

APPLICATION

South Carolina 2021 Rural Broadband Grant Program

Applicant Information

Applicant Name/Organization **Lynches River Electric Cooperative, Inc**

Applicant FCC Registration Number (FRN) **0029688389**

Primary Contact Name **Dustin Catoe**

Title **CFO**

Mailing Address **PO Box 308**

Phone Number **843-675-3224**

City, State, Zip **Pageland, SC 29728**

Email **Dustin.Catoe@LynchesRiver.com**

Broadband Service Provider Experience

Date of Applicant's Initial FCC Form 477 Submission **Dec 31, 2020**

Date of Applicant's Most Recent FCC Form 477 Submission **Dec 31, 2020**

Applicant and/or Project Partner has Experience:

- Delivering broadband service via fiber and/or hybrid fiber-coax infrastructure
- Delivering broadband service via fixed wireless infrastructure
- Building and operating broadband networks in rural areas
- Operating broadband networks in low-moderate income areas

Broadband Infrastructure Information

Indicate the type(s) of broadband infrastructure technology to be deployed in the project area.

Fiber to the Premises Minimum Sustainable Download/Upload Speeds **300/300 mbs**

Hybrid fiber-coax Minimum Sustainable Download/Upload Speeds
(symmetrical upload/download speeds)

Hybrid fiber-coax Minimum Sustainable Download/Upload Speeds
(non-symmetrical upload/download speeds)

Fixed wireless Minimum Sustainable Download/Upload Speeds

Broadband Pricing Schedules or Tiers

Indicate all rate tiers for wireline projects of at least 100/20 Mbps or fixed wireless at 50/5 Mbps or faster that will be offered to customers in the project area:

- | | |
|---|---|
| <input type="checkbox"/> Rates less than \$10/month | <input type="checkbox"/> Rates between \$20 - \$24.99/month |
| <input type="checkbox"/> Rates between \$10 - \$14.99/month | <input type="checkbox"/> Rates between \$25 - \$34.99/month |
| <input type="checkbox"/> Rates between \$15 - \$19.99/month | |

Project Timeline

Project Start Date	As soon as NTP recieved	Customer Premises	
Project Construction Activity Begins	Aug 1st/or NTP date	<i>Installations Begin</i>	December 31, 2021
Project Construction Activity Complete	Oct 31, 2022	<i>Installations End</i>	Oct 31, 2022
		Overall Project Completion Date	Oct 31, 2022

Project Cost Information

Total Project Cost	\$907,961	Average Cost per Location Served <i>(all locations or structures)</i>	\$3,799
Upfront Cost Requirements	25,000		
Cost of Building and/or Extending Infrastructure to Customer Premises	\$882,961	Average Cost per Housing Unit	\$3,799
		Average Cost per Business	\$3,799

Project Funding Information

South Carolina Rural Broadband Grant Program Funds requested (\$) \$453,981

Applicant-Provided Funding (\$) \$453,981

Non-Public Funding

Amount (\$)

Source(s)

Additional Information

- 1) Describe Applicant's and/or project Partner's experience building and/or operating broadband networks.

Please see attached

- 2) Describe how your proposal meets the needs of the community to be served as described in the "Guidelines."

Please see attached

- 3) Describe any plans or programs you have developed to improve adoption in the community described in this proposal. Please include letters of support from key community partners that indicate their awareness of your project.

Please see attached

- 4) Provide documents that demonstrate your organization currently has the necessary funds (50% of total project cost) to complete this project/proposal. List documents here and attach documents to this proposal.

Please see attached

- 5) List any lease, franchise agreement, interconnection agreement, authorization, permit, or other items needed to complete this project.

Please see attached

Attachments and Exhibits

Please attach the following items to application:

- Map of project area (*PDF and Shapefile formats*)
- Letters of support evidencing community need and strategic partnerships
- Any additional information evidencing community need for project
- Most recent FCC Form 477 filing

Certification and Signature

CERTIFICATION: The Applicant certifies that information included in this application is factual to their knowledge.

Signature:

Print Name of Signatory: Dustin P Catoe

Title of Signatory: CFO

Date: May 12, 2021

All questions and completed applications should be submitted to Broadband@ORS.SC.GOV

Facsimile signatures and email signatures shall be as effective as original signatures to bind any party.

Describe Applicant's and/or project Partner's experience building and/or operating broadband networks.

Over the past two years, Lynches River Electric Cooperative (LREC) has led the way in creating equal access to high-speed, fiber internet in Chesterfield, Lancaster and Kershaw counties. Beginning in the fall of 2019, well before the COVID-19 pandemic reinvigorated the community focus on broadband internet for rural communities, LREC and RiverNet Connect began overseeing the development and execution of engineering plans to serve over 7,000 homes. Since connecting the first RiverNet customer in September of 2020, RiverNet's customers have grown to over 1,350 throughout the LREC service territory with more joining each day. The current network provides the highest quality fiber service over 500 miles of line in the three different counties. The network is maintained by an experienced group of dedicated employees with over 125 combined years of experience in the broadband industry.

Describe how your proposal meets the needs of the community to be served as described in the "Guidelines." Use additional pages if necessary.

LREC, in conjunction with its fiber subsidiary, has made a priority of identifying underserved and unserved areas throughout Chesterfield, Lancaster and Kershaw counties. As a matter of fact, all the areas identified in this application are categorized as 0 percent 25/3 access as indicated on the ORS unserved areas map. We recognize the positive exponential impact that equal access to broadband can have on the community we serve and the implications that access to broadband has on a student's access to quality education. Because of this connection, we are committed to providing our community and each of its citizens with access to world class internet service regardless of where an individual resides.

As we expand our service area, we continue to identify and prioritize our most vulnerable communities throughout the three counties we serve. Each of our currently active zones bring service to rural areas and bring high-speed internet to previously unserved homes. Our team also recognized the inequity in access for families of a lower socioeconomic status and is actively targeting specific communities with high poverty levels in comparison to the state average.

Describe any plans or programs you have developed to improve adoption in the community described in this proposal. Please include letters of support from key community partners that indicate their awareness of your project.

Rome wasn't built in a day and neither are fiber optic networks. At Lynches River Electric Cooperative, we desperately wish we could connect every consumer in need immediately. Though we all recognize this impossibility, our construction crews have been working with unmatched dedication to reach as many consumers as possible, as quickly as possible. In order to subsidize traditional fiber service, we have developed the Community Fiber initiative to accelerate access to internet for a greater number of individuals.

Through our Community Fiber initiative, LREC and RiverNet have partnered with community leaders to identify churches and community centers that serve as gathering places for citizens. RiverNet and LREC have prioritized these locations to receive service and have donated equipment to create free community fiber hotspots. These hotspots have the capability to provide 300 Mbps speeds to at least 50 devices at one time. At this time, there are three active Community Hotspots located in Pageland, Heath Springs and the Buford Community. In addition, we have the equipment on hand to create seven additional hot spot locations as we broaden our service area and identify areas that are most in need of access to internet.

In addition, RiverNet is hosting community information sessions to educate consumers on the various benefits and components of fiber optic internet. These sessions will provide information on virtual tools like Zoom, streaming services, wireless routers, hotspots and more. In addition, employee experts will be on hand to answer questions and troubleshoot common problems consumers are experiencing. We hope this initiative will remove the knowledge barrier many underserved communities face.

Finally, in response to requests from some of our underprivileged and underserved community members, RiverNet has begun offering an installation option that does not require an install fee. Our member service representatives quickly realized that the set-up fee prevented many community members from accessing high-quality internet service. As we continue with this project, our team will remain reactive and responsive to the needs of our community to ensure we create the highest possibly adoption level possible, especially in our most vulnerable communities.

4. Provide documents to establish proof that your organization has the necessary funds (50% of total project cost) to complete this project/proposal. List documents here and attach documents to this proposal.

Lynches River Electric has available up to \$5 million in a multiple advance promissory note from CoBank. These funds are more than enough to provide for the 50 percent funding of the total project cost. Please see attached document CoBank Multiple Advance Term Promissory Note.

5. List any lease, franchise agreement, interconnection agreement, authorization, permit, or other item needed to complete this project.

We are not in need of any agreement, permit or other item to complete this project.

Mr. Brian Broughton, CEO
Lynches River Electric Cooperative
P.O. Box 308
Pageland, S.C. 29728

Dear Brian:

As a member of the S.C. House of Representatives serving parts of Chesterfield and Lancaster counties, I want to commend you, Lynches River Electric Cooperative and RiverNet Connect for the important role you are playing in bringing broadband internet to our communities. Your new subsidiary offers a tremendous boost to our economic development and the local economy. Corporate entities and industries looking for a new home cite broadband internet as a priority on their checklist of needs. Existing small businesses benefit as well. A broadband infrastructure allows them to move their commerce online, almost a necessity in today's economy.

Of course, RiverNet Connect is going to be great for everyone's quality of life. Our neighbors can more easily access telehealth options, like a doctor's "visit" from home. Our students, when necessary, can fully take advantage of the virtual education options that schools and colleges offer. And community hot spots RiverNet Connect has provided in Pageland, Buford, and Heath Springs allow everyone access to these services.

RiverNet Connect's fiber-optic internet is bringing a new standard of rural broadband to Chesterfield, Lancaster and Kershaw counties. If there is anything I can do to assist in this endeavor, please let me know.

Sincerely,

A handwritten signature in black ink, appearing to read "Richie Yow". The signature is stylized and includes a circled number "53" at the end.

Council Members

District 1

Bruce E. Rivers

Dear Mr. Broughton:

If the pandemic has taught us anything, it has proven that access to broadband is the great equalizer. It enables a virtual workforce, distance learning, and telemedicine, and connects local communities to the global economy.

District 2

Gerald L. Miller

Yet, more than 21 million Americans lack high-speed internet access simply because of their zip code. On behalf of the Chesterfield County Council, we applaud the efforts of RiverNet Connect and Lynches River Electric Cooperative in addressing this digital divide and your investment in rural broadband.

District 3

Kenneth A. Johnson

District 4

Douglas A. Curtis

District 5

Benjamin Conklin, Jr.

While promises of reliable internet have been made for years by other entities, Chesterfield County is finally seeing that something is being done, thanks to RiverNet Connect. Access to high-speed internet is crucial to our county's economic success. Not only does it retain and grow businesses, it ultimately improves the quality of life for everyone, including the community hot spots RiverNet Connect has provided in Pageland and other locations within your service area.

District 6

Hattie Burns

District 7

Ralph E. Watson

Thanks to you and your staff at RiverNet Connect and Lynches River Electric Cooperative for what you are doing to make rural America competitive.

District 8

Mary Anderson

District 9

William R. Butler

Sincerely,

Administrator

Timothy L. Eubanks
