuel pool instrumentation, as well as a request for information related to emergency plant staffing. SCE&G fulfilled the request related to emergency plant staffing in 2012. In addition, SCE&G prepared and submitted an integrated response plan for the New Units to the NRC in August 2013. That plan is currently under review by the NRC and SCE&G does not anticipate any additional regulatory actions as a result of that review, but it cannot predict future regulatory activities or how such initiatives would impact construction or operation of the New Units.

Environmental

SCE&G's operations are subject to extensive regulation by various federal and state authorities in the areas of air quality, water quality, control of toxic substances and hazardous and solid wastes. Applicable statutes and rules include the Clean Air Act, as amended (CAA), Clean Water Act (CWA), Nuclear Waste Act and the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), among others. In many cases, regulations proposed by such authorities could have a significant impact on SCE&G's financial condition, results of operations and cash flows. In addition, SCE&G often cannot predict what conditions or requirements will be imposed by regulatory or legislative proposals. To the extent that compliance with environmental regulations or legislation results in capital expenditures or operating costs, SCE&G expects to recover such expenditures and costs through existing ratemaking provisions.

The EPA issued a revised carbon standard for new power plants by re-proposing New Source Performance Standards under the CAA for emissions of carbon dioxide from newly constructed fossil fuel-fired units. The proposed rule was issued on January 8, 2014 and requires all new fossil fuel-fired power plants to meet the carbon dioxide emissions profile of a combined cycle natural gas plant. While most new natural gas plants will not be required to include any new technologies, no new coal-fired plants could be constructed without carbon capture and sequestration capabilities. SCE&G is evaluating the proposed rule, but does not plan to construct new coal-fired units in the near future. In addition, on June 2, 2014, the EPA issued proposed emission guidelines for states to follow in developing plans to address greenhouse gas (GHG) emissions from existing units. These guidelines are to be made final no later than June 1, 2015, and include state-specific rate based goals for carbon dioxide emissions.

From a regulatory perspective, SCE&G continually monitors and evaluates its current and projected emission levels and strives to comply with all state and federal regulations regarding those emissions. SCE&G participates in the sulfur dioxide and nitrogen oxide emission allowance programs with respect to coal plant emissions and also has constructed additional pollution control equipment at several larger coal-fired electric generating plants. Further, SCE&G is engaged in construction activities of the New Units which are expected to reduce GHG emission levels significantly once they are completed and dispatched by potentially displacing some of the current coal-fired generation sources. These actions are expected to address many of the rules and regulations discussed herein.

In July 2011, the EPA issued the Cross-State Air Pollution Rule (CSAPR) to reduce emissions of sulfur dioxide and nitrogen oxide from power plants in the eastern half of the United States. A series of court actions stayed this rule until October 23, 2014, when the Court of Appeals granted a motion to lift the stay. On December 3, 2014, the EPA published an interim final rule that aligns the dates in the CSAPR text with the revised court-ordered schedule, thus delaying the implementation dates to 2015 for Phase 1 and to 2017 for Phase 2. The CSAPR replaces the Clean Air Interstate Rule and requires a total of 28 states to reduce annual sulfur dioxide emissions and annual or ozone season nitrogen oxide emissions to assist in attaining the ozone and fine particle National Ambient Air Quality Standard. The rule establishes an emissions cap for sulfur dioxide and nitrogen oxide and limits the trading for emission allowances by separating affected states into two groups with no trading between the groups. Air quality control installations that SCE&G have already completed have positioned them to comply with the allowances set by the CSAPR.

In April 2012, the EPA's Mercury and Air Toxics Standards (MATS) rule containing new standards for mercury and other specified air pollutants became effective. The rule provides up to four years for generating facilities to meet the standards, and SCE&G's evaluation of the rule is ongoing. SCE&G's decision to retire certain coal-fired units or convert them to burn natural gas and its project to build the New Units (see Note 1) along with other actions are expected to result in SCE&G's compliance with MATS. On November 19, 2014, the EPA finalized its reconsideration of certain provisions applicable during startup and shutdown of generating facilities. SCE&G has received a one year extension (until April 2016) to comply with MATS at Cope, McMeekin and Wateree Stations. South Carolina Generationg Company, Inc. (GENCO) has also received a one year extension at its Williams Station, which is operated by SCE&G. These extensions will allow time to convert McMeekin Station to burn natural gas and to install additional pollution control devices at the other plants that will enhance the control of certain MATS-regulated pollutants.

The CWA provides for the imposition of effluent limitations that require treatment for wastewater discharges. Under the CWA, compliance with applicable limitations is achieved under state-issued National Permit Discharge Elimination System (NPDES) permits. As a facility's NPDES permit is renewed (every five years), any new effluent limitations would be incorporated. The New federal effluent limitation guidelines for steam electric generating units was published in the Federal Register on June 7, 2013, and is expected to be finalized no later than September 30, 2015. Once the rule becomes effective, state regulators will modify facility NPDES permits to match more restrictive standards, thus requiring facilities to retrofit with new wastewater treatment technologies. Compliance dates will vary by type of wastewater, and some will be based on a facility's five year permit cycle and thus may range from 2018 to 2023. Based on the proposed rule, SCE&G expects that wastewater treatment technology retrofits will be required at Williams and Wateree Stations and may be required at other facilities.

The CWA Section 316(b) Existing Facilities Rule became effective on October 14, 2014. This rule establishes national requirements for the location, design, construction and capacity of cooling water intake structures at existing facilities that reflect the best technology available for minimizing the adverse environmental impacts of impingement and entrainment. SCE&G is conducting studies and implementing plans to ensure compliance with this rule. In addition, Congress is expected to consider further amendments to the CWA. Such legislation may include toxicity-based standards as well as limitations to mixing zones.

On December 19, 2014, the EPA issued a final rule for Coal Combustion Residuals (CCR), which is expected to become effective in 2015. This rule regulates CCR as a non-hazardous waste under Subtitle D of the Resource Conservation and Recovery Act. In addition, this rule imposes certain requirements on ash storage ponds at SCE&G's generating facilities. SCE&G has already closed or has begun the process of closure of all of their ash storage ponds.

The Nuclear Waste Act required that the United States government accept and permanently dispose of high-level radioactive waste and spent nuclear fuel by January 31, 1998. The Nuclear Waste Act also imposed on utilities the primary responsibility for storage of their spent nuclear fuel until the repository is available. SCE&G entered into a Standard Contract for Disposal of Spent Nuclear Fuel and/or High-Level Radioactive Waste with the DOE in 1983. As of December 31, 2014, the federal government has not accepted any spent fuel from Summer Station Unit 1, and it remains unclear when the repository may become available. SCE&G has on-site spent nuclear fuel storage capability in its existing fuel pool until at least 2017 and is constructing a dry cask storage facility to accommodate the spent nuclear fuel output for the life of Summer Station Unit 1. SCE&G may evaluate other technology as it becomes available.

The provisions of CERCLA authorize the EPA to require the clean-up of hazardous waste sites. The state of South Carolina has similar laws. SCE&G maintains an environmental assessment program to identify and evaluate current and former operations sites that could require clean-up. In addition, regulators from the EPA and other federal or state agencies periodically notify SCE&G that it may be required to perform or participate in the investigation and remediation of a hazardous waste site. As site assessments are initiated, estimates are made of the amount of expenditures, if any, deemed necessary to investigate and remediate each site. These estimates are refined as additional information becomes available; therefore, actual expenditures may differ significantly from the original estimates. Amounts estimated and accrued to date for site assessments and clean-up relate solely to regulated operations. Such amounts are recorded in regulatory assets and amortized, with recovery provided through rates.

SCE&G is responsible for four decommissioned manufactured gas plant (MGP) sites in South Carolina which contain residues of by-product chemicals. These sites are in various stages of investigation, remediation and monitoring under work plans approved by the South Carolina Department of Health and Environmental Control and the EPA. SCE&G anticipates that major remediation activities at all these sites will continue until 2017 and will cost an additional $19.3 million, which is accrued in Other within Deferred Credits and Other Liabilities on the consolidated balance sheet. SCE&G expects to recover any cost arising from the remediation of MGP sites through rates. At December 31, 2014, deferred amounts, net of amounts previously recovered through rates and insurance settlements, totaled $35.5 million and are included in regulatory assets.

Claims and Litigation

SCE&G is subject to various claims and litigation incidental to its business operations which management anticipates will be resolved without a material impact on SCE&G’s results of operations, cash flows or financial condition.

Operating Lease Commitments

SCE&G is obligated under various operating leases for vehicles, office space, furniture and equipment. Leases expire at various dates through 2057. Rent expense totaled approximately $12.0 million in 2014, $13.6 million in 2013 and $9.6 million in 2012. Future minimum rental payments under such leases are as follows:

	Millions of dollars
2015	$ 6
2016	3
2017	1
2018	—
2019	1
Thereafter	18
Total	$ 29

Asset Retirement Obligations

SCE&G recognizes a liability for the present value of an ARO when incurred if the liability can be reasonably estimated. Uncertainty about the timing or method of settlement of a conditional ARO is factored into the measurement of the liability when sufficient information exists, but such uncertainty is not a basis upon which to avoid liability recognition.

The legal obligations associated with the retirement of long-lived tangible assets that result from their acquisition, construction, development and normal operation relate primarily to SCE&G’s regulated utility operations. As of December 31, 2014, SCE&G has recorded AROs of approximately $201 million for nuclear plant decommissioning (see Note 1) and AROs of approximately $320 million for other conditional obligations primarily related to generation, transmission and distribution properties, including gas pipelines. All of the amounts recorded are based upon estimates which are subject to varying degrees of imprecision, particularly since such payments will be made many years in the future.

A reconciliation of the beginning and ending aggregate carrying amount of asset retirement obligations is as follows:

Millions of dollars	2014	2013
Beginning balance	$ 532	$ 516
Liabilities incurred	3	6
Liabilities settled	(6)	(4)
Accretion expense	24	23
Revisions in estimated cash flows	(32)	(9)
Ending Balance	$ 521	$ 532

Revisions in estimated cash flows for 2014 primarily relate to lower estimates for certain environmental clean up obligations at generation facilities.

11. AFFILIATED TRANSACTIONS

Carolina Gas Transmission Corporation (CGT) transports natural gas to SCE&G to serve retail gas customers and certain electric generation requirements. Such purchases totaled approximately $30.0 million in 2014, $33.3 million in 2013 and $35.9 million in 2012. SCE&G had approximately $3.3 million payable to CGT for transportation services at both December 31, 2014 and December 31, 2013. SCE&G had approximately $1.2 million and $1.3 million receivable from CGT for transportation services at December 31, 2014 and December 31, 2013, respectively.

SCE&G purchases natural gas and related pipeline capacity from SCANA Energy Marketing, Inc. (SEMI) to serve its retail gas customers and certain electric generation requirements. Such purchases totaled approximately $195.7 million in 2014, $166.9 million in 2013 and $125.5 million in 2012. SCE&G's payables to SEMI for such purposes were $12.6 million and $12.5 million as of December 31, 2014 and 2013, respectively.

SCE&G purchases all of the electric generation of Williams Station under a unit power sales agreement. Such unit power purchases, which are included in "Purchased power," totaled approximately $231.5 million and $227.0 million in 2014 and 2013, respectively. SCE&G had approximately $21.4 million and $23.2 million, payable to GENCO for unit power purchases at December 31, 2014 and 2013, respectively.

SCE&G owns 40% of Canadys Refined Coal, LLC which is involved in the manufacturing and selling of refined coal to reduce emissions. SCE&G accounts for this investment using the equity method. SCE&G's receivable from this affiliate was $13.8 million at December 31, 2014 and $2.5 million at December 31, 2013. SCE&G's payable to this affiliate was $13.9 million at December 31, 2014 and $2.5 million at December 31, 2013. SCE&G's total purchases from this affiliate were $120.4 million in 2014 and $71.8 million in 2013. SCE&G's total sales to this affiliate were $119.8 million in 2014 and $71.5 million in 2013.

SCANA Services provides the following services to SCE&G, which are rendered at direct or allocated cost: information systems services, telecommunications services, customer services, marketing and sales, human resources, corporate compliance, purchasing, financial services, risk management, public affairs, legal services, investor relations, gas supply and capacity management, strategic planning, general administrative services and retirement benefits. In addition, SCANA Services processes and pays invoices for SCE&G and is reimbursed. Costs for these services totaled $294.9 million in 2014, $276.0 million in 2013 and $296.6 million in 2012. SCE&G's payables to SCANA Services for these services were $46.4 million and $48.2 million at December 31, 2014 and 2013, respectively.

Borrowings from and investments in an affiliated money pool are described in Note 4.

12. SEGMENT OF BUSINESS INFORMATION

SCE&G’s reportable segments follow the same accounting policies as those described in Note 1.

Electric Operations primarily generates, transmits, and distributes electricity, and is regulated by the SCPSC and FERC. Gas Distribution purchases and sells natural gas, primarily at retail, and is regulated by the SCPSC.

Disclosure of Reportable Segments (Millions of dollars)

	Electric Operations	Gas Distribution	Adjustments/ Eliminations	Consolidated Total
2014				
External Revenue	$ 2,629	$ 462	—	$ 3,091
Operating Income	730	62	—	792
Interest Expense	1	—	$ 209	210
Depreciation and Amortization	281	27	—	308
Segment Assets	9,547	721	3,231	13,499
Expenditures for Assets	925	55	(57)	923
Deferred Tax Assets	4	n/a	(4)	—
2013				
External Revenue	$ 2,431	$ 414	—	$ 2,845
Operating Income	644	58	—	702
Interest Expense	2	—	$ 198	200
Depreciation and Amortization	276	26	—	302
Segment Assets	8,864	686	2,556	12,106
Expenditures for Assets	900	45	51	996
Deferred Tax Assets	9	n/a	(9)	—
2012				
External Revenue	$ 2,453	$ 356	—	$ 2,809
Operating Income	632	49	—	681
Interest Expense	2	—	$ 190	192
Depreciation and Amortization	259	25	—	284
Segment Assets	8,339	659	2,491	11,489
Expenditures for Assets	993	56	(77)	972
Deferred Tax Assets	(1)	n/a	1	—

Management uses operating income to measure segment profitability for regulated operations and evaluates utility plant, net, for its segments. As a result, SCE&G does not allocate interest charges, income tax expense, earnings available to common shareholder or assets other than utility plant to its segments. Intersegment revenue and interest income were not significant. SCE&G's deferred tax assets are netted with deferred tax liabilities for reporting purposes.

The consolidated financial statements report operating revenues which are comprised of the reportable segments. Revenues from non-reportable segments are included in Other Income. Segment Assets include utility plant, net for all reportable segments. As a result, adjustments to assets include non-utility plant and non-fixed assets for the segments. Adjustments to Interest Expense and Deferred Tax Assets include amounts that are not allocated to the segments. Expenditures for Assets are adjusted for revisions to estimated cash flows related to asset retirement obligations, and totals not allocated to other segments.

13. SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for interest: $192 million and $183 million in 2014 and 2013, respectively (net of capitalized interest of $14 million and $13 million in 2014 and 2013, respectively).

Cash paid for income taxes: $174 million and $93 million in 2014 and 2013, respectively.

Noncash Investing and Financing Activities:
Accrued construction expenditures: $151 million and $99 million in 2014 and 2013, respectively.
Capital leases expenditures: $5 million and $4 million in 2014 and 2013, respectively.
Nuclear fuel purchase: $- and $98 million in 2014 and 2013, respectively.

14. QUARTERLY FINANCIAL DATA (UNAUDITED)

Millions of dollars	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Annual
2014					
Total operating revenues	$ 859	$ 698	$ 812	$ 722	$ 3,091
Operating income	230	135	263	164	792
Earnings Available to Common Shareholder	123	96	154	72	445

ELECTRIC PLANT IN SERVICE (Account 101, 102, 103 and 106)

1. Report below the original cost of electric plant in service according to the prescribed accounts.
2. In addition to Account 101, Electric Plant in Service (Classified), this page and the next include Account 102, Electric Plant Purchased or Sold; Account 103, Experimental Electric Plant Unclassified; and Account 106, Completed Construction Not Classified-Electric.
3. Include in column (c) or (d), as appropriate, corrections of additions and retirements for the current or preceding year.
4. For revisions to the amount of initial asset retirement costs capitalized, included by primary plant account, increases in column (c) additions and reductions in column (e) adjustments.
5. Enclose in parentheses credit adjustments of plant accounts to indicate the negative effect of such accounts.
6. Classify Account 106 according to prescribed accounts, on an estimated basis if necessary, and include the entries in column (c). Also to be included in column (c) are entries for reversals of tentative distributions of prior year reported in column (b). Likewise, if the respondent has a significant amount of plant retirements which have not been classified to primary accounts at the end of the year, include in column (d) a tentative distribution of such retirements, on an estimated basis, with appropriate contra entry to the account for accumulated depreciation provision. Include also in column (d)

ELECTRIC PLANT IN SERVICE (Account 101, 102, 103 and 106) (Continued)

distributions of these tentative classifications in columns (c) and (d), including the reversals of the prior years tentative account distributions of these amounts. Careful observance of the above instructions and the texts of Accounts 101 and 106 will avoid serious omissions of the reported amount of respondent's plant actually in service at end of year.

7. Show in column (f) reclassifications or transfers within utility plant accounts. Include also in column (f) the additions or reductions of primary account classifications arising from distribution of amounts initially recorded in Account 102, include in column (e) the amounts with respect to accumulated provision for depreciation, acquisition adjustments, etc., and show in column (f) only the offset to the debits or credits distributed in column (f) to primary account classifications.

8. For Account 399, state the nature and use of plant included in this account and if substantial in amount submit a supplementary statement showing subaccount classification of such plant conforming to the requirement of these pages.

9. For each amount comprising the reported balance and changes in Account 102, state the property purchased or sold, name of vendor or purchase, and date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give also date

Schedule Page: 213 Line No.: 1 Column: a

Carolina Gas Transmission Corporation (an associated company until sold by SCANA in 2015) rents office space in a facility that is owned by the Company and is classified as Electric Utility Plant on the Company's books.

SCANA Energy Marketing, Inc. (an associated company) also rents office space in a facility that is owned by the Company and is classified as Common Utility Plant on the Company's books.

The Company charges a rental fee to SCANA Communications, Inc. (an associated company until sold by SCANA in 2015) for communication tower site ground leases.

SCANA Services Inc., utilizes certain assets, including both office space and equipment, that are owned by SCE&G and classified as electric, gas and common utility plant on the books of SCE&G. SCE&G charges SCANA Services a rental fee for such asset usage.

See Transactions with Associated Companies Schedule on page 429 for additional details.

ACCUMULATED PROVISION FOR DEPRECIATION OF ELECTRIC UTILITY PLANT (Account 108)

1. Explain in a footnote any important adjustments during year.
2. Explain in a footnote any difference between the amount for book cost of plant retired, Line 11, column (c), and that reported for electric plant in service, pages 204-207, column 9d), excluding retirements of non-depreciable property.
3. The provisions of Account 108 in the Uniform System of accounts require that retirements of depreciable plant be recorded when such plant is removed from service. If the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, include all costs included in retirement work in progress at year end in the appropriate functional classifications.
4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.

MATERIALS AND SUPPLIES

1. For Account 154, report the amount of plant materials and operating supplies under the primary functional classifications as indicated in column (a); estimates of amounts by function are acceptable. In column (d), designate the department or departments which use the class of material.
2. Give an explanation of important inventory adjustments during the year (in a footnote) showing general classes of material and supplies and the various accounts (operating expenses, clearing accounts, plant, etc.) affected debited or credited. Show separately debit or credits to stores expense clearing, if applicable.

Line No.	Account (a)	Balance Beginning of Year (b)	Balance End of Year (c)	Department or Departments which Use Material (d)

SCPSC Docket No. 2012-218-E
SCPSC Docket No. 2014-88-E

In the dockets referenced above, the SCPSC authorized the recovery of current pension expense related to retail electric operations through a rate rider mechanism. Any differences between actual pension expense and amounts recovered through the rider are deferred as a regulatory asset (under-recovered) or regulatory liability (over-recovered) as appropriate.

Schedule Page: 232 Line No.: 33 Column: a

SCPSC Docket No. 2013-276-E

Schedule Page: 232 Line No.: 34 Column: a

In SCPSC Docket No. 2013-336-E, the SCPSC approved the exclusion from rate base of ADIT assets associated with the treatment of capitalized interest related to new nuclear construction. The SCPSC also approved the accrual of carrying costs on the balance of the ADIT assets removed from rate base, with such carrying costs being deferred as a regulatory asset.

OTHER PAID-IN CAPITAL (Accounts 208-211, inc.)

Report below the balance at the end of the year and the information specified below for the respective other paid-in capital accounts. Provide a subheading for each account and show a total for the account, as well as total of all accounts for reconciliation with balance sheet, Page 112. Add more columns for any account if deemed necessary. Explain changes made in any account during the year and give the accounting entries effecting such change.
(a) Donations Received from Stockholders (Account 208)-State amount and give brief explanation of the origin and purpose of each donation.
(b) Reduction in Par or Stated value of Capital Stock (Account 209): State amount and give brief explanation of the capital change which gave rise to amounts reported under this caption including identification with the class and series of stock to which related.
(c) Gain on Resale or Cancellation of Reacquired Capital Stock (Account 210): Report balance at beginning of year, credits, debits, and balance at end of year with a designation of the nature of each credit and debit identified by the class and series of stock to which related.
(d) Miscellaneous Paid-in Capital (Account 211)-Classify amounts included in this account according to captions which, together with brief explanations, disclose the general nature of the transactions which gave rise to the reported amounts.

LONG-TERM DEBT (Account 221, 222, 223 and 224)

1. Report by balance sheet account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other long-Term Debt.
2. In column (a), for new issues, give Commission authorization numbers and dates.
3. For bonds assumed by the respondent, include in column (a) the name of the issuing company as well as a description of the bonds.
4. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.
5. For receivers, certificates, show in column (a) the name of the court -and date of court order under which such certificates were issued.
6. In column (b) show the principal amount of bonds or other long-term debt originally issued.
7. In column (c) show the expense, premium or discount with respect to the amount of bonds or other long-term debt originally issued.
8. For column (c) the total expenses should be listed first for each issuance, then the amount of premium (in parentheses) or discount. Indicate the premium or discount with a notation, such as (P) or (D). The expenses, premium or discount should not be netted.
9. Furnish in a footnote particulars (details) regarding the treatment of unamortized debt expense, premium or discount associated with issues redeemed during the year. Also, give in a footnote the date of the Commission's authorization of treatment other than as specified by the Uniform System of Accounts.

LONG-TERM DEBT (Account 221, 222, 223 and 224)

1. Report by balance sheet account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other long-Term Debt.
2. In column (a), for new issues, give Commission authorization numbers and dates.
3. For bonds assumed by the respondent, include in column (a) the name of the issuing company as well as a description of the bonds.
4. For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.
5. For receivers, certificates, show in column (a) the name of the court -and date of court order under which such certificates were issued.
6. In column (b) show the principal amount of bonds or other long-term debt originally issued.
7. In column (c) show the expense, premium or discount with respect to the amount of bonds or other long-term debt originally issued.
8. For column (c) the total expenses should be listed first for each issuance, then the amount of premium (in parentheses) or discount. Indicate the premium or discount with a notation, such as (P) or (D). The expenses, premium or discount should not be netted.
9. Furnish in a footnote particulars (details) regarding the treatment of unamortized debt expense, premium or discount associated with issues redeemed during the year. Also, give in a footnote the date of the Commission's authorization of treatment other than as specified by the Uniform System of Accounts.

LONG-TERM DEBT (Account 221, 222, 223 and 224) (Continued)

10. Identify separate undisposed amounts applicable to issues which were redeemed in prior years.
11. Explain any debits and credits other than debited to Account 428, Amortization and Expense, or credited to Account 429, Premium on Debt - Credit.
12. In a footnote, give explanatory (details) for Accounts 223 and 224 of net changes during the year. With respect to long-term advances, show for each company: (a) principal advanced during year, (b) interest added to principal amount, and (c) principle repaid during year. Give Commission authorization numbers and dates.
13. If the respondent has pledged any of its long-term debt securities give particulars (details) in a footnote including name of pledgee and purpose of the pledge.
14. If the respondent has any long-term debt securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.
15. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest expense in column (i). Explain in a footnote any difference between the total of column (i) and the total of Account 427, interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.
16. Give particulars (details) concerning any long-term debt authorized by a regulatory commission but not yet issued.

Schedule Page: 256 Line No.: 1 Column: c

With respect to unamortized amounts (premium, discount or expense), of debt redeemed, the Company follows the provisions set forth in General Instruction No. 17 of the Uniform System of Accounts. The Company records any unamortized amounts related to the redeemed debt to account 189 "Unamortized Loss on Reacquired Debt" or account 257 "Unamortized Gain on Reacquired Debt" as appropriate and amortizes this amount over the life of the new issue if refunded or over the remaining life of the original debt if not refunded.

Schedule Page: 256.2 Line No.: 27 Column: a

On February 15, 2002 the Company entered into a loan agreement with the South Carolina Transportation Infrastructure Bank which is an instrumentality of the State of South Carolina. The amount of $59,000,000 is non-interest bearing and payable in quarterly payments of $1.475 million each January 1, April 1, July 1 and October 1. This obligation was fully satisfied in 2014 and as of 12/31/2014, there was no balance outstanding related to this agreement.

Schedule Page: 256.2 Line No.: 28 Column: a

The Company has had no long-term borrowings against its revolving credit agreements. These agreements expire in October 2016 and October 2019. See also response to Item 6 on pages 108 and 109.

Schedule Page: 256.2 Line No.: 30 Column: a

In 2007, the Company was awarded the contract for the privatization of the natural gas distribution system at the Charleston Air Force Base. On September 1, 2007, ownership of the system transferred to the Company and the Company recorded assets totaling $424,844 in Gas Utility Plant and an offsetting credit in Other Long-Term Debt. The Company will pay off this long-term debt through applied billing credits over a period of 20 years. As of 12/31/2014, $302,435 was outstanding related to this obligation.

Schedule Page: 256.2 Line No.: 31 Column: i

SCANA Holding Company (parent of SCE&G) allocates interest expense on commitment fees to its operating subsidiaries. During 2014, the portion allocated to SCE&G was $151,001.

Schedule Page: 256.2 Line No.: 32 Column: a

In February 2013, SCE&G entered into a contract to acquire Enriched Uranium Product (EUP) for the initial core load of the V.C. Summer Nuclear Station Unit No. 3 currently under construction. Under the provisions of the contract, SCE&G recorded $99.9 million within Account 224 - Other Long-Term Debt and $2.8 million within Account 226 - Unamortized Discount on Long-Term Debt.

Schedule Page: 256.3 Line No.: 2 Column: i

The interest expense of $6,556,721 included in account 430 "Interest on Debt to Associated Companies" is related to short-term debt and therefore is not included in this schedule.

Schedule Page: 256.3 Line No.: 4 Column: a

At 12/31/2014, the Company had authorization from the South Carolina Public Service Commission to issue up to $1.56 billion of First Mortgage Bonds. (State Commission Order Nos. 2010-660 and 2013-277.)

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.
2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be field, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group member, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.
3. A substitute page, designed to meet a particular need of a company, may be used as Long as the data is consistent and meets the requirements of the above instructions. For electronic reporting purposes complete Line 27 and provide the substitute Page in the context of a footnote.

TAXES ACCRUED, PREPAID AND CHARGED DURING YEAR

1. Give particulars (details) of the combined prepaid and accrued tax accounts and show the total taxes charged to operations and other accounts during the year. Do not include gasoline and other sales taxes which have been charged to the accounts to which the taxed material was charged. If the actual, or estimated amounts of such taxes are know, show the amounts in a footnote and designate whether estimated or actual amounts.
2. Include on this page, taxes paid during the year and charged direct to final accounts, (not charged to prepaid or accrued taxes.) Enter the amounts in both columns (d) and (e). The balancing of this page is not affected by the inclusion of these taxes.
3. Include in column (d) taxes charged during the year, taxes charged to operations and other accounts through (a) accruals credited to taxes accrued, (b)amounts credited to proportions of prepaid taxes chargeable to current year, and (c) taxes paid and charged direct to operations or accounts other than accrued and prepaid tax accounts.
4. List the aggregate of each kind of tax in such manner that the total tax for each State and subdivision can readily be ascertained.

TAXES ACCRUED, PREPAID AND CHARGED DURING YEAR (Continued)

5. If any tax (exclude Federal and State income taxes)- covers more then one year, show the required information separately for each tax year, identifying the year in column (a).
6. Enter all adjustments of the accrued and prepaid tax accounts in column (f) and explain each adjustment in a foot- note. Designate debit adjustments by parentheses.
7. Do not include on this page entries with respect to deferred income taxes or taxes collected through payroll deductions or otherwise pending transmittal of such taxes to the taxing authority.
8. Report in columns (i) through (l) how the taxes were distributed. Report in column (I) only the amounts charged to Accounts 408.1 and 409.1 pertaining to electric operations. Report in column (l) the amounts charged to Accounts 408.1 and 109.1 pertaining to other utility departments and amounts charged to Accounts 408.2 and 409.2. Also shown in column (l) the taxes charged to utility plant or other balance sheet accounts.
9. For any tax apportioned to more than one utility department or account, state in a footnote the basis (necessity) of apportioning such tax.

SCPSC Docket No. 2012-218-E

Schedule Page: 278 Line No.: 4 Column: d

Current year activity reflects revision in treatment of certain cost of removal to eliminate the reclassification of such amounts from the accumulated provision for depreciation.

Schedule Page: 278 Line No.: 6 Column: a

Activity associated with this item includes the deferral of losses or gains on certain interest rate derivatives and the amortization of settlement amounts over the life of the related debt issuances.

In SCPSC Docket Nos. 2013-382-E and 2014-2-E, the SCPSC authorized the Company to utilize gains from the settlement of certain interest rate derivatives for the benefit of its customers through offsetting fuel costs. In SCPSC Docket No. 2014-44-E, the SCPSC authorized the Company to utilize a portion of deferred swap settlement gains to offset certain Net Lost Revenue amounts associated with the Company's Demand Side Management Programs. Such utilization is also included in current year account activity.

SCPSC Docket No. 2014-88-E

In the dockets referenced above, the SCPSC authorized the recovery of current pension expense related to retail electric operations through a rate rider mechanism. Any differences between actual pension expense and amounts recovered through the rider are deferred as a regulatory asset (under-recovered) or regulatory liability (over-recovered) as appropriate.

Name of Respondent	This Report Is:	Date of Report (Mo, Da, Yr)	Year/Period of Report

ELECTRIC OPERATING REVENUES (Account 400)

1. The following instructions generally apply to the annual version of these pages. Do not report quarterly data in columns (c), (e), (f), and (g). Unbilled revenues and MWH related to unbilled revenues need not be reported separately as required in the annual version of these pages.
2. Report below operating revenues for each prescribed account, and manufactured gas revenues in total.
3. Report number of customers, columns (f) and (g), on the basis of meters, in addition to the number of flat rate accounts; except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The -average number of customers means the average of twelve figures at the close of each month.
4. If increases or decreases from previous period (columns (c),(e), and (g)), are not derived from previously reported figures, explain any inconsistencies in a footnote.
5. Disclose amounts of $250,000 or greater in a footnote for accounts 451, 456, and 457.2.

SALES OF ELECTRICITY BY RATE SCHEDULES

1. Report below for each rate schedule in effect during the year the MWH of electricity sold, revenue, average number of customer, average Kwh per customer, and average revenue per Kwh, excluding date for Sales for Resale which is reported on Pages 310-311.
2. Provide a subheading and total for each prescribed operating revenue account in the sequence followed in "Electric Operating Revenues," Page 300-301. If the sales under any rate schedule are classified in more than one revenue account, List the rate schedule and sales data under each applicable revenue account subheading.
3. Where the same customers are served under more than one rate schedule in the same revenue account classification (such as a general residential schedule and an off peak water heating schedule), the entries in column (d) for the special schedule should denote the duplication in number of reported customers.
4. The average number of customers should be the number of bills rendered during the year divided by the number of billing periods during the year (12 if all billings are made monthly).
5. For any rate schedule having a fuel adjustment clause state in a footnote the estimated additional revenue billed pursuant thereto.
6. Report amount of unbilled revenue as of end of year for each applicable revenue account subheading.

Name of Respondent	This Report Is:	Date of Report (Mo, Da, Yr)	Year/Period of Report
South Carolina Electric & Gas Company	(1) [X] An Original (2) [ ] A Resubmission	/ /	End of 2014/Q4

SALES FOR RESALE (Account 447)

1. Report all sales for resale (i.e., sales to purchasers other than ultimate consumers) transacted on a settlement basis other than power exchanges during the year. Do not report exchanges of electricity (i.e., transactions involving a balancing of debits and credits for energy, capacity, etc.) and any settlements for imbalanced exchanges on this schedule. Power exchanges must be reported on the Purchased Power schedule (Page 326-327).
2. Enter the name of the purchaser in column (a). Do note abbreviate or truncate the name or use acronyms. Explain in a footnote any ownership interest or affiliation the respondent has with the purchaser.
3. In column (b), enter a Statistical Classification Code based on the original contractual terms and conditions of the service as follows:
RQ - for requirements service. Requirements service is service which the supplier plans to provide on an ongoing basis (i.e., the supplier includes projected load for this service in its system resource planning). In addition, the reliability of requirements service must be the same as, or second only to, the supplier's service to its own ultimate consumers.
LF - for tong-term service. "Long-term" means five years or Longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g., the supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for Long-term firm service which meets the definition of RQ service. For all transactions identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or setter can unilaterally get out of the contract.
IF - for intermediate-term firm service. The same as LF service except that "intermediate-term" means longer than one year but Less than five years.
SF - for short-term firm service. Use this category for all firm services where the duration of each period of commitment for service is one year or less.
LU - for Long-term service from a designated generating unit. "Long-term" means five years or Longer. The availability and reliability of service, aside from transmission constraints, must match the availability and reliability of designated unit.
IU - for intermediate-term service from a designated generating unit. The same as LU service except that "intermediate-term" means Longer than one year but Less than five years.

Line No.	Name of Company or Public Authority (Footnote Affiliations)	Statistical Classifi-cation	FERC Rate Schedule or Tariff Number	Average Monthly Billing Demand (MW)	Actual Demand (MW)	
					Average Monthly NCP Demand	Average Monthly CP Demand
	(a)	(b)	(c)	(d)	(e)	(f)
1	Town of McCormick	RQ		3.8	3.8	3.8
2	City of Orangeburg	RQ		137.0	154.0	149.1
3	Town of Winnsboro	RQ		12.3	12.2	12.2
4	Cargill Power Markets, LLC	OS				
5	The Energy Authority, Inc.	OS				
6	Emissions Allow Sales - Revenue Contra					
7	Wholesale Fuel Over/Under Collection					
8	Adjustments					
9	Transmission Revenue included in					
10	Energy Charges Column (i).					
11						
12						
13						
14						
	Subtotal RQ			0	0	0
	Subtotal non-RQ			0	0	0
	Total			**0**	**0**	**0**

OS - for other service. use this category only for those services which cannot be placed in the above-defined categories, such as all non-firm service regardless of the Length of the contract and service from designated units of Less than one year. Describe the nature of the service in a footnote.
AD - for Out-of-period adjustment. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting years. Provide an explanation in a footnote for each adjustment.
4. Group requirements RQ sales together and report them starting at line number one. After listing all RQ sales, enter "Subtotal - RQ" in column (a). The remaining sales may then be listed in any order. Enter "Subtotal-Non-RQ" in column (a) after this Listing. Enter "Total" in column (a) as the Last Line of the schedule. Report subtotals and total for columns (9) through (k)
5. In Column (c), identify the FERC Rate Schedule or Tariff Number. On separate Lines, List all FERC rate schedules or tariffs under which service, as identified in column (b), is provided.
6. For requirements RQ sales and any type of-service involving demand charges imposed on a monthly (or Longer) basis, enter the average monthly billing demand in column (d), the average monthly non-coincident peak (NCP) demand in column (e), and the average monthly coincident peak (CP)
demand in column (f). For all other types of service, enter NA in columns (d), (e) and (f). Monthly NCP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP demand is the metered demand during the hour (60-minute integration) in which the supplier's system reaches its monthly peak. Demand reported in columns (e) and (f) must be in megawatts. Footnote any demand not stated on a megawatt basis and explain.
7. Report in column (g) the megawatt hours shown on bills rendered to the purchaser.
8. Report demand charges in column (h), energy charges in column (i), and the total of any other types of charges, including out-of-period adjustments, in column (j). Explain in a footnote all components of the amount shown in column (j). Report in column (k) the total charge shown on bills rendered to the purchaser.
9. The data in column (g) through (k) must be subtotaled based on the RQ/Non-RQ grouping (see instruction 4), and then totaled on the Last -line of the schedule. The "Subtotal - RQ" amount in column (g) must be reported as Requirements Sales For Resale on Page 401, line 23. The "Subtotal - Non-RQ" amount in column (g) must be reported as Non-Requirements Sales For Resale on Page 401,iine 24.
10. Footnote entries as required and provide explanations following all required data.

Schedule Page: 320 Line No.: 35 Column: b

In SCPSC Docket No. 2012-218-E, the SCPSC authorized the Company to establish a 5-cycle or 90 month recovery of nuclear outage costs for V.C. Summer Nuclear Station Unit 1. Accordingly, the Company is accruing $17.2 million annually with $13.9 million and $3.3 million being accrued to account 528 and 524, respectively. Differences between actual outage costs incurred and the accrued amounts are recognized as regulatory assets or liabilities as appropriate. During 2014, the Company reversed actual outage costs of $23.9 million from account 528 and applied such costs against the established regulatory liability. As a result, the Company has reported net credit activity for the year in account 528.

PURCHASED POWER (Account 555)
(Including power exchanges)

1. Report all power purchases made during the year. Also report exchanges of electricity (i.e., transactions involving a balancing of debits and credits for energy, capacity, etc.) and any settlements for imbalanced exchanges.
2. Enter the name of the seller or other party in an exchange transaction in column (a). Do not abbreviate or truncate the name or use acronyms. Explain in a footnote any ownership interest or affiliation the respondent has with the seller.
3. In column (b), enter a Statistical Classification Code based on the original contractual terms and conditions of the service as follows:

RQ - for requirements service. Requirements service is service which the supplier plans to provide on an ongoing basis (i.e., the supplier includes projects load for this service in its system resource planning). In addition, the reliability of requirement service must be the same as, or second only to, the supplier's service to its own ultimate consumers.

LF - for long-term firm service. "Long-term" means five years or longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g., the supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for long-term firm service firm service which meets the definition of RQ service. For all transaction identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or seller can unilaterally get out of the contract.

IF - for intermediate-term firm service. The same as LF service expect that "intermediate-term" means longer than one year but less than five years.

SF - for short-term service. Use this category for all firm services, where the duration of each period of commitment for service is one year or less.

LU - for long-term service from a designated generating unit. "Long-term" means five years or longer. The availability and reliability of service, aside from transmission constraints, must match the availability and reliability of the designated unit.

IU - for intermediate-term service from a designated generating unit. The same as LU service expect that "intermediate-term" means longer than one year but less than five years.

EX - For exchanges of electricity. Use this category for transactions involving a balancing of debits and credits for energy, capacity, etc. and any settlements for imbalanced exchanges.

OS - for other service. Use this category only for those services which cannot be placed in the above-defined categories, such as all non-firm service regardless of the Length of the contract and service from designated units of Less than one year. Describe the nature of the service in a footnote for each adjustment.

PURCHASED POWER(Account 555) (Continued)
(Including power exchanges)

AD - for out-of-period adjustment. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting years. Provide an explanation in a footnote for each adjustment.

4. In column (c), identify the FERC Rate Schedule Number or Tariff, or, for non-FERC jurisdictional sellers, include an appropriate designation for the contract. On separate lines, list all FERC rate schedules, tariffs or contract designations under which service, as identified in column (b), is provided.
5. For requirements RQ purchases and any type of service involving demand charges imposed on a monnthly (or longer) basis, enter the monthly average billing demand in column (d), the average monthly non-coincident peak (NCP) demand in column (e), and the average monthly coincident peak (CP) demand in column (f). For all other types of service, enter NA in columns (d), (e) and (f). Monthly NCP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP demand is the metered demand during the hour (60-minute integration) in which the supplier's system reaches its monthly peak. Demand reported in columns (e) and (f) must be in megawatts. Footnote any demand not stated on a megawatt basis and explain.
6. Report in column (g) the megawatthours shown on bills rendered to the respondent. Report in columns (h) and (i) the megawatthours of power exchanges received and delivered, used as the basis for settlement. Do not report net exchange.
7. Report demand charges in column (j), energy charges in column (k), and the total of any other types of charges, including out-of-period adjustments, in column (l). Explain in a footnote all components of the amount shown in column (l). Report in column (m) the total charge shown on bills received as settlement by the respondent. For power exchanges, report in column (m) the settlement amount for the net receipt of energy. If more energy was delivered than received, enter a negative amount. If the settlement amount (l) include credits or charges other than incremental generation expenses, or (2) excludes certain credits or charges covered by the agreement, provide an explanatory footnote.
8. The data in column (g) through (m) must be totalled on the last line of the schedule. The total amount in column (g) must be reported as Purchases on Page 401, line 10. The total amount in column (h) must be reported as Exchange Received on Page 401, line 12. The total amount in column (i) must be reported as Exchange Delivered on Page 401, line 13.
9. Footnote entries as required and provide explanations following all required data.

TRANSMISSION OF ELECTRICITY FOR OTHERS (Account 456.1)
(Including transactions referred to as 'wheeling')

1. Report all transmission of electricity, i.e., wheeling, provided for other electric utilities, cooperatives, other public authorities, qualifying facilities, non-traditional utility suppliers and ultimate customers for the quarter.
2. Use a separate line of data for each distinct type of transmission service involving the entities listed in column (a), (b) and (c).
3. Report in column (a) the company or public authority that paid for the transmission service. Report in column (b) the company or public authority that the energy was received from and in column (c) the company or public authority that the energy was delivered to. Provide the full name of each company or public authority. Do not abbreviate or truncate name or use acronyms. Explain in a footnote any ownership interest in or affiliation the respondent has with the entities listed in columns (a), (b) or (c)
4. In column (d) enter a Statistical Classification code based on the original contractual terms and conditions of the service as follows: FNO - Firm Network Service for Others, FNS - Firm Network Transmission Service for Self, LFP - "Long-Term Firm Point to Point Transmission Service, OLF - Other Long-Term Firm Transmission Service, SFP - Short-Term Firm Point to Point Transmission Reservation, NF - non-firm transmission service, OS - Other Transmission Service and AD - Out-of-Period Adjustments. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting periods. Provide an explanation in a footnote for each adjustment. See General Instruction for definitions of codes.

TRANSMISSION OF ELECTRICITY FOR OTHERS (Account 456)(Continued)
(Including transactions reffered to as 'wheeling')

5. In column (e), identify the FERC Rate Schedule or Tariff Number, On separate lines, list all FERC rate schedules or contract designations under which service, as identified in column (d), is provided.
6. Report receipt and delivery locations for all single contract path, "point to point" transmission service. In column (f), report the designation for the substation, or other appropriate identification for where energy was received as specified in the contract. In column (g) report the designation for the substation, or other appropriate identification for where energy was delivered as specified in the contract.
7. Report in column (h) the number of megawatts of billing demand that is specified in the firm transmission service contract. Demand reported in column (h) must be in megawatts. Footnote any demand not stated on a megawatts basis and explain.
8. Report in column (i) and (j) the total megawatthours received and delivered.

(Including transactions reffered to as 'wheeling')

9. In column (k) through (n), report the revenue amounts as shown on bills or vouchers. In column (k), provide revenues from demand charges related to the billing demand reported in column (h). In column (I), provide revenues from energy charges related to the amount of energy transferred. In column (m), provide the total revenues from all other charges on bills or vouchers rendered, including out of period adjustments. Explain in a footnote all components of the amount shown in column (m). Report in column (n) the total charge shown on bills rendered to the entity Listed in column (a). If no monetary settlement was made, enter zero (11011) in column (n). Provide a footnote explaining the nature of the non-monetary settlement, including the amount and type of energy or service rendered.
10. The total amounts in columns (i) and (j) must be reported as Transmission Received and Transmission Delivered for annual report purposes only on Page 401, Lines 16 and 17, respectively.
11. Footnote entries and provide explanations following all required data.

Name of Respondent	This Report Is:	Date of Report (Mo, Da, Yr)	Year/Period of Report
South Carolina Electric & Gas Company	(1) [X] An Original (2) [ ] A Resubmission	/ /	End of 2014/Q4

TRANSMISSION OF ELECTRICITY BY OTHERS (Account 565)
(Including transactions referred to as "wheeling")

1. Report all transmission, i.e. wheeling or electricity provided by other electric utilities, cooperatives, municipalities, other public authorities, qualifying facilities, and others for the quarter.
2. In column (a) report each company or public authority that provided transmission service. Provide the full name of the company, abbreviate if necessary, but do not truncate name or use acronyms. Explain in a footnote any ownership interest in or affiliation with the transmission service provider. Use additional columns as necessary to report all companies or public authorities that provided transmission service for the quarter reported.
3. In column (b) enter a Statistical Classification code based on the original contractual terms and conditions of the service as follows: FNS - Firm Network Transmission Service for Self, LFP - Long-Term Firm Point-to-Point Transmission Reservations. OLF - Other Long-Term Firm Transmission Service, SFP - Short-Term Firm Point-to- Point Transmission Reservations, NF - Non-Firm Transmission Service, and OS - Other Transmission Service. See General Instructions for definitions of statistical classifications.
4. Report in column (c) and (d) the total megawatt hours received and delivered by the provider of the transmission service.
5. Report in column (e), (f) and (g) expenses as shown on bills or vouchers rendered to the respondent. In column (e) report the demand charges and in column (f) energy charges related to the amount of energy transferred. On column (g) report the total of all other charges on bills or vouchers rendered to the respondent, including any out of period adjustments. Explain in a footnote all components of the amount shown in column (g). Report in column (h) the total charge shown on bills rendered to the respondent. If no monetary settlement was made, enter zero in column (h). Provide a footnote explaining the nature of the non-monetary settlement, including the amount and type of energy or service rendered.
6. Enter "TOTAL" in column (a) as the last line.
7. Footnote entries and provide explanations following all required data.

DEPRECIATION AND AMORTIZATION OF ELECTRIC PLANT (Account 403, 404, 405)
(Except amortization of aquisition adjustments)

1. Report in section A for the year the amounts for : (b) Depreciation Expense (Account 403; (c) Depreciation Expense for Asset Retirement Costs (Account 403.1; (d) Amortization of Limited-Term Electric Plant (Account 404); and (e) Amortization of Other Electric Plant (Account 405).
2. Report in Section 8 the rates used to compute amortization charges for electric plant (Accounts 404 and 405). State the basis used to compute charges and whether any changes have been made in the basis or rates used from the preceding report year.
3. Report all available information called for in Section C every fifth year beginning with report year 1971, reporting annually only changes to columns (c) through (g) from the complete report of the preceding year.
Unless composite depreciation accounting for total depreciable plant is followed, list numerically in column (a) each plant subaccount, account or functional classification, as appropriate, to which a rate is applied. Identify at the bottom of Section C the type of plant included in any sub-account used.
In column (b) report all depreciable plant balances to which rates are applied showing subtotals by functional Classifications and showing composite total. Indicate at the bottom of section C the manner in which column balances are obtained. If average balances, state the method of averaging used.
For columns (c), (d), and (e) report available information for each plant subaccount, account or functional classification Listed in column (a). If plant mortality studies are prepared to assist in estimating average service Lives, show in column (f) the type mortality curve selected as most appropriate for the account and in column (g), if available, the weighted average remaining life of surviving plant. If composite depreciation accounting is used, report available information called for in columns (b) through (g) on this basis.
4. If provisions for depreciation were made during the year in addition to depreciation provided by application of reported rates, state at the bottom of section C the amounts and nature of the provisions and the plant items to which related.

A. Summary of Depreciation and Amortization Charges

Line No.	Functional Classification (a)	Depreciation Expense (Account 403) (b)	Depreciation Expense for Asset Retirement Costs (Account 403.1) (c)	Amortization of Limited Term Electric Plant (Account 404) (d)	Amortization of Other Electric Plant (Acc 405) (e)	Total (f)
1	Intangible Plant			5,394,178		5,394,178
2	Steam Production Plant	74,402,452				74,402,452
3	Nuclear Production Plant	21,318,701				21,318,701
4	Hydraulic Production Plant-Conventional	3,158,787				3,158,787
5	Hydraulic Production Plant-Pumped Storage	2,667,896				2,667,896
6	Other Production Plant	30,752,598				30,752,598
7	Transmission Plant	24,535,359				24,535,359
8	Distribution Plant	69,501,637				69,501,637
9	Regional Transmission and Market Operation					
10	General Plant	10,032,037				10,032,037
11	Common Plant-Electric	6,930,706		2,598,032		9,528,738
12	TOTAL	243,300,173		7,992,210		251,292,383

B. Basis for Amortization Charges

Electric Intangible Plant (Account 404) consists of the following:
Amortization of Saluda Hydro Project #516, Stevens Creek Project #2535, Neal Shoals Project #2315 and relicensing costs associated with V. C. Summer Nuclear Station. The charges were based on plant balances of Saluda - $793,257, Stevens Creek - $2,268,402 and Neal Shoals - $1,507,161. The associated costs of relicensing the V. C. Summer Nuclear Plant through 2042 is $8,564,832.

Amortization of a steam generator at a cogeneration facility over the contractual term of the facility. The amortization is based on a gross plant amount of $11,144,060.

Data processing software costs of $64,560,552 are being amortized over the expected life of the software application.

Common Plant - Electric (Account 404):
Amortization of data processing software of $124,733,868 over the expected life of the software application.

Schedule Page: 336 Line No.: 12 Column: a

Method of Determination of Depreciation Charges:

The Annual Provisions for Depreciation of Property, with the exception of major construction, are based on straight line rates applied to the prior month ending plant balances. The Annual Provision for Depreciation of major construction projects, if any, are computed based on the number of days that the plant was in service.

Name of Respondent	This Report Is:	Date of Report (Mo, Da, Yr)	Year/Period of Report
South Carolina Electric & Gas Company	(1) [X] An Original (2) [ ] A Resubmission	/ /	End of 2014/Q4

REGULATORY COMMISSION EXPENSES

1. Report particulars (details) of regulatory commission expenses incurred during the current year (or incurred in previous years, if being amortized) relating to format cases before a regulatory body, or cases in which such a body was a party.
2. Report in columns (b) and (c), only the current year's expenses that are not deferred and the current year's amortization of amounts deferred in previous years.

Line No.	Description (Furnish name of regulatory commission or body the docket or case number and a description of the case) (a)	Assessed by Regulatory Commission (b)	Expenses of Utility (c)	Total Expense for Current Year (b) + (c) (d)	Deferred in Account 182.3 at Beginning of Year (e)

South Carolina Electric & Gas Company	(1) [X] An Original (2) [ ] A Resubmission	/ /	End of 2014/Q4

RESEARCH, DEVELOPMENT, AND DEMONSTRATION ACTIVITIES

1. Describe and show below costs incurred and accounts charged during the year for technological research, development, and demonstration (R, D & D) project initiated, continued or concluded during the year. Report also support given to others during the year for jointly-sponsored projects.(Identify recipient regardless of affiliation.) For any R, D & D work carried with others, show separately the respondent's cost for the year and cost chargeable to others (See definition of research, development, and demonstration in Uniform System of Accounts).
2. Indicate in column (a) the applicable classification, as shown below:

Classifications:

A. Electric R, D & D Performed Internally:
- (1) Generation
  - a. hydroelectric
    - i. Recreation fish and wildlife
    - ii Other hydroelectric
  - b. Fossil-fuel steam
  - c. Internal combustion or gas turbine
  - d. Nuclear
  - e. Unconventional generation
  - f. Siting and heat rejection
- (2) Transmission
  - a. Overhead
  - b. Underground
- (3) Distribution
- (4) Regional Transmission and Market Operation
- (5) Environment (other than equipment)
- (6) Other (Classify and include items in excess of $50,000.)
- (7) Total Cost Incurred

B. Electric, R, D & D Performed Externally:
- (1) Research Support to the electrical Research Council or the Electric Power Research Institute

Line No.	Classification (a)	Description (b)

RESEARCH, DEVELOPMENT, AND DEMONSTRATION ACTIVITIES (Continued)

(2) Research Support to Edison Electric Institute
(3) Research Support to Nuclear Power Groups
(4) Research Support to Others (Classify)
(5) Total Cost Incurred

3. Include in column (c) all R, D & D items performed internally and in column (d) those items performed outside the company costing $50,000 or more, briefly describing the specific area of R, D & D (such as safety, corrosion control, pollution, automation, measurement, insulation, type of appliance, etc.). Group items under $50,000 by classifications and indicate the number of items grouped. Under Other, (A (6) and B (4)) classify items by type of R, D & D activity.
4. Show in column (e) the account number charged with expenses during the year or the account to which amounts were capitalized during the year, listing Account 107, Construction Work in Progress, first. Show in column (f) the amounts related to the account charged in column (e)
5. Show in column (g) the total unamortized accumulating of costs of projects. This total must equal the balance in Account 188, Research, Development, and Demonstration Expenditures, Outstanding at the end of the year.
6. If costs have not been segregated for R, D &D activities or projects, submit estimates for columns (c), (d), and (f) with such amounts identified by "Est."
7. Report separately research and related testing facilities operated by the respondent.

Describe and show below costs incurred and accounts charged during the year for technological research, development, and demonstration (R, D & D) project initiated, continued or concluded during the year. Report also support given to others during the year for jointly-sponsored projects.(Identify recipient regardless of affiliation.) For any R, D & D work carried with others, show separately the respondent's cost for the year and cost chargeable to others (See definition of research, development, and demonstration in Uniform System of Accounts).
2. Indicate in column (a) the applicable classification, as shown below:

Classifications:

A. Electric R, D & D Performed Internally:
- (1) Generation
  - a. hydroelectric
    - i. Recreation fish and wildlife
    - ii Other hydroelectric
  - b. Fossil-fuel steam
  - c. Internal combustion or gas turbine
  - d. Nuclear
  - e. Unconventional generation
  - f. Siting and heat rejection
- (2) Transmission
  - a. Overhead
  - b. Underground
- (3) Distribution
- (4) Regional Transmission and Market Operation
- (5) Environment (other than equipment)
- (6) Other (Classify and include items in excess of $50,000.)
- (7) Total Cost Incurred

B. Electric, R, D & D Performed Externally:
- (1) Research Support to the electrical Research Council or the Electric Power Research Institute

DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used.

Line No.	Classification (a)	Direct Payroll Distribution (b)	Allocation of Payroll charged for Clearing Accounts (c)	Total (d)

Schedule Page: 354 Line No.: 81 Column: d

DSM Deferrals, PSI accounts, Stores Expense, and Temporary Facilities.

Name of Respondent South Carolina Electric & Gas Company	This Report Is: (1) [X] An Original (2) [ ] A Resubmission	Date of Report *(Mo, Da, Yr)* / /	Year/Period of Report End of 2014/Q4

COMMON UTILITY PLANT AND EXPENSES

1. Describe the property carried in the utility's accounts as common utility plant and show the book cost of such plant at end of year classified by accounts as provided by Plant Instruction 13, Common Utility Plant, of the Uniform System of Accounts. Also show the allocation of such plant costs to the respective departments using the common utility plant and explain the basis of allocation used, giving the allocation factors.
2. Furnish the accumulated provisions for depreciation and amortization at end of year, showing the amounts and classifications of such accumulated provisions, and amounts allocated to utility departments using the Common utility plant to which such accumulated provisions relate, including explanation of basis of allocation and factors used.
3. Give for the year the expenses of operation, maintenance, rents, depreciation, and amortization for common utility plant classified by accounts as provided by the Uniform System of Accounts. Show the allocation of such expenses to the departments using the common utility plant to which such expenses are related. Explain the basis of allocation used and give the factors of allocation.
4. Give date of approval by the Commission for use of the common utility plant classification and reference to order of the Commission or other authorization.

(1) and (2) See pages 356.1 and 356.2

(3) Common Utility Plant Expenses are not segregated, but charged to utility departments on a functional basis. South Carolina Electric & Gas Company owns all of the Common Utility Plant of SCANA Corporation. Other subsidiaries of SCANA Corporation that benefit from the use of Common Utility Plant are charged directly by South Carolina Electric & Gas Company for their proportionate share of the related expenses.

(4) July 24, 1948

Name of Respondent	This Report Is:	Date of Report (Mo, Da, Yr)	Year/Period of Report

AMOUNTS INCLUDED IN ISO/RTO SETTLEMENT STATEMENTS

1. The respondent shall report below the details called for concerning amounts it recorded in Account 555, Purchase Power, and Account 447, Sales for Resale, for items shown on ISO/RTO Settlement Statements. Transactions should be separately netted for each ISO/RTO administered energy market for purposes of determining whether an entity is a net seller or purchaser in a given hour. Net megawatt hours are to be used as the basis for determining whether a net purchase or sale has occurred. In each monthly reporting period, the hourly sale and purchase net amounts are to be aggregated and separately reported in Account 447, Sales for Resale, or Account 555, Purchased Power, respectively.

PJM Settlement, Inc. prior period adjustments for 2011 and 2012 Balancing Operating Reserves.

This amount has been recorded on the Company's books in Account 565: Transmission of Electricity by Others.

Name of Respondent	This Report Is:	Date of Report (Mo, Da, Yr)	Year/Period of Report
South Carolina Electric & Gas Company	(1) [X] An Original (2) [ ] A Resubmission	/ /	End of 2014/Q4

PURCHASES AND SALES OF ANCILLARY SERVICES

Report the amounts for each type of ancillary service shown in column (a) for the year as specified in Order No. 888 and defined in the respondents Open Access Transmission Tariff.

In columns for usage, report usage-related billing determinant and the unit of measure.

(1) On line 1 columns (b), (c), (d), (e), (f) and (g) report the amount of ancillary services purchased and sold during the year.

(2) On line 2 columns (b) (c), (d), (e), (f), and (g) report the amount of reactive supply and voltage control services purchased and sold during the year.

(3) On line 3 columns (b) (c), (d), (e), (f), and (g) report the amount of regulation and frequency response services purchased and sold during the year.

(4) On line 4 columns (b), (c), (d), (e), (f), and (g) report the amount of energy imbalance services purchased and sold during the year.

(5) On lines 5 and 6, columns (b), (c), (d), (e), (f), and (g) report the amount of operating reserve spinning and supplement services purchased and sold during the period.

(6) On line 7 columns (b), (c), (d), (e), (f), and (g) report the total amount of all other types ancillary services purchased or sold during the year. Include in a footnote and specify the amount for each type of other ancillary service provided.

		Amount Purchased for the Year			Amount Sold for the Year		
		Usage - Related Billing Determinant			Usage - Related Billing Determinant

MONTHLY TRANSMISSION SYSTEM PEAK LOAD

(1) Report the monthly peak load on the respondent's transmission system. If the respondent has two or more power systems which are not physically integrated, furnish the required information for each non-integrated system.
(2) Report on Column (b) by month the transmission system's peak load.
(3) Report on Columns (c) and (d) the specified information for each monthly transmission - system peak load reported on Column (b).
(4) Report on Columns (e) through (j) by month the system' monthly maximum megawatt load by statistical classifications. See General Instruction for the definition of each statistical classification.

The Company does not take bundled retail service under the terms of its Order No. 890 open access transmission tariff, and the Company has not executed a firm network agreement for service to itself. For purposes of this report, this number may be calculated by subtracting the value in column (f) from the value in column (b). These values are listed below:

Month	MWH
January	4,359
February	3,722
March	3,688
April	3,553
May	4,044
June	4,319
July	4,398
August	4,523
September	4,328
October	3,551
November	4,052
December	3,984
Total	48,521

Also includes amounts in columns (g), (i) and (j).

MONTHLY PEAKS AND OUTPUT

1. Report the monthly peak load and energy output. If the respondent has two or more power which are not physically integrated, furnish the required information for each non- integrated system.
2. Report in column (b) by month the system's output in Megawatt hours for each month.
3. Report in column (c) by month the non-requirements sales for resale. Include in the monthly amounts any energy losses associated with the sales.
4. Report in column (d) by month the system's monthly maximum megawatt load (60 minute integration) associated with the system.
5. Report in column (e) and (f) the specified information for each monthly peak load reported in column (d).

NAME OF SYSTEM:

STEAM-ELECTRIC GENERATING PLANT STATISTICS (Large Plants)

1. Report data for plant in Service only. 2. Large plants are steam plants with installed capacity (name plate rating) of 25,000 Kw or more. Report in this page gas-turbine and internal combustion plants of 10,000 Kw or more, and nuclear plants. 3. Indicate by a footnote any plant leased or operated as a joint facility. 4. If net peak demand for 60 minutes is not available, give data which is available, specifying period. 5. If any employees attend more than one plant, report on line 11 the approximate average number of employees assignable to each plant. 6. If gas is used and purchased on a therm basis report the Btu content or the gas and the quantity of fuel burned converted to Mct. 7. Quantities of fuel burned (Line 38) and average cost per unit of fuel burned (Line 41) must be consistent with charges to expense accounts 501 and 547 (Line 42) as show on Line 20. 8. If more than one fuel is burned in a plant furnish only the composite heat rate for all fuels burned.

STEAM-ELECTRIC GENERATING PLANT STATISTICS (Large Plants) *(Continued)*

9. Items under Cost of Plant are based on U. S. of A. Accounts. Production expenses do not include Purchased Power, System Control and Load Dispatching, and Other Expenses Classified as Other Power Supply Expenses. 10. For IC and GT plants, report Operating Expenses, Account Nos. 547 and 549 on Line 25 "Electric Expenses," and Maintenance Account Nos. 553 and 554 on Line 32, "Maintenance of Electric Plant." Indicate plants designed for peak load service. Designate automatically operated plants. 11. For a plant equipped with combinations of fossil fuel steam, nuclear steam, hydro, internal combustion or gas-turbine equipment, report each as a separate plant. However, if a gas-turbine unit functions in a combined cycle operation with a conventional steam unit, include the gas-turbine with the steam plant. 12. If a nuclear power generating plant, briefly explain by footnote (a) accounting method for cost of power generated including any excess costs attributed to research and development; (b) types of cost units used for the various components of fuel cost; and (c) any other informative data concerning plant type fuel used, fuel enrichment type and quantity for the report period and other physical and operating characteristics of plant.

STEAM-ELECTRIC GENERATING PLANT STATISTICS (Large Plants) *(Continued)*

1. Report data for plant in Service only. 2. Large plants are steam plants with installed capacity (name plate rating) of 25,000 Kw or more. Report in this page gas-turbine and internal combustion plants of 10,000 Kw or more, and nuclear plants. 3. Indicate by a footnote any plant leased or operated as a joint facility. 4. If net peak demand for 60 minutes is not available, give data which is available, specifying period. 5. If any employees attend more than one plant, report on line 11 the approximate average number of employees assignable to each plant. 6. If gas is used and purchased on a therm basis report the Btu content or the gas and the quantity of fuel burned converted to Mct. 7. Quantities of fuel burned (Line 38) and average cost per unit of fuel burned (Line 41) must be consistent with charges to expense accounts 501 and 547 (Line 42) as show on Line 20. 8. If more than one fuel is burned in a plant furnish only the composite heat rate for all fuels burned.

STEAM-ELECTRIC GENERATING PLANT STATISTICS (Large Plants) *(Continued)*

9. Items under Cost of Plant are based on U. S. of A. Accounts. Production expenses do not include Purchased Power, System Control and Load Dispatching, and Other Expenses Classified as Other Power Supply Expenses. 10. For IC and GT plants, report Operating Expenses, Account Nos. 547 and 549 on Line 25 "Electric Expenses," and Maintenance Account Nos. 553 and 554 on Line 32, "Maintenance of Electric Plant." Indicate plants designed for peak load service. Designate automatically operated plants. 11. For a plant equipped with combinations of fossil fuel steam, nuclear steam, hydro, internal combustion or gas-turbine equipment, report each as a separate plant. However, if a gas-turbine unit functions in a combined cycle operation with a conventional steam unit, include the gas-turbine with the steam plant. 12. If a nuclear power generating plant, briefly explain by footnote (a) accounting method for cost of power generated including any excess costs attributed to research and development; (b) types of cost units used for the various components of fuel cost; and (c) any other informative data concerning plant type fuel used, fuel enrichment type and quantity for the report period and other physical and operating characteristics of plant.

STEAM-ELECTRIC GENERATING PLANT STATISTICS (Large Plants) *(Continued)*

9. Items under Cost of Plant are based on U. S. of A. Accounts. Production expenses do not include Purchased Power, System Control and Load Dispatching, and Other Expenses Classified as Other Power Supply Expenses. 10. For IC and GT plants, report Operating Expenses, Account Nos. 547 and 549 on Line 25 "Electric Expenses," and Maintenance Account Nos. 553 and 554 on Line 32, "Maintenance of Electric Plant." Indicate plants designed for peak load service. Designate automatically operated plants. 11. For a plant equipped with combinations of fossil fuel steam, nuclear steam, hydro, internal combustion or gas-turbine equipment, report each as a separate plant. However, if a gas-turbine unit functions in a combined cycle operation with a conventional steam unit, include the gas-turbine with the steam plant. 12. If a nuclear power generating plant, briefly explain by footnote (a) accounting method for cost of power generated including any excess costs attributed to research and development; (b) types of cost units used for the various components of fuel cost; and (c) any other informative data concerning plant type fuel used, fuel enrichment type and quantity for the report period and other physical and operating characteristics of plant.

STEAM-ELECTRIC GENERATING PLANT STATISTICS (Large Plants) *(Continued)*

1. Report data for plant in Service only. 2. Large plants are steam plants with installed capacity (name plate rating) of 25,000 Kw or more. Report in this page gas-turbine and internal combustion plants of 10,000 Kw or more, and nuclear plants. 3. Indicate by a footnote any plant leased or operated as a joint facility. 4. If net peak demand for 60 minutes is not available, give data which is available, specifying period. 5. If any employees attend more than one plant, report on line 11 the approximate average number of employees assignable to each plant. 6. If gas is used and purchased on a therm basis report the Btu content or the gas and the quantity of fuel burned converted to Mct. 7. Quantities of fuel burned (Line 38) and average cost per unit of fuel burned (Line 41) must be consistent with charges to expense accounts 501 and 547 (Line 42) as show on Line 20. 8. If more than one fuel is burned in a plant furnish only the composite heat rate for all fuels burned.

In December 2012, the Company retired the 90MW Unit 1 at Canadys Station. In November 2013, the Company retired the remaining units, Unit 2 (115MW) and Unit 3 (180MW).

Schedule Page: 402 Line No.: 1 Column: b

SCE&G's portion (two-thirds) of jointly owned plant.

Instruction No. 12 - V. C. Summer Nuclear Station

(a) Nuclear fuel amortization, which is included in Production Expenses, is recorded using the units-of-production method and, as applicable, through May 15, 2014, includes amounts necessary to satisfy obligations to the United States Department of Energy under a contract for disposal of spent nuclear fuel. Normal operation and maintenance costs are charged to expenses as incurred with appropriate application of the accrual method of accounting. Pursuant to an order issued by the South Carolina Public Service Commission, estimated refueling outage operation and maintenance costs for the five outages scheduled Spring 2014 through Spring 2020 are being accrued over the 90 month period (January 2013 through June 2020) covered by these outages.

(b) Cost is recorded for nuclear fuel on the batch basis. At reload, the number of new assemblies required to complete the core requirement of 157 assemblies is designated as the new batch. All costs for this new batch are reported according to classification of component by batch number. Each batch consists of costs for U308, conversion, enrichment, fabrication, and allowance for funds used during construction.

(c) The V. C. Summer Nuclear Station is a Westinghouse PWR Nuclear Power Plant. Fuel material is U02 contained in Zircaloy tube cladding. The equilibrium cycle has approximately 65.5 metric tons of Uranium metal with a nominal U-235 enrichment of 4.6% to 4.8%. The reactor is licensed to allow operation of 2900 MWt.

Schedule Page: 403 Line No.: 5 Column: f

As of December 2013, no remaining units were in service. Therefore, no installed capacity is being reported for this plant.

Schedule Page: 403 Line No.: 18 Column: f

As of December 2013, no remaining units were in service and the only remaining cost (asset value) is land. Therefore, no "cost per KW installed capacity" is being reported for this plant.

Schedule Page: 403.1 Line No.: 2 Column: e

Parr Steam Plant functions in a combined cycle operation with four gas turbine peaking units and two heat recovery boilers. Production expenses and fuel data are for the entire operation. See column (e), lines 19-44 for combined data on Parr units.

This is a rooftop mounted solar electric generator that provides electricity exclusively for use by a large commercial customer. None of the output flows onto the grid.

Schedule Page: 403.5 Line No.: -1 Column: f
The major maintenance accrual represents an SCPSC approved (SCPSC Docket No. 2009-489-E) annual accrual of $18.4 million through 2017. The Company is allowed to collect $18.4 million through retail electric rates to offset expenditures relating to certain turbine maintenance. Under this mechanism, the Company records an annual expense accrual of $18.4 million and records any difference between actual expenses incurred and this accrual as a regulatory asset or liability as appropriate. Prior to July, 2010, the Company had an annual accrual of $8.5 million per approved SCPSC Docket No. 2004-178-E.

For the year ended December 31, 2014, the Company incurred actual expenses in the amount of $19.4 million for major maintenance that is subject to this accrual. Cumulative costs for turbine maintenance in excess of cumulative collections are classified as a regulatory asset on the balance sheet.

PUMPED STORAGE GENERATING PLANT STATISTICS (Large Plants) (Continued)

6. Pumping energy (Line 10) is that energy measured as input to the plant for pumping purposes.
7. Include on Line 36 the cost of energy used in pumping into the storage reservoir. When this item cannot be accurately computed leave Lines 36, 37 and 38 blank and describe at the bottom of the schedule the company's principal sources of pumping power, the estimated amounts of energy from each station or other source that individually provides more than 10 percent of the total energy used for pumping, and production expenses per net MWH as reported herein for each source described. Group together stations and other resources which individually provide less than 10 percent of total pumping energy. If contracts are made with others to purchase power for pumping, give the supplier contract number, and date of contract.

TRANSMISSION LINE STATISTICS

1. Report information concerning transmission lines, cost of lines, and expenses for year. List each transmission line having nominal voltage of 132 kilovolts or greater. Report transmission lines below these voltages in group totals only for each voltage.
2. Transmission lines include all lines covered by the definition of transmission system plant as given in the Uniform System of Accounts. Do not report substation costs and expenses on this page.
3. Report data by individual lines for all voltages if so required by a State commission.
4. Exclude from this page any transmission lines for which plant costs are included in Account 121, Nonutility Property.
5. Indicate whether the type of supporting structure reported in column (e) is: (1) single pole wood or steel; (2) H-frame wood, or steel poles; (3) tower; or (4) underground construction If a transmission line has more than one type of supporting structure, indicate the mileage of each type of construction by the use of brackets and extra lines. Minor portions of a transmission line of a different type of construction need not be distinguished from the remainder of the line.
6. Report in columns (f) and (g) the total pole miles of each transmission line. Show in column (f) the pole miles of line on structures the cost of which is reported for the line designated; conversely, show in column (g) the pole miles of line on structures the cost of which is reported for another line. Report pole miles of line on leased or partly owned structures in column (g). In a footnote, explain the basis of such occupancy and state whether expenses with respect to such structures are included in the expenses reported for the line designated.

TRANSMISSION LINE STATISTICS (Continued)

7. Do not report the same transmission line structure twice. Report Lower voltage Lines and higher voltage lines as one line. Designate in a footnote if you do not include Lower voltage lines with higher voltage lines. If two or more transmission line structures support lines of the same voltage, report the pole miles of the primary structure in column (f) and the pole miles of the other line(s) in column (g)
8. Designate any transmission line or portion thereof for which the respondent is not the sole owner. If such property is leased from another company, give name of lessor, date and terms of Lease, and amount of rent for year. For any transmission line other than a leased line, or portion thereof, for which the respondent is not the sole owner but which the respondent operates or shares in the operation of, furnish a succinct statement explaining the arrangement and giving particulars (details) of such matters as percent ownership by respondent in the line, name of co-owner, basis of sharing expenses of the Line, and how the expenses borne by the respondent are accounted for, and accounts affected. Specify whether lessor, co-owner, or other party is an associated company.
9. Designate any transmission line leased to another company and give name of Lessee, date and terms of lease, annual rent for year, and how determined. Specify whether lessee is an associated company.
10. Base the plant cost figures called for in columns (j) to (l) on the book cost at end of year.

TRANSMISSION LINE STATISTICS

1. Report information concerning transmission lines, cost of lines, and expenses for year. List each transmission line having nominal voltage of 132 kilovolts or greater. Report transmission lines below these voltages in group totals only for each voltage.
2. Transmission lines include all lines covered by the definition of transmission system plant as given in the Uniform System of Accounts. Do not report substation costs and expenses on this page.
3. Report data by individual lines for all voltages if so required by a State commission.
4. Exclude from this page any transmission lines for which plant costs are included in Account 121, Nonutility Property.
5. Indicate whether the type of supporting structure reported in column (e) is: (1) single pole wood or steel; (2) H-frame wood, or steel poles; (3) tower; or (4) underground construction If a transmission line has more than one type of supporting structure, indicate the mileage of each type of construction by the use of brackets and extra lines. Minor portions of a transmission line of a different type of construction need not be distinguished from the remainder of the line.
6. Report in columns (f) and (g) the total pole miles of each transmission line. Show in column (f) the pole miles of line on structures the cost of which is reported for the line designated; conversely, show in column (g) the pole miles of line on structures the cost of which is reported for another line. Report pole miles of line on leased or partly owned structures in column (g). In a footnote, explain the basis of such occupancy and state whether expenses with respect to such structures are included in the expenses reported for the line designated.

Line No.	DESIGNATION		VOLTAGE (KV) (Indicate where other than 60 cycle, 3 phase)		Type of Supporting Structure (e)	LENGTH (Pole miles) (In the case of underground lines report circuit miles)		Number Of Circuits (h)

South Carolina Electric & Gas Company	(1) [X] An Original (2) [ ] A Resubmission	/ /	End of 2014/Q4

SUBSTATIONS

1. Report below the information called for concerning substations of the respondent as of the end of the year.
2. Substations which serve only one industrial or street railway customer should not be listed below.
3. Substations with capacities of Less than 10 MVa except those serving customers with energy for resale, may be grouped according to functional character, but the number of such substations must be shown.
4. Indicate in column (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended. At the end of the page, summarize according to function the capacities reported for the individual stations in column (f).

Name of Respondent	This Report Is:	Date of Report (Mo, Da, Yr)	Year/Period of Report
South Carolina Electric & Gas Company	(1) [X] An Original (2) [ ] A Resubmission	/ /	End of 2014/Q4

SUBSTATIONS

1. Report below the information called for concerning substations of the respondent as of the end of the year.
2. Substations which serve only one industrial or street railway customer should not be listed below.
3. Substations with capacities of Less than 10 MVa except those serving customers with energy for resale, may be grouped according to functional character, but the number of such substations must be shown.
4. Indicate in column (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended. At the end of the page, summarize according to function the capacities reported for the individual stations in column (f).

Schedule Page: 426.7 Line No.: 21 Column: c

Various

Name of Respondent	This Report Is:	Date of Report (Mo, Da, Yr)	Year/Period of Report
South Carolina Electric & Gas Company	(1) [X] An Original (2) [ ] A Resubmission	/ /	End of 2014/Q4

TRANSACTIONS WITH ASSOCIATED (AFFILIATED) COMPANIES

1. Report below the information called for concerning all non-power goods or services received from or provided to associated (affiliated) companies.
2. The reporting threshold for reporting purposes is $250,000. The threshold applies to the annual amount billed to the respondent or billed to an associated/affiliated company for non-power goods and services. The good or service must be specific in nature. Respondents should not attempt to include or aggregate amounts in a nonspecific category such as "general".
3. Where amounts billed to or received from the associated (affiliated) company are based on an allocation process, explain in a footnote.

Line No.	Description of the Non-Power Good or Service (a)	Name of Associated/Affiliated Company (b)	Account Charged or Credited (c)	Amount Charged or Credited (d)

Incentive compensation costs are included in the Employee Services category.

The Financial Services category includes depreciation, property taxes, accrued payroll and other costs recorded at a corporate level by SCANA Services, Inc.

Allocated costs billed from SCANA Services, Inc. are billed using one of the accepted methodologies described below.

1. Information Systems Charge-back Rates - Rates for services, including but not limited to Software, Consulting, Mainframe, Midtier and Network Connectivity Services, are based on the costs of labor, materials and Information Services overheads related to the provision of each service. Such rates are applied based on the specific equipment employed and the measured usage of services by Client Entities. These rates are determined annually based on actual experience and may be adjusted for any known and reasonably quantifiable events, or at such time as may be required due to significant changes.

2. Margin Revenue Ratio - "Margin" is equal to the excess of sales revenues over the applicable cost of sales, i.e., cost of fuel for generation and gas for resale. The numerator is equal to margin revenues for a specific Client Entity and the denominator is equal to the combined margin revenues of all the applicable Client Entities. This ratio is evaluated annually based on actual results of operations and may be adjusted for any known and reasonably quantifiable events, or at such time, based on results of operations for a subsequent twelve-month period, as may be required due to significant changes.

3. Number of Customers Ratio - A ratio based on the number of customers served by each subsidiary or operating unit. This ratio is determined annually based on actual number of customers and may be adjusted for any known and reasonably quantifiable events, or at such time as may be required due to significant changes.

4. Number of Employees Ratio - A ratio based on the number of employees benefiting from the performance of a service. This ratio is determined annually based on actual counts of applicable employees and may be adjusted for any known and reasonably quantifiable events, or at such time as may be required due to significant changes.

5. Three-Factor Formula - This formula is determined annually based on the average of gross property, payroll charges (salaries and wages, including overtime, shift premium and holiday pay, but not including pension, benefit and company paid payroll taxes) and gross revenues and may be adjusted for any known and reasonably quantifiable events, or at such time as may be required due to significant changes.

6. Modified Three-Factor Method - A ratio for the allocation of non-directly assigned corporate governance costs. The Modified Three-Factor Method provides for an allocation of costs to the principal holding company; the Three-Factor Method does not. The formula is determined annually based on the average of gross property, payroll charges (salaries and wages, including overtime, shift premium and holiday pay, but not including pension, benefit and company paid payroll taxes) and gross revenues. For the purpose of the Modified Three-Factor Method, the dividends resulting from operations of the subsidiaries are used as a proxy for revenues for the principal holding company.

7. Telecommunications Charge-back Rates - Rates for use of telecommunications services other than those encompassed by Information Systems Charge-back Rates are based on the costs of labor, materials, outside services and Telecommunications overheads. Such rates are applied based on the specific equipment employment and the measured usage of services by Client Entities. These rates are determined annually based on actual experience and may be adjusted for any known and reasonably quantifiable events, or at such time as may be required due to significant changes.

8. Gas Sales Ratio - A ratio based on the actual number of dekatherms of natural gas sold by the applicable gas distribution or marketing operations. This ratio is determined annually based on actual results of operations and may be adjusted for any known and reasonably quantifiable events, or at such time, as may be required due to significant changes.

Schedule Page: 429 Line No.: 21 Column: d

Amount based on measured usage of assets to include computer resource usage, margin revenues, three factor formula and number of employees.

First Continuing Audit Request
Docket No. 2017-370-E

Response No. 1-15

The billing determinants for each rate schedule for the test year are as follows:

RESIDENTIAL

Rate 1		
# of bills		257,018
1st 800 kwh	All	181,267,112
Over 800 kwh	Summer	61,302,745
	Non-Summer	65,301,623
Rate 2		
# of bills		184,517
All kwh	All	23,133,328
Rate 5		
# of bills		850
On-Peak kwh	Summer	68,772
	Non-Summer	71,874
Off-Peak kwh	All	850,338
Rate 6		
# of bills		377,438
1st 800 kwh	All	262,408,722
Over 800 kwh	Summer	88,715,453
	Non-Summer	91,541,735
Rate 7		
# of bills		121
On-Peak KW	Summer	292
	Non-Summer	618
On-Peak kwh		31,126
Off-Peak kwh		234,480
Rate 8		
# of bills		6,534,257
1st 800 kwh	All	4,289,623,310
Over 800 kwh	Summer	1,244,331,989
	Non-Summer	1,216,930,173
